This course is an advanced examination of emotional, cognitive, physical, and social development from infancy through adolescence. The process of human development as a complex interaction of biological and sociocultural factors is reviewed. Contemporary research topics focusing on genetics, fertility, attachment, communication, and cognitive and moral aspects of development are examined. *Meets the General Education Requirement: Social Science.*

PRPS 355, Psychology of Adult Development, 3 Units

This course is an advanced examination of the emotional, cognitive, physical, and social development of individuals from young adulthood through the end of life. The process of adult development as an interplay of biological, psychological, cognitive, and psychosocial aspects is examined. Emphasis is on normal patterns in personal and emotional development in adulthood, as well as on contemporary research in areas of health, gender, marriage and relationships, family and parenting, ethnic/ecological systems, work, ethics, and morality.

PRPS 360, Abnormal Psychology, 3 Units

The major focus of this course is mental illness and abnormal behavior in light of modern theory and knowledge. Current trends and modern methods of diagnosis, understanding, treatment, and prevention are discussed.

PRPS 362, Research Methods in Psychology, 3 Units

Students engage in a comprehensive overview of quantitative and qualitative research methods used in psychological research, and gain an understanding of the ethical considerations and other challenges involved in good research design. Students also complete a research project and learn to write utilizing the style adopted by the American Psychological Association.

Prerequisite: PRPS 250 and PRWR 260

PRPS 370, Industrial/Organizational Psychology, 3 Units

Students survey the basic behavioral science research and thinking as they contribute to industrial and organizational psychology, including worker attitudes and theories of motivation, organizational structure and communication, theories of leadership and decision making, conflict resolution, and methods of personnel selection and appraisal.

PRPS 375, Psychology of Conflict Management and Mediation, 3 Units

Students in this course develop a psychological understanding of the dynamics of human conflict, the differences between constructive and destructive conflict, and the different ways in which conflict can be managed, resolved, and transformed. Students also learn basic skills in the management and resolution of conflict.

PRPS 380, Psychology of Personality, 3 Units

Students in this course become familiar with the various basic elements of personality and their integration, exploring concepts regarding the basic components of personality and the processes that undergird an individual's growth and behavior. Course material also covers current and traditional theories of personality.

PRPS 383, Psychology of Suicide, 3 Units

This course gives students an overview of suicidal behavior, including terminology, statistics, theories, and interventions, that addresses this sensitive topic from a biopsychosocial-spiritual perspective. Students also have opportunities to learn fundamental skills in suicide assessment, safety planning, and interventions to reduce suicide.

PRPS 385, Health Psychology, 3 Units

This is a survey course exploring the role of psychology as it relates to human physiology and the health field. Topics include basic neurology, stress management, nutrition, addictive substances, immunological disorders, and other relevant psychophysiological areas.

PRPS 386, Community Psychology, 3 Units

This course is designed to give students an introduction to the field of community psychology. This area of psychology is concerned with the scientific study of social structures and their influence on individuals, groups, and organizations. The main focus will be on the development and application of community-based psychological theory and research to understanding, designing, implementing, and evaluating social change and empowerment. The roles of research and social action at multiple levels of analysis to facilitate social change will be examined.

PRPS 390, Cognition, 3 Units

This course offers an overview of cognitive psychology. Students discuss theories and research concerning sensation, perception, memory, and other higher-order mental processes including imagery, language, creativity, concept formation, and decision making.

PRPS 400, Multicultural Psychology, 3 Units

This course introduces students to cultural and multicultural psychology sub disciplines in psychology. Students develop knowledge of the history, major tenets, theories, research findings and behavioral practices in multicultural psychology. Students also gain understanding of the cultural bases for psychological processes. Students develop awareness, knowledge and skills for engaging in intercultural and multicultural contexts. Students are also asked to advance their cultural self-knowledge as well as knowledge of diverse others in order to develop multicultural competence in working with individuals from diverse backgrounds. *Meets the General Education Requirement: Intercultural Competence.*

PRPS 405, Psychology of Learning, 3 Units

This course examines several major theories and research in the psychology of learning, as well as how learning theories have developed historically and how learning principles apply to psychological problems.

PRPS 410, Psychology of Exceptional Children, 3 Units

Students examine and analyze the problems faced by the exceptional child. Course material covers physical and emotional adjustment, speech and language disorders, various childhood disorders such as mental retardation and depression, and other childhood mental and physical disorders.

PRPS 415, Group Process, 3 Units

Students in this course survey the basic behavioral science research and thinking as applied to human interaction in groups. This includes such topics as group formation, phases, structure, types and uses of groups, group communication, group conflict resolution, and methods of group leadership. Course includes the observation and evaluation of group interaction.

PRPS 420, Political Psychology, 3 Units

This course addresses political phenomena from a psychological perspective, and students are encouraged to develop civic knowledge, apply psychological theory within political contexts, and identify determinants of political behavior. Course content includes political attitudes and identity, leadership and group influence, voting behavior, nationalism, social movements, terrorism, and international conflict/resolution. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

PRPS 430, Intervention Strategies with Children, 3 Units

This course introduces a broad range of assessment and intervention strategies designed to meet the developmental, psychomotor, language, behavioral, and education needs of children. Issues of normative and non-normative child and family functioning in child assessment and intervention planning are considered. Observational techniques, standardized tests, informal assessment measures, developmental assessments, and alternatives to current testing practices are discussed and reviewed from the viewpoints of the multiple disciplines impacting child assessment and intervention. The broad range of modalities utilized in intervention with children is given strong emphasis, with observation and student practice required at an intervention site.

PRPS 432, Psychosocial Interventions in Pediatric Health Care, 3 Units

This is a core course in the child life specialist curriculum, covering a wide range of recreational and psychosocial interventions for children who are hospitalized, chronically ill, or have disabilities. Students learn various intervention techniques using developmental play, music, art, dance, and other forms of recreation, and gain understanding of the role of the child life specialist as a member of an interdisciplinary medical team.

PRPS 440, Psychology of Religion, 3 Units

This course investigates the common ground between psychology and religion. Values, mature religion, the nature of humanity, and religious experience are all areas of study for this purpose.

PRPS 445, Psychology of the Family, 3 Units

This course provides an overview of the field of family psychology. The three primary areas of study are: family systems theory, the family lifecycle, and several theoretical frameworks for the study of families. Students are given the opportunity to apply these concepts to their own family of origin.

PRPS 450, Counseling Theory, 3 Units

This course is an introduction to counseling and psychotherapy, with students exploring the underlying assumptions and practices of traditional and contemporary counseling theories. Students also explore common ethical concerns that emerge in counseling relationships.

PRPS 451, Interventions in Counseling, 3 Units

This course introduces counseling methods and practices; legal and ethical codes of conduct for counseling professionals; community prevention, education, and early intervention methods; interviewing; screening; and interventions in counseling. Students practice basic counseling assessment and intervention methods, including crisis management and safety practices. This course meets criteria for Domain IV of the CCAPP certification requirements.

PRPS 453, Bilingualism, Biculturalism, and Cognition, 3 Units

This course provides students with an overview of issues in bilingualism and biculturalism from a cognitive perspective. Theories and research concerning knowledge representation, bilingual cognition (language acquisition, production, comprehension, and variations in executive functions), and bicultural cognition (cognitive consequences of culture-specific knowledge) are discussed. Students enrolled in this course may be required to share information regarding their personal life, family, or relationships.

PRPS 455, Field Experience, 3 Units

This course is for students who have completed most of the psychology or sociology major requirements. Each student participates in one or more endeavors that offer an opportunity to apply prior training to a professional setting while acquiring new knowledge. This course can be repeated for a total of 6 units counted toward the major and 9 units toward the degree. *Meets the General Education Requirement: Integrative and Applied Learning.*

PRPS 463, Drugs, Behavior, and Society, 3 Units

This course provides an overview of drug use historically and in contemporary society from community and biopsychosocial perspectives. Students engage in an in-depth study of various psychoactive drugs of abuse, including physiological, psychosocial, health, legal, and political aspects of drugs. Course material covers drug-taking risk behaviors and issues related to dependence among high-risk populations. Strategies for drug abuse prevention/education and intervention approaches are also examined.

PRPS 464, Substance Use Assessment and Interventions, 3 Units

Students in this course gain an in-depth understanding of empirically driven and theoretically grounded assessments and interventions for substance use issues, focusing on how to engage in effective screening and assessment protocols for substance use problem identification and service planning. Students participate in practical application of evidence-based interventions, including the use of case studies and a variety of practice exercises. Course material integrates foundational assessment and intervention models for addressing co-occurring mental health needs, family system issues, and patient-centeredness, including spirituality.

PRPS 466, Case Management in Mental Health and Substance Use Disorders, 3 Units

This course offers an overview of the theory, structure, and practice of case management. Students gain an understanding of the professional practice of case management, including scope and responsibilities, multidisciplinary and ecological systems engagement, cultural and diversity factors, and ethical and legal issues. Students develop skills in effective communication, clinical documentation, case management facilitation, managing interpersonal and individual dynamics, case management interviewing, intervention planning, and implementation of services.

PRPS 470, Cognitive Neuroscience, 3 Units

Cognitive neuroscience as a field studies the relationship between cognitive processes and the brain. Students will first learn about the major research methods in this field, such as lesion studies, brain imaging, and animal models. The majority of the course will then describe how these methods have been used to inform our understanding about the neural correlates of memory, decision-making, perception, and social cognition.

PRPS 472, Neurological and Behavioral Disorders, 3 Units

This course examines the neurobiology of various psychological and neurological diseases. Neurological disorders covered include developmental, tumors, seizures, strokes, traumatic brain injury, neurodegenerative, and infectious disease. Behavioral disorders include schizophrenia, major affective disorders, anxiety disorders, autism, attention-deficit hyperactivity disorder, stress disorders, sleeping and eating disorders. The neurobiology of drug abuse will be analyzed based on common features of addiction, pathways affected by commonly abused drugs and heredity factors.

PRPS 475, Research Experience I, 1-3 Units

Students in this course improve their research skills and integrate their knowledge, skills, and interests by conducting a comprehensive research project. Successful completion of the course results in an APA-style paper or submission of a paper or poster presentation to a professional organization or in a professional setting. Concurrent enrollment in another research practicum course is permitted, and 12 units of research experience in PRPS 475 can be counted toward the bachelor's degree requirements. *Meets the General Education Requirement: Integrative and Applied Learning.*

PRPS 480, Psychological Testing and Measurement, 3 Units

Students gain a thorough background in objective tests and measurements. A brief survey is offered in intelligence, personality, organization, and industrial psychological measures. Terminology is developed, dangers and advantages of psychological instruments are discussed, and each student is required to administer and interpret a number of instruments. Special materials fee applies. Course is offered to juniors, seniors, and graduate students only.

PRPS 485, Stress and Coping, 3 Units

This course provides an overview of stress and coping theory as it has developed in the research literature in the last century. The interrelationships between stress and mental illness, medical diseases, and industrial-organizational factors are discussed. Students develop a basic understanding of stress as it relates to trauma and posttraumatic symptomology. Students gain an understanding of basic stress management and coping techniques and their clinical applications.

PRPS 494, Professional Studies in Child Life, 3 Units

This course helps students gain a broad understanding of the field of child life and equips them with the knowledge of the history and trends of the child life profession, as required by the Association of Child Life Professionals. Course content includes: 1) Scope of practice in child life, 2) child life documents, 3) impact of illness/injury and health care on patients and families, 4) family-centered care, 5) therapeutic play, and 6) preparation. Additional topics include, but are not limited to, clinical assessment, child life theoretical foundations, development and hospital stressors, and introduction to exceptional and medically challenged children.

PRPS 495, Special Topics in Psychology, 3 Units

This course engages students in focused study of particular topics of direct relevance or urgency in the field of psychology which are not already discussed in the curriculum. Topics vary from semester to semester and may reflect new practices, theories, or faculty research interests in the field. This course may be taken more than once as topics change.

PRPS 496, Writing 3: Senior Seminar in Psychology and Christian Integration, 3 Units

Students in this course discuss and critically evaluate the core ideas in the integration of psychology and the Christian faith, exploring the 4-5 established approaches for how to integrate what is known from psychological science and what is known from biblical hermeneutics and theology. Upon completion of the course, students are able to define and communicate an awareness of the issues and various approaches for integration, as well as identify and communicate the application of the integration of psychology and the Christian faith in their own lives and practice of psychology. This writing-intensive course develops students' ability to think critically and construct complex arguments related to psychology and Christianity. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

Prerequisite: Junior standing and PRWR 260

PRPS 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed, by a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

PRPS 498, Directed Research, 1-4 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.

PRPS 499, Thesis/Project, 1-4 Units

This is a senior-level "capstone" type of independent study/research experience, involving the student in a unique project with a sophisticated level of research, synthesis, analysis, and communication. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying readings, log, instructor discussions, and writing of summary analysis and conclusions. The thesis or project may result in formal thesis, published article, electronic media, or artistic creation of a material form. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.

BA in Psychology

48 units

The BA in Psychology (<https://www.apu.edu/bas/programs/psychology-majors/>) program helps students learn about human behavior through the development of critical thinking skills, and gives them experience in methods of research and conducting scientific inquiries. Students who complete the program are well equipped to pursue graduate education and/or careers in clinical/counseling areas of psychology and child life, and in a variety of applied psychology and allied areas (e.g., organizational psychology, educational psychology, and social work).

Requirements

The Bachelor of Arts in Psychology is ideal for students interested in clinical/counseling or other applied areas of psychology. The core requirements (Domain 1) give students grounding in the discipline and an understanding of the basics of human behavior. The career-focus electives (Domain 2) provide students with clear applications of psychology, clustered by common themes and areas of employment. And the applied-learning electives (Domain 3) provide students with internship and/or research experience.

Developmental

Choose one of the following:

PSYC 290	Human Growth and Development ⁴
PSYC 345	Psychology of Child and Adolescent Development ⁴
PSYC 355	Psychology of Adult Development

Neurocognition

Choose one of the following:

PSYC 292	Introduction to Brain and Behavior
PSYC 390	Cognition
PSYC 405	Psychology of Learning
PSYC 472	Neurological and Behavioral Disorders

Sociocultural

Choose one of the following:

PSYC 301 & PSYC 302	Global-Local Cultural Psychology Integration I and Global-Local Cultural Psychology Integration II
PSYC 320	Social Psychology
PSYC 400	Multicultural Psychology ⁷

Domain 2: Career Focus

18

Choose any six courses (18 units) from any of the following clusters. A course may be used to meet the requirement of one domain only.

Business and Community Cluster

PSYC 301	Global-Local Cultural Psychology Integration I
PSYC 302	Global-Local Cultural Psychology Integration II
PSYC 320	Social Psychology
PSYC 370	Industrial/Organizational Psychology
PSYC 375	Psychology of Conflict Management and Mediation
PSYC 386	Community Psychology
PSYC 400	Multicultural Psychology ⁷
PSYC 420	Political Psychology ⁸

Clinical and Counseling Cluster

PSYC 280	Introduction to Certified Alcohol Drug Counselor Credentialing
PSYC 380	Psychology of Personality
PSYC 383	Psychology of Suicide
PSYC 415	Group Process
PSYC 430	Intervention Strategies with Children
PSYC 445	Psychology of the Family
PSYC 450	Counseling Theory
PSYC 451	Interventions in Counseling
PSYC 454	Counseling in the Christian Community
PSYC 464	Substance Use Assessment and Interventions
PSYC 466	Case Management in Mental Health and Substance Use Disorders
PSYC 527	Diagnosis and Treatment Planning
PSYC 532	Theories of Counseling and Therapy
PPSY 558	Advanced Developmental Psychology

Development and Education Cluster

PSYC 290	Human Growth and Development ⁴
PSYC 305	Educational Psychology
PSYC 345	Psychology of Child and Adolescent Development ⁴
PSYC 355	Psychology of Adult Development
PSYC 410	Psychology of Exceptional Children
PSYC 432	Psychosocial Interventions in Pediatric Health Care
PCLS 501	Advanced Child Development ⁹

PCLS 511	Family Systems Theory and Applications ⁹
PCLS 512	Theories and Practices of Grief and Loss ⁹
PCLS 521	Introduction to Child Life ⁹
PCLS 523	Coping Strategies for Children Experiencing Stress and Trauma ⁹
Methods Cluster	
PSYC 340	History of Psychology

Domain 3: Applied Learning	
PSYC 455	Field Experience ^{10, 11, 12, 13}
Total Units	
48	

¹ Meets the General Education Quantitative Literacy requirement.

² Meets the General Education Natural Sciences requirement.

³ An AP Psychology score of 3, 4, or 5 will be accepted for PSYC 110.

⁴ Meets the General Education Social Sciences requirement.

⁵ Meets the General Education Writing 2 requirement.

⁶ Meets the General Education Writing 3 requirement.

⁷ Meets the General Education Intercultural Competence requirement.

⁸ Meets the General Education Civic Knowledge and Engagement requirement.

⁹ Requires senior standing and departmental permission.

¹⁰ Meets the General Education Integrative and Applied Learning requirement.

¹¹ Can be double-counted toward the alcohol and drug counseling minor.

¹² Students may petition to take PSYC 475 instead of PSYC 455.

¹³ PADM 399 counts for 3 units of PSYC 455 and 3 units of nonmajor elective credit, and meets the General Education Civic Knowledge and Engagement requirement.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. DISCIPLINARY KNOWLEDGE- Students demonstrate a working knowledge of psychology's content domains, key theories, concepts, principles, themes, and applications of psychology in society.
2. CRITICAL THINKING, SCIENTIFIC INQUIRY AND EFFECTIVE COMMUNICATION- Students demonstrate effective expression of critical thought and scientific inquiry in their engagement with (a) psychology literature, (b) conduct of psychological research, and (c) written, (d) oral, and interpersonal communication.

3. **VALUES AND ETHICS-** Students (a) demonstrate knowledge of the APA ethical (a.1) and multicultural ethical (a.2) standards for the practice of psychology and are able to utilize those standards in decision making and actions in scientific inquiry (a.3), sociocultural (a.4), and interpersonal contexts (a.5). Students (b) articulate and behaviorally express values that build and enhance interpersonal relationships and community engagement at local, multicultural, and cross cultural levels.
4. **APPLICATION TO VOCATION-** Students demonstrate the ability to utilize and apply psychological knowledge and professional skills to: (a) develop vocational post-baccalaureate goals, (b) work collaboratively with diverse others, (c) serve others needs, (d) self-regulate and manage projects successfully, and (e) solve increasingly complex problems.
5. **FAITH INTEGRATION-** Students demonstrate skill in the integration of Christian faith and theology with the science of psychology as it relates to the nature and content of: humanity (F1), knowledge (F2), values and ethics (F3), and vocational and spiritual formation (F4).

BA in Psychology (Bachelor's Completion Program)

48 units

Azusa Pacific's bachelor's completion program in psychology (<https://www.apu.edu/bas/programs/psychology-bachelors-completion/>) is designed for transfer students who have at least 30 units and are interested in completing a Bachelor of Arts in Psychology at the High Desert, Inland Empire, Monrovia, Murrieta, Orange County, or San Diego regional location, or online. Students gain hands-on field experience as they learn about human behavior and how to analyze and solve problems in various settings, preparing them to make a difference in the lives of others.

Azusa Pacific's bachelor's completion programs allow students who began a program of study at another higher education institution to finish their degree at APU. In order to graduate, students must complete the required program units and General Education (p. 1063) units, for a total of 120 units.

Requirements

The Bachelor of Arts in Psychology degree completion program is ideal for students interested in clinical/counseling or other applied areas of psychology. The core requirements (Domain 1) give students grounding in the discipline and an understanding of the basics of human behavior. The career-focus electives (Domain 2) provide students with clear applications of psychology, clustered by common themes and areas of employment. And the applied integrative learning electives (Domain 3) offer internships and/or research experience.

BS in Psychology

48 units

The BS in Psychology (<https://www.apu.edu/bas/programs/psychology-majors/>) program helps students understand psychological science and the various statistical and research methodologies used to study human thought and behavior, equipping them with strong foundational knowledge in areas of applied psychological science, as well as a strong skill set in research. Students who complete the program are well equipped to pursue graduate education and/or careers in psychology and allied health fields (e.g., physician's assistant, physical therapy, occupational therapy, speech therapy, nutrition), as well as a variety of research-related careers.

Requirements

The Bachelor of Science in Psychology is ideal for students interested in psychological research and related careers. The core requirements (Domain 1) give students grounding in the discipline and an understanding of the basics of human behavior. The career-focus electives (Domain 2) provide students with applications of psychology, clustered by common themes and areas of employment. And the applied-learning electives (Domain 3) provide students with internship and/or research experience.

Code	Title	Units
Prerequisites		
MATH 130	Introduction to Statistics ¹	
Choose one of the following:		
BIOL 101	Biology and Society ((recommended)) ²	
BIOL 151	General Biology I ²	
Domain 1: Core Courses		27
Domain courses may not be counted in more than one domain.		
PSYC 110	General Psychology ^{3, 4}	
PSYC 250	Data Analysis in Psychology	
WRIT 260	Writing 2: Psychology Subdisciplines and Career Trajectories ⁵	
PSYC 360	Abnormal Psychology	
PSYC 362	Research Methods in Psychology	
PSYC 496	Writing 3: Senior Seminar in Psychology and Christian Integration ⁶	
Developmental

PSYC 475	Research Experience ^{10, 11}

3**Total Units****48**

- ¹ Meets the General Education Quantitative Literacy requirement.
- ² Meets the General Education Natural Sciences requirement.
- ³ An AP Psychology score of 3, 4, or 5 will be accepted for PSYC 110.
- ⁴ Meets the General Education Social Sciences requirement.
- ⁵ Meets the General Education Writing 2 requirement.
- ⁶ Meets the General Education Writing 3 requirement.
- ⁷ Meets the General Education Intercultural Competence requirement.
- ⁸ Meets the General Education Civic Knowledge and Engagement requirement.
- ⁹ Requires senior standing and departmental permission.
- ¹⁰ Meets the General Education Integrative and Applied Learning requirement.

¹¹ Students may petition to take PSYC 455 instead of PSYC 475.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. **DISCIPLINARY KNOWLEDGE-** Demonstrate a working knowledge of psychology's content domains, key theories, concepts, principles, themes, and applications of psychology in society.
2. **CRITICAL THINKING, SCIENTIFIC INQUIRY AND EFFECTIVE COMMUNICATION-** Demonstrate effective expression of critical thought and scientific inquiry in their engagement with (a) psychology literature, (b) conduct of psychological research, and (c) written, (d) oral, and interpersonal communication.
3. **VALUES AND ETHICS-** Students (a) demonstrate knowledge of the APA ethical (a.1) and multicultural ethical (a.2) standards for the practice of psychology and are able to utilize those standards in decision making and actions in scientific inquiry (a.3), sociocultural (a.4), and interpersonal contexts (a.5). Students (b) articulate and behaviorally express values that build and enhance interpersonal relationships and community engagement at local, multicultural, and cross cultural levels.
4. **APPLICATION TO VOCATION-** Demonstrate the ability to utilize and apply psychological knowledge and professional skills to: (a) develop vocational post-baccalaureate goals, (b) work collaboratively with diverse others, (c) serve others needs, (d) self-regulate and manage projects successfully, and (e) solve increasingly complex problems.
5. **FAITH INTEGRATION-** Demonstrate skill in the integration of Christian faith and theology with the science of psychology as it relates to the nature and content of: humanity (F1), knowledge (F2), values and ethics (F3), and vocational and spiritual formation (F4).

Certificate in Play Therapy

9 units

To earn this certificate, you must complete 9 semester units (minimum of 150 hours of coursework) over a two-year period to meet the Association for Play Therapy (<https://www.a4pt.org/>)'s instructional-hours requirement toward becoming a Registered Play Therapist (RPT) or Registered Play Therapist Supervisor (RPT-S).

To be eligible for registration as an RPT, students must complete the certificate program and be enrolled in, or have completed, a graduate clinical degree program that enables graduates to be eligible for licensure.

Students who complete the coursework without an appropriate graduate clinical degree can still obtain the certificate from APU, but will not be eligible for registration as an RPT with the Association for Play Therapy.

Code	Title	Units
Choose three of the following:		9
PSYC 536	Play Therapy: History, Theories, and Interventions	
PSYC 538	Jungian Therapy and Sandplay	
PSYC 539	Play and Play Therapy Across the Lifespan	
PSYC 540	Gestalt Play Therapy and Interventions	
PSYC 541	Play Therapy with Special Populations	
PSYC 545	Play Therapy with Bereaved Children and Families

Minor in Alcohol and Drug Counseling

24 units

The minor in alcohol and drug counseling prepares students to pursue alcohol and drug counselor credentialing with the California Consortium of Addiction Programs and Professionals (CCAPP). Students who finish this minor complete the educational requirements for certified alcohol and drug counselors, and have the foundational knowledge, understanding, and skills needed to join this ever-expanding field that allows for bachelor-level entry. *Note: There are other requirements, however, to qualify for the alcohol and drug counseling credential, as outlined and determined by CCAPP.*

For students interested in completing the Bachelor of Arts (BA) in Psychology (p. 570) or the Bachelor of Science (BS) in Psychology (p. 575), 6 units of the minor can be used to meet the requirements of the BA or BS; 15 units of the minor, including 3 units of PSYC 455, must be completed at Azusa Pacific University.

Requirements

Code	Title	Units
PSYC 280	Introduction to Certified Alcohol Drug Counselor Credentialing	3
PSYC 451 or PSYC 531	Interventions in Counseling ¹ Ethics and Professional Issues	3
PSYC 455	Field Experience (130 of 255 hours required) ^{2, 3}	3
PSYC 463	Drugs, Behavior, and Society ⁴	3
PSYC 464	Substance Use Assessment and Interventions	3
PSYC 466	Case Management in Mental Health and Substance Use Disorders	3
PSYC 485	Stress and Coping	3
PSYC 455 or PSYC 542	Field Experience (130 of 255 hours required) ^{1, 2, 3} Practicum I	3
Total Units		24

¹ Graduate courses (500-level and above) require senior standing and departmental permission.

² Three units of PSYC 455 can be used to meet requirements of the minor and the BA or BS in Psychology.

³ PSYC 455 meets the General Education Integrative and Applied Learning requirement.

⁴ Meets requirements of the minor and the BA or BS in Psychology.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Develop entry level mastery of knowledge of substance use, misuse, and effective treatment for substance use problems.
2. Demonstrate entry level skills in engagement and facilitation of substance use recovery strategies.
3. Apply knowledge and skill related to Alcohol and Drug counseling in field experiences.
4. Demonstrate the ability to integrate faith into a comprehensive conceptualization of substance use problems.

Minor in Alcohol and Drug Counseling (Professional)

24 units

Substance use treatment is an ever-expanding career field, and the professional minor in alcohol and drug counseling gives individuals the foundational knowledge, understanding, and skills needed to enter the field as a bachelor-level staff member. This program prepares students to pursue alcohol and drug counselor credentialing with the California Consortium of Addiction Programs and Professionals (CCAPP), as students who complete this minor satisfy the educational requirements for certified alcohol and drug counselors—although, to qualify for the alcohol and drug counseling credential, additional efforts are required, as outlined and determined by CCAPP.

Note: 6 units of the alcohol and drug counseling professional minor can be used to meet requirements of the psychology bachelor's completion (BA) program. Specifically, PRPS 455 and PRPS 485 can be used to meet the requirements for both the psychology bachelor's completion (BA) program and the professional minor. 15 units of this minor, including 3 units of PRPS 455, must be completed at Azusa Pacific University.

Requirements

Code	Title	Units
PRPS 280	Introduction to Certified Alcohol Drug Counselor Credentialing	3
PRPS 451	Interventions in Counseling	3
PRPS 455	Field Experience ^{1, 2, 3}	6
PRPS 463	Drugs, Behavior, and Society	3
PRPS 464	Substance Use Assessment and Interventions	3
PRPS 466	Case Management in Mental Health and Substance Use Disorders	3

PRPS 485	Stress and Coping ⁴	3
Total Units		24

- ¹ This course is taken twice for a total of 6 units.
² Meets the General Education Integrative and Applied Learning requirement.
³ Three units of this course can count toward the professional minor and the psychology bachelor's completion (BA) program (p. 573).
⁴ This course can count toward the professional minor and the psychology bachelor's completion program.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Develop entry level mastery of knowledge of substance use, misuse, and effective treatment for substance use problems.
2. Demonstrate entry level skills in engagement and facilitation of substance use recovery strategies.
3. Apply knowledge and skill related to Alcohol and Drug counseling in field experiences.
4. Demonstrate the ability to integrate faith into a comprehensive conceptualization of substance use problems.

Minor in Psychology

18 units

The psychology minor introduces students to the study of human thought and behavior. Specifically, students minoring in psychology are exposed to disciplinary knowledge, critical thinking skills, scientific inquiry, and applications of psychology. This minor is ideal for students from a wide variety of education and career paths who wish to bolster their understanding of, and interactions with, people.

Requirements

Code	Title	Units

MS in Child Life

The master's degree in child life (<https://www.apu.edu/bas/programs/masters-in-child-life/>) is designed to prepare graduates to successfully complete credentialing as child life specialists, who are allied health care professionals with expertise in helping children and their families navigate traumatic and challenging experiences, particularly health crises.

This is an applied/clinical program, with students required to complete a 120-hour practicum in child life followed by a 600-hour hospital internship, in addition to rigorous coursework. The program comprises 42 units and can be completed in 18 months, with available start times in spring and fall. Courses take place primarily in the evenings. There is also online synchronous learning for the Advanced Standing (p. 583) option.

Requirements

Code	Title	Units
PCLS 501	Advanced Child Development	3
PCLS 502	Applied Child Development and Medical Terminology	3
PCLS 511	Family Systems Theory and Applications	3
PCLS 512	Theories and Practices of Grief and Loss	3
PCLS 521	Introduction to Child Life	3
PCLS 522	Therapeutic Interventions and Play-Based Techniques	3
PCLS 523	Coping Strategies for Children Experiencing Stress and Trauma	3
PCLS 524	Adolescent Development and Interventions	3
PCLS 525	Assessment, Preparation, and Documentation	3
PCLS 527	Supporting Children with Special Needs in the Healthcare System	3
PCLS 531	Ethics, Diversity and Professional Issues	3
PCLS 542	Practicum in Child Life	3
PCLS 551	Research Methods and Statistical Analysis	3
PCLS 552	Thesis/Project Seminar	3
Optional Electives ¹		
PCLS 520	Infants and Toddlers: Development and Interventions	
PCLS 532	Child Life Administration and Leadership	
PCLS 543	Internship in Child Life	

Total Units**42**

- ¹ These courses may serve as electives for the MS in Child Life program, or be used as substitutes for required courses by students who enter the program with previous completed coursework that meets the student learning outcomes for required courses. Departmental permission is required for such a substitution.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Program Learning Outcomes**Program Learning Outcomes**

Students who successfully complete this program shall be able to:

1. Disciplinary Knowledge – Demonstrates theoretical and conceptual knowledge to apply Child Life practices.
2. Critical Thinking, Scientific Inquiry, and Effective Communication – Able to examine and engage in scholarly inquiry and critical thinking, including evaluation and application of evidence based research relevant to child life practices and healthcare delivery system, as a basis to develop, implement and communicate effective interventions.
3. Values and Ethics – Apply knowledge of child life operating principles, code of ethical responsibilities, standards of practice, respect and value for diversity, and factors impacting infants, children, youth and families.
4. Application to Vocation – Develop professional identity demonstrating the ability to integrate and apply Child Life competencies learned in professional settings of practicum and internship.
5. Faith integration – Articulate the intersection of Christian traditions with the Child Life profession using a Christian worldview to integrate faith, beliefs, values, ethics, and service in personal and professional life.

Faculty**Program Director**

Charity Vasquez (<http://www.apu.edu/faculty/cvasquez/>), PhD, CCLS

MS in Child Life (Advanced Standing)

The Advanced Standing option for the Master of Science in Child Life (<https://www.apu.edu/bas/programs/masters-in-child-life/>) program is available for Certified Child Life Specialists who have a BA or BS degree, as well as individuals who have successfully completed the 600 required child life internship hours. To pursue the Advanced Standing option, you must provide proof of a Child Life Certificate from the Child Life Certification Commission (part of the Association of Child Life Professionals), or complete the Child Life Clinical Experience Verification Form (PDF) (https://www.apu.edu/live_data/files/210/clinicalexperienceverificationform.pdf).

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate entry-level competence in the core domains of practice identified by the Board of Behavioral Sciences for licensure as an LPCC.
2. Demonstrate core competence in child/youth development, assessment, diagnosis, treatment, psychoeducation, and prevention interventions.
3. Analyze and synthesize disciplinary research and professional literature.
4. Demonstrate professional-level skills in written and oral communication.
5. Demonstrate skills in the integration of Christian faith with professional conceptualization and service delivery in counseling.

MS in Research Psychology and Data Analysis

The Master of Science in Research Psychology and Data Analysis (<https://www.apu.edu/bas/programs/research-psychology-data-analysis/>) provides research and statistical experience needed to be competitive for doctoral programs and pursue, or advance within, careers related to psychological research. The program consists of a rigorous 36-unit curriculum that can be completed in one academic year, 18 months, or 2 academic years. Students in this program acquire skills in research methods and statistical analyses commonly used within psychological research, and complete a master's thesis. Courses feature lectures, seminars, and hands-on research labs that incorporate various popular statistical software used within psychology. All courses are offered in a distance learning format that consists of face-to-face and remote students. Face-to-face students attend courses at the Azusa campus, and remote students join the face-to-face course using video conferencing technology. Throughout the program, a faculty advisor works closely with individual students to provide guidance on completing the thesis or practicum/internship, applying to doctoral programs, and pursuing a career in research. In addition, students have the opportunity to participate in professional events, including academic conferences.

Coursework Schedule

Fall (10-13 units): Experimental Research Methods (3), Analysis of Variance (3), Analysis of Variance Lab (1), Theory, Research, and Practice in Psychology (3), Research Practicum (3)

Spring (16 units): Thesis Seminar (3) or Research Practicum (3), Non-Experimental Research Methods (3), Regression (3), Regression Lab (1), Introduction to Grant and Professional Writing (3), Program Evaluation (3)

Summer I (7 units): Thesis Seminar (3) or Research Internship (3), Psychometrics: Assessment and Measurement (3), Psychometrics: Assessment and Measurement Lab (1),

Summer II (3 units): Thesis Seminar (3)

PSYC 511	Experimental Research Methods	3
PSYC 512	Non-Experimental Research Methods	3
PSYC 518	Analysis of Variance	3
PSYC 518L	Analysis of Variance Lab	1
PSYC 519	Regression	3
PSYC 519L	Regression Lab	1
PSYC 520	Psychometrics: Assessment and Measurement	3
PSYC 520L	Psychometrics: Assessment and Measurement Lab	1
PSYC 517	Program Evaluation	3
PSYC 597	Introduction to Grant and Professional Writing	3
Students must choose one of the following:		9
Thesis Track		
PSYC 598	Thesis Seminar ¹	
Internship Track		
PSYC 578	Research Practicum ²	
PSYC 588	Research Internship	
Total Units		36

¹ Students on the thesis track are required to take 9 units of PSYC 598, but may take up to 12 units in order to complete their thesis.

² Students on the internship track are required to take 6 units of PSYC 578.

GSPH 535	Environmental Health	
Total Units		9

Optional Concentrations¹

Data Analytics

This concentration equips students with statistical and data visualization techniques. It consists of courses that develop students' skill in statistical programming, including *R* and *SAS*, data visualization using Tableau, and data mining. Such training prepares students to pursue careers in business and/or data analytics.

Industrial/Organizational Psychology

Organizational psychology, often called industrial/organizational psychology, considers the attitudes, feelings, and behaviors of people in the workplace. At the intersection of business and psychology, courses in this concentration help you discover your ability to diagnose organizational health; develop and implement change initiatives; administer and create job satisfaction surveys; increase employee morale and expand retention strategies; advance performance management programs; hire, train, and develop talent; and advise, coach, and build successful teams.

Counseling Psychology

This concentration is for students who are interested in getting a PhD in clinical/counseling psychology and would like to take graduate courses that would expose them to this area of psychology. Students wishing to complete this concentration need to complete three courses from the MS in Counseling Psychology program (p. 584) as outlined in program requirements.

Public Health

This concentration equips students with conceptual and applied knowledge of the public health field. Students learn important areas of public health, including how health and diseases are influenced by social, economic, and political risk factors; ethical considerations and healthcare policies; epidemiological procedures; and issues in environmental health.

¹ The cost per unit for the concentration is based on the cost of the concentration courses, and may be different from per-unit cost for the MS in Research Psychology and Data Analysis.

Graduation

In order to graduate, students must complete the required courses with an overall grade-point average (GPA) of at least 3.0 within five years of matriculation. This includes completing every required course with a *B-* or above. Students must also complete a master's thesis according to the guidelines outlined by the program and university, or a practicum and internship as outlined by the program.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Explain the knowledge and skills used in assessment/measurement, research design, and statistical methods in psychology.
2. Apply various theories of psychology used in assessment/measurement, research design, and statistical methods in psychology.

3. Examine the integration of psychological research with a Christian worldview.
4. Articulate the APA codes, standards, and ethics of psychological research and practice in various applied settings.
5. Demonstrate graduate level APA formatting skills for writing and presentations.

Department of Social Work

Social workers help people manage and overcome some of life's most difficult challenges, such as poverty, addiction, discrimination, physical and mental illness, and abuse. They provide individual, family, and group intervention; facilitate crisis prevention and intervention; advocate and participate in political action; provide management and leadership in social welfare and nonprofit agencies; and collaborate with communities to develop necessary social and economic resources. Social workers are especially committed to advancing social justice and increasing opportunities for vulnerable populations.

- Master of Social Work (MSW) (p. 612)

Credential

- Pupil Personnel Services Credential in School Social Work and Child Welfare and Attendance Services (p. 631)

Certificate

- Certificate of Distinction in Undergraduate Social Work Research (p. 611)

Courses

SOCW 250, Introduction to Social Work, 3 Units

This course introduces students to the social work profession, social welfare system, and policies in the United States. The course examines the requirements for social work practice, articulates the identity of the profession, and discovers the various settings of social work practice. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

SOCW 251, Social Welfare Policy and Service, 3 Units

This course examines social welfare policies and programs developed to meet human needs in American society. The course explores diversity of political, cultural, historical, economic, and ideological influences on social welfare policy. The course explores how critical thinking advances social and economic justice and delivery of effective social work services.

SOCW 275, Social Justice Foundations for Human Rights, 3 Units

The Social Justice Foundations in Human Rights course will examine assumptions and biases in regards to race, age, social class, religion, gender, sexual orientation and ability. This course will evaluate causes of community concern in the areas of civil rights, immigration, poverty, human trafficking, disabilities and war. It will review issues of oppression and discrimination. This course will have students gain insight and self-awareness in their interactions with individuals of from different cultural backgrounds. Students will practice developing action plans to promote social justice in targeted groups. *Meets the General Education Requirement: Intercultural Competence.*

Prerequisite: Sophomore Standing

SOCW 310, Human Behavior and the Social Environment I, 3 Units

This course is a study from a multi-theoretical perspective of the interaction of cultural, biological, psychological, social, spiritual, and environmental reciprocal interactions. This course focuses on human development from birth through adolescence. The knowledge of human behavior and the social environment will be applied utilizing bio-psycho-social-spiritual frameworks to guide the process of assessment, intervention, and evaluation.

Prerequisite: Sophomore standing, recommended SOC 120 and PSYC 110

SOCW 311, Human Behavior and the Social Environment II, 3 Units

This course is a study from a multi-dimensional perspective of the interaction of cultural, biological, psychological, social, spiritual, and environmental influences that promote or deter the development of individuals from young adulthood through old age and death. This course builds upon the material presented in HBSE I, and further explores theoretical models for understanding and assessing macro systems.

Prerequisite: SOCW 310 and Sophomore standing

SOCW 332, Social Work Practice with Individuals and Families, 3 Units

This is the first of a two-semester, three-course practice sequence wherein the student will identify professional generalist social work practice behaviors. The course will develop the student's ability to think critically and apply social work ethical principles to guide practice. The course uses evidence-based practice methods in practice which engage, assess, intervenes, and evaluates individuals and families.

Special Fee Applies

Prerequisite: Application and acceptance into the Social Work Major

SOCW 333, Social Work Practice with Communities and Organizations, 3 Units

Social Work Practice with Communities and Organizations is another course in the generalist social work practice sequence. The Course will focus on macro social work practice, community organizing, and development. The course will provide students with the knowledge and skills needed for ever-changing contexts and the social service delivery systems used to respond to such contexts.

Prerequisite: SOCW 250, SOCW 332

SOCW 335, Community Transformation, 6 Units

This course offers a formal and experiential study of the transformation of urban, multicultural communities with the goal of developing a service ethic through a semester-long internship. Involves directed reading, reflective papers, a service practicum, and group discussions-- aimed at both the transformation of the student community and the wider L.A. community. Course is available only through the L.A. Term Program.

SOCW 350, Aging: Implications for Policy and Practice, 3 Units

This course offers an introduction to social work practice with older adults with attention given to current research, policies, and problems faced by the elderly, and the impact of the older adult population on society. Resources, programs, and services which focus on the well-being for the older adult population will be introduced.

Prerequisite: SOCW 251 or instructor consent

SOCW 351, Child Welfare, 3 Units

Students explore programs and policies that have been developed to meet the well-being of children and families. The issues affecting these programs and policies are studied to determine how policy impacts the delivery of child welfare programs.

Prerequisite: SOCW 250, SOCW 251 or instructor consent

SOCW 360, Social Work Practice with Groups, 3 Units

Social Work Practice with Groups is another course in the generalist social work practice sequence. This course introduces students to utilize group theories and leadership skills in social work practice. Students will demonstrate mezzo practice knowledge and skills by identifying, analyzing, and implementing evidence-based interventions designed to achieve client goals.

Prerequisite: SOCW 250, SOCW 332

SOCW 380, Understanding International Social Problems and Services through Study Abroad, 3 Units

Through classroom instruction, time spent in an international setting, and debriefing sessions, students in this course learn about social problems and social welfare systems of service delivery outside of the United States. Emphasis is on a global perspective of social work practice, enriching cultural experiences, and a comparison of domestic and international methods of addressing human needs through social policies and programs.

Prerequisite: SOCW 333 and SOCW 360; or instructor approval.

SOCW 400, Fundraising, Grant Writing, and Fiscal Decision Making, 3 Units

This course prepares students for potential fundraising, grant writing, program design and evaluation, and fiscal decision-making responsibilities in human services organizations. Students assess local agencies and analyze funding resources, strategies, skills, and decision-making processes. Assignments focus on grant writing, developing fundraising strategies, and applying knowledge of ethical management and fiscal practices.

Prerequisite: SOCW 333

SOCW 410, Family Violence, 3 Units

Family violence is an in-depth study from a system's perspective of violence that occurs in families. This course provides an overview of child abuse, spousal abuse, abuse between intimate partners, and elder abuse. The course explores the theory and research as to the causes of abuse, including individual and family factors, elder abuse, gender issues, community and societal influences, and cultural factors. This course explores the policy and programs developed to deal with these crises. Finally, methods of assessment and intervention are investigated as applicable to both professional and personal situations.

Prerequisite: Junior or Senior standing or instructor consent

SOCW 411, Intimate Relationship Violence: Assessment and Intervention, 3 Units

This course is an in-depth study of intimate relationship violence, exploring the theory and research as to the causes of violence, gender and sexuality issues, community and societal influences, and cultural factors. Methods of assessment are investigated, as are policies and programs developed to intervene within micro and macro contexts. Course, with additional fee, meets California domestic violence counselor certification.

Prerequisite: Junior or senior standing or instructor's consent.

SOCW 415, Substance Use Disorders: Assessment and Intervention, 3 Units

This course provides an overview of substance use disorders from a bio-psycho-social-cultural-spiritual perspective. Unique issues relative to children/adolescents, women, people with disabilities, LGBT individuals, the elderly, and minorities are explored. The course focuses on a review of various types of substance use disorders; theory on the etiology and process of substance use disorders and their treatment; information on assessment, referral, and treatment resources; and exploration of the historical and current responses to substance use disorders in the community as well as in the Church.

Prerequisite: Junior or senior standing or instructor's consent

SOCW 420, Suffering: Theological and Practical Perspectives on Disabilities, 3 Units

This course examines theological perspectives to understand the role of suffering in the human experience. Focusing on persons with disabilities, students explore their personal values, gain understanding of bio-psycho-social-spiritual components of disability, access available resources, and develop strategies to help churches/agencies develop inclusive programs.

Prerequisite: 3 units of UBBL and Junior standing

SOCW 425, Introduction to International Development, 3 Units

This course provides students with an opportunity to consider the theories and "on the ground" issues concerning international development. In addition, because non-governmental organizations are the primary organisms through which international development is conducted, students will familiarize themselves with the strengths and limitations these organisms bring to the development process.

Prerequisite: Junior or Senior Standing

SOCW 430, Introduction to Nonprofit Management, 3 Units

Students go out into the world and work for nonprofit organizations. The goals of the course are to enrich student perspective regarding nonprofits, to give them opportunity to apply their knowledge to the analysis of nonprofit managerial situations and to provide them with an understanding of the opportunities and power of nonprofit management.

Prerequisite: Junior or Senior Standing

SOCW 440, Social Work and Law, 3 Units

Students in this course gain an increased understanding of the United States legal system and learn how to apply this understanding within social work practice. Students engage with case law as it pertains to the field of social work and social services. Students also have opportunities for critical analysis, and for refining of advocacy and problem-solving skills.

Prerequisite: Junior or senior standing or instructor approval.

SOCW 466, Field Internship I, 4 Units

This social work practicum provides a setting for the development of practice skills and an opportunity for the integration of knowledge, skills, and values in social work. Students complete a minimum of 400 hours in an approved agency.

Prerequisite: SOCW 310, SOCW 311, SOCW 333 or SOCW 335, SOCW 360,

Corequisite: SOCW 467

SOCW 467, Senior Practicum Seminar I, 3 Units

This seminar course integrates the generalist practice knowledge and skills of a social work professional. Students learn how to identify and conduct themselves as professional social workers in their respective internship contexts. Evidence-based practice skills are developed to help students engage in research-informed practice and learn how practice shapes research. This course comprises the first semester of a two-semester course sequence.

Meets the General Education Requirement: Integrative and Applied Learning.

Prerequisite: SOCW 310 (C or above), SOCW 311 (C or above), SOCW 333 or SOCW 335, SOCW 360.

SOCW 468, Field Internship II, 4 Units

This social work practicum provides a setting for the development of practice skills and an opportunity for the integration of knowledge, skills, and values in social work. Students complete a minimum of 400 hours in an approved agency.

Prerequisite: SOCW 466, SOCW 467

Corequisite: SOCW 469

SOCW 469, Senior Practicum Seminar II, 3 Units

This final Social Work Seminar will focus on integration of learning and practice in preparation for beginning generalist social work practice for students currently in field placement. Students will identify, critique, and apply evidence based practice models in field practice. Emphasis will be placed on practice skills of engagement, assessment, intervention and evaluation according to the NASW Code of Ethics.

Prerequisite: SOCW 310 (C grade or above), SOCW 311 (C grade or above), SOCW 333 or SOCW 335, SOCW 360, SOCW 466

SOCW 478, Social Work Research Methods, 3 Units

This course prepares students for evidence-informed practice and research by introducing a range of social science research methods, skills in research evaluation and critique, and development of a social science research proposal informed by their field internship practice experience.

Prerequisite: MATH 130.

Corequisite: SOCW 466, SOCW 467

SOCW 479, Writing 3: Social Work Research Project, 3 Units

In this course, students prepare for evidence-informed practice and research by conducting an empirical study based on the research proposal completed in the Social Work Research Methods course (SOCW 478). Students learn to apply critical thinking to inform and communicate professional judgment through the process of data collection, data analysis, and writing a research report. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

Prerequisite: MATH 130, SOCW 478, and Writing 2 or Honors course equivalency;

Corequisites: SOCW 468 and SOCW 469

SOCW 497, Readings in Social Work, 1-4 Units

This is a program of study concentrating on assigned readings, discussion, and writing arranged between, and designed by, a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

SOCW 499, Special Topics, 1-6 Units

Special topics courses offer undergraduate-level content that will augment the set social work curriculum. These courses include a wide range of specialized topics relevant to professional social workers. The unit value of these courses range from one to six unit credits, depending upon the specific contact hours and course workload.

Prerequisite: Junior or Senior Standing; Acceptance into the Social Work program

SOCW 511, Introduction to the Social Work Profession, 2 Units

Content focuses on the history, identity, values, ethics, scope of practice, and knowledge base of the social work profession. Students explore ways their own backgrounds and beliefs are likely to influence professional activities, and examine the specific relationship of faith perspectives to social welfare policy and practice. Attention is given to developing professional writing and critical thinking skills.

Prerequisite: Admission to MSW program

SOCW 512, Social Welfare Policy and Policy Practice, 3 Units

The course provides an introduction to American social welfare policies, offers a historical overview of political influences on social work practice, and presents different models for political advocacy. Content focuses on political and client advocacy with attention to the relevance of professional ethical standards and faith perspectives to policy practice.

Prerequisite: Admission to MSW program

SOCW 513, Micro-theory and Human Development, 3 Units

Content will focus on theories that inform micro-level social work practice with individuals and families using a bio-psychosocial and spiritual framework. Human development across the life course is addressed with psychosocial theory's life stages to assist with the contextualization and integration of theories to meet the needs of diverse populations in practice.

Prerequisite: Admission to MSW program

SOCW 514, Practice I - Interviewing and Assessment, 3 Units

This course begins a two-course sequence that provides the foundation for social work practice with individuals and families. Content includes legal and ethical practice, stages of the helping process, interviewing and assessment skills with adults, children, and families, clinical assessment and diagnosis using the DSM, and strategies for critically analyzing and sharing assessment information.

Prerequisite: Admission to MSW program

SOCW 515, Field Seminar I, 1 Unit

Field seminars meet in conjunction with field coursework and provide students opportunities to discuss practice situations, professional development issues, the relationship of field to classroom learning, and skills necessary for effective practice. Generalist foundation year field seminars (I and II) focus on beginning generalist social work practice skills, understanding agency and community context, and professional ethics.

Prerequisite: Admission to the Social Work program;

Corequisite: SOCW 516

SOCW 516, Field I, 3 Units

The purpose of field internship is to provide a professional setting for students to practice generalist foundation social work skills and to provide an opportunity for the integration of knowledge, skills, values, and ethical faith integration in practice. Students complete a minimum of 480 hours by the end of semester I and semester II at an approved and designated social welfare agency.

Prerequisite: Admission to the Social Work program;

Corequisite: SOCW 515

SOCW 521, Introductory Research Methods, 2 Units

Content will introduce critical evaluation of social work research and evidence informed social work practice, along with how research can ethically be used to improve practice at individual and agency levels. Concepts include: problem identification, hypothesis formulation, measurement, sampling, qualitative and quantitative research designs, data collection methods, data analysis, and program evaluation. Students will explore how science, scholarship, and the politics of knowledge development can facilitate the mission of social work.

Prerequisite: Statistics course

SOCW 522, Diversity and Social Justice, 3 Units

Content will focus on diverse populations in American society and ways historical and contemporary patterns of oppression and discrimination may influence social work practice. Specific attention is given to self-awareness and to professional commitments to marginalized groups and processes of advocacy, coalition-building, and other ways of developing effective alliances to promote social justice.

Prerequisite: Admission to MSW program

SOCW 523, Macro-theory and Communities/Organizations, 3 Units

Content will focus on macro-level theories and social work practice with organizations and communities. Models of practice that include comprehensive assessment, integrating an understanding of various forms and mechanisms of discrimination and oppression and their relevance to macro-level interventions, will be examined. Social work with organizations and communities embraces efforts to protect human and civil rights for the advancement of social and economic justice.

Prerequisite: SOCW 513

SOCW 524, Practice II - Intervention and Evaluation, 3 Units

This course ends a two-course sequence that provides the foundation for social work practice with individuals and families. Content includes goal-setting and contracting, planning and implementing change strategies, utilizing evidence-based practice research, interdisciplinary collaboration, advocacy, resource development, and practice evaluation.

Prerequisite: SOCW 514

SOCW 525, Field Seminar II, 1 Unit

Field seminars meet in conjunction with field coursework and provide students opportunities to discuss practice situations, professional development issues, the relationship of field to classroom learning, and skills necessary for effective practice. Generalist foundation year field seminars (I and II) focus on beginning generalist social work practice skills, knowledge and use of self, and professional ethics.

Prerequisite: SOCW 514, SOCW 515, and SOCW 516;

Corequisite: SOCW 526

SOCW 526, Field II, 3 Units

The purpose of field internship is to provide a professional setting for students to practice generalist foundation practice skills and to provide an opportunity for the integration of knowledge, skills, values, and ethical faith integration in practice. Students complete a minimum of 480 hours by the end of semester I and semester II at an approved and designated social welfare agency.

Prerequisite: Admission to MSW program, SOCW 515, and SOCW 516;

Corequisite: SOCW 525

SOCW 527, Research for Evidence-Informed Practice, 2 Units

The content of this course prepares students to critically evaluate social work research and evidence-informed social work practice, along with the ethical use of research methods to improve clinical practice. Concepts include problem identification, hypothesis formulation, measurement, sampling, qualitative and quantitative research designs, data collection methods, data analysis, and outcomes evaluation. Students explore how science, scholarship, and the politics of knowledge development can facilitate the mission of social work.

Prerequisite: Statistics course

SOCW 528, Research for Data Driven Change, 2 Units

This course will introduce critical evaluation of social work research and its ethical application towards data-driven decision-making within community practice settings. Concepts include: problem identification, hypothesis formulation, measurement, sampling, research design, data collection methods, data analysis, and program evaluation. Students will explore how science, scholarship, and the politics of knowledge development can facilitate the mission of social work.

Prerequisite: Statistics course

SOCW 529, Human Rights and Sustainable Development Policy, 2 Units

Content will focus on the relevance of human rights and sustainable development policy to macro-level social work practice in the U.S. and abroad. Topics will include advancement of human rights for social, economic and environmental justice and sustainable development strategies for poverty alleviation, universal education, public health, sanitation and housing, food security, access to clean water, population control and climate change. Analysis of existing global social policies will apply existing political, ideological, religious, cultural, age, and gender frameworks to explain current conditions and future trends. Secular and Christian perspectives will be explored.

Prerequisite: SOCW 522 and SOCW 523

SOCW 530, Organizing for Community Change, 3 Units

This course expands foundation year macro-level practice content to enhance theoretical understanding and develop skills in the promotion of community, organizational, and policy change to enhance social well-being and advance social justice. Special attention is focused on collaborative efforts, coalition building and participatory methods to facilitate sustainable change. Additional topics include assessment of social service delivery systems, advocacy, and professional ethics in macro practice. The importance of engaging diverse communities, recognition of underrepresented and underserved populations, and utilizing cultural humility in practice are emphasized.

Prerequisite: SOCW 523

SOCW 531, Human Rights and Sustainable Development, 2 Units

Content will focus on the relevance of human rights and sustainable development to macro-level social work practice in the U.S. and abroad. Topics will include advancement of human rights and economic justice, poverty alleviation, politics, religion, culture, age, gender, and public health conditions on human rights and development-related activities. Secular and Christian perspectives will be explored.

Prerequisite: SOCW 522 and SOCW 523

SOCW 532, Advanced Community Practice, 3 Units

This course expands foundation year macro-level practice content to include community entrance, engagement, participatory action research, and collaborative strategies to advance policies and programs supporting community interests and desired resources. Additional topics include empowerment, development of cultural competence, identification of oppressive cultural structures, globalization, and professional ethics. Engaging diverse communities and cultural humility are emphasized.

Prerequisite: SOCW 523

SOCW 533, Organizational Behavior and Management, 3 Units

This course provides an overview of organizational behavior and effective management practices within the social service sector. Topics include: human resource/legal/ethical issues; employee diversity; organizational culture; conflict resolution; group behavior; employee training/development; hiring practices; employee motivation; budgeting; and managing organizational change. Emphasis is placed on professional written and verbal communication.

Prerequisite: SOCW 523

SOCW 534, Field Seminar III, 1 Unit

Field Seminar III focuses on presentation and discussion of student experiences in specialization field internships. Specific emphasis is placed on demonstration and evaluation of advanced practice skills, interventions, supervision use, cultural responsiveness, professional ethics, and faith integration issues addressed in coursework.

Prerequisite: SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526;

Corequisite: SOCW 527 and SOCW 539 (clinical specialization) or SOCW 528 and SOCW 535 (community leadership and program administration specialization)

SOCW 535, Field III - Community Leadership and Program Administration, 3 Units

The purpose of field internship is to provide a setting for students to develop advanced community practice skills and an opportunity for the ethical integration of knowledge, skills, values, and faith in social work. Students complete a minimum of 480 hours (600 hours for Advanced Standing students) by the end of semester I and semester II at an approved and designated agency.

Prerequisite: SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526;

Corequisites: SOCW 528, SOCW 534

SOCW 536, Adult Behavioral Health and Diagnosis, 3 Units

This course begins a two-semester advanced clinical practice sequence focusing on adult behavioral health. Content includes advanced application of the Diagnostic and Statistical Manual for Mental Disorders (DSM-5); symptoms, diagnoses, and treatment strategies associated with psychiatric conditions; brain functioning and chemistry; psychotropic medications; and managed care expectations. Cultural and faith perspectives are integrated throughout the course using clinical best practices.

Prerequisite: SOCW 514 and SOCW 524

SOCW 537, Child and Adolescent Behavioral Health and Diagnosis, 3 Units

This course focuses on behavioral health issues experienced by children and adolescents, and discussion of the effects of trauma on social and emotional development. Diagnostic issues affecting children and related treatment interventions are explored in the contexts of child welfare, school-based behavioral health, and healthcare settings. Research-informed approaches are taught, to improve functioning and well-being of children and adolescents. Laws impacting work with minors and families, as well as ethical issues for social work practitioners, are presented. Course content meets California education requirements in the area of child abuse assessment for LCSW licensure.

Prerequisite: SOCW 513, SOCW 514, and SOCW 524

SOCW 538, Clinical Practice with Groups, 2 Units

This course presents different theoretical approaches and treatment strategies associated with clinical social work practice with groups. Topics include group development stages, professional ethics in practice with groups, leadership principles, diversity issues, and evaluation methods.

Prerequisite: SOCW 513

SOCW 539, Field III-Clinical Practice, 3 Units

The purpose of field internship in the clinical specialization year is to provide a setting for students to develop advanced practice skills and an opportunity for the integration of knowledge, skills, and social work values as applied to clinical practice across the life span continuum. Students complete a minimum of 480 hours (or 600 hours for Advanced Standing students) by the end of fall and spring semesters at an approved and designated agency.

Prerequisite: SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526;

Corequisites: SOCW 527, SOCW 534

SOCW 540, Educational Policy, 3 Units

This course introduces policies and legislation that impact delivery of school social work services in the United States education system. Landmark local, state, and federal policies are presented for analysis and application to the public school setting, critical for gaining an understanding of the challenges for school social work practice. Historical and current perspectives including racism, equality, and access to public education are discussed.

Prerequisite: Completion of generalist foundation curriculum; admission to the PPS program (required for students seeking the PPSC).

SOCW 541, Capstone Leadership Project, 3 Units

This course prepares students for professional leadership roles in social work settings and supports completion of their capstone leadership projects. Content integrates development of leadership skills, self reflection, professional use of self, interprofessional practice, use of research to inform practice, and knowledge of program context to implement sustainable change in organizations. Professional ethics and decision making, which influence the leadership role in social work, are examined.

Prerequisite: All generalist foundation courses and completion of first semester of specialization courses.

Corequisites: SOCW 544; and SOCW 545 or SOCW 548

SOCW 542, International Social Work Policy and Practice, 2 Units

Content will focus on international social work practice at multiple systems levels. Topics will include comparison of United States' and international social welfare policy, differing theoretical and religious perspectives, neo-liberal economic development policies, globalization, and issues immigrants and other marginalized groups. Practice content will address poverty alleviation, conflict and post-conflict reconstruction, displacement and forced migration concerns.

Prerequisite: SOCW 522, SOCW 523, SOCW 531, SOCW 532

SOCW 543, Fundraising, Grant Writing, and Fiscal Decision Making, 3 Units

This course prepares students for potential fundraising, grant writing, program design and evaluation, and fiscal decision-making responsibilities in human services organizations. Students assess local agencies and analyze funding resources, strategies, skills, and decision-making processes. Assignments focus on grant writing, developing fundraising strategies, and applying knowledge of ethical management and fiscal practices.

SOCW 544, Field Seminar IV, 1 Unit

Field Seminar IV focuses on presentation and discussion of students experiences in specialization year field internships and preparation for masters-level social work employment and licensure. Specific emphasis is placed on critical thinking and communication of professional judgments, integration of theory, assessment, intervention, and evaluation, as well as professional development issues.

Prerequisite: SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526, SOCW 534, SOCW 535 or SOCW 539;

Corequisite: SOCW 541; and SOCW 545 or SOCW 548

SOCW 545, Field IV - Community Leadership and Program Administration, 3 Units

Field internship provides a setting for students to utilize advanced community practice skills and an opportunity for the ethical integration of knowledge, skills, values, and faith in social work. Students complete a minimum of 480 hours (600 hours for Advanced Standing students) by the end of semester I and semester II at an approved and designated agency.

Prerequisite: SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526, SOCW 534, and SOCW 535;

Corequisite: SOCW 541, SOCW 544

SOCW 546, Family Therapy in Context, 3 Units

This course focuses on family practice contexts and theories of child welfare and family therapy. Content includes social worker roles and scope of practice in child welfare practice, and current approaches to assisting families in the child welfare system. Also included is the demonstration and practice of family therapy, application of theory, and assessment and intervention on diverse family systems. Course material also addresses legal and ethical problem solving related to contemporary professional ethics and statutes and regulations related to family law.

Prerequisite: SOCW 513, SOCW 523

SOCW 547, Health and Behavioral Health Policy, 2 Units

This course explores American social welfare policies relevant to health and behavioral health care. Course content includes the historical and social contexts of health and behavioral health care, and the roles of the public and private sectors in shaping contemporary trends and issues, particularly among vulnerable communities. Topics include healthcare reform, integrated care, access/treatment disparities, advocacy and policy reform, and the recovery model.

Prerequisite: SOCW 512

SOCW 548, Field IV - Clinical Practice, 3 Units

Field internship in the clinical specialization year provides a setting for students to develop advanced practice skills, and an opportunity for the integration of knowledge, skills, and social work values as applied to clinical practice across the life span. Students complete a minimum of 480 hours (or 600 hours for Advanced Standing students) by the end of fall and spring semesters at an approved, designated agency.

Prerequisite: SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526, SOCW 534, and SOCW 539;

Corequisites: SOCW 541 and SOCW 544

SOCW 550, Advanced Standing: Intermediate Praxis, 3 Units

Content focuses on theory/practice integration in professional social work. Students apply different worldviews and micro- and macro-level theories to case examples drawn from professional social work, and identify implications for intervention and evaluation. Models of practice involving diverse communities and social welfare organizations are explored.

Prerequisite: Admission to advanced standing MSW program;

Corequisite: SOCW 551

SOCW 551, Advanced Standing: Social Work Ethics and Practice, 3 Units

This advanced-standing course provides overviews of the legal and ethical practice standards in social work, and addresses the skills required for effective engagement, assessment, intervention, and evaluation with individuals, families and groups. Assignments focus on social work practice skill development, application of documentation standards, use of evidence-informed practice methods, and integration of legal and ethical issues impacting practice.

Prerequisite: Completion of BSW degree; statistics course with a grade of C or higher.

SOCW 552, Program Planning and Evaluation, 3 Units

Systematic program planning with a focus on outcomes is a critical component in operating effective human service programs. Over the course of this semester, you will become familiar with program design and program evaluation methodologies, and the tools most commonly used to assess human service programs. Additional topics will include identification and use of performance measures, the roles of evaluators and stakeholders, the influence of the political environment, technology applications, and applicable ethics related to program design and evaluation. At the completion of this course you will be prepared to design and implement programs and conduct outcome evaluations to ensure program efficiency and effectiveness for clients, staff and external funding sources.

Prerequisite: Completion of generalist foundation coursework

SOCW 553, Field V Clinical: School Social Work, 3 Units

The PPSC school social work field internship provides a setting for students to develop advanced clinical practice skills in preparation for practice in school settings, and an opportunity for the ethical integration of knowledge, skills, values, and faith in social work. Students accrue field hours at an approved and designated school site in the fall and spring semesters of their specialization year; a total of 600 hours (450 in school social work and 150 in child welfare and attendance) is required by the end of the spring semester. This is the first of a two-semester course sequence with SOCW 555.

Prerequisite: MSW Students: SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, & SOCW 526. Post-MSW Students: MSW from a CSWE-accredited program, and acceptance into the APU PPSC program.

Corequisites: MSW students: SOCW 527, SOCW 554

SOCW 554, Field Seminar V Clinical: School Social Work, 1 Unit

This seminar course focuses on discussion of student experiences in the PPSC school social work field internships. Emphasis is on demonstration and evaluation of advanced practice skills, interventions, supervision use, cultural responsiveness, professional ethics, and faith integration issues addressed in the PPSC field experience. This is the first of a two-semester course sequence with SOCW 556.

Prerequisite: MSW Students: SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, & SOCW 526. Post-MSW Students: MSW from a CSWE-accredited program, and acceptance into the APU PPSC program.

Corequisites: MSW students: SOCW 527, SOCW 553

SOCW 555, Field VI Clinical: School Social Work, 3 Units

The PPSC school social work field internship provides a setting for students to develop advanced clinical practice skills in preparation for practice in school settings, and an opportunity for the ethical integration of knowledge, skills, values, and faith in social work. Students accrue field hours at an approved and designated school site in the fall and spring semesters of their specialization year; a total of 600 hours (450 in school social work and 150 in child welfare and attendance) is required by the end of the spring semester. This is the second of a two-semester course sequence with SOCW 553.

Prerequisite: MSW students: SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526, SOCW 553, and SOCW 554; Post-MSW students: MSW degree from a CSWE-accredited program, and acceptance into the APU PPSC program.

Corequisite: SOCW 556

SOCW 556, Field Seminar VI Clinical: School Social Work, 1 Unit

This seminar course focuses on discussion of student experiences in the PPSC school social work field internship. Emphasis is on demonstration and evaluation of advanced practice skills, interventions, supervision and consultation, cultural responsiveness, professional ethics, and faith integration issues that occur in the field internship experience. This is the second of a two-semester course sequence with SOCW 554.

Prerequisite: MSW students: SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526, SOCW 553, SOCW 554. For Post-MSW students: MSW degree from a CSWE-accredited program, and acceptance into APU PPSC program.

Corequisite: For all students: SOCW 541, SOCW 555

SOCW 560, Social Work Practice in Healthcare Settings, 3 Units

This elective course offers an introduction to social work practice in healthcare settings, with a focus on the specific knowledge and skills essential for effective intervention. Students critically analyze the U.S. healthcare system as compared to international models, and apply clinical skills and relevant laws to interdisciplinary practice while understanding the context of the political, societal, and economic influences that impact service delivery and available resources. The course also articulates how a Christian worldview relates to ethical social work practice within the field of health care.

SOCW 561, Treatment of Substance Use Disorders, 3 Units

This course describes substance use disorders from a biopsychosocial-cultural-spiritual perspective, emphasizing assessment and intervention skills, processes, and evidence-informed research relevant to treatment using the recovery model. Diversity issues involving policy and practice are explored. Course content meets California Board of Behavioral Sciences precicensure requirement in the area of alcohol and other substance abuse assessment.

SOCW 562, Urban Social Welfare, 3 Units

Course integrates on-site experiential learning with classroom education focused on urban issues of homelessness, gang involvement, and immigration. Students engage in weekly on-site learning activities in high-need areas of Los Angeles and Orange County. Content includes theological and sociological perspectives on urban issues as well as urban social work practice. Elective

SOCW 563, School Social Work, 3 Units

This course uses an ecological perspective in teaching the practice of social work in schools. Topics include the historical, theoretical, legal, research, policy, and practice issues relevant to the delivery of school social work services; the roles and tasks performed by social workers in public schools; school social work practice models; and the professional code of ethics. The purpose of this course is to develop the knowledge, skills, and abilities necessary for successful and competent practice with students, families, schools, and communities.

Prerequisite: Completion of generalist foundation curriculum; admission to the PPS program (required for students seeking the PPSC).

SOCW 564, Social Work and the Bible: Christian Perspectives on Service and Professional Practice, 3 Units

This course focuses on theological and social work perspectives on the relevance of the Bible to professional practice activities. Content addresses diverse Christian perspectives on social welfare policies and faith integration in different practice environments. Distinctions between professional social work, Christian counseling, and missionary activity are explored. Elective

SOCW 565, Clinical Spanish Practice, 3 Units

This course prepares students to utilize clinical practice skills in the Spanish language, including assessment, engagement, intervention, and evaluation of services with individuals, groups, and communities. Content covers diversity issues such as cultural competence and understanding of the Latino/ a culture and its intragroup differences, and equipping students to confront biases, myths, and stereotypes in the client-practitioner therapeutic relationship. Course is conducted primarily in Spanish.

Prerequisite: SOCW 514 and SOCW 524

SOCW 566, Social Work, Health, and Aging, 3 Units

This course explores concepts, social policies, resources, and interventions related to social work practice with the older adult population. Content integrates themes of diversity, ageism, empowerment, and faith, as well as community-based and cross-cultural competence. Content includes a focus on biopsychosocial assessment, with emphasis on functional and cognitive status, integrated healthcare practice, interdisciplinary practice, and end-of-life care. This course meets California Board of Behavioral Sciences requirements for clinical social work licensure.

SOCW 567, Couples Therapy, 3 Units

This course is an overview of current theories, methods, and psychological instruments used in couples therapy interventions. Content includes detection, assessment, and intervention strategies for spousal or partner abuse, meeting California requirements for training in the area of domestic and family violence for MFT and LCSW licensure. Students apply course material to role-play scenarios during class time. Attention is given to issues of ethnic diversity, blended families, and faith integration.

Prerequisite: Completion of generalist foundation coursework or admission into the Advanced Standing program.

SOCW 568, Military Social Work, 3 Units

This course helps students understand the unique and complex needs of active-duty service members, veterans, and family members of military personnel, presenting knowledge and skills essential to effective clinical social work practice with these populations. Topics include military culture, ethical issues, diversity, faith integration, trauma, assessment, family issues, reintegration, domestic violence, substance use, homelessness, suicide, building resiliency, and evidence-informed interventions for use in interprofessional settings.

SOCW 569, Human Sexuality and Sex Therapy, 3 Units

This course reviews human sexuality as a basis for sex therapy and clinical social work involving sexuality issues. Students examine and evaluate biological, psychological, social, moral, and faith perspectives on sexual development and functioning. In addition, students survey literature on sexual dysfunction, and learn treatment strategies utilized in various social work contexts and systems of marital and sex therapy. This course meets California Board of Behavioral Sciences requirements for clinical social work licensure.

SOCW 570, International Social Work Policy and Practice, 3 Units

Content focuses on international social work practice at multiple systems levels. Topics include comparison of U.S. and international social welfare policies; different theoretical, economic, cultural, ideological, and religious perspectives; neoliberal economic development policies; issues involving immigrants and other marginalized groups; and the impact of globalization and climate change on rapid urbanization and population growth. Practice content addresses poverty alleviation, conflict and postconflict reconstruction, and displacement and forced migration concerns.

Prerequisite: SOCW 522 and SOCW 523

SOCW 595, Special Topics, 1-6 Units

Special topics courses offer graduate-level content that is typically scheduled in an intensive format. These courses include a wide range of specialized topics relevant to professional social workers. The unit values of these courses range from 1-6 depending upon the specific contact hours and coursework load. Note: Elective offerings vary year to year.

SOCW 599, Readings in Social Work, 1-3 Units

Students enroll in this course to pursue independent study of professional interests/activities. Students explore topics in greater depth than in regular course offerings and/or initiate individual projects. Readings and assignments are based on learning contracts developed in consultation with a sponsoring faculty member and approved by the MSW program director. Additional fees required.

PRSW 410, Family Violence, 3 Units

Family violence is an in-depth study from a system's perspective of violence that occurs in families. This course provides an overview of child abuse, spousal abuse, abuse between intimate partners, and elder abuse. The course explores the theory and research as to the causes of abuse, including individual and family factors, elder abuse, gender issues, community and societal influences, and cultural factors. This course explores the policy and programs developed to deal with these crises. Finally, methods of assessment and intervention are investigated as applicable to both professional and personal situations.

Prerequisite: Junior or Senior Standing or Instructor's consent

Bachelor of Social Work

69 units

Mission Statement

The Bachelor of Social Work (<https://www.apu.edu/bas/programs/bsw/>) program at Azusa Pacific University seeks to develop competent generalist social work practitioners who can apply knowledge based on scientific inquiry, professional values, and skills of social work, integrating a Christian perspective, to enhance the well-being of diverse individuals, families, groups, organizations, and communities in the context of their environment towards advancing social justice both locally and globally.

Program Values

The BSW program is grounded in the profession's history and commitment to racial, social, economic, and environmental justice; respect for diversity; and the university's commitment to advancing God's work in the world by being of service, advancing human rights, validating the importance of human relationships, demonstrating integrity, and promoting the dignity and worth of all people. The program is committed to excellence in its teaching and scholarship based on scientific inquiry, to the integration of Christian faith in learning and practice, and to the facilitation of community within the department, with students, and within the greater social environment.

BSW Program Goals

1. Equip students with generalist knowledge, values, and skills toward employment in social work practice with diverse individuals, families, groups, organizations, and communities within a global context.
2. Enhance application of knowledge through a learning environment that builds on a liberal arts foundation and promotes critical thinking, scientific inquiry, and preparation for social change through the advancement of racial, social, economic, and environmental justice.
3. Foster professional development and identity through applied learning experiences.
4. Prepare social workers who engage in ethical practice, including an understanding of ethical integration of a Christian worldview.
5. Provide a curriculum that affirms lifelong learning and is preparatory to graduate-level education, including the pursuit of an advanced-standing graduate social work degree.
6. Engage in ongoing scholarship responsive to social work goals and needs.

In their courses, BSW students learn the knowledge, values, and skills to help them engage, assess, provide intervention, and evaluate their direct practice with individuals, groups, families, organizations, and communities. Additionally, students are encouraged to think critically, become aware of their affective reactions, exercise good judgment, and use self-reflection as part of their professional development. During their senior year, students complete a supervised 400⁺-hour internship at a community-based agency where they apply the knowledge and skills learned in the classroom to professional environments and client groups to gain experience.

Career Opportunities

Social workers provide services to individuals, families, groups, organizations, and communities. Social workers can apply their training and experience in a variety of practice areas, including:

Addictions Prevention and Treatment	Homeless Individual/Families Assistance
Adoption and Foster Care	Hospice and Palliative Care
Advocacy Consulting and Planning	Housing Assistance
Charter/Alternative School Programs	In-home Services
Child Abuse and Neglect	International Social Work
Child Welfare Services	Law/Courts/Community
Criminal Justice	Medical Social Work
Crisis Intervention	Mental Health Counseling
Community Mental Health	Military Social Work
Community Planning and Advocacy	Parent Education
Delinquent/At-risk Youth	Police Work
Developmental Disabilities	Political Planning and Lobbying
Disaster Relief	Prisons and Probation
Eating Disorders	Public Health

Employee Assistance Programs
Genetics/Transplant
Gerontology/Older Adult Services

Rural/Tribal Social Work
School Social Work
Skilled Nursing Social Work

Accreditation

The undergraduate program in the Department of Social Work has been nationally accredited since 1982 by the Council on Social Work Education (<https://www.cswe.org/>).

Advising and Admission

Academic Advising Policy

Any student interested in social work is encouraged to contact the BSW program for more information about the major—contact us at bsw@apu.edu or (626) 857-2410. Students who wish to major in social work should declare “Social Work Interest” as their intended major as soon as possible through the Student Services Center (<https://www.apu.edu/undergraduate-enrollment-services/academic/changemajor/>) in order to begin academic and professional planning. Upon declaring “Social Work Interest” as a major, students are assigned an academic success coach by the Academic Success Center (<https://www.apu.edu/academic-success/>). Students meet with their assigned coach to create an initial multiyear academic plan. Once admitted to the social work major, a BSW faculty-mentor advisor is assigned by the BSW program for academic and professional advising. Students are strongly encouraged to meet with their academic success coach (as “Social Work Interest”) or BSW faculty-mentor advisor (as “Social Work Major”) prior to registration each semester.

Note: Students must apply to the major (see Admission to the Program section below). Upon full admission to the program, student status is changed from “Social Work Interest” to “Social Work” by the Student Services Center (<https://www.apu.edu/undergraduate-enrollment-services/>). Transfer students may be required to apply to the BSW program immediately upon university acceptance. See the Admission to the Program section below for additional direction.

Academic Advising Procedure

1. Contact the BSW program to schedule an appointment, if necessary, to discuss social work as a choice of major.
2. Declare “Social Work Interest” as a major through the Student Services Center (<https://www.apu.edu/undergraduate-enrollment-services/academic/changemajor/>).
3. Contact the BSW office to receive your advisor assignment and the BSW Student Handbook (<https://www.apu.edu/bas/programs/bsw/students/>).
4. Read the BSW Student Handbook in its entirety.
5. Meet with assigned success coach to develop a multiyear academic plan and confirm choice of major.
6. Respond to the email invitation to schedule an appointment with the assigned advisor that will be sent to the student’s APU email address (during university advising period).
7. Schedule an appointment with your academic success coach (“Social Work Interest” students) and/or BSW faculty-mentor advisor (“Social Work Major” students) for academic advising prior to registration each semester.
8. Meet with your academic success coach (“Social Work Interest” students) and/or BSW faculty-mentor advisor (“Social Work Major” students) for academic advising prior to registration each semester.

Note: Advisors assist in planning, but students are responsible for coming prepared for advising and being knowledgeable regarding university requirements.

Professional Advising Policy

As outlined above, once a student is admitted to the social work major, a BSW faculty mentor-advisor is assigned by the BSW program for academic and professional advising. While the BSW faculty mentor-advisor is the primary contact person within the program, students are encouraged to utilize all BSW faculty office hours as needed for professional development. Students are invited to regularly meet with their BSW faculty mentor-advisor for professional development discussions aimed at graduate school and/or employment preparation. The BSW faculty mentor-advisor can also clarify specific content and expectations of the required social work courses, including general information about and preparation for the field internship. Students are assigned to faculty mentor-advisors upon acceptance to the major by the BSW admissions committee. Students can meet with their BSW faculty mentor-advisor by appointment during department advisement periods or through use of faculty office hours.

Additional professional advising occurs through department, program, and alumni association events as well as during the SOCW 467 Senior Practicum Seminar I and SOCW 469 Senior Practicum Seminar II courses.

Professional Advising Procedure

Students may obtain professional advising by:

1. Being accepted as a social work major by the BSW admissions committee.
2. Being assigned a BSW faculty-mentor by the BSW program coordinator.
3. Responding to the email invitation to schedule an appointment with your assigned BSW faculty mentor-advisor that will be sent to your APU email address (during university advising period) OR schedule an appointment with your BSW faculty mentor-advisor during their posted office hours.
4. Meeting with your BSW faculty mentor-advisor for professional advising.

Admission to the Program

Students are considered "Social Work Interest" by the registrar until formally accepted into the program. Prior to formal acceptance into the program, students should begin advising within the BSW program and can begin taking entry-level social work courses and the General Education courses that apply to social work, as outlined in the university catalog.

The BSW program reviews applications in the fall and spring semesters for currently enrolled students. Application deadlines are March 7 (fall admission) and November 7 (spring admission). Late applications may be considered on a case-by-case basis depending on the number of accepted students.

Transfer social work applicants planning to enter APU at the junior level (45 or more units) must submit the BSW Application for Admission (https://formstack.apu.edu/forms/bsw_program_application/) in order to be considered for full acceptance into the social work program. Submit your application to the BSW program at the same time you submit your university application. Students transferring in prior to their junior year (less than 45 units) begin the major as "Social Work Interest," and submit applications prior to their junior year after starting at the university. Transfer students should seek academic advising through the Academic Success Center (<https://www.apu.edu/academic-success/>) and within the BSW program as soon as possible to begin planning coursework. Transfer social work applicants planning to enter APU at the junior level (45 or more units) must submit the BSW Application for Admission (https://formstack.apu.edu/forms/bsw_program_application/) in order to be considered for full acceptance into the social work program. Submit your application to the BSW program at the same time you submit your university application. Students transferring in prior to their junior year (less than 45 units) begin the major as "Social Work Interest," and submit applications prior to their junior year after starting at the university. Transfer students should seek academic advising through the Academic Success Center (<https://www.apu.edu/academic-success/>) and within the BSW program as soon as possible to begin planning coursework.

Students may be admitted fully, or on provisional status, or denied admission. If a student is admitted on provisional status, a plan for attaining full admission is provided by the BSW admissions committee. If this plan is not met in full, the student is not allowed to continue in the program and will receive notice that provisional status was not met. If denied admission, the student may initiate an appeal procedure, as outlined in the BSW Student Handbook.

University-Admitted APU Students

Students admitted to the university and interested in pursuing the social work major should submit their BSW Application for Admission (https://formstack.apu.edu/forms/bsw_program_application/) directly to the BSW program. Applications are reviewed by the Social Work Advising and Admissions Committee, composed of social work faculty, and are considered based on academic and personal readiness for the program.

Admission Requirements

1. A 2.5 overall GPA
2. Completion of or enrollment in SOCW 250 Introduction to Social Work (full acceptance requires completion of this course with a C or better).
3. Acknowledgment of the ability to adhere to the National Association of Social Workers Code of Ethics (<https://www.socialworkers.org/About/Ethics/Code-of-Ethics/>).
4. Acknowledgment of the ability to meet BSW Technical Standards and maintain professional behavior consistent with the Student Code of Conduct, both of which are outlined in the BSW Student Handbook (<https://www.apu.edu/bas/programs/bsw/students/>).
5. Submission of a personal statement providing responses to the following:
 - a. What influenced your choice of social work as a profession? Include when and how you became interested in the field of social work.
 - b. What personal, volunteer, and/or employment experiences have you had, and/or what characteristics do you possess, that will contribute to your work as a professional in the field of social work?
 - c. Social workers practice with diverse people groups in diverse settings. What groups and/or settings may challenge you because of either your personal values, attitudes, and/or experiences? How will you handle this?
 - d. Social work often involves assisting individuals, families, groups, and communities in problem-solving. Give a brief description of a problem you have encountered in an employment or volunteer situation and how you resolved it. If you have neither employment nor volunteer experience, you may discuss a personal challenge that you faced.

- e. The profession of social work has identified 13 Grand Challenges (<https://grandchallengesforsocialwork.org/grand-challenges-initiative/12-challenges/>) that reflect the purpose and mission of the social work field. Referencing the challenges, select one or more of them that align with your personal and professional interests. Utilizing the challenge(s) selected, respond to the following:
- Discuss how your professional goals align with the efforts of the challenge(s) selected. Why is the challenge selected important and how does it connect to your interest in the social work profession?
 - Discuss the significance of the challenge(s) selected based on your personal faith beliefs or values. For example, why should people who identify as Christians be concerned with the challenge selected?

Procedure

1. Completion of or enrollment in SOCW 250 Introduction to Social Work (full acceptance requires completion of the course with a C or better)
 - a. Note: transfer students with more than 45 units can apply prior to completing SOCW 250 Introduction to Social Work.
2. Complete all sections of the application, including complete responses to the personal statement questions.
3. Submit an unofficial APU transcript, or transcript of coursework completed elsewhere if a transfer.
4. Submit completed application to the BSW program for review by March 7 (fall admission) or November 7 (spring admission). Late applications and transfer students are evaluated on a case-by-case basis and as space allows.
5. Submit additional materials and/or interview with the BSW program director at the request of the admissions committee.
6. Students are notified by email within three weeks of the BSW admissions committee's decision.

Evaluation Criteria for Personal Statements

Admission decisions for the BSW program are based upon a review of academic performance, completion of SOCW 250 as a prerequisite with a C or better (can be enrolled in the course for provisional admission), relevant work or volunteer experience, quality of written personal statement, and relevant experience as indicated in the résumé submission. If needed, a student may be asked to complete a formal interview with the BSW program director and/or submit letters of reference that can support the student's readiness for a career in social work. The admissions committee may seek additional information from the social work faculty, the applicant, or other formal sources. The committee will focus on academic achievement as well as criteria that demonstrate a commitment to social work values, beginning understanding of the social work profession, professional attitude and behavior, emotional maturity, and ability to clearly express oneself orally and in writing.

Following review by the committee, the applicant will be notified in writing via email of the committee's decision. Committee options include full admission, provisional admission with terms outlined, or denial of admission.

Admissions Appeals Process

Any student who is dissatisfied with a decision for admission may request an in-person review with the admissions committee, in which they can supply further verbal and written evidence in regard to the committee's actions. The committee will provide a written response to the student within one week of the hearing. If the student is still in disagreement, he/she may appeal to the dean of the School of Behavioral and Applied Sciences.

Requirements

Coursework for the social work major provides foundational social work knowledge that spans the micro-mezzo-macro practice continuum and covers subject content including practice skills, human rights and social justice, community transformation and leadership, child welfare, and aging.

A total of 69 units is required for the major, and a minimum 2.5 grade-point average (GPA) is required in all major courses, including specified General Education courses. Students must pass all required courses with a C or higher, and must maintain a 2.5 GPA to remain in the major.

Code	Title	Units
Specified General Education Requirements		9
PSYC 110	General Psychology ¹

PHIL 330	Ethics	

Total Units**69**

¹ Meets the General Education Social Sciences requirement.

² Meets the General Education Intercultural Competence requirement.

³ Students interested in meeting the social work major's biology requirement at another university must ensure that the course has been articulated by the biology department or obtain prior approval from their advisor to ensure that the course they plan to take covers the required content necessary to satisfy the social work curriculum.

⁴ Meets the General Education Natural Sciences requirement.

- ⁵ Meets the General Education Quantitative Literacy requirement.
- ⁶ Meets the General Education Civic Knowledge and Engagement requirement.
- ⁷ Only social work majors may register for these courses.
- ⁸ Meets the General Education Integrative and Applied Learning requirement.
- ⁹ Meets the General Education Writing 3 requirement.
- ¹⁰ Two electives (6 units) are required for completion of the social work major; one must be taken from courses offered within the department, and the second may be taken from either group of approved courses.

Suggested Plan of Study

A minimum of 120 units is needed to graduate. This includes units toward General Education, major, and/or minor requirements.

Course	Title	Units
Year I		
Fall		
GE 100	First-Year Seminar (required first term)	3
MIN 108	Christian Life, Faith, and Ministry	3
WRIT 110	Writing 1: The Art and Craft of Writing	3
PSYC 110	General Psychology	3
SOCW 250	Introduction to Social Work	3
MATH 99 or MATH 90	Self-paced Mathematics Lab ^{Or ALEKS Score of 30+} or Foundations of Mathematical Reasoning	1-3
Units		16-18
Spring		
UBBL 100	Introduction to Biblical Literature: Exodus/ Deuteronomy	3

SOCW 469	Senior Practicum Seminar II	3
SOCW 479	Writing 3: Social Work Research Project	3
Social Work Elective (2 of 2)		3
Units		13

Total Units **122-124**

¹ Ancient and Modern Languages is a proficiency requirement that may be met by an OPIc, SAT, AP, CLEP, or FLATS test score, or completion of an APU language course numbered 102 or higher.

Field Internships

Field/practicum education is a required component of the BSW curriculum. The field/practicum application and placement process occurs during the term prior to the onset of internships. Students complete a 400⁺-hour internship with a focus on applying and integrating generalist professional social work knowledge, values, skills, and affective-cognitive processes in a supervised community agency setting. Students are concurrently enrolled in seminar during internship terms. **Course credit is not given for life experiences or for previous or current work experience.** Students are required to obtain their own malpractice insurance prior to entering their internship. Information regarding insurance is available through the BSW program. Students are responsible for ensuring they have reliable transportation to and from internship agencies.

Field/practicum education faculty select internship sites using strict criteria consistent with accreditation standards set forth by the Council on Social Work Education (<https://www.cswe.org/>), including the congruence of internship agency mission and goals with professional social work ethics and standards. Agencies must also provide student supervision consistent with accreditation requirements.

Additional information regarding field/practicum education can be found in the Field Education Manual (<https://www.apu.edu/bas/programs/bsw/fieldeducation/>).

Transfer of Credits

Policy Regarding Transfer of Credits

Students applying to APU who would like to transfer course credit from another institution should review the Transfer Application Requirements (<https://www.apu.edu/undergraduate-admissions/transfer/requirements/>) and check with their assigned admissions representative (<https://www.apu.edu/undergraduate-admissions/counselors/>) in the Office of Undergraduate Admissions. Students may also want to review the APU General Education Guidelines (<https://www.apu.edu/undergraduate-admissions/transfer/ge-plans/>) and Course-to-Course Articulation (<https://www.apu.edu/undergraduate-admissions/transfer/articulation/>) to get an idea of how coursework will transfer to APU.

Students transferring from CSWE-accredited undergraduate social work programs may submit to their admissions representative a list of social work courses, including practice courses and field education, completed within the last five years for evaluation for transfer of credits. This request will be further submitted to the BSW program director by the Student Services Center (<https://www.apu.edu/undergraduate-enrollment-services/>) for social work course credit review. Each course will be evaluated by the department on a case-by-case basis for compatibility with program requirements and competencies. This process includes a comparison of syllabi from transfer institutions to ensure course content equivalency to APU required courses.

General Education requirements for the major will be assessed by the Student Services Center. Students who leave the BSW program must reapply for admission to the BSW program if the absence is two years or more. Course credit is not given for life experiences or for previous or current work experience.

Students interested in meeting the social work biology requirement at another university are strongly encouraged to obtain prior approval from their advisor to ensure that the course they plan on taking covers the required content necessary to satisfy the social work requirement. Students may also consult with the Student Services Center regarding the transferability of biology courses.

Course credit is not given for life experiences or for previous or current work experience.

Procedure Regarding Transfer of Credits (General Education Requirements)

The following procedure is used to review transfer of credits:

1. Students create an account on Transferology (<https://www.transferology.com/>).
2. Select "Will My Courses Transfer?" to search for the equivalent course at APU.
3. If the course is listed on Transferology, send an official transcript to the Student Services Center.
4. If the course is not listed on Transferology, you can also check our Articulation Agreements (<https://www.apu.edu/undergraduate-enrollment-services/academic/transfer/community-college/>). If you find the course in an Articulation Agreement, send an official transcript to the Student Services Center.
5. If the course is not listed in either of the above options, complete a Transfer Inquiry (https://formstack.apu.edu/workflows/transfer_inquiry/?sso=5e95d3ce84f5e&sso=5eaafa7c13831) to request articulation. For major course requirements, you will need to submit a course syllabus. For General Education requirements, you will need to submit an official course description.
6. If your Transfer Inquiry is approved, send an official transcript to the Student Services Center.

Procedure Regarding Transfer of Credits (Social Work Requirements)

The following procedure is used to review transfer of credits:

1. Students complete a Transfer Inquiry (https://formstack.apu.edu/workflows/transfer_inquiry/?sso=5e95d3ce84f5e&sso=5eaafa7c13831) to request articulation and submit a course syllabus to the Student Services Center.
2. The Student Services Center routes the inquiry to the BSW program director for review.
3. The BSW program director reviews the inquiry for consistency with program standards and CSWE requirements. Courses for consideration must be transferred from a CSWE-accredited program.
4. Determination from the BSW program director is provided to the Student Services Center.
5. The Student Services Center notifies the student of the credit decision.

Social Work Student Conduct Code

In addition to maintaining academic standards, students must demonstrate professional expectations and adherence to the Department of Social Work conduct code. Violation of the code may result in probation or termination from the program.

Professionalism and integrity are basic characteristics required of students in the program. As such, in addition to APU student standards of behavior, the Department of Social Work has standards for professional ethical behavior required of social work students as outlined below. Violations of this code trigger an investigation and possible sanctions. Although it is not possible to provide an exhaustive list of all types of violations that may result in probation or termination from the program, the following are some examples:

1. Plagiarism or other academic integrity violation (see APU's academic integrity policy (<https://www.apu.edu/provost/integrity/>))
2. Misrepresenting or misstating events surrounding an incident involving professional conduct
3. Poor or improper professional conduct during internship, classroom, or service-learning assignments
4. Being under the influence of alcohol and/or other controlled substances during classes and/or internship
5. Unprofessional involvement with a client or supervisor while engaged in internship activities
6. Breach of professional confidentiality

7. Derogatory comments and behavior toward a client, agency employee, classmate, faculty, or staff member
8. Discrimination or harassment directed toward a client, agency employee, classmate, faculty, or staff member on the basis of class, race, age, disability, national origin, gender, religion, and/or sexual orientation
9. Violation of the National Association of Social Workers (NASW) Code of Ethics (<https://www.socialworkers.org/About/Ethics/Code-of-Ethics/Code-of-Ethics-English/>) (a copy is held in the program office)
10. Insubordination
11. Excessive and/or unexcused absences
12. Falsifying field/classroom attendance hours
13. Unprofessional use of social media sites
14. Inappropriate professional attitude/disposition

Additionally, students are provided professional development feedback through the use of Professionalism Rubrics scored in each BSW course. These rubrics encompass faculty feedback relevant to in-class and service-learning observation. Rubrics are used to give guidance to students relevant to demeanor, use of reflection, appropriate use of technology, use of supervision/consultation, critical thinking, and collegiality. Students who present concerns in these areas may be referred to the BSW program director for remediation. The BSW Student Handbook (<https://www.apu.edu/bas/programs/bsw/students/>) can be referred to for the full description of the conduct code and appeals process.

Student Participation and Feedback

Student Participation and Feedback Policy

The BSW program invites and welcomes student participation and feedback as we work together to deliver a high-quality program that prepares generalist social work practitioners. Students are invited to participate in Club Social Work, to participate in or organize other interest groups, and to participate in student government.

Students are highly encouraged to talk with faculty if there are questions or concerns regarding classes. Field faculty are available to discuss issues related to field internships. The BSW program coordinator and/or the BSW program director are available to discuss such issues as medical leave, leave of absence, academic planning, and study away/independent study options. If students feel that issues have not been resolved through these channels, they are encouraged to make an appointment to speak with the department chair.

It is the student's responsibility to provide accurate feedback on strengths and challenges in the program through various feedback mechanisms, including but not limited to communication with the Club Social Work faculty liaison student officer, course evaluations, exit surveys, and alumni surveys. Student feedback is critical to helping the BSW program undergo ongoing evaluation and curricular improvements. A full description of student rights and responsibilities can be found in the academic catalogs listed on the Office of the Provost website (<https://www.apu.edu/provost/catalog/>), including processes for filing a grievance, and academic integrity and grade-change policies.

Student Participation and Feedback Procedure

Students may participate in BSW program development and provide feedback by:

1. Participating in Club Social Work
 - a. Club Social Work solicits membership through social work class announcements and student email invitation during the spring semester each academic year. As needed, membership solicitation may also occur in the fall semester. Students are encouraged to email clubsocialwork@apu.edu with additional questions. While membership as a CSW officer is encouraged, CSW weekly meetings are open to all BSW students. BSW students are encouraged to share feedback with CSW as a mechanism for student participation in BSW program development.
 - b. CSW student members, primarily the designated CSW faculty liaison student officer, attend BSW program meetings monthly to share student updates and feedback.
2. Organizing other interest groups and/or participation in student government
 - a. BSW students are encouraged to engage with the APU Office of Campus Life (<https://www.apu.edu/campus-life/>) to create APU clubs and organizations (<https://www.apu.edu/campus-life/involvement/clubs/>) in response to student or campus needs. Serving as an officer in the APU Student Government Association (<https://apusga.squarespace.com/>) is also encouraged. These auxiliary clubs and organizations serve as additional touch points for CSW officers to gain insight on student feedback during regularly scheduled university club and organization meetings sponsored by the Office of Campus Life.

3. Meeting with BSW faculty/staff and/or the department chair
 - a. All faculty/staff contact information can be found on the BSW website (<https://www.apu.edu/bas/programs/bsw/faculty/>), and students are welcome to schedule meetings during office hours to provide feedback.
4. Providing feedback after each course using the anonymous IDEA evaluation provided by the university at the close of each semester.
5. Providing feedback on the anonymous BSW program exit survey provided to BSW seniors by the program annually in the spring semester.
6. Providing feedback in the alumni survey sent via email to BSW alumni two years postgraduation by the Department of Social Work.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate ethical and professional behavior.
2. Engage in diversity and differences in practice.
3. Advance human rights and social, economic and environmental justice.
4. Engage in practice-informed research and research-informed practice.
5. Engage in policy practice.
6. Engage with individuals, families, groups, organizations, and communities.
7. Assess individuals, families, groups, organizations, and communities.
8. Intervene with individuals, families, groups, organizations, and communities.
9. Evaluate practice with individuals, families, groups, organizations, and communities.
10. Critically analyze how Christian beliefs and values can be ethically integrated in professional social work practice.

Program Competencies/Learning Outcomes

Students will demonstrate these competencies (CSWE, 2015):

Competency 1: Demonstrate Ethical and Professional Behavior

Social workers understand the value base of the profession and its ethical standards, as well as relevant laws and regulations that may impact practice at the micro, mezzo, and macro levels. Social workers understand frameworks of ethical decision-making and how to apply principles of critical thinking to those frameworks in practice, research, and policy arenas. Social workers recognize personal values and the distinction between personal and professional values. They also understand how their personal experiences and affective reactions influence their professional judgment and behavior. Social workers understand the profession's history, its mission, and the roles and responsibilities of the profession. Social workers also understand the role of other professions when engaged in interprofessional teams. Social workers recognize the importance of lifelong learning and are committed to continually updating their skills to ensure they are relevant and effective. Social workers also understand emerging forms of technology and the ethical use of technology in social work practice. Social workers:

- make ethical decisions by applying the standards of the NASW Code of Ethics, relevant laws and regulation, models for ethical decision-making, ethical conduct of research, and additional codes of ethics as appropriate to context;
- use reflection and self-regulation to manage personal values and maintain professionalism in practice situations;
- demonstrates professional demeanor in behavior; appearance; and oral, written, and electronic communication;
- use technology ethically and appropriately to facilitate practice outcomes; and
- use supervision and consultation to guide professional judgment and behavior.

Competency 2: Engage Diversity and Difference in Practice

Social workers understand how diversity and difference characterize and shape the human experience and are critical to the formation of identity. The dimensions of diversity are understood as the intersectionality of multiple factors including but not limited to age, class, color, culture, disability and ability, ethnicity, gender, gender identity and expression, immigration status, marital status, political ideology, race, religion/spirituality, sex, sexual orientation, and tribal sovereign status. Social workers understand that, as a consequence of difference, a person's life experiences may include oppression, poverty, marginalization, and alienation as well as privilege, power, and acclaim. Social workers also understand the forms and mechanisms of oppression and discrimination and recognize the extent to which a culture's structures and values, including social, economic, political, and cultural exclusions, may recognize the extent to which a culture's structures and values, including social, economic, political, and cultural exclusions, may oppress, marginalize, alienate or create privilege and power. Social workers:

- apply and communicate an understanding of the importance of diversity and difference in shaping the experiences in practice at the micro, mezzo, and macro levels;

- present themselves as learners and engage clients and constituencies as experts of their own experiences; and
- apply self-awareness and self-regulation to manage the influence of personal biases and values in working with diverse clients and constituencies.

Competency 3: Advance Human Rights and Social, Economic, and Environmental Justice

Social workers understand that every person regardless of position in society has fundamental rights such as freedom, safety, privacy, and an adequate standard of living, health care, and education. Social workers understand the global interconnections of oppression and human rights violations and are knowledgeable about theories of human need and social justice and strategies to promote social and economic justice and human rights. Social workers understand strategies designed to eliminate oppressive, environmental, economic, social and cultural human rights are protected. Social workers:

- apply their understanding of social, economic, and environmental justice to advocate for human rights at the individual and system levels; and
- engage in practices that advance social, economic, and environmental justice.

Competency 4: Engage in Practice-Informed Research and Research-Informed Practice

Social workers understand quantitative and qualitative research methods and their respective roles in advancing a science of social work and in evaluating their practice. Social workers know the principles of logic, scientific inquiry, and culturally informed and ethical approaches to building knowledge. Social workers understand that evidence that informs practice derives from multidisciplinary sources and multiple ways of knowing. They also understand the process for translating research:

- use practice experience and theory to inform scientific inquiry and research;
- apply critical thinking to engage in analysis of quantitative and qualitative research methods and research findings; and
- use and translate research evidence to inform and improve practice, policy, and service delivery.

Competency 5: Engage in Policy Practice

Social workers understand that human rights and social justice, as well as social welfare and services, are mediated by policy and its implementation at the federal, state, and local levels. Social workers understand the history and current structure of social policies and services, the role of policy in service delivery, and the role of practice in policy development. Social workers understand their role in policy development and implementation within their practice in practice settings at micro, mezzo, and macro levels and they actively engage in policy practice to effect change within those settings. Social workers recognize and understand the historical, social, cultural, economic, organizational, environmental, and global influences that affect social policy. They are also knowledgeable about policy formulation, analysis, implementation, and evaluation. Social workers:

- identify social policy at the local, state, and federal level that impacts well-being, service delivery, and access to social services;
- assess how social welfare and economic policies impact the delivery of and access to social services; and
- apply critical thinking to analyze, formulate, and advocate for policies that advance human rights and social, economic, and environmental justice.

Competency 6: Engage with Individuals, Families, Groups, Organizations, and Communities

Social workers understand that engagement is an ongoing component of the dynamic and interactive process of social work practice with, and on behalf of, diverse individuals, families, groups, organizations, and communities. Social workers value the importance of human relationships. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge to facilitate engagement with clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers understand strategies to engage diverse clients and constituencies to advance practice effectiveness. Social workers understand how their personal experiences and affective reactions may impact their ability to effectively engage with diverse clients and constituencies. Social workers value principles of relationship-building and inter-professional collaboration to facilitate engagement with clients, constituencies and other professional as appropriate. Social workers:

- apply knowledge to human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks to engage with clients and constituencies; and
- use empathy, reflection, and interpersonal skills to effectively engage diverse clients and constituencies.

Competency 7: Assess Individuals, Families, Groups, Organizations, and Communities

Social workers understand that assessment is an ongoing component of the dynamic and interactive process of social work practice with and on behalf of, diverse individuals, families, groups, organizations, and communities. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge in the assessment of diverse clients and constituencies, including families, groups, organizations, and communities. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge in the assessment of diverse clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers understand methods of assessment with diverse clients and constituencies to advance practice effectiveness. Social workers recognize the implications of the larger practice context in the assessment process and value the importance of inter-professional collaboration in this process. Social workers understand how their personal experiences and affective reactions may affect their assessment and decision making. Social workers:

- collect and organize data, and apply critical thinking to interpret information from clients and constituencies;
- apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in the analysis of assessment data from clients and constituencies;

- develop mutually agreed-on intervention goals and objectives based on the critical assessment of strengths, needs, and challenges within clients and constituencies; and
- select appropriate intervention strategies based on the assessment, research knowledge, and values and preferences of clients and constituencies.

Competency 8: Intervene with Individuals, Families, Groups, Organizations, and Communities

Social workers understand that intervention is an ongoing component of the dynamic and interactive process of social work practice with, and behalf of, diverse individuals, families, groups, organizations, and communities. Social workers are knowledgeable about evidence-informed interventions to achieve the goals of clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge to effectively intervene with clients and constituencies. Social workers understand methods of identifying, analyzing, and implementing evidence-informed interventions to achieve client and constituency goals. Social workers value the importance of interprofessional and interorganizational collaboration. Social workers:

- critically choose and implement interventions to achieve practice goals and enhance capacities of clients and constituencies;
- apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in the interventions with clients and constituencies;
- use interprofessional collaboration as appropriate to achieve beneficial practice outcomes; and
- facilitate effective transitions and endings that advance mutually agreed-on goals.

Competency 9: Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities

Social workers understand that evaluation is an ongoing component of the dynamic and interactive process of social work practice with, and on behalf of, diverse individuals, families, groups, organizations and communities. Social workers recognize the importance of evaluating processes and outcomes to advance practice, policy, and service delivery effectiveness. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge in evaluating outcomes. Social workers understand qualitative and quantitative methods for evaluating outcomes and practice effectiveness. Social workers:

- select and use appropriate method for evaluation of outcomes;
- apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in the evaluations of outcomes;
- critically analyze, monitor, and evaluate intervention and program processes and outcomes; and
- apply evaluation findings to improve practice effectiveness at the micro, mezzo, and macro levels.

Competency 10: Critically Analyze How Christian Beliefs and Values Can be Ethically Integrated in Professional Social Work Practice

Social workers understand the role of spirituality and faith as part of a holistic approach to social practice and in understanding human behavior and the social environment. Social workers apply ethical principles in the integration of faith in practice, mindful of their own beliefs and impact on the helping relationship. Social workers recognize that faith communities are part of the cultural context of individuals, families, and communities, and provide protective as well as risk factors in the process of change. In this context, social workers articulate how Christian beliefs and values can be ethically integrated in professional social work practice. They:

- demonstrate self-awareness of their own worldview, as it relates to a Christian worldview;
- articulate how a Christian worldview is integrated into social work practice; and
- critically analyze how Christian, spiritual, or religious traditions assist or hinder the helping process.

Certificate of Distinction in Undergraduate Social Work Research

The Certificate of Distinction in Undergraduate Social Work Research is available to seniors participating in the advanced research section of SOCW 478 and SOCW 479 of the BSW program.

Requirements and Expectations

- Students must have a minimum cumulative GPA of 3.3 and have received a *B* or higher in statistics (MATH 130) or equivalent course in order to participate in the advanced research section. Students who have received less than a *B* in statistics but meet the GPA requirement may petition to be in the advanced research section. Petitions will be reviewed on a case-by-case basis.
- Students must have completed and received a *C* or higher in all other required BSW courses leading to their senior year.
- Students must complete an application that includes a brief essay noting why they wish to participate in the advanced research section.

- Students must receive a recommendation from one other BSW faculty member who can speak to the student's writing ability and professional readiness to participate in the advanced research section.
- Students must develop an original research project tied to their field internship in accordance with the course requirements.
- Students must complete the appropriate Institutional Review Board (IRB) application and receive approval for their projects from APU's IRB office (<https://www.apu.edu/researchandgrants/ethics/irb/>).
- Students must submit an abstract for presentation at an appropriate campus-wide research event.
- Students must submit an abstract for the student research poster competition at the national undergraduate social work conference (The Association of Baccalaureate Social Work Program Directors (BPD) conference) held every March. Students who are selected, through a review process, to present their research at the BPD conference must attend the conference and participate in the research poster competition. Students apply for travel grants from APU's Undergraduate Research Program (<https://www.apu.edu/undergraduate-research/>) to support travel and conference-related expenses.
- Students are invited to submit abstracts to participate in the annual, highly competitive Posters on the Hill interdisciplinary student conference in Washington, DC, sponsored by the Council on Undergraduate Research.
- Students coauthor with the instructor to submit an article based on their research to a peer-reviewed academic journal in social work for publication consideration by the end of the spring semester. Students are expected to remain in touch with the course instructor postgraduation to work on any revisions requested by the journal(s) in order to be accepted for publication.

¹ Meets the General Education Writing 3 requirement.

Master of Social Work

MSW Program Mission and Goals

The following mission statement guides APU's Master of Social Work (MSW) program (<https://www.apu.edu/bas/programs/msw/>):

The Master of Social Work (MSW) program develops competent advanced social work practitioners and leaders who can integrate knowledge based on scientific inquiry, values, and skills of social work to advance human well-being, promote social and environmental justice, and advocate for equity for diverse individuals, families, groups, organizations, and communities, in the context of their environment both locally and globally, informed by our Christian faith tradition.

We value:

- *The Social Work Code of Ethics*
- *Diversity and inclusive excellence*
- *Service*
- *Innovative teaching and scholarship*
- *Integration of faith and learning*
- *Social work leadership development*
- *Strengthening communities in local, national, and global contexts*

The following outcome goals are derived from the mission statement and purposes of social work education congruent with accreditation standards:

1. Graduates will exhibit competence in generalist and advanced social work practice with diverse individuals, families, groups, organizations, and communities, including appropriate uses of supervision, consultation, and discernment, to seek necessary organizational change.
2. Graduates will demonstrate knowledge, built on a liberal arts foundation, of the history of the social work profession and empirically supported theoretical frameworks that provide understanding of individual development and behavior across the life span and interactions among and between individuals and families, groups, organizations, and communities.
3. Graduates will demonstrate critical thinking skills, skills related to the effective integration of research in practice, and adequate preparation for leadership, advanced study, and lifelong learning.
4. Graduates will demonstrate knowledge and skills to partner with communities to advocate for the development of policies and programs that seek to advance human rights and well-being; promote social, racial, economic, and environmental justice; empower clients; and respect diversity.

5. Graduates will practice according to the values and ethics of the profession and understand the ethical integration of Christian faith in practice, including nondiscrimination in the areas of age, class, culture, color, disability, ethnicity, family structure, gender, marital status, national origin, race, religion, sex, and sexual orientation.

6. Faculty will engage in ongoing scholarship reflecting the goals and needs of professional social work practice.

Accreditation

- All Azusa Pacific University programs are accredited by the WASC Senior College and University Commission (WSCUC). (<https://www.wscuc.org/>)
- The MSW program is accredited by the Council on Social Work Education (CSWE). (<https://www.cswe.org/>).
- The MSW program's Pupil Personnel Services Credential in School Social Work and Child Welfare and Attendance is accredited by the California Commission on Teacher Credentialing (CTC). (<https://www.ctc.ca.gov/credentials/req-services/>).

Specializations

The Master of Social Work (MSW) program offers two specializations:

Clinical Practice with Individuals and Families

This specialization prepares students for clinically oriented practice with individuals, children, and families in contexts such as mental health clinics, veterans' services, managed care facilities, shelters, group homes, child welfare agencies, hospice, schools, correctional institutions, and other settings where personal helping relationships are developed. Specific emphasis is placed on advanced clinical practice skills with children, adolescents, adults, families, and older adults; group therapy skills; and policies specific to health and mental health concerns.

Community Leadership and Program Administration

This specialization prepares students to provide leadership in nonprofit agencies, government programs, and policy and advocacy organizations in a variety of local and global contexts. Drawing on the significant cultural diversity characterizing the Los Angeles area, and the expertise of faculty, the curriculum prepares students to be proactive leaders and to collaborate with communities to improve upon the complex local, national, and international social problems they encounter. Curriculum content in this specialization includes organizational behavior and management, program planning and evaluation, organizing for community change, human rights and social policy with an optional emphasis in international social work, and research methods for data-driven change.

Program Options

The **full-time** program (two years, 60 units) includes classes two days per week and a minimum 16 hours per week of supervised internship. All students take the same first-year generalist foundation courses. Specialization courses are taken in the second year of the program (Azusa campus).

The **part-time** program (four years, 60 units) includes classes every Tuesday beginning at 4:20 p.m. (two classes per term, scheduled back-to-back). In addition, there are a total of four Saturday intensive courses required, which meet three to five times per term, in years one and three of the program. All students take the same generalist foundation courses in the first and second years. Specialization courses are taken in the third and fourth years of the program. Supervised internships requiring a minimum 16 hours per week occur in the second and fourth years (Azusa campus).

The **part-time** program (three years, 60 units) at the Inland Empire Regional Campus meets every Thursday beginning at 4:45 p.m., and five Saturdays (all day), per semester. Coursework occurs year-round (fall, spring, and summer), and students complete the program during their third summer of coursework. Supervised internships requiring approximately 16-20 hours per week occur in the second and third years at an internship placement specific to the specialization; placements are available in San Bernardino, Riverside, Los Angeles, Orange, and Ventura counties. *Clinical Practice with Individuals and Families specialization only (Inland Empire Regional Campus).*

The **full-time Advanced Standing** program (36 units) allows graduates of CSWE-accredited BSW programs to earn their MSW degree in 10 months. Students complete two 3-unit Advanced Standing bridge courses during an 8-week summer session (July-August, three evenings a week) prior to the start of their specialization curriculum, in which they join existing full-time MSW students for the remaining two terms (30 units) of the MSW program. Advanced Standing student internships require 20 hours per week for fall and spring terms (Azusa campus).

The **part-time Advanced Standing** program allows graduates of CSWE-accredited BSW programs to earn their MSW degree over the course of two years. Students complete two 3-unit Advanced Standing bridge courses during an 8-week summer session (July-August, three evenings a week) prior to the start of their specialization curriculum, in which they join existing part-time MSW students for the remaining two years (30 units) of the part-time MSW program. Part-time Advanced Standing student internships require 20 hours per week for fall and spring of the second year of the program (Azusa campus).

The two bridge courses for advanced standing are:

Code	Title	Units
SOCW 550	Advanced Standing: Intermediate Praxis	3
SOCW 551	Advanced Standing: Social Work Ethics and Practice	3

Field Internships

Field/practicum education is a required component of the MSW curriculum. The field/practicum application and placement process occurs during the term prior to the onset of internships. Over the course of the program, students complete two yearlong internships totaling 960 hours, with a focus on applying and integrating professional social work knowledge, values, and skills in a supervised community agency setting. Internships occur Monday-Friday during business hours. Successful completion of the internship/seminar curriculum, with a grade of *B-* or higher, is required for field/practicum credit and to proceed to the next field/practicum course sequence. Students are concurrently enrolled in field/practicum seminar during internship terms. Full-time students complete internships during both years of the program, Azusa part-time students complete internships during the second and fourth years, and Inland Empire part-time students complete internships during the second and third years of the program. Students in the two-, three-, and four-year options earn a total of 16 semester units for field/practicum education coursework. Advanced Standing students complete a total of eight field/practicum education units over two terms totaling 600 hours. **Course credit is not given for life experiences or for previous or current work experience.** Students are required to obtain their own individual liability insurance policy prior to entering their field internship. Information regarding insurance is available through the MSW program. Students are responsible for ensuring they have reliable transportation to and from internship agencies.

Field/practicum education faculty select internship sites using strict criteria consistent with accreditation standards set forth by the Council on Social Work Education, including the congruence of internship agency mission and goals with those of professional social work ethics and standards. Agencies must also provide student supervision consistent with accreditation requirements.

Policy Regarding Transfer of MSW Credits

The MSW program takes responsibility for ensuring that transferred courses are congruent with the curriculum policy statement of CSWE and meet program objectives. Students seeking admission to the program after enrollment at another CSWE-accredited MSW program may submit a list of MSW generalist foundation-level courses completed within the last five years for evaluation for transfer of credits. A maximum of 12 units may be transferred. No credit is given for prior field internship hours. A petition for transfer credit must fulfill the conditions listed below:

1. The work must have been completed while the student was enrolled in good standing as a graduate student. *A letter from the MSW program director is required verifying that the student was in good standing.*
2. The work must have been done within five years prior to starting the MSW program at Azusa Pacific University.
3. The school from which the credits are transferred must be accredited by a regional accreditation agency and by the Council on Social Work Education.
4. No transfer grade is lower than a *B*.
5. None of the transfer coursework consists of extension or workshop courses.
6. *Petition for transfer of credit occurs after acceptance into the MSW program and prior to the start of the first semester. All required documentation must be sent to the MSW graduate program director prior to August 1.*

Course credit is not given for life experiences or for previous or current work experience.

Procedure Regarding Transfer of MSW Credits

1. Contact the MSW director of admissions and student services before starting the program to request transcript review.
2. Each course will be evaluated by the program on a case-by-case basis for compatibility with program requirements.
3. This process includes a comparison of syllabi from transfer institutions to ensure course content equivalency to APU required courses.
4. Student will be notified via email of transferable credits before course enrollment.
5. The director of admissions and student services will discuss program requirements met through the credits, and provide academic advising for course planning.

Policy and Procedure Regarding Transfer of Elective Credits

The MSW program requires two elective courses (total of 6 units). Students transferring from another graduate program may petition to have up to 6 units evaluated for possible elective credit. The course(s) must be relevant to the MSW program and preferably have been taken within five years prior to admission. Syllabi will be reviewed on a case-by-case basis to assure that prior content is not outdated. Petitions must be submitted to the MSW program for evaluation. Due to the importance of MSW program compliance with CSWE accreditation standards, students may be asked to provide course syllabi in order to assess the relevance and timeliness of course material.

Procedure

1. Submit a request to evaluate relevant coursework, along with a copy of syllabi, to the MSW program, preferably completed within five years **prior** to admission, to the director of admissions and student services.
2. Syllabi will be reviewed by the graduate program director for compatibility.
3. The student will be notified of the outcome via email, by the MSW program.
4. The director of admissions and student services will discuss program requirements met through the credits, and provide academic advising for course planning.

Social Work Student Conduct Code

In addition to maintaining academic standards, students must demonstrate professional standards and adherence to the Department of Social Work conduct code. Violation of the code may result in probation or termination from the program. Refer to the MSW Student Handbook (<https://www.apu.edu/bas/programs/msw/students/>) for the full description of the conduct code and appeals process.

Academic Performance Expectations

GPA Requirements and Academic Probation

Continuation in the MSW Program requires a demonstration of academic ability. Students must maintain a 3.0 grade point average in all coursework and must pass all classes with a B- or higher.

Students who do not meet the GPA requirements and/or do not pass one or more classes with a B- or higher are placed on academic probation. Failure to meet 3.0 GPA requirement after repeating specified classes will result in graduation delay and/or academic dismissal.

Procedure for Addressing Academic Probation

- Meet with program director to discuss current academic standing in the program
- Discuss expectations for good academic standing, (<http://catalog.apu.edu/policies-procedures/graduate/good-academic-standing/>) as outlined in the APU Academic Catalog (<http://catalog.apu.edu/policies-procedures/graduate/good-academic-standing/>)
- Student is placed on academic probation for one semester in which student's grade point average must be 3.0 and all course grades are a minimum B-
- Student participates in the development of a performance improvement plan
- Student will meet with program director during probationary semester to discuss progress toward meeting performance improvement plan
- Student restores good academic standing when minimum academic requirements are met
- Failure to meet improvement plan may result in academic dismissal
- Students can appeal a decision by using the university grievance process outlined in the graduate catalog

Course Requirements

Code	Title	Units
Foundation Coursework		
SOCW 511	Introduction to the Social Work Profession	2

SOCW 552	Program Planning and Evaluation
XXX	Elective (3 units)
XXX	Elective (3 units)

Total Units **60-66**

¹ Students may test out of SOCW 527 and SOCW 528 but still need to complete the required unit total for the program. Contact the Department of Social Work (<https://www.apu.edu/bas/socialwork/contact/>) for more details.

² Students from either specialization can take any of the 3-unit credential courses as part of the two-elective graduation requirement—or *in addition* to that requirement—so they could end up with 63 or even 66 units. The courses meet both elective and PPSC requirements. But even if a community specialization student takes all credential courses, they DO NOT earn the credential, because only clinical specialization students can receive the credential.

Students from the clinical specialization seeking to complete credential requirements must complete PPSC field and field seminar courses SOCW 553, SOCW 554, SOCW 555, and SOCW 556 as part of the 6-unit field education graduation requirement. The courses are taken in place of clinical field and field seminar courses SOCW 534, SOCW 539, SOCW 544, and SOCW 548.

XXX Electives 3 units

XXX Electives 3 units

Total Units**36 - 42**

¹ Students may test out of SOCW 527 and SOCW 528 but still need to complete the required unit total for the program. See department for more details.

² Students from either specialization can take one or both credential courses as part of the two-elective graduation requirement—or *in addition to that* requirement—so they could end up with 39 or even 42 units. But even if a community specialization student takes both courses, they DO NOT earn the credential, because only clinical specialization students can receive the credential.

Electives

The following is a list of approved electives for the MSW program:

Code	Title	Units
These electives may be taken for either specialization:		
SOCW 540	Educational Policy	3
SOCW 543	Fundraising, Grant Writing, and Fiscal Decision Making	3
SOCW 560	Social Work Practice in Healthcare Settings	3
SOCW 561	Treatment of Substance Use Disorders	3
SOCW 563	School Social Work	3

SOCW 565	Clinical Spanish Practice	3
SOCW 566	Social Work, Health, and Aging	3
SOCW 567	Couples Therapy	3
SOCW 568	Military Social Work	3
SOCW 569	Human Sexuality and Sex Therapy	3
SOCW 570	International Social Work Policy and Practice	3
SOCW 595	Special Topics	1-6
Clinical specialization students may take any of these required community courses as electives:		
SOCW 529	Human Rights and Sustainable Development Policy	2
SOCW 530	Organizing for Community Change	3
SOCW 533	Organizational Behavior and Management	3
SOCW 552	Program Planning and Evaluation	3
Community specialization students may take any of these required clinical courses as electives:		
SOCW 536	Adult Behavioral Health and Diagnosis	3
SOCW 537	Child and Adolescent Behavioral Health and Diagnosis	3
SOCW 546	Family Therapy in Context	3
SOCW 547	Health and Behavioral Health Policy	2

Professional Expectations

The university catalog outlines professional expectations of students. Social work students have further expectations for professional behavior as outlined by the NASW Code of Ethics and as outlined in the social work conduct code, which can be found in the MSW Student Handbook (<https://www.apu.edu/bas/programs/msw/students/>).

Coursework Approved for Prelicensure Requirements

Additional coursework approved by the Board of Behavioral Sciences (<https://www.bbs.ca.gov/>) for meeting prelicensure requirements, as follows, is embedded in the generalist foundation-year MSW curriculum. Refer also to the MSW Student Handbook, Appendix 1, BBS Coursework Map.

- Human Sexuality (10 hours)
- Alcohol and Other Chemical Substance Dependency (15 hours)
- Child Abuse Assessment (7 hours)
- Spousal or Partner Abuse (15 hours)
- Aging and Long-Term Care (10 hours)
- California Law/Professional Ethics (18 hours)
- Suicide Assessment and Intervention (6 hours)
- Provision of Mental Health Services via Telehealth (3 hours)

Advanced Standing students may complete prelicensure requirements in MSW elective courses, as listed below, or may satisfy requirements through qualifying undergraduate coursework.

- SOCW 537 Child and Adolescent Behavioral Health and Diagnosis (Child Abuse Assessment Requirement)
- SOCW 561 Treatment of Substance Use Disorders (Alcoholism/Chemical Dependency Requirement)
- SOCW 566 Social Work, Health, and Aging (Aging and Long-Term Care Requirement)
- SOCW 567 Marital Therapy and Domestic Violence (Spousal or Partner Abuse Requirement)
- SOCW 569 Human Sexuality and Sex Therapy (Human Sexuality Requirement)

The California Law/Professional Ethics requirement (18 hours) is met in SOCW 551 Advanced Standing: Social Work Ethics and Practice.

The prelicensure requirements can also be taken postgraduation through the National Association of Social Workers (NASW) or other approved continuing education providers.

Students are responsible for meeting prelicensure requirements and should save relevant course syllabi as proof of hours and content completed. See the BBS website for full information on licensure requirements (<https://www.bbs.ca.gov/applicants/lcsw.html>), and see the MSW Student Handbook for more information.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate ethical and professional behavior.
2. Engage diversity and difference in practice.
3. Advance human rights and social, economic, and environmental justice.
4. Engage in practice-informed research and research-informed practice.
5. Engage in policy practice.
6. Engage with individuals, families, groups, organizations, and communities.
7. Assess individuals, families, groups, organizations, and communities.
8. Intervene with individuals, families, groups, organizations, and communities.
9. Evaluate practice with individuals, families, groups, organizations, and communities.
10. Demonstrate ethical integration of faith and spirituality in social work practice.

Program Competencies/Program Learning Outcomes

Generalist Foundation Competencies EPAS 2015

Competency 1: Demonstrate Ethical and Professional Behavior

Social workers understand the value base of the profession and its ethical standards, as well as relevant laws and regulations that may impact practice at the micro, mezzo, and macro levels. Social workers understand frameworks of ethical decision-making and how to apply principles of critical thinking to those frameworks in practice, research, and policy arenas. Social workers recognize personal values and the distinction between personal and professional values. They also understand how their personal experiences and affective reactions influence their professional judgment and behavior. Social workers understand the profession's history, its mission, and the roles and responsibilities of the profession. Social workers also understand the role of other professions when engaged in inter-professional teams. Social workers recognize the importance of life-long learning and are committed to continually updating their skills to ensure they are relevant and effective. Social workers also understand emerging forms of technology and the ethical use of technology in social work practice. Social workers:

- make ethical decisions by applying the standards of the National Association of Social Workers (NASW) (<http://www.naswdc.org/>) Code of Ethics, relevant laws and regulation, models for ethical decision-making, ethical conduct of research, and additional codes of ethics as appropriate to context;
- use reflection and self-regulation to manage personal values and maintain professionalism in practice situations;
- demonstrate professional demeanor in behavior, appearance, and oral, written, and electronic communication;
- use technology ethically and appropriately to facilitate practice outcomes; and
- use supervision and consultation to guide professional judgment and behavior.

Competency 2: Engage Diversity and Difference in Practice

Social workers understand how diversity and difference characterize and shape the human experience and are critical to the formation of identity. The dimensions of diversity are understood as the intersectionality of multiple factors including but not limited to age, class, color, culture, disability and ability, ethnicity, gender, gender identity and expression, immigration status, marital status, political ideology, race, religion/spirituality, sex, sexual orientation, and tribal sovereign status. Social workers understand that, as a consequence of difference, a person's life experiences may include oppression, poverty, marginalization, and alienation as well as privilege, power, and acclaim. Social workers also understand the forms and mechanisms of oppression and discrimination and recognize the extent to which a culture's structures and values, including social, economic, political, and culture exclusions, may recognize the extent to which a culture's structures and values, including social, economic, political, and cultural exclusions, may oppress, marginalize, alienate or create privilege and power. Social workers:

- apply and communicate understanding of the importance of diversity and difference in shaping the experiences in practice at the micro, mezzo, and macro levels;

- present themselves as learners and engage clients and constituencies as experts of their own experiences; and
- apply self-awareness and self-regulation to manage the influence of personal biases and values in working with diverse clients and constituencies.

Competency 3: Advance Human Rights and Social, Economic, and Environmental Justice

Social workers understand that every person regardless of position in society has fundamental rights such as freedom, safety, privacy, and adequate standard of living, health care, and education. Social workers understand the global interconnections of oppression and human rights violations, and are knowledgeable about theories of human need and social justice and strategies to promote social and economic justice and human rights. Social workers understand strategies designed to eliminate oppressive, environmental, economic, social and cultural human rights are protected. Social workers:

- apply their understanding of social, economic, and environmental justice to advocate for human rights at the individual and system levels; and
- engage in practices that advance social, economic, and environmental justice.

Competency 4: Engage in Practice-Informed Research and Research-Informed Practice

Social workers understand quantitative and qualitative research methods and their respective roles in advancing a science of social work and in evaluating their practice. Social workers know the principles of logic, scientific inquiry, and culturally informed and ethical approaches to building knowledge. Social workers understand that evidence that informs practice derives from multi disciplinary sources and multiple ways of knowing. They also understand the process for translating research. Social workers:

- use practice experience and theory to inform scientific inquiry and research;
- apply critical thinking to engage in analysis of quantitative and qualitative research methods and research findings; and
- use and translate research evidence to inform and improve practice, policy, and service delivery.

Competency 5: Engage in Policy Practice

Social workers understand that human rights and social justice, as well as social welfare and services, are mediated by policy and its implementation at the federal, state, and local levels. Social workers understand the history and current structure of social policies and services, the role of policy in service delivery, and the role of practice in policy development. Social workers understand their role in policy development and implementation within their practice in practice settings at micro, mezzo, and macro levels and they actively engage in policy practice to effect change within those settings. Social workers recognize and understand the historical, social, cultural, economic, organizational, environmental, and global influences that affect social policy. They are also knowledgeable about policy formulation, analysis, implementation, and evaluation. Social workers:

- identify social policy at the local, state, and federal level that impacts well-being, service delivery, and access to social services;
- assess how social welfare and economic policies impact the delivery of and access to social services; and
- apply critical thinking to analyze, formulate, and advocate for policies that advance human rights and social, economic, and environmental justice.

Competency 6: Engage with Individuals, Families, Groups, Organizations, and Communities

Social workers understand that engagement is an ongoing component of the dynamic and interactive process of social work practice with, and on behalf of, diverse individuals, families, groups, organizations, and communities. Social workers value the importance of human relationships. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge to facilitate engagement with clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers understand strategies to engage diverse clients and constituencies to advance practice effectiveness. Social workers understand how their personal experiences and affective may impact their ability to effectively engage with diverse clients and constituencies. Social workers value principles of relationship-building and inter-professional collaboration to facilitate engagement with clients, constituencies and other professional as appropriate. Social workers:

- apply knowledge to human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks to engage with clients and constituencies; and
- use empathy, reflection, and interpersonal skills to effectively engage diverse clients and constituencies.

Competency 7: Assess Individuals, Families, Groups, Organizations, and Communities

Social workers understand that assessment is an ongoing component of the dynamic and interactive process of social work practice with and on behalf of, diverse individuals, families, groups, organizations, and communities. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge in the assessment of diverse clients and constituencies, including families, groups, organizations, and communities. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge in the assessment of diverse clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers understand methods of assessment with diverse clients and constituencies to advance practice effectiveness. Social workers recognize the implications of the larger practice context in the assessment process and value the importance of inter-professional collaboration in this process. Social workers understand how their personal experiences and affective reactions may affect their assessment and decision making. Social workers:

- collect and organize data, and apply critical thinking to interpret information from clients and constituencies;
- apply knowledgeable of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in the analysis of assessment data from clients and constituencies;

- develop mutually agreed-on intervention goals and objectives based on the critical assessment of strengths, needs, and challenges within clients and constituencies; and
- select appropriate intervention strategies based on the assessment, research knowledge, and values and preferences of clients and constituencies.

Competency 8: Intervene with Individuals, Families, Groups, Organizations, and Communities

Social workers understand that intervention is an ongoing component of the dynamic and interactive process of social work practice with, and on behalf of, diverse individuals, families, groups, organizations, and communities. Social workers are knowledgeable about evidence-informed interventions to achieve the goals of clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge to effectively intervene with clients and constituencies. Social workers understand methods of identifying, analyzing, and implementing evidence-informed interventions to achieve client and constituency goals. Social workers value the importance of interprofessional and interorganizational collaboration. Social workers:

- critically choose and implement interventions to achieve practice goals and enhance capacities of clients and constituencies;
- apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in the interventions with clients and constituencies;
- use interprofessional collaboration as appropriate to achieve beneficial practice outcomes; and
- facilitate effective transitions and endings that advance mutually agreed-on goals.

Competency 9: Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities

Social workers understand that evaluation is an ongoing component of the dynamic and interactive process of social work practice with, and on behalf of, diverse individuals, families, groups, organizations and communities. Social workers recognize the importance of evaluating processes and outcomes to advance practice, policy, and service delivery effectiveness. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge in evaluating outcomes. Social workers understand qualitative and quantitative methods for evaluating outcomes and practice effectiveness. Social workers:

- select and use appropriate method for evaluation of outcomes;
- apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in the evaluations of outcomes;
- critically analyze, monitor, and evaluate intervention and program processes and outcomes; and
- apply evaluation findings to improve practice effectiveness at the micro, mezzo, and macro levels.

Competency 10: Demonstrate Ethical Integration of Faith and Spirituality in Social Work Practice

Social workers understand the role of spirituality and faith as part of a holistic approach to social work practice and in understanding human behavior and the social environment. Social workers apply ethical principles in the integration of faith in practice, mindful of their own beliefs and their impact on the helping relationship. Social workers recognize that faith communities are part of the cultural context of individuals, families, and communities, and provide protective as well as risk factors in the process of change. In this context, social workers articulate how Christian beliefs and values can be ethically integrated in professional social work practice. Social workers:

- demonstrate an understanding of a Christian worldview related to social work practice;
- critically analyze how Christian, spiritual, or religious traditions assist or hinder the helping process;
- demonstrate understanding of ethical integration of faith and spirituality in social work practice; and
- understand the contributions and capacity of faith-based organizations and churches as resources in the delivery of social services.

Clinical Practice with Individuals and Families Competencies EPAS 2015

Competency 1: Demonstrate Ethical and Professional Behavior

Social workers have a deep understanding and commitment to the value base of the profession, and can conceptualize and apply ethical standards and relevant laws and regulations to complex cases involving diverse populations and emerging technologies. Social workers demonstrate advanced critical thinking skills to examine and incorporate use of best-practice frameworks for decision making, including use of supervision. Social workers integrate the value base of the profession by reflecting on one's own biases and values while considering interconnected ethical implications of assessment, diagnosis, treatment planning, and intervention. Social workers demonstrate effective regulation in working with clients while using professional judgment and behaviors, and engage in reflective and reflexive practices. Social workers demonstrate the ability to work in interprofessional teams, engaging in activities within the role and scope of practice of diverse social work settings. Social workers are aware of the importance of lifelong learning and demonstrate the ability to adapt to, learn about, and apply emerging forms of practice. They:

- consistently apply and advance National Association of Social Workers (NASW) (<http://www.naswdc.org/>) principles and code of ethics in ambiguous and complex practice situations;
- recognize complex ethical considerations related to technology and practice; and
- recognize the role and appropriate use of supervision and consultation in ethical decision making.

Competency 2: Engage Diversity and Difference in Practice

Social workers understand how diversity and difference characterize and influence the human experience as it applies to clinical practice with individuals, families, and groups. Social workers can identify the ways that practitioner and client cultural backgrounds and beliefs may affect clinical social work practice. Social workers are able to recognize and address stigma, access to care, and quality-of-care issues relating to diverse client groups by identifying structures and values that oppress and/or enhance privilege or power. Social workers are able to demonstrate advanced insight into personal biases and values and their influence on work with diverse clients, extending consistent dignity and respect to others. Social workers understand how cultural concepts of distress shape assessment, diagnosis, and treatment. They:

- demonstrate and express how cultural concepts of distress and identity, as well as intersectionality, influence assessment, diagnosis, and treatment;
- apply cultural humility and competence in adapting integrated services to meet diverse client needs; and
- collaborate with and advocate for vulnerable and disempowered individuals, families, and groups so that services and resources are equitably accessed.

Competency 3: Advance Human Rights and Social, Economic, and Environmental Justice

Social workers understand the importance of protecting fundamental human rights to end all forms of oppression. Mindful of every person's fundamental right to self-determination, social workers help empower clients to navigate organizations and institutions in order to meet all their basic needs. Social workers are knowledgeable of best practices that help reduce and eradicate structural injustices within health, mental health, education, and community systems so that all individuals, particularly those who are vulnerable and oppressed, can lead healthy and thriving lives. They:

- identify and develop strategies that help reduce and eliminate systemic forms of oppression an individual may experience in his/her community or institution;
- integrate theories of human need and social justice in order to formulate policies that advance human rights for vulnerable populations; and
- use knowledge of the effects of oppression, discrimination, and historical trauma on clients and client systems to guide treatment planning and intervention.

Competency 4: Engage in Practice-informed Research and Research-informed Practice

Social workers understand the evaluation methods of evidence-informed practice. They know how to consume and evaluate the quantitative and qualitative research literature on practice to remain informed of emerging practice trends. Social workers innovate new and effective intervention models, while identifying gaps in the research literature, particularly around disenfranchised, oppressed, and marginalized populations. They also recognize the philosophical limitations of current evidence-based research models. Social workers use best practices in research to design, analyze, and conduct their own research using quantitative or qualitative research methods. They:

- evaluate the social work profession research base to inform theory, scientific inquiry, and research;
- apply critical thinking to engage and develop a quantitative and qualitative research proposal question;
- identify practice implications determined by evidence-informed research; and
- use and translate research evidence to inform, improve, and innovate practice, policy, and service delivery.

Competency 5: Engage in Policy Practice

Social workers understand the dynamic and political nature of clinical practice and apply interventions contextualized within a framework of advancing human rights within social welfare systems. Using a person-in-environment perspective, social workers understand how a client's experience is directly impacted by local, state, or federal policies. Social workers actively engage in policy practice through advocacy and by implementing strategies that help effect change at the organizational and governmental levels. They:

- identify how organizational and governmental policies impact the practice environment and the client's ability to access services;
- work alongside and on behalf of clients to influence service delivery through advocacy and legislative change; and
- use evidence-informed practice and research-based evidence to advocate for policies that advance social and economic well-being.

Competency 6: Engage with Individuals, Families, Groups, Organizations, and Communities

Social workers understand engagement as an integral component of clinical social work practice, and understand the importance of relationship as instrumental in the facilitation of the helping process. Social workers utilize interpersonal skills, knowledge of human behavior, and multiple theoretical frameworks to facilitate engagement with individuals, families, groups, organizations, and communities. They:

- demonstrate the ability to attend to the interpersonal dynamics and contextual factors that strengthen and potentially threaten the therapeutic alliance;
- establish a relationally based process that encourages clients to be equal participants in the establishment of treatment goals and expected outcomes;
- develop, manage, and maintain therapeutic relationships with clients within the person-in-environment and strengths perspective; and
- utilize appropriate multidimensional assessment instruments.

Competency 7: Assess Individuals, Families, Groups, Organizations, and Communities

Social workers competently engage in detailed client assessment, recognizing that assessment is an ongoing, dynamic process. They engage in differential diagnosis, utilizing the DSM in a critical and responsible manner, and utilize the various aspects of a comprehensive assessment to accurately assess their clients. Social workers understand methods of assessment with diverse clients and constituencies to advance practice effectiveness, and are knowledgeable about interprofessional collaboration, utilization of collateral contacts, and appropriate referral to supplemental services for their clients as needed. Social workers recognize how agency setting, clinical bias, and cultural differences affect assessment and diagnosis. They:

- perform detailed client assessment and utilize critical thinking to arrive at accurate diagnoses and treatment plans;
- select appropriate intervention strategies and treatment modalities based on accurate cultural formulation and assessment of their client's presenting problems; and
- critically apply diagnostic classification systems in a process of continuous assessment.
- utilize appropriate multidimensional assessment instruments.

Competency 8: Intervene with Individuals, Families, Groups, Organizations, and Communities

Social workers demonstrate advanced skills in assessment and diagnosis in order to determine appropriate application of human behavior and practice theories that inform intervention within contexts. Social workers link interventions to problems, applying best-practice interventions throughout the dynamic and interactive process of social work practice with diverse family populations. Social workers apply critical thinking, and demonstrate the ability to respond to, assess, and intervene with crises and trauma at the individual, family, and community levels. Social workers engage in interprofessional and collaborative teams and within systems impacting mental health in order to advocate for, inform, and achieve client or community goals. They:

- critically select and apply best practices, evidence-based interventions, and appropriate clinical techniques for a range of presenting concerns identified in the assessment of individuals, families, and groups in diverse situations;
- demonstrate understanding of theories informing assessment of and interventions in diverse situations;
- demonstrate the ability to identify crises and the appropriate use of crisis intervention and prevention strategies as needed; and
- collaborate effectively with other professionals to coordinate treatment interventions and appropriate advocacy.

Competency 9: Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities

Social workers competently engage in an ongoing evaluation of the dynamic and interactive process of social work practice, recognizing the diversity that exists in serving individuals, families, groups, organizations, and communities. Understanding the integral relationship between processes and outcomes, social workers apply multidimensional methods of evaluation to advance practice, policy, and service delivery effectiveness, using qualitative and quantitative outcomes measures. In doing so, social workers incorporate a thorough understanding of human behavior and the social environment in evaluating the effectiveness of applied interventions. They:

- use clinical evaluation of the process and/or outcomes to develop best-practice interventions for a range of bio-psycho-social-spiritual conditions; and
- utilize outcomes data to evaluate effectiveness of applied interventions.

Competency 10: Demonstrate Ethical Integration of Faith and Spirituality in Social Work Practice

Social workers understand the role of spirituality and faith as part of a holistic approach to social work practice, particularly in understanding human behavior and the social environment. Social workers competently engage in assessing and diagnosing multifaceted needs by applying a bio-psycho-social-spiritual framework. Guided by ethics and cultural humility, social workers respect differences and professional boundaries while incorporating spirituality and faith in their clinical work with individuals, families, groups, and communities. They critically evaluate the role that Christian beliefs and values play in the helping process.

- Use critical thinking skills to apply Christian beliefs and values, as appropriate, to client needs, in an ethical manner.
- Apply bio-psycho-social-spiritual assessment skills as applicable to practice contexts.
- Integrate clients' religious, spiritual, and faith traditions and/or faith communities, as indicated, to enhance recovery.

Community Leadership and Program Administration Competencies EPAS 2015

Competency 1: Demonstrate Ethical and Professional Behavior

Social workers have a deep understanding and commitment to the value base of the profession, particularly the commitment to advance social justice. Social workers understand the person-in-environment perspective, and possess advanced understanding of how to apply ethical standards and relevant laws and regulations to micro, mezzo, and macro practice situations. Social workers apply critical thinking and ethical frameworks to complex decision making in community practice, including the research and policy arenas. Social workers demonstrate advanced awareness of personal biases and influences and maintain professional judgment when practicing with diverse organizations and communities. Macro social workers understand the roles and responsibilities of managers in social welfare organizations, community organizers in neighborhoods, and policy advocates in state, national, and international governance. Social workers also understand emerging forms of technology, including social media, data information systems, and analytics software, and take great ethical consideration in the application of such technology. They:

- demonstrate advanced insight in personal reflection and self-regulation to maintain professionalism;
- use reflection and self-regulation to manage personal values and maintain professionalism in practice situations;
- demonstrate ability to effectively communicate orally and in writing when assuming a leadership role and when collaborating with other professionals;
- use supervision and consultation to guide professional judgment and behavior;
- apply ethical decision-making skills to address complex and ambiguous practice situations; and
- utilize technology ethically and appropriately when conducting research, tracking quality of service delivery, and facilitating program outcomes.

Competency 2: Engage Diversity and Difference in Practice

Social workers understand how diversity and difference characterize and shape the human experience as it applies to an individual's experience within their larger social and cultural environment. Social workers are committed to the promotion of equal social and economic rights across all dimensions of diversity and within local, organizational, and policy arenas, recognizing the roles that privilege and discrimination have in determining the access and allocation of societal resources. Social workers are knowledgeable about challenging and rectifying organizational and structural forms of oppression, and ensure that communities, organizations, and policies are sensitive to and knowledgeable of the unique and diverse needs of their clients and constituencies. They:

- ensure the cultural competencies of programs and policies by recognizing the similarities and differences between the values and norms of the dominant society and those of oppressed, underserved, and underrepresented populations;
- collaborate with and advocate for vulnerable and disempowered communities so that power and resources are equitably distributed; and
- apply cultural humility in the examination of personal biases and values and their influence on work with diverse clients and constituencies, extending consistent dignity and respect to others.

Competency 3: Advance Human Rights and Social, Economic, and Environmental Justice

Social workers understand the foundational functions of the United Nations' universal human rights treaties for the protection of the civil, political, social, economic, educational, health, and ecological rights of individuals, communities, and sovereign nations. Social workers understand the role of cultural relativism as applied to diverse norms and values, exhibited across multicultural global populations. Social workers understand the impact of globalization on poverty, environmental resources, climate change, and the mechanisms for local and global governance as related to social policy development. They:

- integrate human rights principles for elimination of oppressive structures when developing social policies on community, state, federal, and global levels;
- apply theoretical, political, economic, and social sciences frameworks when analyzing human rights and social justice issues; and
- engage in research-informed advocacy for the rights of diverse population groups to establish social, economic, and environmental justice.

Competency 4: Engage in Practice-Informed Research and Research-Informed Practice

Social workers recognize how multiple forms of knowing and their associated research methodologies help inform how evidence is developed and used to inform data-driven programmatic and policy development and implementation. Social workers understand the conceptual and operational links between program and policy design and its impact on the clients and constituencies they are designed to serve. They:

- use and translate research evidence to inform and improve practice, policy, and service delivery;
- create scientifically rigorous inquiries to create, plan, and evaluate programs and policies; and
- articulate the tensions between practice wisdom and research evidence when making practice decisions.

Competency 5: Engage in Policy Practice

Social workers understand the operationalization of social policies into equitable and effective service delivery. Social workers understand the foundational functions of human rights and social justice principles as they apply to social welfare and social services policies. Social workers understand the fundamental strategies, including engagement of stakeholders, political advocacy, and policy creation and analysis, for the establishment of social, economic, and environmental justice. They:

- assess and analyze the formative effect of organizational, ideological, religious, economic, and political factors on domestic and global social policies;
- implement sustainable development principles in the analysis and development of domestic and global social policies and programs; and
- engage multiple stakeholders in social policy development and implementation on community, state, federal, and global levels.

Competency 6: Engage with Individuals, Families, Groups, Organizations, and Communities

Social workers understand that engagement is a critical component of social work practice and specialize in connecting with groups, organizations, and communities utilizing theoretical practice models for engaging in the change process. Social workers establish relationships by analyzing relevant systems and identifying potential stakeholders. Social workers are committed to engagement with diverse clients and constituencies to enhance assessment and improve effectiveness of interventions. They:

- use interpersonal skills to engage constituents in the change process;
- pursue reciprocal relationships to develop desired outcomes and expectations; and
- collaborate effectively with constituents to facilitate sustainable change.

Competency 7: Assess Individuals, Families, Groups, Organizations, and Communities

Social workers understand that assessment is contextual and is an ongoing component of effective social work practice among groups, organizations, and communities. Social workers collect information through identified stakeholders within critical systems, and are committed to effective assessment among diverse clients and constituencies to enhance the effectiveness of interventions. Social workers apply relevant theoretical and evidence-informed practice models in assessment of groups, organizations, and communities. They:

- research, collect, analyze, and interpret system policy and community and organizational data to inform assessment and intervention strategies;
- select and modify appropriate intervention strategies based on evidence and continuous assessment;
- mutually develop agreed-upon goals and measurable objectives; and
- initiate strategies and/or actions to achieve goals and objectives within the context of the organization, community, and/or policy arenas.

Competency 8: Intervene with Individuals, Families, Groups, Organizations, and Communities

Social workers understand that intervention is an ongoing component of the dynamic and interactive process of social work practice and specialize in interventions relevant to groups, organizations, and communities. Social workers are knowledgeable of and apply evidence-informed interventions that are grounded in participatory methods. Social workers in macro practice understand the importance of acknowledging systems and power structures to best promote change and recognize the value of place-based initiative. Social workers are specifically skilled in advocacy, facilitation, policy practice, administration, and development of intervention strategies within groups, organizations, and communities. They:

- develop intervention goals and design and implement a plan of action in collaboration with individuals, groups, organizations, and communities;
- plan for the use of models, methods, and strategies that are appropriate to the local, regional, national, and international context; and
- identify power structures and use consensus building to enhance service implementation.

Competency 9: Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities

Social workers understand that evaluation is an ongoing component of ensuring effective practice with groups, organizations, and communities. Social workers recognize stakeholders in the development of evaluation methods and ensure that a broad range of qualitative and quantitative measures are utilized. Social workers in macro practice understand data collection, analysis, interpretation, and application related to program and policy evaluation, and are committed to the dissemination of outcomes of intervention strategies to enhance evidence-informed practice. They:

- establish and/or ensure that measurable evaluation criteria and methods are being utilized within change efforts;
- collect, analyze, and interpret system, policy, community, and organizational data relevant to intervention evaluation; and
- utilize evaluation data in collaboration with constituents to select and modify appropriate intervention strategies for enhanced benefit to client systems.

Competency 10: Articulate How Christian Beliefs and Values Can be Ethically Integrated in Professional Social Work Practice

Social workers understand how Christian beliefs and values can be ethically integrated into professional social work practice, and are knowledgeable about the capacity of faith-based organizations and churches as resources in the delivery of social services. Social workers understand the ethical integration of personal faith and core values as social workers, and recognize the contributions of the global Christian community in promoting social justice. They:

- critically evaluate the strengths and challenges of faith-based organizations and churches in the delivery of client services;
- demonstrate understanding of the ethical integration of personal faith and core values when working with organizations, communities, and policy arenas; and
- identify ways in which social justice is enhanced and supported by the global Christian community.

Courses

SOCW 511, Introduction to the Social Work Profession, 2 Units

Content focuses on the history, identity, values, ethics, scope of practice, and knowledge base of the social work profession. Students explore ways their own backgrounds and beliefs are likely to influence professional activities, and examine the specific relationship of faith perspectives to social welfare policy and practice. Attention is given to developing professional writing and critical thinking skills.

Prerequisite: Admission to MSW program

SOCW 512, Social Welfare Policy and Policy Practice, 3 Units

The course provides an introduction to American social welfare policies, offers a historical overview of political influences on social work practice, and presents different models for political advocacy. Content focuses on political and client advocacy with attention to the relevance of professional ethical standards and faith perspectives to policy practice.

Prerequisite: Admission to MSW program

SOCW 513, Micro-theory and Human Development, 3 Units

Content will focus on theories that inform micro-level social work practice with individuals and families using a bio-psychosocial and spiritual framework. Human development across the life course is addressed with psychosocial theory's life stages to assist with the contextualization and integration of theories to meet the needs of diverse populations in practice.

Prerequisite: Admission to MSW program

SOCW 514, Practice I - Interviewing and Assessment, 3 Units

This course begins a two-course sequence that provides the foundation for social work practice with individuals and families. Content includes legal and ethical practice, stages of the helping process, interviewing and assessment skills with adults, children, and families, clinical assessment and diagnosis using the DSM, and strategies for critically analyzing and sharing assessment information.

Prerequisite: Admission to MSW program

SOCW 515, Field Seminar I, 1 Unit

Field seminars meet in conjunction with field coursework and provide students opportunities to discuss practice situations, professional development issues, the relationship of field to classroom learning, and skills necessary for effective practice. Generalist foundation year field seminars (I and II) focus on beginning generalist social work practice skills, understanding agency and community context, and professional ethics.

Prerequisite: Admission to the Social Work program;

Corequisite: SOCW 516

SOCW 516, Field I, 3 Units

The purpose of field internship is to provide a professional setting for students to practice generalist foundation social work skills and to provide an opportunity for the integration of knowledge, skills, values, and ethical faith integration in practice. Students complete a minimum of 480 hours by the end of semester I and semester II at an approved and designated social welfare agency.

Prerequisite: Admission to the Social Work program;

Corequisite: SOCW 515

SOCW 521, Introductory Research Methods, 2 Units

Content will introduce critical evaluation of social work research and evidence informed social work practice, along with how research can ethically be used to improve practice at individual and agency levels. Concepts include: problem identification, hypothesis formulation, measurement, sampling, qualitative and quantitative research designs, data collection methods, data analysis, and program evaluation. Students will explore how science, scholarship, and the politics of knowledge development can facilitate the mission of social work.

Prerequisite: Statistics course

SOCW 522, Diversity and Social Justice, 3 Units

Content will focus on diverse populations in American society and ways historical and contemporary patterns of oppression and discrimination may influence social work practice. Specific attention is given to self-awareness and to professional commitments to marginalized groups and processes of advocacy, coalition-building, and other ways of developing effective alliances to promote social justice.

Prerequisite: Admission to MSW program

SOCW 523, Macro-theory and Communities/Organizations, 3 Units

Content will focus on macro-level theories and social work practice with organizations and communities. Models of practice that include comprehensive assessment, integrating an understanding of various forms and mechanisms of discrimination and oppression and their relevance to macro-level interventions, will be examined. Social work with organizations and communities embraces efforts to protect human and civil rights for the advancement of social and economic justice.

Prerequisite: SOCW 513

SOCW 524, Practice II - Intervention and Evaluation, 3 Units

This course ends a two-course sequence that provides the foundation for social work practice with individuals and families. Content includes goal-setting and contracting, planning and implementing change strategies, utilizing evidence-based practice research, interdisciplinary collaboration, advocacy, resource development, and practice evaluation.

Prerequisite: SOCW 514

SOCW 525, Field Seminar II, 1 Unit

Field seminars meet in conjunction with field coursework and provide students opportunities to discuss practice situations, professional development issues, the relationship of field to classroom learning, and skills necessary for effective practice. Generalist foundation year field seminars (I and II) focus on beginning generalist social work practice skills, knowledge and use of self, and professional ethics.

Prerequisite: SOCW 514, SOCW 515, and SOCW 516;

Corequisite: SOCW 526

SOCW 526, Field II, 3 Units

The purpose of field internship is to provide a professional setting for students to practice generalist foundation practice skills and to provide an opportunity for the integration of knowledge, skills, values, and ethical faith integration in practice. Students complete a minimum of 480 hours by the end of semester I and semester II at an approved and designated social welfare agency.

Prerequisite: Admission to MSW program, SOCW 515, and SOCW 516;

Corequisite: SOCW 525

SOCW 527, Research for Evidence-Informed Practice, 2 Units

The content of this course prepares students to critically evaluate social work research and evidence-informed social work practice, along with the ethical use of research methods to improve clinical practice. Concepts include problem identification, hypothesis formulation, measurement, sampling, qualitative and quantitative research designs, data collection methods, data analysis, and outcomes evaluation. Students explore how science, scholarship, and the politics of knowledge development can facilitate the mission of social work.

Prerequisite: Statistics course

SOCW 528, Research for Data Driven Change, 2 Units

This course will introduce critical evaluation of social work research and its ethical application towards data-driven decision-making within community practice settings. Concepts include: problem identification, hypothesis formulation, measurement, sampling, research design, data collection methods, data analysis, and program evaluation. Students will explore how science, scholarship, and the politics of knowledge development can facilitate the mission of social work.

Prerequisite: Statistics course

SOCW 529, Human Rights and Sustainable Development Policy, 2 Units

Content will focus on the relevance of human rights and sustainable development policy to macro-level social work practice in the U.S. and abroad. Topics will include advancement of human rights for social, economic and environmental justice and sustainable development strategies for poverty alleviation, universal education, public health, sanitation and housing, food security, access to clean water, population control and climate change. Analysis of existing global social policies will apply existing political, ideological, religious, cultural, age, and gender frameworks to explain current conditions and future trends. Secular and Christian perspectives will be explored.

Prerequisite: SOCW 522 and SOCW 523

SOCW 530, Organizing for Community Change, 3 Units

This course expands foundation year macro-level practice content to enhance theoretical understanding and develop skills in the promotion of community, organizational, and policy change to enhance social well-being and advance social justice. Special attention is focused on collaborative efforts, coalition building and participatory methods to facilitate sustainable change. Additional topics include assessment of social service delivery systems, advocacy, and professional ethics in macro practice. The importance of engaging diverse communities, recognition of underrepresented and underserved populations, and utilizing cultural humility in practice are emphasized.

Prerequisite: SOCW 523

SOCW 531, Human Rights and Sustainable Development, 2 Units

Content will focus on the relevance of human rights and sustainable development to macro-level social work practice in the U.S. and abroad. Topics will include advancement of human rights and economic justice, poverty alleviation, politics, religion, culture, age, gender, and public health conditions on human rights and development-related activities. Secular and Christian perspectives will be explored.

Prerequisite: SOCW 522 and SOCW 523

SOCW 532, Advanced Community Practice, 3 Units

This course expands foundation year macro-level practice content to include community entrance, engagement, participatory action research, and collaborative strategies to advance policies and programs supporting community interests and desired resources. Additional topics include empowerment, development of cultural competence, identification of oppressive cultural structures, globalization, and professional ethics. Engaging diverse communities and cultural humility are emphasized.

Prerequisite: SOCW 523

SOCW 533, Organizational Behavior and Management, 3 Units

This course provides an overview of organizational behavior and effective management practices within the social service sector. Topics include: human resource/legal/ethical issues; employee diversity; organizational culture; conflict resolution; group behavior; employee training/development; hiring practices; employee motivation; budgeting; and managing organizational change. Emphasis is placed on professional written and verbal communication.

Prerequisite: SOCW 523

SOCW 534, Field Seminar III, 1 Unit

Field Seminar III focuses on presentation and discussion of student experiences in specialization field internships. Specific emphasis is placed on demonstration and evaluation of advanced practice skills, interventions, supervision use, cultural responsiveness, professional ethics, and faith integration issues addressed in coursework.

Prerequisite: SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526;

Corequisite: SOCW 527 and SOCW 539 (clinical specialization) or SOCW 528 and SOCW 535 (community leadership and program administration specialization)

SOCW 535, Field III - Community Leadership and Program Administration, 3 Units

The purpose of field internship is to provide a setting for students to develop advanced community practice skills and an opportunity for the ethical integration of knowledge, skills, values, and faith in social work. Students complete a minimum of 480 hours (600 hours for Advanced Standing students) by the end of semester I and semester II at an approved and designated agency.

Prerequisite: SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526;

Corequisites: SOCW 528, SOCW 534

SOCW 536, Adult Behavioral Health and Diagnosis, 3 Units

This course begins a two-semester advanced clinical practice sequence focusing on adult behavioral health. Content includes advanced application of the Diagnostic and Statistical Manual for Mental Disorders (DSM-5); symptoms, diagnoses, and treatment strategies associated with psychiatric conditions; brain functioning and chemistry; psychotropic medications; and managed care expectations. Cultural and faith perspectives are integrated throughout the course using clinical best practices.

Prerequisite: SOCW 514 and SOCW 524

SOCW 537, Child and Adolescent Behavioral Health and Diagnosis, 3 Units

This course focuses on behavioral health issues experienced by children and adolescents, and discussion of the effects of trauma on social and emotional development. Diagnostic issues affecting children and related treatment interventions are explored in the contexts of child welfare, school-based behavioral health, and healthcare settings. Research-informed approaches are taught, to improve functioning and well-being of children and adolescents. Laws impacting work with minors and families, as well as ethical issues for social work practitioners, are presented. Course content meets California education requirements in the area of child abuse assessment for LCSW licensure.

Prerequisite: SOCW 513, SOCW 514, and SOCW 524

SOCW 538, Clinical Practice with Groups, 2 Units

This course presents different theoretical approaches and treatment strategies associated with clinical social work practice with groups. Topics include group development stages, professional ethics in practice with groups, leadership principles, diversity issues, and evaluation methods.

Prerequisite: SOCW 513

SOCW 539, Field III-Clinical Practice, 3 Units

The purpose of field internship in the clinical specialization year is to provide a setting for students to develop advanced practice skills and an opportunity for the integration of knowledge, skills, and social work values as applied to clinical practice across the life span continuum. Students complete a minimum of 480 hours (or 600 hours for Advanced Standing students) by the end of fall and spring semesters at an approved and designated agency.

Prerequisite: SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526;

Corequisites: SOCW 527, SOCW 534

SOCW 540, Educational Policy, 3 Units

This course introduces policies and legislation that impact delivery of school social work services in the United States education system. Landmark local, state, and federal policies are presented for analysis and application to the public school setting, critical for gaining an understanding of the challenges for school social work practice. Historical and current perspectives including racism, equality, and access to public education are discussed.

Prerequisite: Completion of generalist foundation curriculum; admission to the PPS program (required for students seeking the PPSC).

SOCW 541, Capstone Leadership Project, 3 Units

This course prepares students for professional leadership roles in social work settings and supports completion of their capstone leadership projects. Content integrates development of leadership skills, self reflection, professional use of self, interprofessional practice, use of research to inform practice, and knowledge of program context to implement sustainable change in organizations. Professional ethics and decision making, which influence the leadership role in social work, are examined.

Prerequisite: All generalist foundation courses and completion of first semester of specialization courses.

Corequisites: SOCW 544; and SOCW 545 or SOCW 548

SOCW 542, International Social Work Policy and Practice, 2 Units

Content will focus on international social work practice at multiple systems levels. Topics will include comparison of United States' and international social welfare policy, differing theoretical and religious perspectives, neo-liberal economic development policies, globalization, and issues immigrants and other marginalized groups. Practice content will address poverty alleviation, conflict and post-conflict reconstruction, displacement and forced migration concerns.

Prerequisite: SOCW 522, SOCW 523, SOCW 531, SOCW 532

SOCW 543, Fundraising, Grant Writing, and Fiscal Decision Making, 3 Units

This course prepares students for potential fundraising, grant writing, program design and evaluation, and fiscal decision-making responsibilities in human services organizations. Students assess local agencies and analyze funding resources, strategies, skills, and decision-making processes. Assignments focus on grant writing, developing fundraising strategies, and applying knowledge of ethical management and fiscal practices.

SOCW 544, Field Seminar IV, 1 Unit

Field Seminar IV focuses on presentation and discussion of students' experiences in specialization year field internships and preparation for masters-level social work employment and licensure. Specific emphasis is placed on critical thinking and communication of professional judgments, integration of theory, assessment, intervention, and evaluation, as well as professional development issues.

Prerequisite: SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526, SOCW 534, SOCW 535 or SOCW 539;

Corequisite: SOCW 541; and SOCW 545 or SOCW 548

SOCW 545, Field IV - Community Leadership and Program Administration, 3 Units

Field internship provides a setting for students to utilize advanced community practice skills and an opportunity for the ethical integration of knowledge, skills, values, and faith in social work. Students complete a minimum of 480 hours (600 hours for Advanced Standing students) by the end of semester I and semester II at an approved and designated agency.

Prerequisite: SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526, SOCW 534, and SOCW 535;

Corequisite: SOCW 541, SOCW 544

SOCW 546, Family Therapy in Context, 3 Units

This course focuses on family practice contexts and theories of child welfare and family therapy. Content includes social worker roles and scope of practice in child welfare practice, and current approaches to assisting families in the child welfare system. Also included is the demonstration and practice of family therapy, application of theory, and assessment and intervention on diverse family systems. Course material also addresses legal and ethical problem solving related to contemporary professional ethics and statutes and regulations related to family law.

Prerequisite: SOCW 513, SOCW 523

SOCW 547, Health and Behavioral Health Policy, 2 Units

This course explores American social welfare policies relevant to health and behavioral health care. Course content includes the historical and social contexts of health and behavioral health care, and the roles of the public and private sectors in shaping contemporary trends and issues, particularly among vulnerable communities. Topics include healthcare reform, integrated care, access/treatment disparities, advocacy and policy reform, and the recovery model.

Prerequisite: SOCW 512

SOCW 548, Field IV - Clinical Practice, 3 Units

Field internship in the clinical specialization year provides a setting for students to develop advanced practice skills, and an opportunity for the integration of knowledge, skills, and social work values as applied to clinical practice across the life span. Students complete a minimum of 480 hours (or 600 hours for Advanced Standing students) by the end of fall and spring semesters at an approved, designated agency.

Prerequisite: SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526, SOCW 534, and SOCW 539;

Corequisites: SOCW 541 and SOCW 544

SOCW 550, Advanced Standing: Intermediate Praxis, 3 Units

Content focuses on theory/practice integration in professional social work. Students apply different worldviews and micro- and macro-level theories to case examples drawn from professional social work, and identify implications for intervention and evaluation. Models of practice involving diverse communities and social welfare organizations are explored.

Prerequisite: Admission to advanced standing MSW program;

Corequisite: SOCW 551

SOCW 551, Advanced Standing: Social Work Ethics and Practice, 3 Units

This advanced-standing course provides overviews of the legal and ethical practice standards in social work, and addresses the skills required for effective engagement, assessment, intervention, and evaluation with individuals, families and groups. Assignments focus on social work practice skill development, application of documentation standards, use of evidence-informed practice methods, and integration of legal and ethical issues impacting practice.

Prerequisite: Completion of BSW degree; statistics course with a grade of C or higher.

SOCW 552, Program Planning and Evaluation, 3 Units

Systematic program planning with a focus on outcomes is a critical component in operating effective human service programs. Over the course of this semester, you will become familiar with program design and program evaluation methodologies, and the tools most commonly used to assess human service programs. Additional topics will include identification and use of performance measures, the roles of evaluators and stakeholders, the influence of the political environment, technology applications, and applicable ethics related to program design and evaluation. At the completion of this course you will be prepared to design and implement programs and conduct outcome evaluations to ensure program efficiency and effectiveness for clients, staff and external funding sources.

Prerequisite: Completion of generalist foundation coursework

SOCW 553, Field V Clinical: School Social Work, 3 Units

The PPSC school social work field internship provides a setting for students to develop advanced clinical practice skills in preparation for practice in school settings, and an opportunity for the ethical integration of knowledge, skills, values, and faith in social work. Students accrue field hours at an approved and designated school site in the fall and spring semesters of their specialization year; a total of 600 hours (450 in school social work and 150 in child welfare and attendance) is required by the end of the spring semester. This is the first of a two-semester course sequence with SOCW 555.

Prerequisite: MSW Students: SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, & SOCW 526. Post-MSW Students: MSW from a CSWE-accredited program, and acceptance into the APU PPSC program.

Corequisites: MSW students: SOCW 527, SOCW 554

SOCW 554, Field Seminar V Clinical: School Social Work, 1 Unit

This seminar course focuses on discussion of student experiences in the PPSC school social work field internships. Emphasis is on demonstration and evaluation of advanced practice skills, interventions, supervision use, cultural responsiveness, professional ethics, and faith integration issues addressed in the PPSC field experience. This is the first of a two-semester course sequence with SOCW 556.

Prerequisite: MSW Students: SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, & SOCW 526. Post-MSW Students: MSW from a CSWE-accredited program, and acceptance into the APU PPSC program.

Corequisites: MSW students: SOCW 527, SOCW 553

SOCW 555, Field VI Clinical: School Social Work, 3 Units

The PPSC school social work field internship provides a setting for students to develop advanced clinical practice skills in preparation for practice in school settings, and an opportunity for the ethical integration of knowledge, skills, values, and faith in social work. Students accrue field hours at an approved and designated school site in the fall and spring semesters of their specialization year; a total of 600 hours (450 in school social work and 150 in child welfare and attendance) is required by the end of the spring semester. This is the second of a two-semester course sequence with SOCW 553.

Prerequisite: MSW students: SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526, SOCW 553, and SOCW 554; Post-MSW students: MSW degree from a CSWE-accredited program, and acceptance into the APU PPSC program.

Corequisite: SOCW 556

SOCW 556, Field Seminar VI Clinical: School Social Work, 1 Unit

This seminar course focuses on discussion of student experiences in the PPSC school social work field internship. Emphasis is on demonstration and evaluation of advanced practice skills, interventions, supervision and consultation, cultural responsiveness, professional ethics, and faith integration issues that occur in the field internship experience. This is the second of a two-semester course sequence with SOCW 554.

Prerequisite: MSW students: SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526, SOCW 553, SOCW 554. For Post-MSW students: MSW degree from a CSWE-accredited program, and acceptance into APU PPSC program.

Corequisite: For all students: SOCW 541, SOCW 555

SOCW 560, Social Work Practice in Healthcare Settings, 3 Units

This elective course offers an introduction to social work practice in healthcare settings, with a focus on the specific knowledge and skills essential for effective intervention. Students critically analyze the U.S. healthcare system as compared to international models, and apply clinical skills and relevant laws to interdisciplinary practice while understanding the context of the political, societal, and economic influences that impact service delivery and available resources. The course also articulates how a Christian worldview relates to ethical social work practice within the field of health care.

SOCW 561, Treatment of Substance Use Disorders, 3 Units

This course describes substance use disorders from a biopsychosocial-cultural-spiritual perspective, emphasizing assessment and intervention skills, processes, and evidence-informed research relevant to treatment using the recovery model. Diversity issues involving policy and practice are explored. Course content meets California Board of Behavioral Sciences prelicensure requirement in the area of alcohol and other substance abuse assessment.

SOCW 562, Urban Social Welfare, 3 Units

Course integrates on-site experiential learning with classroom education focused on urban issues of homelessness, gang involvement, and immigration. Students engage in weekly on-site learning activities in high-need areas of Los Angeles and Orange County. Content includes theological and sociological perspectives on urban issues as well as urban social work practice. Elective

SOCW 563, School Social Work, 3 Units

This course uses an ecological perspective in teaching the practice of social work in schools. Topics include the historical, theoretical, legal, research, policy, and practice issues relevant to the delivery of school social work services; the roles and tasks performed by social workers in public schools; school social work practice models; and the professional code of ethics. The purpose of this course is to develop the knowledge, skills, and abilities necessary for successful and competent practice with students, families, schools, and communities.

Prerequisite: Completion of generalist foundation curriculum; admission to the PPS program (required for students seeking the PPSC).

SOCW 564, Social Work and the Bible: Christian Perspectives on Service and Professional Practice, 3 Units

This course focuses on theological and social work perspectives on the relevance of the Bible to professional practice activities. Content addresses diverse Christian perspectives on social welfare policies and faith integration in different practice environments. Distinctions between professional social work, Christian counseling, and missionary activity are explored. Elective

SOCW 565, Clinical Spanish Practice, 3 Units

This course prepares students to utilize clinical practice skills in the Spanish language, including assessment, engagement, intervention, and evaluation of services with individuals, groups, and communities. Content covers diversity issues such as cultural competence and understanding of the Latino/ a culture and its intragroup differences, and equipping students to confront biases, myths, and stereotypes in the client-practitioner therapeutic relationship. Course is conducted primarily in Spanish.

Prerequisite: SOCW 514 and SOCW 524

SOCW 566, Social Work, Health, and Aging, 3 Units

This course explores concepts, social policies, resources, and interventions related to social work practice with the older adult population. Content integrates themes of diversity, ageism, empowerment, and faith, as well as community-based and cross-cultural competence. Content includes a focus on biopsychosocial assessment, with emphasis on functional and cognitive status, integrated healthcare practice, interdisciplinary practice, and end-of-life care. This course meets California Board of Behavioral Sciences requirements for clinical social work licensure.

SOCW 567, Couples Therapy, 3 Units

This course is an overview of current theories, methods, and psychological instruments used in couples therapy interventions. Content includes detection, assessment, and intervention strategies for spousal or partner abuse, meeting California requirements for training in the area of domestic and family violence for MFT and LCSW licensure. Students apply course material to role-play scenarios during class time. Attention is given to issues of ethnic diversity, blended families, and faith integration.

Prerequisite: Completion of generalist foundation coursework or admission into the Advanced Standing program.

SOCW 568, Military Social Work, 3 Units

This course helps students understand the unique and complex needs of active-duty service members, veterans, and family members of military personnel, presenting knowledge and skills essential to effective clinical social work practice with these populations. Topics include military culture, ethical issues, diversity, faith integration, trauma, assessment, family issues, reintegration, domestic violence, substance use, homelessness, suicide, building resiliency, and evidence-informed interventions for use in interprofessional settings.

SOCW 569, Human Sexuality and Sex Therapy, 3 Units

This course reviews human sexuality as a basis for sex therapy and clinical social work involving sexuality issues. Students examine and evaluate biological, psychological, social, moral, and faith perspectives on sexual development and functioning. In addition, students survey literature on sexual dysfunction, and learn treatment strategies utilized in various social work contexts and systems of marital and sex therapy. This course meets California Board of Behavioral Sciences requirements for clinical social work licensure.

SOCW 570, International Social Work Policy and Practice, 3 Units

Content focuses on international social work practice at multiple systems levels. Topics include comparison of U.S. and international social welfare policies; different theoretical, economic, cultural, ideological, and religious perspectives; neoliberal economic development policies; issues involving immigrants and other marginalized groups; and the impact of globalization and climate change on rapid urbanization and population growth. Practice content addresses poverty alleviation, conflict and postconflict reconstruction, and displacement and forced migration concerns.

Prerequisite: SOCW 522 and SOCW 523

SOCW 595, Special Topics, 1-6 Units

Special topics courses offer graduate-level content that is typically scheduled in an intensive format. These courses include a wide range of specialized topics relevant to professional social workers. The unit values of these courses range from 1-6 depending upon the specific contact hours and coursework load. Note: Elective offerings vary year to year.

SOCW 599, Readings in Social Work, 1-3 Units

Students enroll in this course to pursue independent study of professional interests/activities. Students explore topics in greater depth than in regular course offerings and/or initiate individual projects. Readings and assignments are based on learning contracts developed in consultation with a sponsoring faculty member and approved by the MSW program director. Additional fees required.

Pupil Personnel Services Credential in School Social Work and Child Welfare and Attendance Services

Help meet the need for professional social workers equipped to serve children and adolescents in schools. Azusa Pacific's Pupil Personnel Services Credential (PPSC) in School Social Work and Child Welfare and Attendance Services program (<https://www.apu.edu/bas/programs/pps-credential/>) will advance your skills with a practice specialization that provides a competitive edge for employment in social work services within P-12 school settings.

Designed as a complement to the MSW degree program (<https://www.apu.edu/bas/programs/msw/>), this credential combines a solid theoretical base and evidence-informed practice models related to school social work and child welfare and attendance. Through relevant coursework and fieldwork

opportunities, you will learn how to support children, parents, and school personnel while shaping a responsive environment to help children succeed academically and thrive emotionally.

- MSW Students: This credential option is available for APU MSW students pursuing the clinical practice specialization.
- MSW Degree Holders: Individuals who already hold an MSW degree and have appropriate experience may also qualify for the credential program.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

To apply for the PPSC program, you must be enrolled in or planning to enroll in APU's Master of Social Work program, or have already completed an MSW degree.

Current MSW Student Admission Requirements

The PPSC program is open to all students enrolled in the 60-unit APU MSW program who have successfully completed foundation-level curriculum, are enrolled in the Clinical Practice with Individuals and Families specialization, and complete the PPSC program requirements as outlined below:

- Attend PPSC orientation prior to applying to a specialization field internship
- Complete the PPSC application (<https://www.apu.edu/graduateprofessionalcenter/apply/>)
- Provide a personal statement as outlined in the PPSC General Program Requirements (<https://www.apu.edu/bas/programs/pps-credential/admission/>).
- Obtain a Certificate of Clearance through the California Commission on Teacher Credentialing (CTC) website (<https://www.ctc.ca.gov/credentials/submit-online/>)
- Provide evidence of meeting basic skills requirements (as outlined by the CTC)

For more information, refer to the PPSC Auxiliary Student Handbook (<https://www.apu.edu/bas/programs/pps-credential/admission/>) and the PPSC General Program Requirements (<https://www.apu.edu/bas/programs/pps-credential/admission/>).

To learn more about registering, contact Olivia Sevilla, assistant professor and PPSC coordinator, at osevilla@apu.edu or (626) 815-6000, Ext. 2769.

Post-MSW Admission Requirements

Applicants to the post-MSW PPSC program who want to enroll for the summer and/or need to fulfill the field internship requirement must submit materials by March 1. Applicants who want to enroll in fall and/or have completed the field internship requirement must submit materials by June 1. Full admission requires that the MSW degree be posted by June 30.

Post-MSW PPSC applicants who have not completed PPSC fieldwork must meet the following admissions requirements:

- Hold an MSW degree from a CSWE-accredited program, with advanced coursework focused on clinical or direct practice; or have two years of post-MSW practice experience with children, youth, and families
- Provide verification of completion of a course with child/adolescent behavioral health and diagnosis content, or evidence of 2 years of work experience with children and families
- Complete the PPSC application (<https://www.apu.edu/graduateprofessionalcenter/apply/>)
- Provide official transcripts, along with syllabi and course descriptions as needed, to provide proof of prerequisite coursework completed
- Obtain a Certificate of Clearance through the California Commission on Teacher Credentialing (CTC) website (<https://www.ctc.ca.gov/credentials/submit-online/>)
- Provide evidence of meeting the Basic Skills Requirement (as outlined by the CTC) ([https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-\(cl-667/](https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-(cl-667/))

Note: The Certificate of Clearance and Basic Skills Requirement are program requirements, but not conditions for admission.

Note: Applicants needing 600 PPSC fieldwork hours will need to complete 8 units of fieldwork along with 6 units of coursework. Applicants who have already completed the required fieldwork can request to have hours verified for the credential, and be approved to complete only the 6 units of coursework.

Post-MSW PPSC Applicants Who Have Completed Field Requirements

Applicants who have already completed the required PPSC fieldwork hours can request to waive field placement. If a field placement waiver is granted, applicants will need to complete only 6 units of coursework.

Note: It is preferred that the required 600 PPSC hours be collected in the specialization year of the MSW program. Hours collected in the generalist, foundation year of the MSW program will be considered for the post-MSW PPSC program if the student has evidence of a specialization placement focused on working with children and families, and has completed a course with child/adolescent behavioral health and diagnosis content.

Candidates must also meet the following PPSC field placement requirements:

- Of the 600 hours completed, 450 must be in school social work (SSW) activities, and 150 hours must be in child welfare and attendance (CWA) activities; these hours are approved by an approved supervisor¹
- Hours include activities in any two grade levels (PK-K, Elementary, Middle, High School) and with diverse populations
- Certificate of Clearance must remain active through the entire credentialing process

Meeting the Basic Skills Requirement is not a condition of admission, but it must be completed *before* credential recommendation can be made.

¹ PPSC supervisor must have an MSW (and have had it for at least 2 years), have an active Certificate of Clearance, and have an active PPSC credential in SSW and CWA.

Course Requirements

Code	Title	Units
SOCW 540	Educational Policy	3
SOCW 563	School Social Work	3
Field Internship ¹		
SOCW 553	Field V Clinical: School Social Work	3
SOCW 554	Field Seminar V Clinical: School Social Work	1
SOCW 555	Field VI Clinical: School Social Work	3
SOCW 556	Field Seminar VI Clinical: School Social Work	1
Total Units		14

¹ Candidates can apply to have prior fieldwork hours verified by the program.

Equipping School Social Work Leaders

Coming from a Christian-based perspective, the PPS credential faculty are committed to preparing a workforce that can advocate for and meet needs within the community and school system. During the credential program, you will:

- Learn to conduct biopsychosocial assessments, intervene in crises, identify community resources and linkages, and participate in interprofessional collaboration and consultation.
- Study alongside faculty who are active practitioners of school social work.
- For those completing the credential with the MSW, participate in fieldwork opportunities in diverse school settings to put learning into practice.
- Benefit from potential opportunities to disseminate research at local, regional, or national conferences with faculty.

This credential option builds on the MSW program's mission to develop competent advanced social work practitioners who integrate the knowledge, values, and skills of social work to advance social justice and provide services to assist individuals, families, groups, organizations, and communities within the school setting.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. SSWPE 1: Ethical and Professional Behavior
2. SSWPE 2: Engage Diversity and Difference in Practice
3. SSWPE 3: Promote Social Justice and Equity
4. SSWPE 4: Engage in Practice-informed Research and Research-informed Practice

5. SSWPE 5: Engage in Policy Practice
6. SSWPE 6: Engage with Students, Families, Groups, Organizations, and Communities
7. SSWPE 7: Assess Students, Families, Groups, Organizations, and Communities
8. SSWPE 8: Intervene Collaboratively with: Students, Families, Groups, Teachers, School Staff, Organizations, and the Community
9. SSWPE 9: Evaluate Interventions with Students, Families, Groups, Teachers, School Staff, Organizations, and the Community
10. SSWPE 10: Growth and Development

Support Services

The Community Counseling Center

The Community Counseling Center (<https://www.apu.edu/ccc/>), a Christian-based counseling center, provides high-quality counseling and consulting services at a low cost to the community. Families use the center's resources to resolve life-transition dilemmas and find harmony between their values and actions. The center also enables students in APU's clinical psychology programs to develop the necessary skills to become effective therapists and/or psychologists. For more information, call (626) 815-5421.

School of Business and Management

Mission

The School of Business and Management (SBM) (<https://www.apu.edu/business/>) is a Christ-centered community of scholars and professionals pursuing academic excellence to advance the work of God in the world, developing students of character and competence as difference makers in business and society.

Tenets

The School of Business and Management is committed to the following core principles:

Academic Excellence

Learning and producing scholarship in a community of excellence by:

1. Viewing students as the first priority.
2. Maintaining a dynamic teaching environment where relevant business and management theories and practical tools are imparted.
3. Engaging in scholarship that advances the thinking in related fields, informs teaching, involves students, and serves communities in practical ways.
4. Investing in campus infrastructure, technology, and alliances to enhance capabilities to learn and produce scholarship.
5. Sustaining a learning environment that fosters critical analysis and creative thinking.

Students of Character

Learning and producing scholarship in a community of faith by:

1. Modeling and infusing a Christian perspective of truth and life throughout SBM programs.
2. Enlivening the mind and transforming the heart by developing important links between faith, learning, and application.
3. Facilitating nurturing, caring, and mentoring relationships among faculty, staff, students, and alumni.
4. Practicing God-honoring diversity.

Advance the Work of God in the World

Learning and producing scholarship to impact the world by:

1. Helping students identify their strengths and providing mentoring to ensure those strengths are developed and utilized to benefit business and society.
2. Using experiential, real-world, and service learning to create value for students and the community.
3. Developing programs, alumni, and students that have an impact around the world.
4. Preparing students academically, professionally, and spiritually to engage their field and community in God-honoring ways.
5. Actively advancing the work of God through research, teaching, and community service.
6. Teaching the ethical conduct of business throughout all SBM programs.

LP and Timothy Leung School of Accounting

Housed within Azusa Pacific's School of Business and Management, the LP and Timothy Leung School of Accounting (<https://www.apu.edu/business/accounting/>) focuses on developing graduates with the Christian character and competence demanded by the public accounting profession. The school offers a BS in Accounting (p. 682), an accounting minor (p. 712), and a Master of Professional Accountancy (MAcc) (p. 708).

Vision Statement

To be a premier Christian accounting school, recognized as a thought leader on accounting character and competence to reflect the life of Christ and shine the light of Truth.

Undergraduate Business Programs

The School of Business and Management provides professional career preparation in accordance with the university's Christian heritage and mission. To this end, the school has built a reputation for pragmatic and ethically based education.

The school encompasses diverse programs in business and management, and within these programs are multiple options for majors and minors. The school offers a Bachelor of Arts in Business Management (p. 673), a Bachelor of Arts in Human Resources and Organizational Development (p. 677), a Bachelor of Arts in Digital Marketing and Design (p. 675), a Bachelor of Science in Business Analytics (p. 680), and a Bachelor of Science in Business with six majors: accounting (p. 682), economics (p. 684), entrepreneurship (p. 686), finance (p. 688), international business (p. 690), and marketing (p. 691). The BA degrees requires students to complete the common professional component (the business core) and

then select elective courses deemed most appropriate for their career objectives. The BS degrees require students to complete the business core and courses in an area of specialization.

At the professional level, the school offers a Bachelor of Business Administration (BBA) degree completion program (p. 678), a business administration minor (p. 713), a Certificate in Data Analysis and Visualization (p. 694), and a Certificate in Supply Chain and Logistics (p. 697), all of which feature learning that is immediately applicable in the workplace. The relevant coursework addresses current issues in business and encourages the integration of real-world work experiences and hands-on projects. Combine these experiences with internships or international study opportunities to further expand your portfolio and network. Optional concentrations provide students the opportunities to dive deeper into the specific business areas of supply chain management, human resource development, and leading teams and people.

Curriculum content in the undergraduate business program is aligned with graduate school requirements for those who wish to pursue a Master of Business Administration (MBA) (p. 701), Master of Business Management (MBM) (p. 704), Master of Professional Accountancy (MAcc) (p. 708), or Master of Public Administration (MPA) (p. 710).

Graduate Business Programs

The School of Business and Management offers a Master of Business Administration (MBA) (p. 701), Master of Business Management (MBM) (p. 704), Master of Professional Accountancy (MAcc) (p. 708), Master of Arts in Leadership (<http://catalog.apu.edu/academics/school-business-management/leadership-organizational-psychology/leadership-ma/>), Master of Science in Organizational Psychology (<http://catalog.apu.edu/academics/school-business-management/leadership-organizational-psychology/organizational-psychology-ms/>), and Master of Public Administration (MPA) (p. 710). These comprehensive and intensive graduate accounting, business, and management programs develop exceptional business management professionals with outstanding moral character, strong analytical and innovative decision-making skills, and a worldview that understands and appreciates the global diversity in cultures, markets, and economies. SBM graduate programs provide advanced professional education and academic studies leading to successful careers in business firms, government agencies, and nonprofit organizations.

The graduate business and management programs are an integral part of the university's vision of scholastic leadership through excellence in academic programs, a community service focus, and deep commitment to faith that reaches across the globe. The programs further reflect the commitment of the School of Business and Management to continuously advance the university's core principles of transformational scholarship, faith integration, God-honoring diversity, and intentional internationalization.

Certificate Programs

The School of Business and Management offers several certificate programs, including Change Strategies for Consulting (p. 693), Digital Marketing and Social Media (p. 695), Data Analysis and Visualization (Professional) (p. 694), Foundations of Human Resources (p. 695), Government Budgeting (p. 696), Leadership Development (p. 696), Project Management (p. 697), and Supply Chain and Logistics (Professional) (p. 697). Typically 12 units, certificate programs provide a focused area of study with sequenced courses designed to help students hone and enhance skills, specialize in a field, further a career, or find a new job.

Certificates, Credentials, and Microcredentials

The School of Business and Management offers students the opportunity to earn internationally recognized and marketplace-relevant certificates, credentials, and microcredentials as a complement to their diploma, allowing them to align their achievements with industry-current professional competencies and showcase their skills to current and potential employers.

As the demands of the workplace rapidly shift, employers are seeking career-ready professionals with the skills needed for the quickly changing workplace of today. A recognition of skill or achievement, certificates and credentials link learning to the skills that employers demand and employees need for the 21st-century workplace. By earning market-valued certificates, credentials, and microcredentials, SBM students are able to highlight their proficiencies and qualifications, giving them a competitive edge in their job search and career path.

Additionally, the Leung School of Accounting offers students the opportunity to prepare for specialized credentials, such as the Certified Public Accountant (CPA), the IRS Enrolled Agent (EA), and the Certified Information Systems Auditor (CISA), increasing their value to potential employers.

Memberships

As a member of the Association to Advance Collegiate Schools of Business (AACSB) (<https://www.aacsb.edu/>), the School of Business and Management is committed to advancing how business education is taught. SBM leadership and faculty teams strive to shape the next generations of leaders and make a lasting, positive impact on society.

Accreditation

- All Azusa Pacific University programs are accredited by the WASC Senior College and University Commission (WSCUC). (<https://www.wscuc.org/>)
- The School of Business and Management (SBM) is accredited by the International Accreditation Council for Business Education (IACBE) (<https://iacbe.org/>).

Programs

Majors

- Accounting (BS) (p. 682)
- Business Analytics (BS) (p. 680)
- Business Management (BA) (p. 673)
- Digital Marketing and Design (BA) (p. 675)

- Government Budgeting (p. 696)
- Leadership Development (p. 696)
- Project Management (p. 697)

Courses

ACCT 120, Principles of Accounting I, 3 Units

This course introduces the financial accounting model and application of fundamental accounting principles. The corporate form of business serves as the primary model to demonstrate accounting principles for cash, accounts receivable, inventories, operational assets, liabilities, and stockholders' equity.

ACCT 121, Principles of Accounting II, 3 Units

This course introduces basic managerial accounting concepts and emphasizes the use of accounting data in decision making. Topics covered include cost accumulation models, cost behavior, break-even analysis, variable costing, budgeting, differential analysis, product pricing, capital expenditure analysis, and financial statement analysis.

Prerequisite: ACCT 120

ACCT 122, Accounting Perspectives, 1 Unit

This course introduces students pursuing an accounting degree to a broad overview of the various career paths available to successful accounting graduates.

ACCT 320, Intermediate Accounting I, 3 Units

This course offers an intensive study of the accounting theory and principles underlying financial accounting. Emphasis is placed on the theoretical and conceptual framework of the financial reporting process including the role and authority of official accounting pronouncements and the responsibilities of professional accountants. This course begins with a review of the accounting model and covers accounting theory as it relates to revenue recognition, current assets including cash, accounts receivable, inventories, and current liabilities.

Prerequisite: ACCT 121

ACCT 321, Intermediate Accounting II, 3 Units

This course continues the study begun in ACCT 320, covering operational assets, intangible assets, investments, long-term liabilities, leases, income taxes, corporate capital transactions, and statement of cash flows. Emphasis is placed on the theoretical and conceptual framework of the financial reporting process including the role and authority of official accounting pronouncements and the responsibilities of professional accountants.

Prerequisite: ACCT 320

ACCT 325, Cost Accounting, 3 Units

This course explores managerial accounting concepts used in planning and controlling operations, determining cost of production, inventory control and evaluation, budgeting, and long-range planning. Emphasis is placed on cost determination, cost accumulation, cost-volume-profit relationships, standard costs, variances analysis and reporting, and the relationship between controlling costs and controlling operations.

Prerequisite: ACCT 321

ACCT 331, Federal Taxes I, 3 Units

This course offers an intensive study of the theory and principles of federal income tax law as it applies to individuals. Emphasis is on the theoretical framework and philosophy of the federal tax system, as well as practical application and planning. Course material covers basic concepts in the determination of income, classes of deductions, allowable credits, and property transactions. The importance of appropriate tax planning is stressed, and students prepare for the CPA (Certified Public Accountancy) test along with the IRS (Internal Revenue Service) Enrolled Agent (EA) test.

Prerequisite: ACCT 121

ACCT 332, Federal Taxes II, 3 Units

This course offers an intensive study of the theory and principles of federal income tax law as it applies to business entities-corporations, partnerships, estates, and trusts. Emphasis is on the theoretical framework as well as practical application and planning. Course material covers basic concepts of taxation in corporate formation and operation as well as partnership and S corporation formation and operation, along with the fundamentals of estate, gift, and trust taxation. The course also covers the tax audit process and professional tax preparer responsibilities, and students prepare for the CPA (Certified Public Accountancy) test along with the IRS (Internal Revenue Service) Enrolled Agent (EA) test.

Prerequisite: ACCT 331 for accounting majors, ACCT 121 for accounting minors.

ACCT 333, Volunteer Income Tax Assistance (VITA), 1 Unit

This course gives students the opportunity to apply their knowledge of tax law and the available tools to successfully assist individuals and families in the community in preparing and filing accurate tax returns under the supervision of the instructor. Students gain hands-on experience working with clients and preparing tax returns according to the Volunteer Income Tax Assistance (VITA) and Tax Counseling for the Elderly (TCE) return preparation process.

Prerequisite: ACCT 331

ACCT 336, Advanced Accounting, 3 Units

This course provides an in-depth study of accounting theory and principles. Topics include business combinations, consolidations, insolvency, foreign currency transactions, segment reporting, partnerships, fund accounting, and accounting for state and local governmental units and other non-business organizations.

Prerequisite: ACCT 321

ACCT 425, Writing 3: Accounting Ethics, 3 Units

Students in this course are introduced to issues of accounting ethics that professionals encounter in practice, moral reasoning to resolve ethical dilemmas, and accountants' professional codes of conduct. Topics include major philosophical schools of thought, biblical perspectives on accountability, ethical reasoning strategies, earnings management, fraud, and corporate governance. Credit is not given for both ACCT 425 and ACCT 525. ACCT 425 does not satisfy the requirements of the Master of Professional Accounting (MAcc) program. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

Prerequisite: Writing 2 and ACCT 321.

ACCT 426, Auditing Principles I, 3 Units

This course is an overview of auditing concepts, with special attention to auditing standards, professional ethics, the legal ability inherent in the attest function, the study and evaluation of internal control, the nature of evidence, statistical sampling, and the impact of electronic data processing. The basic approach to planning an audit is also addressed, as are the audit objectives and procedures applied to the elements in a financial statement.

ACCT 427, Auditing Principles II, 3 Units

This course takes the concepts and procedures learned in ACCT 426 and applies them in a comprehensive audit case study. Students prepare audit work papers that demonstrate application of audit theory and objectives for various classes of financial statement accounts. Students are exposed to the planning, control, and review procedures used by many public accounting firms. The use of computerized audit software is covered.

Prerequisite: ACCT 426

ACCT 500, Principles of Accounting I, 3 Units

This course introduces the financial accounting model and application of fundamental accounting principles. The corporate form of business serves as the primary model to demonstrate accounting principles for cash, accounts receivable, inventories, operational assets, liabilities and stockholders' equity.

ACCT 501, Principles of Accounting II, 3 Units

This course introduces basic managerial accounting concepts and emphasizes the use of accounting data in decision making. Topics covered include cost accumulation models, cost behavior, break-even analysis, variable costing, budgeting, differential analysis, product pricing, capital expenditure analysis, and financial statement analysis.

Prerequisite: ACCT 500

ACCT 502, Financial Accounting, 3 Units

This course introduces the financial accounting model and application of fundamental accounting principles. The corporate form of business serves as the primary model to demonstrate accounting principles for cash, accounts receivable, inventories, operational assets, liabilities and stockholders' equity. Students will interpret company performance by analyzing accounting statements and complete a computer simulation which demonstrates computer applications in accounting.

ACCT 503, Intermediate Accounting I, 3 Units

This course offers an intensive study of the accounting theory and principles underlying financial accounting. Emphasis is placed on the theoretical and conceptual framework of the financial reporting process including the role and authority of official accounting pronouncements and the responsibilities of professional accountants. This course begins with a review of the accounting model and covers accounting theory as it relates to current assets including cash, accounts receivable, inventories, and current liabilities.

ACCT 504, Intermediate Accounting II, 3 Units

This course covers operational assets, intangible assets, investments, long-term liabilities, leases, income taxes, corporate capital transactions, and statements of cash flow. Emphasis is on the theoretical and conceptual framework of the financial reporting process, including the role and authority of official accounting pronouncements and the responsibilities of professional accountants.

ACCT 506, Cost Accounting, 3 Units

This course provides the study of the theory and principles underlying cost and managerial accounting. Emphasis is placed on the following topics: Terminology, Job Order Costing, Activity Based Costing, Cost Volume Profit Analysis, Budgeting, Standard Cost, Non-Routine Decisions, Responsibility Accounting, Process Costing, Quality, Capital Budgeting, and Inventory Management.

ACCT 507, Auditing Principles, 3 Units

This course takes the concepts and procedures learned in previous accounting courses and applies them in a comprehensive audit case study. Students prepare audit work papers that demonstrate application of audit theory and objectives for various classes of financial statement accounts. Students are exposed to the planning, control, and review procedures used by many public accounting firms.

ACCT 508, Federal Taxes I, 3 Units

This course offers an intensive study of the theory and principles of federal income tax law as it applies to individuals. Emphasis is placed on the theoretical framework and philosophy of the federal tax system as well as practical application and planning. This course also covers basic concepts in the determination of income, classes of deductions, allowable credits, property transactions, as well as the tax audit process and professional tax preparer responsibilities. The importance of appropriate tax planning is stressed.

ACCT 509, Federal Taxes II, 3 Units

This course offers an intensive study of the theory and principles of federal income tax law as it applies to business entities - corporations, partnerships, estates, and trusts. Emphasis is on the theoretical framework as well as practical application and planning. This course covers basic concepts of taxation in corporation formation and operation, and partnership and S corporation formation and operation, and fundamentals of estate, gift, and trust taxation.

ACCT 510, Accounting and Tax Research Methods, 3 Units

In preparation for professional practice, students explore accounting research methods and tax issues utilizing professional online research databases to properly identify and focus research questions, interpret data, develop opinions, and effectively communicate the results.

Prerequisite: Acceptance into the Master of Professional Accountancy program

ACCT 511, Advanced Accounting, 3 Units

This course provides an in-depth study of accounting theory and principles first encountered in Intermediate Accounting. Topics covered include, but are not limited to, partnerships and corporations. Extensive coverage is given to business combinations and consolidations, as well as bankruptcy reporting.

ACCT 512, Management Accounting, 3 Units

Students investigate how management makes critical strategic and operational decisions using an organization's key financial and managerial accounting information, including Financial Statement, Balance Sheet, Income Statement, and Statement of Cash Flow. Students also discuss how to motivate and align management to act in the firm's best interests.

ACCT 515, Accounting Information Systems, 3 Units

This course emphasizes the application of accounting information systems. Students gain experience in auditing data within the computer environment and learn the controls necessary to ensure the accuracy and reliability of the accounting system.

Prerequisite: Acceptance into the Master of Professional Accountancy program

ACCT 520, Global Financial Accounting Standards, 3 Units

This course compares global accounting standards of the International Financial Reporting Standards to Generally Accepted Accounting Principles standards in the United States. Topics include statements of operations, financial position, stockholders' equity, and cash flow, as well as research and development, inventories, pensions, stock options, intangibles, leases, and taxes. Students learn through in-depth analysis of contemporary financial reporting requirements promulgated by the national and international accounting standards boards.

Prerequisite: Acceptance into the Master of Professional Accountancy program

ACCT 525, Accounting Ethics, 3 Units

Students explore accounting ethics encountered in practice such as, moral reasoning to resolve ethical dilemmas and accountants' professional codes of conduct. Topics include major philosophical schools of thought, biblical perspective on accountability, ethical reasoning strategies, earnings management, fraud, and corporate governance.

Prerequisite: Acceptance into the Master of Professional Accountancy program

ACCT 530, Advanced Business Law, 3 Units

Focusing on advanced legal issues encountered in financial and commercial business transactions, this course offers an in-depth study of business law, mergers and acquisitions, sales, commercial paper, secured transactions, documents of title, bankruptcy, securities regulations, and the legal liability of accountants.

Prerequisite: Acceptance into the Master of Professional Accountancy program

ACCT 535, Advanced Managerial Accounting, 3 Units

Students investigate the various ways management uses accounting information to make critical strategic and operational decisions such as product pricing, line extensions, and activity-based costing, and to evaluate operating performance including EVA and balanced scorecard. Students discuss methods of distilling key financial and managerial accounting information, as well as motivating and aligning management to act in the firm's best interests. Case based.

Prerequisite: Acceptance into the Master of Professional Accountancy program

ACCT 540, Forensic Accounting and Fraud Investigation, 3 Units

Discussion focuses on the principles and methodology of forensic accounting, including fraud detection and prevention. Students examine consumer, management, employee, and financial statement fraud. Prevention through internal controls and evidence gathering techniques are also addressed.

Prerequisite: Acceptance into the Master of Professional Accountancy program

ACCT 545, Advanced Auditing, 3 Units

This course covers advanced auditing topics and helps students develop an understanding of auditing standards and practice through in-depth analysis of contemporary auditing theory as promulgated by the accounting profession. The course emphasizes pronouncements by the Auditing Standards Board and the Public Company Accounting Oversight Board.

Prerequisite: Acceptance into the Master of Professional Accountancy program

ACCT 550, Accounting for Nonprofit Entities, 3 Units

Students in this course examine how nonprofit organizations measure financial performance and how they differ from for-profit organizations. Students also explore accounting principles and practices for nonprofit organizations including churches, hospitals, and health and welfare organizations. Utilizing case studies, students assess nonprofit and for-profit organizations that receive government assistance in the form of contracts, guaranties, grants, or assistance that may be subject to federal audit requirements. Other topics include ethical examination of accounting decisions, and the general characteristics and operational environment of nonprofit organizations, applying generally accepted standards, principles, and practices.

ACCT 551, Government Financial Management, 3 Units

This course covers the principles of public financial accounting and follows the Association of Government Accountants (AGA) Certified Government Financial Manager (CGFM) exam structure, which focuses on three modules: governmental environment, governmental accounting; financial reporting and budgeting; and governmental financial management and control. Students taking this course are required to use AGA's CGFM study guide materials (which are purchased by the university) and take all three CGFM exams. Students taking this course must pass all three CGFM exams to obtain an automatic A in the course.

ACCT 590, Integrative Accounting Review, 3 Units

In this course, students integrate the learning experience by completing modules related directly to CPA exam preparation.

Prerequisite: Acceptance into the Master of Professional Accountancy program

ACCT 591, Accounting Internship, 3 Units

Students in this course engage in a practical application of principles and theory in a real-world business setting through an accounting internship with a CPA firm. Students without prior public accounting internships or work experience are required to take the course.

Prerequisite: Acceptance into the Master of Professional Accountancy program

BUSI 100, Personal Finance, 3 Units

This course covers financial challenges that our society faces, the impact that they have on our society, and personal and social responsibilities related to these issues. In addition, the course offers students power over financial resources, freedom to give generously, insight for better citizenship, and civic engagement opportunities. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

BUSI 109, Business Mathematics, 3 Units

Students in this course learn the basic concepts and practices of business mathematics, including business algebra, business calculus, and statistics. Topics include differentiation and statistics such as population and sample, descriptive statistics, variation and skewness, exploratory data analysis with visuals, probability, random variable, sampling distribution, central limit theorem, discrete distributions (binomial, Poisson), continuous distributions (normal, t, exponential, chi-square), confidence interval estimation, hypothesis testing, correlation, regression, and the analysis of variance (ANOVA) for business students.

Prerequisite: MATH 90 or an appropriate score on the APU mathematics placement assessment.

BUSI 110, Business and Entrepreneurship, 3 Units

Students in this course learn about the role of business in society and the impact of the social environment on the firm, and become acquainted with the basic functional areas of business, including management, human resources, marketing, finance, and production. Students produce a comprehensive business plan incorporating the functions of business and examining the effect of the business on society. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

BUSI 111, Business Statistics, 3 Units

Students in this course learn basic statistical concepts and methods of collecting, summarizing, presenting, and interpreting data for the business context. Among the topics covered are differentiation, population, sample, descriptive statistics, variation and skewness, exploratory data analysis with visuals, probability, random variable, sampling distribution, central limit theorem, discrete distributions (binomial, Poisson), continuous distributions (normal, t, exponential, chi-square), confidence interval estimation, hypothesis testing, correlation, regression, and the analysis of variance (ANOVA), to be applied in real-world business situations. *Meets the General Education Requirement: Quantitative Literacy (Math).*

Prerequisite: MATH 90 or an appropriate score on the APU mathematics placement assessment.

BUSI 120, Business Communications, 3 Units

Students in this course explore current communication technologies and strategies in the modern marketplace to create and deliver audience-focused informative and persuasive messages using credible research, impactful visuals, and professional vocal and physical techniques delivered orally. Students are given scenario-based challenges often encountered in organizational settings and business situations, to help them determine the extent of information needed when communicating with key stakeholders, researching and utilizing credible support materials ethically, organizing information logically, and delivering messages through professional presentations using appropriate visual aids, graphics, posture, gesture, eye contact, and vocal expressiveness. *Meets the General Education Requirement: Oral Communication.*

BUSI 213, Negotiation Strategies and Skills, 3 Units

Students in this course learn the basics of negotiation, then research and explore additional techniques that help them establish alternative criteria to expand and build upon their bargaining style. Each student is assessed on negotiating style, role playing, principled negotiation, and information gathering. Emphasis is on topics related to negotiations in a business context.

BUSI 240, Introduction to Information Systems and Business Applications, 3 Units

This course offers the fundamentals of business information systems, methods, equipment, processes, computer characteristics, and concepts. Students also examine the ethical use of information, information systems, and business applications. The business applications of Formstack, QuickBooks, and Salesforce are taught with opportunities to earn an Expert Badge in Formstack and Competency Badge in QuickBooks.

BUSI 244, Data Analytics, Spreadsheets, and Data Visualization, 3 Units

Integrating knowledge gained in BUSI 240, students gain hands-on experience in analyzing, managing, and reporting data in the business world, and use advanced statistical tools to frame business decisions for operations, finance, forecasting, etc. Students learn data applications of Microsoft Excel, Data Studio, and Tableau, and also have the opportunity to earn an Expert Badge in Excel.

Prerequisite: BUSI 240

BUSI 246, Business Programming, 3 Units

Students in this course gain a basic understanding of computer programming from the perspective of business professionals, and explore the fundamental techniques used in data science and business analytics to solve business problems. Business major students without programming experience learn how to apply basic programming concepts and principles using Python, as students learn the Python programming language in an integrated and interactive software development environment. Major course topics include data types, control structures, classes, objects, algorithms, arrays, attributes, methods, data management, data visualization, and statistical data analysis. Lab assignments with a focus on problem solving are used to understand the nature of programming tasks.

Prerequisite: BUSI 111 or instructor's permission

BUSI 296, Business Law, 3 Units

The course introduces the laws affecting business transactions. Included is an overview of the legal system as it relates to business and in-depth study of contracts, sales and commercial transactions, and secured transactions.

BUSI 311, Quantitative Analysis for Management, 3 Units

This course comprises an overview of quantitative methods used to make data-driven decisions in business. Management tools include statistical analysis, simulation, and linear programming. The application of quantitative methods in project management, inventory management, time series forecasting, and data visualization is explored. Student evaluation is based on participation, assignment completion, exams, and a group project. This course prepares students to enter a changing business climate that requires knowledge of how to analyze data and create reports that help senior management make informed business decisions.

Prerequisite: BUSI 111

BUSI 314, Big Data Analytics for Business, 3 Units

This course introduces students to the evolving domain of data science and business analytics, helping them understand the processes and tools for analyzing big data and discovering new information to support managerial decision-making. Students solve problems across all areas of business with descriptive, diagnostic, predictive, and prescriptive analytics. Main topics include a robust study of basic statistics, data visualization, exploratory data analysis, linear regression, logistic regression, ridge regression, classification, clustering, decision tree analysis, text analytics, and more. These skills are foundational for anyone interested in a career in big data analytics/data science, and they are beneficial for every manager in today's data-rich economy.

Prerequisite: BUSI 111 or instructor's permission

BUSI 350, Business Internship, 3 Units

This course gives students the opportunity for practical application of principle and theory in an actual business setting through an internship. Students learn to set objectives and measure performance against those objectives in the business setting through a structured reporting process with the instructor. *Meets the General Education Requirement: Integrative and Applied Learning.*

Prerequisite: Completion of 60 units and instructor's permission.

BUSI 370, International Business, 3 Units

This course presents a survey of issues in international business, with a focus on managing in an international environment, understanding the global monetary system, and developing an international perspective on business operations including production, marketing, finance, and human resources. *Meets the General Education Requirement: Intercultural Competence.*

Prerequisite: MGMT 210

BUSI 405, Business Report Writing, 3 Units

Students practice writing clear, well-organized, effective formal and informal reports. Evaluation and preparation of business reports, utilizing business research methods and communication techniques are emphasized. Management of data and the use of graphics also are included.

BUSI 414, Application of Business Analytics, 3 Units

This course gives students opportunities for practical application of advanced analytics tools and techniques to real-world problems to help business professionals make data-driven decisions. Students learn to manipulate real-world big data sets, develop the most appropriate models, evaluate AI/ML-based models, and create technical reports that describe their findings. Main topics include data wrangling, advanced data exploration methods, advanced data visualization techniques, linear/logistic/polynomial regression models, classification, decision trees, clustering, neural networks, text mining, financial technology, and more. This class is accessible for students who do not have good math/statistics foundations and technical backgrounds; no coding skills or experience required.

Prerequisite: BUSI 111 or instructor consent, BUSI 244, BUSI 314

BUSI 430, Money and Banking, 3 Units

This course includes a study of monetary theories and banking principles, with special reference to contemporary developments in money and banking in the United States, the Federal Reserve System, and financial investment.

Prerequisite: ACCT 121, ECON 250, and ECON 251

BUSI 495, Writing 3: Business Ethics, 3 Units

This course focuses on the integration of Christian faith, ethical issues, and professional concerns that confront business professionals in the workplace. Students explore biblical and moral principles for ethical analysis and reflection, and utilize the case method to research and write managerial responses to current ethical dilemmas in the workplace. This course fulfills the General Education Writing 3 requirement and is recommended for all business majors. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

Prerequisite: Writing 2

BUSI 496, Senior Seminar: Business Ethics, 3 Units

This course focuses on the integration of Christian faith, ethical issues and professional concerns, which confront business professionals in the workplace with particular concern for leadership and transitions. The course will explore biblical and moral principles as related to real life case studies. In addition, the course offers the student the opportunity to complete in-depth study in a business related area to further prepare them as effective participants and leaders in the workplace. *Meets the General Education Requirement: Integrative and Applied Learning.*

Prerequisite: Senior standing and upper-division writing intensive course, majority of God's Word and the Christian Response

BUSI 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed by, a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

BUSI 511, Big Data and Business Analytics, 3 Units

This course helps students understand the tools and processes for analyzing big data and discovering new information to support managerial decision making. Students solve problems across all areas of business with descriptive, diagnostic, predictive, and prescriptive analytics. Main topics include data preprocessing with database/SQL; descriptive analytics; exploratory data analysis and data visualization; diagnostic analytics such as linear regression and logistic regression; predictive analytics; and prescriptive analytics. Students also have an opportunity to earn a badge in business analytics.

BUSI 513, Introduction to Supply Chain Management and Logistics, 3 Units

This course covers the formulation and implementation of logistics and supply chain strategy for competitive advantage, including analysis of logistics capabilities, enhancement of strategy-supportive capabilities, and integration with strategically chosen supply chain partners.

BUSI 514, Operations Management, 3 Units

Different business strategies require different processes, and each strategy utilizes unique capabilities to gain competitive advantage. Students in this case-based course use a process view of operations to analyze key dimensions such as capacity planning, cycle time management, role of technology, logistics and supply chain management, and quality management. Students also connect to recent developments such as lean or world-class manufacturing, just-in-time operations, time-based competition, and business reengineering.

BUSI 515, Artificial Intelligence (AI) and Machine Learning (ML) for Business, 3 Units

This course focuses on practical applications of AI/ML tools and techniques to real-world problems to help business professionals with their data-driven decision making. Students learn how to manipulate real-world big datasets, develop most appropriate prediction models, evaluate AI/ML-based models, and create technical reports that describe their findings. Main topics include advanced data visualization techniques, linear/logistic/polynomial regression models, classification, decision trees, clustering, association rules, neural networks, text mining, financial technology, and more. Students also have an opportunity to earn a badge in business intelligence.

BUSI 516, Organizational Behavior, 3 Units

This course provides students with the social science tools needed to solve organizational problems and influence the actions of individuals, groups, and organizations. It prepares managers to organize and motivate the human capital of the firm, manage social networks and alliances, and execute strategic change through knowledge of competitive decision making, reward system design, team building, strategic negotiation, political dynamics, corporate culture, and strategic organizational design. Case based.

BUSI 517, Quality Management, 3 Units

This course introduces fundamental concepts and methods of quality management and productivity improvement, and students examine the role of managers in designing and implementing programs to improve the quality of products and services. Emphasis is on understanding the forces that make quality and productivity critical organizational issues. Student ability to implement quality-management tools, techniques, and processes is demonstrated.

BUSI 519, Research Design and Program Evaluation for Nonprofits, 3 Units

This practical methods course focuses on the available literature and research studies in the public and nonprofit sectors. In addition, it prepares students in such areas as setting research objectives, respondent selection/sample size, questionnaire development, evaluation, and the merits of conducting research in-house versus using an outside consultant or research firm. The course also covers qualitative research techniques, including depth interviews and focus groups. It includes a unit on copy testing (of brochures, direct mail, print, and video) to evaluate message communication before or after production.

BUSI 522, Private Enterprise and Public Policy, 3 Units

This course provides an introduction to political economy, the role of government in a mixed economy, business-government relations, the public policy process, regulation of business, corporate political activity, and the creation of businesses to capitalize on opportunities driven by legislative or regulatory action. Case based.

BUSI 523, Manufacturing Operations, 3 Units

This course provides an understanding of the concepts, methodologies, and applications of production operations management. Focus is on analysis and study of production methods and procedures available to line and staff management in various-sized U.S. and global business operations. Significant attention is given to decision-making processes appropriate for manufacturing or service organizations, including tactical and operational considerations. Coursework stresses the need and reasons for input, involvement, and interaction of operations personnel with all other disciplines and areas of a business organization.

BUSI 528, Consulting for Organizations, 3 Units

This course provides an overview of the consulting and advisory process as it relates to external and internal consultation in industry. The course focuses on various aspects of the consulting process life cycle such as gaining and retaining clients, developing proposals and engagement letters, defining client needs and diagnosing problems, utilizing effective data collection and analysis methodologies, documenting information gathered, developing solutions, presenting recommendations, and managing project requirements. Several types of consulting services and related issues are addressed. Students gain experience in basic consulting skills by completing a real-life consulting project and presenting their findings orally and in writing.

Prerequisite: MGMT 521

BUSI 530, Capstone Project: Entrepreneurial Emphasis, 3 Units

The project integrates the learning experience with a plan for development and implementation of a new, untried venture. The completed project describes the product or service offered, including necessary financing, proposed staffing, market size and niche, and the timetable associated with each element. Oral defense before a faculty panel completes the experience.

BUSI 532, Ethical Issues in Nonprofit Management, 3 Units

Following introductory class sessions on moral philosophy and democratic capitalism, students explore a variety of issues/decisions confronting leaders/managers. Case study situations include such areas as stewardship, truth in advertising, social (behavior change) marketing, marketing research (privacy and confidentiality); corporate responsibility, board/staff relations (accountability), individual responsibility (limits of welfare), and global issues (government corruption, labor practices, etc.).

BUSI 542, Managing Cultural Differences, 3 Units

Students learn how to identify, analyze, and plan for those elements within the cultural, economic, and political environments of international business that require specialized understanding and strategy for successful management or organized enterprise.

BUSI 543, International Trade and Finance, 3 Units

Students learn about the financial-monetary-economic environment of international business. Topics include the balance of payments, foreign exchange markets and risk, trade finance, direct foreign investment, capital budgeting in the multinational firm, and the international money and capital markets. Emphasis is placed on decision making with regard to international investment and financing.

BUSI 548, International Business, 3 Units

This course covers the various strategies businesses use in worldwide operations. Students explore the development of business strategies, the motivations for firms to expand operations globally, organizational challenges, and managerial implications. Students also examine political, economic, and social factors that shape the international business environment. The course focuses on competitive responses to these external pressures and identifies strategic models or approaches. Organizational capabilities, structures, and systems are examined to deliver optimal results. The necessary processes to acquire cross-border knowledge for creating joint ventures and alliances are examined. Finally, the future role of Multi-National Enterprises (MNE's) for the global economy is explored. Case and simulation based.

BUSI 550, Capstone Project: International Emphasis, 3 Units

Students submit a business plan that summarizes the major areas within international business from organization to quantitative methods. Methodology and underlying theories are presented through an exploration of the present international business environment. Oral defense of the completed project before a faculty panel is required.

BUSI 551, Situation Analysis and Diagnosis, 3 Units

This course introduces the purpose, methods, and skills of situation analysis and diagnosis in carefully selected case studies. Students benefit from a focused approach to interpreting, understanding, and developing skills to discover appropriate conclusions in differing business environments and situations.

BUSI 552, Comparative Management, 3 Units

The course enables the international business student to understand how management objectives, goals, practices, and business-government interaction are related to the cultural settings in which they take place. The course includes: analysis of international similarities and differences in managerial functions, structure and process, etc., in light of environmental factors; identification of the impact and results of different management practices; and an inquiry into the "universals" of management.

Corequisite: BUSI 551

BUSI 555, Integrated Decision Making in Nonprofits, 3 Units

This course, taken in the student's final semester, develops the students' ability to understand the decision-making process and execute the steps involved in identifying, evaluating, and implementing an effective business strategy for a nonprofit organization. The purpose is achieved as students identify their organization's mission, primary customers, and specific goals by integrating the functional knowledge acquired in previous nonprofit courses (i.e., management, marketing, finance, research, ethics, etc.) and by developing a comprehensive strategic plan for a new organization, an existing organization, or from the perspective of an organization that wants to review its current offerings. As such, the course also examines factors unique to a nonprofit (e.g., involvement of the board and lay members, government funders, communication with various customer groups, and assuring congruence between organizational mission and the strategic plan).

BUSI 561, Fund Development: Planning, Implementing, and Evaluation, 3 Units

This course examines the principles and methods of fundraising that respond to one's understanding of what donors, funders, and volunteers value, that is, what inspires their giving and how to develop and nurture these relationships. It uses case studies to demonstrate successful/unsuccessful promotional techniques, including advertising campaigns, direct mail, and special events. It also explores such areas as if/when to use consultants and special forms of planned giving. Finally, the course includes units on philanthropy/corporate giving and foundations, as well as a unit on grant writing.

BUSI 562, Effective Nonprofit Leadership and Management, 3 Units

This course addresses the questions: What are the characteristics of effective leadership and management? How can one organize for success and evaluate/strengthen the work already done? It explores the fundamental challenges to effective leadership including defining and articulating the organization's mission, identifying and understanding the multiple "customers" served, and identifying and prioritizing the critical managerial tasks that must be successfully executed. As such, it examines the roles of the executive director, the board, staff, and volunteers. Finally, this course introduces students to the Drucker Formulation Self-Assessment Tool for Nonprofit Organizations based on management expert Peter F. Drucker's principles of management.

BUSI 563, Public Accounting: Legal and Financial Issues in Nonprofit Management, 3 Units

This course introduces the legal and financial issues relevant to managing a 501 (c)(3) nonprofit organization. Issues addressed include organizing the entity, qualifying for and maintaining nonprofit status, fundraising, and nonprofit enterprise. Financial areas covered include the principles of fiscal responsibility for nonprofits as well as cost accounting, budgeting, the presentation of financial statements, proposed development, and in-kind resources.

BUSI 564, Strategic Marketing for Nonprofits, 3 Units

This course provides an introduction to the field of strategic marketing of nonprofit organizations (e.g., educational institutions, churches, the public and social sectors, health services, and the arts). The course texts, outside readings, videos, case studies, and class exercises focus on understanding three areas of effectiveness: 1) what makes an organization effective or not; 2) how individuals can improve their own effectiveness as managers, staff, or volunteers; and 3) how promotional strategies can be used to enhance the organization's effectiveness.

BUSI 569, Nonprofits in America: History, Philosophy, and Tradition, 3 Units

This introductory course traces the history, philosophy, and societal role of nonprofits in the United States and how the independent sector today compares organizationally to business and government. As such, it examines the roles of government (at the state and federal levels), religion and churches (including constitutional issues), business (corporate philanthropy), and the rights/responsibilities of individuals (e.g., natural law and contemporary public policy).

BUSI 576, Business Internship, 3 Units

This course gives students an opportunity to apply educational principles, theory, and disciplinary skills to a position with an organization, either for-profit or not-for-profit. Students are responsible for obtaining employment, and must submit the application for appropriate internship approvals. They also learn to set objectives and measure performance against those objectives in a business or related setting through a structured reporting process with the instructor. Projects and assignments are due throughout the term.

Prerequisite: Appropriate employment for internship, completion of 30 units of coursework, and instructor's permission.

BUSI 577, Global Field Study, 3 Units

This course provides the framework for graduate students to register for and complete a global field study in various countries around the world. During the course, students conduct corporate visits to business firms locally and around the globe to discuss how they apply and practice the business management principles, concepts and theories covered in the graduate curriculum.

BUSI 581, Strategic Leadership, 2 Units

Students learn to set an organization's strategic direction, align corporate organizational structure to implement strategy, and lead individuals. Students explore the power and strategic importance of their own formation and identity as a leader in creating value, mobilizing resources around opportunities, and influencing others through their corporate role. Class discussions serve as a framework for exploring high-performance impact, corporate culture, reputation, leading strategic change, and leadership theories and styles, with particular attention to servant leadership as an extension of a Christian worldview. Students further explore informal and formal authority and the strategic connection between personal leadership and organizational effectiveness.

BUSI 583, Integrated Decision Making, 3 Units

Students seek to develop the capability to appreciate and carry out the decision-making processes involved in identifying, evaluating, selecting, and implementing strategy in a company. This purpose is achieved by requiring the student to set goals, analyze business problems, develop a framework for making decisions to reach these goals, integrate the functional knowledge acquired in previous courses, and experience, through computer simulation business cases, the processes and functions performed by executive officers in meeting goals, and coping with an uncertain business environment.

BUSI 590, Capstone Project, 3 Units

This comprehensive capstone, intended for students with extensive workplace experience, gives students an opportunity to integrate their learning through the formulation of a corporate report providing strategic direction to a national, international, or global business. The completed strategic plan describes the general economic process applied to a business selected by the student: seasonal sales cycle, inflation/recession tendencies, and product life cycle. Emphasis is placed on the development of strategies, economic analysis, and flexibility of strategic alternatives within the plan.

Prerequisite: MGMT 578

BUSI 591, Marketing Strategy for Competitive Advantage, 3 Units

This course concentrates on the strategic issues encountered in marketing, in terms of total corporate and business strategy. Emphasis centers on matching internal strengths with outside opportunities, giving attention to weaknesses of the firm and threats from the environment. The goal is attainment of a sustainable competitive advantage.

Prerequisite: MGMT 578

BUSI 592, Financial Strategy for Competitive Advantage, 3 Units

This seminar stresses the enterprise-wide view of the strategic management of financial resources. Lectures and case studies present the tools and perspective necessary to gain a competitive advantage through financial management.

Prerequisite: FIN 513 and MGMT 578

BUSI 593, Manufacturing Strategy for Competitive Advantage, 3 Units

This course concentrates on the strategic issues encountered in the manufacturing processes. Manufacturing is recognized as an important strategic resource which can provide major competitive strengths for a business. Today's manufacturing managers must look to the future to plan, set objectives, initiate strategy, establish policies, and commit resources. The goal is attainment of a sustainable competitive advantage.

Prerequisite: MGMT 578

BUSI 594, Emerging Trends in Information Technology, 3 Units

This course, intended for students without a background in information technology (IT), surveys current topics in IT and their impact on business, management, organizations, and society. Course topics include business intelligence, cybersecurity, business analytics, social networks, data visualization, agile software development, and business process management. Students develop a sufficient understanding of how organizations can utilize technologies, get hands-on skill development using real-world tools and deliverables, and explore management and organizational issues associated with technological change.

BUSI 595, Capability Design and Management of Strategic Change, 3 Units

Management capabilities and components, strategic diagnosis, and capability design are addressed. The course introduces state-of-the-art, real-time planning systems, including crisis management. Evaluation of organizational dynamics during discontinuous strategic changes is addressed. Strategic diagnosis and capability design are applied to a successful operation of a corporate firm.

BUSI 596, Special Topics in Business, 1-3 Units

This course presents timely and new topics in business. Different material is covered each time the course is offered. The course may be repeated for credit. Some topics require prerequisites, which vary according to the topic.

BUSI 597, Field Experience, 2 Units

This program of study exposes students to the inner workings of several different organizations, research and development, and manufacturing facilities. The commonalities and differences students observe stimulates their thinking with regard to what matters and what works. The course consists of an intensive fieldwork experience as well as assigned readings that focus on firsthand experiences of business leaders. Grading is Pass/Fail.

BUSI 598, Executive Seminar, 1 Unit

This seminar introduces contemporary issues within business, human resources, and/or organizational development, and their impact on organizational effectiveness. Seminars focus on skill development to improve working environments and interactions among employees, leaders, organizations, and communities. May be taken three times with different topics.

BUSI 599, Readings in Business, 1-3 Units

Students may enroll in an independent study for unit credit to investigate subjects and interests that lie beyond regular course offerings, explore topics in greater depth, and/or initiate individual projects. Such requests must be developed in consultation with a sponsoring faculty member and be approved by the graduate program chair and dean. Unit credit varies depending on the scope of the study plan.

ECON 200, Survey of Economics, 3 Units

This course covers the concepts and tools of economic analysis for microeconomics and macroeconomics. Students study the basics of interactions between firms and consumers: consumer demands, firm costs, price determination under various market structures, and the role of government in a market economy. Students also study the fundamentals of national income and economic growth, interest rates, unemployment, and government fiscal and monetary policies. *Meets the General Education Requirement: Social Science.*

ECON 250, Principles of Macroeconomics, 3 Units

This course provides an introduction to concepts and tools of economic analysis for macroeconomics. Students study national income and economic growth, interest rates, unemployment, and government fiscal and monetary policies. *Meets the General Education Requirement: Social Science.*

ECON 251, Principles of Microeconomics, 3 Units

This course provides an introduction to concepts and tools of economic analysis for microeconomics. Students study the interactions of firms and consumers: consumer demands, firm costs, price determination under various market structures, and the role of government in a market economy.

Prerequisite: C- or better in MATH 110 or MATH 151 or MATH 165, or 60 or higher on the ALEKS math placement assessment.

ECON 350, Intermediate Macroeconomics, 3 Units

This course covers more complex economic models applicable to the study of such topics as economic growth; the effects of monetary policy on business cycles, prices, and interest rates; government spending and debt; and the macroeconomy with trade.

Prerequisite: ECON 200

ECON 351, Intermediate Microeconomics, 3 Units

Material in this course expands on the concepts and tools of economic analysis. Students explore more in-depth models of interactions in society: consumer choice, firm decisions, perfect and imperfect competition. Issues of uncertainty and strategic interaction are addressed, as well as extensions to multiple markets.

Prerequisite: ECON 200

ECON 355, Environmental Economics, 3 Units

Students in this course apply economic perspectives and analytical tools to the study of environmental problems, focusing on the effects of business activities on the environment and the effects of environmental policy on business.

Prerequisite: ECON 200

ECON 356, Labor Economics, 3 Units

This course covers the allocation of labor in a society among its various possible uses. Students consider the role of markets in allocating this labor, issues of market power, and the role of government policy in accomplishing social objectives. Wage determination, job search, and labor productivity are also discussed.

Prerequisite: ECON 251

ECON 357, Economics of the Developing World, 3 Units

This course introduces students to the economic and social issues confronting the majority of people in the world. Students survey the current conditions of people in the developing world and build ways of understanding the complex issues these people face. Using these tools, students examine economic and financial infrastructure, political conditions, levels and trends in poverty and income distribution, job creation and economic growth, health and education, and environmental conditions, which all affect the state of "development" of a people.

Prerequisite: ECON 250 and ECON 251

ECON 359, Urban and Regional Economics, 3 Units

This course combines the disciplines of economics and geography. Economic interactions among individuals, firms, and governmental units are analyzed geographically by focusing on central cities, suburbs, and outlying regions. Within this urban and regional context, this course places particular emphasis on market forces, land use, transportation, crime, housing, and local government. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

Prerequisite: ECON 200

ECON 371, Comparative Economics, 3 Units

Students are offered an integrated treatment of policy, institutions, business, and international trade theory within the different types of economic systems. The values that societies hold are examined as reasons for why different systems are chosen in different countries. The course studies the economics of both market economies and socialist economies, examining their domestic and international policies toward economic interactions.

Prerequisite: ECON 250

ECON 452, Econometrics, 3 Units

This course introduces students to econometric analysis to better understand the economic environment. Cross-sectional regression analysis and time series methods are covered, and serial correlation and heteroskedasticity are addressed. Panel data methods are introduced, as well as such topics as instrumental variables and simultaneous equation estimation.

Prerequisite: ECON 350; ECON 351 (may be taken concurrently); BUSI 111

ECON 453, Microfinance and Microenterprise, 3 Units

Microfinance and microenterprise development are strategies for strengthening the economic opportunities of poorer households to enable families to build assets, provide income, and plan for a better future. This course examines these approaches in depth and evaluates the effectiveness of various projects at accomplishing their stated goals.

Prerequisite: ECON 250, ECON 251, and Junior Standing

ECON 454, Industrial Organization and Regulation, 3 Units

This course investigates the importance of market structure for firm and consumer outcomes beyond the standard perfect competition and monopoly models. Students will learn to incorporate real world attributes into their understanding of market activity through case studies and advanced market models. Topics to be addressed include cartels, entry and exit, oligopoly, price discrimination, and research and development.

Prerequisite: ECON 351; ECON 350 (may be taken concurrently)

ECON 458, Economics and Religion, 3 Units

This course provides students an opportunity to examine the relationship between religion and economic life in terms of individuals' actions and the elements of the economic system. In particular, students examine the relationship between economic behavior/institutions and Islam, Confucianism, and Christianity.

Prerequisite: ECON 350, ECON 351 (may be taken concurrently), Junior Standing.

ECON 495, Special Topics in Economics, 3 Units

This course presents timely and new topics in economics. Different material is covered each time the course is offered. The course may be repeated for credit. Some topics require prerequisites, which vary according to the topic.

ECON 497, Readings, 1-4 Units

This program of study concentrates on assigned readings, discussions, and writing arranged between and designed by a student of upper-division standing and a full-time faculty member.

ECON 502, Business Economics, 3 Units

This course provides a survey of the concepts and tools of economic analysis of both microeconomics and macroeconomics. Students study the basics of interactions between firms and consumers: consumer demands, firm costs, production decisions, resources utilization and price determination under various market structures, market entry and exit decisions, and the role of government in the markets of an economy. Students learn the basic mathematical models needed to begin analyzing business decisions. Students also develop basic tools to analyzing the fundamentals of national income and economic growth, interest rates, unemployment, and government fiscal and monetary policies. A number of current national and international issues will be analyzed using these tools.

ECON 521, Managerial Economics, 3 Units

Students learn to think strategically about the economic environment in which a firm operates. The first half of the course covers the foundations of microeconomics (supply and demand, market price and output, production, cost, and simple competitive market equilibrium). The second half deals with applying microeconomic theory to economic strategy, including more sophisticated pricing and competitive strategies. Case based.

ECON 575, Global Business Economics, 3 Units

This course covers the concepts of global economics, measurement of economic performance, macroeconomic indicators affecting the global business environment, sources of country-specific economic data and data evaluation, microeconomic analysis of decisions in multinational firms, and economic performance forecasting. It also explores the global economic environment of business, including socioeconomic goals and policies that impact multinational business performance and global business strategies, as well as international economic forces influencing business decisions and the firm. It further explores global business economic cases featuring methodology and research perspectives of economics and the contribution of the economics paradigm to business decisions and processes.

Prerequisite: ECON 521

ENTR 210, Small Business Ventures, 3 Units

Students in this course apply their leadership, problem-solving, and strategy skills to consider how winning entrepreneurs think, act, and perform, then establish goals to practice emulating those actions, attitudes, and strategies. New venture creation is about the process of getting a new venture started, growing the venture, successfully harvesting it, and starting again.

Prerequisite: BUSI 110

ENTR 312, Creativity and Innovation, 3 Units

Students in this course investigate innovation in the corporate setting and the personal creative process, with an emphasis on understanding the role innovation plays in corporate success. Via lectures and personal exercises that build information content and a repertoire of specific techniques, students learn and apply the practical toolkit for sharpening and implementing their innovative and creative skills.

ENTR 314, Entrepreneurial Management, 3 Units

Students apply their creative and innovative talents while sharpening their analytical abilities. Students will develop a new business idea and craft it into a comprehensive business plan that details the qualitative (e.g. business modeling and milestone planning) and quantitative (financial forecasts and valuation) process of bringing a new venture idea to fruition. The business plan that each team develops is an operating plan for a start-up company or a new venture within a larger corporation.

Prerequisite: ENTR 310

ENTR 315, Social Entrepreneurship, 3 Units

Social entrepreneurship is an emerging and rapidly changing field dedicated to the starting and growing of social mission-driven ventures - organizations that strive to advance social change through innovative solutions. This course exposes students to viable business models in social enterprise, focusing on the ideas, process, steps, and strategies required for creating new social ventures. Through lectures, case studies, and classroom dialogue, students will learn to think strategically and to act opportunistically with balanced social and financial perspective.

Prerequisite: BUSI 110

ENTR 420, Entrepreneurship and Innovation Practicum, 3 Units

This course gives students practical experience through guest speakers and company visits, and through work in an entrepreneurial or innovative organization, with students translating those experiences into academic learning. With close guidance from practicum faculty, students identify and work with a business or a public or nonprofit organization. Working individually or in small teams, students complete a defined project of approximately 100 hours that has practical value and academic rigor. Students provide regular status reports and receive faculty coaching during the practicum.

Prerequisite: Junior standing

ENTR 520, Entrepreneurial Decision Making, 3 Units

This course covers the tactical and strategic decisions that are essential for successfully starting and managing a new business. The course provides the framework for students to learn the application of practical business knowledge and tactics in transforming entrepreneurial vision into winning business strategies and thriving entrepreneurial ventures. Students learn the techniques for successful entrepreneurial decisions, including modeling successful business and strategic plans; effectively targeting, evaluating, and identifying alternate financing sources; competitive pricing, product differentiation, and market targeting as key drivers for sales growth and profitability; and effective competitive and risk assessment, analysis, and management.

ENTR 524, New Venture Creation, 3 Units

Students review the experiences entrepreneurs encounter in conceiving and launching a business. The course combines personal assessment and involvement exercises with an emphasis on group interactions, personal planning, and contemplating an entrepreneurial career. Team activities, personal planning exercises, new venture simulation, and case studies are utilized. Students analyze factors affecting purchase decisions in the marketplace, apply behavioral and social science concepts to the study of buyer behavior, and study methods that organizations use for personal selling, sales promotion, public relations, the art of negotiating, and other forms of promotion to communicate with customers and prospects.

ENTR 525, Entrepreneurial Venture Analysis, 3 Units

This course covers case studies and analysis of entrepreneurial ventures and the identification of the different ways management concepts and techniques are applied in developing innovative businesses, standardizing products, designing processes, and operating tools. The course explores the identification of the systems and analytical decision models applied in various entrepreneurial operating functions and the techniques for setting performance standards and designing the activities required to drastically upgrade the yield from resources in order to create new markets and new customers. It evaluates the complex dynamics of entrepreneurial challenges in modern theory and practice through the use of case studies of entrepreneurial ventures.

FIN 300, Business Finance for Managers, 3 Units

This course introduces concepts and tools of business finance for managers. Students study financial statements and their interpretation, business performance measures, the management of cash and the short-term financial needs of organizations, and how to make good capital budgeting decisions.

Prerequisite: ACCT 120

FIN 320, Principles of Corporate Finance, 3 Units

Students in this course explore the principles and practices of financial management. Sources and methods of raising capital, allocation of funds within the firm, cash flow and financial statement analysis, financial markets, and capital budgeting techniques are addressed. Additional concepts covered include present-value analysis, long-term financial planning, risk and return, and basic derivatives.

Prerequisite: ACCT 120

FIN 330, Financial Analysis, 3 Units

This course equips students with the necessary tools of financial statement analysis for business valuation and strategic considerations. Students explore the ideas of ratio analysis and time value of money in discounted cash flows in order to analyze the financial conditions of a business organization. Course material also covers credit analysis and corporate finance issues such as mergers and acquisitions and debt financing. Case studies are used extensively.

Prerequisite: FIN 300 (finance majors only)

FIN 331, Managerial Finance, 3 Units

This course extends the concepts and methodologies introduced in Principles of Finance to incorporate the practical uses as a manager in an organization. The course places emphasis on managerial decisions using spreadsheet applications. Topics include: financial statement analysis, project analysis, long-term financial planning, risk and return, and basic derivatives.

Prerequisite: FIN 320 or Instructor's consent

FIN 352, Financial Markets and Institutions, 3 Units

This course covers financial markets, instruments, and institutions, with students examining the roles of depository institutions, insurance companies, and others in the process of intermediation. The structure of financial markets, recent developments in financial instruments, interest rate determination, and the regulatory environment are discussed.

Prerequisite: ECON 200

FIN 372, International Trade and Finance, 3 Units

Students study the theory and practice of international trade and international finance, exploring questions of why countries trade, what they trade, and national and global trade policies. Course material also covers foreign exchange markets, exchange rate determination, foreign direct investment, and international capital markets.

Prerequisite: ECON 200

FIN 432, Investment Analysis, 3 Units

This course introduces students to the basic tools of investment analysis and integrates these with the actual operations of investments and portfolio construction. Emphasis is on providing analyses of asset selection with an experience of real market activities.

Prerequisite: FIN 300 (finance majors only) and FIN 352 (finance majors only; may be taken concurrently with instructor permission)

FIN 433, Applied Portfolio Management, 3 Units

Students in this course engage in practical application of financial investment principles and theory through a portfolio management opportunity in a business setting. Students learn to set portfolio objectives and measure performance against specific metrics in the business setting through a structured reporting process with the instructor.

Prerequisite: FIN 330 or instructor's consent, BUSI 111 or instructor's consent, and FIN 432 (FIN 432 prerequisite applies to finance majors only)

FIN 434, Derivatives, 3 Units

This course prepares students with a basic understanding of derivatives of financial assets and commodities (such as futures, options, swaps, etc.). Pricing of these derivatives and their function in hedging and speculation is discussed. Recent innovations of pricing models for instruments such as interest rate derivatives, exotic options, and assessment of market risk based on the market prices of derivatives are also covered.

Prerequisite: FIN 432, MATH 130

FIN 436, Financial Risk Management, 3 Units

The course introduces students to the theory and management tools of risk management and financial innovation, including the use of different combinations of financial assets and derivatives to immunize an organization's market risk. Topics include dynamic hedging using derivatives such as futures and options, and possibly the development of new products (or combinations) to protect a business or portfolio from exposure to financial risk.

Prerequisite: FIN 300, FIN 432 or instructor's consent, and FIN 433 (may be taken concurrently, required for finance majors only)

FIN 439, Seminar in Finance, 3 Units

Students in this course evaluate their learning from finance major courses in preparation for the Securities Industry Essentials exam to become finance professionals. Students explore various types of professional finance career tracks and prepare individual career-development plans. Topics include capital markets, financial instruments and their risks, trading activities, managing customer accounts, prohibited activities, rules and regulations, professional financial jobs, and personal career plans.

Prerequisite: FIN 330 (finance majors only) and FIN 432 (finance majors only)

FIN 502, Business Finance for Managers, 3 Units

This course provides an introduction to concepts and tools of business finance for managers. Students study financial statements and their interpretation, business performance measures, the management of cash and the short term financial needs of the organization, and how to make good capital budgeting decisions. Students will analyze company performance and make recommendations by applying class content to financial issues.

FIN 513, Corporate Finance, 3 Units

Students in this course examine how financial decisions can affect the value and health of firms. Topics include cash flow and ratio analysis, discounted cash flow analysis, stock and bond valuation, investment criteria and decisions, capital budgeting, capital structure decisions, risk-return analysis, and long-term and short-term financing decisions. In addition, students read and discuss articles related to God's financial principles.

Prerequisite: ACCT 512 (Prerequisite applies to MBA students only)

FIN 526, Capital Formation, 3 Units

Students study the market processes by which resources are allocated, from the capital formation of economic activities of the economy's various sectors to the financial activities in the money and capital markets. Specifically, the course includes the use of flow of funds analysis as applied to capital markets and various financial chronicles as sources for explaining and predicting economic behavior; the theory and reality of the interest rate structure; the nature of various capital markets and their securities; knowledge of corporate debt and equity instruments; federal, state, and local government securities; and mortgages. This course leads to a basic knowledge and understanding of the sources and uses of funds and the role of financial intermediation in the growth and development of economies.

Prerequisite: FIN 513

FIN 536, Entrepreneurial Finance, 3 Units

This course examines the financial decisions of entrepreneurs and venture capital investors based on the stages of a venture development. Topics include financial options for entrepreneurs and investors, preparations for and analysis of a new business' financial statements, and the valuation of the venture.

Prerequisite: FIN 513 (MBA students only; MBM and MSHA students have no prerequisite for this course)

FIN 546, Investments, 3 Units

This course provides students with the study of financial instruments. Along with the knowledge of investment principles, students focus on the decision process for evaluating various investment opportunities. In addition, students discuss their stewardship responsibilities to God as individual Christian investors and Christian financial managers in a corporation.

Prerequisite: FIN 513

FIN 567, Advanced Financial Analysis, 3 Units

Students explore the practical applications of financial management based on case studies. Major topics include financial statement analysis, financial forecasting, cost of capital estimation, capital budgeting decisions, capital structure decisions, equity financing, and mergers and acquisitions.

Prerequisite: FIN 513 (MBA/Accounting students only), FIN 502 (MSHA students only)

HROD 250, HR Life Cycle: Hiring to Retiring, 3 Units

In this course, students gain an in-depth and practical perspective of employee staffing, compensation, and benefits spanning from prior to an employee's hire until after they leave the organization. Special attention is given to the six stages of the employee life cycle: attraction, recruitment, onboarding, development, retention, and separation.

HROD 351, Talent Enhancement: Training, Development, and Engagement, 3 Units

This course gives students hands-on experience with the employee training life cycle as they learn about employee development and engagement. Students develop an employee training program that helps employees learn specific knowledge or skills to improve performance, and also examine the components of employee development—a more expansive strategy that focuses on employee growth and future performance rather than an immediate job role.

Prerequisite: HROD 250

HROD 352, Employee Relations, 3 Units

In this class, students study the legal and social dynamics of HR as a valued partner in employee care. Students examine the handling of grievances, discipline, and labor relations in union and nonunion shops. Concepts related to an organization's strategic effort to maintain a positive relationship with its employees, including the complex interrelations between employers and employees, labor/trade unions, employer organizations, and the state, are reviewed.

Prerequisite: HROD 250

HROD 353, Compensation and Total Rewards, 3 Units

This course offers an in-depth look at a strategically important area of human resources for organizations: establishing employee compensation plans that attract the right talent and retain top performers. Students in this course study multiple factors that organizations consider when designing compensation plans for the workforce. They also examine the differences between financial and nonfinancial means of compensation, how to establish wage levels, how to evaluate jobs to ensure that employees are being compensated appropriately, key economic considerations in establishing compensation plans, and how to design performance incentive programs. Course material includes an overview of relevant laws that govern compensation systems and employee benefit programs, and addresses how to evaluate the strategic effectiveness of compensation plans. This course prepares students for the Total Rewards portion (Unit 4) of the HR Certification Institute's PHR/SPHR professional certification exams.

Prerequisite: HROD 250

HROD 354, Talent Planning and Acquisition, 3 Units

This course offers an in-depth look at an area of human resources that is foundational to the profession: attracting and selecting highly qualified candidates to fill jobs. In this course, students study equal employment opportunity and employment discrimination, workforce planning, job analysis/description/specification, recruitment, and selection tools. They also examine how to conduct workforce planning and recruitment processes, how to design selection processes that are valid and reliable, and how to legally conduct preemployment testing and background investigations. This course prepares students for the Talent Planning and Acquisition portion (Unit 2) of the HR Certification Institute's PHR/SPHR professional certification exams.

Prerequisite: HROD 250

HROD 500, Foundations of Human Resource Development, 3 Units

The course provides an introduction to and overview of the field of human resource development with emphasis upon its historical and philosophical foundations. Theories and concepts relevant to the field are analyzed. Special emphasis is placed on the roles and functions of OD professionals within organizations and understanding the basic competencies of professional practice.

HROD 501, Organizational Design and the Psychology of Work Behavior, 3 Units

This course examines the fundamental theories and viewpoints on the nature of work, its role in adult life, and the function of employment organizations. Included is discussion of forces impacting individual, group, and system performance and productivity within complex sociotechnical systems. Particular emphasis is placed on examining the role of work in the growth and functioning of humans and in identifying the characteristics of organizations in which both the human needs of the people who compose the organization and the organization as a productive, adaptive entity are satisfied.

HROD 512, Employee Development, 3 Units

This course introduces theories of human growth and development as a foundation for understanding the developmental challenges facing individuals during their lifespans. Specific implications and applications are made related to how human growth and development is effected by and affects organizational life.

HROD 520, Career Development Systems, 3 Units

Students study the emerging field of career planning and development related to initial and ongoing professional development. Current literature, relevant theories, and major approaches to career planning and development are examined in accordance with career planning and development approaches in organizations. Students use various self-assessment tools and diagnostic instruments to evaluate data on their own work histories, interests, skills, and values.

HROD 530, Labor Law and Negotiations for Human Resource Professionals, 3 Units

This course provides a brief introduction to the pervasiveness and importance of labor law and negotiations. All human resources professionals must understand labor law and the rights given to employees pursuant to those laws, regardless of whether the employees are members of a union. Professionals must also be thoroughly versed in collective bargaining and the labor relations process in order to be prepared to work for companies whose employees are either represented by a union or are seeking to join a union. Course material equips students for these tasks, as well as for involvement in negotiating agreements and resolving conflicts, such as collective bargaining agreements, agreements with benefit plan providers, individual employee claims, and the terms of employment for new employees.

Prerequisite: MGMT 517

HROD 531, Designing and Managing Compensation and Benefit Systems, 3 Units

This course provides a solid understanding of the art of compensation practice and its role in promoting companies' competitive advantages. Compensation systems in organizations must be linked to organizational objectives and strategies. Scholars and managers agree that the way compensation is allocated among employees sends a message about what management believes is important and the types of activities it encourages. With the responsibility of administering compensation expenditures wisely, HR professionals must balance the interests and costs of employers with the needs and expectations of employees.

Prerequisite: MGMT 517

HROD 532, Human Resource Law, 3 Units

Human resources professionals are routinely called upon to navigate a number of legal issues. This course introduces the major laws governing human resource management in the work place beginning with the core skills it takes to safely interview job candidates, counsel employees, and mediate disputes. Students gain a thorough understanding of EEOC and ADA regulations and learn how to comply with the Family and Medical Leave Act. Emphasis is on the laws about unlawful discrimination, recruiting, hiring, promotions, harassment, and reasonable accommodation.

Prerequisite: MGMT 517

HROD 550, Instructional Design and Training Methods, 3 Units

This course focuses on methods to assess an organization's training and development needs, and designing and implementing training programs to address those needs. Analysis and application of adult-learning theories in relation to program design are explored. Methods of instructional design and course development are emphasized.

HROD 575, Leveraging Diverse Community Partnerships, 3 Units

Students gain an in-depth understanding of the recruitment and retention of diverse workforces. This course gives students practical methods for recruiting employees from diverse backgrounds through the development of culturally sensitive marketing and recruiting materials. It also addresses issues regarding the management, retention, and advancement of employees from diverse backgrounds.

HROD 576, Managing in a Multicultural Context, 3 Units

This course focuses on developing an understanding of diversity and cultural difference. Students examine effective and ineffective management techniques and learn helpful approaches to conflict resolution in multicultural work environments.

HROD 577, Cultural Explorations in Global Business, 3 Units

Future business leaders engage their own and others' cultures in the context of a global marketplace while understanding how those cultures may impact the bottom line. Students also investigate the complexities of company demands to increase compliance with international business standards.

HROD 578, Recruiting and Retaining a Diverse Workforce, 3 Units

In leveraging diverse community partnerships, students learn practical methods for developing culturally sensitive marketing campaigns for the purpose of recruiting diverse employees into multiple areas of industry. Also, issues regarding management and retention of employees from diverse backgrounds are examined, including glass ceiling issues.

HROD 599, Readings in Human and Organizational Development, 1-3 Units

Students may enroll in an independent study for unit credit. In this course, students investigate subjects and interests that lie beyond regular course offerings, explore topics in greater depth, and/or initiate individual projects. It provides an opportunity to identify and develop an area of study of particular concern to the individual learner. Readings are pursued in accordance with a study plan developed in consultation with a sponsoring faculty member and approved by the graduate programs chair and dean. Course requirements typically involve a literature review and submission of a paper. Unit credit varies depending on the scope of the study plan.

IBUS 374, Topics in International Management and Strategy, 3 Units

Students in this course analyze operational management issues encountered in international and culturally diverse enterprises. Course material may focus on human resource management, production management, cross-cultural issues, or strategic planning and implications for the firm.

Prerequisite: BUSI 370

IBUS 377, Global Field Study, 3 Units

This course provides the framework for international business majors to register for and complete global field studies in various countries around the world. Students conduct visits to business firms locally and globally to discuss how they apply and practice the business management principles, concepts, and theories covered in the undergraduate business curriculum.

IBUS 479, Import/Export Practicum, 3 Units

In this project-based class, students gain practical knowledge of the business of imports and exports. Students are expected to start a one-semester small business importing a product from abroad and selling it domestically. Key assignments may include a market analysis, sourcing analysis, business plan, importing a sample, and selling the sample. Students have freedom of scope and scale when deciding which product(s) should comprise the project.

Prerequisite: BUSI 370 or instructor consent

LDRS 103, Life Design and Self-Leadership, 3 Units

This course helps students discover their individual calling within the framework of their view of life and work. Students gain a greater understanding of their strengths, values, interests, skills, and personality as they build prototypes of potential careers utilizing a life design process and prepare for life after college with intention and purpose.

LDRS 201, Foundations of Leadership, 3 Units

This course blazes the trail for understanding the concepts of good leadership and followership, identifying oneself as a leader, discovering one's sense of calling, establishing a commitment and plan for whole-person leadership development, seeing leadership through an interdisciplinary lens, and grounding one's "leadership story" in an awareness of current history and the reality of the Kingdom of God. Through creative experiences, meaningful texts, and powerful assignments, students are prepared for further leadership education.

LDRS 303, Career and Life Planning, 3 Units

For students entering the professional world, this course aids in understanding career development options, finance management, and coping with stress. Students gain a greater understanding of their strengths, values, interests, skills, and personality as they seek employment and/or apply to graduate school. Relevant guest presenters spend class time sharing important information that benefits students in planning for careers and life.

LDRS 311, Leadership Values and Virtues, 3 Units

This course views leaders as authentic servants committed to transformation. Students study the leader's motivations, the dreams of followers, conflict resolution, as well as personal, intellectual, and civic virtue. Perspectives for steering clear of bad leadership and toward collaboration with those who share the leader's commitment to the common good are considered. The course focuses on the development of leaders who are responsible, good, humble, and who understand the diverse values of others.

Prerequisite: LDRS 201 (may also be taken concurrently) or junior standing or department consent.

LDRS 311H, Leadership Values & Virtues - Honors, 3 Units

This course views leaders as authentic servants committed to transformation. Students study the leader's motivations, the dreams of followers, conflict resolution, as well as personal, intellectual, and civic virtue. Perspectives for steering clear of bad leadership and toward collaboration with those who share the leader's commitment to the common good are considered. The class focuses on the development of leaders who are responsible, good, humble, and who understand the diverse values of others.

Prerequisite: LDRS 201 (may also be taken concurrently), Junior standing, or departmental consent. Must also be a student admitted to the Honors College and be considered a member in "active" status

LDRS 322, Leadership Strengths and Skills, 3 Units

This course focuses on a strengths-based approach to leadership and leadership development, as well as the skills necessary for good leadership. Opportunities to understand and practice essential skills such as continual learning, powerful communication, problem solving, managing process, goal achievement, conflict resolution, win-win negotiating, and empowering stewardship are woven throughout the course. Training additional leaders is also a key topic. Effective leadership practice through emphasis on strengths development is the goal of this course.

Prerequisite: LDRS 201 (may also be taken concurrently) or junior standing or department consent.

LDRS 333, Leadership Influence and Impact, 3 Units

This course looks at the leader as agent of change on three levels: personal change, influence on individuals and small groups, and impact on cities, organizations, and cultures. Through historical reflection and developing a systemic vision, students are equipped to make a difference in many social settings. By learning to work as mentors, facilitators, and ambassadors, emerging leaders can leave a dynamic legacy.

Prerequisite: LDRS 201 (may also be taken concurrently) or junior standing or department consent.

LDRS 335, Leadership Communication, 3 Units

This course teaches students the theoretical, empirical, and practical aspects of leadership communication by taking a distinct communication approach to leadership studies. Topics covered include leadership and followership communication styles and practices; various leadership theories and perspectives; power and influence; team/group leadership; organizational, crisis, and public leadership; diversity; ethics in leadership; and leadership development.

LDRS 401, Leadership Studies Capstone, 3 Units

This course deepens students' capacity for leadership based on wisdom, knowledge, and understanding. In addition to concluding the leadership minor by linking leadership practice to leadership theory, students dialogue about leadership issues such as gender, community, temptation, finding one's voice, mission, and the whole-person model. A thoughtful and thorough final project and a high-quality portfolio presentation are crafted to integrate students' learning about leadership and to provide a postgraduation plan for lifelong leadership development.

Prerequisite: LDRS 201, LDRS 311, LDRS 322, LDRS 333

LDRS 495, Special Topics in Leadership, 1-3 Units

This course addresses topics of current interest in leadership studies that are not covered by the core and elective courses. Topics vary from semester to semester. This course may be taken more than once as topics change.

LDRS 497, Readings, 1-3 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed by, a student of upper-division standing and a professor approved by the Program Chair. The course allows the student to identify a specific leadership theme and investigate it further.

LDRS 501, Foundations of Leadership Theory, 3 Units

This course provides a conceptual and practical survey of predominant leadership theories providing students with opportunities for critical reflection and application. A focus is given to transformational theories of leadership and application is made to the M.A. in Leadership core competencies.

LDRS 502, Cornerstones of Christian Leadership, 3 Units

This course utilizes APU's Four Cornerstones to discuss leadership from the Christian tradition. Students look at the example of Jesus, the ultimate servant leader, and how His followers through history have both succeeded and failed in following His example. Through probing into how Christian scholars have written about and understood leadership, as well as seeking to show that the goal of Christian leadership is to serve God and the common good of humanity, students gain a faith-based benchmark for further studies in leadership.

LDRS 503, Organizational Behavior, 3 Units

This course investigates the effective functioning of individuals and groups within organizational settings. Emphasis is placed on how leaders perceive organizations from strategic design, organizational culture, and political environment perspectives. This course applies theoretical concepts to major organizational challenges such as organizational effectiveness, motivation, conflict, job stress and satisfaction, and decision making. The focus of the course includes organizational communication, as well as the attitudinal and behavioral implications for leaders.

LDRS 510, Creative and Collaborative Leadership, 3 Units

This course enables students to integrate the concepts of personality, leadership, and creativity; investigate collaborative leadership; identify and apply creativity and preferred leadership styles; and explore the effects leadership styles can have on given organizational communities.

LDRS 511, Exploration of Leadership Thought, 3 Units

This foundational course provides an overview of the evolution of leadership thought, including a review of the fundamental theories and principles that led to the study of leadership as a discipline, as well as an examination of the story of leadership from a biblical perspective. Students are introduced to a holistic framework for leadership development informed by an understanding of the importance of ethics, values, and spirituality from a Christian worldview.

LDRS 512, EQ I: Self-Leadership, 3 Units

This course focuses on the self-competence elements of emotional intelligence - leader self-awareness and leader self-management - from psychological, spiritual, emotional, and developmental perspectives. Students enhance their self-leadership through the improvement of self-competence and self-development.

LDRS 516, Leadership Development and Practice, 3 Units

This course emphasizes the process of leadership development from a transformational perspective. Students consider both their personal growth and the dynamic mechanisms necessary for facilitating the development of others. Emphasis is on the issues and challenges of creating a lifelong learning mindset individually and organizationally, mentoring strategies, team building, developing effective followers, and designing career development systems. This course provides the opportunity for application through a practicum assignment.

LDRS 520, Understanding Vocation in a Changing World, 3 Units

This course focuses on understanding one's true overarching vocation in life as it connects to the purposes of God in this world to steward the earth and its peoples. One's vocation then influences what one does with his or her life. The concepts of career are continually changing, but work/life planning continues to be important personally and professionally. Students have the opportunity to use various self-assessment tools and diagnostic instruments to evaluate their own working history, interests, skills, values, and career anchors. Students also learn to design career programs for organizational settings.

LDRS 523, EQ 2: Relational Leadership, 3 Units

This course focuses on the social competence elements of emotional intelligence - leader/follower social awareness and leader/follower relationship management - from psychological, spiritual, emotional, and developmental perspectives. Students enhance their relational leadership acumen through the study of motivation, and social skills for leader/follower relational development.

Prerequisite: LDRS 512

LDRS 524, Principles and Practices of Design Thinking, 3 Units

Students in this course explore the fundamental principles and practices of design thinking, in relation to the workplace and in the context of the person as leader. Concepts such as creativity, empathy, failure, risk, and creative confidence are explored. This course also provides the opportunity to practice design thinking on personal and organizational levels.

LDRS 532, Leadership Practicum, 3 Units

This course creates a dialogue between previously explored concepts/theories of leadership and the practical experiences of exemplar practitioners. Students are involved in community service and exposed to community leaders for interaction, observation, and analysis. These encounters enable students to assess and activate their leadership journey based on spiritual, mental, educational, and emotional aspects of leadership development.

Prerequisite: LDRS 501, LDRS 502, and LDRS 503

LDRS 533, Systems and Strategic Planning for Leaders, 3 Units

This course focuses on systems thinking from a leadership perspective. By working with stories, scenarios, and strategy, students learn to address complex problems, anticipate consequences, and leverage potential. Attention will be given to the use of narrative for influencing constituent participation. Finally, organizational design is considered as a key concern for leaders in organizations.

Prerequisite: LDRS 501, LDRS 502, and LDRS 503

LDRS 534, Leader as an Agent of Change, 3 Units

This course looks at the leader as an agent of change through three lenses: self examination, change theory, and organizational culture. Each is assessed in light of implications for those involved in the change initiative. Special attention will be given to the transformational change that takes place for leaders and followers when the call for change occurs. Application is made to organizations, informal networks, temporary situations, and other social contexts.

LDRS 535, Leading Dynamic Change, 3 Units

This course focuses on the practice of leading organizational change, as well as the importance of personal change within the life of the leader. Students engage in activities and projects to enhance understanding of the role of the leader as a change agent within the organization.

LDRS 536, Disruptors and Conflict, 3 Units

This course prepares students to manage their responses to conflict in order to leverage disruptive issues in leadership with creative confidence. Through the study of personal and organizational conflict management skills, students become equipped to solve complex issues that are disruptive to personal, team, and organizational functioning.

LDRS 542, Leading Across Cultures, 3 Units

In a pluralistic society, leaders are often tasked with the responsibility of bridging both domestic and international contexts in a convergence of global learning. This seminar will examine the historical, organizational, and interpersonal significance of leading across cultures, with particular emphasis on discerning the underlying values of community behaviors as well as the attitudes, beliefs, values, skills, knowledge, and self-awareness necessary for leaders to effectively serve in diverse contexts. A variety of theoretical, research and applied issues are addressed; in particular, the course aims to explore social location theory as a means of equipping graduates to advance equity and positive change through increased capacity for diversity engagement.

LDRS 547, Navigating Social Climates, 3 Units

This course equips students as leaders in today's globalized organizations and societies who analyze, through multiple lenses, issues of inequity and injustice that exist locally, nationally, and globally. The course utilizes conceptual and experiential learning in which students encounter and reflect on realities of inequity and injustice in the social and natural worlds, in interpersonal, intergroup, and organizational relationships. Students are also expected to begin to develop habits and skills to promote shalom-oriented organizations and communities.

LDRS 548, Strategic Foresight, Thinking, and Planning, 3 Units

This course focuses on engaging the full strategy cycle, which includes strategic foresight, thinking, and planning. Through an applied project, students engage in scanning for trends and developing stories and scenarios; develop strategic thinking skills; and engage in a strategic planning process.

LDRS 559, Curiosity to Inquiry, 3 Units

This pass/fail course underscores curiosity as an innate human capacity and cultivates students' ability to use it toward human-centered inquiry and socially transformative innovations. Students engage in the ideation and inspiration phases of Design Thinking in solving a complex leadership challenge for an organization or a community. Through the process, students are expected to become familiar with traditional as well as innovative data collection techniques and become informed consumers of published research. Successful completion of this course results in a prototype for the leadership experiment, which the student implements in LDRS 560 Leadership Experiment.

Prerequisite: LDRS 511, LDRS 512, LDRS 523, LDRS 524, LDRS 535, LDRS 536, LDRS 547, and LDRS 548.

LDRS 560, Leadership Experiment, 3 Units

As a completion of the M.A. in Leadership program's 4D model of Discover, Design, Develop, and Deliver, this final course helps students continue their leadership experiment started in LDRS 559 and culminates with a TEDx-style presentation. This is a pass/fail course.

Prerequisite: LDRS 559, and enrollment in the M.A. in Leadership program.

LDRS 561, Group and Conflict Issues in Leadership, 3 Units

This course helps the student understand small-group behavior. It uses experience-based methods, case studies, reading material, and simulation. The course examines role behavior, group dynamics, conflict control, leadership, and group development. It also addresses motivation and problem solving as essential elements of organizational behavior.

LDRS 563, Ethical Decision Making, 3 Units

This course investigates the intersection of ethics and effective decision making. Students will explore ethical implications of the decision making process, with particular emphasis on the ways that ethical decision making applies to individuals, groups, and organizational systems. This course applies theoretical concepts to significant organizational problems requiring effective decision making processes. Attention will be given to systematic rational approaches as well as the role of intuition and group dynamics in the decision making process. The course will utilize lecture, case study analysis, group exercises, review of current literature, classroom discussions, and simulations to create an effective learning environment.

LDRS 571, Leadership for a Learning Environment, 3 Units

This course looks at the leader's role in designing and implementing effective learning strategies and effective methods for educating adults. Emphasis is given to the creation of programs that focus on learning styles, discussion-oriented teaching, inspiring presentation skills, and results-oriented outcomes. During the course, students are given opportunities to demonstrate competency in the principles and practices of materials development, teaching, training, and skill development.

LDRS 592, Research Methods and Design, 3 Units

This course provides an introduction to basic concepts, principles, and methods of evaluation and research in the leadership setting, focusing on research traditions, procedures, theories, and methods. Emphasis is placed on identifying methods appropriate for particular research questions and conducting disciplined inquiry regardless of method selected. Particular emphasis will be placed on identifying a research question and conducting a comprehensive review of relevant literature.

LDRS 593, Applied Research, 3 Units

This course provides an introduction to basic concepts, principles, and methods of evaluation and applied research in leadership settings, focusing on action research methodology. A faculty-student collaborative process, participatory action research allows students to engage in inquiry and action for change in response to organizational or community problems. During the course, students will identify a research question in their personal leadership contexts, review the current research literature, develop a plan to collect initial data, and present their project and findings to the class. At each stage of inquiry, the professor and peer research groups will provide feedback.

Prerequisite: LDRS 592 (May be taken concurrently)

LDRS 595, Capstone Project in Leadership, 3 Units

The capstone course is an opportunity for students to demonstrate that they have achieved the goals for learning established through the M.A. in Leadership program competencies. The course assesses cognitive, affective, and applied learning in a student-centered and student-directed manner which requires the command, analysis, and synthesis of knowledge and skills. The capstone course integrates scholarship and praxis through the development of a literature review and 360-degree assessment and requires application of that learning to professional and personal contexts as evidenced through artifacts demonstrating competence. In culmination of their graduate studies, students will formulate a personal philosophy of leadership and develop a personalized growth plan that synthesizes their academic learning and outlines future professional and intellectual goals.

Prerequisite: Students enrolled in the M.A. in Leadership program

LDRS 597, Current Issues in Leadership, 3 Units

Current topics are chosen for discussion, research, and decision making relevant to the Organizational Leadership emphasis.

LDRS 598, Special Topics, 3 Units

In this course, a topic of current interest or need is examined in depth. Students analyze and evaluate topics/ issues to reach and express a position, provide training for a particular population, or enhance personal development. If students elect this course more than once during their program, each course must address a different topic.

LDRS 599, Readings in Leadership Studies, 1-3 Units

The independent study vehicle allows students and their sponsoring faculty members to pursue approved investigations beyond regular course offerings.

MGMT 120, Business Communications, 3 Units

Students in this course explore communication technologies and strategies used in the modern marketplace to create and deliver audience-focused informative and persuasive messages based on credible research, impactful visuals, and professional vocal and physical techniques. Students are given scenario-based challenges often encountered in organizational settings and business situations, to help them with determining the extent of information needed in communications with key stakeholders, researching and utilizing credible support materials ethically, organizing information logically, and delivering messages through professional presentations using appropriate visual aids, graphics, posture, gesture, eye contact, and vocal expressiveness.

MGMT 210, Principles of Management, 3 Units

This course covers elements of planning, organizing, leading, and control, with emphasis given to organizing and actuating responsibility and authority, delegation, decentralization, the role of staff, line-staff relationship committees, boards of directors, and organization charting. This course will also explore formal and informal organization, communication, and reaction to change. Students will create and manage a business in an environment similar to today's economy. *Meets the General Education Requirement: Integrative and Applied Learning.*

MGMT 211, Organizational Leadership, 3 Units

This course covers contemporary theories, principles, and practices of leadership within the context of managing businesses and organizations, introducing leadership topics such as change management, leadership development, and organizational communication. Students also explore the emerging concept of followership and the role it plays in organizational failures and successes. Significant attention is given to students' personal assessment and evaluation of their personality, strengths, leadership styles, and work, in order to establish a leadership and management identity. *Meets the General Education Requirement: Social Science.*

MGMT 212, Managing Diverse Teams and Groups, 3 Units

This course covers essential theories and concepts for analyzing, understanding, and managing various groups and teams in the workplace. Students examine the components that comprise teams, develop skills in diagnosing opportunities and threats that teams face, and build teamwork expertise. Significant time is spent exploring interpersonal processes, conflict resolution, and the many characteristics that influence the effectiveness of a team. This course also gives students an understanding of team diversity, the differences between individual members that can exist in various areas such as age, nationality, religious background, functional background or task skills, sexual orientation, political preferences, and communication and decision-making styles, among others. *Meets the General Education Requirement: Social Science.*

MGMT 214, Project Management, 3 Units

This course introduces the basic principles of modern project management (PM), including project initiating, planning, execution, monitoring, and closing, with a focus on the development of PM knowledge areas as defined by the Project Management Body of Knowledge. Students learn how to use Microsoft Project Professional and related software tools for managing and controlling the project lifecycle. Course material helps students prepare for the Project Management Professional certification exam. *Meets the General Education Requirement: Integrative and Applied Learning.*

Prerequisite: MGMT 210

MGMT 335, Real Estate Management, 3 Units

This course offers an introduction to real estate principles and practices, essential real estate law, practices incidental to ownership, real estate brokerage, and property evaluation.

MGMT 350, Business Management Internship, 3 Units

This course gives students the opportunity to apply their knowledge of principle and theory, and practice their skills and abilities, in an actual business setting through an internship. Course format is similar to that of an independent study, combining in-class meetings, online lesson plans, and real-life work experience. *Meets the General Education Requirement: Integrative and Applied Learning.*

Prerequisite: Completion of 60 units, and instructor consent.

MGMT 410, Production Management, 3 Units

This course focuses on decision making and allocation control regarding personnel, materials, and machine utilization in a manufacturing environment. Course material addresses handling and control of materials, inventory, purchasing, and quality control, and students also learn about setting standards and developing skills in estimating, forecasting, and scheduling.

Prerequisite: MGMT 210

MGMT 440, Business Process Management, 3 Units

Business processes are the core of organizations, providing service to customers, impacting operations and cost structures, and defining enterprise software requirements. In this course, students explore what business processes are-how they are defined, documented, and managed. The course introduces the role of business architect as the initial developer of an enterprise software solution, and features real-world software tools, since software develops (and demands) a deeper understanding of the complexity and nuances associated with business process management. The course is suitable for all business students, since technology has become such a critical component of business.

Prerequisite: BUSI 240

MGMT 445, Human Resource Management, 3 Units

Students in this course study the human factors in modern business, particularly how they affect and are influenced by labor-management interactions and personnel relations, techniques, and procedures.

Prerequisite: MGMT 210

MGMT 446, Introduction to Organizational Theory and Design, 3 Units

This course introduces students to major perspectives in organizational theory and design and its impact on organizations and management. Course material gives students the fundamental knowledge base for understanding and exploring how organizations function, develop, and modify themselves to reflect the forces and needs of external and internal environments. Students examine organizational theory, which is the sociological study of formal and informal organizational structures such as businesses and bureaucracies and their interrelationship with the environment in which they operate. This course complements the studies of organizational behavior and human resources.

Prerequisite: MGMT 210

MGMT 448, Organizational and Administrative Behavior, 3 Units

Organizational behavior is an interdisciplinary field drawing from psychology, sociology, economics, organization theory, statistics, and other areas. In this course, students gain an understanding of the field and the various research strategies involved as they examine human behavior in organizations, as well as individual, group, and organization-level processes that impact workplace behavior and organizational life. Students are exposed to organizational behavioral science theories and their applications in different management settings and types of organizations, and have an opportunity to engage in experiential and skill-building activities, applying conceptual frameworks in community settings and developing strategies for increasing stakeholder and civic participation. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

Prerequisite: MGMT 210

MGMT 450, Strategic Management, 3 Units

This course focuses on fundamental decisions in the life of a business: What is the business, and what should it be? What are the objectives? How are priorities set? How are strategic, long-range decisions to be handled? To grow or not to grow--and what is the right size for the business? *Meets the General Education Requirement: Integrative and Applied Learning.*

Prerequisite: MGMT 210; FIN 300 or FIN 320; MKTG 260; junior standing.

MGMT 467, Introduction to Organizational Development and Change, 3 Units

This course comprises a broad survey of major topics in organizational development and change, including but not limited to organizational processes, organizational growth, and organizational climates and cultures. Course material covers historical and contemporary theories and methods of introducing change in organizations, leading change, and the ethical issues involved in organizational change. Students examine the complex issues involved in organizational development and change management, along with the strategies and techniques required to effectively lead change in an organization. Students also explore the role of leadership in change and how leaders effect change, and examine a number of organizational issues including the need for change, why organizations change or fail to change, the legal and regulatory issues associated with change, and how change helps organizations become more competitive and profitable.

Prerequisite: MGMT 210

MGMT 501, Managerial Communication, 3 Units

Management, by definition, is achieving results with and through other people. Therefore, all of the technical and analytical skills in the world are useless unless you can communicate- that is, explain, persuade, and collaborate with others either by writing, interacting one-on-one, or presenting to a group. This course is aimed at equipping students with the necessary techniques and skills of research and communication used to inform others, inspire them and enlist their activity and willing cooperation.

MGMT 502, Developing Management Skills, 3 Units

This course provides an introduction to management skills necessary for the twenty-first century characterized by chaotic, transformational, and rapid-fire change. Scientific evidence demonstrates how management skills are associated with personal and organizational successes. Although management skills are applicable in most areas of your life, this course will focus on work setting management skills to help students improve their own competency in a managerial role.

MGMT 503, Business Strategy: Theory and Practice, 3 Units

This course provides a review of management as an area of theoretical development as well as a field of practice. It comprises classical management theories and modern approaches to organization and business. Main blocks of the course are functions of management, managerial processes and interaction between organizations and their environment. This course includes elements of organizational behavior. Business cases are used as application of theoretical concepts.

MGMT 510, Current Issues in Business and Management, 3 Units

This course examines organizational and behavioral problems facing managers. Students develop an awareness of modern concepts, strategies, and techniques that can enhance organizational effectiveness. Among these subjects are organizational design, personal leadership and delegation, communication, conflict management, and interpersonal perception group dynamics.

MGMT 515, Applied Research and Analysis, 3 Units

Students study research methodology as it relates to needs for research-derived information, with emphasis on the research process in the development of primary and secondary research information, conducting research related to given products or services, and the analysis and evaluation of actual business organizations.

MGMT 516, High-Performance People Management, 3 Units

This course provides students with the social science tools needed to solve organizational problems and influence the actions of individuals, groups, and organizations. It prepares managers to understand how to best organize and motivate the human capital of the firm, manage social networks and alliances, and execute strategic change.

MGMT 517, Managing Human Capital, 3 Units

Students study the establishment of human resource objectives and requirements in an organization. Emphasis is on executive decision making in dealing with formal employee-employer relationships. Collective bargaining, organization of employees, negotiation, and administration of collective bargaining agreements are covered.

Prerequisite: HROD 500 or GNRS 560

MGMT 521, Organizational Development and Change, 3 Units

Students investigate the emerging field of organizational development (OD) - major theories, basic concepts, and primary intervention strategies. Emphasis is placed on diagnosing the relationship between an organization's mission and culture, and facilitating system-wide, planned changes to improve organizational effectiveness.

Prerequisite: MGMT 515 and MGMT 516

MGMT 529, Ethical Decision Making, 3 Units

This course raises students' moral recognition level, provides them with the apparatus to make moral decisions in a business context, and considers ethical problems in business according to Christian principles. Emphasis is placed on the role of the leader in organizations.

MGMT 540, Diversity for Strategic Advantage, 3 Units

This course introduces the major goals, principles, and concepts of multiculturalism with particular emphasis on its impact on organizational effectiveness. It explores the cultural, linguistic, and socioeconomic factors influencing the workplace. This course offers concepts to improve learning and working environments and interaction among employees, businesses, and communities.

MGMT 541, Global Business Management, 3 Units

This course focuses on the environmental and functional differences between U.S. and international business, including exporting, balance payments, strategic planning, organization of multinational firms, international financial planning and cash management, foreign exchange planning, comparative management philosophies, international marketing strategies, incorporation for international operations and external relations of the multinational corporation.

MGMT 551, Leadership in Organizations, 3 Units

This course introduces current literature and theories of leadership. Leadership within organizational settings is examined. Leadership dilemmas and issues are analyzed (e.g., ethics, decision making, power and authority, conflict management). Emphasis is placed on identifying and enhancing leadership in organizational settings.

MGMT 561, Managing Teams and Conflict, 3 Units

This course helps the student understand small-group behavior. It uses experience-based methods, cases, reading material, and simulation, and examines role behavior, group dynamics, conflict control, leadership, and group development. It also addresses motivation and problem solving as essential elements of organizational behavior.

MGMT 570, Organizational Performance Improvement, 3 Units

This course provides an introduction to fundamental concepts and methods of quality and productivity improvement and examination of the OD professional's role in designing and implementing programs to improve quality of products and services. Particular emphasis is placed on understanding the forces that make quality and productivity critical organizational issues.

Prerequisite: MGMT 521

MGMT 577, Global Field Study, 0 Units

This course provides the framework for graduate students to register for and complete a global field study in various countries around the world. During the course, students conduct corporate visits to business firms locally and around the globe to discuss how they apply and practice the business management principles, concepts and theories covered in the graduate curriculum.

MGMT 578, Strategic Management, 3 Units

Taken in a student's last semester, this course explores how to convert executive vision into definitive plans that can be operationally implemented, and provides opportunity for practice and experimentation in strategy formulation and change management. Students use strategy support systems to transition from a change-resistant operational approach to a future-oriented approach characteristic of strategic thinking. Case- and project-based.

Prerequisite: ACCT 512, FIN 513, and MKTG 527.

MGMT 581, Ethical Leadership, 3 Units

This course provides a foundation for two integrative themes: leadership and ethics. Leadership is examined from theoretical and practical perspectives, with an emphasis on servant leadership. An ethical framework for management decision-making is also established and used. Students learn to apply their spiritual gifts, strengths, personality traits, and leadership styles to their leadership contexts.

MGMT 582, Strategic Management in Not-for-Profit, 3 Units

This course offers a study of the strategic management issues which are unique to government and other not-for-profit organizations. Included are: defining characteristics of different types of not-for-profit organizations; convergence of environmental demands on not-for-profit organizations and business firms; power in not-for-profit organizations; multiple stakeholder and stakeholder power; formulation of legitimacy strategy; and success measurement in not-for-profit organizations.

Prerequisite: BUSI 450 or equivalent

MGMT 583, Global Strategic Management, 3 Units

The course explores the main issues that companies and their managers confront when they 'go global' or 'manage globally'. Students gain both theoretical and practical insight into the management of a global organization to appreciate the opportunities, problems (both worldwide and local), and alternative strategies for globalization or localization.

MGMT 595, Special Topics in Management, 1-3 Units

This course presents timely and new topics in management. Different material is covered each time the course is offered. The course may be repeated for credit. Some topics require prerequisites, which vary according to the topic.

MGMT 597, Master's Project in Management, 3 Units

This capstone course involves the implementation and application of management theory. Students participate in a service-learning project for a community-based organization, applying management methodology. Students are expected to complete a master's level research project demonstrating competency in management theory, the individual area of emphasis, as well as faith integration.

Prerequisite: MGMT 521; final semester of MAM program

MKTG 260, Principles of Marketing, 3 Units

Students in this course analyze the movement of goods from producers to consumers, which includes discussion of the channels of distribution, marketing functions, management considerations, and problems in marketing practice. Marketing trends in current economic systems are reviewed.

Meets the General Education Requirement: Intercultural Competence.

MKTG 261, Visual Marketing, 3 Units

This course provides students with a comprehensive overview of the principles and techniques behind visual marketing. Students explore various platforms available to help them effectively reach their target audience through visually engaging methods, and evaluate market trends, use of technology, target audience, and visual communication methods to create a visual marketing strategy. By the end of the course, students are able to identify which approaches are best suited for their projects and how they can use these tools to create compelling visual marketing campaigns.

Prerequisite: MKTG 260

MKTG 262, Consumer Behavior: An Applied Approach, 3 Units

This course involves a comprehensive examination of the nature of markets and the factors influencing market development and change. Students study individual consumer behavior in relation to the buying-selling process, with emphasis on understanding the consumer in order to facilitate the development of an effective marketing strategy. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

MKTG 350, Marketing Internship, 3 Units

This course integrates marketing principles and theory into a working environment related to marketing. Includes research, setting objectives, general marketing decision making, and reflection. *Meets the General Education Requirement: Integrative and Applied Learning.*

Prerequisite: MKTG 260, completion of 60 units, and instructor consent.

MKTG 361, Advertising and Integrated Marketing Communications, 3 Units

Students in this course explore how organizations promote ideas, products, or services through strategic connections with consumers on a variety of digital channels. Grounded in advertising, public relations, and communication, course material covers marketing campaigns and practices that have shaped our history, and how modern organizations build value by using branding, storytelling, publicity, medium utilization, and data analytics to create authentic messaging for specific target audiences.

Prerequisite: MKTG 260

MKTG 363, Marketing Research, 3 Units

This course is an overview and practical application of contemporary methods for gathering, analyzing, and preparing market research for use in management decision making. Research methodology includes specific topic areas as the research process, primary and secondary data, qualitative and quantitative research methods, statistical analysis, and utilization of technology.

Prerequisite: MKTG 260 and MATH 130

MKTG 364, Sales and Sales Management, 3 Units

In this course, consideration is given to personal sales strategies and practices, including relationship management, negotiation, consultative selling, and key account management. The sales management function, including recruiting and selecting salespeople, motivation and training, compensation plans and quotas, supervising, sales forecasting and budgeting, salesforce evaluation, and the ethics in selling and sales management is covered.

Prerequisite: MKTG 260 or instructor consent

MKTG 368, Retail Management, 3 Units

Students explore the roles and scope of retailing business, characteristics of retailers and consumers, and strategies for managing operations. Course material emphasizes retailing characteristics and activities, multichannel opportunities, retail communication mix, consumer buying behavior, retail market strategy (including location and site strategy), product mix, store layout, merchandising, competition, pricing, and promotion. This course also introduces students to procurement and supply chain logistics, customer relationship management, operations, and employee management. Students in this course have the opportunity to earn a retail management microcredential.

Prerequisite: MKTG 260

MKTG 369, Global Industrial Marketing, 3 Units

Students learn the marketing of business goods by manufacturers to other businesses, government agencies, and social institutions. The course consists of market analysis, sales forecasting, product strategy, effective use of sales force, and industrial promotional planning and implementation. Extensive quantitative techniques are utilized.

Prerequisite: MKTG 262, MKTG 363

MKTG 373, Global Marketing Management, 3 Units

This course is an overview of international marketing and considers the powerful economic, technological, industrial, political, and demographic forces that are converging to build the foundation of a global marketplace in a dynamic and ever-changing world. Students conduct projects involving international marketing.

Prerequisite: MKTG 260 and BUSI 370

MKTG 376, Strategic Brand Management, 3 Units

This course introduces students to the essential concepts of strategic brand management. It provides an in-depth exploration of how brands are created, positioned, and leveraged for maximum market advantage. Through the perspective of customer-based brand equity, students learn about influencer marketing, digital platform brands, social listening, attribution modeling, and marketing to bicultural consumers. Upon completion of this course, students are able to demonstrate a comprehensive understanding of the principles and techniques used in today's competitive marketing environment.

Prerequisite: MKTG 260

MKTG 378, Contagious Marketing, 3 Units

Students in this course gain a comprehensive understanding of the strategic methods that organizations employ to promote their products, services, or ideas in the digital age. Course material covers various channels used for connecting with consumers, such as advertising, public relations, and other communications. Students explore the historical and current practices of contagious marketing campaigns, focusing on how organizations build value through branding, storytelling, publicity, and medium utilization. By the end of the course, students have a deep understanding of the principles and practices of contagious marketing and are equipped with the skills needed to create effective campaigns.

Prerequisite: MKTG 260

MKTG 465, Strategic Marketing Management, 3 Units

This course offers a strategic approach to the management of the marketing function. As the capstone course for marketing majors, students utilize marketing case analysis to examine and evaluate the entire marketing decision-making process. Course content focuses on the strategic analysis of market opportunities and the development of the marketing mix through project coursework.

Prerequisite: MKTG 262, MKTG 361

MKTG 466, Digital and Social Media Marketing, 3 Units

Within an organization's strategic and business objectives, digital marketing leverages traditional marketing, utilizing essential digital marketing tools such as online branding, display advertising, social media marketing, and search engine optimization. Content in this course emphasizes the development of digital marketing strategies and programs for an organization, and students have the opportunity to earn an industry-recognized Hootsuite certificate in social media and social media marketing management.

Prerequisite: MKTG 260

MKTG 502, Marketing Principles, 3 Units

This course focuses on understanding marketing management, formulating and implementing marketing strategies, and provides a systematic framework for marketing planning, analysis and evaluation. The characteristics and management of markets are described in topics that include the marketing environment, components of the marketing mix, market segmentation, positioning and targeting.

MKTG 515, Marketing Research, 3 Units

This course prepares students to approach marketing research from a management perspective. The role of marketing research process, the human side of marketing research, and organizational and ethical issues are discussed. Students utilize comprehensive cases and analysis, along with a marketing research project.

Prerequisite: MKTG 527 and BUSI 511

MKTG 527, Marketing Strategy, 3 Units

This course offers in-depth management, analysis, and decision-making resources related to marketing strategy, including environmental turbulence, competitive analysis, customer and market analysis, product life cycle analysis, and marketing mix management. Course material is primarily case-based.

Prerequisite: ACCT 512 and FIN 513

MKTG 545, International Marketing, 3 Units

International marketing is the performance of business activities that direct the flow of a company's goods and services to consumers or users in more than one nation. The elements of the marketing mix (product, price, promotion, and place-channels of distribution) first studied in domestic marketing are analyzed in global terms, thus adding the elements of geography, cultural forces, and the structure of distribution to the uncontrollables with which the marketer must contend.

MKTG 565, Integrated Marketing Communications, 3 Units

In this course, the marketing communication function is introduced and analyzed. Topics include advertising theory, planning and measurement, communication theory, the integrated marketing communication (IMC) mix, promotional strategies, public relations and publicity, consumer education, collateral materials planning, and promotional ethics.

MKTG 580, Strategic Digital Marketing, 3 Units

This course discusses the differences between E-commerce and E-business in relation to the firm, emphasizing the correlation between business, technology, and society. An advanced marketing course, it builds on the firm's business model, which guides its traditional and dynamic online marketing presence. Emphasis is placed on the importance of the Christian worldview and community citizenship, and on developing a positive long-term relationship with customers and stakeholders, thereby creating a distinct competitive advantage for the firm. Student projects integrate learning activities with business organizations.

OPSY 501, Introduction to Organizational Psychology, 3 Units

This course is an introduction to the field of industrial/organizational (I/O) psychology, providing an overview of the fundamentals and the various subfields of the discipline. Special consideration is given to topics that integrate the application of psychology to organizational environments. Coursework covers the history of I/O psychology, offers a comparative review of topics within industrial psychology and organizational psychology, and helps students gain a fundamental understanding of employee selection, training, motivation, job satisfaction, communication, group behavior, and stress management. The course also includes a review of the organizational psychology literature as well as ethics guidelines and professional standards governing the practice of organizational psychology.

Prerequisite: Acceptance into the MS in Organizational Psychology program

OPSY 502, Organizational Ethics, 3 Units

Students in this course examine psychological phenomena that help explain why people who want to act ethically in organizations often do not act in accordance with their values. Course material also helps students understand how cognition, affect, and behavior interact, so they can better navigate ethically challenging situations. Ethical issues in organizational contexts are examined in light of biblical values and the American Psychological Association's Ethical Principles of Psychologists and Code of Conduct.

Prerequisite: Acceptance into the MS in Organizational Psychology program

OPSY 503, Group and Organizational Behavior, 3 Units

This course offers a behavioral science approach to organizational life and enables students to investigate the effective functioning of individuals and groups within organizational settings. Emphasis is on the psychology of teams, team dysfunction, group conflict, and organizational culture. This course applies theoretical concepts to challenges such as team dynamics, conflict, decision making, and organizational behavior patterns.

Prerequisite: Acceptance into the M.S. in Organizational Psychology program; successful completion of OPSY 501 is recommended.

OPSY 505, Individual and Team Assessment, 3 Units

Students receive instruction and training in individual assessment techniques for vocational and business applications, including pre- and postemployment assessment for selection, onboarding training, advancement, developmental or remedial coaching, and succession planning. Students are introduced to qualitative and quantitative assessment methods as key tools for leadership assessment; learn the importance of assessment in organizational and leadership dynamics; and gain competency in the use of several key assessment methods and instruments and learn to apply these instruments to leadership development within work team environments. Students are also introduced to job analyses and use measurement tools relevant for assessing occupational interests, abilities, competency modeling, and work-related personality constructs. Students also complete several individual assessments as part of the experiential, outside-of-class portion of the course.

Prerequisite: Acceptance into the MS in Organizational Psychology program

OPSY 510, Organizational Assessment and Interventions, 3 Units

This course introduces interventional strategies that correspond to the primary issues related to organizational life: change management, organizational culture, and leadership and team dynamics. Students gain competency in focusing on these critical areas of assessment and intervention: qualitative method, conducting needs analysis, proposing consultation projects, and employee assistance programs. Students also become familiar with research methodologies related to existing programs and successful programs within companies.

OPSY 515, Coaching Techniques and Application, 3 Units

Students in this course examine theories and practices within the fields of psychology, organizational behavior, business, and other relevant fields as they relate to the practice of executive coaching. They also explore coaching competencies, professional ethics, and models of executive coaching, and are introduced to a repertoire of basic coaching skills applicable to most executive coaching situations (e.g., self-awareness, empathy, listening, questioning, giving and receiving feedback, confrontation, limit setting, demonstrating leadership, etc.).

OPSY 520, Consultative Applications of Organizational Psychology, 3 Units

This course covers the applied aspects of organizational psychology, providing an overview of the consulting process as it relates to external and internal consultation in industry. Students are introduced to the theoretical and practical aspects of providing organizational consultation, with special consideration given to topics that integrate the competencies needed for applying psychology to organizational environments. Coursework provides an overview of organizational consulting models and frameworks, and focuses on the fundamental steps in the consulting process that lead to high-impact outcomes. The course also includes a review of the organizational psychology literature, as well as ethics guidelines and professional standards governing the practice of organizational psychology.

Prerequisite: Acceptance into the M.S. in Organizational Psychology program, and successful completion of OPSY 501.

OPSY 534, Organizational Systems: Theories of Change, 3 Units

This course engages the idea of organizational change from a systems perspective and approaches content through analysis of theory, praxis, and story. Practical application is explored in regard to how students can and will be equipped to serve as change agents in internal and external consultant roles. Special attention is given to the specific steps involved in identifying the need for change, engaging internal and external stakeholders in the change process, and implementing desired change initiatives.

OPSY 542, Organizational Implications of Diversity, 3 Units

This course explores theoretical and practical ideas about diversity in organizations, equipping students to identify and engage individual, societal, and organizational dynamics related to 21st century workplace diversity and inclusion. Students learn about basic psychological processes-including attitudes toward marginalization, structural inequity, privilege, and prejudice-that affect how members of different social groups perceive and interact with one another in organizational settings. Students also engage critical perspectives on the historical, sociocultural, and psychological factors of organizational diversity, explore the ethical implications of navigating complex organizational cultures, and discuss strategies for fostering and sustaining diversity.

Prerequisite: Acceptance into the MS in Organizational Psychology program

OPSY 590, Statistics for Research in Organizations, 3 Units

This course introduces students to the basic concepts of statistical ideas and methods, equipping them to carry out common statistical procedures and follow statistical reasoning for research in workplace phenomena. Principles of measurement, data summarization, and univariate and bivariate statistics are examined. Emphasis is on the application of fundamental concepts to real-world situations.

Prerequisite: Acceptance into the MS in Organizational Psychology program

OPSY 592, Research Methodology and Survey Applications, 3 Units

Students in this course learn quantitative research techniques of investigation and apply them to psychological activities in organizations. Students also learn principles of survey design. A final project includes developing and administering a psychometrically valid survey for an organization, with students analyzing the data and providing a report of the results.

Prerequisite: OPSY 590

OPSY 595, Introduction to Thesis in Organizational Psychology, 4 Units

This course gives student researchers a directed study focused on preparing a master's thesis in organizational psychology. Students identify a worthy research topic, write a comprehensive literature review, select an appropriate research method, and shape a compelling research proposal.

Prerequisite: OPSY 501, OPSY 502, OPSY 503, OPSY 505, OPSY 510, OPSY 515, OPSY 520, OPSY 534, OPSY 542, OPSY 590, OPSY 592, and permission from the department chair.

OPSY 596, Thesis in Organizational Psychology: Data Collection and Analysis, 4 Units

This course gives student researchers a directed study focused on completing a master's thesis in organizational psychology. Building on the research proposal completed in OPSY 595, students collect and analyze data and present their findings in the form of a completed master's thesis and oral presentation to the thesis committee.

Prerequisite: OPSY 595

PADM 350, Theory and Practice of Public Administration, 3 Units

This course provides a detailed overview of the theoretical foundation for managing and operating federal, state, and local government agencies and nonprofit organizations. Public administrators interact with politicians, community stakeholders, businesses, and voters to achieve the public good, and students in this course examine the role of public administrators through texts, scholarly articles, discussion questions, application to real-world case scenarios, guest speakers, and online coursework.

PADM 355, Environmental Economics, 3 Units

Students in this course apply economic perspectives and analytical tools to the study of environmental problems, focusing on the effects of business activities on the environment and the effects of environmental policy on business.

Prerequisite: ECON 200

PADM 356, Labor Economics, 3 Units

This course covers the allocation of labor in a society among its various possible uses. Students consider the role of markets in allocating this labor, issues of market power, and the role of government policy in accomplishing social objectives. Wage determination, job search, and labor productivity are also discussed.

Prerequisite: ECON 200

PADM 357, Economics of the Developing World, 3 Units

This course introduces students to the economic and social issues confronting the majority of people in the world. Students survey the current conditions of people in the developing world and build ways of understanding the complex issues these people face. Using these tools, students examine economic and financial infrastructure, political conditions, levels and trends in poverty and income distribution, job creation and economic growth, health and education, and environmental conditions, which all affect the state of "development" of a people.

Prerequisite: ECON 200

PADM 359, Urban and Regional Economics, 3 Units

This course combines the disciplines of economics and geography. Economic interactions among individuals, firms, and governmental units are analyzed geographically by focusing on central cities, suburbs, and outlying regions. Within this urban and regional context, this course places particular emphasis on market forces, land use, transportation, crime, housing, and local government. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

Prerequisite: ECON 200

PADM 375, Program Implementation and Evaluation, 3 Units

This course details the rationale for public programs authorized and managed by public agencies and nonprofit organizations. Public policies and management principles applied to the administration of programs are examined using the course textbook, course reader, online discussion Q&A, digital media, and assigned online coursework. *Meets the General Education Requirement: Integrative and Applied Learning.*

PADM 399, Public Administration Practicum, 6-8 Units

This course offers fieldwork internship opportunities in local, state, and federal government internships and practicums. A fieldwork opportunity is chosen by the student in consultation with the Public Administration faculty director. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

PADM 501, Origin of Public Administration, 3 Units

In this introductory course for preservice and midcareer individuals, students learn the theory and practice of public administration. Course material includes an exploration of ethical dilemmas influencing the daily tasks of public administrators, with an emphasis on the core public administration values of accountability, integrity, and leadership and evidence-based decision making for effective and efficient public policy program implementation. Coursework involves textbooks, lectures, discussions, and case studies of application to professional settings to assist managers with problem solving and promote responsive, faithful service that helps vulnerable and diverse populations in our communities.

PADM 502, Organizations and Behavior, 3 Units

Students in this course review public management research, theories, and perspectives that help practitioners assess the issues and challenges of working with people, technologies, and policies to accomplish goals. Students also critique modern public management strategies and behaviors to solve real-world problems. Instructional materials are interdisciplinary (psychology, public administration, political science) and include articles, cases, electronic resources, student experiences, and collaborative discussions to analyze, develop, and communicate ethical evaluative skills that promote management solutions aligned with the values of APU's Four Cornerstones.

PADM 503, The Policy Process, 3 Units

This course offers an in-depth study of the public policy process (analysis, promulgation of statutory laws and administrative rules) and value-based implementation. Public administrators in public, nonprofit, and private organizations must interact with political leaders, administrative staff, and diverse community groups to ensure the implementation of necessary policy programs and services, and that these are accessible to people in need. Coursework involves textbooks, scholarly materials, lectures, discussions, and case assignments.

PADM 504, Economic and Urban Development, 3 Units

This course prepares students for public-sector organization management. Students learn about community development programs, municipal budgeting and expenditures, grants administration, joint powers agreements, public-private partnerships, nonprofit organizations, fiscal management policies, and county, state, and municipal government economic development programs.

PADM 505, Public Sector Research Methods, 3 Units

This course is for preservice and midcareer professionals who use research and data as evidence in public administration to advocate for resources, make effective ethical leadership decisions, and implement and evaluate programs. The importance of research in the policy implementation process and in programs run by public and nonprofit managers is examined.

Prerequisite: MGMT 516, PADM 501, PADM 503, and PADM 504.

PADM 506, Ethical Leadership and Management, 3 Units

This course helps leaders in public, nonprofit, and private organizations sharpen their leadership skills. Emphasis is on strategies and tactics used daily by management professionals tasked with achieving agency mission and goals for the common good. Analytical and critical thinking skills are improved by evaluating principles, theories, and best practices for leading and collaborating with diverse community stakeholders. Course materials (discussions, research, lectures) and case studies of real-world problems emphasize strategies, theories and tactics used daily by faithful, efficient and effective management professionals and community leaders.

PADM 510, U.S. Healthcare System, 3 Units

Students in this course examine the American healthcare system, which supports individuals and families regardless of their ability to pay. Students discuss public health systems and federal, state, county, and municipal government systems management, and explore alternatives and improvements to current health administrations while reflecting on their faith traditions as they apply to advancing healthcare practice. This course also provides an overview into the publicly funded California healthcare system, one of the largest and most diverse systems in the United States. This system comprises only 6 percent of the state's hospitals but provides more than 40 percent of hospital care to the uninsured.

PADM 511, Federal Health Insurance Policy (Implementation and Administration) [Proposed], 3 Units

CalPERS is the nation's largest public pension fund and serves more than 1.9 million members in the retirement system and 1.5 million members in their health care program. Course provides detailed discussion and instruction about CalPERS and public pension programs are examined using course textbook, journal articles, lecture discussion examples, Q&A discussion board assignments and assigned online coursework.

PADM 512, Healthcare Administration, 3 Units

This course covers the foundations of healthcare administration in the United States, introducing students to the structure and function of the healthcare system. Topics include theory and models of healthcare administration, public policy impacts and scarcity, partnerships and achieving equality in healthcare governance at the national, state, and local levels, community environments, and critical issues in health services. Students explore Christian faith-based alternatives for alleviating healthcare burdens, and conduct a community health system analysis.

Prerequisite: Admitted to MPA or M.S. in Healthcare Administration program, Nursing, MBA/MBM Program or permission of MPA director.

PADM 513, Community Health and the Built Environment, 3 Units

The course provides a foundation for administering health and well-being in state and local communities. Students integrate knowledge-based competencies from multidisciplinary research (CAHME, APHA, public policy studies) and apply best practices to assess and suggest policies that can reduce healthcare problems in vulnerable communities. Topics covered include ideas for building healthy environments, demographics of infectious diseases and essential skills for future healthcare professionals. Students conduct a community healthcare system analysis that integrate case studies, audiovisuals, discussions, team assignments and faith-based alternatives to alleviate healthcare burdens.

Prerequisite: Admitted to MPA or MS in Healthcare Administration program, Nursing, MBA/MBM Program or permission of MPA director.

PADM 514, Nonprofit Storytelling, 3 Units

Framing the message to communicate the mission and goals is essential for diversity, inclusion, and social impact work. Public-sector organizations find value using compelling communication techniques such as social/digital (PADM 515) and emergent technologies of storytelling and storyboards popular in the nonprofit sector. Nonprofits experience challenges communicating program policy issues to citizens, but capturing personal experiences and creating storyboards provides evidence of organizational impact in the community that statistics cannot. This online course focuses on nonprofit storytelling as a communication practice to engage vital stakeholders, fortify strategic alliances, and participate in the public policy making process at the national and local levels. Course material includes discussions, literature materials, case studies, and real-world activities.

PADM 515, Social/Digital Media and the Public Sector, 3 Units

Social media is a contemporary and pervasive communication technology that leaders in the public sector often use to facilitate interaction with the public - to inspire with lifestyle brands, create and build professional brands, and promote diversity and inclusion in public policy making. Concerns about social/digital media as a communication technology include openness in government, protecting privacy, and building relationships. This course focuses on using social/digital technologies (e.g., Google Hangouts, Twitter, Facebook, town halls, and public policy hearings) to expedite citizen input for potential action. Course materials include texts and audiovisuals, case studies with tips for influencing outcomes, and references to students' faith traditions, all designed to improve public practice.

PADM 518, Public-Private Partnerships, 3 Units

This course provides an overview of public-private partnerships (P3) essential to maintaining the national, state and local governments' infrastructure. Governments build relationships with businesses to provide critical services as public safety, welfare, healthcare, education and economic development projects. Students gain knowledge about the risk, structure, and finance of P3 projects to effectively lead and manage agreements. Through case studies of best practices, students can explore innovative ways to build and sustain public-private relationships used in regional and national situations.

PADM 521, Nonprofit Collaborations with Governments, 3 Units

Students in this course explore concerns voiced at state and local governments to improve public service delivery for community development, utilizing the trend toward collaborative policies and resources that can strengthen nonprofit innovations to benefit communities. Governments cannot solve state and local problems alone, so there has been a trend toward collaborative policies and resources that can strengthen nonprofit innovations to benefit communities. Students recognize that public well-being initiatives to protect social, political, administrative, economic, and cultural rights are best served by leveraging nonprofit strengths and community relationships. Course readings, audiovisuals, and case learning materials combine with student faith traditions to help improve nonprofit leadership.

PADM 522, Geographic Information Systems (GIS) in the Public Sector, 3 Units

This introductory course equips preservice and midcareer individuals with the geographical and spatial intelligence and skills required in most public administration positions. Knowledge of data analysis and of relationships (size, shape, and location) between geographic points of interest are powerful tools to help with descriptive analysis and planning in the social environment. Students acquire the basic geographic information systems (GIS) tools for analyzing, describing, and managing programs essential to public health, environmental science, criminal justice, and business as well as public administration.

PADM 532, Business Finance for Managers, 3 Units

This course provides an introduction to concepts and tools of business finance for managers. Students study financial statements and their interpretation, business performance measures, the management of cash and the short-term financial needs of the organization, and how to make good capital budgeting decisions. Students also analyze company performance and make recommendations by applying class content to financial issues.

PADM 533, Business Strategy: Theory and Practice, 3 Units

This course provides a review of management as an area of theoretical development as well as a field of practice, and covers classical management theories and modern approaches to organization and business. Main blocks of the course are functions of management, managerial processes, and interaction between organizations and their environment. Course material includes elements of organizational behavior, and business cases are used for application of theoretical concepts.

PADM 537, Managing Human Capital, 3 Units

Students in this course study the establishment of human resource objectives and requirements in an organization, with emphasis on executive decision making in dealing with formal employer-employee relationships. Collective bargaining, organization of employees, negotiation, and administration of collective bargaining agreements are covered.

Prerequisite: HROD 500 or GNRS 560

PADM 542, Developing Management Skills, 3 Units

This course provides an introduction to management skills necessary for a 21st century characterized by chaotic, transformational, and rapid-fire change. Scientific evidence demonstrates that management skills are associated with personal and organizational successes, and although management skills are applicable in most areas of life, this course focuses on work setting management skills to help students improve their own competency in managerial roles.

PADM 550, Accounting for Nonprofit Entities, 3 Units

Students in this course examine how nonprofit organizations measure financial performance and how they differ from for-profit organizations. Students also explore accounting principles and practices for nonprofit organizations including churches, hospitals, and health and welfare organizations. Students assess nonprofit and for-profit organizations that receive government assistance in the form of contracts, guaranties, grants, or assistance that may be subject to federal audit requirements. Other topics include ethical examination of accounting decisions, and the general characteristics and operational environment of nonprofit organizations, as well as the application of generally accepted standards, principles, and practices.

PADM 551, Government Financial Management, 3 Units

This course covers the principles of public financial accounting and follows the Association of Government Accountants (AGA) Certified Government Financial Manager (CGFM) exam structure, which focuses on three modules: governmental environment and accounting; financial reporting and budgeting; and governmental financial management and control. Students taking this course are required to use AGA's CGFM study guide materials (which are purchased by the university) and take all three CGFM exams.

PADM 565, Integrated Marketing Communications, 3 Units

In this course, the marketing communication function is introduced and analyzed. Topics include advertising theory, planning and measurement, communication theory, the integrated marketing communication mix, promotional strategies, public relations and publicity, consumer education, collateral materials planning, and promotional ethics.

PADM 594, Emerging Trends in Information Technology, 3 Units

This course, intended for students without a background in information technology (IT), surveys current topics in IT and their impact on business, management, organizations, and society. Course topics include business intelligence, cybersecurity, business analytics, social networks, data visualization, agile software development, and business process management. Students develop an understanding of how organizations can utilize technologies, get hands-on skill development using real-world tools and deliverables, and explore management and organizational issues associated with technological change.

PADM 595, Special Topics in Public Administration, 3 Units

Studying new trends and new governance in public administration enables student practitioners to consider administrative pillars such as efficiency, effectiveness, social justice and the economy in a contemporary way. The course focus is to enhance leadership and management skills as faithful (moral behaving) public servants as students review and discuss recognized and innovative strategies applicable to a variety of job settings.

PADM 599, Readings in Public Administration, 1-3 Units

This course is an independent study vehicle through which students and their sponsoring faculty members may pursue approved investigations beyond those provided within regular course offerings.

PADM 600A, Community Engagement, 3 Units

This course and PADM 600B Public Administration Capstone are the final courses in the Master of Public Administration (MPA) program. Students in this course participate in activities in diverse communities, identifying trends and issues facing public leaders and thereby enhancing student practice. In consultation with the MPA program director, students participate in fieldwork experiences, learning to apply faith-based principles, theories, and problem-solving strategies in public, nonprofit, and joint-venture partnerships, which also benefits community partners.

Prerequisite: Second-year good standing in the MPA program.

PADM 600B, Public Administration Capstone, 3 Units

The capstone comes at the conclusion of the MPA program and requires application of new knowledge to solve real-world problems. Students demonstrate mastery of foundational management and policy implementation materials and integrate ethical and moral standards, as well as professional experiences, that are at the core of the MPA program. With guidance from the program director and the course instructor, students work with a community partner or client (fieldwork course PADM 600A) to produce a project paper that represents careful planning, research, and fulfillment of course deliverables. Successful completion of PADM 600A and PADM 600B is required for the MPA degree.

Prerequisite: Second-year good standing in the MPA program.

PRBA 110, Business and Entrepreneurship, 3 Units

This course introduces students to the role of business in society and the impact of the social environment on the firm. It acquaints students with the basic functional areas of business, including management, human resources, marketing, finance, and production. Students produce a comprehensive business plan incorporating the functions of business and examining the effect of the business on society. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

PRBA 111, Business Statistics, 3 Units

Students in this course learn basic statistical concepts and methods of collecting, summarizing, presenting, and interpreting data for the business context. Among the topics covered are differentiation, population, sample, descriptive statistics, variation and skewness, exploratory data analysis with visuals, probability, random variable, sampling distribution, central limit theorem, discrete distributions (binomial, Poisson), continuous distributions (normal, t, exponential, chi-square), confidence interval estimation, hypothesis testing, correlation, regression, and the analysis of variance (ANOVA), to be applied in real-world business situations. *Meets the General Education Requirement: Quantitative Literacy (Math).*

Prerequisite: MATH 90 or an appropriate score on the APU mathematics placement assessment.

PRBA 120, Principles of Accounting I, 3 Units

This course introduces the financial accounting model and application of fundamental accounting principles. The corporate form of business serves as the primary model to demonstrate accounting principles for cash, accounts receivable, inventories, operational assets, liabilities and stockholders' equity.

PRBA 121, Principles of Accounting II, 3 Units

This course introduces basic managerial accounting concepts and emphasizes the use of accounting data in decision making. Topics covered include cost accumulation models, cost behavior, break-even analysis, variable costing, budgeting, differential analysis, product pricing, capital expenditure analysis, and financial statement analysis.

Prerequisite: PRBA 120

PRBA 125, Business Communications, 3 Units

Students in this course explore current communication technologies and strategies in the modern marketplace to create and deliver audience-focused informative and persuasive messages using credible research, impactful visuals, and professional vocal and physical techniques delivered orally. Students are given scenario-based challenges often encountered in organizational settings and business situations, to help them determine the extent of information needed when communicating with key stakeholders, researching and utilizing credible support materials ethically, organizing information logically, and delivering messages through professional presentations using appropriate visual aids, graphics, posture, gesture, eye contact, and vocal expressiveness. *Meets the General Education Requirement: Oral Communication.*

PRBA 200, Survey of Economics, 3 Units

This course covers the concepts and tools of economic analysis for microeconomics and macroeconomics. Students study the basics of interactions between firms and consumers: consumer demands, firm costs, price determination under various market structures, and the role of government in a market economy. Students also study the fundamentals of national income and economic growth, interest rates, unemployment, and government fiscal and monetary policies. *Meets the General Education Requirement: Social Science.*

PRBA 210, Principles of Management, 3 Units

Elements of planning, organizing, leading, and control are covered. Particular emphasis is given to organizing and actuating responsibility and authority, delegation, decentralization, the role of staff, line-staff relationship committees, board of directors, organization charting, formal and informal organization, communication, and reaction to change.

PRBA 211, Organizational Leadership, 3 Units

This course covers contemporary theories, principles, and practices of leadership within the context of managing businesses and organizations, introducing leadership topics such as change management, leadership development, and organizational communication. Students also explore the emerging concept of followership and the role it plays in organizational failures and successes. Significant attention is given to students' personal assessment and evaluation of their personality, strengths, leadership styles, and work, in order to establish a leadership and management identity. *Meets the General Education Requirement: Social Science.*

PRBA 212, Managing Diverse Teams and Groups, 3 Units

This course covers essential theories and concepts for analyzing, understanding, and managing various groups and teams in the workplace. Students examine the components that comprise teams, develop skills in diagnosing opportunities and threats that teams face, and build teamwork expertise. Significant time is spent exploring interpersonal processes, conflict resolution, and the many characteristics that influence the effectiveness of a team. This course also gives students an understanding of team diversity - the differences that can exist between individual members, in various areas such as age, nationality, religious background, functional background or task skills, sexual orientation, political preferences, and communication and decision-making styles, among others. *Meets the General Education Requirement: Social Science.*

Prerequisite: PRBA 210

PRBA 213, Negotiation Strategies and Skills, 3 Units

Students in this course learn the basics of negotiation, then research and explore additional techniques that help them establish alternative criteria to expand and build upon their bargaining style. Each student is assessed on negotiating style, role playing, principled negotiation, and information gathering. Emphasis is on topics related to negotiations in a business context.

PRBA 240, Introduction to Information Systems and Business Applications, 3 Units

This course covers the fundamentals of business information systems, methods, equipment, processes, computer characteristics, and concepts. Students also examine the ethical use of information, information systems, and business applications, and learn to use business applications Formstack, QuickBooks, and Salesforce, with opportunities to earn an Expert Badge in Formstack and ProAdvisor Badge in QuickBooks.

PRBA 244, Data Analytics, Spreadsheets, and Data Visualization, 3 Units

Integrating knowledge gained in PRBA 240, students gain hands-on experience in analyzing, managing, and reporting data in the business world, and use advanced statistical tools to frame business decisions for operations, finance, forecasting, etc. Students learn data applications of Microsoft Excel, Data Studio, and Tableau, and also have the opportunity to earn an Expert Badge in Excel.

Prerequisite: PRBA 240

PRBA 250, Principles of Macroeconomics, 3 Units

This course introduces concepts and tools of economic analysis for macroeconomics. Students study national income and economic growth, interest rates, unemployment, and government fiscal and monetary policies. *Meets the General Education Requirement: Social Science.*

Prerequisite: C- or better in PRMA 110 or 60 or higher on ALEKS math placement assessment.

PRBA 251, Principles of Microeconomics, 3 Units

This course provides an introduction to concepts and tools of economic analysis for microeconomics. Students study the interactions of firms and consumers: consumer demands, firm costs, price determination under various market structures, and the role of government in a market economy.

Prerequisite: C- or better in PRMA 110

PRBA 260, Marketing Principles, 3 Units

This course provides an introduction to the theory and practical application of marketing principles by examining concepts related to understanding, reaching, and responding to customers.

PRBA 296, Business Law, 3 Units

The course introduces the laws affecting business transactions. Included is an overview of the legal system as it relates to business and in-depth study of contracts, sales and commercial transactions, and secured transactions.

PRBA 300, Business Finance for Managers, 3 Units

This course provides an introduction to concepts and tools of business finance for managers. Students study financial statements and their interpretation, business performance measures, the management of cash and the short term financial needs of the organization, and how to make good capital budgeting decisions.

Prerequisite: PRBA 120, BBA Majors only

PRBA 305, Operations Management, 3 Units

In this course, students learn about operations and productivity, operations strategy in a global environment, project management, forecasting, design of goods and services, quality management, process strategy, location strategies, layout strategies, job design and work management, supply chain management, inventory management, aggregate planning, materials requirements planning, scheduling, lean operations, and maintenance and reliability.

PRBA 313, Introduction to Supply Chain Management and Logistics, 3 Units

This course covers the formulation and implementation of logistics and supply chain strategy for competitive advantage, including analysis of logistics capabilities, enhancement of strategy-supportive capabilities, and integration with strategically chosen supply chain partners.

Prerequisite: PRBA 305

PRBA 314, Supply Chain Sourcing [Proposed], 3 Units

This course introduces students to supply chain sourcing. Students learn how to build and manage supply chains including leveraging supply chains to ensure a steady flow of inputs and supplies to the organization. Course projects include managing supply chains, building alternatives for resilience, and strategic sourcing and procurement.

PRBA 315, Business System Analytics, 3 Units

This course introduces fundamental concepts and methods of business analysis (or analytics) and examines the role of managers in qualitative and quantitative analysis designed to foster efficient and effective operations of an organization. Emphasis is on understanding the tools and techniques needed for a successful manager in a global organization in the 21st century.

PRBA 317, Quality Management, 3 Units

This course introduces fundamental concepts and methods of quality management and productivity improvement, and examines the role of managers in designing and implementing programs to improve quality of products and services. Emphasis is on understanding the forces that make quality and productivity critical organizational issues. Student ability to implement quality-management tools, techniques, and processes is demonstrated.

PRBA 320, Intermediate Accounting I, 3 Units

This course offers an intensive study of the accounting theory and principles underlying financial accounting. Emphasis is placed on the theoretical and conceptual framework of the financial reporting process, including the role and authority of official accounting pronouncements and the responsibilities of professional accountants. This course begins with a review of the accounting model and covers accounting theory as it relates to revenue recognition, current assets including cash, accounts receivable, inventories, and current liabilities.

Prerequisite: PRBA 121

PRBA 321, Intermediate Accounting II, 3 Units

This course offers an intensive study of the accounting theory and principles underlying financial accounting. Emphasis is placed on the theoretical and conceptual framework of the financial reporting process, including the role and authority of official accounting pronouncements and the responsibilities of professional accountants. This course begins with a review of the accounting model and covers accounting theory as it relates to current assets including cash, accounts receivable, inventories, and current liabilities.

Prerequisite: PRBA 320

PRBA 361, Integrated Marketing Communications, 3 Units

Students explore the variety of strategic approaches organizations use in the digital age to connect with consumers and promote ideas, products, or services. Grounded in advertising and public relations communication, course material covers marketing campaigns and practices that have shaped our history, and how today's organizations build value by using branding, storytelling, publicity, medium utilization, and data analytics to create authentic messaging for specific target audiences. Students in this course will have the opportunity to earn an Integrated Marketing Communication Expertise micro-credential badge.

Prerequisite: PRBA 260 or MKTG 260, or approval of department chair

PRBA 364, Sales and Sales Management, 3 Units

In this course, consideration is given to personal sales strategies and practices, including relationship management, negotiation, consultative selling, and key account management. The sales management function, including recruiting and selecting salespeople, motivation and training, compensation plans and quotas, supervising, sales forecasting and budgeting, salesforce evaluation, and the ethics in selling and sales management is covered.

Prerequisite: PRBA 260 or instructor consent

PRBA 368, Retail Management, 3 Units

Students explore the roles and scope of retailing business, characteristics of retailers and consumers, and strategies for managing operations. Course material emphasizes retailing characteristics and activities, multichannel opportunities, retail communication mix, consumer buying behavior, retail market strategy (including location and site strategy), product mix, store layout, merchandising, competition, pricing, and promotion. This course also introduces students to procurement and supply chain logistics, customer relationship management, operations, and employee management. Students in this course have the opportunity to earn a retail management microcredential.

Prerequisite: PRBA 260

PRBA 370, International Business, 3 Units

This course presents a survey of issues in international business, with focus on managing in an international environment, understanding the global monetary system, and developing an international perspective on business operations including production, marketing, finance, and human resources.

Meets the General Education Requirement: Intercultural Competence.

Prerequisite: PRBA 210

PRBA 445, Human Resource Management, 3 Units

Students study the human factors in modern business as they are influenced by and effect labor-management interactions, personnel relations, techniques, and procedures.

Prerequisite: Acceptance into the School of Business and Management.

PRBA 448, Organization and Administrative Behavior, 3 Units

Organizational behavior is an interdisciplinary field drawing from psychology, sociology, economics, organization theory, statistics, and other areas. In this course, students gain an understanding of the field and the various research strategies involved as they examine human behavior in organizations, as well as individual, group, and organization-level processes that impact workplace behavior and organizational life. Students are exposed to organizational behavioral science theories and their applications in different management settings and types of organizations, and have an opportunity to engage in experiential and skill-building activities, apply conceptual frameworks in community settings, and develop strategies for increasing stakeholder and civic participation. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

Prerequisite: PRBA 210

PRBA 450, Strategic Management, 3 Units

This course focuses on fundamental decisions in the life of a business: What is the business, and what should it be? What are the objectives? How are priorities set? How are strategic, long-range decisions to be handled? To grow or not to grow-and what is the right size for the business? *Meets the General Education Requirement: Integrative and Applied Learning.*

Prerequisite: PRBA 210, PRBA 300, and Senior Status.

PRBA 466, Digital Marketing, 3 Units

This course helps students understand the latest concepts in digital marketing to apply to organizations. Upon completion of the course, students earn two certifications from Hootsuite, a global leader in social media management - Social Media Marketing and Fundamentals (Analytics) - and students' names are added to a global database of certified specialists.

Prerequisite: PRBA 260

PRBA 495, Writing 3: Business Ethics, 3 Units

This course focuses on the integration of Christian faith, ethical issues, and professional concerns that confront business professionals in the workplace, with particular regard to leadership and transitions. Students in this course explore biblical and moral principles as related to real-life case studies, and have the opportunity to complete in-depth study in a business-related area to further prepare them as effective participants and leaders in the workplace. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

Prerequisite: PRWR 261 and senior Standing

PRBA 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed, by a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

WEB 571, Web Site Design and Development, 3 Units

This course examines fundamental principles of website design, emphasizing considerations of functionality, information architecture, and usability. The course also introduces the students to prototyping tools used to develop and communicate website designs.

WEB 572, Emergent Information Technologies, 3 Units

This course involves the study of technological change, especially the effects of technological change on society and commerce and how these changes and effects transpire. The course also entails a study of key technologies that are having, or may have, significant effects on society and commerce.

WEB 573, Relational Database Technology, 3 Units

This course presents the relational database model and explains a process for relational database design, and covers the fundamentals of relational database creation and maintenance. It also explains the use of an application development environment, such as Allaire's Cold Fusion, to develop Web database applications.

WEB 575, Internet Business and Strategic Management, 3 Units

This course describes how the Internet has created demand for e-business, and how this new economic and technological shift has transformed the way in which business models are created. Major trends driving e-business are identified. E-business application architecture is reviewed. The importance of creating a customer relationship management (CRM) is emphasized. The significance of strategic management is paramount to a sustainable competitive advantage, where enterprise resource planning is being utilized. In this quickly changing environment, knowledge management becomes important to integrate technologies and solutions for organizations. Clarifying strategic objectives with the process improvement, strategic improvement, and business transformation are considered, along with elements of tactical execution options and e-project management.

LP and Timothy Leung School of Accounting

Housed within Azusa Pacific's School of Business and Management (<https://www.apu.edu/business/>), the LP and Timothy Leung School of Accounting (<https://www.apu.edu/business/accounting/>) focuses on developing graduates with the Christian character and competence demanded by the public accounting profession.

Vision Statement

To be a premier Christian accounting school, recognized as a thought leader on accounting character and competence to reflect the life of Christ and shine the light of Truth.

LP and Timothy Leung Scholarships

With gratitude to the Leung Endowment, students may qualify for scholarships. Additionally, students have the option to enroll in a fifth year to earn a Master of Professional Accountancy (MAcc) degree.

Specialized Credentials and Applied Learning

Students have the opportunity to earn specialized credentials, such as the IRS Enrolled Agent (EA) and the Certified Information Systems Auditor (CISA), increasing their value to potential employers. Additionally, students may join the Accounting Honors Society and participate in the Volunteer Income Tax Assistance (VITA) program, which equips students with hands-on experience as they provide income tax assistance to low-income taxpayers in the surrounding communities. Comprehensive curriculum coupled with experiential learning techniques has led to CPA exam pass rates in the top 20% of California universities.

In addition to VITA and the Accounting Honors Society, the school offers numerous student clubs and study-away opportunities. Students participating in study-away opportunities engage with topics of globalization, trade, culture, and global management and leadership as they travel the world. Typically, study-away trips include visiting global and international organizations and learning from universities and business leaders around the world. Additionally, numerous student clubs offer students the opportunity to build skills in leadership, management, decision making, and teamwork.

Internships and Job Placement

Accounting majors are invited to participate in the annual Meet the Firms night, hosted by the Accounting Honors Society and boasting outstanding successes. Typically, 60 accounting professionals representing 20 public accounting firms—all of the Big Four (EY, PwC, KPMG, and Deloitte), several major national (CLA, BDO) and specialty (CapinCrouse, Ron Blue) firms, and many regional and local firms (KSJG)—meet with APU students to discuss internship and job opportunities.

Accounting majors obtain paid internships with public accounting firms and in professional accounting. Job placement for accounting students also remains strong, with most CPA-track students placed prior to graduation. On the undergraduate side, our graduates are typically placed with every major accounting firm in the US, from Big Four to national and regional firms.

Graduate Programs Offer Flexible Course Schedules

To accommodate busy schedules, graduate classes are offered during the evening, afternoon, and online. Classes give students the opportunity to participate in real-life projects and case studies with profit, nonprofit, and governmental organizations. Students may take advantage of the multiple delivery formats to customize their education experience. **Students are admitted to and can start the Master of Professional Accountancy (MAcc) program in any of the eight terms during the academic year.**

BA in Business Management

60 units

Preparation for a business career requires a deep appreciation and sound understanding of the marketplace. Thus, the business management (<https://www.apu.edu/business/programs/business-management-major/>) major program is designed for those who seek a broad spectrum of business courses or wish to combine several fields, preparing students to pursue work and lead in a vast range of industries. This program develops competence in conceptual, human, and technical skills, and these skills—developed through a well-chosen sequence of electives—make those completing the program well prepared for employment in public and private-sector organizations.

This major equips students with the leadership, management, and analytical skills of planning, decision making, problem solving, communication, and delegation, preparing them to advance their career, achieve their goals, and help shape the future of business. Coursework in general business management and leadership includes a fundamental system of values that serves as the basis for decision making, and the program also emphasizes effectiveness and efficiency. A focus project and other experiences in project/people management give students the knowledge and skills to become leaders in a broad spectrum of industries, including how to ensure employee commitment, engagement, and satisfaction.

Experiential Learning Opportunities

Students have the option to acquire practical skills and experience in leadership, management, decision making, and teamwork through internships, student clubs, honor societies, and study-away opportunities. For example, in the International Business Global Colloquium, students study various aspects of international business and international differences with students from different countries, schools, and programs for a significant social/international experience.

Students participating in study-away opportunities engage with topics of globalization, trade, culture, and global management and leadership as they travel the world. Typically, study-away trips include visiting global and international organizations and learning from universities and business leaders around the world.

Numerous School of Business and Management student clubs and honor societies also provide opportunities for students to build their résumé as well as their skills in leadership, project management, teamwork, event planning, and marketing.

Certificates, Credentials, and Microcredentials

Today, employers are looking for new hires with technical skills and leadership abilities such as decision making and teamwork. This program gives students the opportunity to earn industry-valued, internationally recognized certificates, credentials, and microcredentials that can be added to résumés and uploaded to online portfolios, certifying and showcasing their mastery of these skills to potential employers.

Career Opportunities

Good managers and leaders are in demand with global, international, and national organizations, and our students are prepared upon graduation for first-line management positions such as supervisor and team or shift leader. This program also prepares and equips students for staff specialist or general administration positions. Students may enter into a wide range of industries, including retail and sales, commercial banking, real estate, savings and loan associations, entertainment, supply chain management, logistics, and more. Some graduates begin new ventures, operate small businesses, develop new products, or return to the family business.

Requirements

The Bachelor of Arts in Business Management comprises 60 units. Students must achieve an average GPA of 2.5 or higher in their major courses (including the Business Core).

- 2 Meets the General Education Intercultural Competence requirement.
- 3 Meets the General Education Social Sciences requirement.
- 4 Meets the General Education Civic Knowledge and Engagement requirement.
- 5 Meets the General Education Integrative and Applied Learning requirement.

Program Learning Outcomes**Program Learning Outcomes**

Students who successfully complete this program shall be able to:

1. Demonstrate competency in multiple business disciplines.
2. Apply critical thinking to solve business problems.
3. Evaluate business decisions based on a Christian perspective.
4. Communicate ideas through professional channels.
5. Be contributing team members.
6. Identify cultural aspects of business in diverse environments.

BA in Digital Marketing and Design

63 units

The BA in Digital Marketing and Design program is for students interested in learning how to apply their creativity in the digital market space. With a focus on digital marketing strategy and social media marketing, this program gives students an innovative and relevant skill set for branding, influencer marketing, and brand journalism.

Students in this program are equipped to create a digital marketing strategic plan and manage digital marketing tools and channels, including the implementation of specific targeted marketing campaigns that promote business services, products, and corporate brand journalism. Students learn how to apply strategically aligned marketing communications to prosumers in order to leverage an organization's brand for the expansion of customer acquisition, conversion, and value growth potential, ultimately increasing sales and brand recognition.

Students in this program have the opportunity to earn industry-valued, internationally recognized certificates and microcredentials, either during the core courses or upon completion of the program, that certify their mastery of digital communication management and marketing analytics skills or abilities. These certificates in social media marketing and business analytics come from an independent third-party firm that specializes in social media and platform management, and can be added to résumés and uploaded to online portfolios, showcasing these skills to potential employers.

Coursework engages students in creating a comprehensive strategic digital marketing plan, including developing appropriate marketing strategies and objectives and conducting a marketing audit to ensure successful implementation. Digital marketing tools are integrated and developed—including email marketing campaigns, website design analysis, SEO, content marketing strategies, social media marketing, and building online community life cycles—that are appropriate and applicable to an organization's vision and mission. Complementary topics in advertising, promotion, graphics, web design, and SEO, and student participation in internship experiences, help build the student skill set and résumé for immediate employment in several marketing-related and design industries.

Today's employers are seeking educated marketers who can create and manage corporate brands and communications designed to foster a consistent organizational image and promote customer loyalty. Students in this program are equipped with the necessary practical skills to become professional marketers for various types of businesses, nonprofits, and church-led organizations.

Experiential Learning Opportunities

In teams, students complete a social media campaign and a marketing plan for a real organization. Students can build their résumés through internships and have the option to participate in numerous student clubs and honor societies that provide confidence and skill-building opportunities in leadership, team building, social media, event planning, promotion, and marketing supervisory or management positions.

Students have the option to acquire practical skills and experience in leadership, management, decision making, and teamwork through internships, student clubs, honor societies, and study-away opportunities. Students participating in study-away opportunities engage with topics of globalization, trade, culture, and global management and leadership as they travel the world. Typically, study-away trips include visiting global and international organizations and learning from universities and business leaders around the world.

Career Opportunities

Professionals who can leverage the power of digital marketing are in high demand. Career paths open to marketing majors include marketing coordinator/specialist, marketing project manager, social media specialist/manager, account coordinator/executive manager, product/brand manager, digital marketing specialist/manager, social media marketing manager, creative assistant, web content writer/manager, sales representative/manager, marketing manager, advertising and promotion manager, media planner/buyer, retail marketer, marketing analytics specialist, and marketing communications coordinator. Income potential and personal fulfillment are high. Marketing professionals who excel can become top executives.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Examine the full spectrum of digital marketing concepts and practices, including advertising, promotion, and design concepts.
2. Apply key marketing processes, including digital marketing concepts, and graphic design.
3. Create digital marketing plans that appeal to a diverse and global population.
4. Benchmark digital marketing campaigns against best practices.
5. Develop design strategies for digital marketing campaigns.
6. Evaluate digital marketing practices to ensure compliance with relevant laws and regulations.
7. Incorporate ethical practice into all aspects of digital marketing management.

BA in Human Resources and Organizational Development

57 units

The BA in Human Resources and Organizational Development (<https://www.apu.edu/business/programs/human-resources-organizational-development-major/>) program provides the conceptual knowledge and practical skills for career placement and job advancement in the expanding field of human resources, including the areas of employee life cycle, training and development, and the growing HR generalist field.

This program equips students with all of the necessary foundational knowledge that a human resources professional must have, including best practices and strategies necessary for today's workplace. Students learn the complexities of managing the benefits and policies of an organization, designing employee development and delivering training, and managing employee relations. This interdisciplinary program prepares students with the organizational theory, ethics, and business management skills to become expert problem solvers in today's HR climate.

Experiential Learning Opportunities

Students in this program build their résumés and portfolios through applied projects, such as designing a training workshop, writing job descriptions, and creating employee development plans. Students also have the option to acquire practical skills and experience in leadership, project management, decision making, and teamwork through internships, student clubs, and honor societies.

This program also offers students the chance to participate in study-away programs, where they engage with topics of globalization, trade, culture, and global management and leadership as they travel the world. Typically, study-away trips include visiting global and international organizations and learning from universities and business leaders around the world.

Certificates, Credentials, and Microcredentials

Today, employers are looking for professionals with technical skills and leadership abilities, and students in this major are prepared to earn industry-valued, internationally recognized certificates, credentials, and microcredentials, such as the Professional in Human Resources certification and the Workplace Ethics Badge, validating their ability to motivate and manage talent and distinguishing them in the HR field. These certifications can be added to résumés and uploaded to online portfolios, showcasing these skills to potential employers.

Career Opportunities

Different areas of the HR field consistently rank high on lists of best careers. Income potential and personal fulfillment are high. Career paths open to human resources majors include HR coordinator/assistant, recruiter/talent acquisition, training and development coordinator, payroll specialist, HR manager, compensation analyst, benefits manager, labor relations manager, human resources generalist, and HR business partner. Human resources professionals who excel can become top executives.

Bachelor of Business Administration (BBA) (Bachelor's Completion Program)

57 units

Today's business leaders must be agile and able to adapt to a rapidly changing business world while leading employees by modeling character, integrity, and compassion. Azusa Pacific's Bachelor of Business Administration (BBA) (<https://www.apu.edu/business/programs/bba-degree/>) bachelor's completion program equips students with the leadership and analytical skills needed to advance their career, achieve their goals, and help shape the future of business.

Designed for working professionals with at least 15 units of transferable college credit, the BBA program allows immediate application of learning in the workplace. Relevant coursework addresses current issues in business and encourages the integration of real-world work experiences and hands-on projects. Students combine these experiences with internships or international study opportunities to further expand their portfolio and network.

Throughout the program, students build on existing experience while gaining a strong foundation in strategic management, finance, marketing, accounting, and more.

Highlights

- Designed for working professionals, the BBA degree completion program equips students with the leadership and analytical skills needed to lead change in today's business world.
- Relevant coursework and real-world projects guided by faculty with business experience allow students to immediately apply learning at work.
- Focused certificates and credentials provide in-demand skills, know-how, and experience and verify students' skills and abilities to current and future employers.
- Learn from Fulbright Scholars and world-renowned professors with industry experience.
- Flexible course scheduling allows students to advance their academic and professional goals at their own pace.

Certificates, Credentials, and Microcredentials

Today, employers are looking for new hires with technical skills and leadership abilities such as decision making and teamwork. In the BBA program, students have the opportunity to earn industry-valued, internationally recognized certificates and microcredentials that can be added to résumés and uploaded to online portfolios, showcasing these skills and abilities to current and future employers.

Requirements

The Bachelor of Business Administration degree completion program requires 120 total units, including General Education units and 57 units of core business courses (BBA students may also add an optional 9-unit concentration).

- ³ Meets the General Education Writing 2 requirement.
- ⁴ Meets the General Education Intercultural Competence requirement.
- ⁵ Meets the General Education Integrative and Applied Learning requirement.
- ⁶ Meets the General Education Writing 3 requirement.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Business Knowledge: Apply business knowledge from multiple business disciplines to plan, design, and execute business strategies.
2. Critical Thinking: Identify and solve business problems using analytical and critical thinking skills.
3. Quantitative Reasoning: Analyze quantitative data to address real-world or discipline-specific business problems.
4. Christian Business Ethics: Use biblically-based ethics to make moral and virtuous ethical and socially responsible business decisions.
5. Written Communication: Convey ideas clearly and effectively through professional written communication.
6. Oral Communication: Communicate in informative or persuasive ways using the appropriate genre, channel, structure, and style.
7. Collaborative Teamwork: Effectively participate in business-focused teams as members and leaders in diverse environments.
8. Global/Multicultural Awareness: Identify and respond to cultural, economic, and political aspects of business in multicultural and global environments, informed by biblically based ethics.
9. Discipline Knowledge: Demonstrate knowledge of business concepts.
10. Discipline Problem Solving: Solve core business problems and effectively analyze and address business situations.

BS in Business Analytics

66 units

The Bachelor of Science in Business Analytics (<https://www.apu.edu/business/programs/business-analytics-major/>) is for students interested in developing expertise in data science and data analytics with specialization in the field of business. This program gives students a foundation in business and business management, and they are able to customize their degree by selecting a concentration in accounting, economics, finance, or marketing.

Utilizing methods and systems to extract information or knowledge from large quantities of data that come in various forms, students learn to synthesize broad perspectives, knowledge, skills, and interconnections in business. Coursework gives students the opportunity to use big data and historical data to develop models that help organizations make data-driven decisions.

This program equips students to solve complex problems and offer practical conclusions based on real business data, as they learn to utilize models, theories, and techniques drawn from the broad areas of mathematics, business and management sciences, and management information systems. Students learn to analyze large quantities of data and discover value-oriented insights, becoming data-driven decision makers in their organizations. Information is applied to a wide range of data-rich business domains such as accounting, economics, finance, marketing, human resource management, and supply chain management.

Experiential Learning Opportunities

Students in this program acquire practical skills and experience in business analytics, building their portfolios and résumés through applied projects. Coursework includes opportunities for hands-on application with big data manipulation and analysis, system management, and data visualization, including multiple strategies to produce and leverage data-driven decision making.

Students may also participate in internships, student clubs, honor societies, and study-away opportunities. Students participating in study-away programs engage with topics of globalization, trade, culture, and global management and leadership as they travel the world. Typically, study-away trips include visiting global and international organizations and learning from universities and business leaders around the world.

Certificates, Credentials, and Microcredentials

Today, employers are looking for new hires with technical skills in big data and data analytics. This program gives students the opportunity to earn industry-valued, internationally recognized certificates, credentials, and microcredentials, such as in spreadsheets, data visualization, business analytics, and much more, that can be added to résumés and uploaded to online portfolios, certifying and showcasing their mastery of these skills to potential employers.

Career Opportunities

BS in Business Analytics students are equipped to pursue professional careers in industry, as demand for data analysts, data scientists, and data engineers in job markets across all industries is high and supply is low. The U.S. Bureau of Labor Statistics sees strong growth in the data science field and predicts that the number of jobs will increase by about 28% through 2026, which is equivalent to approximately 11.5 million new jobs in the field.

The median annual wage for management analysts was \$93,000 as of May 2021. And about 41,000 openings for financial analysts are projected each year, on average, over the decade.

- ⁵ Meets the General Education Integrative and Applied Learning requirement.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Describe business issues which require business analytics' skills and methods.
2. Transform large quantities of real-life data from a wide range of domains to resolve issues.
3. Apply appropriate analytical methods (descriptive, diagnostic, predictive, and prescriptive analytics) to find solutions to business problems.
4. Explain the results of analytical activities clearly and concisely using oral, written, or electronic media.
5. Describe the ethical and legal issues involved with collecting, storing, and using big data from a Christian perspective.

BS in Business: Accounting

70 units

The accounting major (<https://www.apu.edu/business/programs/accounting-major/>) surveys the principles, theories, and concepts of the accounting profession while providing an intense review of the economic, quantitative, and managerial aspects of business. Its practical component leads to work assignments in international, national, and local certified public accountant (CPA) firms in students' junior and senior years. The combination of classroom theory and real-world experience also prepares candidates for the CPA examination administered by the various state boards of accountancy in the United States.

Highlights

- CPA exam pass rates in the top 20% of California universities.
- Scholarships allow students to earn a Christian accounting education at a state school price.
- Specialized credentials, such as Enrolled Agent and Certified Internal Systems Analyst, are now available.
- Graduates are placed with every major accounting firm in the U.S., from Big Four to national and regional firms.

- Students are able to earn a Master of Professional Accountancy (MAcc) in one additional year.
- 100% of our MAcc students have paid professional internships.
- 100% job placement rate of our MAcc students in CPA firms by graduation.

LP and Timothy Leung Scholarships

With gratitude to the Leung Endowment, students may qualify for scholarships over four years. Additionally, students have the option to participate in a fifth-year Master of Professional Accountancy.

Specialized Credentials

Students have the opportunity to earn specialized credentials, such as the IRS Enrolled Agent (EA) and the Certified Information Systems Auditor (CISA), increasing their value to potential employers. Additionally, students have the options of joining the Accounting Honors Society and participating in the Volunteer Income Tax Assistance (VITA) program at APU. The VITA project equips students with hands-on experience as they provide income tax assistance to low-income taxpayers in the surrounding communities.

Experiential and Applied Learning

In addition to VITA, the school offers numerous student clubs, honor societies, and study-away opportunities. Students participating in study-away opportunities engage with topics of globalization, trade, culture, and global management and leadership as they travel the world. Typically, study-away trips include visiting global and international organizations and learning from universities and business leaders around the world. [Student clubs provide the opportunity for students to build skills in leadership, management, decision making, and teamwork.](#)

Internships and Job Placement

Accounting majors are invited to participate in the annual Meet the Firms night. This event, hosted by the Accounting Honor Society, boasts outstanding successes. Typically, 60 accounting professionals representing 20 public accounting firms meet with APU students, along with students visiting from other universities. All of the Big Four (EY, PwC, KPMG, and Deloitte), several major national firms (CLA, BDO) and specialty firms (CapinCrouse, Ron Blue), and many regional and local firms (KSJG) attend Meet the Firms.

Accounting majors obtain paid internships with public accounting firms or in professional accounting. Job placement for accounting students also remains strong, with most CPA-track students placed prior to graduation.

Career Opportunities

Opportunities available to graduates include professional careers in accounting services, auditing, management advising services, and accounting departments in private firms and government bodies such as law enforcement agencies.

Requirements

The accounting major comprises 70 units. Students must achieve an average GPA of 2.5 or higher in their major courses (this includes the Business Core).

BS in Business: Economics

66 units

The business economics major (<https://www.apu.edu/business/programs/business-economics-major/>) equips students with analytical skills built on a strong general business foundation. This major focuses on business management responsibilities and the improvement in business decision making that comes from a deeper understanding of the economic environment of business, including labor, environmental, and international issues. Students become grounded in economic theory and practical applications.

Experiential Learning Opportunities

The School of Business and Management offers students numerous experiential learning opportunities, such as student clubs, honor societies, and study away trips. Students participating in study-away opportunities engage with topics of globalization, trade, culture, and global management and leadership as they travel the world. Typically, study-away trips include visiting global and international organizations and learning from universities and business leaders around the world. Faculty-led student clubs and honor societies offer students the opportunity to build skills in leadership, project management, decision making, and teamwork.

Career Opportunities

Business economics careers may be found throughout the field of business, including financial analysis and forecasting, banking, labor organizations, and international trade. Individuals in possession of strong analytical skills are in high demand.

Requirements

The Bachelor of Science in Business: Economics comprises 66 units. Students must achieve an average GPA of 2.5 or higher in their major courses (this includes the Business Core).

9. Discipline Problem Solving/Strategy: Solve core economic problems, or analyze economic situations and provide strategy for effectiveness.

BS in Business: Entrepreneurship

63 units

The entrepreneurship major (<https://www.apu.edu/business/programs/entrepreneurship-major/>) focuses on the creation of social and economic value and is designed to prepare students for the intricacies of planning, launching, and leading a new business. With a focus on creativity and innovation, new venture planning, and marketing, students are equipped with the skills necessary to start and grow a business.

Entrepreneurship students learn how to shape entrepreneurial opportunities and assess market feasibility. The entrepreneurship major includes working in teams, constructing business models, communicating with partners and customers, and assessing feasibility while launching a new venture or initiative.

Today, new business opportunities have encouraged entrepreneurship on a global scale. Coursework equips students to create, organize, and manage a business, including ideation and innovation, negotiation, and business management. Students also learn how to lead people and projects.

Experiential Learning Opportunities

Entrepreneurship majors apply their knowledge and skills in academic and real-world settings. They also have the option to participate in student clubs and competitions, such as ENACTUS, that provide skill-building opportunities in leadership, teamwork, and decision making. Guided by faculty, teams of students conduct needs assessments in local communities, identify potential solutions, and implement community impact projects.

Surrounding communities benefit from collaboration and fresh innovation, and students gain valuable experience to advance their entrepreneurship résumés. Throughout the years, APU-sponsored teams have a track record of successful placement in ENACTUS competitions.

In addition to ENACTUS, the School of Business and Management offers numerous student clubs, honor societies, and study-away opportunities. Students participating in study-away programs engage with topics of globalization, trade, culture, and global management and leadership as they travel the world. Typically, study-away trips include visiting global and international organizations and learning from universities and business leaders around the world.

Certificates, Credentials, and Microcredentials

Today, employers are looking for new hires with technical skills and also leadership abilities such as decision making and teamwork. This program gives students the opportunity to earn industry-valued, internationally recognized certificates, credentials, and microcredentials that can be added to résumés and uploaded to online portfolios, certifying and showcasing their mastery of these skills and abilities to potential employers.

Career Opportunities

The skills and competencies gained in this program are vital for the success of any business or organization, including early-stage startups, corporations, family businesses, nonprofits, franchises, and other settings. Graduates can start new businesses, buy existing ventures, or go into entrepreneurial positions in profit or not-for-profit ventures. Other career options include intrapreneurship (innovation in large organizations), venture capital, and social entrepreneurship.

Requirements

The entrepreneurship major comprises 63 units. Students must achieve an average GPA of 2.5 or higher in their major courses (this includes the Business Core).

BS in Business: Finance

66 units

The finance major (<https://www.apu.edu/business/programs/finance-major/>) is designed for students interested in the stewardship of the financial resources of individuals, corporations, or financial institutions. As future managers, students learn the principles and applications of financial analysis, management, and strategy, and gain experience in portfolio construction; applications of derivatives in financial management, asset management, and international financial management; and case studies in corporate finance.

This program equips students with the theoretical understanding and practical skills necessary to evaluate and direct decisions regarding the allocation of financial resources among a variety of competing opportunities, with the goal of maximizing the value of the resources managed.

Experiential Learning Opportunities

As a business club hosted by Azusa Pacific University's School of Business and Management and led by a faculty advisor and a board of finance professionals, the Student Investment Fund (SIF) involves the practical application of classroom knowledge. Students practice hands-on investment strategies and are engaged to manage a portion of the university endowment through fundamental valuation.

Students joining SIF have the opportunity to compete in the CFA Institute Research Challenge, a competition between university-sponsored teams that research a designated publicly traded company, prepare a written report on that company, and present their findings. SIF and the CFA competition provide students with hands-on training and mentoring in financial analysis.

Credentials and Microcredentials

In this program, students have the opportunity to earn microcredential badges certifying their mastery of certain skills or abilities and showcasing them to future employers. Microcredentials can be added to résumés and uploaded to online portfolios.

In addition, the Seminar in Finance course (FIN 439) provides students the opportunity to earn the Securities Industry Essentials (SIE) Certification, one of the FINRA qualification exams.

Career Opportunities

This program prepares students for employment in a variety of fields, such as corporate financial management, investment analysis and planning, financial institution management, and risk management. According to the *Occupational Outlook Handbook*, such occupations are expected to experience strong rates of growth. Moreover, these occupations generally offer attractive starting salaries and working conditions.

To complete the finance major in four years, students are encouraged to complete FIN 300 by the end of their sophomore year.

Requirements

The finance major comprises 66 units. Students must achieve an average GPA of 2.5 or higher in their major courses (this includes the Business Core).

BS in Business: International Business

60 units

The international business major (<https://www.apu.edu/business/programs/international-business-major/>) gives students a strong general business foundation followed by courses preparing them for careers in global business and international commerce. The program incorporates a global collaborative approach to the study of business, international management, strategic positioning, international trade, and politics as it prepares students to work in a dynamic and interdependent global business environment.

Students explore various ethical, cultural, legal, and other differences that exist in international business and consider their individual and leadership responsibilities and actions. International business majors think through the various urgent challenges that face business environments today, including sustainability, climate change, energy and technological shifts, political and economic shifts, and all forms of equity.

Students also acquire practical skills and experience through study-away opportunities, internships, foreign language study, and the opportunity to work with university students around the world in global colloquium case-study projects.

Experiential Learning Opportunities

The International Business Global Colloquium gives APU students the opportunity to study various aspects of international business and international differences with students from different countries, schools, and programs for a significant social/international experience.

Study-away opportunities expose students to topics of globalization, trade, culture, and global management and leadership as they travel the world. Typically, these trips include visiting global and international organizations and learning from universities and business leaders around the world. Additionally, [numerous student clubs and honor societies offer students the chance to build skills in leadership, project management, decision making, and teamwork.](#)

Certificates, Credentials, and Microcredentials

Today, employers are looking for new hires with technical skills and leadership abilities such as decision making and teamwork. This program gives students the opportunity to earn industry-valued, internationally recognized certificates, credentials, and microcredentials, such as the Intercultural Competence Badge, that can be added to résumés and uploaded to online portfolios, certifying and showcasing their mastery of these skills to potential employers.

Career Opportunities

International business careers may be found with multinational corporations, foreign companies, banks, international investments, export/import trade, international law, international nonprofit organizations, world missions, and public/foreign service. Some of these exist in expatriate opportunities and some through various other logistics and extensions. Individuals graduate from this program with significant international experience after practicing management and leadership skills abroad and collaborating with students from all over the world, and find themselves in high demand in today's global marketplace.

Requirements

The international business major comprises 60 units. Students must achieve an average GPA of 2.5 or higher in their major courses (including the Business Core).

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Competent Business Knowledge: Demonstrate knowledge in multiple business disciplines, including management, finance, marketing, accounting and economics.
2. Critical Thinking: Identify and solve business problems using analytical and critical thinking skills.
3. Christian Business Ethics: Demonstrate the ability to evaluate business decisions based on a Christian perspective.
4. Written Communication: Convey ideas clearly through professional written communication.
5. Oral Communication: Express ideas effectively through professional oral presentations.
6. Collaborative Teamwork: Demonstrate the ability to function as an effective business team member.
7. Comprehensive Global Awareness: Identify cultural, economic and political aspects of business in a global environment.
8. Discipline Knowledge: Demonstrate knowledge of international business concepts.
9. Discipline Problem Solving/Strategy: Solve core international business problems, or analyze international business situations and provide strategy for effectiveness.

BS in Business: Marketing

63 units

The marketing major (<https://www.apu.edu/business/programs/marketing-major/>) equips students with solid functional skills in business and strong marketing skills that emphasize a dynamic synergy built upon traditional marketing components with innovative digital and social media marketing. These skills can be used to obtain an internship and secure many types of marketing-related opportunities in industry, positioning them to be influencers in the digital market space.

Students in this program are equipped to create and manage all aspects of an organization, encompassing a hybrid blending of traditional and digital marketing. A comprehensive view of strategic planning for an organization to the implementation of the expanded marketing mix and campaigns to promote business services, products, and brands is demonstrated from student engagement. Corporate brand identity, customer acquisition, conversion, and retention are fulfilled through integrated marketing communications and targeted campaigns. Students may earn certificates demonstrating their proficiency in social media marketing and analytics.

Coursework engages students in learning about consumer behavior, integrated marketing communications, digital marketing, and web design, and offers choices of additional marketing courses that are appealing (sales and sales management, retailing, global marketing management, marketing research). The capstone course, Strategic Marketing Management, is a hands-on course in which students analyze case studies and determine the best course for sustainable strategic competitive advantage. Hands-on projects and community outreach are emphasized throughout the program.

Today's employers are seeking educated marketers who can create and manage corporate brands and communications designed to foster a consistent organizational image and promote customer loyalty. Students are equipped with the necessary practical skills to become professional marketers for various types of businesses, nonprofits, and church-led organizations.

Experiential Learning Opportunities

In teams, students complete a social media campaign and a marketing plan for a real organization. Students build their résumés through internships and have the option to participate in numerous student clubs that provide opportunities for marketing supervisory or management positions as well as confidence and skill-building opportunities in leadership, team building, project management, decision making, social media, event planning, and promotion.

Students may also participate in various study-away opportunities. Students participating in study-away opportunities engage with topics of globalization, trade, culture, and global management and leadership as they travel the world. Typically, study-away trips include visiting global and international organizations and learning from universities and business leaders around the world.

Certificates, Credentials, and Microcredentials

The marketing major allows students to earn industry-valued, internationally recognized certificates in social media management and analytics, as well as microcredentials in social media, social media marketing management, and sales management, all of which can be added to résumés and uploaded to online portfolios, certifying and showcasing their mastery of these skills to potential employers.

Career Opportunities

Career paths open to marketing majors include marketing coordinator/specialist, marketing project manager, account coordinator/executive manager, product/brand manager, digital marketing specialist/manager, social media marketing manager, creative assistant, web content writer/manager, sales representative/manager, marketing researcher/analyst, marketing manager, advertising and promotion manager, media planner/buyer, retail marketer, marketing analytics specialist, and marketing communications coordinator. Income potential and personal fulfillment are high. Marketing professionals who excel can become top executives.

LDRS 524	Principles and Practices of Design Thinking	3
LDRS 548	Strategic Foresight, Thinking, and Planning	3
Choose one of the following:		3
OPSY 510	Organizational Assessment and Interventions	
OPSY 520	Consultative Applications of Organizational Psychology	

Total Units **12**

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Deliver Innovative solutions to complex leadership and organizational challenges.
2. Construct organization development interventions using experience-based models and simulations.
3. Prepare consulting reports and professional recommendations for organizational initiatives around change, leadership, and strategy.

Certificate in Data Analysis and Visualization

12 units

Businesses today need informed leaders who can guide decision making by analyzing large amounts of data. The Certificate in Data Analysis and Visualization is for current students who want a specialization and working professionals who want to grow in their field or change career paths.

Certificates help students validate their skills and ability, give them increased marketability and earning power, and verify competence to employers. Certificate programs also provide the knowledge you need to in order to transform your career in less time than many traditional postgraduate and professional degree programs, and do not require any prerequisite work.

The Certificate in Data Analysis and Visualization offers an in-depth study developed by industry experts and balances theory and real-world practice. Coursework focuses on the necessary skills for collecting, formatting, and analyzing an organization's data, and students learn to manage big data and perform business analytics in order to produce useful information to guide an organization's decision making.

Credentials and Microcredentials

Today, employers are looking for new hires with technical skills in big data and data analytics. Credentials and microcredentials show potential employers that students have the technical skill needed for today's workplace. This certificate program gives students the opportunity to earn credentials and microcredentials certifying their mastery of certain skills or abilities.

Students have the opportunity to earn microcredentials in spreadsheets, data visualization, and business analytics. Industry-valued certificates and credentials provide students the opportunity to showcase their skills and abilities to current and future employers. Credentials and microcredentials can be added to résumés and uploaded to online portfolios.

Career Opportunities

Job growth for professionals proficient in business analytics is projected to continue rising. This high-stakes field also commands high salaries. Data analysis and visualization is applicable to a wide variety of jobs, so whether you want to launch a new career or advance to the next level of your current path, a certificate program can get you there.

Requirements

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Utilize relevant data analytics and visualization tools.
2. Interpret data to solve complex problems and make decisions for high-performance organizations.
3. Discuss the importance of ethics in data management, information technology, and statistics, considering a Christian Worldview.

Certificate in Digital Marketing and Social Media

12 units

Certificates are designed for current students who want a specialization, and for working professionals who want to grow in their field or change career paths. Certificates are great résumé builders, provide increased marketability, verify competence to potential employers, and provide practical learning that can be translated directly into workplace application. Certificate programs also provide the knowledge you need to in order to transform your career in less time than many traditional postgraduate and professional degree programs, and do not require any prerequisite work.

The Certificate in Digital Marketing and Social Media provides a foundation of marketing principles and consumer behavior with emphasis on digital and social media marketing. Coursework helps students develop the skills necessary to create and manage digital advertising and social media campaigns and measure their results. Students also learn to create and build a social media presence through brand identity and engaging content communication.

Credentials and Microcredentials

Today, employers are looking for new hires with technical skills in digital marketing and social media. This certificate program gives students the opportunity to earn industry-valued, internationally recognized credentials and microcredentials such as HootSuite, Google Digital Garage, and Sales Force that can be added to résumés and uploaded to online portfolios, certifying and showcasing their mastery of these skills and abilities to potential employers.

Career Opportunities

Job growth for digital marketing and social media professionals is projected to continue rising, so this high-stakes field also commands high salaries. This certificate prepares students for a wide variety of these jobs, so whether you want to launch a new career or advance to the next level of your current path, this program can get you there.

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Apply financial management principles and procedures to nonprofit and government organizations.
2. Use analytic tools to analyze financial information, prepare and manage budgets, and ensure the financial accountability of public organizations.
3. Examine the unique financial challenges and opportunities in public sector financial management.
4. Develop personal ethical principles to guide financial decision-making.

Certificate in Leadership Development

12 units

The Certificate in Leadership Development focuses on the personal character of the leader and how to develop themselves and others. Students engage with approaches to executive coaching and gain insight into the past, present, and future landscape of leadership thought. This program is unique because it looks at leadership through the lens of emotional intelligence, which research shows is a cornerstone leadership trait. Students are equipped with practical tools to lead themselves and others forward. This certificate pairs well with any professional background, providing students with the life and leadership skills necessary to become influential agents of change in all kinds of organizations and personal relationships.

¹ Meets the Integrative and Applied Learning General Education requirement.

Certificate in Supply Chain and Logistics

12 units

Certificates validate skills and provide individuals with increased marketability and potential earning power. The Certificate in Supply Chain and Logistics is a professional undergraduate program for current students and working professionals who want to grow in their field or change career paths.

Businesses today need resourceful leaders to manage the procurement and delivery of products in an increasingly complex global economy. Students in this program gain the skills necessary to manage an organization's global supply chain, engaging in an in-depth study developed by industry experts that balances theory and real-world practice. Emphasis is on procurement, logistics and distribution, quality control, and analytical decision making.

Providing the knowledge you need in order to transform your career in less time than many traditional postgraduate and professional degrees, this certificate does not have any prerequisite work required.

Credentials and Microcredentials

Today, employers are looking for new hires with technical skills in supply chain and logistics. This certificate program gives students the opportunity to earn industry-valued, internationally recognized credentials and microcredentials in project management, Six Sigma, Lean, quality management, logistics, and business analytics that can be added to résumés and uploaded to online portfolios, certifying and showcasing their mastery of these skills and abilities to potential employers.

Career Opportunities

Job growth for supply chain and logistics professionals is projected to continue rising, so this high-stakes field also commands high salaries—the median annual salary for transportation, storage, and distribution managers in the United States is more than \$100,000. Supply chain management encompasses a wide variety of jobs, so whether you want to launch a new career or advance to the next level of your current path, this program can get you there.

MA in Leadership

The Master of Arts in Leadership (<https://www.apu.edu/bas/programs/masters-in-leadership/>) (available face to face and online) is an interdisciplinary degree that equips leaders with skills and tools that can be applied across a variety of vocations and fields. With a focus on character, creativity, curiosity, and innovation grounded in a framework of Christian values, you will explore what being a leader means to you, and how you can hone your skills to help others thrive.

Throughout the program, you will:

1. Discover various dimensions of leadership character as it pertains to the individual, team, and enterprise.
2. Design strategic leadership initiatives through curiosity, inquiry, and experimentation.
3. Develop relevant skills and tools needed to lead a changing leadership landscape with creativity and agility.
4. Deliver innovative solutions to complex leadership and organizational challenges.

Experiential Learning Opportunities

Experiential learning opportunities are integrated throughout the program, allowing students to immediately apply knowledge. Applied and experiential learning equips students with a deeper understanding of design thinking. Students use LEGO® SERIOUS PLAY® to understand organizational change structures and gain firsthand experience working with companies.

Requirements

Students pursuing the MA in Leadership must complete 30 units of coursework, as well as present their final design project during a Designer Symposium (a TEDx-style night of presentations). Up to 6 units of appropriate coursework may be transferred into the program by petition.

3. Develop relevant skills and tools needed to lead a changing leadership landscape with creativity and agility.
4. Deliver innovative solutions to complex leadership and organizational challenges.

MS in Organizational Psychology

The Master of Science in Organizational Psychology (<https://www.apu.edu/business/programs/masters-in-organizational-psychology/>) degree program prepares students to become effective organizational consultants (either internal or external to an organization). At the intersection of business and psychology, our blended learning experiences combine theoretical grounding and practical application. Students in this program demonstrate the ability to solve complex organizational challenges through assessment, data-driven decision making, and other organizational effectiveness tools. Innovative curriculum produces scholar-practitioners who are competent and confident working in organizations to create a people strategy that aligns with the business strategy.

The expanding field of organizational psychology, sometimes referred to as industrial-organizational psychology, or the study of people's attitudes, feelings, and behaviors in the workplace, calls for individuals prepared to help organizations and businesses flourish. You can complete the MS in Organizational Psychology program in a little over a year, quickly elevating your earning potential and distinguishing yourself as a qualified and confident practitioner-scholar in one of the most exciting and fastest-growing fields in America.

Highlights

Through the program, you'll learn to:

- Diagnose organizational health
- Develop and implement change initiatives
- Conduct job analysis and craft job descriptions
- Increase employee morale and expand retention strategies
- Advance performance management programs
- Generate and direct effective succession plans
- Hire, train, and develop talent
- Advise, coach, and build successful teams

Certificates, Credentials, and Microcredentials

Today, employers are looking for new hires with technical skills and also leadership abilities such as innovative decision making and executive coaching. MS in Organizational Psychology students have the opportunity to earn industry-valued, internationally recognized certificates, credentials,

and microcredentials that can be added to résumés and uploaded to online portfolios, certifying and showcasing these skills and abilities to potential employers.

Career Opportunities

The demand is high and continues to rise for those who possess a master's degree in organizational psychology. Current research trends project two available jobs for every individual applying to work in this lucrative field centered on understanding and improving the workplace environment. People with an organizational psychology degree pursue careers in a variety of fields including academic/educational settings, business, churches, health care, government, and nonprofits. The following list highlights a few specific job titles: talent acquisition coordinator/manager; organizational development director; head of people and culture; organizational consultant; executive/leadership coach; diversity, equity, and inclusion (DEI) leader; human resources manager or director; human resources generalist; training and workplace learning manager; people analyst; and social science researcher.

Requirements

The Master of Science in Organizational Psychology (<https://www.apu.edu/business/programs/masters-in-organizational-psychology/>) program includes 13 courses (41 units), all of which are required for the degree. There are no electives.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Course Attendance and Schedule

The collaborative learning process that characterizes the organizational psychology program requires that students be prepared to contribute value to class discussions and to the broader learning community based on their experiences. As such, class attendance is an important aspect of commitment to the program, and absences from class are not appropriate except in cases of emergency. Students should notify instructors of planned absences as soon as possible and make arrangements with other students to get notes and assignments.

Commissioning Ceremony

Preceding each commencement, the School of Business and Management holds a commissioning ceremony for graduating students and their families. This event includes an achievement awards ceremony, words to live by, student remarks, and a time of prayer and commissioning for each graduate.

Outstanding Thesis Award

At each commissioning ceremony, graduate faculty may honor a single graduate with the distinction of Outstanding Thesis Award. The award is primarily based on the quality of research study conducted during the thesis process, the written paper, the oral defense presentation, and the original contribution the study makes to the field of organizational psychology. The study's contribution to furthering the Kingdom of God is also considered.

Graduation

In order to graduate, students must complete the required courses with an overall grade-point average (GPA) of at least 3.0. Students may participate in the graduation ceremony once all coursework is complete and the thesis has been defended and approved.

All organizational psychology students are required to complete the library publication of their final thesis paper. This process commences following the student's oral defense and must be completed within 6 months. A student's official degree will not be posted, nor will a diploma be mailed, until the publication process is complete.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Explain the theoretical constructs of organizations in relation to the attitudes, feelings, and behaviors of those who work in the organization.
2. Utilize research and diagnostic tools to develop the competencies needed as an organizational consultant.
3. Construct organization development interventions using experience-based models and simulations.
4. Approach individual and organizational wellness through a holistic perspective framed through a Christian worldview.

Master of Business Administration (MBA)

The Master of Business Administration (MBA) (<https://www.apu.edu/business/programs/mba/>) program offers working professionals an accessible yet rigorous graduate business program that can be completed in 12-30 months. The program prepares students to lead in the workplace by equipping them with key strategic concepts and the analytical and relational skills to make sound recommendations and decisions. The curriculum is designed to strike a balance between theory and practice, combining scholarship with practical experience and actual corporate case studies of business decision making. Students also select an area of concentration based on specific interests and career aspirations.

The program provides the opportunity for students to develop sound analytical abilities, establish collaborative and team-building skills, and become aware of social responsibility as a factor in decision making. The curriculum also allows students to acquire an understanding of the global business environment and how it is affected by cultural and market diversities. Faculty lectures are combined with case studies and discussions, student presentations, and team projects.

The accelerated and interactive classroom environment includes applied learning activities, use of new technologies in solving business problems, and independent field research and studies. National and international travel opportunities provide students with intensive boardroom field experience, where students get to dialogue with industry executives and government leaders.

Highlights

- The MBA program equips students with strong moral character and the leadership and analytical skills needed to lead change in today's business world.
- Relevant coursework and real-world projects guided by faculty with business experience allow students to immediately apply learning at work.
- Focused certificates and credentials provide in-demand skills, know-how, and experience, verifying and showcasing students' skills and abilities to current and future employers.
- International and national travel opportunities give students intensive boardroom experience, where students get to dialogue with industry executives and government leaders worldwide.
- Students learn from Fulbright Scholars and world-renowned professors with real-world experience.
- Flexible course scheduling allows students to advance their academic and professional goals at their own pace.

Certificates, Credentials, and Microcredentials

Today, employers are looking for new hires with technical skills as well as leadership abilities such as decision making and teamwork. In the MBA program, students have the opportunity to earn industry-valued certificates, credentials, and microcredentials that can be added to résumés and uploaded to online portfolios, certifying and showcasing their skills and abilities to potential employers.

Flexible Course Schedules

To accommodate busy schedules, classes are offered during the evening, online, and at select regional campuses, and students may take advantage of the multiple delivery formats to customize their education experience. Students are admitted to and can start the MBA program in any of the six terms during the academic year.

Requirements

The MBA program curriculum comprises 42-45 units: 30 units of core courses, 9-12 units of concentration courses, and a 3-unit capstone. Concentration options include accounting, business analytics, entrepreneurship, finance, government financial management, healthcare management, international business, marketing, organizational science, public administration, and sport management. Students may request approval to take a second concentration.

PE 557B	Field Studies/Internships in Sport Management ⁴
Total Units	42-45

- ¹ Any student with a bachelor's degree in accounting or its equivalent may choose the accounting concentration, which consists of 12 units of regularly offered Master of Professional Accountancy (MAcc) courses.
- ² Students who choose a concentration in international business are required to take BUSI 577 Global Field Study. BUSI 577 may be repeated twice and substituted for the other two required concentration courses with approval.
- ³ This concentration is designed for students who for personal and/or career reasons need to create an individualized concentration. The final course of the concentration is a capstone project or global field study; the other three courses are typically chosen from existing concentration courses offered by the School of Business and Management, but students with unique needs may propose concentrations that include up to 9 units of graduate study offered by other schools or colleges within Azusa Pacific University. All concentrations must be approved in advance by the SBM Graduate Business Admissions Committee. Concentration courses must also be approved by the other college(s)/school(s) in which the courses will be taken.
- ⁴ PE 557A and PE 557B must be completed consecutively after all other sport management coursework is completed.

MBA Preparatory Courses

The School of Business and Management offers foundational courses specifically designed to assist students without a previous business education and/or students who do not meet the entrance requirements for full admission. Courses in accounting, economics, finance, marketing, and statistics provide students the necessary prerequisite knowledge and skills needed to study the field of business at the graduate level. If any of these prerequisite courses are required, a determination will be based on a review of each student's unique combination of undergraduate coursework at Azusa Pacific University (or another accredited institution of higher learning) and any relevant work experience.

Code	Title	Units
ACCT 500	Principles of Accounting I	3
FIN 502	Business Finance for Managers	3
MGMT 502	Developing Management Skills	3
MGMT 503	Business Strategy: Theory and Practice	3
MKTG 502	Marketing Principles	3

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

View the **MBA-specific admission requirements (<https://www.apu.edu/business/programs/mba/admission/>)**.

Program Changes

If a student wishes to change programs, the School of Business and Management requires students to file a Change of Program form and comply with all program admission requirements.

Course Attendance and Schedule

The collaborative learning process that characterizes the MBA program requires that students are prepared to contribute value to class discussions and to the broader learning community based on their experiences. As such, class attendance is an important aspect of commitment to the MBA program, and absences from class are not appropriate except in cases of emergency.

Students should make note of the start and end of the term as they determine their schedules. Because program coursework is offered in accelerated seven-week sessions, students generally cannot miss more than one class without retaking the course. Students should notify instructors of planned absences as soon as possible and make arrangements with other students to get notes and assignments. Also, since every instructor considers participation in grading, absences and tardiness may significantly affect final grades.

Academic Honors

Outstanding Graduate

At each commissioning ceremony, graduate faculty may honor a single graduate with the distinction of Outstanding Graduate. The award is primarily based on academic achievement and is secondarily given to the outstanding candidate who contributed most to the APU MBA learning community.

Commissioning Ceremony

Preceding each commencement, the School of Business and Management holds a commissioning ceremony for graduating students and their families. This event includes an achievement awards ceremony, words to live by, student remarks, and a time of prayer and commissioning for each graduate.

Graduation

In order to graduate, students must complete the required courses with an overall grade-point average (GPA) of at least 3.0 within five years of matriculation. This includes completing every required course with a C- or above. All courses taken within the SBM and applied toward the MBA degree must be taken for a letter grade, except for courses offered only on a pass/fail (P/F) basis.

Field Study Fees

Mandatory and elected international field study, global field study, and field experience trips incur appropriate required fees. Students who switch programs, withdraw, or are otherwise unable to participate in international field study, global field study, or field experience trips that are either required or elected for their program may be responsible for fees up to the full cost of the trip. View the most up-to-date fees. (<https://www.apu.edu/graduateprofessionalcenter/sfs/costs/fees/>)

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate proficiency in multiple business disciplines.
2. Construct critical thinking processes to solve business problems.
3. Defend business decisions based on a Christian perspective.
4. Display strategic thinking through professional communication channels.
5. Be impactful team members.
6. Analyze cultural aspects of business in diverse environments.

Master of Business Management (MBM)

The Master of Business Management (MBM) program (<https://www.apu.edu/business/programs/masters-in-management/>) offers working professionals an accessible yet rigorous graduate business program that can be completed in 12-30 months. Coursework builds a foundation for successful executive leadership, development of a collaborative work ethic, expansion of management vision with global perspectives, ethical decision-making skills, and the ongoing quest for innovative value creation.

Program coursework provides students with the functional knowledge and strategic tools necessary for successful business management and leadership, as well as the scholastic and professional applications framework to acquire state-of-the-art global leadership and management perspectives. Focus is placed on creating value within organizations, and making continuous positive contributions in a rapidly changing, highly diversified, and increasingly integrated business environment.

The 39-unit MBM program develops exceptional business management professionals with outstanding moral character and strong analytical and innovative decision-making skills. The ethical leadership development vision that forms the core of the program is reflected in coursework designs, which combine classroom learning with hands-on experience. Real-life case studies provide students with résumé experience and allow students to build impressive portfolios. Previous real-life cases have included companies such as Pepsi, Target, and Kaiser Permanente, along with numerous nonprofits

and startups. International and national travel opportunities give students intensive boardroom field experience, where students get to dialogue with industry executives and government leaders.

Highlights

- The MBM program equips students with strong moral character and the management and leadership skills needed to lead change in today's business world.
- Relevant coursework and real-world projects guided by faculty with business experience allow students to immediately augment their résumé and apply learning at work.
- Focused certificates and credentials provide in-demand skills, know-how, and experience, verifying students' skills and abilities to current and future employers.
- Students learn from Fulbright Scholars and world-renowned professors with real-world organizational experience.
- International and national travel opportunities give students intensive boardroom experience, where students get to dialogue with industry executives and government leaders worldwide.
- Flexible course scheduling allows students to advance their academic and professional goals at their own pace.

Certificates, Credentials, and Microcredentials

Today, employers are looking for employees who can lead people and projects. The job market demands individuals with strong analytical and project management skills, as well as leadership abilities such as decision making and teamwork. In the MBM program, students have the opportunity to earn industry-valued, internationally recognized certificates, credentials, and microcredentials that can be added to résumés and uploaded to online portfolios, certifying and showcasing their mastery of these skills and abilities to potential employers.

Flexible Course Schedules

To accommodate busy schedules, classes are offered during the evening, afternoon, online, and at select regional campuses. Afternoon classes give students the opportunity to participate in real-life business strategy case studies with profit, nonprofit, and governmental organizations, and students may take advantage of the multiple delivery formats to customize their education experience. **Students are admitted to and can start the MBM program in any of the eight terms during the academic year.**

Requirements

To graduate, students must complete the required 39 units with a grade-point average of at least 3.0 within five years of matriculation. This includes completing all required courses with a C- or above. All courses taken within the SBM and used for a student's MBM candidacy must be taken for a letter grade, except courses offered only on a pass-fail basis.

Program Changes

If a student wishes to change programs, the School of Business and Management requires students to file a Change of Program form and comply with all program admission requirements.

Course Attendance and Schedule

The collaborative learning process that characterizes the MBM program requires that students be prepared to contribute value to class discussions and to the broader learning community based on their experiences. As such, class attendance is an important aspect of commitment to the MBM program. Absences from class are not appropriate except in cases of emergency.

Students should make note of the start and end of the term as they determine their schedules. Because the program coursework is offered in accelerated eight-week sessions, students generally cannot miss more than one class without retaking the course. Students should notify instructors of planned absences as soon as possible and make arrangements with other students to get notes/assignments. Also, since every instructor considers participation in grading, absences and tardiness may significantly affect final grades.

Academic Honors

Outstanding Graduate

At each commissioning, the graduate faculty may honor a single graduate with the distinction of Outstanding Graduate. The award is primarily based on academic achievement, but when a secondary factor is needed to make a selection, the committee determines which of the outstanding candidates contributed most to the learning community.

Sigma Iota Epsilon National Honorary and Professional Management Fraternity

The MBM program holds a prestigious membership in the Sigma Iota Epsilon (SIE) National Honorary and Professional Management Fraternity. Membership in SIE highlights the academic standards of the program and the qualifications of the faculty. Approval from the national chapter also affirms the contribution and value of scholastic achievement in APU's management programs.

APU's MBM fraternity, designated Sigma Iota Epsilon, Theta Kappa Chapter, extends individual membership to students who demonstrate high academic standing in the field of management. The vision of the Theta Kappa Chapter is to connect SIE's mission with APU's Four Cornerstones, creating a synergy that helps develop holistic and dynamic professionals in the business world. APU's programs aim at bridging the gap between theory and practice and helping prepare students to enter the management field and advance as leaders.

Commissioning Ceremony

Preceding each commencement, APU holds a commissioning ceremony for graduating students and their families. This event includes an awards ceremony, words to live by, student remarks, and a time of prayer and commissioning for each graduate.

Field Study Fees

Mandatory and elected international field study and field experience trips that are available on a program-by-program basis incur appropriate required fees. Students who switch programs, withdraw, or are otherwise unable to participate in international field study or field experience trips that are either required or elected for their program may be responsible for fees up to the full cost of the trip. View the most up-to-date list of fees (<https://www.apu.edu/graduateprofessionalcenter/sfs/costs/fees/>).

Master of Professional Accountancy (MAcc)

For more information: (626) 812-3085

The Master of Professional Accountancy (MAcc) (<https://www.apu.edu/business/programs/macc/>) program prepares students for careers as certified public accountants (CPAs). The program's curriculum combines coursework and an internship with a public accounting firm to prepare students to pass the CPA exam and meet the 150-semester-credit-hour rule required for certification by 49 of 50 states. The program focuses on developing students' character and competence consistent with the LP and Timothy Leung School of Accounting's vision (p. 672).

Ideal candidates will have recently completed an undergraduate degree in accounting, or in a related field with a concentration in accounting, with plans to enter the public accounting profession. Depending, however, on previous academic experience, students may be required to enroll in either the traditional option (p. 709) or the executive option (p. 709). Students in the traditional path, which is designed for students who do not have an undergraduate degree in accounting, or in a related field with a concentration in accounting, must complete additional academic coursework in order to prepare for the rigors of the MAcc program. These additional courses are listed below. Faculty from the MAcc program will communicate with students prior to the beginning of coursework regarding which path is most appropriate for them.

Highlights

- CPA exam pass rates in the top 20% of California universities.
- Students are able to earn the MAcc in as little as one year.
- Scholarships allow students to receive a Christian accounting education at a state-school price.
- Specialized credentials, such as Enrolled Agent and Certified Internal Systems Analyst, are now available.
- Graduates are placed with every major accounting firm in the U.S., from the Big Four to national and regional firms.
- 100% of our MAcc students have paid professional internships.
- 100% job placement rate of our domestic MAcc students in CPA firms by graduation.

Specialized Credentials and Applied Learning

Students have the opportunity to earn specialized credentials, such as the IRS Enrolled Agent and the Certified Information Systems Auditor credentials, increasing their value to potential employers. Additionally, students have the option of joining the Accounting Honors Society and participating in the Volunteer Income Tax Assistance (VITA) program, which gives students hands-on experience providing income tax assistance to low-income taxpayers in the surrounding communities. A comprehensive curriculum coupled with experiential learning techniques has led to CPA exam pass rates in the top 20% of California universities.

Internships and Job Placement

Accounting students are invited to participate in the annual Meet the Firms night. This event, hosted by the Accounting Honor Society, boasts outstanding successes. Typically, 60 accounting professionals representing 20 public accounting firms meet with APU students, along with students visiting from other universities. All of the Big Four (EY, PwC, KPMG, and Deloitte), several major national firms (CLA, BDO) and specialty firms (CapinCrouse, Ron Blue), and many regional and local firms (KSJG) attend Meet the Firms.

Accounting majors obtain paid internships with public accounting firms or in professional accounting. Job placement for accounting students also remains strong, with most CPA-track students placed prior to graduation.

LP and Timothy Leung Scholarships

With gratitude to the Leung Endowment, students may qualify for scholarships awarded on the basis of academic or other achievements.

Application Deadline

Applications are accepted year-round, but to ensure full consideration for scholarships and internships, completed applications should be received at least six weeks prior to the start of the term.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate proficiency in professional accounting subject areas.
2. Construct critical thinking processes to solve accounting problems.
3. Defend accounting decisions based on a Christian perspective.
4. Display strategic thinking through professional communication channels.
5. Be impactful team members.
6. Analyze cultural aspects of accounting in diverse environments.

Master of Public Administration

Program Mission

The Master of Public Administration (MPA) program (<https://www.apu.edu/clas/programs/mpa-degree/>) equips graduate students to become competent, confident, and ethical leaders who implement public policy effectively, efficiently, and responsively. Our goal is to develop Christ-centered difference makers in the public-sector environment promoting justice through scholarship and leading transformative practice.

The MPA prepares students to become leaders of change in their communities and government agencies by providing a comprehensive degree program that meets the demands of today's public administration agencies. The program's rigorous focus is on research, writing, and managerial decision making using data and cultural awareness to achieve the public good. Students are able to customize their degree by selecting a concentration. The degree requirement is 36 units.

Our vision is to:

- Prepare preservice and midcareer professionals to manage and make evidence-based decisions.
- Develop skills in critical thinking, analysis, data use, and research evaluation for meaningful real-world applications.

- Equip future leaders to think creatively and innovatively to solve problems and transform public, nonprofit, and private organizations.
- Prepare culturally confident public sector leaders who nurture collaborative relationships with diverse groups and lead in work, home, and community contexts.

Highlights

- The MPA program equips students with strong moral character and the leadership and analytical skills needed to lead change in today's public-sector environment.
- Relevant coursework and real-world projects guided by faculty with business experience allow students to immediately apply learning at work.
- Focused certificates and credentials provide in-demand skills, know-how, and experience, verifying and showcasing students' skills and abilities to potential employers.
- Students learn from Fulbright Scholars and world-renowned professors with real-world experience.
- Flexible course scheduling allows students to advance their academic and professional goals at their own pace.

Flexible Course Schedules

To accommodate busy schedules, classes are offered during the evening, in person, and online. Students may take advantage of the multiple delivery formats to customize their education experience. **Students are admitted to and can start the MPA program in any of the eight terms during the academic year.**

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Evaluate leadership and management techniques reflecting theories and practices of public administration.
2. Analyze effective strategies to manage policy programs reflecting the global professional standards and ethics of Network Schools of Public Policy Affairs and Administration (NASPAA).
3. Formulate innovative and value-based decisions to manage the political-administrative policy process and solutions for effective public service and program outcomes.
4. Communicate using a Christ-centered worldview and technologies (e-commerce, e-governance, e-learning) helpful to manage intergovernmental relations with diverse groups.
5. Differentiate the function of budgeting and financial planning approaches used by public sector organizations for economic and community development.
6. Develop personal and professional skills to make positive changes at work and in the community as honorable public servants.

Minor in Accounting

24 units

The accounting minor surveys the principles, theories, and concepts of the accounting profession. Its practical component leads to work assignments in international, national, and local certified public accountant (CPA) firms in students' junior and senior years. The combination of classroom theory and real-world experience also prepares candidates for the CPA examination administered by the various state boards of accountancy in the United States.

Benefits of Adding a Minor

A minor can help students complement their bachelor's degree and stand out to future employers, helping them expand their employment opportunities as they study an additional area of interest. Complementary minors provide students the opportunity to demonstrate added expertise in their field and specialize in an area that may provide an edge in their job search, and also add knowledge that can be used throughout an individual's career.

Requirements

No more than three courses in a student's major may count toward this minor.

Code	Title	Units
ACCT 120	Principles of Accounting I	3
ACCT 121	Principles of Accounting II	3
BUSI 110	Business and Entrepreneurship ^{1, 2}	3
ACCT 320	Intermediate Accounting I ^F	3
ACCT 321	Intermediate Accounting II ^S	3
ACCT 325 or ACCT 426	Cost Accounting ^S Auditing Principles I	3
ACCT 331 or ACCT 332	Federal Taxes I ^F Federal Taxes II	3
ACCT 336	Advanced Accounting ^F	3
Total Units		24

¹ BUSI 110 waived for all School of Business and Management majors except for B.A. in Economics majors. BUSI 110 should be taken in the freshman or sophomore year, if possible.

² Meets the General Education Civic Knowledge and Engagement requirement.

F	Offered in Fall only
S	Offered in Spring only
F/S	Offered in both Fall and Spring terms
EF	Offered in Fall in even years
ES	Offered in Spring in even years
OF	Offered in Fall in odd years
OS	Offered in Spring in odd years

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate mastery of key accounting content areas, such as financial reporting, business and economic concepts, auditing, and regulation.
2. Identify and solve accounting or business problems using analytical and critical thinking skills.
3. Compose responses to business decisions that demonstrate a Christian worldview.
4. Express themselves clearly and effectively through professional written and oral communications.
5. Demonstrate the ability to function as an effective business team member.

Minor in Business Administration (Professional)

21 units

Today's business leaders must be agile and able to adapt to a rapidly changing business world while leading employees by modeling character, integrity, and compassion. Relevant coursework addresses current issues in business and encourages the integration of real-world work experiences and hands-on projects. Students may combine these experiences with internships or international study opportunities to further expand their portfolio and network.

Benefits of Adding a Minor

A minor can help students complement their bachelor's degree and stand out to future employers, helping them expand their employment opportunities as they study an additional area of interest. The versatility of the business administration minor complements any major, giving students the opportunity to demonstrate management expertise in any field and possibly providing an edge in their job search, while also adding knowledge that can be used throughout an individual's career.

Certificates, Credentials, and Microcredentials

Throughout the program, students build on existing experience while gaining a strong foundation in business management and leadership. Students in this program also have the opportunity to earn internationally recognized certificates, credentials, and microcredential badges that can be added to résumés and uploaded to online portfolios, certifying and showcasing their mastery of certain skills or abilities to potential employers.

² Meets the General Education Civic Knowledge and Engagement requirement.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Critical Thinking: Identify and solve business problems using analytical and critical thinking skills.
2. Quantitative Reasoning: Analyze quantitative data to address real-world or discipline-specific business problems.
3. Information Technology: Apply current information technologies to business issues.
4. Christian Business Ethics: Use biblically-based ethics to make moral and virtuous ethical and socially responsible business decisions.
5. Written Communication: Convey ideas clearly and effectively through professional written communication.
6. Oral Communication: Communicate in informative or persuasive ways using the appropriate genre, channel, structure, and style.
7. Global/Multicultural Awareness: Informed by biblically-based ethics, students will identify and respond to cultural, economic, and political aspects of business in multicultural and global environments.

Minor in Business Analytics

21 units

The business analytics minor is for students interested in developing expertise in data science and data analytics with a specialization in the field of business. Students learn to analyze large quantities of data and discover value-oriented insights, becoming data-driven decision-makers in their organizations. Information is applied to a wide range of data-rich business domains such as accounting, economics, finance, marketing, human resource management, and supply chain management.

Benefits of Adding a Minor

A minor can help students complement their bachelor's degree and stand out to future employers, expanding their employment opportunities as they study an additional area of interest. Complementary minors provide students the opportunity to demonstrate added expertise in their field and specialize in an area that may provide an edge in their job search, and also add knowledge that can be used throughout an individual's career.

OF	Offered in Fall in odd years
OS	Offered in Spring in odd years

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Describe business issues which require business analytics' skills and methods.
2. Transform large quantities of real-life data from a wide range of domains to resolve issues.
3. Apply appropriate analytical methods (descriptive, diagnostic, predictive, and prescriptive analytics) to find solutions to business problems.
4. Explain the results of analytical activities clearly and concisely using oral, written, or electronic media.
5. Describe the ethical and legal issues involved with collecting, storing, and using big data from a Christian perspective.

Minor in Business Management

21 units

The business management minor program is designed for those who seek a broad spectrum of business courses necessary to lead and manage organizations. This program develops competence in conceptual, human, and technical skills, and these skills make students completing the program well prepared for employment in public and private-sector organizations.

Students in this program learn the management and leadership skills of planning, decision making, problem solving, communication, and delegation. Coursework in general business management and leadership includes a fundamental system of values that serves as the basis for decision making. This minor also emphasizes project and people management.

Benefits of Adding a Minor

A minor can help students complement their bachelor's degree and stand out to future employers, expanding their employment opportunities while they study an additional area of interest. The versatility of the management minor complements any major, giving students the opportunity to demonstrate management expertise in any field and possibly providing an edge in their job search, as well as adding knowledge that can be used throughout an individual's career.

Certificates, Credentials, and Microcredentials

Today, employers are looking for new hires with technical skills and leadership abilities such as decision making and teamwork. Students in this program have the opportunity to earn industry-valued certificates, credentials, and microcredential badges that can be added to résumés and uploaded to online portfolios, certifying and showcasing certain skills and abilities to potential employers.

Experiential Learning Opportunities

Study-away opportunities expose students to topics of globalization, trade, culture, and global management and leadership as they travel the world. Typically, these trips include visiting global and international organizations and learning from universities and business leaders around the world. Additionally, numerous School of Business and Management clubs offer students the chance to build skills in leadership, management, decision making, and teamwork.

Career Opportunities

At APU, students may choose from among a broad range of management course offerings. Business management minors are able to pursue work in a vast range of industries.

Requirements

No more than three courses in a student's major may count toward the business management minor.

Code	Title	Units

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Competent Business Knowledge: Students will be able to demonstrate knowledge in multiple business disciplines, including management, finance, marketing, accounting and economics.
2. Critical Thinking: Students will be able to identify and solve business problems using analytical and critical thinking skills.
3. Christian Business Ethics: Students will be able to demonstrate the ability to evaluate business decisions based on a Christian perspective.
4. Written Communication: Students will be able to convey ideas clearly through professional written communication.
5. Oral Communication: Students will be able to express ideas effectively through professional oral presentations.
6. Collaborative Teamwork: Students will be able to demonstrate the ability to function as an effective business team member.
7. Comprehensive Global Awareness: Students will be able to identify cultural, economic and political aspects of business in a global environment.
8. Discipline Knowledge: Students will be able to demonstrate knowledge of management concepts.
9. Discipline Problem Solving/Strategy: Students will be able to a) solve core management problems or b) analyze management situations and provide strategy for effectiveness.

Minor in Economics

21 units

The economics minor focuses on a deep understanding of the economic environment of business, including labor, environmental, and international issues. Students become grounded in economic theory and practical applications.

The Benefits of Adding a Minor

A minor can help students complement their bachelor's degree and stand out to future employers, helping them expand their employment opportunities as they study an additional area of interest. Complementary minors provide students the opportunity to demonstrate added expertise in their field and specialize in an area that may provide an edge in their job search, and also add knowledge that can be used throughout an individual's career.

Requirements

The economics minor allows no more than three courses in the student's major to count toward this minor.

Code	Title	Units

FIN 372	International Trade and Finance	
PADM 350	Theory and Practice of Public Administration	
PADM 399	Public Administration Practicum ^{4, 5}	
Total Units		21

¹ Meets the General Education Social Sciences requirement.

² Offered Fall semester.

³ Offered Spring semester.

⁴ Meets the General Education Civic Knowledge and Engagement requirement.

⁵ PADM 399 counts for 3 units of minor elective credit and 3 units of non-minor elective credit.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Competent Business Knowledge: Demonstrate knowledge in multiple business disciplines, including management, finance, marketing, accounting and economics.
2. Critical Thinking: Identify and solve business problems using analytical and critical thinking skills.
3. Christian Business Ethics: Demonstrate the ability to evaluate business decisions based on a Christian perspective.
4. Written Communication: Convey ideas clearly through professional written communication.
5. Oral Communication: Express ideas effectively through professional oral presentations.
6. Collaborative Teamwork: Demonstrate the ability to function as an effective business team member.
7. Comprehensive Global Awareness: Identify cultural, economic and political aspects of business in a global environment.
8. Discipline Knowledge: Demonstrate knowledge of economics concepts.
9. Discipline Problem Solving/Strategy: Solve core economics problems, or analyze economics situations and provide strategy for effectiveness.

Minor in Entrepreneurship

24 units

The entrepreneurship minor prepares students for the intricacies of planning, launching, and leading a new business, with a focus on creativity and innovation, managing and growing a new business, and social media. Coursework covers working in teams, constructing business models, communicating with partners and customers, assessing feasibility while launching a new venture or initiative, and creating a social media campaign.

Benefits of Adding a Minor

A minor can help students complement their bachelor's degree and stand out to future employers, helping them expand their employment opportunities as they study an additional area of interest. Complementary minors provide students the opportunity to demonstrate added expertise in their field and specialize in an area that may provide an edge in their job search, and also add knowledge that can be used throughout an individual's career.

Experiential Learning Opportunities

Entrepreneurship minors apply their knowledge and skills in academic and real-world settings. Guided by faculty, teams of students conduct needs assessments in local communities, identify potential solutions, and implement community impact projects. The communities benefit from collaboration and fresh innovation, and students gain valuable experience to advance their entrepreneurial résumés.

Students also have the option to participate in student clubs and competitions, such as ENACTUS, that provide skill-building opportunities in leadership, teamwork, and decision making. APU-sponsored teams have a track record of successful placement in ENACTUS competitions.

Credentials and Microcredentials

Today, employers are looking for new hires with technical skills and leadership abilities such as decision making and teamwork. Entrepreneurship minors have the opportunity to earn industry-valued credentials and microcredential badges that can be added to résumés and uploaded to online portfolios, certifying and showcasing these skills and abilities to potential employers.

Requirements

No more than three courses in a student's major may count toward this minor.

³ Meets the General Education Social Sciences requirement.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Competent Business Knowledge: Students will be able to demonstrate knowledge in multiple business disciplines, including management, finance, marketing, accounting and economics.
2. Critical Thinking: Students will be able to identify and solve business problems using analytical and critical thinking skills.
3. Christian Business Ethics: Students will be able to demonstrate the ability to evaluate business decisions based on a Christian perspective.
4. Discipline Knowledge: Students will be able to demonstrate knowledge of entrepreneurship concepts.
5. Discipline Problem Solving/Strategy: Students will be able a) solve core entrepreneurship problems or b) analyze entrepreneurship situations and provide strategy for effectiveness.

Minor in Finance

24 units

The finance minor is for students interested in the stewardship of the financial resources of individuals, corporations, or financial institutions. As future managers, students learn the principles and applications of financial analysis, management, and strategy, and gain experience in portfolio construction

and management. This program equips students with the theoretical understanding and practical skills necessary to evaluate and direct decisions regarding the allocation of financial resources among a variety of competing opportunities, with the goal of maximizing the value of the resources managed.

Benefits of Adding a Minor

A minor can help students complement their bachelor's degree and stand out to future employers, helping them expand their employment opportunities as they study an additional area of interest. Complementary minors provide students the opportunity to demonstrate added expertise in their field and specialize in an area that may provide an edge in their job search, and also add knowledge that can be used throughout an individual's career.

Experiential Learning Opportunities

As a business club hosted by Azusa Pacific's School of Business and Management and led by a faculty advisor and a board of finance professionals, SIF involves the practical application of classroom knowledge. Students practice hands-on investment strategies and are engaged to manage a portion of the university endowment through fundamental valuation.

Students joining the SIF have the opportunity to compete in the CFA Institute Research Challenge, which is a competition between university-sponsored teams that research a designated publicly traded company, prepare a written report on that company, then present their findings. SIF and the CFA competition give students hands-on training and mentoring in financial analysis.

Minor in Foundations of Business (MBA Preparation)

21 units

The foundations of business (MBA prep) minor is for non-business students who are interested in pursuing a Master of Business Administration (MBA) degree after completing their bachelor's program.

Azusa Pacific University's School of Business and Management offers a customizable, Christ-centered MBA degree program that prepares ethical leaders capable of adapting to the changing business landscape. This program teaches the key concepts and skills, both analytical and relational, to be successful managers and leaders in business and society. This minor prepares students to enter into APU's MBA degree program or any accredited MBA program after the completion of a bachelor's degree in a discipline outside of business.

No more than three courses in a student's major may count toward the foundations of business (MBA prep) minor.

Minor in Foundations of Management (MBM Preparation)

21 Units

The Foundations of Management (MBM prep) minor is for non-business students who are interested in pursuing a Master of Business Management degree (MBM) after completing their bachelor's program.

Azusa Pacific University's School of Business and Management offers a customizable, Christ-centered MBM that prepares ethical leaders capable of adapting to the changing business landscape. This master's in management program prepares students to become managers and leaders who can effectively motivate employees to exceed market expectations, improve competency levels and job performance, guide their organizations to invest in their workforce, and recruit, hire, and train the right individuals. Program graduates become experts in positively steering organizational change and creating a culture of teamwork.

No more than three courses in a student's major may count toward the foundations of management (MBM prep) minor.

Minor in Human Resources

21 units

The human resources minor provides students with a comprehensive understanding of the fundamental principles and practices of managing human capital within an organization. This program equips students with the knowledge and skills needed to effectively recruit, develop, and retain employees, and to navigate the complex legal and ethical considerations associated with employment.

Students will learn about a variety of topics, including compensation and benefits, employee relations, training and development, talent acquisition, diversity and inclusion, and strategic planning. Students will also explore the various challenges facing HR professionals in today's rapidly changing business landscape, such as the impact of technology on the workforce, the evolving nature of work and employment, and the importance of fostering a positive organizational culture.

Benefits of Adding a Minor

A minor can help students complement their bachelor's degree and stand out to future employers, helping them expand their employment opportunities as they study an additional area of interest. Complementary minors provide students the opportunity to demonstrate added expertise in their field and specialize in an area that may provide an edge in their job search, and also add knowledge that can be used throughout an individual's career.

Minor in International Business

24 units

The international business minor prepares students for careers in global business and international commerce. The program incorporates a global collaborative approach to the study of business, international management, strategic positioning, international trade, macroeconomics, and politics as it prepares students to work in a dynamic and interdependent global business environment.

Students explore various ethical, cultural, legal, and other differences that exist in international business and consider their individual and leadership responsibilities and actions. International business majors think through the various urgent challenges that face business environments today, including sustainability, climate change, energy and technological shifts, political shifts, and all forms of equity.

Students also acquire practical skills and experience through study-away opportunities, internships, and the opportunity to work with university students around the world in global colloquium case-study projects.

Benefits of Adding a Minor

A minor can help students complement their bachelor's degree and stand out to future employers, expanding their employment opportunities while they study an additional area of interest. Complementary minors give students the opportunity to demonstrate added expertise in any field and possibly provide an edge in their job search, and add knowledge that can be used throughout an individual's career.

Experiential Learning Opportunities

The International Business Global Colloquium gives APU students the opportunity to study various aspects of international business and international differences with students from different countries, schools, and programs for a significant social/international experience.

Study-away opportunities expose students to topics of globalization, trade, culture, and global management and leadership as they travel the world. Typically, these trips include visiting global and international organizations and learning from universities and business leaders around the world. Additionally, numerous student clubs offer the chance to build skills in leadership, management, decision making, and teamwork.

Certificates, Credentials and Microcredentials

Today, employers are looking for new hires with technical skills and leadership abilities such as decision making and teamwork. Students in this program have the opportunity to earn industry-valued certificates, credentials, and microcredential badges that can be added to résumés and uploaded to online portfolios, certifying and showcasing certain skills and abilities to potential employers.

Career Opportunities

International business careers may be found with multinational corporations, foreign companies, banks, international investments, export/import trade, international law, international nonprofit organizations, world missions, and public/foreign service. Some of these exist in expatriate opportunities and some through various other logistics and extensions. Individuals graduate from this program with significant international experience, as well as proficiency in a foreign language, and are in high demand in today's job market.

No more than three courses in a student's major may count toward the international business minor.

8. Discipline Knowledge: Students will be able to demonstrate knowledge of international business concepts.
9. Discipline Problem Solving/Strategy: Students will be able to a) solve core international business problems or b) analyze international business situations and provide strategy for effectiveness.

Minor in Leadership

18 units

The undergraduate leadership minor capitalizes upon the university's intention to develop disciples and scholars who seek to advance the work of God in the world. This minor does so by encouraging students to pursue excellence in their chosen major while also seeking proficiency as strengths-driven leaders. Students are encouraged toward lifelong development (as people and as leaders) and have the opportunity to create, articulate, and practice their own philosophy of Christian leadership.

Courses are thoughtful, challenging, and relationally focused while providing opportunities for reflection, conversation, and research. Students in the minor learn about whole-person development, leadership and virtue, the role of personal strengths and skills in good leadership, and how to lead as agents of change. Disciplined self-leadership, combined with the knowledge of how to facilitate effective collaboration, make leadership minor graduates an asset to any context in which they may serve.

Mission Statement

The leadership minor seeks to educate and inspire students to integrate their faith into their calling and, as people of integrity, live purposefully for the glory of God.

Benefits of Adding a Minor

A minor can help students complement their bachelor's degree and stand out to future employers, expanding their employment opportunities while they study an additional area of interest. The versatility of the leadership minor complements any major, giving students the opportunity to demonstrate management expertise in any field and possibly providing an edge in their job search, as well as adding knowledge that can be used throughout an individual's career.

Requirements

The minor in leadership comprises 18 units of leadership coursework.

Note: Seniors may take one course in the MA in Leadership program. If a student is accepted into the MA in Leadership, the course will count toward that degree as well.

Code	Title	Units
Core Courses		
LDRS 333	Leadership Influence and Impact ^S	3
ENTR 312	Creativity and Innovation ^F	3
MGMT 211	Organizational Leadership ¹	3
MGMT 212	Managing Diverse Teams and Groups ¹	3
Electives		6
Select two of the following:		
BUSI 350	Business Internship ²	
LDRS 103	Life Design and Self-Leadership ^F	
LDRS 495	Special Topics in Leadership ^S	
LDRS 497	Readings	
LDRS 512	EQ I: Self-Leadership	
MGMT 350	Business Management Internship ²	
MGMT 446	Introduction to Organizational Theory and Design	
MGMT 581	Ethical Leadership	
OPSY 515	Coaching Techniques and Application	
Total Units		18

¹ Meets the General Education Social Sciences requirement.

² Meets the General Education Integrative and Applied Learning requirement.

F	Offered in Fall only
S	Offered in Spring only
F/S	Offered in both Fall and Spring terms
EF	Offered in Fall in even years
ES	Offered in Spring in even years
OF	Offered in Fall in odd years
OS	Offered in Spring in odd years

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Understand and be able to express their personal leadership style.
2. Differentiate between Christian and non-Christian approaches to leadership.
3. Define followership and be able to enact it.
4. Facilitate effective collaboration.
5. Express their calling.
6. Delineate good leadership practices in their selected major.

Minor in Marketing

24 units

The marketing minor is for students who want to complement a major from a different field, as it adds the skills and abilities needed to be knowledgeable about marketing effectiveness in multiple areas. This program equips students with solid skills in marketing, which they can utilize to obtain an internship or secure a marketing-related position. Coursework in digital and social media marketing enables students to be influencers in the social media marketing environment.

Experiential Learning Opportunities

Skills are developed by hands-on class projects such as creating social media campaigns and creating a comprehensive digital marketing plan for an organization. Students can build their résumés through participation in student clubs that provide confidence and skill-building opportunities in leadership, team building, social media, event planning, and marketing supervisory or management positions.

Certificates, Credentials, and Microcredentials

Today, employers are looking for new hires with technical skills and leadership abilities such as decision making and teamwork. Students in this program have the opportunity to earn industry-valued certificates, credentials, and microcredential badges in social media [management](#), [sales management](#), and [marketing analytics](#) that can be added to résumés and uploaded to online portfolios, certifying and showcasing these skills and abilities to potential employers.

Benefits of Adding a Minor

A minor can help students complement their bachelor's degree and stand out to future employers, expanding their employment opportunities while they study an additional area of interest. Complementary minors give students the opportunity to demonstrate added expertise in any field and possibly provide an edge in their job search, and add knowledge that can be used throughout an individual's career.

Requirements

No more than three courses in the student's major may count toward this minor.

Code	Title	Units
BUSI 110	Business and Entrepreneurship ¹	3
MKTG 260	Principles of Marketing ²	3
MKTG 262	Consumer Behavior: An Applied Approach ¹	3
MKTG 361	Advertising and Integrated Marketing Communications	3
MKTG 466	Digital and Social Media Marketing	3
Select three of the following:		9
MKTG 350	Marketing Internship ³	
MKTG 363	Marketing Research	
MKTG 364	Sales and Sales Management ^S	
MKTG 368	Retail Management ^F	
MKTG 373	Global Marketing Management	
MKTG 465	Strategic Marketing Management	
Total Units		24

¹ Meets the General Education Civic Knowledge and Engagement requirement.

² Meets the General Education Intercultural Competence requirement.

³ Meets the GE Integrative and Applied Learning requirement.

F	Offered in Fall only
S	Offered in Spring only
F/S	Offered in both Fall and Spring terms
EF	Offered in Fall in even years
ES	Offered in Spring in even years

OF	Offered in Fall in odd years
OS	Offered in Spring in odd years

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Competent Business Knowledge: Demonstrate knowledge in multiple business disciplines, including management, finance, marketing, accounting and economics.
2. Critical Thinking: Identify and solve business problems using analytical and critical thinking skills.
3. Christian Business Ethics: Demonstrate the ability to evaluate business decisions based on a Christian perspective.
4. Discipline Knowledge: Demonstrate knowledge of marketing concepts.
5. Discipline Problem Solving/Strategy: Solve core marketing problems, or analyze marketing situations and provide strategy for effectiveness.

Minor in Public Administration

21 units

The public administration minor equips students with the knowledge necessary for careers in local, state, and federal government/politics and the nonprofit sector. Students in this program go beyond theory and gain valuable hands-on experience in public administration, including in the Public Administration Practicum course, which gives students the opportunity for internships in local, state, and federal government offices.

Benefits of Adding a Minor

A minor can help students complement their bachelor's degree and stand out to future employers, expanding their employment opportunities while they study an additional area of interest. Complementary minors give students the opportunity to demonstrate added expertise in any field and possibly provide an edge in their job search, and add knowledge that can be used throughout an individual's career.

Certificates, Credentials and Microcredentials

Today, employers are looking for new hires with technical knowledge and leadership abilities such as decision making and teamwork. Students in this program have the opportunity to earn industry-valued certificates, credentials, and microcredential badges that can be added to résumés and uploaded to online portfolios, certifying and showcasing certain skills and abilities to potential employers.

Total Units		21

¹ Meets the General Education Civic Knowledge and Engagement requirement.

² Meets the General Education Integrative and Applied Learning requirement.

³ Meets the General Education Oral Communication requirement.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate the origins, development, and practice of modern state and federal public administration, agencies and rule-making bodies.
2. Describe the proper relationship between government agencies, elected government office holders, and citizens.
3. Identify essential tools used by administrative agencies in designing rules and regulations.
4. Describe, assess views of the obligations Christians in public service have to their fellow citizens.

School of Education

The School of Education (<https://www.apu.edu/education/>) at Azusa Pacific University equips teachers, counselors, school psychologists, and administrators for excellence and leadership in educational settings. The school provides an EdD program in Educational Leadership, EdS degrees in School Psychology, master's programs, teaching credentials, and specialist credentials in special education, school counseling, and school psychology. The school also offers an undergraduate major and minor in liberal studies.

For a full listing of programs and affiliated faculty, visit the appropriate department or division pages: Educational Leadership (p. 735), School Counseling and School Psychology (p. 742), and Teacher Education (p. 769). (p. 769)

Mission Statement

Based upon Christian values and principles, the APU School of Education prepares educators to be creative, collaborative, critical thinkers and scholars for diverse educational settings.

Learner Goals

The School of Education seeks to prepare:

1. Ethical professionals who understand and articulate the integration of a Christian worldview in their communities of practice.
2. Responsive educators who practice reflective, creative, critical thinking in their engagement with diverse communities of learners.
3. Informed scholarly professionals who are dedicated to collaboration, professional growth, and lifelong learning.

Affiliated Programs

APU offers a number of California Commission on Teacher Credentialing (CTC)-approved subject-matter programs for candidates completing their bachelor's degrees. The following programs can be used to meet the subject matter authorization requirement for a preliminary teaching credential:

- English Approved Subject-Matter Program (p. 112)
- Mathematics Approved Subject-Matter Program (p. 185)
- Music Approved Subject-Matter Program (p. 377)
- Social Science Approved Subject-Matter Program (p. 166)

In collaboration with the College of Liberal Arts and Sciences, the School of Education offers the Integrated Bachelor's/Credential Program (p. 813) to undergraduate students seeking to earn a preliminary teaching credential in hard-to-staff areas (e.g., science, math, special education) during their undergraduate degree program.

Graduate Physical Education Programs

APU offers programs in graduate physical education. The Master of Arts in Physical Education and Single Subject Teaching Credential (p. 524), Master of Arts in Physical Education with an Added Authorization in Adapted Physical Education (p. 525), and the Adapted Physical Education Added Authorization (p. 520) programs are approved by the California Commission on Teacher Credentialing (CTC). For more information, visit the School of Behavioral and Applied Sciences (p. 463) section of this catalog.

School Nurse Services Credential

APU offers a program in school nursing services. The School Nurse Services Credential (SNSC) is approved by the California Commission on Teacher Credentialing (CTC). For more information, visit the School of Nursing (p. 826) section of this catalog.

School Social Work and Child Welfare and Attendance Services PPS Credential

APU offers a Pupil Personnel Services credential program in school social work and child welfare and attendance services, which is approved by the California Commission on Teacher Credentialing (CTC). For more information, visit the Department of Social Work (p. 589) section of this catalog.

Professional School-Level Dispositions

The School of Education has adopted a set of professional dispositions that represent the attitudes and behaviors expected of all education professionals, and reflect the values that are central to the School of Education mission. In addition to maintaining satisfactory academic progress, candidates are expected to demonstrate these dispositions throughout all education programs. Candidates who fail to meet the dispositional requirements will be evaluated for fitness to practice in the profession.

Credit Hour

The School of Education follows the university credit hour policy, except when clinical experience expectations from our professional accrediting bodies have expectations for more clock hours. Clinical experience expectations are guided by our professional accrediting bodies.

Department of School Counseling and School Psychology

- School Counseling – The California Commission on Teacher Credentialing (CTC) requires a minimum of eight hundred clock hours of supervised fieldwork/internship. This equates to eight units of fieldwork/internship within the program.
- School Psychology – The CTC requires a minimum of four hundred and fifty clock hours of practicum experience. This equates to three units of practicum within the program. Additionally, the CTC requires a minimum of twelve hundred clock hours of supervised fieldwork/internship. This equates to ten units of fieldwork/internship within the program.
- Applied Behavioral Analysis Specialization – The Behavior Analyst Certification Board (BACB) requires a minimum of 1,500 clinical hours for individuals applying for Certification before 1/1/2022 and 2,000 clinical hours for individuals apply for Certification 1/1/2022 and after. The ABA program includes two fieldwork courses that have assignments that must be completed in the field under the supervision of a Board Certified Behavior Analyst (BCBA) or School Psychologist. The time necessary to complete the assignments equates to approximately two hundred hours of fieldwork clock hours. These fieldwork courses support students toward meeting their clinical requirements for the BACB, and these courses equate to two units of fieldwork within the program.

Division of Teacher Education

- Preliminary Teaching Credential Programs – The CTC requires six hundred clock hours of clinical experiences. A minimum of sixty hours of early field experiences are embedded in foundations courses, while a minimum one hundred and forty hours of early clinical practice and four hundred hours of culminating clinical practice is completed at student teaching or internship. This equates to four units of clinical practice within the program.

Accreditation

Azusa Pacific University (APU) is accredited by the WASC Senior College and University Commission (WSCUC) (<https://www.wscuc.org>).

Additionally, APU has a number of professional accreditations and approvals related to its educator preparation programs:

- All programs that result in an educator credential are accredited by the California Commission on Teacher Credentialing (CTC) (<https://www.ctc.ca.gov/>) and the National Council for Accreditation of Teacher Education (NCATE), which is transitioning to the Council for the Accreditation of Educator Preparation (CAEP) (<https://caepnet.org/>). The following programs include an educator credential and were accredited under NCATE and are transitioning to CAEP:
 - a. Master of Arts in Education: Educational Counseling with an Embedded Pupil Personnel Services Credential in School Counseling (p. 750)
 - b. Master of Arts in Education: Educational and Clinical Counseling with an Embedded Pupil Personnel Services Credential in School Counseling (p. 752)
 - c. PPS: School Counseling Credential (p. 754)
 - d. Education Specialist (EdS) in School Psychology with Embedded Master of Arts in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology (p. 756)
 - e. Educational Specialist (EdS) in School Psychology: Clinical and Educationally Related Mental Health Counseling with Embedded Master of Arts in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology (p. 763)
 - f. Educational Specialist (EdS) in School Psychology: Applied Behavior Analysis with Embedded Master of Arts in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology (p. 759)
 - g. PPS: School Psychology Credential (p. 767)
 - h. Master of Arts in Education: Learning and Technology and Multiple Subject Teaching Credential (p. 791)
 - i. Master of Arts in Education: Learning and Technology and Single Subject Teaching Credential (p. 793)
 - j. Master of Arts in Education: Teaching and Multiple Subject Teaching Credential (p. 795)
 - k. Master of Arts in Education: Teaching and Single Subject Teaching Credential (p. 796)
 - l. Multiple Subject Teaching Credential (p. 798)
 - m. Single Subject Teaching Credential (p. 799)
 - n. Master of Arts in Education: Learning and Technology and Mild to Moderate Support Needs Education Specialist Credential (p. 805)
 - o. Master of Arts in Education: Learning and Technology and Extensive Support Needs Education Specialist Credential (p. 806)
 - p. Master of Arts in Education: Special Education and Mild to Moderate Support Needs Education Specialist Credential (p. 808)
 - q. Master of Arts in Education: Special Education and Extensive Support Needs Education Specialist Credential (p. 809)
 - r. Mild to Moderate Support Needs Education Specialist Credential (p. 811)
 - s. Extensive Support Needs Education Specialist Credential (p. 812)
 - t. Bachelor of Science in Allied Health with Integrated Single Subject (Science) Teaching Credential (p. 71)
 - u. Bachelor of Arts in Liberal Studies with Integrated Mild to Moderate Support Needs Education Specialist Credential (p. 816)
 - v. Bachelor of Arts in Liberal Studies with Integrated Extensive Support Needs Education Specialist Credential (p. 816)
 - w. Bachelor of Arts in Mathematics with Integrated Single Subject (Math) Teaching Credential (p. 187)
 - x. Master of Arts in Physical Education and Single Subject Teaching Credential (p. 524)
 - The Educational Specialist (EdS) in School Psychology programs are conditionally approved by the National Association of School Psychologists (NASP) (<https://www.nasponline.org/>).

Academic Policies

The following academic policies apply to credential and graduate programs.

Normal Progress Toward a Degree or Credential and Time Limit for Degree or Credential

School of Education students have a maximum of five years to complete all program requirements for the degree and/or credential, with the exception of doctoral students, who have six years to complete all program requirements. In rare instances, extensions may be requested by petition. Granting of such a petition may entail additional degree requirements, credential requirements, and/or repeating courses that have expired.

Good Academic Standing

To maintain good academic standing, School of Education students are expected to make satisfactory progress toward completion of their program. There are three criteria to the Good Academic Standing policy, in keeping with university academic quality standards and eligibility requirements for federal financial aid:

1. **Minimum GPA Requirement:** Students must maintain a minimum cumulative grade-point average (GPA) of 3.0 in their program of study.
2. **Time to Degree Completion:** School of Education students have a maximum of five years to complete all program requirements, with the exception of doctoral students, who have six years to complete all program requirements.
3. **Successful Completion of Credit (CR)/No Credit (NC) Courses:** School of Education students must earn a grade of *CR* for Credit/No Credit courses in which they enroll.

Academic Probation and Dismissal

Students who do not meet the definition of good academic standing outlined above are subject to academic probation and will be given one enrollment period to demonstrate satisfactory progress toward good academic standing. Certain designated courses within the School of Education (e.g., fieldwork, supervised teaching, dissertation courses, etc.) are graded on a Credit (*CR*)/No Credit (*NC*) basis. A grade of *NC* is interpreted as a failing grade, which can have implications for a student's continued satisfactory progress and academic standing.

Minimum Requirements for Certificate, Credential, Master's, and Combined Master's Degree and Credential Students

Students in master's and/or credential coursework must maintain a minimum cumulative GPA of 3.0. Courses with a grade lower than *B-* (including *NC* grades) are not applied to master's or educational specialist (Ed.S.) degree requirements or to credential/certificate requirements and must be repeated. Students who earn an *NC* grade are required to meet with their program director or chair to identify knowledge, skills, and/or dispositions that may need strengthening and to develop a performance improvement plan. Students who earn an *NC* grade will be placed on probation and given one enrollment period to demonstrate satisfactory progress according to the terms of the improvement plan. Students who do not meet the standards for satisfactory progress after a period of probation may be dismissed from the program.

Students are expected to successfully complete their culminating clinical practice, fieldwork, and internship courses at first attempt. On rare occasions, students with unsuccessful first attempts will be eligible to petition to the appropriate academic department to repeat the course. A successful petition is required for a student to repeat. A culminating clinical practice, fieldwork, or internship course can be repeated only once.

Students who earn an *NC* grade in a culminating clinical practice, fieldwork, or internship experience as a result of a lapse in professional responsibility, integrity, or ethical conduct may not be eligible to petition to repeat the course for which they received the nonpassing grade.

Minimum Requirements for Doctoral Students

A doctoral student must maintain a minimum cumulative GPA of 3.0. Courses with a grade lower than *B-* (including *NC* grades) are not applied toward doctoral degree requirements and must be repeated.

In order to ensure satisfactory academic progress, a doctoral student who receives an *NC* grade or grade lower than *B-* in 700-level courses, or whose grade-point average falls below 3.2, is required to meet with his/her advisor to identify academic skills that may need strengthening and to develop a performance improvement plan.

Doctoral students with a cumulative GPA lower than 3.0, or those who have earned two or more *NC* grades, will be placed on probation and given one enrollment period to demonstrate satisfactory progress according to the terms of the performance improvement plan. Students who do not demonstrate satisfactory progress according to the terms of the performance improvement plan after a period of probation may be dismissed from the program.

Program Expectations

- APU School of Education candidates prepare to work in schools as educators, including teachers, school and district leaders, school counselors and psychologists, and other specialty personnel. They must demonstrate the content, pedagogy, and writing skills and dispositions required of the profession. Therefore, the School of Education assesses candidates from admission through recommendation of credentials in both academic and dispositional standards.
- Candidates are expected to maintain a high level of professional and ethical behavior throughout the program. Failure to do so may result in discipline up to and including program dismissal.
- All candidates must have access to technology (i.e., computer and internet connectivity). Additional technology requirements are necessary for some programs. Check the program descriptions in this catalog for more information.
- Candidates who live in, work at, or relocate to a location more than 50 miles from the nearest Azusa campus (including regional campuses) must request approval from the department to participate in fieldwork and/or clinical experience at a distance following the process outlined in the Clinical Experience Locations section below. If the location is approved, the candidate may be assessed charges to cover the costs (e.g., travel, lodging, etc.) for fieldwork and/or clinical experience supervision.
- All credential standards and requirements for educator preparation programs are subject to CTC, NCATE (transitioning to CAEP), and federal policy changes, as well as university academic policy, and these supersede catalog descriptions of prior programs and requirements.
- Candidates participating in credential programs or bachelor's, master's or education specialist degree programs with credential embedded must be covered by professional liability insurance in their capacity as credential candidates.
- Candidates participating in fieldwork and/or clinical experience who are driving to school or agency sites must have proof of auto insurance.

Clinical Experience Locations

Candidates are required to complete fieldwork and/or clinical experience at sites where the School of Education has an executed Memorandum of Understanding (MOU), at sites that engage in ongoing partnership and collaboration with the School of Education, and at sites that are located within 50 miles of the nearest Azusa Pacific University campus where School of Education programs are offered (including regional locations). In rare instances, a candidate may be approved to participate in fieldwork and/or clinical experience at a location more than 50 miles from the nearest Azusa Pacific University campus; for a candidate to request consideration for such a placement, they must submit an Academic General Petition (<https://www.apu.edu/graduateprofessionalcenter/registrar/forms/>) providing a clear rationale as to why it is not possible to complete fieldwork and/or clinical experience at a site within 50 miles of the nearest Azusa Pacific University campus. If an MOU covering the fieldwork and/or clinical experience is not already in place with the requested site, the Academic General Petition must be submitted at least 4 months prior to the semester in which the fieldwork and/or clinical experience is scheduled to occur. When the Academic General Petition is approved, the School of Education will attempt to secure an executed MOU with the requested site, but there is no guarantee that the School of Education will be able to secure an executed MOU. If an MOU covering the fieldwork and/or clinical experience is in place with the requested site and valid throughout the time frame of the fieldwork and/or clinical experience, the Academic General Petition must be submitted at least 8 weeks prior to the semester in which the fieldwork and/or clinical experience is scheduled to occur. An Academic General Petition approved by the department and the School of Education dean's office, along with an executed MOU, is required before a candidate may begin any fieldwork and/or clinical experience more than 50 miles from the nearest Azusa Pacific University campus.

Certificate of Clearance

Azusa Pacific University requires candidates who are admitted to any program within the School of Education, or to credential programs housed within other schools in the university, to have and maintain a Certificate of Clearance or a valid and current credential for teaching, administration, counseling, school psychology, or nursing from the California Commission on Teacher Credentialing. Candidates who allow their Certificate of Clearance or other clearance document from the California Commission on Teacher Credentialing to expire will be prevented from enrolling in future terms. For more information, contact the Office of Credentials (<https://www.apu.edu/education/resources/credentials/>) at soecredentials@apu.edu.

Assessment System (Watermark's™ Student Learning & Licensure)

The School of Education uses Watermark's™ Student Learning & Licensure assessment system to support the collection and analysis of student outcomes in all degree and credential programs.

All School of Education candidates enrolled in a program leading to an educator credential are required to submit particular assignments and other forms in Watermark's™ Student Learning & Licensure (often via Canvas submission) by the deadline specified in the course syllabus. Successful evaluation of necessary submissions is required for degree completion and/or recommendation for a credential to the California Commission on Teacher Credentialing (CTC). It is the responsibility of the candidate to ensure that assignments and forms are submitted as indicated in the assessment system.

At the start of a candidate's first term in the School of Education, instructions on the assessment system will be provided by email. All assessment-system-related inquiries may be sent to soewatermark@apu.edu.

Office of Credentials

The Office of Credentials (<https://www.apu.edu/education/resources/credentials/>) provides a centralized location in which prospective and current School of Education candidates, faculty, staff, and the community can receive accurate, comprehensive, and complete information and advisement regarding

the requirements involved in obtaining California credentials and certificates authorizing service in California schools. It is the candidate's responsibility to submit a credential application through the Office of Credentials upon completion of a credential program in order to receive their California educator's credential. The Office of Credentials also provides credential-related services to subject-matter preparation programs and credential programs offered through the College of Liberal Arts and Sciences (<https://www.apu.edu/clas/>), the College of the Arts (<https://www.apu.edu/arts/>), the School of Behavioral and Applied Sciences (<https://www.apu.edu/bas/>), and the School of Nursing (<https://www.apu.edu/nursing/>). For more information, email soecredentials@apu.edu.

Department of Educational Leadership

The Department of Educational Leadership (<https://www.apu.edu/education/leadership/>) offers an EdD in Educational Leadership that prepares scholar-practitioners with the knowledge and skills to make a transformative impact on schools and districts and in the lives of students in them.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Program

Doctoral

- Doctor of Education (EdD) in Educational Leadership (p. 738)

Courses

EDL 702, Proseminar in Educational Leadership, 1 Unit

As a required course for all incoming doctoral students in the Educational Leadership program, the proseminar has three primary goals: 1) to orient students to the intellectual life of doctoral study; 2) to provide opportunities for students to become familiar with steps and procedures required for successful completion of the doctoral program, including a plan and timeline for accomplishing major academic and professional milestones; and 3) to introduce students to the technology, tools, and academic resources needed for doctoral study, including use of the Azusa Pacific University library catalog and databases. The proseminar provides an early opportunity for students to prepare for the rigors of doctoral work and to become familiar with the culture and expectations of the Educational Leadership program. All proseminar activities are designed to help students develop connections with each other and with the faculty to create a community of learners and scholars.

EDL 710, Developing the Leader Within, 2 Units

Leadership impact and influence - positive or negative - are greatly related to the skills, values, and principles of the leader. This course will focus on the mental, ethical, psychological, spiritual, and emotional aspects of leadership, both in the context of the literature, as well as through use of various assessments. These will include guided self-reflection and a 360-degree assessment by those within the leader's span of influence. Patterns of leadership failure will also be explored.

EDL 712, Leading Change in Education: Theory to Practice, 3 Units

This course examines leadership, organizational development, and change theories, with particular application to contemporary public K-12 environments - classroom, school, district, state, and national arenas. The emphasis is on the role of leader as change agent within systems and/or organizations, as well as on the impact of change on individuals and communities. Theoretical as well as practical perspectives relative to the nature of leadership are balanced in the context of discussion of the implications for practice. Leadership in the context of organizational culture, communication, motivation, integrity, and change is incorporated throughout the course.

EDL 713, Diversity and Equity in Education, 3 Units

Students examine diversity and equity issues impacting P-12 students, schools, and communities. Relevant theoretical perspectives are explored to help students deepen their knowledge, skills, and dispositions in order to perpetuate or to change cross cultural patterns in schools. The course raises issues related to justice, excellence, and other topics that call for reflection and the student's ability to intervene as needed.

EDL 716, Educational Policy: Analysis, Praxis, and Reform, 3 Units

The purpose of this course is to prepare students to critically analyze, formulate, and implement educational policies and practices that advance the achievement of P-12 students. Theory and praxis aligned to federal, state, local, and district policies will be examined. The impact of historical and current legislative trends, (such as school funding policies, accountability, and certification processes), will be appraised, interpreted, and critiqued. Implications for various student populations will be considered.

EDL 718, Group Dynamics and Conflict, 2 Units

This course is focused on group dynamics and conflict that arise in all work groups. The roles of all individuals within the group, with focus on leadership styles, healthy group conflict, resolving conflict, and techniques for improving group decision making are explored, and ethical and legal issues related to group interventions are discussed.

EDL 719, Special Topics in Educational Leadership, 3 Units

This course will serve as a "contemporary issues" course for the EdD in Educational Leadership, providing an opportunity to focus in depth on issue(s) in the ever-changing field of public K-12 education, incorporating a fieldwork component to enhance integrated learning, drawing from themes of earlier classes in the program. It will take one of two forms: 1) traditional classroom-based course, with a lead faculty and special speakers who provide "real-time" expertise to the particular specialty topic; 2) travel course to look at K-12 educational issues at a state, national, or international level.

EDL 722, Strategic Planning for Educational Systems, 3 Units

This course focuses on the theory and practice of strategic planning in education systems, introducing various approaches to designing and conducting strategic planning processes, including specific techniques for conducting environmental scans, SWOT analyses, strategic issue identification, and strategy formulation. This course includes an embedded fieldwork component.

Prerequisite: EDL 716

EDL 723, Legal Issues and Crisis Management in Schools, 3 Units

This course is designed to prepare students to function as school leaders in the areas of legal issues and crisis management. During this course, students will be introduced to a number of critical legal issues in schools, including suspension and expulsion, manifestation determination, student records, school safety, and privacy, including internet privacy. Students will also explore issues related to school crisis, including crisis planning, crisis teams, crisis response, and district-level and school-level issues. Each student will critique several districts' crisis plans, and will develop a crisis plan. This course includes an embedded fieldwork component.

EDL 724, Ethical Leadership in Education, 3 Units

Students examine ethical dilemmas of leadership within contemporary educational institutions and the context of the communities they serve. The role and function of integrity, justice, fairness, and courage in leadership are examined within public and nonpublic school settings. Ethical dilemmas encountered by students in their leadership roles are explored using case study research methodologies, and evaluated in terms of value claims, propositions, and beliefs of contemporary philosophies and a Christian perspective of truth and life. Personal ethics are studied in terms of integrity in pursuing one's own sense of destiny and "calling" in the leadership roles assumed.

EDL 760, Dissertation Milestone: Proposal A - Nature of Inquiry and Chapter 1, 2 Units

This course offers students an opportunity to begin exploring key aspects of the research process: question formulation, literature search and review, research design, data collection and analysis, drawing conclusions, and identifying implications. Students are given the opportunity to enhance their skills in locating and evaluating the literature of the field, exploring scholarly writing and identifying possible dissertation topics. Upon successful completion of the course, students have an initial draft of the introduction (Chapter 1) of the proposal.

EDL 761, Introduction to Educational Research, 2 Units

This course introduces quantitative and qualitative research designs. Students examine the role of theory and research, and their applications to practice in education. Statistical concepts, such as hypothesis testing, and basic descriptive and inferential statistics, are presented in relation to quantitative research designs. Students experience hands-on computer applications with SPSS software. Qualitative approaches to research are also explored, through reading and evaluating empirical research.

EDL 762, Quantitative Inquiry in Education, 3 Units

This course introduces students to quantitative inquiry methods and applications of statistical procedures to practical educational research problems. Emphasis is placed on inferential and univariate statistics and various multivariate analysis techniques such as multiple regression, factorial ANOVA, multivariate ANOVA, and repeated measures. Students develop an understanding of the relationship between statistics and research design and learn to choose and apply the most appropriate statistical procedures in correlational and experimental studies.

Prerequisite: EDL 761

EDL 767, Qualitative Inquiry in Education, 2 Units

This course introduces the perspectives, purposes, designs, analysis, interpretation, and reporting of qualitative research in the field of education through reading and discussion of exemplifying articles. Ethnography, phenomenology, narrative inquiry, case study, grounded theory, and qualitative evaluation studies are among the designs examined. The data collection methods of observation, interviewing, and document analysis are studied and practiced.

Prerequisite: EDL 761

EDL 768, Methods of Data Collection and Analysis, 2 Units

The course addresses methods of data collection and analysis procedures for quantitative and qualitative research. Probability and non-probability samplings and purposive sampling, instrument designs will be discussed. Data analysis methods will be practiced.

Prerequisite: EDL 762, EDL 767

EDL 769, Program Evaluation in Education: Assessment for Decision Making, 3 Units

This course introduces the skills and knowledge of the field of program evaluation, and their application to educational programs. In addition to understanding and identifying the issues and problems that threaten validity and reliability in program evaluations, students learn to be thoughtful consumers of evaluations and produce their own evaluation design. While theory guides the discussion of issues, emphasis is placed on application to good practice. Students produce a brief literature review, design and execute a program evaluation, and report the decision(s) based on the findings. This course includes an embedded fieldwork component.

Prerequisite: EDL 762, EDL 767

EDL 770, Dissertation Milestone: Proposal B, 1 Unit

This course helps students continue to formulate research concepts while conferring with their dissertation chairs to develop the initial chapters of the proposals.

Prerequisite: EDL 761

EDL 771, Dissertation Milestone: Proposal C, 2 Units

This course facilitates the completion of the literature review for students' dissertation topics, building on academic writing skills and higher-level critical thinking skills required for educational research, including analysis, synthesis, and evaluation of existing scholarly literature. Upon successful completion of this course, students have an initial draft of the dissertation literature review (Chapter Two).

Prerequisite: EDL 770

EDL 772, Dissertation Milestone: Finalizing the Proposal, 2 Units

This course serves as a checkpoint assessment of student readiness to complete the dissertation. Emphasis is on finalizing a well-designed dissertation proposal draft that establishes the conceptual and methodological basis for their research, with clear alignment between the research questions, scholarly literature, and methodology. A draft of the IRB application is also developed within this course.

Prerequisite: EDL 771

EDL 773, Dissertation Milestone: Data Collection, 1 Unit

The purpose of this course is to assist students in collecting research data with tests, self-report measures, questionnaires, interviews, observations, documents, or audio-visual materials. Emphasis is placed on enhancing the quality and credibility of the qualitative data and building the validity and reliability of the quantitative data. Upon successful completion, students will have collected the data that they proposed. This course can be repeated in the following semester if data collection is not completed.

Prerequisite: EDL 772

EDL 774, Dissertation Milestone: Data Analysis, 1 Unit

This course is designed to guide and enable students to engage in data analysis processes for their dissertation. During the course students will work with their dissertation committee and meaningfully analyze the qualitative and quantitative data collected. Upon completion, students will have prepared and analyzed the data they have collected using appropriate measures and techniques.

Prerequisite: EDL 773

EDL 776, Dissertation Milestone: Results, Discussion, and Conclusion, 2 Units

The purpose of this course is to guide students in providing an in-depth interpretation, analysis, and synthesis of the dissertation results. During this course students will work with their committee members to explore their dissertation findings in light of the study's research questions, literature review, and conceptual framework. Emphasis will be placed on providing students an opportunity to reflect thoroughly on the study's findings and the practical and theoretical implications. Upon completion, students will have developed their Findings (Chapter 4), Discussion of Findings and Conclusion (Chapter 5) toward completion of the dissertation.

Prerequisite: EDL 774

EDL 777, Dissertation, 2 Units

After completing all other program coursework requirements, Ed.D. students work with their dissertation committee in conducting a doctoral-level research project in educational leadership. Students enroll for two units of dissertation credit and must reenroll each semester until the dissertation is completed and successfully defended, APA edits are completed, and the dissertation is submitted for library review and publication.

Prerequisite: EDL 776

Faculty

Chair, EdD in Educational Leadership

EdD in Educational Leadership

For more information: (626) 815-5374

Azusa Pacific University's EdD in Educational Leadership (<https://www.apu.edu/education/programs/doctor-in-educational-leadership/>) is a practitioner-based program that places emphasis on applied research that results in direct, positive change in K-12 settings. The program prepares scholar-practitioners who are equipped with the knowledge and skills to make a transformative impact on schools and districts and the lives of students in them.

Mission Statement

The EdD in Educational Leadership program at APU, a Christ-centered university, enables culturally aware K-12 leaders to implement research-based practices as change agents.

Program Requirements

Students must complete 51 units of coursework, and successfully complete the written dissertation, oral defense, and required corrections as well as a public dissertation presentation.

Coursework Requirements

Code	Title	Units
Required Courses		
Orientation		
EDL 702	Proseminar in Educational Leadership	1
Leadership Content		
EDL 710	Developing the Leader Within	2
EDL 712	Leading Change in Education: Theory to Practice	3
EDL 713	Diversity and Equity in Education	3
EDL 716	Educational Policy: Analysis, Praxis, and Reform	3
EDL 718	Group Dynamics and Conflict	2
EDL 719	Special Topics in Educational Leadership	3
EDL 722	Strategic Planning for Educational Systems	3
EDL 723	Legal Issues and Crisis Management in Schools	3
EDL 724	Ethical Leadership in Education	3
Research Methodology and Design		
EDL 761	Introduction to Educational Research	2
EDL 762	Quantitative Inquiry in Education	3
EDL 767	Qualitative Inquiry in Education	2
EDL 768	Methods of Data Collection and Analysis	2
EDL 769	Program Evaluation in Education: Assessment for Decision Making	3
Dissertation Milestones		
EDL 760	Dissertation Milestone: Proposal A - Nature of Inquiry and Chapter 1	2
EDL 770	Dissertation Milestone: Proposal B	1
EDL 771	Dissertation Milestone: Proposal C	2
EDL 772	Dissertation Milestone: Finalizing the Proposal	2
EDL 773	Dissertation Milestone: Data Collection	1
EDL 774	Dissertation Milestone: Data Analysis	1
EDL 776	Dissertation Milestone: Results, Discussion, and Conclusion	2

Grading and Grade-Point Average (GPA)

Throughout higher education, and particularly at the doctoral level, commitment to learning should outweigh the pursuit of grades. Nonetheless, grading and grade point average continue to play a crucial role in students' studies. For doctoral students, the grade of *B-* is considered minimally acceptable. Courses graded lower than *B-* are not applied toward doctoral degree requirements and must be repeated.

A doctoral student must maintain a minimum cumulative GPA of 3.0 in 700-level courses and receive no grade lower than *B-* in 700-level courses. Courses graded lower than *B-* are not applied toward doctoral degree requirements and must be repeated. A cumulative GPA lower than 3.0 or the receipt of a grade lower than *B-* in 700-level courses will result in the student being placed on probation. A doctoral student who is on probation for more than a total of two terms throughout his or her doctoral study may be dismissed from the program. Probation and dismissal actions are posted on a student's transcript.

A doctoral student whose grade point average falls in the range of 3.0-3.2 is required to meet with his/her advisor to identify academic skills that may need strengthening and to take appropriate action.

Other Degree Requirements

Advancement to Candidacy

Following approval of the dissertation proposal by the dissertation committee, doctoral students are advanced to candidacy status.

Dissertation

Doctoral students are required to complete a dissertation, the standards and procedures for which are defined by program faculty in keeping with the APU Style and Format Handbook for Dissertation and Thesis Publications. To be approved for a dissertation defense date, students must complete all requisite coursework, including EDL 776, and have the approval of their dissertation committee. Continuous enrollment in EDL 777 is required until the dissertation is successfully defended and submitted to an APU external reader.

After candidates successfully defend their dissertation in a meeting with their faculty committee, they must complete required corrections and submit the approved changes to an APU external reader. The final step of the dissertation requirement is to participate in a scheduled public presentation of the research to the department.

Doctoral students who have completed all program requirements; successfully defended, published, and presented their dissertation; and fulfilled all obligations of the university will have their doctoral degree posted and will be entitled to use the term "doctor."

Continuous Progress

In order to receive credit for EDL 772, EDL 773, EDL 774, EDL 776, and EDL 777, doctoral candidates must maintain active student status and make continuous progress toward completion of the dissertation. Continuous progress of doctoral candidates is assessed each term on all of the following expectations:

- maintaining regular contact with the dissertation chair;
- conducting research and/or submitting high-quality drafts in a timely manner, consistent with the timeline established with the dissertation committee.

Candidates who require additional time to complete the dissertation after other coursework is complete must maintain continuous enrollment in EDL 777. Those who receive *NC* for EDL 777 will need to submit a report on their progress in candidacy and will enter into a probationary period for one term. Candidates who fail to maintain progress after a probationary period may be recommended for termination from the program.

Leaves of Absence

Students in good standing and making satisfactory progress toward their degrees who must interrupt their studies for a compelling reason (e.g., illness, study away, family conditions, or crises) may petition for a leave of absence for a stated period of time not to exceed two years. Requests for a leave must be in writing and state the reasons for the leave and the term in which the student will reenroll. Leaves of absence must be approved by the chair of the Department of Educational Leadership and the dean of the School of Education in advance of the term for which the leave is requested.

Students who fail to return to enrolled status at the end of an approved period of leave, or after three consecutive terms of nonenrollment (e.g., fall, spring, and summer semesters), will be considered no longer in pursuit of an advanced degree and must reapply for admission. If readmitted at a later date, students must meet any new program requirements.

Degree Completion Time

Doctoral students are permitted six years from the date of initial enrollment to complete all requirements for the EdD degree. Extensions beyond the six-year limit may be granted at the discretion of the department chair and the dean of the School of Education. Students needing an extension due to

unusual circumstances must make their request in writing, stating the reason(s) for the extension, a timetable for completion of requirements, and the expected date of degree completion.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Application Deadlines

Completed applications with all supporting documentation must be received by one of the following deadlines:

- Priority deadline: May 1 (apply by this date to receive full consideration for scholarships)
- Regular deadline: June 1

Interview

Upon invitation, doctoral applicants interview with at least two members of the doctoral faculty. The purpose of the interview is to meet the applicant, discuss education and career goals, evaluate the match of the program to the applicant, and determine the applicant's potential for success in the program.

Admission Decisions

Program applicants must meet department and university criteria for admission. The department reserves the right to offer conditional admission to students who do not meet all the admission criteria. In such cases, the requirements necessary for full admission and the time limit for completing them will be stated in writing. Failure to meet these requirements may result in dismissal from the program.

Computer Requirement

Students must own or have ready access to a computer during their tenure in the program. The SPSS statistical software package is required of students in their research courses throughout the program. The Campus Store (<https://bookstore.apu.edu>) makes arrangements to enable students to purchase computers and software at economical rates on convenient terms. Often, the required purchase of the laptop and software can be budgeted into student loans. For more information, contact the Graduate and Professional Student Financial Services office (<https://www.apu.edu/graduateprofessionalcenter/sfs/>) at (626) 815-2020.

Study Load

The three-year, dissertation-embedded EdD program is a full-time commitment requiring continuous full-time enrollment. To maintain the appropriate course sequence, doctoral students must enroll in all courses designated for each academic term. Requests to enroll for fewer units than designated are approved only in specific circumstances. Any leave of absence will be in a one-year increment and will require stopping out until the following year, when the next course sequence is offered.

Residence Requirement

Doctoral students must meet a residency requirement by completing a minimum of 41 units toward the doctoral degree at APU.

Transfer Units

Doctoral students may transfer up to 10 units of coursework with a grade of *B* or higher from another regionally accredited doctoral program. Official transcripts and syllabi must be submitted to the program director, who will determine the courses that successfully transfer.

Schedule

The program requires a full-time, year-round commitment (fall, spring, and summer). Face-to-face classes are held six Saturdays per 16-week term in both fall and spring, and four Saturdays during the 8-week summer term, with additional instruction provided online. Check with the program office to determine meeting dates and times.

Advisement

During the first semester of the doctoral program, students enroll in a 1-unit proseminar course that serves as an orientation and initial advising into the program. The proseminar has three primary goals: 1) to orient students to the intellectual life of doctoral study; 2) to provide opportunities for students to become familiar with steps and procedures required for successful completion of the doctoral program, including a plan and timeline for accomplishing major academic and professional milestones; and 3) to introduce students to the technology, tools, and academic resources needed for doctoral study,

including use of the Azusa Pacific University library catalog and databases. All proseminar activities are designed to help students develop connections with each other and with the faculty to create a community of learners and scholars.

Upon successful completion of the first semester, and once a student begins dissertation work, the dissertation chair serves as the primary academic advisor for the remainder of the student's time in the program.

Financial Aid

Federal Stafford loans and personal bank loans are available to all eligible graduate students through the student financial services office in the Student Services Center (<https://www.apu.edu/graduateprofessionalcenter/>). Students are advised to contact that office early in the admissions process. The School of Education offers multiple scholarships (<https://www.apu.edu/education/scholarships/>), including the following opportunities exclusively for doctoral students:

Lillian B. Wehmeyer Scholarship Endowment

This scholarship is in memory of the late Lillian B. Wehmeyer, PhD, former faculty in the School of Education doctoral program, who lived with a passion for assisting doctoral students in successful research. The Lillian B. Wehmeyer Scholarship (<https://www.apu.edu/graduateprofessionalcenter/sfs/financialaid/types/scholarships/education/#lillianbwehmeyerscholarship>) assists doctoral program students in the School of Education who demonstrate satisfactory academic progress, commitment to service, and financial need.

EdD Program Scholarship

Azusa Pacific University offers competitive scholarship support to newly admitted doctoral students who demonstrate outstanding leadership qualities or leadership potential in K-12 education and who are committed to serving under-resourced schools and districts. Priority is given to current practitioners who are leading their schools and districts toward improved performance. Admitted applicants are considered for these awards based on an overall assessment of their admission application. No separate application required. This scholarship is renewable and may be received for a total of three years. Continuous enrollment, good academic standing (minimum 3.5 GPA), and employment in K-12 education are required for annual award renewal.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Values-Driven Leader: Exemplify professional ethics and personal integrity, articulate core values for self and organization, and lead with Christian values and principles that honor the worth of all individuals.
2. Change Agent: Set clear goals and direction, analyze current practices, and make sound decisions about what to change, and appropriately monitor change efforts.
3. Effective Communication: Write accurately and coherently, following APA format, and present data in user-friendly format to various constituent groups.
4. Problem Identification: Formulate a research question and identify significant questions and impact.
5. Data Collection and Analysis: Conduct literature searches, evaluate research literature, and synthesize existing information; design research, select appropriate research tools, collect and analyze data, and communicate findings.
6. Apply Research to Practice: Critically evaluate research and use research evidence to inform practice.

Department of School Counseling and School Psychology

The Department of School Counseling and School Psychology (<https://www.apu.edu/education/counselingspsych/>) offers adult learners academic and practical preparation for careers in school counseling and school psychology. The department provides coursework and supervises fieldwork leading to the Master of Arts in Education: Educational Counseling; the Master of Arts in Education: Educational and Clinical Counseling; the Educational Specialist in School Psychology with Embedded Master of Arts in Education: Educational Psychology; the Educational Specialist in School Psychology: Clinical and Educationally Related Mental Health Counseling with Embedded Master of Arts in Education: Educational Psychology; and the Educational Specialist in School Psychology: Applied Behavior Analysis with Embedded Master of Arts in Education: Educational Psychology. In addition, the department offers a credential-only program for those who hold a master's degree and PPS Credential in School Counseling and wish to seek an additional PPS Credential in School Psychology, or vice versa. The department also offers an Applied Behavioral Analysis specialization (BCBA Certificate) and a Clinical and Educationally Related Mental Health Counseling specialization.

Student Dispositional Expectations

All candidates in the Department of School Counseling and School Psychology will be evaluated on their professional attitudes, values, and beliefs demonstrated through both verbal and nonverbal behaviors as educators interact with students, families, colleagues, and communities. These positive behaviors support student learning and development. All candidates will be evaluated by faculty with regard to student dispositions throughout their program; any candidate who does not meet minimal expectations with regard to student dispositions will be required to meet with the department chair or the chair's designee to develop an improvement plan. Students who fail to meet the remedial dispositional requirements will be evaluated for fitness to practice in the profession.

Programs

School Counseling

- Master of Arts in Education: Educational Counseling with Embedded Pupil Personnel Services Credential in School Counseling (p. 750)
- Master of Arts in Education: Educational and Clinical Counseling with Embedded Pupil Personnel Services Credential in School Counseling (p. 752)
- PPS: School Counseling Credential (p. 754)

School Psychology

- Educational Specialist in School Psychology with Embedded Master of Arts in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology (p. 756)
- Educational Specialist in School Psychology: Clinical and Educationally Related Mental Health Counseling with Embedded Master of Arts in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology (p. 763)
- Educational Specialist in School Psychology: Applied Behavior Analysis with Embedded Master of Arts in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology (p. 759)
- PPS: School Psychology Credential (p. 767)

Certificate

- Applied Behavioral Analysis Specialization (BCBA Certificate) (p. 767)

Courses

ABA 500, ABA Fieldwork I, 1 Unit

This course is a companion to the first four courses in the seven-course sequence that fulfills the coursework requirement to become a Board Certified Behavior Analyst (BCBA). This course includes 200 hours of supervised fieldwork. Students must find a mentor willing to supervise their fieldwork hours. While a BCBA mentor is preferred, for the purpose of this class students may also be supervised by a behavior intervention case manager (BICM), behavior specialist, or a school psychologist with at least five years of experience of designing behavior intervention plans (BIPs) and/or behavior support plans (BSPs) and completing functional behavioral assessments (FBAs).

Prerequisite: ABA 503

ABA 503, Theory and Philosophy of Behavior Analysis, 3 Units

This is the third of seven courses that fulfill the coursework requirement to become a Board Certified Behavior Analyst (BCBA). This course focuses on the philosophical underpinnings of behaviorism and examines the theoretical foundations of the science of behavior analysis. Students examine the theoretical assumptions associated with behavior analysis as a philosophy of science and relate them to current applications.

Prerequisite: ABA 505

ABA 504, Single-Case Designs: Measurement and Experimental Evaluation of Behavior, 3 Units

This is the second of seven courses that fulfill the coursework requirement to become a Board Certified Behavior Analyst (BCBA). Students are introduced to single-subject design and learn how to collect, display, analyze, and interpret data using continuous and discontinuous measures.

Prerequisite: ABA 503 (may be taken concurrently)

ABA 505, Foundations In Applied Behavior Analysis, 3 Units

This is the first of seven courses that fulfill the coursework requirement to become a Board Certified Behavior Analyst (BCBA). This course focuses on concepts and principles from the field of applied behavior analysis. Topics include characteristics of ABA, basic principles of behavior, positive and negative reinforcement, positive and negative punishment, extinction, schedules of reinforcement, functions of behavior, motivating operations, stimulus control, and verbal behavior.

ABA 510, ABA Fieldwork II, 1 Unit

This is a companion to the last three courses in the seven-course sequence that fulfills the coursework requirement to become a Board Certified Behavior Analyst (BCBA), and includes 200 hours of supervised fieldwork. Students must find a mentor willing to supervise their fieldwork hours; while a BCBA mentor is preferred, for the purpose of this course students may also be supervised by a behavior intervention case manager (BICM), behavior specialist, or a school psychologist with at least five years of experience designing behavior intervention plans (BIPs) and/or behavior support plans (BSPs) and completing functional behavioral assessments (FBAs).

Prerequisite: ABA 500

ABA 514, Functional Behavior Assessment in Applied Settings, 3 Units

This is the fifth of seven courses that fulfill the coursework requirement to become a Board Certified Behavior Analyst (BCBA). This course focuses on the functional behavior assessment process, which includes descriptive assessment (review of records, interview, observation, interpretation), functional analysis, and developing intervention plans.

Prerequisite: ABA 503, ABA 504, ABA 505, ABA 515

ABA 515, Behavior Intervention, 3 Units

This is the fourth of seven courses that fulfill the coursework requirement to become a Board Certified Behavior Analyst (BCBA). This course focuses on the identification, selection, and implementation of the procedures, systems, and considerations of behavior change methods from the perspective of applied behavior analysis.

Prerequisite: ABA 503, ABA 504, and ABA 505 (ABA 503 may be taken concurrently)

ABA 524, Ethics in Applied Behavior Analysis, 3 Units

This is the last of seven courses that fulfill the coursework requirement to become a Board Certified Behavior Analyst (BCBA). This course focuses on ethical considerations inherent to the field of applied behavior analysis and covers the professional and ethical compliance code for behavior analysts.

ABA 534, Organizational Behavior Management, 3 Units

This is the sixth of seven courses that fulfill the coursework requirement to become a Board Certified Behavior Analyst (BCBA). This course focuses on using data-informed procedures for personnel management and supervision. Students gain knowledge and expertise in approaches to staff training, client outcomes, and personnel management that utilize organizational behavior management (OBM) techniques grounded in applied behavior analysis.

Prerequisite: ABA 503, ABA 504, ABA 505, ABA 515, ABA 514 (ABA 514 may be taken concurrently)

EDCO 528, Community, Family, and School Collaboration, 3 Units

Students build awareness of comprehensive models for forming partnerships or collaborations between schools/districts and community stakeholders to strengthen school improvement and reform efforts. The course investigates the importance of parent and community involvement in children's education from birth through high school, including an overview of exemplary parent involvement programs; resources for family involvement activities and programs; knowledge of existing and possible partnerships between schools/districts and public/private community representatives including mental health, government, advocacy and law enforcement agencies; and knowledge of district/school programs that support student achievement through academics and mental health to support school/community collaborations.

EDCO 533, Counseling Theories and Techniques, 3 Units

Students in this course examine the varied counseling theories and techniques needed by school counselors and mental health counselors in a variety of counseling roles and functions. The focus is on exploring counseling theories to assist in selection of appropriate counseling interventions, studying the models of counseling consistent with current professional research and practice, and the development of a personal model of counseling. Each student must demonstrate knowledge of how school and mental health counseling programs and services promote client development, learning, and achievement in diverse populations within the context of professional ethics. Concepts, attitudes, and values of the counselor that most influence the counseling relationship and outcome are explored. A holistic, ecosystemic model for viewing counseling issues, the community, and the understanding of family processes is studied, with a focus on acquiring knowledge and practicing skills related to individual and group counseling within a multicultural context.

EDCO 534, Assessment, Measurements, and Testing of Individuals, 3 Units

Students in this course learn to understand and interpret measurement techniques and state and national assessments that are used in public schools at all grade levels. Course content includes the role of measurement and assessment in pupil personnel services, test validity and reliability, portfolios, assessment procedures, special education testing, interpreting test data, and elementary statistics. Emphasis is on helping school counselors and other educators use measurement and assessment data to promote positive programs and outcomes for students.

EDCO 535, Professionalism, Ethics, and Law, 3 Units

This course provides an ethical and legal background for use by school counselors and school psychologists as they assume their duties in the public school system. Candidates gain familiarity with state and federal provisions and school district policies pertaining to rights and responsibilities related to schooling, as well as professional ethics. The implications and legal applications of due process and the legal requirements that determine and protect pupil rights are emphasized.

EDCO 545, Positive Behavior Supports and Classroom Intervention, 3 Units

This course focuses on multi-tiered systems of support in the areas of behavior and social emotional skills. Students learn about positive behavioral interventions and supports at the various levels, including the assessment of behavior and the development and implementation of behavior intervention plans. Consultation and collaboration within the educational environment is emphasized.

EDCO 549, Career Development Theories and Techniques, 3 Units

This course orients students to occupational and career education trends, theories, and practices that ensure that all pupils receive equitable guidance that transcends cultural and gender stereotypes and is reflective of national standards. This includes computer-based technology, data management systems, and data-based research that supports career development services. Course material prepares students for postsecondary planning, enabling them to help pupils meet college entrance criteria, navigate admissions procedures, and gain access to financial aid information.

EDCO 550, Crisis/Trauma Response and Interventions, 3 Units

Culturally appropriate crisis theory and counseling related techniques and methods for developing and maintaining a peaceable school environment, and for the prevention, intervention and postvention of such factors in school such as crisis, trauma, violence, gang activity, bullying, conflict, depression, suicide, alcohol and substance abuse, and sexual harassment will be examined within an ecosystemic context. A multidisciplinary response to crises, emergencies, or disasters will be explored while examining the cognitive, affective, behavioral, and neurological effects associated with trauma, brief, intermediate and long-term approaches, assessment strategies for individuals in crisis.

EDCO 555, Group Counseling Skills, 3 Units

This course provides a combination of history, theory, techniques and applications pertaining to the group counseling processes. Training requirements include the practice and demonstration of group techniques. Students observe, participate, and conduct a personal growth group composed of class members and observed by an experienced group supervisor.

EDCO 557, Human Growth, Development, and Learning, 3 Units

Taking an ecosystemic perspective, this course exposes the student to the transactions between biological, psychosocial, cultural, and environmental factors affecting human growth, development, and learning from conception through adolescence. The focus is on the student's achievement of the integrated, holistic, and multicultural understanding, and emphasizes the application of theory to real life situations and problems.

EDCO 560, School Counseling Fieldwork I, 4 Units

This course provides students with firsthand, supervised school counseling experience. Each student is involved in on-site experiences that include application of theory to counseling and consultation, and practice counseling with individuals, groups, families, children, adolescents, and special education populations. Students must complete 400 fieldwork hours to earn credit.

Prerequisite: EDCO 533, EDCO 535, EDCO 550, EDCO 557, EDCO 575

EDCO 561, School Counseling Fieldwork II, 4 Units

This course provides students with firsthand, supervised school counseling experience. Each student is involved in on-site experiences that include application of theory to counseling and consultation, and practice counseling with individuals, groups, families, children, adolescents, and special education populations. Students must complete 400 fieldwork hours to earn credit.

Prerequisite: EDCO 533, EDCO 535, EDCO 550, EDCO 557, EDCO 575, EDCO 560

EDCO 564, School Counseling Fieldwork I, 3 Units

This course provides each student with firsthand, supervised pupil personnel experience. Each student is involved in on-site experiences that include application of theory to counseling and consultation practice with individuals, groups, families, children, adolescents, and exceptional and nonexceptional pupils.

Prerequisite: EDCO 528, EDCO 533, EDCO 535, EDCO 545, EDCO 550, EDCO 555, EDCO 575, EDCO 592

EDCO 568, School Counseling Fieldwork II, 3 Units

This course provides each student with firsthand, supervised pupil personnel experience. Each student is involved in on-site experiences that include application of theory to counseling and consultation practice with individuals, groups, families, children, adolescents, and exceptional and nonexceptional pupils.

Prerequisite: EDCO 528, EDCO 533, EDCO 535, EDCO 545, EDCO 550, EDCO 555, EDCO 575, EDCO 592

EDCO 571, Introduction to Clinical Practice: Basic Skills, 3 Units

This course introduces the student to basic skills in attending behavior, clinical interviewing and clinical intervention. It is designed to stimulate self-awareness as related to the therapeutic relationship, as well as the integration of spirituality and the interpersonal process. Coursework includes reading, observation, role-play and student audio/videotaped clinical practice explores differential diagnosis, the use of current diagnostic tools, such as the DSM 5, and the treatment modalities and placement criteria within the continuum of care.

Prerequisite: EDCO 575

EDCO 572, Psychobiology and Psychopharmacology, 3 Units

This course presents the fundamentals of psychopharmacology, including the biochemical foundation of human behavior, the use of psychotropic medication in the treatment of specific mental disorders, and effective case management. It features an introduction to basic neurobiology, the historical underpinnings of field, the effects of psychotropic medication, specific drug classes and their use in relation to DSM-5, diagnoses, and special consideration for specific populations (e.g., individuals with a history a substance abuse, children). Students learn how to monitor their clients' use of psychotropic medication, when to make a referral for psychiatric evaluation, and how to work successfully with other mental health professionals in the delivery of ethical, effective counseling services.

EDCO 573, Addictions, Assessment, and Interventions, 3 Units

This course provides an introduction to the field of addictions and compulsive behaviors, including substance abuse and substance abuse treatment. The course emphasizes assessment and intervention skills, processes, evidence-based research relevant to treatment and available resources. The nature and scope of addictions are defined, DSM-5 criteria for disorders are reviewed, and unique issues relative to faith, children/adolescents, persons with disabilities and other issues of diversity are considered.

EDCO 574, Introduction to Clinical Practice: Advanced Skills, 3 Units

This course is designed to further develop the psychotherapeutic tools of students prior to their entry into a clinical placement. Students focus on developing proficiency in the core interviewing qualities, deriving goals for a clinical session, and in making contracts with clients for change. Coursework includes reading, observation, role-play, and student videotaped clinical practice. Coursework also explores differential diagnosis, the use of current diagnostic tools, application of the DSM 5, and the treatment modalities and placement criteria within the continuum of care. Additionally, students are encouraged to begin developing a theoretical and conceptual understanding of cases, and training to work with diverse populations. Students are also encouraged to address issues regarding the integration of their faith with the practice of psychotherapy. These goals are addressed through experiential learning, lecture, readings, discussion, and reflection.

Prerequisite: EDCO 571

EDCO 575, Clinical Practica, 3 Units

This course is designed to provide candidates with an in-the-field counseling experience that provides development of counseling skills and application of theoretical concepts in an educational clinical setting to enhance self-confidence as practicing professional counselors; and includes providing educational, personal, or career counseling, as well as shadowing an experienced educational counselor. This course requires candidates verify 100 practicum hours under supervision from faculty and site supervisors. Special topics of discussion will also include Human Sexuality, Aging and long-term care, child abuse assessment & reporting, spousal or partner abuse.

Prerequisite: EDCO 533

EDCO 579, Sociocultural Competence, 3 Units

School counselors require an awareness of, and sensitivity to, the social and cultural diversity of the various ethnic groups represented in the districts and communities in which they serve. Everyday issues from levels of family-school involvement to communication to body language can take on new meaning when cultural origins are considered. This course helps students develop a multicultural perspective as they develop awareness of their own cultures, the nuances of other cultures, and counseling considerations and perspectives when working with individuals from diverse social and cultural backgrounds.

EDCO 580, School Counseling Internship I, 4 Units

This course provides students with firsthand, supervised school counseling experience. Each student is involved in on-site experiences that include application of theory to counseling and consultation, and practice counseling with individuals, groups, families, children, adolescents, and special education populations. Students must complete 400 internship hours to earn credit.

Prerequisite: EDCO 533, EDCO 535, EDCO 550, EDCO 557, EDCO 575

EDCO 581, School Counseling Internship II, 4 Units

This course provides students with firsthand, supervised school counseling experience. Each student is involved in on-site experiences that include application of theory to counseling and consultation, and practice counseling with individuals, groups, families, children, adolescents, and special education populations. Students must complete 400 internship hours to earn credit.

Prerequisite: EDCO 533, EDCO 535, EDCO 550, EDCO 557, EDCO 575, EDCO 580

EDCO 587, School Counseling Professionalism, 3 Units

This course is an orientation to the concepts and procedures that define and encompass pupil personnel management systems, including the ethics that guide the coordination and supervision of comprehensive counseling and guidance in multicultural school settings. Standards of professionalism that support successful leadership are incorporated into the instruction.

EDCO 592, Foundations in Research, 3 Units

Students learn to assess, evaluate and apply information resources in preparing a literature review pertinent to a controversial topic in education. They employ database search strategies to identify empirical articles pertinent to the assigned topic. They learn to succinctly summarize articles and discern trends in the professional literature.

EDCO 593, Historical Development of School Counseling and School Psychology, 3 Units

This course provides an historical overview of the professions of school psychology and counseling, and their philosophical and practical contributions to the field of education.

EDCO 594, School Counseling Internship 1, 3 Units

(300 hours) Students enrolled in this fieldwork course are under a paid internship with their school district. In this course students will receive exposure to individual differences, involvement with testing and case studies, participation in parent conferences and IEP/E and P meetings, and provision of counseling and/or consultation as appropriate to students, staff, and parents.

EDCO 595, School Counseling Internship 2, 3 Units

(300 hours) Students enrolled in this fieldwork course are under a paid internship with their school district. This course provides each student with firsthand, supervised pupil personnel experience. Each student is involved in on-site experiences that include application of theory to counseling and consultation practice with individuals, groups, families, children, adolescents, and exceptional and nonexceptional pupils.

EDCO 599, Readings in Educational Counseling, 1-3 Units

Consists of a program of study concentrating on assigned readings, discussions, field experiences, and/or writing arranged between, and designed by, a student and a full-time professor. An independent study fee is assessed for each enrollment in this class.

EDPY 528, Community, Family, and School Collaboration, 3 Units

Students build awareness of comprehensive models for forming partnerships or collaborations between schools/districts and community stakeholders to strengthen school improvement and reform efforts. The course investigates the importance of parent and community involvement in children's education from birth through high school, including an overview of exemplary parent involvement programs; resources for family involvement activities and programs; knowledge of existing and possible partnerships between schools/districts and public/private community representatives including mental health, government, advocacy and law enforcement agencies; and knowledge of district/school programs that support student achievement through academics and mental health to support school/community collaborations.

EDPY 533, Counseling Theories and Techniques, 3 Units

Students in this course examine the varied counseling theories and techniques needed by school counselors and mental health counselors in a variety of counseling roles and functions. The focus is on exploring counseling theories to assist in selection of appropriate counseling interventions, studying the models of counseling consistent with current professional research and practice, and the development of a personal model of counseling. Each student must demonstrate knowledge of how school and mental health counseling programs and services promote client development, learning, and achievement in diverse populations within the context of professional ethics. Concepts, attitudes, and values of the counselor that most influence the counseling relationship and outcome are explored. A holistic, ecosystemic model for viewing counseling issues, the community, and the understanding of family processes is studied, with a focus on acquiring knowledge and practicing skills related to individual and group counseling within a multicultural context.

EDPY 535, Professionalism, Ethics, and Law, 3 Units

This course provides an ethical and legal background for use by school counselors and school psychologists as they assume their duties in the public school system. Candidates gain familiarity with state and federal provisions and school district policies pertaining to rights and responsibilities related to schooling, as well as professional ethics. The implications and legal applications of due process and the legal requirements that determine and protect pupil rights are emphasized.

EDPY 545, Positive Behavior Supports and Classroom Intervention, 3 Units

This course focuses on multi-tiered systems of support in the areas of behavior and social emotional skills. Students learn about positive behavioral interventions and supports at the various levels, including the assessment of behavior and the development and implementation of behavior intervention plans. Consultation and collaboration within the educational environment is emphasized.

EDPY 549, Career Development Theories and Techniques, 3 Units

This course orients students to occupational and career education trends, theories, and practices that ensure that all pupils receive equitable guidance that transcends cultural and gender stereotypes and is reflective of national standards. This includes computer-based technology, data management systems, and data-based research that supports career development services. Course material prepares students for postsecondary planning, enabling them to help pupils meet college entrance criteria, navigate admissions procedures, and gain access to financial aid information.

EDPY 550, Crisis/Trauma Response and Interventions, 3 Units

Culturally appropriate crisis theory and counseling related techniques and methods for developing and maintaining a peaceable school environment, and for the prevention, intervention and postvention of such factors in school such as crisis, trauma, violence, gang activity, bullying, conflict, depression, suicide, alcohol and substance abuse, and sexual harassment will be examined within an ecosystemic context. A multidisciplinary response to crises, emergencies, or disasters will be explored while examining the cognitive, affective, behavioral, and neurological effects associated with trauma, brief, intermediate and long-term approaches, assessment strategies for individuals in crisis.

EDPY 555, Group Counseling Skills, 3 Units

This course provides a combination of history, theory, techniques and applications pertaining to the group counseling processes. Training requirements include the practice and demonstration of group techniques. Students observe, participate, and conduct a personal growth group composed of class members and observed by an experienced group supervisor.

EDPY 556, Academic Assessment and Intervention, 2 Units

This course examines the foundations of curriculum-based measurement, evidence-based interventions, progress monitoring, and response to intervention. Students learn problem-solving skills in the identification and prevention of skill deficits, development of goals based on assessment data, progress monitoring, and determining the responsiveness to intervention.

EDPY 557, Human Growth, Development, and Learning, 3 Units

Taking an ecosystemic perspective, this course exposes the student to the transactions between biological, psychosocial, cultural, and environmental factors affecting human growth, development, and learning from conception through adolescence. The focus is on the student's achievement of the integrated, holistic, and multicultural understanding, and emphasizes the application of theory to real life situations and problems.

EDPY 571, Introduction to Clinical Practice: Basic Skills, 3 Units

This course introduces the student to basic skills in attending behavior, clinical interviewing and clinical intervention. It is designed to stimulate self-awareness as related to the therapeutic relationship, as well as the integration of spirituality and the interpersonal process. Coursework includes reading, observation, role-play and student audio/videotaped clinical practice explores differential diagnosis, the use of current diagnostic tools, such as the DSM 5, and the treatment modalities and placement criteria within the continuum of care.

Prerequisite: EDCO 575 or EDPY 575

EDPY 572, Psychobiology and Psychopharmacology, 3 Units

This course presents the fundamentals of psychopharmacology, including the biochemical foundation of human behavior, the use of psychotropic medication in the treatment of specific mental disorders, and effective case management. It features an introduction to basic neurobiology, the historical underpinnings of field, the effects of psychotropic medication, specific drug classes and their use in relation to DSM-5, diagnoses, and special consideration for specific populations (e.g., individuals with a history a substance abuse, children). Students learn how to monitor their clients' use of psychotropic medication, when to make a referral for psychiatric evaluation, and how to work successfully with other mental health professionals in the delivery of ethical, effective counseling services.

EDPY 573, Addictions, Assessment, and Interventions, 3 Units

This course provides an introduction to the field of addictions and compulsive behaviors, including substance abuse and substance abuse treatment. The course emphasizes assessment and intervention skills, processes, evidence-based research relevant to treatment and available resources. The nature and scope of addictions are defined, DSM-5 criteria for disorders are reviewed, and unique issues relative to faith, children/adolescents, persons with disabilities and other issues of diversity are considered.

EDPY 574, Introduction to Clinical Practice: Advanced Skills, 3 Units

This course is designed to further develop the psychotherapeutic tools of students prior to their entry into a clinical placement. Students focus on developing proficiency in the core interviewing qualities, deriving goals for a clinical session, and in making contracts with clients for change. Coursework includes reading, observation, role-play, and student videotaped clinical practice. Coursework also explores differential diagnosis, the use of current diagnostic tools, application of the DSM 5, and the treatment modalities and placement criteria within the continuum of care. Additionally, students are encouraged to begin developing a theoretical and conceptual understanding of cases, and training to work with diverse populations. Students are also encouraged to address issues regarding the integration of their faith with the practice of psychotherapy. These goals are addressed through experiential learning, lecture, readings, discussion, and reflection.

Prerequisite: EDCO 571 or EDPY 571

EDPY 575, Clinical Practica, 3 Units

This course is designed to provide candidates with an in-the-field counseling experience that provides development of counseling skills and application of theoretical concepts in an educational clinical setting to enhance self-confidence as practicing professional counselors; and includes providing educational, personal, or career counseling, as well as shadowing an experienced educational counselor. This course requires candidates verify 100 practicum hours under supervision from faculty and site supervisors. Special topics of discussion will also include Human Sexuality, Aging and long-term care, child abuse assessment & reporting, spousal or partner abuse.

Prerequisite: EDCO 533 or EDPY 533

EDPY 592, Foundations in Research, 3 Units

Students learn to assess, evaluate and apply information resources in preparing a literature review pertinent to a controversial topic in education. They employ database search strategies to identify empirical articles pertinent to the assigned topic. They learn to succinctly summarize articles and discern trends in the professional literature.

EDPY 593, Historical Development of School Counseling and School Psychology, 3 Units

This course provides an historical overview of the professions of school psychology and counseling, and their philosophical and practical contributions to the field of education.

EDPY 599, Readings in Educational Psychology, 1-3 Units

Consists of a program of study concentrating on assigned readings, discussions, field experiences, and/or writing arranged between, and designed by, a student and a full-time professor. An independent study fee is assessed for each enrollment in this class.

EDPY 624, Disabilities in Children, 2 Units

School psychologists are required to have an understanding of the spectrum of individual differences among potential students, particularly individuals with exceptional needs. This course introduces students to individuals defined by cultural differences, socioeconomic disadvantages, sexual biases, and developmental psychopathology, in order to achieve sensitivity to the needs and feelings of persons with differing experiences. Students are introduced to the legal requirements of educating learners in the least-restrictive environments, and consider current issues and future trends in special education.

EDPY 633, Multicultural and Bilingual Assessment and Intervention, 3 Units

This course equips school psychologists with a multidimensional perspective of cultures, bilingualism, assessment, remediation, and interventions in the education system. Course material focuses on assessment models, psychoeducational assessment practices, and test bias. In addition, the social, psychological, ecological, linguistic, and cultural aspects of multicultural and bilingual students and families are explored. Upon successful completion of this course, students are able to demonstrate knowledge of multicultural and social factors, the ability to conduct a multicultural assessment, and the ability to translate assessment results into interventions appropriate for multicultural and linguistic minority students.

EDPY 635A, Role and Function of a School Psychologist: Positive Behavior Supports, 1 Unit

This is a supervised practicum in data-driven behavioral consultation/collaboration and socialization/life skills. This course emphasizes Functional Behavior Assessments and Behavior Intervention Plans. Students meet with a university instructor for seminar discussion and group supervision each semester. A minimum of 150 hours is applied toward the total 450 required practicum hours.

Corequisites: EDPY 624 and EDPY 681

EDPY 635B, Role and Function of a School Psychologist: Individual/Group Counseling, 1 Unit

This course offers a supervised practicum in the development of life skills, mental health, and home/school/community collaboration. Students gain supervised skills in individual/group counseling and meet with a university instructor for seminar discussion and group supervision each semester. A minimum of 150 hours is applied toward the total 450 required practicum hours.

Corequisites: EDPY 637 and EDPY 682

EDPY 635C, Role and Function of a School Psychologist: Assessment, 1 Unit

This is a supervised practicum in data-based intervention development and collaboration. Students gain supervised experience in administration, scoring, and interpretation of cognitive/processing/social-emotional assessments. Students also conduct Curriculum-Based Assessments within a Response to Intervention (RTI) model. Students meet with a university instructor for seminar discussion and group supervision each semester. A minimum of 150 hours is applied toward the total 450 required practicum hours.

Corequisites: EDPY 633 and EDPY 683

EDPY 636, Research and Evaluation in School Psychology, 3 Units

Students gain advanced skills in understanding statistical techniques and applying them to the analysis of educational research data related to school psychology. Strategies for conducting effective evaluations are considered as students plan an evaluation using appropriate statistical analysis as related to educational psychological research. Students gain additional experience in the use of computers for statistical analysis.

EDPY 637, Child Psychopathology Assessment and Treatment, 3 Units

Students in this course learn a systematic approach to the description and assessment of, and planning for, children with learning and behavior problems. Emphasis is on emotional disturbances, including internalizing disorders and externalizing disorders, ADHD, and autism. Course material also includes the development of appropriate interventions from assessment data, use of technology, and the use of assessments for accountability.

EDPY 655, School Psychology Internship I, 5 Units

Students in this course get on-site experience as school psychologists for special and regular education students, acquiring professional skills and knowledge. Such experience includes working with IDEA regulations and procedures, assessing and counseling exceptional students, consulting with teachers, parents, and community agencies, and supervising counseling services. Students also become skilled in conducting student assessment, writing reports, consulting with staff and parents, designing prevention, intervention, and postvention strategies, and completing progress evaluations. 600 hours.

EDPY 656, School Psychology Internship II, 5 Units

With continued on-site supervision, field experience students become increasingly independent in planning, implementing, and reporting psychoeducational assessments of pupils. Students continue to gain experience collaborating with multidisciplinary colleagues as they participate in, and even initiate, the planning of prevention, intervention, and evaluation activities related to the responsibilities of a school psychologist. 600 hours.

EDPY 681, Psychoeducational Assessment I, 3 Units

This is the first in a series of three courses equipping students for effective assessment of preschool children, school-age children, and adults. Students explore the multifaceted and culturally defined nature of human intelligence, research and theory regarding the development and measurement of human intellectual ability, and the construction, uses, and limitations of assessment tools and methods. Students complete this series of courses equipped with a wide range of techniques in the assessment of intelligence, processing abilities, adaptive behavior, social-emotional functioning, and achievement. Students gain experience in developing interventions and recommendations based on assessment data, and in communicating the results of assessments to diverse audiences.

EDPY 682, Psychoeducational Assessment II, 3 Units

This is the second in a series of three courses equipping students for effective assessment of preschool children, school-age children, and adults. Students explore the multifaceted and culturally defined nature of human intelligence, research and theory regarding the development and measurement of human intellectual ability, and the construction, uses, and limitations of assessment tools and methods. Students complete this series of courses equipped with a wide range of techniques in the assessment of intelligence, processing abilities, adaptive behavior, social-emotional functioning, and achievement. Students gain experience in developing interventions and recommendations based on assessment data, and in communicating the results of assessments to diverse audiences.

EDPY 683, Psychoeducational Assessment III, 3 Units

This is the third in a series of three courses equipping students for effective assessment of preschool children, school-age children, and adults. Students explore the multifaceted and culturally defined nature of human intelligence, research and theory regarding the development and measurement of human intellectual ability, and the construction, uses, and limitations of assessment tools and methods. Students complete this series of courses equipped with a wide range of techniques in the assessment of intelligence, processing abilities, adaptive behavior, social-emotional functioning, and achievement. Students gain experience in developing interventions and recommendations based on assessment data, and in communicating the results of assessments to diverse audiences.

EDPY 690, Advanced Individual Research, 3 Units

In this course, the professor and students work closely to advance research into a form appropriate for presentation at a national conference or publication in a peer-reviewed journal. Examples of activities in this course include development of literature reviews, data collection, statistical analysis, manuscript editing and revising, presenting research at conferences, and submission for publication in scholarly journals.

EDPY 695, School Psychology Fieldwork I, 5 Units

Students in this course get on-site experience as school psychologists for special and regular education students, acquiring professional skills and knowledge. Such experience includes working with IDEA regulations and procedures, assessing and counseling exceptional students, consulting with teachers, parents, and community agencies, and supervising counseling services. Students also become skilled in conducting student assessment, writing reports, consulting with staff and parents, designing prevention, intervention, and postvention strategies, and completing progress evaluations. 600 hours.

EDPY 696, School Psychology Fieldwork II, 5 Units

With continued on-site supervision, field experience students become increasingly independent in planning, implementing, and reporting psychoeducational assessments of pupils. Students continue to gain experience collaborating with multidisciplinary colleagues as they participate in, and even initiate, the planning of prevention, intervention, and evaluation activities related to the responsibilities of a school psychologist. 600 hours.

EDPY 697, Readings in School Psychology, 1 Unit

This course assists the student in research of current literature in the field of school psychology. Literature is one of the vehicles that bridges the gap between theory and practice. Thus, this intensive course in current professional literature allows the student to remain on the cutting edge of the profession.

MA in Education: Educational Counseling with an Embedded Pupil Personnel Services Credential in School Counseling

For more information: (626) 815-5424

APU's Master of Arts in Education: Educational Counseling (<https://www.apu.edu/education/programs/masters-in-school-counseling/>) offers candidates an efficient path to a school counseling career by embedding within the program all requirements for the Pupil Personnel Services Credential in School Counseling.

A requirement in completing the program is the completion of fieldwork or an internship, both of which provide candidates with hands-on experience in school counseling. An internship credential is appropriate for students who have secured a paid internship position and a contract to serve as a school counselor at a California public school. Students applying for an internship credential may submit their application for it upon successful completion of 8 prerequisite courses and prior to the start of the fieldwork/internship experience.

Course Sequence

Obtain academic advising prior to initial registration.

Total Units		50

¹ Prerequisites for fieldwork/internship

Additional Requirements

1. Candidates must earn a passing score of 150 or greater on the Praxis II (code 5421) exam to demonstrate their competence in school counseling prior to completion of the program.
2. All candidates admitted to the Master of Arts in Education: Educational Counseling program are required to submit a copy of their California Certificate of Clearance (COC) or another form of clearance, such as a valid and current credential for teaching, counseling, school psychology, and/or nursing. The law requires Azusa Pacific University to keep these records on file while candidates are in attendance at APU.
3. Candidates must verify successful completion of the California Basic Skills Requirement ([https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-\(cl-667/\)](https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-(cl-667/))) via one of the options approved by the California Commission on Teacher Credentialing (CTC) (<https://www.ctc.ca.gov/>), prior to admission.

Advisory Notes

- Educational psychology can be pursued as an educational specialist (EdS) degree with a second master's degree embedded after completing the requirements for the Master of Arts in Education: Educational Counseling. Because these programs are unique, students must be admitted to each program separately. Candidates intending to pursue two Master of Arts in Education degrees should review the university requirements for additional master's degrees as stated in the Academic Policies and Procedures (p. 1240) section of the catalog.
- The practicum experience included in the educational counseling program is required by the California Commission on Teacher Credentialing (<https://www.ctc.ca.gov/>) and consists of 100 hours completed in a K-12 setting or approved clinical setting. These hours will be verified in the EDCO 575 course, which must be taken prior to fieldwork or internship. This course provides candidates the educational and clinical experience in applied psychotherapeutic techniques, assessment, diagnosis, prognosis, treatment, issues of development, adjustment, and maladjustment, health and wellness promotion, and other recognized counseling interventions.
- At some regional campuses, candidates may need to delay enrollment until there are a sufficient number of beginning candidates to provide the appropriate adult learning opportunities. Applicants can obtain detailed information about dates for beginning coursework by requesting an advisement appointment at the Azusa campus or any of the regional campuses.
- Candidates must maintain a minimum cumulative grade-point average (GPA) of 3.0 in their program of study, and receive a grade of *B-* or higher in each course (a grade of *CR* in fieldwork/internship).
- Candidates approaching program completion must obtain a credential application from the Office of Credentials (<https://www.apu.edu/education/resources/credentials/>). The graduate degree must be conferred before receiving the credential recommendation.
- Candidates approaching graduation must obtain and complete a Graduation Application (<https://www.apu.edu/graduateprofessionalcenter/registrar/forms/>) from the Office of the Registrar (<https://www.apu.edu/graduateprofessionalcenter/registrar/>) in accordance with published university deadlines. The registrar and department will collaborate to determine whether the student has met all requirements.

- Candidates have a maximum of five years to complete all coursework and assessments, including waivers and transfer of units, beginning the first date of enrollment for coursework in the degree program.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate competency in foundations of School Counseling Professional Standards.
2. Demonstrate competency in professionalism, ethics, and legal mandates.
3. Demonstrate competency in student academic development.
4. Demonstrate competency in student college and career development.
5. Demonstrate competency in social/emotional development.
6. Demonstrate competency in educational foundations: growth and development, learning theory, academic achievement.
7. Demonstrate competency in leadership and advocacy in social justice, equity, and access.
8. Demonstrate competency in program development.
9. Demonstrate competency in research, program evaluation, and technology.

MA in Education: Educational and Clinical Counseling with an Embedded Pupil Personnel Services Credential in School Counseling

For more information: (626) 815-5424

The Master of Arts in Education: Educational and Clinical Counseling (<https://www.apu.edu/education/programs/masters-in-school-clinical-counseling/>) degree is a 62-unit program that encompasses the 50-unit MAEd in Educational Counseling degree (p. 750) plus the 12 additional units of coursework required by the California Board of Behavioral Sciences (<https://bbs.ca.gov/applicants/lpcc.html>) for Licensed Professional Clinical Counselor (LPCC) eligibility. The program prepares candidates to obtain a Pupil Personnel Services Credential necessary to work in K-12 school settings, provides a clinical emphasis, and satisfies the coursework requirements set forth for California licensure as an LPCC. Contact the department (<https://www.apu.edu/education/counselingpsych/contact/>) for specific information pertaining to the benefits of this degree option.

A requirement of the program is the completion of fieldwork or an internship, both of which provide candidates with hands-on experience in school counseling. Students must complete the 8 prerequisite courses prior to enrolling in fieldwork or internship. An internship credential is appropriate for students who have secured a paid internship position and a contract to serve as a school counselor at a California public school. Students applying for an internship credential may submit their application for it upon successful completion of the fieldwork prerequisite courses and prior to the start of the internship experience.

Select one of the following:		4
EDCO 561	School Counseling Fieldwork II	
EDCO 581	School Counseling Internship II	
Term 6		
EDCO 571	Introduction to Clinical Practice: Basic Skills	3
EDCO 572	Psychobiology and Psychopharmacology	3
EDCO 573	Addictions, Assessment, and Interventions	3
EDCO 574	Introduction to Clinical Practice: Advanced Skills	3
Total Units		62

¹ Prerequisites for fieldwork/internship.

² Students who begin their studies in the spring semester must follow the advisement sheet provided by the department, which is slightly different in sequence.

Additional Requirements

- Candidates must earn a passing score of 150 or greater on the Praxis II (code 5421) exam to demonstrate their competence in school counseling prior to completion of the program.
- All candidates admitted to the Master of Arts in Education: Educational and Clinical Counseling program are required to submit a copy of their California Certificate of Clearance (COC) or another form of clearance, such as a valid and current credential for teaching, counseling, school psychology, and/or nursing. The law requires Azusa Pacific University to keep these records on file while candidates are in attendance at APU.
- Candidates must verify successful completion of the California Basic Skills Requirement ([https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-\(cl-667/\)](https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-(cl-667/))) via one of the options approved by the California Commission on Teacher Credentialing (CTC) (<https://www.ctc.ca.gov/>), prior to admission.

Advisory Notes

- Educational psychology (p. 756) can be pursued as an educational specialist (EdS) degree with a second master's degree embedded after completing the requirements for the Master of Arts in Education: Educational and Clinical Counseling. Because these programs are unique, candidates must be admitted to each program separately. Candidates intending to pursue two Master of Arts in Education degrees should review the university requirements for additional master's degrees as stated in the Academic Policies and Procedures (p. 1240) section of the catalog.
- The practicum experience included in the educational and clinical counseling program is required by the California Commission on Teacher Credentialing (<https://www.ctc.ca.gov/>) and consists of 100 hours completed in a K-12 setting or approved clinical setting. These hours will be verified in the EDCO 575 course, which must be taken prior to fieldwork or internship. This course provides candidates the educational and clinical experience in applied psychotherapeutic techniques, assessment, diagnosis, prognosis, treatment, issues of development, adjustment, and maladjustment, health and wellness promotion, and other recognized counseling interventions.

- At some regional campuses, candidates may need to delay enrollment until there are a sufficient number of beginning candidates to provide the appropriate adult learning opportunities. Applicants can obtain detailed information about dates for beginning coursework by requesting an advisement appointment at the Azusa campus or any of the regional campuses.
- Candidates must receive a grade of *B-* or higher in each course (a grade of *CR* in fieldwork/internship) and maintain a 3.0 grade-point average (GPA) throughout the program.
- Candidates approaching program completion must obtain a credential application from the Office of Credentials (<https://www.apu.edu/education/resources/credentials/>). The graduate degree must be conferred before receiving the credential recommendation.
- Candidates approaching graduation must obtain and complete a Graduation Application (<https://www.apu.edu/graduateprofessionalcenter/registrar/forms/>) from the Office of the Registrar (<https://www.apu.edu/graduateprofessionalcenter/registrar/>) in accordance with published university deadlines. The registrar and department will collaborate to determine whether the student has met all requirements.
- A candidate has a maximum of five years to complete all coursework and assessments, including waivers and transfer of units, beginning the first date of enrollment for coursework in the degree program.
- Upon completion of the educational and clinical counseling program, graduates should contact the Board of Behavioral Sciences (<https://bbs.ca.gov/applicants/lpcc.html>) for additional requirements for LPCC Licensure.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate competency in foundations of School Counseling Professional Standards.
2. Demonstrate competency in professionalism, ethics, and legal mandates.
3. Demonstrate competency in student academic development.
4. Demonstrate competency in student college and career development.
5. Demonstrate competency in social/emotional development.
6. Demonstrate competency in educational foundations: growth and development, learning theory, academic achievement.
7. Demonstrate competency in leadership and advocacy in social justice, equity, and access.
8. Demonstrate competency in program development.
9. Demonstrate competency in research, program evaluation, and technology.

Pupil Personnel Services: School Counseling Credential

For more information: (626) 815-5424

Prerequisite: Educational Specialist in School Psychology with Embedded Master of Arts in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology (p. 756)

A required transcript evaluation of students' current PPS school psychology courses will determine which courses will count toward the PPS: School Counseling Credential.

Requirements are the same as for Azusa Pacific University's Master of Arts in Education: Educational Counseling with Embedded Pupil Personnel Services Credential in School Counseling program (p. 750), which are as follows:

Code	Title	Units
Term 1		
EDCO 533	Counseling Theories and Techniques ¹	3
EDCO 535	Professionalism, Ethics, and Law ¹	3
EDCO 550	Crisis/Trauma Response and Interventions ¹	3

EDCO 557	Human Growth, Development, and Learning ¹	3
Term 2		
EDCO 545	Positive Behavior Supports and Classroom Intervention ¹	3
EDCO 555	Group Counseling Skills ¹	3
EDCO 575	Clinical Practica ¹	3
EDCO 592	Foundations in Research ¹	3
Term 3		
EDCO 528	Community, Family, and School Collaboration	3
EDCO 593	Historical Development of School Counseling and School Psychology	3
Term 4		
EDCO 549	Career Development Theories and Techniques	3
EDCO 587	School Counseling Professionalism	3
Select one of the following:		4
EDCO 560	School Counseling Fieldwork I	
EDCO 580	School Counseling Internship I	
Term 5		
EDCO 534	Assessment, Measurements, and Testing of Individuals	3
EDCO 579	Sociocultural Competence	3
Select one of the following:		4
EDCO 561	School Counseling Fieldwork II	
EDCO 581	School Counseling Internship II	
Total Units		50

¹ Prerequisites for fieldwork/internship

Additional Requirements

1. Candidates must earn a passing score of 150 or greater on the Praxis II (code 5421) exam to demonstrate their competence in school counseling prior to completion of the program.
2. All candidates admitted to the Pupil Personnel Services: School Counseling Credential program are required to submit a copy of their California Certificate of Clearance or another form of clearance, such as a valid and current credential for teaching, counseling, school psychology, and/or nursing. The law requires Azusa Pacific University to keep these records on file while candidates are in attendance at APU.
3. Candidates must verify successful completion of the California Basic Skills Requirement ([https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-\(cl-667/\)](https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-(cl-667/))) via one of the options approved by the California Commission on Teacher Credentialing (CTC) (<https://www.ctc.ca.gov/>), prior to admission.

Advisory Notes

- The practicum experience included in the educational counseling program is required by the California Commission on Teacher Credentialing (<https://www.ctc.ca.gov/>) and consists of 100 hours completed in a K-12 setting or approved clinical setting. These hours will be verified in the EDCO 575 course, which must be taken prior to fieldwork or internship. This course provides candidates the educational and clinical experience in applied psychotherapeutic techniques, assessment, diagnosis, prognosis, treatment, issues of development, adjustment and maladjustment, health and wellness promotion, and other recognized counseling interventions.
- At some regional campuses, candidates may need to delay enrollment until there is a sufficient number of beginning candidates to provide the appropriate adult learning opportunities. Applicants can obtain detailed information about dates for beginning coursework by requesting an advisement appointment at the Azusa campus or any of the regional campuses.
- Candidates must maintain a minimum cumulative grade-point average (GPA) of 3.0 in their program of study, and receive a grade of *B-* or higher in each course (a grade of *CR* in fieldwork/internship).
- Candidates approaching program completion must obtain a credential application from the Office of Credentials (<https://www.apu.edu/education/resources/credentials/>). An appropriate counseling-related graduate degree from a regionally accredited college or university must be conferred before receiving the credential recommendation.
- Candidates have a maximum of five years to complete all coursework and assessments, including waivers and transfer of units, beginning the first date of enrollment for coursework in the credential program.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online** (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Educational Specialist (EdS) in School Psychology with Embedded MA in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology

For more information: (626) 815-5424

Azusa Pacific University's Educational Specialist (EdS) in School Psychology with embedded Master of Arts in Education (MAEd): Educational Psychology and Pupil Personnel Services Credential in School Psychology (<https://www.apu.edu/education/programs/school-psychology-specialist-degree/>) program equips school psychology candidates with distinctive and marketable skills and competencies. The school psychology program is approved with conditions by the National Association of School Psychologists (NASP) (<https://www.nasponline.org/>) and accredited by the National Council for Accreditation of Teacher Education (NCATE)—which is transitioning to the Council for the Accreditation of Educator Preparation (CAEP) (<https://caepnet.org/>)—and the California Commission on Teacher Credentialing (CTC) (<https://www.ctc.ca.gov/>). The two degrees are completed in three years and comprise 66 graduate semester units, 450 hours of practicum, and 1,200 hours of fieldwork/internship. Upon successful completion of this program, candidates can apply to become Nationally Certified School Psychologists (NCSPs).

Program Structure

Years 1 and 2 (MAEd)

Candidates complete a total of 49 units and 450 hours of practicum during the first two years of the program. Upon completion of all coursework, practicum hours, and the Graduate Research Project (GRP), the candidate is granted the Master of Arts in Education: Educational Psychology and may participate in commencement.

Year 3 (Post-master's Year, EdS)

During the Spring II session of the second year and the post-master's year, candidates complete an additional 17 units of special focus coursework, including 10 units of fieldwork/internship (1,200 hours). Candidates applying for an internship credential may submit their application once a paid internship at a public school in the field of school psychology has been secured. Prior to starting fieldwork/internship, students are required to provide an updated TB clearance.

Upon successful completion of post-master's coursework and fieldwork/internship, and passing of the PRAXIS II (School Psychology) exam, the candidate is granted the Educational Specialist (EdS) degree and may file for the PPS Credential in School Psychology. Once these requirements are fulfilled, the student may apply to become a Nationally Certified School Psychologist (NCSP) through the National Association of School Psychologists (NASP); students are advised to review specific NCSP requirements online (<https://www.nasponline.org/standards-and-certification/national-certification/ncsp-eligibility/>).

Additional Admission Requirements for School Psychology Applicants

1. After all admission materials have been submitted to the Office of Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>), the school psychology program reviews the file and notifies the applicant to schedule an admission interview with the department. The prospective candidate should come prepared to be interviewed by program faculty. The purpose of the interview is to meet the candidate, discuss career goals, evaluate match of the program to the student, and make an initial assessment of the applicant's potential for success as a school psychologist.
2. All candidates who are admitted to the program are required to submit a copy of their California Certificate of Clearance (COC) or another form of clearance, such as a valid and current credential for teaching or counseling and/or nursing. The law requires Azusa Pacific University to keep these records on file while candidates are in attendance at APU.

3. Candidates must verify successful completion of the California Basic Skills Requirement ([https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-\(cl-667/\)](https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-(cl-667/))) via one of the options approved by the California Commission on Teacher Credentialing (CTC) (<https://www.ctc.ca.gov/>) prior to admission.

Course Requirements

Scope and Sequence

Students take courses in the following sequence (students are required to seek academic advisement prior to initial registration):

Code	Title	Units
Year 1		
Coursework for Master of Arts in Education: Educational Psychology		
Term 1		
EDPY 533	Counseling Theories and Techniques ¹	3
EDPY 557	Human Growth, Development, and Learning ¹	3
EDPY 624	Disabilities in Children ¹	2
EDPY 535	Professionalism, Ethics, and Law	3
Term 2		
EDPY 545	Positive Behavior Supports and Classroom Intervention ¹	3
EDPY 572	Psychobiology and Psychopharmacology	3
EDPY 556	Academic Assessment and Intervention ¹	2
EDPY 592	Foundations in Research ¹	3
Term 3		
EDPY 593	Historical Development of School Counseling and School Psychology	3
EDPY 528	Community, Family, and School Collaboration ¹	3
Students will have located a practicum site.		
Year 2		
Term 1		
EDPY 681	Psychoeducational Assessment I ¹	3
EDPY 690	Advanced Individual Research ¹	3
EDPY 682	Psychoeducational Assessment II ¹	3
EDPY 636	Research and Evaluation in School Psychology ¹	3
EDPY 635A	Role and Function of a School Psychologist: Positive Behavior Supports ¹	1
Term 2		
EDPY 683	Psychoeducational Assessment III ¹	3
EDPY 637	Child Psychopathology Assessment and Treatment ¹	3
EDPY 550	Crisis/Trauma Response and Interventions ^{1, 2}	3
EDPY 633	Multicultural and Bilingual Assessment and Intervention ²	3
EDPY 635B	Role and Function of a School Psychologist: Individual/Group Counseling ¹	1
Term 3		
EDPY 635C	Role and Function of a School Psychologist: Assessment ¹	1
Total Units		55

¹ Prerequisites must be completed prior to internship/fieldwork.

² Part of the EdS degree.

Students will complete the following in order to earn the Master of Arts in Education: Educational Psychology (MAEd):

- Designated MAEd coursework (49 units)
- Graduate Research Project
- 450 hours of practicum

Students may participate in commencement.

Code	Title	Units
Year 3		
Coursework for Educational Specialist Degree		
Term 1		
EDPY 697	Readings in School Psychology	1
Select one of the following:		5
EDPY 655	School Psychology Internship I (600 hours)	
EDPY 695	School Psychology Fieldwork I	
Term 2		
Select one of the following:		5
EDPY 656	School Psychology Internship II	
EDPY 696	School Psychology Fieldwork II (600 hours)	
Total Units		11

Students will complete the following in order to earn the Educational Specialist (EdS) with an embedded Pupil Personnel Services Credential in School Psychology:

- Designated EdS coursework (17 units)
- 1,200 hours of fieldwork/internship (primary and secondary settings)
- Passing the PRAXIS II School Psychology #5402 with a 147 or higher **OR** PRAXIS II School Psychology #5403 with a 155 or higher

Additional Requirements

1. Students must pass the PRAXIS II School Psychology #5402 exam with a score of 147 or higher or PRAXIS II School Psychology #5403 exam with a score of 155 or higher to demonstrate their competence in school psychology prior to completion of the program.
2. Students prepare a Graduate Research Project (GRP), which includes a formal research paper or program evaluation and must be approved by APU's Institutional Review Board (IRB). The GRP content should be related to a topic that the student chooses to study in depth and has relevance to the field of school psychology. The research portion of the project is completed through the following courses: EDPY 592, EDPY 690, and EDPY 636. In addition to the GRP, students are required to present their research findings and paper to a faculty and peer panel.
3. Students complete a performance-based portfolio during practicum and internship/fieldwork that will be evaluated by program faculty and field experience mentors for evidence of skills competency.

Advisory Notes

- Students intending to pursue two Master of Arts in Education degrees should review the university requirements for additional master's degrees as stated in the Academic Policies and Procedures (p. 1240) section of the catalog.
- Students cannot pursue the Master of Arts in Education: Educational Counseling (<https://www.apu.edu/education/programs/masters-in-school-counseling/>) as a second master's degree after completing the requirements for the Master of Arts in Education: Educational Psychology and Educational Specialist in School Psychology.
- The practicum experience at APU consists of 450 hours (required by the California Commission on Teacher Credentialing). A minimum of 300 hours must be completed in a pre-K-12 public school setting. Up to 150 hours may be completed through on-campus agencies (e.g., child study centers, psychology clinics) or community-based agencies (e.g., private schools, community-based mental health clinics). These hours are to be completed prior to beginning fieldwork/internship. The required hours are to be completed under the direct supervision of a credentialed school psychologist with no fewer than three years of experience.
- At some regional campuses, students may need to delay enrollment until there is a sufficient number of beginning students to provide the appropriate adult learning opportunities. Applicants can obtain detailed information about dates for beginning coursework by requesting an advisement appointment at the Azusa campus or any of the regional campuses.
- Students in an educational counseling or educational psychology program may request to waive a course (see Waivers (p. 1246)), provided that the student can document completion of an equivalent course at another institution in the five-year period prior to requesting the waiver. Department approval of the request is required. If the course accepted for waiver also meets all of the university standards for transfer credit (see Transfer Credit (p. 1245)), it may be transferred to meet requirements (up to 20 percent of the total program units may be transferred to meet requirements). If the course accepted for waiver does not meet the university standards for transfer credit (i.e., not applicable to a master's degree at the university where it was taken, not taken from a regionally accredited institution, etc.), then the student must choose alternative elective courses to satisfy the unit requirements of the degree program.
- A student has a maximum of five years to complete all coursework, including waivers and transfer of units, beginning the first date of enrollment for coursework in the degree program.
- Students approaching program completion must obtain a credential application from the Office of Credentials (<https://www.apu.edu/education/resources/credentials/>) in the School of Education. Students must complete all credential requirements to apply for the credential.

- Students approaching graduation must obtain and complete a G (<http://www.apu.edu/graduateprofessionalcenter/registrar/forms/>)raduation Application (<https://www.apu.edu/graduateprofessionalcenter/registrar/forms/>) from the Office of the Registrar (<https://www.apu.edu/graduateprofessionalcenter/registrar/>) in accordance with published university deadlines. The registrar and department will collaborate to determine whether the student has met all requirements.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate competency in data-based decision making and accountability.
2. Demonstrate competency in consultation and collaboration.
3. Demonstrate competency in interventions and instructional support to develop academic skills.
4. Demonstrate competency in behavior interventions and mental health services to develop social and life skills.
5. Demonstrate competency in direct and indirect services – school wide practices to promote learning.
6. Demonstrate competency in school-wide practices to promote behavioral and mental health.
7. Demonstrate competency in family-school collaboration.
8. Demonstrate competency in human diversity.
9. Demonstrate competency in research and program evaluation.
10. Demonstrate competency in legal, ethical, and professional practice disposition.

Educational Specialist (EdS) in School Psychology: Applied Behavior Analysis with Embedded MA in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology

For more information: (626) 815-5424

Azusa Pacific University's Educational Specialist (EdS) in School Psychology: Applied Behavior Analysis with embedded Master of Arts in Education (MAEd): Educational Psychology and Pupil Personnel Services Credential in School Psychology (<https://www.apu.edu/education/programs/school-psychology-specialist-degree/pathways/>) program equips school psychology candidates with distinctive and marketable skills and competencies. Candidates acquire knowledge needed to provide intensive behavioral treatment and intervention services for students diagnosed with autism and related disabilities.

This program is a Verified Course Sequence (VCS) approved by the Behavior Analyst Certification Board (BACB) (<http://www.bacb.com/>) and meets the educational requirements for eligibility as a Board Certified Behavior Analyst (BCBA). Additional requirements to achieve certification (<http://www.bacb.com/?page=158>) include successful completion of supervised clinical experience, as well as the certification exam administered by the BACB.

The school psychology program is approved with conditions by the National Association of School Psychologists (NASP) (<https://www.nasponline.org/>) and accredited by the National Council for Accreditation of Teacher Education (NCATE)—which is transitioning to the Council for the Accreditation of Educator Preparation (CAEP) (<http://www.caepnet.org/>)—and the California Commission on Teacher Credentialing (CTC) (<https://www.ctc.ca.gov/>). The

two degrees are completed in three years and comprise 89 graduate semester units, 450 hours of practicum, and 1,200 hours of fieldwork/internship. Upon successful completion of this program, candidates can apply to become Nationally Certified School Psychologists (NCSPs).

Program Structure

Years 1 and 2 (MAEd)

Candidates complete at least 49 units and 450 hours of practicum during the first two years of the program. Upon completion of all coursework, practicum hours, and the Graduate Research Project (GRP), the candidate is granted the Master of Arts in Education: Educational Psychology and may participate in commencement.

Year 3 (Post-Master's Year, EdS)

During the Spring II session of the second year and the post-master's year, candidates complete at least an additional 17 units of special focus coursework, including 10 units of fieldwork/internship (1,200 hours), and 23 units of applied behavior analysis specialization coursework. Candidates applying for an internship credential may submit their application once a paid internship at a public school in the field of school psychology has been secured. Prior to starting fieldwork/internship, students are required to provide an updated TB clearance.

Upon successful completion of post-master's coursework and fieldwork/internship, and passing of the PRAXIS II (School Psychology) exam, the candidate is granted the Educational Specialist (EdS) degree and may file for the PPS Credential in School Psychology. Once these requirements are fulfilled, the student may apply to become a Nationally Certified School Psychologist (NCSP) through the National Association of School Psychologists (NASP); students are advised to review specific NCSP requirements online (<https://www.nasponline.org/standards-and-certification/national-certification/ncsp-eligibility/>).

Candidates should collaborate with the program director about where the applied behavior analysis specialization courses should be completed within the three-year sequence.

Additional Admission Requirements for School Psychology Applicants

1. After all admission materials have been submitted to the Office of Graduate and Professional Admissions (<http://www.apu.edu/graduateprofessionalcenter/admissions/>), the school psychology program reviews the file and notifies the applicant to schedule an admission interview with the department. The prospective candidate should come prepared to be interviewed by program faculty. The purpose of the interview is to meet the candidate, discuss career goals, evaluate match of the program to the student, and make an initial assessment of the applicant's potential for success as a school psychologist.
2. All candidates who are admitted to the program are required to submit a copy of their California Certificate of Clearance (COC) or another form of clearance, such as a valid and current credential for teaching or counseling and/or nursing. The law requires Azusa Pacific University to keep these records on file while candidates are in attendance at APU.
3. Candidates must verify successful completion of the California Basic Skills Requirement ([https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-\(cl-667/](https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-(cl-667/)) via one of the options approved by the California Commission on Teacher Credentialing (CTC) (<https://www.ctc.ca.gov/>) prior to admission.

Additional Requirements

1. Students must pass the PRAXIS II School Psychology #5402 exam with a score of 147 or higher or PRAXIS II School Psychology #5403 exam with a score of 155 or higher to demonstrate their competence in school psychology prior to completion of the program.
2. Students prepare a Graduate Research Project (GRP), which includes a formal research paper or program evaluation and must be approved by APU's Institutional Review Board (IRB). The GRP content should be related to a topic that the student chooses to study in depth and has relevance to the field of school psychology. The research portion of the project is completed through the following courses: EDPY 592, EDPY 690, and EDPY 636. In addition to the GRP, students are required to present their research findings and paper to a faculty and peer panel.
3. Students complete a performance-based portfolio during practicum and internship/fieldwork that is evaluated by program faculty and field experience mentors for evidence of skills competency.

Advisory Notes

- Students intending to pursue two Master of Arts in Education degrees should review the university requirements for additional master's degrees as stated in the Academic Policies and Procedures (p. 1240) section of the catalog.
- Students cannot pursue the Master of Arts in Education: Educational Counseling (<https://www.apu.edu/education/programs/masters-in-school-counseling/>) as a second master's degree after completing the requirements for the Master of Arts in Education: Educational Psychology and Educational Specialist in School Psychology.
- The practicum experience at APU consists of 450 hours (required by the California Commission on Teacher Credentialing). A minimum of 300 hours must be completed in a pre-K-12 public school setting. Up to 150 hours may be completed through on-campus agencies (e.g., child study centers, psychology clinics) or community-based agencies (e.g., private schools, community-based mental health clinics). These hours are to be completed prior to beginning fieldwork/internship. The required hours are to be completed under the direct supervision of a credentialed school psychologist with no fewer than three years of experience.
- At some regional campuses, students may need to delay enrollment until there is a sufficient number of beginning students to provide the appropriate adult learning opportunities. Applicants can obtain detailed information about dates for beginning coursework by requesting an advisement appointment at the Azusa campus or any of the regional campuses.
- Students in an educational counseling or educational psychology program may request to waive a course (see Waivers (p. 1246)), provided that the student can document completion of an equivalent course at another institution in the five-year period prior to requesting the waiver. Department approval of the request is required. If the course accepted for waiver also meets all of the university standards for transfer credit (see Transfer Credit (p. 1245)), it may be transferred to meet requirements (up to 20 percent of the total program units may be transferred to meet requirements). If the course accepted for waiver does not meet the university standards for transfer credit (i.e., not applicable to a master's degree at the university where it was taken, not taken from a regionally accredited institution, etc.), then the student must choose alternative elective courses to satisfy the unit requirements of the degree program.
- A student has a maximum of five years to complete all coursework, including waivers and transfer of units, beginning the first date of enrollment for coursework in the degree program.
- Students approaching program completion must obtain a credential application from the Office of Credentials (<https://www.apu.edu/education/resources/credentials/>) in the School of Education. Students must complete all credential requirements to apply for the credential.
- Students approaching graduation must obtain and complete a G (<http://www.apu.edu/graduateprofessionalcenter/registrar/forms/>) raduation Application (<https://www.apu.edu/graduateprofessionalcenter/registrar/forms/>) from the Office of the Registrar (<https://www.apu.edu/graduateprofessionalcenter/registrar/>) in accordance with published university deadlines. The registrar and department will collaborate to determine whether the student has met all requirements.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate competency in data-based decision making and accountability.
2. Demonstrate competency in consultation and collaboration.
3. Demonstrate competency in interventions and instructional support to develop academic skills.
4. Demonstrate competency in behavior interventions and mental health services to develop social and life skills.
5. Demonstrate competency in direct and indirect services – school wide practices to promote learning.
6. Demonstrate competency in school-wide practices to promote behavioral and mental health.
7. Demonstrate competency in family-school collaboration.
8. Demonstrate competency in human diversity.
9. Demonstrate competency in research and program evaluation.
10. Demonstrate competency in legal, ethical, and professional practice and disposition.
11. Demonstrate an understanding of basic concepts and principles from the field of Applied Behavior Analysis (ABA).
12. Learn single-subject design and how to collect, display, analyze, and interpret data using continuous and discontinuous measures.
13. Implement procedures and systems related to behavior change from the perspective of applied behavior analysis (ABA).
14. Conduct personnel supervision that is behavior analytic in nature.
15. Apply the industry's ethical guidelines to their practice in the field of applied behavior analysis (ABA).
16. Conduct functional behavior assessment. This includes descriptive assessment (review of records, interview, observation, interpretation), functional analysis, and developing intervention plans.
17. Apply coursework in a fieldwork setting, supervised by a qualified professional.

Educational Specialist (EdS) in School Psychology: Clinical and Educationally Related Mental Health Counseling with Embedded MA in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology

For more information: (626) 815-5424

Azusa Pacific University's Educational Specialist (EdS) in School Psychology: Clinical and Educationally Related Mental Health Counseling with embedded Master of Arts in Education (MAEd): Educational Psychology and Pupil Personnel Services Credential in School Psychology (<https://www.apu.edu/education/programs/school-psychology-specialist-degree/pathways/>) program equips school psychology candidates with distinctive and marketable skills and competencies. Candidates gain advanced skills to effectively meet the needs of students with emotional and behavioral challenges, and are equipped to provide educationally related mental health services or designated instructional services. Through supervised field experiences and classroom curriculum, candidates gain exposure to group and individual clinical counseling, addictions or substance abuse counseling and intervention, psychobiology/psychopharmacology, DSM-V diagnosis, and case conceptualization and treatment for school-based mental health services.

The school psychology program is approved with conditions by the National Association of School Psychologists (NASP) (<https://www.nasponline.org/>) and accredited by the National Council for Accreditation of Teacher Education (NCATE)—which is transitioning to the Council for the Accreditation of Educator Preparation (CAEP) (<http://www.caepnet.org/>)—and the California Commission on Teacher Credentialing (CTC) (<https://www.ctc.ca.gov/>). The two degrees are completed in three years and comprise 84 graduate semester units, 450 hours of practicum, and 1,200 hours of fieldwork/internship. Upon successful completion of this program, candidates can apply to become Nationally Certified School Psychologists (NCSPs).

Program Structure

Years 1 and 2

Candidates complete at least 61 units and 450 hours of practicum during the first two years of the program. Candidates also complete the Graduate Research Project (GRP).

Year 3 (MAEd and EdS)

Candidates complete at least an additional 23 units of special focus coursework, including 1,200 hours of fieldwork/internship and coursework for the clinical and educationally related mental health counseling specialization. Candidates applying for an internship credential may submit their application once a paid internship at a public school in the field of school psychology has been secured. Prior to starting fieldwork/internship, students are required to provide an updated TB clearance.

Upon successful completion of post-master's coursework and fieldwork/internship, and passing of the PRAXIS II (School Psychology) exam, the candidate is granted the Educational Specialist (EdS) degree and may file for the PPS Credential in School Psychology. Once these requirements are fulfilled, the student may apply to become a Nationally Certified School Psychologist (NCSP) through the National Association of School Psychologists (NASP); students are advised to review specific NCSP requirements online (<https://www.nasponline.org/standards-and-certification/national-certification/ncsp-eligibility/>).

Candidates should collaborate with the program director about where the clinical and educationally related mental health counseling specialization courses should be completed within the three-year sequence.

Additional Admission Requirements for School Psychology Applicants

1. After all admission materials have been submitted to the Office of Graduate and Professional Admissions (<http://www.apu.edu/graduateprofessionalcenter/admissions/>), the school psychology program reviews the file and notifies the applicant to schedule an admission interview with the department. The prospective candidate should come prepared to be interviewed by program faculty. The purpose of the interview is to meet the candidate, discuss career goals, evaluate match of the program to the student, and make an initial assessment of the applicant's potential for success as a school psychologist.
2. All candidates who are admitted to the program are required to submit a copy of their California Certificate of Clearance (COC) or another form of clearance, such as a valid and current credential for teaching or counseling and/or nursing. The law requires Azusa Pacific University to keep these records on file while candidates are in attendance at APU.
3. Candidates must verify successful completion of the California Basic Skills Requirement ([https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-\(cl-667/\)](https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-(cl-667/))) via one of the options approved by the California Commission on Teacher Credentialing (CTC) (<https://www.ctc.ca.gov/>) prior to admission.

Course Requirements

Students take courses in the following sequence (students are required to seek academic advisement prior to initial registration).

Scope and Sequence

Students take courses in the following sequence (students are required to seek academic advising prior to initial registration):

Code	Title	Units
Year 1		
Semester 1		
EDPY 533	Counseling Theories and Techniques ¹	3
EDPY 557	Human Growth, Development, and Learning ¹	3
EDPY 624	Disabilities in Children ¹	2
EDPY 535	Professionalism, Ethics, and Law ¹	3
Semester 2		
EDPY 545	Positive Behavior Supports and Classroom Intervention ¹	3
EDPY 549	Career Development Theories and Techniques	3
EDPY 572	Psychobiology and Psychopharmacology	3
EDPY 556	Academic Assessment and Intervention ¹	2
EDPY 592	Foundations in Research ¹	3
Semester 3		
EDPY 593	Historical Development of School Counseling and School Psychology ¹	3
EDPY 528	Community, Family, and School Collaboration ¹	3

Students must have located a practicum site for approval by the department.

Year 2**Semester 1**

EDPY 681	Psychoeducational Assessment I ¹	3
EDPY 690	Advanced Individual Research ¹	3
EDPY 682	Psychoeducational Assessment II ¹	3
EDPY 636	Research and Evaluation in School Psychology ¹	3
EDPY 635A	Role and Function of a School Psychologist: Positive Behavior Supports ¹	1

Semester 2

EDPY 683	Psychoeducational Assessment III ¹	3
EDPY 637	Child Psychopathology Assessment and Treatment ¹	3
EDPY 550	Crisis/Trauma Response and Interventions ¹	3
EDPY 633	Multicultural and Bilingual Assessment and Intervention	3
EDPY 635B	Role and Function of a School Psychologist: Individual/Group Counseling ¹	1
EDPY 575	Clinical Practica	3

Semester 3

EDPY 635C	Role and Function of a School Psychologist: Assessment ¹	1
-----------	---	---

Year 3**Semester 1**

EDPY 555	Group Counseling Skills	3
EDPY 573	Addictions, Assessment, and Interventions	3
EDPY 697	Readings in School Psychology	1

Select one of the following:

EDPY 655	School Psychology Internship I	5
EDPY 695	School Psychology Fieldwork I	

Semester 2

EDPY 571	Introduction to Clinical Practice: Basic Skills	3
EDPY 574	Introduction to Clinical Practice: Advanced Skills	3

Select one of the following:

EDPY 656	School Psychology Internship II	5
EDPY 696	School Psychology Fieldwork II	

Total Units**84**

¹ Prerequisites must be completed prior to internship/fieldwork.

Students complete the following in order to earn the Master of Arts in Education: Educational Psychology (MAEd) and Educational Specialist (EdS) with an embedded Pupil Personnel Services Credential in School Psychology:

- Designated MAEd and EdS coursework (84 units)
- 550 hours of practicum
- 1,200 hours of fieldwork/internship (primary and secondary settings)
- Graduate research project
- Passing the PRAXIS II School Psychology #5402 with a 147 or higher **OR** PRAXIS II School Psychology #5403 with a 155 or higher

Additional Requirements

1. Students must pass the PRAXIS II School Psychology #5402 exam with a score of 147 or higher or PRAXIS II School Psychology #5403 exam with a score of 155 or higher to demonstrate their competence in school psychology prior to completion of the program.
2. Students prepare a Graduate Research Project (GRP), which includes a formal research paper or program evaluation and must be approved by APU's Institutional Review Board (IRB). The GRP content should be related to a topic that the student chooses to study in depth and has relevance to the field of school psychology. The research portion of the project is completed through the following courses: EDPY 592, EDPY 690, and EDPY 636. In addition to the GRP, students are required to present their research findings and paper to a faculty and peer panel.
3. Students complete a performance-based portfolio during practicum and internship/fieldwork that will be evaluated by program faculty and field experience mentors for evidence of skills competency.

Advisory Notes

- Students intending to pursue two Master of Arts in Education degrees should review the university requirements for additional master's degrees as stated in the Academic Policies and Procedures section of the catalog.
- Students cannot pursue the Master of Arts in Education: Educational Counseling as a second master's degree after completing the requirements for the Master of Arts in Education: Educational Psychology and Educational Specialist in School Psychology.
- The practicum experience at APU consists of 450 hours (required by the California Commission on Teacher Credentialing). A minimum of 300 hours must be completed in a pre-K-12 public school setting. Up to 150 hours may be completed through on-campus agencies (e.g., child study centers, psychology clinics) or community-based agencies (e.g., private schools, community-based mental health clinics). These hours are to be completed prior to beginning fieldwork/internship. The required hours are to be completed under the direct supervision of a credentialed school psychologist with no fewer than three years of experience.
- At some regional campuses, students may need to delay enrollment until there is a sufficient number of beginning students to provide the appropriate adult learning opportunities. Applicants can obtain detailed information about dates for beginning coursework by requesting an advisement appointment at the Azusa campus or any of the regional campuses.
- Students in an educational counseling or educational psychology program may request to waive a course (see Waivers), provided that the student can document completion of an equivalent course at another institution in the five-year period prior to requesting the waiver. Department approval of the request is required. If the course accepted for waiver also meets all of the university standards for transfer credit (see Transfer Credit), it may be transferred to meet requirements (up to 20 percent of the total program units may be transferred to meet requirements). If the course accepted for waiver does not meet the university standards for transfer credit (i.e., not applicable to a master's degree at the university where it was taken, not taken from a regionally accredited institution, etc.), then the student must choose alternative elective courses to satisfy the unit requirements of the degree program.
- A student has a maximum of five years to complete all coursework, including waivers and transfer of units, beginning the first date of enrollment for coursework in the degree program.
- Students approaching program completion must obtain a credential application from the Office of Credentials (<https://www.apu.edu/education/resources/credentials/>) in the School of Education. Students must complete all credential requirements to apply for the credential.
- Students approaching graduation must obtain and complete a Graduation Application (<https://www.apu.edu/graduateprofessionalcenter/registrar/forms/>) from the Office of the Registrar (<https://www.apu.edu/graduateprofessionalcenter/registrar/>) in accordance with published university deadlines. The registrar and department will collaborate to determine whether the student has met all requirements.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate competency in data-based decision making and accountability.
2. Demonstrate competency in consultation and collaboration.
3. Demonstrate competency in interventions and instructional support to develop academic skills.
4. Demonstrate competency in behavior interventions and mental health services to develop social and life skills.
5. Demonstrate competency in direct and indirect services and school practices to promote learning.
6. Demonstrate competency in school-wide practices to promote behavioral and mental health.
7. Demonstrate competency in family-school collaboration.
8. Demonstrate competency in human diversity.
9. Demonstrate competency in research and program evaluation.
10. Demonstrate competency in legal, ethical, and professional practice disposition.

Pupil Personnel Services: School Psychology Credential

For more information: (626) 815-5424

Prerequisite: Master of Arts in Education: Educational Counseling with Embedded Pupil Personnel Services Credential in School Counseling (p. 750)

A required transcript evaluation of students' courses will determine which courses will count toward the PPS: School Psychology Credential.

Requirements are the same as for Azusa Pacific University's Educational Specialist in School Psychology with Embedded Master of Arts in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology (p. 756) program, with the exception that no graduate research project is required.

Students must pass the PRAXIS II (School Psychology) Exam with a score of 147 or greater. Credential-only candidates **may be eligible** to become a Nationally Certified School Psychologist (NCSP); candidates are advised to contact the National Association of School Psychologists (NASP) certification board (<https://www.nasponline.org/CERTIFICATION/>) to determine if their degrees meet NCSP requirements.

A student has a maximum of five years to complete all coursework and assessments, beginning the first date of enrollment for coursework in the credential program.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Applied Behavioral Analysis Specialization

BCBA Certificate

23 units

For more information: (626) 815-5424

NOTE: A Board Certified Behavior Analyst[®] (BCBA) coordinator must approve admission to this emphasis. Admission to the BCBA program course sequence requires a separate application with the Student Services Center (<https://www.apu.edu/graduateprofessionalcenter/>) and interview with the BCBA committee.

The following nine-course sequence in applied behavior analysis, in its entirety, meets the 315 classroom hours of graduate-level instruction in the specified content areas established by the Behavior Analyst Certification Board[®] (BACB). Graduate students in the program must successfully complete all of the courses listed below to qualify to sit for the BCBA examination. Individual courses taken with a non-BCBA instructor or outside of APU's BCBA nine-course sequence may not meet BCBA requirements. Contact the BACB (<https://bacb.com/>) for additional information.

Requirements

Code	Title	Units
ABA 505	Foundations In Applied Behavior Analysis	3
ABA 504	Single-Case Designs: Measurement and Experimental Evaluation of Behavior	3
ABA 503	Theory and Philosophy of Behavior Analysis	3
ABA 515	Behavior Intervention	3
ABA 500	ABA Fieldwork I	1
ABA 514	Functional Behavior Assessment in Applied Settings	3
ABA 534	Organizational Behavior Management	3
ABA 524	Ethics in Applied Behavior Analysis	3
ABA 510	ABA Fieldwork II	1

Total Units

23

Special Note: A behavior analyst is certified by the BACB after passing the BCBA certification exam. To sit for the exam, a candidate must apply directly to the BACB and provide evidence of the following: a master's degree in behavior analysis, education, or psychology from a qualifying institution; a passing grade in each course (note: the School of Education requires grades of *B-* or higher in its graduate courses), comprising a total of at least 315 classroom hours of graduate-level instruction from an approved university in the specified content areas established by the BACB; and completion of 1,500 hours of independent fieldwork in behavior analysis supervised by a qualified BCBA. Azusa Pacific University does not provide this supervision. For more information regarding the certification process, visit the BACB website (<https://www.bacb.com>).

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate an understanding of basic concepts and principles from the field of Applied Behavior Analysis (ABA).
2. Learn single-subject design and how to collect, display, analyze, and interpret data using continuous and discontinuous measures.
3. Implement procedures and systems related to behavior change from the perspective of applied behavior analysis (ABA).
4. Conduct personnel supervision that is behavior analytic in nature.
5. Apply the industry's ethical guidelines to their practice in the field of applied behavior analysis (ABA).
6. Conduct functional behavior assessment. This includes descriptive assessment (review of records, interview, observation, interpretation), functional analysis, and developing intervention plans.
7. Apply coursework in a fieldwork setting, supervised by a qualified professional.

Division of Teacher Education

The Division of Teacher Education (<https://www.apu.edu/education/teacher/>) prepares candidates to become public school teachers who demonstrate the content, pedagogical, and professional knowledge, skills, and dispositions necessary to help all K-12 students grow and learn. In keeping with a commitment to enhance teacher candidates' understanding of the continuum of K-12 education, all programs emphasize a growing knowledge across the breadth of the program from theory to practice. Master's degree programs with credentials embedded and credential-only programs provide the training and experience needed to qualify for California's Multiple Subject and Single Subject Teaching Credentials, as well as Mild to Moderate Support Needs and Extensive Support Needs Education Specialist Credentials.

The Division of Teacher Education offers a BA in Liberal Studies (p. 785) with an optional integrated Mild to Moderate or Extensive Support Needs Education Specialist Credential, as well as a liberal studies minor (p. 790). Additionally, the Integrated Bachelor's/Credential Program (p. 813) offers several options in other fields of study, including allied health and mathematics.

The division also offers two master's degrees with a Multiple Subject or Single Subject Preliminary Teaching Credential embedded: the Master of Arts in Education: Learning and Technology (p. 780) and Master of Arts in Education: Teaching (p. 780). The division also offers two master's degrees with a Mild to Moderate Support Needs or Extensive Support Needs Education Specialist Credential embedded: the Masters of Arts in Education: Learning and Technology (p. 801) and Master of Arts in Education: Special Education (p. 801). Additionally, the School of Behavioral and Applied Sciences offers the Master of Arts in Physical Education and Single Subject Teaching Credential (p. 524). (p. 524)

Learn more about the division below:

- Mission Statement (p. 769)
- Professional Standards for Credential Candidates (p. 769)
- Intern Credential Option and Eligibility Requirements (p. 769)

Mission Statement

The Division of Teacher Education produces teachers who are ethical, responsive, and informed practitioners who are faithful stewards of their time, talents, and resources. They model servanthood as a means to clarify and practice their faith and knowledge.

Professional Standards for Credential Candidates

APU credential candidates are highly desired because of the School of Education's strong reputation for preparing highly qualified teachers who have been held to high professional standards. The Division of Teacher Education assesses candidates from admission through credential recommendation in credential standards and dispositions, including the following:

- All credential candidates are expected to maintain a high level of professional and ethical behavior throughout the program. Failure to do so may result in expulsion from the program.
- All credential standards and requirements for Multiple Subject and Single Subject Teaching Credentials, as well as the Mild to Moderate Support Needs and Extensive Support Needs Education Specialist Credentials, are subject to California Commission on Teacher Credentialing (CTC), National Council for Accreditation of Teacher Education (NCATE, transitioning to the Council for the Accreditation of Educator Preparation or CAEP), and federal policy changes, as well as graduate education policies. These standards, requirements, and policies supersede catalog descriptions of prior programs and requirements.
- The division reserves the right to change the admission process and requirements as needed, withhold credential recommendation due to a candidate's failure to meet and/or maintain APU professional and ethical behavior standards and dispositions, and/or expel a candidate at any time in the program due to a candidate's failure to meet and/or maintain APU professional and ethical standards and dispositions.
- Please refer to published general application requirements for credential programs.

Intern Credential Option and Eligibility Requirements

The Multiple Subject and Single Subject Credential programs, and the Education Specialist programs, offer an Intern Credential option specifically designed for the candidate who is teaching full time in an appropriate setting in a California public K-12 school. Candidates planning to complete their clinical experience via an Intern Credential should communicate with a credential analyst in the Office of Credentials (<http://www.apu.edu/education/resources/credentials/>) prior to beginning the eligibility process. To become eligible for an Intern Credential, a candidate must meet the following requirements:

1. Hold a baccalaureate or higher degree from a regionally accredited institution of higher education.
2. Gain admittance to a School of Education preliminary teaching credential program and be a candidate in good standing.
3. Successfully complete (grade of B- or higher in each course) at least 6 units of coursework in the School of Education preliminary teaching credential program. Candidates who already hold a California Multiple Subject, Single Subject, or Education Specialist Teaching Credential may check with the Office of Credentials for possible exemption from this requirement.

4. Verify successful completion of the California Basic Skills Requirement ([https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-\(cl-667/](https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-(cl-667/)) via one of the options approved by the California Commission on Teacher Credentialing (CTC) (<https://www.ctc.ca.gov/>).
5. Verify successful completion of U.S. Constitution requirement (course or exam).
6. Verify successful completion of the California Subject Matter Requirement (<https://www.ctc.ca.gov/educator-prep/subject-matter-requirements/>) via one of the options approved by the California Commission on Teacher Credentialing (CTC) (<https://www.ctc.ca.gov/>).
7. Verify successful completion of the School of Education's approved intern pre-service.
 - Multiple Subject Preservice: TESP 501 Art of Teaching I: Foundations of Teaching, TESP 502 Science of Teaching I: How Students Learn, TEP 511 Art of Teaching II: Pedagogy and Instructional Design, and TEP 521 Methods of Teaching Reading and Writing (K-8)
 - Single Subject Preservice: TESP 501 Art of Teaching I: Foundations of Teaching, TESP 502 Science of Teaching I: How Students Learn, TEP 511 Art of Teaching II: Pedagogy and Instructional Design, and TEP 531 Methods of Teaching Reading and Writing (7-12)
 - Education Specialist Preservice: TESP 501 Art of Teaching I: Foundations of Teaching, TESP 502 Science of Teaching I: How Students Learn, SPED 517 Art of Teaching II: Pedagogy and Instructional Design for Education Specialists, and SPED 525 Methods of Teaching Reading and Writing

Candidates may also meet intern preservice requirements via completion of Alternative Certification Training (ACT) through the Kern County Superintendent of Schools. Candidates are required to work with their credential analyst for completion of preservice requirements through ACT or documented evidence of completing another CTC-approved preservice certification program. Note: For coursework or a CTC-approved preservice certification program to be considered toward meeting intern preservice requirements, the coursework or program must be completed within five years prior to recommendation for the Intern Credential.
8. Verify successful completion of 30 hours of early fieldwork experience via one of the following options:
 - APU fieldwork that is embedded in courses. Courses must be completed within five years prior to recommendation for the Intern Credential.
 - Current California Multiple Subject, Single Subject, or Education Specialist Teaching Credential.
 - Life Ryan Credentials, out-of-state credentials, and previous teaching experience will be evaluated on a case-by-case basis.
9. Demonstrate competence in reading instruction via completion of the School of Education Methods of Teaching Reading and Writing course relevant to the candidate's preliminary credential program AND proof of registration for the Reading Instruction Competence Assessment (RICA) exam OR proof of a passing score on the RICA exam. Candidates who already hold a California Multiple Subject or Education Specialist Teaching Credential may check with the Office of Credentials for possible exemption from this requirement.
10. Gain employment under a full-time public school contract at a school site located within 50 road-miles of Azusa or an APU regional campus offering School of Education preliminary teacher credential programs.
11. Verify employment as evidenced by a letter from school or district administration on school or district letterhead fully describing the teaching assignment.
12. Submit the credential application and Intern Credential Application Request through the Office of Credentials.

Completion of the above requirements does not guarantee recommendation for an Intern Credential; such recommendation is contingent upon the availability of university coaches/mentors. The School of Education must also have a valid Memorandum of Understanding (MOU) in place with the employing Local Education Agency (LEA) extending the offer of employment. Additionally, the intern coordinator and program director for the relevant preliminary teacher credential program will review the candidate's file to determine if the candidate demonstrates appropriate academic progress and dispositions for recommendation for an Intern Credential.

Note: The School of Education at Azusa Pacific University is not approved to offer the Bilingual Crosscultural Language and Academic Development Certificate (BCLAD). At this time, the intern programs are not designed to support individuals employed in bilingual classrooms. We are unable to recommend a candidate for an Intern credential if their intern placement is in a bilingual classroom.

Once a candidate has been recommended for an Intern Credential, he/she must comply with the following requirements to maintain eligibility for the Intern Credential:

- Be continuously employed in a teaching assignment that requires the Intern Credential
- Be an APU School of Education candidate in good standing
- Be making satisfactory progress toward program completion for the duration of the Intern Credential
- Follow his/her signed advising plan
- Enroll in a candidate support and supervision course (SPED 500 or TEP 590) or clinical practice course each fall and spring 8-week session he/she holds an Intern Credential

Note: Once a candidate has progressed to the start of the second 8 weeks of clinical practice, the candidate has passed the point where he/she can be recommended for an Intern Credential. Upon completion of 16 weeks of clinical practice, a candidate with an Intern Credential has two 8-week sessions in which to complete the preliminary credential requirements and application and move to the preliminary credential. This includes passing the CalTPA (for all candidates) and passing the RICA (for those candidates working toward a preliminary credential requiring RICA). **Failure to either maintain eligibility for the Intern Credential or to complete the preliminary credential requirements and application within the one semester immediately following completion of clinical practice will result in withdrawal of the Intern Credential, which could impact the candidate's**

employment. If an Intern Credential is withdrawn as a result of a lapse in professional responsibility, integrity, or ethical conduct, the intern may be dismissed from the program, and the intern must meet with the division chair to discuss remediation and next steps.

Programs

Department of Elementary and Secondary Education

- BA in Liberal Studies/Undergraduate Education K-8 Program (p. 785)
- Liberal Studies Minor (p. 790)
- Elementary and Secondary Education: Master's Degree Programs in Learning and Technology with Preliminary Teaching Credential
 - Master of Arts in Education: Learning and Technology and Multiple Subject Teaching Credential (p. 791)
 - Master of Arts in Education: Learning and Technology and Single Subject Teaching Credential (p. 793)
- Elementary and Secondary Education: Master's Degree Programs in Teaching with Preliminary Teaching Credential
 - Master of Arts in Education: Teaching and Multiple Subject Teaching Credential (p. 795)
 - Master of Arts in Education: Teaching and Single Subject Teaching Credential (p. 796)
- Elementary and Secondary Education: Credential-Only Programs
 - Multiple Subject Teaching Credential (p. 798)
 - Single Subject Teaching Credential (p. 799)

Department of Special Education

- Special Education: Master's Degree Programs in Learning and Technology with Education Specialist Preliminary Credential
 - Master of Arts in Education: Learning and Technology and Mild to Moderate Support Needs Education Specialist Credential (p. 805)
 - Master of Arts in Education: Learning and Technology and Extensive Support Needs Education Specialist Credential (p. 806)
- Special Education: Master's Degree Programs in Special Education with Education Specialist Preliminary Credential
 - Master of Arts in Education: Special Education and Mild to Moderate Support Needs Education Specialist Credential (p. 808)
 - Master of Arts in Education: Special Education and Extensive Support Needs Education Specialist Credential (p. 809)
- Special Education: Credential-Only Programs
 - Mild to Moderate Support Needs Education Specialist Credential (p. 811)
 - Extensive Support Needs Education Specialist Credential (p. 812)

Integrated Bachelor's/Credential Program

- Bachelor of Science in Allied Health with Integrated Single Subject (Science) Teaching Credential (p. 71)
- Bachelor of Arts in Liberal Studies with Integrated Mild to Moderate Support Needs Education Specialist Credential (p. 816)
- Bachelor of Arts in Liberal Studies with Integrated Extensive Support Needs Education Specialist Credential (p. 816)
- Bachelor of Arts in Mathematics with Integrated Single Subject (Math) Teaching Credential (p. 187)

Courses

EDLS 200, Introduction to Teaching as a Profession K-12, 4 Units

This course provides an overview to the teaching profession, focusing on the art of teaching at the K-12 level. Issues addressed surround the Common Core standards, the California State Standards for the Teaching Profession, and the California Content Standards, including school organization, curriculum and pedagogical practices, classroom management, and assessment. The service-learning lab requires 45 hours in a K-12 school. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

Prerequisite: Sophomore Standing

EDLS 202, Introduction to Teaching as a Profession (7-12), 4 Units

This course provides an overview to the teaching profession, focusing on the art of teaching at the 7-12 level. Issues addressed surround the Common Core standards, the California State Standards for the Teaching Profession, and the California Content Standards, including school organization, curriculum and pedagogical practices, classroom management, and assessment. The service-learning lab requires 45 hours in a 7-12 school. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

Prerequisite: Sophomore Standing

EDLS 303, Introduction to Special Populations, 3 Units

Students explore the historical, social, cultural, and legal mandates that have influenced the treatment of, and educational programs for, individuals with mild to moderate or extensive support needs. Students explore eligibility criteria for special education under the Individuals with Disabilities Education Act (IDEA) and Child Find, as well as prereferral interventions, legal mandates for developing an Individualized Education Program (IEP), determining a Least Restrictive Environment (LRE), and offering a Free and Appropriate Public Education (FAPE) for individuals with special needs. Students consider how a Christian worldview, based on the principles of Imago Dei, guides their work with individuals with special needs to foster an environment where all students are treated with respect, dignity, and intrinsic value. Course includes embedded academic service-learning requirement for a total of 12 hours.

Prerequisite: Sophomore standing

EDLS 304, Introduction to Teaching Special Populations, 3 Units

Students explore educational and program considerations for individuals with special needs, including instructional considerations and strategies across the core content areas, as well as functional academics, for individuals with mild to moderate and extensive support needs. Attention is given to evidenced-based practices, culturally responsive teaching, and differentiation for individuals with special needs. Students reflect on the Christian worldview in relation to student diversity and developing a climate of inclusion, community, and belonging within classrooms. Course includes embedded academic service-learning requirement for a total of 12 hours.

Prerequisite: Sophomore standing

EDLS 405, Diversity in the Classroom, 3 Units

This course focuses on the examination of the interaction of the student's cultural background with ethics, racial, religious, and gender issues, the educational setting, and wider social forces that affect traditional success and failure for students who are linguistically and culturally different. The course evaluates the role that administrators and teachers play in nurturing a spirit of multiculturalism in schools. Includes service-learning hours in educational settings. *Meets the General Education Requirement: Intercultural Competence.*

Prerequisite: Junior standing

EDLS 495, Foundations of Education Capstone, 3 Units

This is the capstone course for seniors in the Liberal Studies program. In this course, students integrate the concepts and skills they have learned throughout their various Liberal Studies courses, apply their knowledge in a classroom service learning experience, and prepare to transition from college to their teaching careers. Students utilize the California State Common Core Standards for the Teaching Profession to reflect on their growth as educators, synthesize their knowledge and service learning experiences from across multiple courses to develop their personal philosophy of education, and generate cross-disciplinary projects that showcase their skills in curriculum development and pedagogy while preparing for the CSET (California Subject Examination for Teachers). In addition, students develop essential job searching and interviewing skills. *Meets the General Education Requirement: Integrative and Applied Learning.*

Prerequisite: EDLS 496, EDLS 200 or EDLS 202, EDLS 405, and senior standing

EDLS 496, Writing 3: Education and Professional Ethics, 3 Units

This writing 3 course prepares students to develop a written thesis which offers a cogent analysis of a complex topic while defending a clear thesis. Students will understand and express a Christian perspective on issues critical to the education profession through a written thesis. Biblical and theological themes relating to education provide a base, while historical biographies and examples supply a context in which students generate a distinctively Christian response to a contemporary problem facing education. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

Prerequisite: Junior standing, Writing 2

EDLS 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed by, a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

EDUC 536, Family, Community, and School Connections, 3 Units

This course focuses on community dynamics, community building, and parental involvement as essential components in education. Successful school reform models of parental involvement are examined, along with their connection to higher student achievement. Master's degree candidates discuss and define their role in building strong partnerships with all families, especially those in underserved communities. They utilize asset-based community-building strategies in educational practice as they explore their school communities and conduct capacity inventories. Candidates develop an ethnography representing their deepening understanding of who their students are, how the families and communities in which they are embedded help shape them, and how they can utilize this knowledge to enhance holistic development of students through their practice.

Prerequisite: EDUC 560

EDUC 537, Curriculum Development, Revision, and Evaluation Process, 3 Units

This course applies a systems approach to curriculum design through examining the phases of the process, including analysis, design, development, and evaluation. Master's degree candidates are introduced to keys of effective curriculum design, including setting goals and developing clear and measurable objectives; determining related learning activities and resources to promote learning and accomplish objectives; designing and/or selecting appropriate forms of assessment (formative and summative) to chart student progress; and using multiple forms of feedback for assessing instructional effectiveness, to inform future modifications and revisions. Students learn the purpose of and approach to each phase of the instructional design process and create products for each phase in completing a curriculum design project.

Prerequisite: EDUC 560

EDUC 538, Current Issues in Education, 3 Units

In this course, master's degree candidates investigate, analyze, discuss, and propose solutions for the most significant problems, concerns, and challenges in education today. The course includes four areas of concentration: curriculum, with a focus on instructional design; teaching practice; school organization; and the politics of education. Candidates study current research relevant to course topics, analyze varying perspectives, and evaluate them in terms of teaching and learning effectiveness as well as the quality of life in the school community. Through compilation and synthesis of empirical work on a specific topic area, candidates craft a literature review to demonstrate expertise in current trends and future directions of research.

Prerequisite: EDUC 560

EDUC 546, Digital Communications, 3 Units

This course engages students in collaborative, investigative, and reflective learning opportunities through the exploration of relevant digital communication tools. Attention is given to current modes of communication that utilize a digital platform, and effective strategies for implementation within teaching/learning environments.

Prerequisite: EDUC 560

EDUC 547, Special Topics in Educational Technology, 3 Units

Students in this course explore the current technologies, trends, and a variety of special topics in educational technology. Course material covers practical and theoretical aspects, effectiveness, and problems related to the implementation of the topic into relevant teaching/learning environments. Different topics are offered at different times, so the course may be repeated for credit.

Prerequisite: EDUC 560

EDUC 548, Emerging Trends in Technology, 3 Units

This course covers the historical development of educational technology and the social issues influencing its growth and implementation. Attention is also given to a synthesis of research related to the field, professional organizations serving the discipline, and emerging innovative uses of educational technology.

Prerequisite: EDUC 560

EDUC 556, Historical and Philosophical Perspectives of Disability Studies, 3 Units

This course explores and analyzes the historically key definitions of disability in light of the major theories, methodological approaches, and proposed public policy uses that have shaped them. It also considers how civil rights, human rights, self-determination, social policy, and participative action research have influenced disability studies. A diverse set of current and historical research articles on disability studies is analyzed to model the ways in which different research topics have been addressed and introduce how current research can stimulate future studies. Emphasis is given to the formulation of important research questions and the development of testable hypotheses based on previous theory, literature, and experience, as master's candidates begin to develop initial sections of their capstone research project.

Prerequisite: EDUC 560

EDUC 557, Current Trends in Curriculum and Disability Studies, 3 Units

This course equips candidates with practical and theoretical understanding of curriculum in schooling, with an emphasis on the role performed by the special education teacher or differentiation expert. Course material covers the various approaches to curriculum construction and organization in schools by examining the principles of curriculum improvement, change, and evaluation. Focus is on the theories, research, and best practices related to planning and developing curriculum and its implementation in schools and classrooms in order to address the needs of students in diverse communities.

Prerequisite: EDUC 560

EDUC 558, Research and Collaboration for Special Education, 3 Units

This course provides educational specialists the communication and problem-solving skills to successfully collaborate with families, other educators, related service providers, and individuals with exceptionalities within the K-12 education environment. Additionally, this advanced course enables master's degree candidates in special education to build upon earlier courses and examine educational research within the special education framework, with an emphasis on data collection for action research.

Prerequisite: EDUC 560

EDUC 560, Action Research in Education, 1 Unit

This course introduces students to basic qualitative and quantitative research methods, designs, and reporting strategies. Master's degree candidates are enabled to develop an understanding of the research process by introducing the basic principles of research and academic writing. Through activities integrating theory with practice, candidates learn how to identify problems to study, develop research questions, specify data collection methods and design their action research projects which are continued in a subsequent course.

EDUC 569, Capstone Seminar, 2 Units

Culminating the MA emphasis courses, the capstone seminar helps students build on the coursework representing their repertoire of academic preparation from the credential and master's programs. Master's candidates complete their action research projects, and create an ePortfolio for compiling assignments that profile their professional identities (personal philosophy, identity and dispositions narrative), their scholarly work (ethnography, curriculum assessment, literature review), and their practical applications (lesson and unit plans, classroom management) in the classroom. In this way, students refine and contribute further to a body of work representing their accomplishments and professional identity. Finally, through this course, candidates enhance their understanding and experience of a community's connection to the school environment.

Prerequisite: EDUC 536, EDUC 537, and EDUC 538; or EDUC 546, EDUC 547, and EDUC 548; or EDUC 556, EDUC 557, and EDUC 558

SPED 500, Candidate Support and Supervision, 1-3 Units

Teacher candidates explore current educational practices and a variety of special topics in the field of education, and course material covers practical and theoretical aspects relevant to the teaching/learning environment. Interns may be required to take this course during their program in an effort to meet program requirements while receiving mandated supervision and support. This course may be repeated four (4) times for credit for a total of 4-12 units.

SPED 525, Methods of Teaching Reading and Writing, 3 Units

This course prepares teacher candidates to implement a comprehensive literacy program of systematic instruction in reading, writing, listening, speaking, and language aligned with the California Common Core State Standards for English Language Arts and the English Language Arts/English Language Development Framework. Through application of research-based instructional practices, candidates learn specific ways to address the diverse needs of all students.

SPED 526, Specialized Academic Instruction: Reading, Writing, and Math, 3 Units

This course introduces candidates to multifaceted and multitiered methodologies and strategies necessary for teaching and engaging diverse students with disabilities in mathematics and language arts. Candidates become proficient in making explicit connections between ongoing assessment, student characteristics and strengths, instruction, and curriculum. They learn to analyze data to plan effective and differentiated instruction and interventions, and also how to collaboratively design effective IEP goals while considering the role of technology in those goals.

SPED 527, Teaching Students with Extensive Support Needs, 3 Units

This course provides teacher candidates with a systems perspective for understanding and supporting individuals with extensive support needs and their families who come from culturally and linguistically diverse backgrounds. Using a person-centered planning approach, candidates examine effective collaborative strategies for team building, Individual Education Program (IEP) development, joint problem solving, and transition planning. Course material covers evidence-based strategies, adaptations, modifications, and technologies that provide access to Common Core standards, functional academics, and life skills. Various models are reviewed, including co-teaching, inclusion, community-based instruction, and vocational training.

SPED 528, Assessment and IEP Development: Mild to Extensive Support Needs, 3 Units

Teacher candidates in this course examine current assessment mandates for students with mild to extensive support needs, studying test development and learning to evaluate assessment tools based on current research-based policies and mandates. Candidates also learn to administer and interpret norm-criterion reference assessment instruments as well as informal surveys or assessment instruments, and gain an understanding of the influence of cultural and linguistic factors in the development of Individual Education Program (IEP) goals and Individual Transition Plans (ITPs).

Corequisite: SPED 550 or SPED 551 or SPED 570 or SPED 571

SPED 529, Positive Behavior Supports for Students with Exceptional Needs, 3 Units

This course equips teacher candidates with the skills and legal framework essential to the development of positive behavior supports and self-management outcomes for students with disabilities. Candidates examine foundations of behavior disorders, appropriate communication, and behavioral support strategies that align with best practices. The foundations of functional analysis of behavior that leads to the development of positive behavior intervention plans are examined. Models of collaborative practices that lead to positive relationships and critical partnerships with students, families, educators, and agencies are investigated through skill development and self-analysis.

Corequisite: SPED 552 or SPED 553 or SPED 572 or SPED 573

SPED 550, Clinical Practice I: Mild to Moderate Support Needs, 2 Units

Students with mild to moderate support needs require specialized support to address unique learning needs resulting from a range of specific learning disabilities, intellectual disabilities, autism, other health impairments, emotional disturbance, multiple disabilities, traumatic brain injury, orthopedic impairment, or other identified disabilities for which placement in a classroom for students with mild to moderate support needs is deemed appropriate. Teacher candidates, as part of their clinical practice, get on-site experience providing the support described in students' Individualized Education Programs (IEPs). These experiences include, but are not limited to, creating an appropriate physical classroom environment for students with mild/moderate disabilities, conducting formal and informal assessments in order to determine students' current levels of performance, planning for students' grade and instructional levels, and capturing data to support progress on annual goals and short-term objectives that are aligned with California Content Standards. Candidates also monitor students' progress toward instructional goals and state-adopted standards, and, if necessary, identify behaviors impeding learning, and remediate by implementing positive behavior supports. Candidates complete a semester of full-time, supervised student teaching in appropriate public school classrooms, with assignments in classroom grade levels K-12. Each placement provides teaching experiences with English learners and ethnically diverse students. *Meets the General Education Requirement: Integrative and Applied Learning.*

Corequisite: SPED 528

SPED 553, Clinical Practice II: Mild to Moderate Support Needs, 2 Units

Students with mild to moderate support needs require specialized support to address unique learning needs resulting from a range of specific learning disabilities, intellectual disabilities, autism, other health impairments, emotional disturbance, multiple disabilities, traumatic brain injury, orthopedic impairment, or other identified disabilities for which placement in a classroom for students with mild to moderate support needs was deemed appropriate. During their clinical practice experience, teacher candidates are provided with on-site experiences that provide the support described in the students' Individualized Education Programs (IEPs). These experiences include, but are not limited to, creating an appropriate classroom physical environment for students with mild to moderate support needs, conducting formal and informal assessments in order to determine the students' current levels of performance, planning for their grade and instructional level, and capturing data to support progress on annual goals and short-term objectives aligned with California Content Standards. Candidates also monitor students' progress toward instructional goals and state-adopted standards and, if necessary, identify behaviors impeding learning, and remediate by implementing positive behavior supports. Candidates complete a semester of full-time, supervised student teaching in appropriate public school classrooms, with assignments in classroom grade levels K-12. Each placement provides teaching experiences with English learners and ethnically diverse students.

Prerequisite: SPED 550;

Corequisite: SPED 529

SPED 570, Clinical Practice I: Extensive Support Needs, 2 Units

Students with extensive support needs require specialized support to address unique learning needs resulting from a range of intellectual, behavioral, emotional, communication, sensory, autism spectrum disorder, and/or motor impairments. Teacher candidates, as part of their clinical practice, get on-site experience providing the support described in the students' Individualized Education Programs (IEPs). These experiences include, but are not limited to, creating an appropriate classroom physical environment for students with extensive support needs, conducting formal and informal assessments in order to determine students' current levels of performance, planning instructional-level annual goals and short-term objectives that are aligned with California Content Standards, monitoring students' progress toward instructional goals and short-term objectives, and identifying behaviors impeding learning and then remediating by implementing positive behavior supports. Candidates complete a semester of full-time, supervised student teaching in appropriate public school classrooms, with assignments in classroom grade levels K-12. Each placement provides teaching experiences with English learners and ethnically diverse students.

Corequisite: SPED 528

SPED 573, Clinical Practice II: Extensive Support Needs, 2 Units

Students with extensive support needs require specialized support to address unique learning needs resulting from a range of intellectual, behavioral, emotional, communication, sensory, autism spectrum disorder, and/or motor impairments. Teacher candidates, as part of their clinical practice, get on-site experience providing the support described in the students' Individualized Education Programs (IEPs). These experiences include, but are not limited to, creating an appropriate classroom physical environment for students with extensive support needs, conducting formal and informal assessments in order to determine students' current levels of performance, planning instructional-level annual goals and short-term objectives aligned with California Content Standards, monitoring students' progress toward instructional goals and short-term objectives, and identifying behaviors impeding learning and then remediating by implementing positive behavior supports. Candidates complete a semester of full-time, supervised student teaching in appropriate public school classrooms, with assignments in classroom grade levels K-12. Each placement provides teaching experiences with English learners and ethnically diverse students.

Prerequisite: SPED 570;

Corequisite: SPED 529

SPED 599, Readings in Special Education, 1-3 Units

Consists of a program of study concentrating on assigned readings, discussions, field experiences, and/or writing arranged between, and designed by, a student and a full-time professor. An independent study fee is assessed for each enrollment in this class.

TEP 511, Art of Teaching II: Pedagogy and Instructional Design, 3 Units

This course explores pedagogy as the combination of teachers' professional knowledge, skills, and abilities, which are directed to create effective learning opportunities and outcomes for all students in a range of contexts. Building on broad themes from TESP 501 The Art of Teaching I, teacher candidates explore pedagogical methods and specific models for meeting individual student needs, utilizing universal and individualized strategies. Attention is given to culturally responsive teaching practices for learners with diverse cultural and ethnic identities, as well as differentiation practices for students with various learning needs. Candidates further analyze the relationship between curriculum, pedagogy, and assessment, and examine and reflect on the Christian worldview in relation to student diversity and developing a climate of equity and collaboration within classrooms. This course includes 15 hours of required field experience in a k-12 school.

Prerequisite: TESP 501

TEP 512, Science of Teaching II: Effective Assessment Strategies for All Learners, 3 Units

Students in this course explore strategies for designing standards and data-driven curricular plans and units to serve diverse (e.g., culturally, linguistically, and/or ability-diverse) student populations. Teacher candidates engage in the administration and analysis of formative, summative, and diagnostic assessment to inform the ongoing development of differentiated instruction that serves the unique academic needs of students from diverse, intersecting backgrounds and identities. In view of the academic achievement gap that exists in California k-12 schools, candidates utilize assessment results, alongside state frameworks and current standards specific to their specialization, in development of further curriculum/planning, instruction, and assessment cycles that demonstrate the use of instructional strategies, materials, technologies, and other resources to make content connected, contextualized, and accessible to all students. Candidates consider how a Christian worldview catalyzes their commitment to engage fully in the work of creating classrooms that meet the needs of all their students. This course includes 15 hours of required field experience in a k-12 school.

Prerequisite: TESP 502

TEP 521, Methods of Teaching Reading and Writing (K-8), 3 Units

This course prepares teacher candidates to implement a comprehensive literacy program of systematic instruction in reading, writing, listening, speaking, and language aligned with the California Common Core State Standards for English Language Arts and the English Language Arts/English Language Development Framework. Through application of research-based instructional practices, candidates learn specific ways to address the diverse needs of all students.

TEP 522, Methods of Teaching Mathematics (K-8), 3 Units

This course introduces teacher candidates to the California Common Core State Standards for Mathematics and the Standards for Mathematical Practice. In addition to relevant theory, the course focuses on pedagogical methods and strategies for teaching math to all students in K-8 classrooms. This course prepares teacher candidates to develop curriculum designed to ensure the success of diverse student populations. Moreover, issues addressed in the course include, but are not limited to technology integration; differentiated instruction and culturally appropriate pedagogical practices; and subject-specific strategies for teaching and assessing.

TEP 523, Methods of Teaching Science (K-8), 2 Units

This course introduces credential candidates to state-adopted K-8 Next Generation Science Standards and the 2016 Science Framework for California Public Schools: Kindergarten Through Grade Twelve, as well as science concepts and principles, scientific investigation, experimentation, and student assessment. Emphasis is on balanced instruction between Disciplinary Core Ideas, Crosscutting Concepts, and Scientific and Engineering Practices as described in the Next Generation Science Standards. This course also focuses on facilitating K-8 students' ability to independently read and comprehend instructional materials and graphic/media representations, integrate mathematical concepts and practices in scientific investigations, develop academic language, engage in disciplinary discourse practices, and understand the connections between science, society, technology, and the environment. The teaching of physical education and health education in grades K-8 is also covered.

Corequisite: TEP 551

TEP 524, Methods of Integrating the Humanities (K-8), 2 Units

This course, intended for students in clinical practice (student teaching or intern placements), introduces methods of connecting moral and civic education with the social sciences and the arts through thematic teaching, in ways that comply with state frameworks and academic content standards, specifically focusing on the California Common Core State Standards. Course material utilizes a wide range of high-quality children's literature and performing and visual arts strategies. Emphasis is on a meaning-centered, diverse humanities curriculum designed to promote critical thinking skills and meet the needs of all students, including those with special needs and those from culturally and linguistically diverse backgrounds.

Corequisite: TEP 552

TEP 531, Methods of Teaching Reading and Writing (7-12), 3 Units

This course includes intensive instruction in reading and language arts methods grounded in methodically sound research, to be incorporated in all subject areas. The study of secondary reading and language arts methods includes effective strategies and methods for guiding and developing the content-based reading and writing abilities of all students, including students with varied reading levels and language backgrounds. Teacher candidates examine well-designed systematic instructional programs, and the implementation of California Common Core State Standards (CCSS) for reading and writing in an integrated fashion with the standards for their subject area.

TEP 532, Secondary Pedagogy I: Teaching in Secondary Schools (7-12), 2 Units

This course is designed for individuals who are teaching in middle or high school subject areas, such as math, ELA, social studies, science, art, physical education, music, etc. Teacher candidates in this course explore the teacher's and the students' roles in middle and high school classrooms. This course focuses on the history, development, and reform measures of middle and high schools to create positive environments that foster inquiry and promote a meaningful learning setting, including trends addressing cultural diversity. Aspects of middle and high school covered in this course include student-centered learning; critical teaching skills for making lessons relevant to students (including culturally relevant practices); cognitive and behavioral development as it affects curriculum design; lesson planning; differentiated instruction; use of technology; assessment; and intentional, reflective teaching practices. All assignments are completed in the subject area for which the individual is seeking the Single Subject Teaching Credential.

Corequisite: TEP 561

TEP 533, The Differentiated Classroom: Maximizing Capacity of Each Learner (7-12), 3 Units

This course explores the philosophical and practical aspects of differentiation as defined by the entirety of classroom practice by the interdependence of the key aspects of curriculum, instruction, assessment, the learner, and the learning environment. Teacher candidates engage in activities that support the development of a teaching philosophy and practice that cultivates the K-12 learner as an active participant with a shared understanding of an investment in a differentiated classroom. Teacher candidates develop competence in analyzing and applying knowledge of K-12 students' achievement, instructional needs, social-emotional needs, cultural and language factors, and other relevant data necessary to improve teaching and learning for all students. Candidates also begin the development of an Individualized Learning Plan to gain competence as a reflective practitioner and further develop the professional knowledge, skills, and dispositions necessary to meet the expectations for beginning teachers as outlined in the California Teaching Performance Expectations.

TEP 534, Secondary Pedagogy II: Content-Specific Strategies, Teaching, and Assessment (7-12), 2 Units

This course engages candidates who are in clinical practice (student teaching or intern placements) in discussion of common challenges faced by teacher candidates in secondary classrooms, and also focuses on content-specific pedagogical strategies by subject matter. Issues addressed in the course include, but are not limited to, teacher beliefs and their effect on student performance; classroom management; effective curriculum and lesson development; culturally appropriate pedagogical practices; the "plan, teach, assess, reflect, and apply" cycle; content-specific strategies for teaching and assessing; and preparation for the workforce. Individual concerns and issues raised during student teaching or the internship are addressed.

Prerequisite: TEP 532;

Corequisite: TEP 562

TEP 551, Clinical Practice I: Multiple Subject Credential, 2 Units

Clinical practice gives teacher candidates a culminating preparatory experience toward which the teacher candidate's entire teacher education program has been planned. The purpose is to develop and verify beginning-level teaching competency in candidates by the end of the clinical practice semester, according to standards set by the California Commission on Teacher Credentialing (CTC) and the Council for the Accreditation of Educator Preparation (CAEP). Clinical practice provides a full-time, experience-based program in which teacher candidates (contracted and noncontracted) have opportunities to participate as classroom teachers in schools while supervised by a university mentor. Focus is given to many areas of background learning and to coordinating those areas into a meaningful set of experiences. These experiences include, but are not limited to, designing and implementing instruction for their multiple subject grade level and learners, promoting and supporting rigorous and appropriate content in their lessons, creating a positive environment for students with diverse needs, and reflecting in order to monitor student learning and adjust instruction. Clinical practice also provides teaching experiences with English learners and ethnically diverse students. *Meets the General Education Requirement: Integrative and Applied Learning.*

Corequisite: TEP 523

TEP 552, Clinical Practice II: Multiple Subject Credential, 2 Units

Clinical practice gives teacher candidates a culminating preparatory experience toward which the teacher candidate's entire teacher education program has been planned. The purpose is to develop and verify beginning-level teaching competency in candidates by the end of the clinical practice semester, according to standards set by the California Commission on Teacher Credentialing (CTC) and the Council for the Accreditation of Educator Preparation (CAEP). Clinical practice provides a full-time, experience-based program in which teacher candidates (contracted and noncontracted) have opportunities to participate as classroom teachers in schools while supervised by a university mentor. Focus is given to many areas of background learning and to coordinating those areas into a meaningful set of experiences. These experiences include, but are not limited to, designing and implementing instruction for their multiple subject grade level and learners, promoting and supporting rigorous and appropriate content in their lessons, creating a positive environment for students with diverse needs, and reflecting in order to monitor student learning and adjust instruction. Clinical practice also provides teaching experiences with English learners and ethnically diverse students. *Meets the General Education Requirement: Integrative and Applied Learning.*

Prerequisite: TEP 551;

Corequisite: TEP 524

TEP 561, Clinical Practice I: Single Subject Credential, 2 Units

Clinical practice gives teacher candidates a culminating preparatory experience toward which the teacher candidate's entire teacher education program has been planned. The purpose is to develop and verify beginning-level teaching competency in candidates by the end of the clinical practice semester, according to standards set by the California Commission on Teacher Credentialing (CTC) and the Council for the Accreditation of Educator Preparation (CAEP). Clinical practice provides a full-time, experience-based program in which teacher candidates (contracted and noncontracted) have opportunities to participate as classroom teachers in schools while supervised by a university mentor. Focus is given to many areas of background learning and to coordinating those areas into a meaningful set of experiences. These experiences include, but are not limited to, designing and implementing instruction for their single subject content area and learners, promoting and supporting rigorous and appropriate content in their lessons, creating a positive environment for students with diverse needs, and reflecting in order to monitor student learning and adjust instruction. Clinical practice also provides teaching experiences with English learners and ethnically diverse students. *Meets the General Education Requirement: Integrative and Applied Learning.*

Corequisite: TEP 532

TEP 562, Clinical Practice II: Single Subject Credential, 2 Units

Clinical practice gives teacher candidates a culminating preparatory experience toward which the teacher candidate's entire teacher education program has been planned. The purpose is to develop and verify beginning-level teaching competency in candidates by the end of the clinical practice semester, according to standards set by the California Commission on Teacher Credentialing (CTC) and the Council for the Accreditation of Educator Preparation (CAEP). Clinical practice provides a full-time, experience-based program in which teacher candidates (contracted and noncontracted) have opportunities to participate as classroom teachers in schools while supervised by a university mentor. Focus is given to many areas of background learning and to coordinating those areas into a meaningful set of experiences. These experiences include, but are not limited to, designing and implementing instruction for their single subject content area and learners, promoting and supporting rigorous and appropriate content in their lessons, creating a positive environment for students with diverse needs, and reflecting in order to monitor student learning and adjust instruction. Clinical practice also provides teaching experiences with English learners and ethnically diverse students. *Meets the General Education Requirement: Integrative and Applied Learning.*

Prerequisite: TEP 561;

Corequisite: TEP 534

TEP 590, Candidate Support and Supervision, 1-3 Units

Teacher candidates explore current educational practices and a variety of special topics in the field of education, and course material covers practical and theoretical aspects relevant to the teaching/learning environment. Interns may be required to take this course during their program in an effort to meet program requirements while receiving mandated supervision and support. This course may be repeated four (4) times for credit for a total of 4-12 units.

TEP 599, Readings in Teacher Education, 1-3 Units

Consists of a program of study concentrating on assigned readings, discussions, field experiences, and/or writing arranged between, and designed by, a student and a full-time professor. An independent study fee is assessed for each enrollment in this class.

TESP 501, Art of Teaching I: Foundations of Teaching, 3 Units

This course provides an introduction to basic pedagogy, including classroom management, lesson planning and teaching, standards-based instruction, teaching strategies for students with diverse identities and needs, and the application of technology to support teaching and learning. Teacher candidates consider strategies, models, and processes for meeting the needs of a broad range of K-12 students, including special needs students, gifted students, English language learners, speakers of nondominant varieties of English, and students of all cultural or ethnic identities. This course is designed for direct application of classroom learning by candidates in a collaborative context that implements inclusion. Candidates examine Christian character and develop an understanding of grace in the Christian worldview as applied in classroom contexts, in consideration of meeting the needs of students and building community within the classroom. This course includes 15 hours of required field experience in a K-12 school.

TESP 502, Science of Teaching I: How Students Learn, 3 Units

This course comprises a basic overview of human growth and development for all students in the K-12 environment. Teacher candidates identify how research on the neuroscience of learning, theories of learning, and student motivation affect current understanding of student development through the K-12 education experience. They then creatively and collaboratively investigate how this knowledge can enable them to meet the needs of all students, including underserved populations, English language learners, and individuals with diverse learning needs (from gifted learners to individuals with mild to severe disabilities). Candidates also examine their own cultural beliefs, attitudes toward diversity, and related assumptions, identifying how these might affect student learning and achievement in their classrooms. Candidates demonstrate applied knowledge of communication styles and strategies for fostering positive cross-cultural interactions among students who are diverse in terms of culture, language, and ability. Finally, candidates reflect on the need to support the development of all students from a Christian worldview. This course includes 15 hours of required field experience in a K-12 school. *Meets the General Education Requirement: Social Science.*

TESP 503, The Soul of Teaching: Tapestry of American Education, 3 Units

This course introduces teacher candidates to the history of American education and a sampling of modern philosophies of education, examined through the lens of a Christian worldview. Specific consideration is given to the ways in which historical trends have contributed to today's education system, including how social and philosophical movements, as well as policy changes, have shaped the growth and inclusiveness of education in the U.S. Candidates reflect on the continued need for education equity for all students in U.S. schools, and explore inclusive practices for diverse populations, professional dispositions, teacher resiliency, and their role in perpetuating social justice in education. They engage culturally appropriate response strategies that enhance learning opportunities in a cross-cultural context, and identify how a Christian worldview enables and directs a commitment to principles of equity and justice in their practice. *Meets the General Education Requirement: Intercultural Competence.*

TESP 504, Schools and Educational Systems, 3 Units

This course explores the legal, ethical, and organizational systems (federal, state, district, and school) within which teachers conduct their work. Teacher candidates engage in an examination of school and community cultures and their impact on learning, by focusing on the ways teachers communicate and collaborate with external and internal stakeholders to provide equitable access to all students. Additionally, contractual responsibilities and professional expectations are addressed. Candidates also consider the ways in which educators, from a Christian worldview, can advocate to transform social problems impacting school culture. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

Instructor

Susan Hall, MA

Department of Elementary and Secondary Education

The Department of Elementary and Secondary Education offers a Bachelor of Arts in Liberal Studies to prepare undergraduate students seeking careers as elementary school teachers with the breadth of content knowledge needed to teach in an elementary setting. The department also offers master's degree and credential programs for candidates seeking a California Preliminary Teaching Credential authorizing them to teach in a public elementary, middle, or high school setting. APU's Multiple Subject Teaching Credential programs prepare teachers for positions at the elementary level, providing a breadth of knowledge over the K-8 continuum for self-contained classrooms. The Single Subject Teaching Credential programs prepare teachers for positions at the middle and high school levels (6-12), with focus in their specific subject area. The department assesses all candidates at admission, throughout their program, and up to the recommendation of credentials. Assessments are used to evaluate and inform candidate learning and include the following assessment areas: California Commission on Teacher Credentialing (CTC) (<https://www.ctc.ca.gov/>) teacher performance expectations, APU program learning outcomes, and teacher candidate dispositions.

Programs

Major

- Bachelor of Arts in Liberal Studies/Undergraduate Education K-8 Program (p. 785)

Minor

- Minor in Liberal Studies (p. 790)

Master's

- Master of Arts in Education: Learning and Technology and Multiple Subject Teaching Credential (p. 791)
- Master of Arts in Education: Learning and Technology and Single Subject Teaching Credential (p. 793)
- Master of Arts in Education: Teaching and Multiple Subject Teaching Credential (p. 795)
- Master of Arts in Education: Teaching and Single Subject Teaching Credential (p. 796)

Credentials

- Multiple Subject Teaching Credential (p. 798)
- Single Subject Teaching Credential (p. 799)

Courses

EDLS 200, Introduction to Teaching as a Profession K-12, 4 Units

This course provides an overview to the teaching profession, focusing on the art of teaching at the K-12 level. Issues addressed surround the Common Core standards, the California State Standards for the Teaching Profession, and the California Content Standards, including school organization, curriculum and pedagogical practices, classroom management, and assessment. The service-learning lab requires 45 hours in a K-12 school. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

Prerequisite: Sophomore Standing

EDLS 202, Introduction to Teaching as a Profession (7-12), 4 Units

This course provides an overview to the teaching profession, focusing on the art of teaching at the 7-12 level. Issues addressed surround the Common Core standards, the California State Standards for the Teaching Profession, and the California Content Standards, including school organization, curriculum and pedagogical practices, classroom management, and assessment. The service-learning lab requires 45 hours in a 7-12 school. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

Prerequisite: Sophomore Standing

EDLS 303, Introduction to Special Populations, 3 Units

Students explore the historical, social, cultural, and legal mandates that have influenced the treatment of, and educational programs for, individuals with mild to moderate or extensive support needs. Students explore eligibility criteria for special education under the Individuals with Disabilities Education Act (IDEA) and Child Find, as well as prereferral interventions, legal mandates for developing an Individualized Education Program (IEP), determining a Least Restrictive Environment (LRE), and offering a Free and Appropriate Public Education (FAPE) for individuals with special needs. Students consider how a Christian worldview, based on the principles of Imago Dei, guides their work with individuals with special needs to foster an environment where all students are treated with respect, dignity, and intrinsic value. Course includes embedded academic service-learning requirement for a total of 12 hours.

Prerequisite: Sophomore standing

EDLS 304, Introduction to Teaching Special Populations, 3 Units

Students explore educational and program considerations for individuals with special needs, including instructional considerations and strategies across the core content areas, as well as functional academics, for individuals with mild to moderate and extensive support needs. Attention is given to evidenced-based practices, culturally responsive teaching, and differentiation for individuals with special needs. Students reflect on the Christian worldview in relation to student diversity and developing a climate of inclusion, community, and belonging within classrooms. Course includes embedded academic service-learning requirement for a total of 12 hours.

Prerequisite: Sophomore standing

EDLS 405, Diversity in the Classroom, 3 Units

This course focuses on the examination of the interaction of the student's cultural background with ethics, racial, religious, and gender issues, the educational setting, and wider social forces that affect traditional success and failure for students who are linguistically and culturally different. The course evaluates the role that administrators and teachers play in nurturing a spirit of multiculturalism in schools. Includes service-learning hours in educational settings. *Meets the General Education Requirement: Intercultural Competence.*

Prerequisite: Junior standing

EDLS 495, Foundations of Education Capstone, 3 Units

This is the capstone course for seniors in the Liberal Studies program. In this course, students integrate the concepts and skills they have learned throughout their various Liberal Studies courses, apply their knowledge in a classroom service learning experience, and prepare to transition from college to their teaching careers. Students utilize the California State Common Core Standards for the Teaching Profession to reflect on their growth as educators, synthesize their knowledge and service learning experiences from across multiple courses to develop their personal philosophy of education, and generate cross-disciplinary projects that showcase their skills in curriculum development and pedagogy while preparing for the CSET (California Subject Examination for Teachers). In addition, students develop essential job searching and interviewing skills. *Meets the General Education Requirement: Integrative and Applied Learning.*

Prerequisite: EDLS 496, EDLS 200 or EDLS 202, EDLS 405, and senior standing

EDLS 496, Writing 3: Education and Professional Ethics, 3 Units

This writing 3 course prepares students to develop a written thesis which offers a cogent analysis of a complex topic while defending a clear thesis. Students will understand and express a Christian perspective on issues critical to the education profession through a written thesis. Biblical and theological themes relating to education provide a base, while historical biographies and examples supply a context in which students generate a distinctively Christian response to a contemporary problem facing education. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

Prerequisite: Junior standing, Writing 2

EDLS 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed by, a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

EDUC 536, Family, Community, and School Connections, 3 Units

This course focuses on community dynamics, community building, and parental involvement as essential components in education. Successful school reform models of parental involvement are examined, along with their connection to higher student achievement. Master's degree candidates discuss and define their role in building strong partnerships with all families, especially those in underserved communities. They utilize asset-based community-building strategies in educational practice as they explore their school communities and conduct capacity inventories. Candidates develop an ethnography representing their deepening understanding of who their students are, how the families and communities in which they are embedded help shape them, and how they can utilize this knowledge to enhance holistic development of students through their practice.

Prerequisite: EDUC 560

EDUC 537, Curriculum Development, Revision, and Evaluation Process, 3 Units

This course applies a systems approach to curriculum design through examining the phases of the process, including analysis, design, development, and evaluation. Master's degree candidates are introduced to keys of effective curriculum design, including setting goals and developing clear and measurable objectives; determining related learning activities and resources to promote learning and accomplish objectives; designing and/or selecting appropriate forms of assessment (formative and summative) to chart student progress; and using multiple forms of feedback for assessing instructional effectiveness, to inform future modifications and revisions. Students learn the purpose of and approach to each phase of the instructional design process and create products for each phase in completing a curriculum design project.

Prerequisite: EDUC 560

EDUC 538, Current Issues in Education, 3 Units

In this course, master's degree candidates investigate, analyze, discuss, and propose solutions for the most significant problems, concerns, and challenges in education today. The course includes four areas of concentration: curriculum, with a focus on instructional design; teaching practice; school organization; and the politics of education. Candidates study current research relevant to course topics, analyze varying perspectives, and evaluate them in terms of teaching and learning effectiveness as well as the quality of life in the school community. Through compilation and synthesis of empirical work on a specific topic area, candidates craft a literature review to demonstrate expertise in current trends and future directions of research.

Prerequisite: EDUC 560

EDUC 546, Digital Communications, 3 Units

This course engages students in collaborative, investigative, and reflective learning opportunities through the exploration of relevant digital communication tools. Attention is given to current modes of communication that utilize a digital platform, and effective strategies for implementation within teaching/learning environments.

Prerequisite: EDUC 560

EDUC 547, Special Topics in Educational Technology, 3 Units

Students in this course explore the current technologies, trends, and a variety of special topics in educational technology. Course material covers practical and theoretical aspects, effectiveness, and problems related to the implementation of the topic into relevant teaching/learning environments. Different topics are offered at different times, so the course may be repeated for credit.

Prerequisite: EDUC 560

EDUC 548, Emerging Trends in Technology, 3 Units

This course covers the historical development of educational technology and the social issues influencing its growth and implementation. Attention is also given to a synthesis of research related to the field, professional organizations serving the discipline, and emerging innovative uses of educational technology.

Prerequisite: EDUC 560

EDUC 560, Action Research in Education, 1 Unit

This course introduces students to basic qualitative and quantitative research methods, designs, and reporting strategies. Master's degree candidates are enabled to develop an understanding of the research process by introducing the basic principles of research and academic writing. Through activities integrating theory with practice, candidates learn how to identify problems to study, develop research questions, specify data collection methods and design their action research projects which are continued in a subsequent course.

EDUC 569, Capstone Seminar, 2 Units

Culminating the MA emphasis courses, the capstone seminar helps students build on the coursework representing their repertoire of academic preparation from the credential and master's programs. Master's candidates complete their action research projects, and create an ePortfolio for compiling assignments that profile their professional identities (personal philosophy, identity and dispositions narrative), their scholarly work (ethnography, curriculum assessment, literature review), and their practical applications (lesson and unit plans, classroom management) in the classroom. In this way, students refine and contribute further to a body of work representing their accomplishments and professional identity. Finally, through this course, candidates enhance their understanding and experience of a community's connection to the school environment.

Prerequisite: EDUC 536, EDUC 537, and EDUC 538; or EDUC 546, EDUC 547, and EDUC 548; or EDUC 556, EDUC 557, and EDUC 558

TEP 511, Art of Teaching II: Pedagogy and Instructional Design, 3 Units

This course explores pedagogy as the combination of teachers' professional knowledge, skills, and abilities, which are directed to create effective learning opportunities and outcomes for all students in a range of contexts. Building on broad themes from TESP 501 The Art of Teaching I, teacher candidates explore pedagogical methods and specific models for meeting individual student needs, utilizing universal and individualized strategies. Attention is given to culturally responsive teaching practices for learners with diverse cultural and ethnic identities, as well as differentiation practices for students with various learning needs. Candidates further analyze the relationship between curriculum, pedagogy, and assessment, and examine and reflect on the Christian worldview in relation to student diversity and developing a climate of equity and collaboration within classrooms. This course includes 15 hours of required field experience in a k-12 school.

Prerequisite: TESP 501

TEP 512, Science of Teaching II: Effective Assessment Strategies for All Learners, 3 Units

Students in this course explore strategies for designing standards and data-driven curricular plans and units to serve diverse (e.g., culturally, linguistically, and/or ability-diverse) student populations. Teacher candidates engage in the administration and analysis of formative, summative, and diagnostic assessment to inform the ongoing development of differentiated instruction that serves the unique academic needs of students from diverse, intersecting backgrounds and identities. In view of the academic achievement gap that exists in California k-12 schools, candidates utilize assessment results, alongside state frameworks and current standards specific to their specialization, in development of further curriculum/planning, instruction, and assessment cycles that demonstrate the use of instructional strategies, materials, technologies, and other resources to make content connected, contextualized, and accessible to all students. Candidates consider how a Christian worldview catalyzes their commitment to engage fully in the work of creating classrooms that meet the needs of all their students. This course includes 15 hours of required field experience in a k-12 school.

Prerequisite: TESP 502

TEP 521, Methods of Teaching Reading and Writing (K-8), 3 Units

This course prepares teacher candidates to implement a comprehensive literacy program of systematic instruction in reading, writing, listening, speaking, and language aligned with the California Common Core State Standards for English Language Arts and the English Language Arts/English Language Development Framework. Through application of research-based instructional practices, candidates learn specific ways to address the diverse needs of all students.

TEP 522, Methods of Teaching Mathematics (K-8), 3 Units

This course introduces teacher candidates to the California Common Core State Standards for Mathematics and the Standards for Mathematical Practice. In addition to relevant theory, the course focuses on pedagogical methods and strategies for teaching math to all students in K-8 classrooms. This course prepares teacher candidates to develop curriculum designed to ensure the success of diverse student populations. Moreover, issues addressed in the course include, but are not limited to technology integration; differentiated instruction and culturally appropriate pedagogical practices; and subject-specific strategies for teaching and assessing.

TEP 523, Methods of Teaching Science (K-8), 2 Units

This course introduces credential candidates to state-adopted K-8 Next Generation Science Standards and the 2016 Science Framework for California Public Schools: Kindergarten Through Grade Twelve, as well as science concepts and principles, scientific investigation, experimentation, and student assessment. Emphasis is on balanced instruction between Disciplinary Core Ideas, Crosscutting Concepts, and Scientific and Engineering Practices as described in the Next Generation Science Standards. This course also focuses on facilitating K-8 students' ability to independently read and comprehend instructional materials and graphic/media representations, integrate mathematical concepts and practices in scientific investigations, develop academic language, engage in disciplinary discourse practices, and understand the connections between science, society, technology, and the environment. The teaching of physical education and health education in grades K-8 is also covered.

Corequisite: TEP 551

TEP 524, Methods of Integrating the Humanities (K-8), 2 Units

This course, intended for students in clinical practice (student teaching or intern placements), introduces methods of connecting moral and civic education with the social sciences and the arts through thematic teaching, in ways that comply with state frameworks and academic content standards, specifically focusing on the California Common Core State Standards. Course material utilizes a wide range of high-quality children's literature and performing and visual arts strategies. Emphasis is on a meaning-centered, diverse humanities curriculum designed to promote critical thinking skills and meet the needs of all students, including those with special needs and those from culturally and linguistically diverse backgrounds.

Corequisite: TEP 552

TEP 531, Methods of Teaching Reading and Writing (7-12), 3 Units

This course includes intensive instruction in reading and language arts methods grounded in methodically sound research, to be incorporated in all subject areas. The study of secondary reading and language arts methods includes effective strategies and methods for guiding and developing the content-based reading and writing abilities of all students, including students with varied reading levels and language backgrounds. Teacher candidates examine well-designed systematic instructional programs, and the implementation of California Common Core State Standards (CCSS) for reading and writing in an integrated fashion with the standards for their subject area.

TEP 532, Secondary Pedagogy I: Teaching in Secondary Schools (7-12), 2 Units

This course is designed for individuals who are teaching in middle or high school subject areas, such as math, ELA, social studies, science, art, physical education, music, etc. Teacher candidates in this course explore the teacher's and the students' roles in middle and high school classrooms. This course focuses on the history, development, and reform measures of middle and high schools to create positive environments that foster inquiry and promote a meaningful learning setting, including trends addressing cultural diversity. Aspects of middle and high school covered in this course include student-centered learning; critical teaching skills for making lessons relevant to students (including culturally relevant practices); cognitive and behavioral development as it affects curriculum design; lesson planning; differentiated instruction; use of technology; assessment; and intentional, reflective teaching practices. All assignments are completed in the subject area for which the individual is seeking the Single Subject Teaching Credential.

Corequisite: TEP 561

TEP 533, The Differentiated Classroom: Maximizing Capacity of Each Learner (7-12), 3 Units

This course explores the philosophical and practical aspects of differentiation as defined by the entirety of classroom practice by the interdependence of the key aspects of curriculum, instruction, assessment, the learner, and the learning environment. Teacher candidates engage in activities that support the development of a teaching philosophy and practice that cultivates the K-12 learner as an active participant with a shared understanding of an investment in a differentiated classroom. Teacher candidates develop competence in analyzing and applying knowledge of K-12 students' achievement, instructional needs, social-emotional needs, cultural and language factors, and other relevant data necessary to improve teaching and learning for all students. Candidates also begin the development of an Individualized Learning Plan to gain competence as a reflective practitioner and further develop the professional knowledge, skills, and dispositions necessary to meet the expectations for beginning teachers as outlined in the California Teaching Performance Expectations.

TEP 534, Secondary Pedagogy II: Content-Specific Strategies, Teaching, and Assessment (7-12), 2 Units

This course engages candidates who are in clinical practice (student teaching or intern placements) in discussion of common challenges faced by teacher candidates in secondary classrooms, and also focuses on content-specific pedagogical strategies by subject matter. Issues addressed in the course include, but are not limited to, teacher beliefs and their effect on student performance; classroom management; effective curriculum and lesson development; culturally appropriate pedagogical practices; the "plan, teach, assess, reflect, and apply" cycle; content-specific strategies for teaching and assessing; and preparation for the workforce. Individual concerns and issues raised during student teaching or the internship are addressed.

Prerequisite: TEP 532;

Corequisite: TEP 562

TEP 551, Clinical Practice I: Multiple Subject Credential, 2 Units

Clinical practice gives teacher candidates a culminating preparatory experience toward which the teacher candidate's entire teacher education program has been planned. The purpose is to develop and verify beginning-level teaching competency in candidates by the end of the clinical practice semester, according to standards set by the California Commission on Teacher Credentialing (CTC) and the Council for the Accreditation of Educator Preparation (CAEP). Clinical practice provides a full-time, experience-based program in which teacher candidates (contracted and noncontracted) have opportunities to participate as classroom teachers in schools while supervised by a university mentor. Focus is given to many areas of background learning and to coordinating those areas into a meaningful set of experiences. These experiences include, but are not limited to, designing and implementing instruction for their multiple subject grade level and learners, promoting and supporting rigorous and appropriate content in their lessons, creating a positive environment for students with diverse needs, and reflecting in order to monitor student learning and adjust instruction. Clinical practice also provides teaching experiences with English learners and ethnically diverse students. *Meets the General Education Requirement: Integrative and Applied Learning.*

Corequisite: TEP 523

TEP 552, Clinical Practice II: Multiple Subject Credential, 2 Units

Clinical practice gives teacher candidates a culminating preparatory experience toward which the teacher candidate's entire teacher education program has been planned. The purpose is to develop and verify beginning-level teaching competency in candidates by the end of the clinical practice semester, according to standards set by the California Commission on Teacher Credentialing (CTC) and the Council for the Accreditation of Educator Preparation (CAEP). Clinical practice provides a full-time, experience-based program in which teacher candidates (contracted and noncontracted) have opportunities to participate as classroom teachers in schools while supervised by a university mentor. Focus is given to many areas of background learning and to coordinating those areas into a meaningful set of experiences. These experiences include, but are not limited to, designing and implementing instruction for their multiple subject grade level and learners, promoting and supporting rigorous and appropriate content in their lessons, creating a positive environment for students with diverse needs, and reflecting in order to monitor student learning and adjust instruction. Clinical practice also provides teaching experiences with English learners and ethnically diverse students. *Meets the General Education Requirement: Integrative and Applied Learning.*

Prerequisite: TEP 551;

Corequisite: TEP 524

TEP 561, Clinical Practice I: Single Subject Credential, 2 Units

Clinical practice gives teacher candidates a culminating preparatory experience toward which the teacher candidate's entire teacher education program has been planned. The purpose is to develop and verify beginning-level teaching competency in candidates by the end of the clinical practice semester, according to standards set by the California Commission on Teacher Credentialing (CTC) and the Council for the Accreditation of Educator Preparation (CAEP). Clinical practice provides a full-time, experience-based program in which teacher candidates (contracted and noncontracted) have opportunities to participate as classroom teachers in schools while supervised by a university mentor. Focus is given to many areas of background learning and to coordinating those areas into a meaningful set of experiences. These experiences include, but are not limited to, designing and implementing instruction for their single subject content area and learners, promoting and supporting rigorous and appropriate content in their lessons, creating a positive environment for students with diverse needs, and reflecting in order to monitor student learning and adjust instruction. Clinical practice also provides teaching experiences with English learners and ethnically diverse students. *Meets the General Education Requirement: Integrative and Applied Learning.*

Corequisite: TEP 532

TEP 562, Clinical Practice II: Single Subject Credential, 2 Units

Clinical practice gives teacher candidates a culminating preparatory experience toward which the teacher candidate's entire teacher education program has been planned. The purpose is to develop and verify beginning-level teaching competency in candidates by the end of the clinical practice semester, according to standards set by the California Commission on Teacher Credentialing (CTC) and the Council for the Accreditation of Educator Preparation (CAEP). Clinical practice provides a full-time, experience-based program in which teacher candidates (contracted and noncontracted) have opportunities to participate as classroom teachers in schools while supervised by a university mentor. Focus is given to many areas of background learning and to coordinating those areas into a meaningful set of experiences. These experiences include, but are not limited to, designing and implementing instruction for their single subject content area and learners, promoting and supporting rigorous and appropriate content in their lessons, creating a positive environment for students with diverse needs, and reflecting in order to monitor student learning and adjust instruction. Clinical practice also provides teaching experiences with English learners and ethnically diverse students. *Meets the General Education Requirement: Integrative and Applied Learning.*

Prerequisite: TEP 561;

Corequisite: TEP 534

TEP 590, Candidate Support and Supervision, 1-3 Units

Teacher candidates explore current educational practices and a variety of special topics in the field of education, and course material covers practical and theoretical aspects relevant to the teaching/learning environment. Interns may be required to take this course during their program in an effort to meet program requirements while receiving mandated supervision and support. This course may be repeated four (4) times for credit for a total of 4-12 units.

TESP 501, Art of Teaching I: Foundations of Teaching, 3 Units

This course provides an introduction to basic pedagogy, including classroom management, lesson planning and teaching, standards-based instruction, teaching strategies for students with diverse identities and needs, and the application of technology to support teaching and learning. Teacher candidates consider strategies, models, and processes for meeting the needs of a broad range of K-12 students, including special needs students, gifted students, English language learners, speakers of nondominant varieties of English, and students of all cultural or ethnic identities. This course is designed for direct application of classroom learning by candidates in a collaborative context that implements inclusion. Candidates examine Christian character and develop an understanding of grace in the Christian worldview as applied in classroom contexts, in consideration of meeting the needs of students and building community within the classroom. This course includes 15 hours of required field experience in a K-12 school.

TESP 502, Science of Teaching I: How Students Learn, 3 Units

This course comprises a basic overview of human growth and development for all students in the K-12 environment. Teacher candidates identify how research on the neuroscience of learning, theories of learning, and student motivation affect current understanding of student development through the K-12 education experience. They then creatively and collaboratively investigate how this knowledge can enable them to meet the needs of all students, including underserved populations, English language learners, and individuals with diverse learning needs (from gifted learners to individuals with mild to severe disabilities). Candidates also examine their own cultural beliefs, attitudes toward diversity, and related assumptions, identifying how these might affect student learning and achievement in their classrooms. Candidates demonstrate applied knowledge of communication styles and strategies for fostering positive cross-cultural interactions among students who are diverse in terms of culture, language, and ability. Finally, candidates reflect on the need to support the development of all students from a Christian worldview. This course includes 15 hours of required field experience in a K-12 school. *Meets the General Education Requirement: Social Science.*

TESP 503, The Soul of Teaching: Tapestry of American Education, 3 Units

This course introduces teacher candidates to the history of American education and a sampling of modern philosophies of education, examined through the lens of a Christian worldview. Specific consideration is given to the ways in which historical trends have contributed to today's education system, including how social and philosophical movements, as well as policy changes, have shaped the growth and inclusiveness of education in the U.S. Candidates reflect on the continued need for education equity for all students in U.S. schools, and explore inclusive practices for diverse populations, professional dispositions, teacher resiliency, and their role in perpetuating social justice in education. They engage culturally appropriate response strategies that enhance learning opportunities in a cross-cultural context, and identify how a Christian worldview enables and directs a commitment to principles of equity and justice in their practice. *Meets the General Education Requirement: Intercultural Competence.*

TESP 504, Schools and Educational Systems, 3 Units

This course explores the legal, ethical, and organizational systems (federal, state, district, and school) within which teachers conduct their work. Teacher candidates engage in an examination of school and community cultures and their impact on learning, by focusing on the ways teachers communicate and collaborate with external and internal stakeholders to provide equitable access to all students. Additionally, contractual responsibilities and professional expectations are addressed. Candidates also consider the ways in which educators, from a Christian worldview, can advocate to transform social problems impacting school culture. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

BA in Liberal Studies/Undergraduate Education K-8 Program

84 units

Mission

The liberal studies major (<https://www.apu.edu/education/programs/liberal-studies-major/>) equips future teachers and other professionals by integrating coursework and service-learning experiences with the application of a Christian worldview as it relates to life vocation. It promotes awareness of cultural diversity issues and studies multiple curricula with an emphasis in specific subject areas aligned with Common Core standards for subject matter while fostering a holistic understanding of knowledge.

Program Overview

The Liberal Studies/Undergraduate Education K-8 program offers a Bachelor of Arts in Liberal Studies aligned with California Common Core subject-matter standards in order to prepare undergraduate students seeking careers as elementary school teachers with the breadth of content knowledge needed to teach in a K-8 setting.

The liberal studies degree provides future elementary school teachers with opportunities to teach in a self-contained classroom environment. Opportunities are available to take additional units toward a Supplementary/Subject Matter Authorization (SMA) if the student desires to teach content up to a ninth-grade level. Consult the Liberal Studies/Undergraduate Education K-8 program in the Division of Teacher Education for complete information.

During the first two years of college, it is suggested that undergraduate liberal studies majors complete university General Education requirements and prerequisites to upper-division coursework, which is embedded in the program's four-year plan. Students may want to explore the teaching field by taking EDLS 200 or EDLS 202 as sophomores, juniors, or seniors, along with EDLS 405, EDLS 495, and EDLS 496. Students in this program participate

in a minimum of 75 hours of teacher-oriented, service-learning field experience and observation through several core liberal studies/undergraduate education K-8 courses.

APU candidates prepare to work in schools as teachers, and they must know and demonstrate the content, pedagogical, and professional knowledge, skills, and dispositions necessary to help all students learn. Therefore, the Division of Teacher Education assesses candidates in these standards from admissions through recommendation of credentials, making APU graduates highly sought-after professionals.

Career Opportunities

Though most liberal studies graduates enter teaching credential programs and find teaching positions in public and private schools locally, nationally, and abroad, demand exists in the business and communication fields as well because of the increasing need for college graduates with broad and diverse academic backgrounds. Potential teaching careers exist in multiple subject, single subject, and special education.

Additional Preparation

Multiple Subject and Education Specialist preliminary credential candidates seeking admission into the teacher education program (p. 769) may satisfy the California Basic Skills Requirement ([https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-\(cl-667/\)](https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-(cl-667/))) and the California Subject Matter Requirement (<https://www.ctc.ca.gov/educator-prep/subject-matter-requirements/>) through coursework and/or completion of the Liberal Studies major. Those who satisfy the requirements by graduation may be hired on paid contracts with a school district once their bachelor's degree has been conferred and while completing a program for their Multiple Subject Teaching Credential.

Requirements

Code	Title	Units
Education and Human Development		
Select one of the following:		4
EDLS 200	Introduction to Teaching as a Profession K-12 ^{1, 2}	
EDLS 202	Introduction to Teaching as a Profession (7-12) ^{1, 2}	
PSYC 290	Human Growth and Development ^{1, 3}	3
EDLS 405	Diversity in the Classroom ^{1, 4}	3
EDLS 495	Foundations of Education Capstone ^{1, 5}	3
EDLS 496	Writing 3: Education and Professional Ethics ^{1, 6}	3
English/Language Arts		
COMM 111	Public Communication ⁷	3
ENGL 111	Studies in Literature ⁸	3
THTR 115	Introduction to Theater ⁹	3
ENGL 402	Principles of Language	3
ENGL 434	Children's Literature ¹	3
Mathematics		
Select one of the following:		3
MATH 110	College Algebra ¹⁰	
MATH 130	Introduction to Statistics ¹⁰	
MATH 201	Mathematics Concepts for Elementary Teachers ¹	3
Science		
Select one of the following:		4
BIOL 101	Biology and Society ¹¹	
BIOL 151	General Biology I ¹¹

Concentrations

Select one concentration from the list below. 12

Total Units 84

- ¹ This is a core liberal studies course. The 38 units of core liberal studies coursework must be completed with a grade of C or higher and an overall GPA of 3.0 or higher.
- ² Meets the General Education Civic Knowledge and Engagement requirement.
- ³ Meets the General Education Social Sciences requirement.
- ⁴ Meets the General Education Intercultural Competence requirement.
- ⁵ Meets the General Education Integrative and Applied Learning requirement.
- ⁶ Meets the General Education Writing 3 requirement.
- ⁷ Meets the General Education Oral Communication requirement.
- ⁸ Meets the General Education Humanities: Literature requirement.
- ⁹ Meets the General Education Humanities: Fine Arts requirement.
- ¹⁰ Meets the General Education Quantitative Literacy requirement.
- ¹¹ Meets the General Education Natural Sciences requirement.
- ¹² Meets the General Education Humanities: History requirement.
- ¹³ California Education Code Section 44335 requires all candidates for a teaching credential to demonstrate knowledge of the United States Constitution by completing a college-level course or a college-level examination in the subject; successful completion of either with a grade of C or higher meets this California Education Code requirement.

Students in the liberal studies major are limited to completing only one concentration from those listed below. A concentration course cannot double-count to meet a concentration requirement and a major requirement listed above.

Art Concentration

Code	Title	Units
Required Courses		
ART 145	Drawing I ¹	3
ART 146	Painting I	3
Select one of the following art history courses:		3
ART 354	History of Ancient Art and Architecture ¹	
ART 356	Writing 3: History of Modern Art and Architecture ²	
ART 357	History of Contemporary Art and Architecture ¹	
ART 361	History of Early Christian and Medieval Art and Architecture ¹	
ART 362	History of Renaissance to Rococo Art and Architecture ¹	
Select one of the following crafts courses:		3
ART 105	Ceramics I ¹	
ART 111	Printmaking: Serigraph	
ART 170	Sculpture I	
ART 403	Multicultural Art ¹	
Total Units		12

¹ Meets the General Education Humanities: Fine Arts requirement.

² Meets the General Education Writing 3 requirement.

English Concentration

Code	Title	Units
Required Courses		
ENGL 404	Approaches to Grammar	3
ENGL 406	Writing 3: Advanced Composition ¹	3
Select one of the following English or world literature courses:		3
ENGL 222	English Literature to 1789 ²	

ENGL 224	World Literature to the Renaissance ²	
ENGL 232	English Literature Since 1789 ²	
ENGL 234	World Literature Since the Renaissance ²	
ENGL 377	Shakespeare	
ENGL 386	Contemporary Global Writers	
ENGL 466	British Novel	
Select one of the following American literature courses:		3
ENGL 244	American Literature to 1865 (Select one of the following American literature courses:) ²	
ENGL 254	American Literature Since 1865 ²	
ENGL 364	American Ethnic Literature ³	
ENGL 374	African American Literature	
ENGL 410	American Novel	

Total Units **12**

- ¹ Meets the General Education Writing 3 requirement.
² Meets the General Education Humanities: Literature requirement.
³ Meets the General Education Intercultural Competence requirement.

Human Development: School Psychology Concentration

PSYC 290 and MATH 130 are prerequisite courses for the upper-division courses in this concentration.

Code	Title	Units
Required Courses		
MATH 130	Introduction to Statistics ¹	3
PSYC 345	Psychology of Child and Adolescent Development ²	3
PSYC 360	Abnormal Psychology	3
Select one of the following:		3
PSYC 292	Introduction to Brain and Behavior	
PSYC 305	Educational Psychology	
PSYC 390	Cognition	
PSYC 405	Psychology of Learning	
PSYC 410	Psychology of Exceptional Children	
PSYC 472	Neurological and Behavioral Disorders	

Total Units **12**

- ¹ Meets the General Education Quantitative Literacy requirement.
² Meets the General Education Social Sciences requirement.

Human Development: Special Education Concentration

Code	Title	Units
Required Courses		
EDLS 303	Introduction to Special Populations	3
EDLS 304	Introduction to Teaching Special Populations	3
PSYC 410	Psychology of Exceptional Children	3
PSYC 430	Intervention Strategies with Children	3

Total Units **12**

Math Concentration

See the Department of Mathematics, Physics, and Statistics (p. 174) for updated schedules.

Note: Students must begin their mathematics coursework at the level for which they qualify as determined by their SAT/ACT score, previous university coursework, or the APU mathematics placement assessment. Some students require one or more courses prior to calculus.

Code	Title	Units
Required Courses		
MATH 165	Calculus I	3
MATH 280	Discrete Mathematics and Proof	3
MATH 340	Geometry	3
Select one of the following:		3
MATH 130	Introduction to Statistics ¹	
MATH 361	Introduction to Modeling with Probability	
Total Units		12

¹ Meets the General Education Quantitative Literacy requirement.

Music Concentration

Code	Title	Units
Required Courses		
MUS 101	Beginning Voice Class	1
MUS 103	Beginning Piano Class ¹	1
MUS 121	Music Theory I ²	3
MUS 133	Practical Musicianship I	1
MUS 201	Introduction to World Music ³	3
Select one of the following:		3
MUS 350	History and Literature of Commercial Music	
MUS 351	Ancient, Renaissance, and World Music Literature	
MUS 352	Writing 3: Baroque, Classical, and Early Romantic Music Literature ⁴	
MUS 455	Late Romantic and 20th-Century Music Literature ⁵	
Total Units		12

¹ Or 1 unit for each Applied Piano (permission by audition only).

² Meets the General Education Humanities: Fine Arts requirement.

³ Meets the General Education Intercultural Competence requirement.

⁴ Meets the General Education Writing 3 requirement.

⁵ Meets the General Education Humanities: History requirement.

Science Concentration

Code	Title	Units
Required Courses		
BIOL 151	General Biology I ¹	4
BIOL 152	General Biology II	4
CHEM 123	General, Organic, and Biological Chemistry for the Health Sciences ¹	4
Optional Electives		
PHYC 140	Introduction to Astronomy ¹	
PHYC 151	Physics for Life Sciences I	
Total Units		12

¹ Meets the General Education Natural Sciences requirement.

Social Science Concentration

Code	Title	Units
Required Courses		
POLI 150	American Government ^{1, 2}	3
HIST 210	World Geography	3
Select one of the following non-Western courses:		3

HIST 320	Modern Africa	
HIST 360	History of the Middle East I: Early and Medieval Islam	
HIST 361	History of the Middle East II: Modern Middle East	
HIST 392	Colonial Latin America	
HIST 393	Ritual and Re-enactment in Modern Latin America	
POLI 390	History and Politics of the Non-Western World	
Select one of the following social science courses:		3
ECON 250	Principles of Macroeconomics ³	
ECON 251	Principles of Microeconomics	
POLI 220	State and Local Government	
POLI 320	Comparative Politics	
SOC 225	Contemporary Social Problems	
SOC 361	Education and Society	
Total Units		12

¹ Meets the General Education Civic Knowledge and Engagement requirement.

² California Education Code Section 44335 requires all candidates for a Teaching Credential to demonstrate knowledge of the United States Constitution by completing a college-level course or a college-level examination in the subject; successful completion of either with a grade of C or higher meets this California Education Code requirement.

³ Meets the General Education Social Sciences requirement.

Spanish Concentration

Code	Title	Units
Required Courses		
SPAN 201	Intermediate Spanish I	3
SPAN 202	Intermediate Spanish II	3
SPAN 301	Spanish Conversation and Community ^{1, 2}	3
Select one of the following:		3
SPAN 332	Literary Masters ³	
SPAN 421	Survey of Spanish Literature	
SPAN 422	Survey of Latin American Literature	
SPAN 431	Spanish Language Poetry and Short Story	
SPAN 460	Writing 3: Survey of the Literature of the Spanish-Speaking World ⁴	
Total Units		12

¹ SPAN 101, SPAN 102, SPAN 201, and SPAN 202 are prerequisites for 300-level SPAN courses.

² Meets the General Education Intercultural Competence requirement.

³ Meets the General Education Humanities: Literature requirement.

⁴ Meets the General Education Writing 3 requirement.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Analyze and demonstrate proficiency in subject matter required of K--8 teachers by the State of California.
2. Integrate K--8 curriculum concepts and disciplines.
3. Define teaching methods of instruction using best practices with a Christian perspective.
4. Understand aspects of cultural diversity within the context of the classroom.
5. Identify a distinctive Christian perspective compared to a secular perspective as it pertains to current education issues.

Minor in Liberal Studies

The liberal studies minor is a multidisciplinary program that adds foundational elements of K-8 subject-matter preparation and practical field experience to any student's major course of study. The program provides students with the opportunity to develop a teaching philosophy and acquire basic subject-matter knowledge in five to seven content areas with an understanding of diversity and culture in a classroom setting; this may provide some preparation for substitute teaching and lesson planning. Students work closely with an advisor in major and minor fields in order to create an organized on-campus study.

*NOTE: The minor does not fulfill the California Subject Matter Requirement (<https://www.ctc.ca.gov/educator-prep/subject-matter-requirements/>). Liberal studies minors must maintain a **C** or higher in all courses credited toward the minor.*

Requirements

Code	Title	Units
Core Courses		
EDLS 200 or EDLS 202	Introduction to Teaching as a Profession K-12 ¹ Introduction to Teaching as a Profession (7-12)	4
EDLS 405	Diversity in the Classroom ²	3
Subject-matter Electives		
Select five of the following:		15-16
ART 310	Fundamental Art Experiences ³	
BIOL 400	Science and Children	
ENGL 434	Children's Literature	
MATH 201 or MATH 301	Mathematics Concepts for Elementary Teachers Mathematics for Secondary Teachers	
MUS 432	Music in the Elementary Schools	
PE 450	Physical Education in Elementary Schools, K-6	
EDLS 303 or EDLS 304	Introduction to Special Populations Introduction to Teaching Special Populations	
EDLS 495	Foundations of Education Capstone ⁴	
Total Units		22-23

¹ Meets the General Education Civic Knowledge and Engagement requirement.

² Meets the General Education Intercultural Competence requirement.

³ Meets the General Education Humanities: Fine Arts requirement.

⁴ Meets the General Education Integrative and Applied Learning requirement.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Analyze and demonstrate proficiency in subject matter required of K6 teachers by the State of California
2. Integrate K8 curriculum concepts and disciplines through the application of lesson plans, papers, and projects in Children's Literature, Mathematical Concepts for Elementary Teachers, Science and Children, Fundamental Art Experiences, Music in the Elementary Schools, Physical Education in the Elementary Schools
3. Define teaching methods of instruction using best practices with a Christian perspective while integrating K8 curriculum concepts and disciplines through the application of lesson plans, papers, and projects
4. Understand cultural diversity issues within the context of the classroom through service-learning experiences and in class discussion
5. Identify a distinctive Christian perspective compared to a secular perspective as it pertains to different education issues

MA in Education: Learning and Technology and Multiple Subject Teaching Credential

Azusa Pacific University's Master of Arts in Education: Learning and Technology and Multiple Subject Teaching Credential program (<https://www.apu.edu/education/programs/masters-in-learning-technology-multiple-subject/>) prepares candidates to earn a Master of Arts in Education: Learning and Technology degree along with an embedded California Multiple Subject Preliminary Teaching Credential. This program includes comprehensive foundation courses emphasizing teaching and educational methods, as well as specialization courses providing content required for the multiple subject

credential. Practical classroom and fieldwork experiences provide application to theory, preparing candidates to teach in diverse settings. Advanced coursework in the emphasis area of learning and technology provides candidates with the knowledge to effectively design and infuse technology-embedded curriculum into K-8 teaching and learning environments. The mode of delivery includes face-to-face instruction, campus-based classes, distance learning, online courses, and clinical experiences.

Approved by the California Commission on Teacher Credentialing (CTC) and the National Council for the Accreditation of Teacher Education (NCATE), which is transitioning to the Council for the Accreditation of Educator Preparation (CAEP), Azusa Pacific University's Multiple Subject Teaching Credential program comprises specific methods courses that are accompanied by practical classroom applications and field experiences in both primary and upper-elementary school assignments.

Upon completion of the requirements listed below and all of the requirements detailed in the Steps to a Credential (p. 823), the candidate will have earned a Preliminary Multiple Subject Teaching Credential and a Master of Arts in Education: Learning and Technology degree.

Computer and Software Requirements

Each student must have a Mac or PC laptop or notebook running the latest operating system with a word processing program and a stable internet connection.

Course Requirements

Code	Title	Units
Foundation Courses		
TESP 501	Art of Teaching I: Foundations of Teaching ¹	3

Total Units ⁴		44-47

¹ These courses must be completed prior to beginning clinical practice.

² May be taken for credit up to three times as an additional elective as long as topics are not repeated.

³ Elective courses can be used toward the master's degree only for individuals needing additional units to complete the degree. Elective courses cannot be used to replace foundation, specialization, or emphasis course requirements.

⁴ This program is designed to be completed with 44 units; the use of elective units to complete the degree may increase the unit total.

NOTE: A maximum of 8 units may be taken per 8-week session. Completion of all credential requirements—including all examinations, coursework, and other requirements—must be met before the master's degree will be posted. A G (<http://www.apu.edu/graduateprofessionalcenter/registrar/forms/raduation>) Application (<https://www.apu.edu/graduateprofessionalcenter/registrar/forms/>) must be completed and fees paid by the deadlines set by the registrar.

NOTE: Candidates who hold an intern credential must enroll in a candidate support and supervision course (TEP 590) during each 8-week session (fall or spring) in which they are not enrolled in a clinical practice course.

It is the candidate's responsibility to submit a credential application through the Office of Credentials (<https://www.apu.edu/education/resources/credentials/>) upon completion of a credential program to receive his/her California educator credential. This request may be submitted to the credentials office up to one month before completion of all credential requirements.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Engage and support all students in learning.
2. Create and maintain effective environments for student learning.
3. Understand and organize subject matter for student learning.
4. Plan instruction and design learning experiences for all students.
5. Assess student learning.
6. Develop as a professional educator.

MA in Education: Learning and Technology and Single Subject Teaching Credential

Azusa Pacific University's Master of Arts in Education: Learning and Technology and Single Subject Teaching Credential program (<https://www.apu.edu/education/programs/masters-in-learning-technology-single-subject/>) prepares candidates to earn a Master of Arts in Education: Learning and Technology degree along with an embedded California Single Subject Preliminary Teaching Credential. This program includes comprehensive foundation courses emphasizing teaching and educational methods, as well as specialization courses providing content required for the single subject credential. Practical classroom and fieldwork experiences provide application to theory, preparing candidates to teach in diverse settings. Advanced coursework in the emphasis area of learning and technology provides candidates with the knowledge to effectively design and infuse technology-embedded curriculum into 7-12 grade teaching and learning environments. The mode of delivery includes face-to-face instruction, campus-based classes, distance learning, blended and online courses, and clinical experiences.

The Master of Arts in Education: Learning and Technology is approved by the California Commission on Teacher Credentialing (CTC) and the National Council for the Accreditation of Teacher Education (NCATE), which is transitioning to the Council for the Accreditation of Educator Preparation (CAEP).

Upon completion of the requirements listed below and all of the requirements detailed in the Steps to a Credential (p. 823), the candidate will have earned a Preliminary Single Subject Teaching Credential and a Master of Arts in Education: Learning and Technology degree. Note: The preparation for a Preliminary Single Subject Teaching Credential is available in the following subject areas: art, business, English language arts, mathematics, music, physical education, science, social science, and world languages.

Computer and Software Requirements

Each student must have a Mac or PC laptop or notebook running the latest operating system with a word processing program and a stable internet connection.

Completion of all credential requirements—including all examinations, coursework, and other requirements—must be met before the master's degree will be posted. A Graduation Application (<https://www.apu.edu/graduateprofessionalcenter/registrar/forms/>) must be completed and fees paid by the deadlines set by the registrar.

NOTE: Candidates who hold an intern credential must enroll in a candidate support and supervision course (TEP 590) during each 8-week session (fall or spring) in which they are not enrolled in a clinical practice course.

It is the candidate's responsibility to submit a credential application through the Office of Credentials (<https://www.apu.edu/education/resources/credentials/>) upon completion of a credential program to receive his/her California educator credential. This request may be submitted to the credentials office up to one month before completion of all credential requirements.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Engage and support all students in learning.
2. Create and maintain effective environments for student learning.
3. Understand and organize subject matter for student learning.
4. Plan instruction and design learning experiences for all students.
5. Assess student learning.
6. Develop as a professional educator.

Multiple Subject Teaching Credential

Azusa Pacific University's Multiple Subject Teaching Credential (<https://www.apu.edu/education/programs/multiple-subject-teaching-credential/>) program prepares candidates to earn a California Multiple Subject Preliminary Teaching Credential. This rigorous program includes comprehensive foundation courses emphasizing teaching and educational methods, as well as specialization courses providing content required for the multiple subject credential. Practical classroom and fieldwork experiences provide application to theory, preparing candidates to teach in diverse settings. Available modes of delivery include face-to-face instruction, campus-based classes, distance learning, and clinical experiences.

Upon completion of the requirements listed below and all of the requirements detailed in the Steps to a Credential (p. 823), the credential candidate will have earned a California Multiple Subject Preliminary Teaching Credential.

Computer and Software Requirements

Each student must have a Mac or PC laptop or notebook running the latest operating system with a word processing program and a stable internet connection.

Course Requirements

Code	Title	Units
Foundation Courses		
TESP 501	Art of Teaching I: Foundations of Teaching ¹	3
TESP 502	Science of Teaching I: How Students Learn ¹	3

1. Engage and support all students in learning.
2. Create and maintain effective environments for student learning.
3. Understand and organize subject matter for student learning.
4. Plan instruction and design learning experiences for all students.
5. Assess student learning.
6. Develop as a professional educator.

Single Subject Teaching Credential

Azusa Pacific University's Single Subject Teaching Credential (<https://www.apu.edu/education/programs/single-subject-teaching-credential/>) program prepares candidates to earn a California Single Subject Preliminary Teaching Credential. This rigorous program includes comprehensive foundation courses emphasizing teaching and educational methods, as well as specialization courses providing content required for the single subject credential. Practical classroom and fieldwork experiences provide application to theory, preparing candidates to teach in diverse settings. Available modes of delivery include face-to-face instruction, campus-based classes, distance learning, blended learning, and clinical experiences.

Upon completion of the requirements listed below and all of the requirements detailed in the Steps to a Credential (p. 823), the credential candidate will have earned a California Single Subject Preliminary Teaching Credential.

Note: The preparation for a Single Subject Preliminary Credential is available in the following subject areas: art, business, English language arts, mathematics, music, physical education, science, social science, and world languages.

Computer and Software Requirements

Each student must have a Mac or PC laptop or notebook running the latest operating system with a word processing program and a stable internet connection.

Department of Special Education

The Department of Special Education offers master's degree and credential programs for candidates seeking a California Preliminary Education Specialist Credential with either a mild to moderate support needs or extensive support needs specialization authorizing them to teach in the public K-12 environment. All Preliminary Education Specialist Credential programs are approved by the California Commission on Teacher Credentialing (CTC) (<https://www.ctc.ca.gov/>).

APU candidates are prepared to work in schools as education specialists. Candidates must demonstrate the content knowledge, pedagogical and professional knowledge, writing skills, and dispositions necessary to help all children learn. APU candidates are highly regarded in fulfilling these high professional standards. The department assesses all candidates from admission, throughout their program, and up to the recommendation of credentials. Assessments are used to evaluate and inform candidate learning and include the following assessment areas: CTC teacher performance expectations, APU program learning outcomes, and teacher candidate dispositions.

Programs

Master's

- Master of Arts in Education: Learning and Technology and Mild to Moderate Support Needs Education Specialist Credential (p. 805)
- Master of Arts in Education: Learning and Technology and Extensive Support Needs Education Specialist Credential (p. 806)
- Master of Arts in Education: Special Education and Mild to Moderate Support Needs Education Specialist Credential (p. 808)
- Master of Arts in Education: Special Education and Extensive Support Needs Education Specialist Credential (p. 809)

Credentials

- Mild to Moderate Support Needs Education Specialist Credential (p. 811)
- Extensive Support Needs Education Specialist Credential (p. 812)

Courses

EDUC 546, Digital Communications, 3 Units

This course engages students in collaborative, investigative, and reflective learning opportunities through the exploration of relevant digital communication tools. Attention is given to current modes of communication that utilize a digital platform, and effective strategies for implementation within teaching/learning environments.

Prerequisite: EDUC 560

EDUC 547, Special Topics in Educational Technology, 3 Units

Students in this course explore the current technologies, trends, and a variety of special topics in educational technology. Course material covers practical and theoretical aspects, effectiveness, and problems related to the implementation of the topic into relevant teaching/learning environments. Different topics are offered at different times, so the course may be repeated for credit.

Prerequisite: EDUC 560

EDUC 548, Emerging Trends in Technology, 3 Units

This course covers the historical development of educational technology and the social issues influencing its growth and implementation. Attention is also given to a synthesis of research related to the field, professional organizations serving the discipline, and emerging innovative uses of educational technology.

Prerequisite: EDUC 560

EDUC 556, Historical and Philosophical Perspectives of Disability Studies, 3 Units

This course explores and analyzes the historically key definitions of disability in light of the major theories, methodological approaches, and proposed public policy uses that have shaped them. It also considers how civil rights, human rights, self-determination, social policy, and participative action research have influenced disability studies. A diverse set of current and historical research articles on disability studies is analyzed to model the ways in which different research topics have been addressed and introduce how current research can stimulate future studies. Emphasis is given to the formulation of important research questions and the development of testable hypotheses based on previous theory, literature, and experience, as master's candidates begin to develop initial sections of their capstone research project.

Prerequisite: EDUC 560

EDUC 557, Current Trends in Curriculum and Disability Studies, 3 Units

This course equips candidates with practical and theoretical understanding of curriculum in schooling, with an emphasis on the role performed by the special education teacher or differentiation expert. Course material covers the various approaches to curriculum construction and organization in schools by examining the principles of curriculum improvement, change, and evaluation. Focus is on the theories, research, and best practices related to planning and developing curriculum and its implementation in schools and classrooms in order to address the needs of students in diverse communities.

Prerequisite: EDUC 560

EDUC 558, Research and Collaboration for Special Education, 3 Units

This course provides educational specialists the communication and problem-solving skills to successfully collaborate with families, other educators, related service providers, and individuals with exceptionalities within the K-12 education environment. Additionally, this advanced course enables master's degree candidates in special education to build upon earlier courses and examine educational research within the special education framework, with an emphasis on data collection for action research.

Prerequisite: EDUC 560

EDUC 560, Action Research in Education, 1 Unit

This course introduces students to basic qualitative and quantitative research methods, designs, and reporting strategies. Master's degree candidates are enabled to develop an understanding of the research process by introducing the basic principles of research and academic writing. Through activities integrating theory with practice, candidates learn how to identify problems to study, develop research questions, specify data collection methods and design their action research projects which are continued in a subsequent course.

EDUC 569, Capstone Seminar, 2 Units

Culminating the MA emphasis courses, the capstone seminar helps students build on the coursework representing their repertoire of academic preparation from the credential and master's programs. Master's candidates complete their action research projects, and create an ePortfolio for compiling assignments that profile their professional identities (personal philosophy, identity and dispositions narrative), their scholarly work (ethnography, curriculum assessment, literature review), and their practical applications (lesson and unit plans, classroom management) in the classroom. In this way, students refine and contribute further to a body of work representing their accomplishments and professional identity. Finally, through this course, candidates enhance their understanding and experience of a community's connection to the school environment.

Prerequisite: EDUC 536, EDUC 537, and EDUC 538; or EDUC 546, EDUC 547, and EDUC 548; or EDUC 556, EDUC 557, and EDUC 558

SPED 500, Candidate Support and Supervision, 1-3 Units

Teacher candidates explore current educational practices and a variety of special topics in the field of education, and course material covers practical and theoretical aspects relevant to the teaching/learning environment. Interns may be required to take this course during their program in an effort to meet program requirements while receiving mandated supervision and support. This course may be repeated four (4) times for credit for a total of 4-12 units.

SPED 517, Art of Teaching II: Pedagogy and Instructional Design for Education Specialists, 3 Units

This course explores pedagogy as the combination of teachers' professional knowledge, skills, and abilities, which are directed to create effective learning opportunities and outcomes for all students in a range of contexts. Building on broad themes in Art of Teaching I, teacher candidates explore pedagogical methods and specific models for meeting individual student needs, utilizing universal and individualized strategies. Attention is given to culturally responsive teaching practices for learners with diverse cultural and ethnic identities, as well as differentiation practices for students with various learning needs. Candidates further analyze the relationship between curriculum, pedagogy, and assessment, and, finally, examine and reflect on the Christian worldview in relation to student diversity and developing a climate of equity and collaboration within classrooms. Course includes embedded field experience requirements for a total of 15 hours.

Prerequisite: TESP 501

SPED 518, Science of Teaching II: Effective Assessment Strategies for Learners with Special Needs, 3 Units

This course explores strategies for designing standards and data-driven curricular plans and units to serve diverse student populations (e.g., culturally, linguistically, and/or ability-diverse learners). Teacher candidates engage in the administration and analysis of formative, summative, diagnostic assessment to inform the ongoing development of differentiated instruction that serves the unique academic needs of students from diverse, intersecting backgrounds and identities. In view of the academic achievement gap that exists in California K-12 schools, candidates utilize assessment results, alongside state frameworks and current standards specific to their specialization, in development of further curriculum/planning, instruction, and assessment cycles, which demonstrate the use of instructional strategies, materials, technologies, and other resources to make content connected, contextualized, and accessible to all students. Candidates consider how a Christian worldview catalyzes their commitment to engage fully in the work of creating classrooms that meet the needs of all their students. This course includes 15 hours of required field experience in a K-12 school.

Prerequisite: TESP 502

SPED 525, Methods of Teaching Reading and Writing, 3 Units

This course prepares teacher candidates to implement a comprehensive literacy program of systematic instruction in reading, writing, listening, speaking, and language aligned with the California Common Core State Standards for English Language Arts and the English Language Arts/English Language Development Framework. Through application of research-based instructional practices, candidates learn specific ways to address the diverse needs of all students.

SPED 526, Specialized Academic Instruction: Reading, Writing, and Math, 3 Units

This course introduces candidates to multifaceted and multitiered methodologies and strategies necessary for teaching and engaging diverse students with disabilities in mathematics and language arts. Candidates become proficient in making explicit connections between ongoing assessment, student characteristics and strengths, instruction, and curriculum. They learn to analyze data to plan effective and differentiated instruction and interventions, and also how to collaboratively design effective IEP goals while considering the role of technology in those goals.

SPED 527, Teaching Students with Extensive Support Needs, 3 Units

This course provides teacher candidates with a systems perspective for understanding and supporting individuals with extensive support needs and their families who come from culturally and linguistically diverse backgrounds. Using a person-centered planning approach, candidates examine effective collaborative strategies for team building, Individual Education Program (IEP) development, joint problem solving, and transition planning. Course material covers evidence-based strategies, adaptations, modifications, and technologies that provide access to Common Core standards, functional academics, and life skills. Various models are reviewed, including co-teaching, inclusion, community-based instruction, and vocational training.

SPED 528, Assessment and IEP Development: Mild to Extensive Support Needs, 3 Units

Teacher candidates in this course examine current assessment mandates for students with mild to extensive support needs, studying test development and learning to evaluate assessment tools based on current research-based policies and mandates. Candidates also learn to administer and interpret norm-criterion reference assessment instruments as well as informal surveys or assessment instruments, and gain an understanding of the influence of cultural and linguistic factors in the development of Individual Education Program (IEP) goals and Individual Transition Plans (ITPs).

Corequisite: SPED 550 or SPED 551 or SPED 570 or SPED 571

SPED 529, Positive Behavior Supports for Students with Exceptional Needs, 3 Units

This course equips teacher candidates with the skills and legal framework essential to the development of positive behavior supports and self-management outcomes for students with disabilities. Candidates examine foundations of behavior disorders, appropriate communication, and behavioral support strategies that align with best practices. The foundations of functional analysis of behavior that leads to the development of positive behavior intervention plans are examined. Models of collaborative practices that lead to positive relationships and critical partnerships with students, families, educators, and agencies are investigated through skill development and self-analysis.

Corequisite: SPED 552 or SPED 553 or SPED 572 or SPED 573

SPED 550, Clinical Practice I: Mild to Moderate Support Needs, 2 Units

Students with mild to moderate support needs require specialized support to address unique learning needs resulting from a range of specific learning disabilities, intellectual disabilities, autism, other health impairments, emotional disturbance, multiple disabilities, traumatic brain injury, orthopedic impairment, or other identified disabilities for which placement in a classroom for students with mild to moderate support needs is deemed appropriate. Teacher candidates, as part of their clinical practice, get on-site experience providing the support described in students' Individualized Education Programs (IEPs). These experiences include, but are not limited to, creating an appropriate physical classroom environment for students with mild/moderate disabilities, conducting formal and informal assessments in order to determine students' current levels of performance, planning for students' grade and instructional levels, and capturing data to support progress on annual goals and short-term objectives that are aligned with California Content Standards. Candidates also monitor students' progress toward instructional goals and state-adopted standards, and, if necessary, identify behaviors impeding learning, and remediate by implementing positive behavior supports. Candidates complete a semester of full-time, supervised student teaching in appropriate public school classrooms, with assignments in classroom grade levels K-12. Each placement provides teaching experiences with English learners and ethnically diverse students. *Meets the General Education Requirement: Integrative and Applied Learning.*

Corequisite: SPED 528

SPED 553, Clinical Practice II: Mild to Moderate Support Needs, 2 Units

Students with mild to moderate support needs require specialized support to address unique learning needs resulting from a range of specific learning disabilities, intellectual disabilities, autism, other health impairments, emotional disturbance, multiple disabilities, traumatic brain injury, orthopedic impairment, or other identified disabilities for which placement in a classroom for students with mild to moderate support needs was deemed appropriate. During their clinical practice experience, teacher candidates are provided with on-site experiences that provide the support described in the students' Individualized Education Programs (IEPs). These experiences include, but are not limited to, creating an appropriate classroom physical environment for students with mild to moderate support needs, conducting formal and informal assessments in order to determine the students' current levels of performance, planning for their grade and instructional level, and capturing data to support progress on annual goals and short-term objectives aligned with California Content Standards. Candidates also monitor students' progress toward instructional goals and state-adopted standards and, if necessary, identify behaviors impeding learning, and remediate by implementing positive behavior supports. Candidates complete a semester of full-time, supervised student teaching in appropriate public school classrooms, with assignments in classroom grade levels K-12. Each placement provides teaching experiences with English learners and ethnically diverse students.

Prerequisite: SPED 550;

Corequisite: SPED 529

SPED 570, Clinical Practice I: Extensive Support Needs, 2 Units

Students with extensive support needs require specialized support to address unique learning needs resulting from a range of intellectual, behavioral, emotional, communication, sensory, autism spectrum disorder, and/or motor impairments. Teacher candidates, as part of their clinical practice, get on-site experience providing the support described in the students' Individualized Education Programs (IEPs). These experiences include, but are not limited to, creating an appropriate classroom physical environment for students with extensive support needs, conducting formal and informal assessments in order to determine students' current levels of performance, planning instructional-level annual goals and short-term objectives that are aligned with California Content Standards, monitoring students' progress toward instructional goals and short-term objectives, and identifying behaviors impeding learning and then remediating by implementing positive behavior supports. Candidates complete a semester of full-time, supervised student teaching in appropriate public school classrooms, with assignments in classroom grade levels K-12. Each placement provides teaching experiences with English learners and ethnically diverse students.

Corequisite: SPED 528

SPED 573, Clinical Practice II: Extensive Support Needs, 2 Units

Students with extensive support needs require specialized support to address unique learning needs resulting from a range of intellectual, behavioral, emotional, communication, sensory, autism spectrum disorder, and/or motor impairments. Teacher candidates, as part of their clinical practice, get on-site experience providing the support described in the students' Individualized Education Programs (IEPs). These experiences include, but are not limited to, creating an appropriate classroom physical environment for students with extensive support needs, conducting formal and informal assessments in order to determine students' current levels of performance, planning instructional-level annual goals and short-term objectives aligned with California Content Standards, monitoring students' progress toward instructional goals and short-term objectives, and identifying behaviors impeding learning and then remediating by implementing positive behavior supports. Candidates complete a semester of full-time, supervised student teaching in appropriate public school classrooms, with assignments in classroom grade levels K-12. Each placement provides teaching experiences with English learners and ethnically diverse students.

Prerequisite: SPED 570;

Corequisite: SPED 529

TESP 501, Art of Teaching I: Foundations of Teaching, 3 Units

This course provides an introduction to basic pedagogy, including classroom management, lesson planning and teaching, standards-based instruction, teaching strategies for students with diverse identities and needs, and the application of technology to support teaching and learning. Teacher candidates consider strategies, models, and processes for meeting the needs of a broad range of K-12 students, including special needs students, gifted students, English language learners, speakers of nondominant varieties of English, and students of all cultural or ethnic identities. This course is designed for direct application of classroom learning by candidates in a collaborative context that implements inclusion. Candidates examine Christian character and develop an understanding of grace in the Christian worldview as applied in classroom contexts, in consideration of meeting the needs of students and building community within the classroom. This course includes 15 hours of required field experience in a K-12 school.

TESP 502, Science of Teaching I: How Students Learn, 3 Units

This course comprises a basic overview of human growth and development for all students in the K-12 environment. Teacher candidates identify how research on the neuroscience of learning, theories of learning, and student motivation affect current understanding of student development through the K-12 education experience. They then creatively and collaboratively investigate how this knowledge can enable them to meet the needs of all students, including underserved populations, English language learners, and individuals with diverse learning needs (from gifted learners to individuals with mild to severe disabilities). Candidates also examine their own cultural beliefs, attitudes toward diversity, and related assumptions, identifying how these might affect student learning and achievement in their classrooms. Candidates demonstrate applied knowledge of communication styles and strategies for fostering positive cross-cultural interactions among students who are diverse in terms of culture, language, and ability. Finally, candidates reflect on the need to support the development of all students from a Christian worldview. This course includes 15 hours of required field experience in a K-12 school. *Meets the General Education Requirement: Social Science.*

TESP 503, The Soul of Teaching: Tapestry of American Education, 3 Units

This course introduces teacher candidates to the history of American education and a sampling of modern philosophies of education, examined through the lens of a Christian worldview. Specific consideration is given to the ways in which historical trends have contributed to today's education system, including how social and philosophical movements, as well as policy changes, have shaped the growth and inclusiveness of education in the U.S. Candidates reflect on the continued need for education equity for all students in U.S. schools, and explore inclusive practices for diverse populations, professional dispositions, teacher resiliency, and their role in perpetuating social justice in education. They engage culturally appropriate response strategies that enhance learning opportunities in a cross-cultural context, and identify how a Christian worldview enables and directs a commitment to principles of equity and justice in their practice. *Meets the General Education Requirement: Intercultural Competence.*

TESP 504, Schools and Educational Systems, 3 Units

This course explores the legal, ethical, and organizational systems (federal, state, district, and school) within which teachers conduct their work. Teacher candidates engage in an examination of school and community cultures and their impact on learning, by focusing on the ways teachers communicate and collaborate with external and internal stakeholders to provide equitable access to all students. Additionally, contractual responsibilities and professional expectations are addressed. Candidates also consider the ways in which educators, from a Christian worldview, can advocate to transform social problems impacting school culture. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

MA in Education: Learning and Technology and Mild to Moderate Support Needs Education Specialist Credential

Azusa Pacific University's Master of Arts in Education: Learning and Technology and Mild to Moderate Support Needs Education Specialist Credential program (<https://www.apu.edu/education/programs/masters-in-learning-technology-mild-moderate/>) prepares candidates to earn a Master of Arts in Education: Learning and Technology degree along with an embedded Mild to Moderate Support Needs Education Specialist Preliminary Credential. This program includes comprehensive foundation courses emphasizing teaching and educational methods, as well as specialization courses providing content required for the education specialist credential. Practical classroom and fieldwork experiences provide application to theory, preparing candidates to teach in diverse settings. Advanced coursework in the emphasis area of learning and technology provides candidates with the knowledge to effectively design and infuse technology-embedded curriculum into K-12 teaching and learning environments. The mode of delivery includes face-to-face instruction, campus-based classes, distance learning, online courses, and clinical experiences.

Approved by the California Commission on Teacher Credentialing (CTC) and the National Council for the Accreditation of Teacher Education (NCATE), which is transitioning to the Council for the Accreditation of Educator Preparation (CAEP), Azusa Pacific University's Mild to Moderate Support Needs Education Specialist Credential program comprises specific methods courses that are accompanied by practical classroom applications and field experiences in public school assignments.

Upon completion of the requirements listed below and all of the requirements detailed in the Steps to a Credential (p. 823), the candidate will have earned a Mild to Moderate Support Needs Education Specialist Preliminary Credential and a Master of Arts in Education: Learning and Technology degree.

Computer and Software Requirements

Each student must have a Mac or PC laptop or notebook running the latest operating system with a word processing program and a stable internet connection.

Total Units ⁴		46-49

¹ These courses must be completed prior to beginning clinical practice.

- ² May be taken for credit up to three times as an additional elective as long as topics are not repeated.
- ³ Elective courses can be used toward the master's degree only for the individual needing additional units to complete the degree. Elective courses cannot be used to replace foundation, specialization, or emphasis course requirements.
- ⁴ The program is designed to be completed with 46 units; the use of elective units to complete the degree may increase the unit total.

NOTE: A maximum of 8 units may be taken per 8-week session. Teacher candidates in master's degree programs who have opted to waive coursework must take additional units to fulfill the unit requirement. Completion of all credential requirements—including all examinations, coursework, and other requirements—must be met before the master's degree will be posted. A Graduation Application (<https://www.apu.edu/graduateprofessionalcenter/registrar/forms/>) must be completed and fees paid by the deadlines set by the registrar.

NOTE: Candidates who hold an intern credential must enroll in a candidate support and supervision course (SPED 500) during each 8-week session (fall or spring) in which they are not enrolled in a clinical practice course.

It is the candidate's responsibility to submit a credential application through the Office of Credentials (<https://www.apu.edu/education/resources/credentials/>) upon completion of a credential program to receive his/her California educator credential. This request may be submitted to the credentials office up to one month before completion of all credential requirements.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Engage and support all students in learning.
2. Create and maintain effective environments for student learning.
3. Understand and organize subject matter for student learning.
4. Plan instruction and design learning experiences for all students.
5. Assess student learning.
6. Develop as a professional educator.

MA in Education: Learning and Technology and Extensive Support Needs Education Specialist Credential

Azusa Pacific University's Master of Arts in Education: Learning and Technology and Extensive Support Needs Education Specialist Credential program (<https://www.apu.edu/education/programs/masters-in-learning-technology-moderate-severe/>) prepares candidates to earn a Master of Arts in Education: Learning and Technology degree along with an embedded Extensive Support Needs Education Specialist Preliminary Credential. This program includes comprehensive foundation courses emphasizing teaching and educational methods, as well as specialization courses providing content required for the education specialist credential. Practical classroom and fieldwork experiences provide application to theory, preparing candidates to teach in diverse settings. Advanced coursework in the emphasis area of learning and technology provides candidates with the knowledge to effectively design and infuse technology-embedded curriculum into K-12 teaching and learning environments. The mode of delivery includes face-to-face instruction, campus-based classes, distance learning, online courses, and field experiences.

Approved by the California Commission on Teacher Credentialing (CTC) and the National Council for the Accreditation of Teacher Education (NCATE), which is transitioning to the Council for the Accreditation of Educator Preparation (CAEP), Azusa Pacific University's Extensive Support Needs Education Specialist Credential program comprises specific methods courses that are accompanied by practical classroom applications and clinical experiences in public school assignments.

Upon completion of the requirements listed below and all of the requirements detailed in the Steps to a Credential (p. 823), the candidate will have earned an Extensive Support Needs Education Specialist Preliminary Credential and a Master of Arts in Education: Learning and Technology degree.

Computer and Software Requirements

Each student must have a Mac or PC laptop or notebook running the latest operating system with a word processing program and a stable internet connection.

Course Requirements

Total Units ⁴		46-49

¹ These courses must be completed prior to beginning clinical practice.

² May be taken for credit up to three times as an additional elective as long as topics are not repeated.

³ Elective courses can be used toward the master's degree only for the individual needing additional units to complete the degree. Elective courses cannot be used to replace foundation, specialization, or emphasis course requirements.

⁴ The program is designed to be completed with 46 units; the use of elective units to complete the degree may increase the unit total.

NOTE: A maximum of 8 units may be taken per 8-week session. Teacher candidates in master's degree programs who have opted to waive coursework must take additional units to fulfill the unit requirement. Completion of all credential requirements—including all examinations, coursework, and other requirements—must be met before the master's degree will be posted. A Graduation Application (<https://www.apu.edu/graduateprofessionalcenter/registrar/forms/>) must be completed and fees paid by the deadlines set by the registrar.

NOTE: Candidates who hold an intern credential must enroll in a candidate support and supervision course (SPED 500) during each 8-week session (fall or spring) in which they are not enrolled in a clinical practice course.

It is the candidate's responsibility to submit a credential application through the Office of Credentials (<https://www.apu.edu/education/resources/credentials/>) upon completion of a credential program to receive his/her California educator credential. This request may be submitted to the credentials office up to one month before completion of all credential requirements.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Engage and support all students in learning.
2. Create and maintain effective environments for student learning.
3. Understand and organize subject matter for student learning.
4. Plan instruction and design learning experiences for all students.
5. Assess student learning.
6. Develop as a professional educator.

MA in Education: Special Education and Mild to Moderate Support Needs Education Specialist Credential

Azusa Pacific University's Master of Arts in Education: Special Education and Mild to Moderate Support Needs Education Specialist Credential program (<https://www.apu.edu/education/programs/masters-in-special-education-mild-moderate/>) prepares candidates to earn a Master of Arts in Education: Special Education degree along with an embedded Mild to Moderate Support Needs Education Specialist Preliminary Credential. This program includes comprehensive foundation courses emphasizing teaching and educational methods, as well as specialization courses providing content required for the education specialist credential. Practical classroom and fieldwork experiences provide application to theory, preparing candidates to teach in diverse settings. Advanced coursework in the emphasis area of special education provides candidates with knowledge needed to serve students with disabilities in K-12 public schools. The mode of delivery includes face-to-face instruction, campus-based classes, distance learning, online courses, and clinical experiences.

Approved by the California Commission on Teacher Credentialing (CTC) and the National Council for the Accreditation of Teacher Education (NCATE), which is transitioning to the Council for the Accreditation of Educator Preparation (CAEP), Azusa Pacific University's Mild to Moderate Support Needs Education Specialist Credential program comprises specific methods courses that are accompanied by practical classroom applications and field experiences in public school assignments.

Upon completion of the requirements listed below and all of the requirements detailed in the Steps to a Credential (p. 823), the candidate will have earned both a Mild to Moderate Support Needs Education Specialist Preliminary Credential and a Master of Arts in Education: Special Education degree.

Computer and Software Requirements

Each student must have a Mac or PC laptop or notebook running the latest operating system with a word processing program and a stable internet connection.

Integrated Bachelor's/Credential Program

The Integrated Bachelor's/Credential (APU IBC) program provides an accelerated, rigorous education leading to a bachelor's degree and a preliminary California teaching credential. As part of this unique 3+1 model, students complete credential courses as undergraduates and work in the field alongside mentor-teachers throughout the credential portion of the program. The credential portion of the program is approved by the California Commission on

Teacher Credentialing (CTC) (<https://www.ctc.ca.gov/>) and accredited by the National Council for Accreditation of Teacher Education (NCATE), which is transitioning to the Council for the Accreditation of Educator Preparation (CAEP) (<https://caepnet.org/>).

The programs available are:

1. Bachelor of Science in Allied Health with Single Subject (Science) Teaching Credential (p. 71)
2. Bachelor of Arts in Liberal Studies with Mild to Moderate Support Needs Education Specialist Credential (p. 816)
3. Bachelor of Arts in Liberal Studies with Extensive Support Needs Education Specialist Credential (p. 816)
4. Bachelor of Arts in Mathematics with Single Subject (Math) Teaching Credential (p. 187)

Program Details

During the first three years, students complete most of the requirements for their major and participate in undergraduate field experiences in public school classrooms. Students formally apply for admission to the School of Education prior to or during their junior year. In the summer between their junior and senior years, students begin taking graduate-level courses offered through the School of Education. Throughout the program, students participate in service-learning projects, field experiences, and clinical practice (student teaching) in area K-12 public schools. The clinical practice component requires 16 weeks of full-time student teaching. All field experiences and clinical practice experiences must take place in a K-12 public school located within 50 miles of Azusa or an APU regional campus. Students must have access to reliable transportation.

Application to the Integrated Bachelor's/Credential Program

Admission to the School of Education is required for all students before they begin credential courses offered through the School of Education. Applications are available in the Office of Credentials (<https://www.apu.edu/education/resources/credentials/>) in Building One on West Campus. Students may apply to the APU IBC program once they have completed at least 32 semester hours of undergraduate credit and before they complete at 96 hours of undergraduate credit. Students who wish to enroll in the APU IBC program and want to begin School of Education credential courses in the summer must submit the application and accompanying requirements (see list below) to the Office of Credentials by April 1; students who wish to begin credential courses in the fall must submit the application and accompanying requirements by July 1; students who wish to begin credential courses in the spring must submit the application and accompanying requirements by November 1.

In addition to completing the application form for admission to the School of Education, a student must submit the following items to the School of Education:

- A one- to two-page personal statement addressing the following topics: experiences from the applicant's background that enhance the teaching experience; the most rewarding and challenging aspects of working with youth; why the applicant wants to teach; preferred grade level and content areas and why; and how the applicant envisions supporting the success of all students and contributing to the profession.
- Proof of Certificate of Clearance (COC) (review instructions on Obtaining a Certificate of Clearance (https://www.apu.edu/apply/pdfs/ed_certificate_clearance.pdf)). Applicants are encouraged to begin this step early in their second year to allow time for processing by the California Commission on Teacher Credentialing.
- Proof that the California Basic Skills Requirement ([https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-\(cl-667/](https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-(cl-667/)) has been satisfied.
- Proof that the applicant is on track to satisfy the California Subject Matter Requirement (<https://www.ctc.ca.gov/educator-prep/subject-matter-requirements/>). For liberal studies majors and math majors, this means being a student in good academic standing within the major and making appropriate progress to degree completion. For allied health majors, this means submitting an official score report reflecting a passing score on an appropriate California Subject Examinations for Teachers (CSET) subtest or submitting proof of paid registration for the next appropriate CSET administration.
- Two letters of recommendation from a supervisor, former professor, or other professional. A third letter of recommendation from a current professor is encouraged.
- Current résumé.
- Current transcript indicating GPA of 3.0 or above*.

All applicants will also be required to interview with the credential program director or a designee from the IBC program.

*Admission to the APU IBC program is selective; among those accepted, the mean undergraduate GPA at time of application is 3.0+ with an SAT score of 993+ (2016 or earlier version) or 1490+ (2017 version), a composite ACT score of 20+, or a CBEST Reading subtest score of 50+ and Math subtest score of 52+.

International students must meet the following additional requirements:

- The admission requirement for international students with English as a second language (ESL) is a minimum TOEFL iBT score of 90 (22 on Reading, 22 on Listening, 22 on Speaking, and 24 on Writing) or IELTS score of 7.

During the first three years of the program, APU undergraduate students planning to participate in the APU IBC program are completing General Education requirements and degree major requirements for liberal studies, allied health, or math. Advising is coordinated by the degree major

department. Once undergraduate students are admitted to the APU IBC program, the Office of Credentials and APU IBC program director advise them in regard to the California preliminary teaching credential and credential requirements.

Credential Tracks

Program graduates earn a Preliminary California Teaching credential in one of the following:

Special Education Track

This track prepares students to effectively teach individuals with special needs. Preliminary Education Specialist credentials are offered in the areas of:

- Mild to Moderate Support Needs, which includes specific learning disabilities, mild to moderate intellectual disabilities, autism, other health impairment, and emotional disturbance
- Extensive Support Needs, which includes autism, deaf-blindness, moderate to severe intellectual disabilities, multiple disabilities, and emotional disturbance

Single Subject Track

This track prepares students to teach at the middle/high school level (6-12). Preliminary Single Subject credentials that can currently be completed via the APU IBC program are Math and Science. The School of Education offers the graduate Single Subject Credential program in additional subject areas. Please visit the Division of Teacher Education section of the Graduate Catalog for additional information.

Clinical Practice Clearance

The following requirements must be met before undergraduate students may progress to clinical practice (student teaching).

Applications for clinical practice must be submitted to the Office of Student Placements by April 10 for the fall semester and September 10 for the spring semester. Students must also submit the following to the Office of Student Placements by April 30 for fall semester and September 30 for spring semester:

- Transcript(s) demonstrating successful completion of at least 110 undergraduate units and an undergraduate GPA of 3.0 or higher.
- Proof that student is on track to graduate at the conclusion of the clinical practice semester, which could include a recommendation letter from the undergraduate major advisor, a current advisement form, or current transcripts.
- Proof that the California Basic Skills Requirement ([https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-\(cl-667/\)](https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-(cl-667/))) has been satisfied.
- Proof that the California Subject Matter Requirement (<https://www.ctc.ca.gov/educator-prep/subject-matter-requirements/>) has been met. For liberal studies and math majors, this means proof that the student is on track to graduate at the conclusion of the clinical practice semester with a degree major in liberal studies or math.
- Tuberculosis (TB) clearance, which must be valid for a two-year time period that runs through the end date of the assigned clinical practice term.
- Certificate of Clearance or other appropriate CTC-issued document that will be valid throughout the clinical practice semester.
- Proof of U.S. Constitution coursework or exam.

Clinical practice courses are taken as Credit (*CR*)/No Credit (*NC*). Students who earn an *NC* grade are required to meet with their program director to identify knowledge, skills, and/or dispositions that may need strengthening and develop a performance improvement plan. Students will not receive another placement for clinical practice until after they have met with their program director and received their performance improvement plan. Students who earn an *NC* grade will be placed on probation and given one enrollment period to demonstrate satisfactory progress according to the terms of the improvement plan. Students who do not meet the standards for satisfactory progress after a probation period may be dismissed from the credential program.

Students are expected to successfully complete their culminating clinical practice courses at first attempt. On rare occasions, students with unsuccessful first attempts will be eligible to petition the Division of Teacher Education to repeat the course, but a successful petition is required for a student to repeat. A culminating clinical practice course can be repeated only once.

Students who earn an *NC* grade in a culminating clinical practice or during fieldwork as a result of a lapse in professional responsibility, integrity, or ethical conduct may not be eligible to petition to repeat the course for which they received the nonpassing grade.

Credential Application

To be eligible for a credential, students must demonstrate the following:

- Conferral of a bachelor's degree from APU in allied health, liberal studies, or math.
- Successful completion of credential coursework (i.e., competency on each student learning outcome and a course grade of *B-* or better).
- Evaluation of required assignments in the Division of Teacher Education's assessment tool, Watermark's™ Student Learning & Licensure.
- Proficiency in the Teaching Performance Expectations (TPEs).

- Passage of all state-required examinations:
 - RICA is required for students who wish to become certified for teaching special education.
 - Passage of CalTPA (Instructional Cycle 1 and Instructional Cycle 2) is required for candidates who wish to become credentialed for teaching a single subject (math or science).
 - Passage of Education Specialist CalTPA (Instructional Cycle 1 and Instructional Cycle 2) for candidates who wish to become credentialed for teaching students with mild to moderate support needs and extensive support needs.
- Successful completion of CPR for infants, children, and adults.
- Successful completion of an Induction Individual Development Plan approved by the program director.
- Completion of all other credential requirements.

It is the student's responsibility to submit a credential application through the Office of Credentials (<https://www.apu.edu/education/resources/credentials/>) upon completion of a credential program to receive their California preliminary teaching credential. This request may be submitted to the office up to one month before completion of all credential requirements.

Program Expectations

- Students in the APU IBC program prepare to work in schools as educators. They must demonstrate the content, pedagogy, and writing skills and dispositions required for the profession. Therefore, the School of Education assesses students, in academic and dispositional standards, from the time of admission to the program through recommendation of credential.
- Students are expected to maintain a high level of professional and ethical behavior throughout the program; failure to do so may result in discipline up to and including dismissal from the program.
- Students must be covered by professional liability insurance during the semesters in which they are participating in field experience and clinical practice.
- Students participating in field experience and clinical practice who are driving onto K-12 school sites must have proof of auto insurance.
- Students are required to have and maintain a valid Certificate of Clearance (COC) from their time of admission to the program through recommendation of credential. Students who allow their COC to expire will be prevented from enrolling in future terms until they once again have a valid COC.
- Students are required to ensure access to an active Watermark™ account, enrollment in the correct Directed Response Folio for the APU IBC program, and submission of assignments and other required documents to the correct evaluator by published deadlines in Watermark™. Students failing to submit the signature assignment for courses in Watermark™ by the last day of the session will receive a nonpassing grade in the course. Successful submission of Watermark™ items is required for recommendation for a credential to the California Commission on Teacher Credentialing (CTC).
- Students must earn a *B-* or better in all credential coursework. Students who earn a *C+* or below must retake the course for the course to be used toward credential requirements, and must meet with their academic advisor for a revised course sequence plan before progressing in the program.
- All standards and requirements for the credential portion of the program are subject to CTC, NCATE (transitioning to CAEP), and federal policy changes, and these supersede catalog descriptions of prior programs and requirements.

An integrated bachelor's/credential is granted based on the completion of all credential and degree requirements. If a student does not complete all credential and degree requirements, as indicated in the Graduation Clearance Pending letter, within two years of filing their graduation application, but has completed degree requirements for the undergraduate degree major without the integrated bachelor's/credential, he or she will be subject to automatically having their stand-alone degree posted. If the remaining requirements for the stand-alone degree are not completed by the deadline, the student will be subject to policies governing reentering students, and a new catalog year will apply.

BA in Liberal Studies with Integrated Credential

118 units

In this program, students earn a Bachelor of Arts in Liberal Studies and a mild to moderate support needs or extensive support needs education specialist credential in a total of four years. **The only concentration offered with the Liberal Studies Integrated Bachelor's/Credential Program is Special Education.** Full program details and requirements are available on the Integrated Bachelor's/Credential Program (p. 813) page of this catalog.

Requirements

Code	Title	Units
Education and Human Development		
Select one of the following:		4
EDLS 200	Introduction to Teaching as a Profession K-12 ^{1,2}	
EDLS 202	Introduction to Teaching as a Profession (7-12) ^{1,2}	
PSYC 290	Human Growth and Development ^{1,3}	3
EDLS 405	Diversity in the Classroom ^{1,4}	3
EDLS 495	Foundations of Education Capstone ^{1,5}	3
EDLS 496	Writing 3: Education and Professional Ethics ^{1,6}	3
English/Language Arts		
COMM 111	Public Communication ⁷	3
ENGL 111	Studies in Literature ⁸	3
THTR 115	Introduction to Theater ⁹	3
ENGL 402	Principles of Language	3
ENGL 434	Children's Literature ¹	3
Mathematics		
Select one of the following:		3
MATH 110	College Algebra ¹⁰	
MATH 130	Introduction to Statistics ¹⁰	
MATH 201	Mathematics Concepts for Elementary Teachers ¹	3
Science		
Select one of the following:		4
BIOL 101	Biology and Society ¹¹	
BIOL 151	General Biology I ¹¹	
PHYC 115	Physical Science for Teachers	3
PHYC 125	Earth Science Concepts and Applications	3
BIOL 400	Science and Children ¹	4
Social Science		
HIST 121	World Civilizations Since 1648 ¹²	3
HIST 201	World Civilizations and Geography to 1648	3
HIST 202	United States History to 1930 ^{1,13}	3
HIST 338	History of California	3
Physical Education		
PE 450	Physical Education in Elementary Schools, K-6 ¹	3
Visual and Performing Arts		
ART 310	Fundamental Art Experiences ^{1,9}	3
MUS 432	Music in the Elementary Schools ¹	3
Concentrations		
Select one concentration from the list below.		12
Total Units		84

¹ This is a core liberal studies course. The 38 units of core liberal studies coursework must be completed with a grade of C or higher and an overall GPA of 3.0 or higher.

² Meets the General Education Civic Knowledge and Engagement requirement.

³ Meets the General Education Social Sciences requirement.

⁴ Meets the General Education Intercultural Competence requirement.

⁵ Meets the General Education Integrative and Applied Learning requirement.

⁶ Meets the General Education Writing 3 requirement.

⁷ Meets the General Education Oral Communication requirement.

⁸ Meets the General Education Humanities: Literature requirement.

⁹ Meets the General Education Humanities: Fine Arts requirement.

¹⁰ Meets the General Education Quantitative Literacy requirement.

¹¹ Meets the General Education Natural Sciences requirement.

¹² Meets the General Education Humanities: History requirement.

¹³ California Education Code Section 44335 requires all candidates for a teaching credential to demonstrate knowledge of the United States Constitution by completing a college-level course or a college-level examination in the subject; successful completion of either with a grade of C or higher meets this California Education Code requirement.

Students in the liberal studies major are limited to completing only one concentration from those listed below. A concentration course cannot double-count to meet a concentration requirement and a major requirement listed above.

Art Concentration

Code	Title	Units
Required Courses		
ART 145	Drawing I ¹	3
ART 146	Painting I	3
Select one of the following art history courses:		3
ART 354	History of Ancient Art and Architecture ¹	
ART 356	Writing 3: History of Modern Art and Architecture ²	
ART 357	History of Contemporary Art and Architecture ¹	
ART 361	History of Early Christian and Medieval Art and Architecture ¹	
ART 362	History of Renaissance to Rococo Art and Architecture ¹	
Select one of the following crafts courses:		3
ART 105	Ceramics I ¹	
ART 111	Printmaking: Serigraph	
ART 170	Sculpture I	
ART 403	Multicultural Art ¹	
Total Units		12

¹ Meets the General Education Humanities: Fine Arts requirement.

² Meets the General Education Writing 3 requirement.

English Concentration

Code	Title	Units
Required Courses		
ENGL 404	Approaches to Grammar	3
ENGL 406	Writing 3: Advanced Composition ¹	3
Select one of the following English or world literature courses:		3
ENGL 222	English Literature to 1789 ²	
ENGL 224	World Literature to the Renaissance ²	
ENGL 232	English Literature Since 1789 ²	
ENGL 234	World Literature Since the Renaissance ²	
ENGL 377	Shakespeare	
ENGL 386	Contemporary Global Writers	
ENGL 466	British Novel	
Select one of the following American literature courses:		3
ENGL 244	American Literature to 1865 (Select one of the following American literature courses;) ²	
ENGL 254	American Literature Since 1865 ²	
ENGL 364	American Ethnic Literature ³	
ENGL 374	African American Literature	
ENGL 410	American Novel	
Total Units		12

¹ Meets the General Education Writing 3 requirement.

² Meets the General Education Humanities: Literature requirement.

³ Meets the General Education Intercultural Competence requirement.

Human Development: School Psychology Concentration

PSYC 290 and MATH 130 are prerequisite courses for the upper-division courses in this concentration.

Code	Title	Units
Required Courses		
MATH 130	Introduction to Statistics ¹	3
PSYC 345	Psychology of Child and Adolescent Development ²	3
PSYC 360	Abnormal Psychology	3
Select one of the following:		3
PSYC 292	Introduction to Brain and Behavior	
PSYC 305	Educational Psychology	
PSYC 390	Cognition	
PSYC 405	Psychology of Learning	
PSYC 410	Psychology of Exceptional Children	
PSYC 472	Neurological and Behavioral Disorders	
Total Units		12

¹ Meets the General Education Quantitative Literacy requirement.

² Meets the General Education Social Sciences requirement.

Human Development: Special Education Concentration

Code	Title	Units
Required Courses		
EDLS 303	Introduction to Special Populations	3
EDLS 304	Introduction to Teaching Special Populations	3
PSYC 410	Psychology of Exceptional Children	3
PSYC 430	Intervention Strategies with Children	3
Total Units		12

Math Concentration

See the Department of Mathematics, Physics, and Statistics (p. 174) for updated schedules.

Note: Students must begin their mathematics coursework at the level for which they qualify as determined by their SAT/ACT score, previous university coursework, or the APU mathematics placement assessment. Some students require one or more courses prior to calculus.

Code	Title	Units
Required Courses		
MATH 165	Calculus I	3
MATH 280	Discrete Mathematics and Proof	3
MATH 340	Geometry	3
Select one of the following:		3
MATH 130	Introduction to Statistics ¹	
MATH 361	Introduction to Modeling with Probability	
Total Units		12

¹ Meets the General Education Quantitative Literacy requirement.

Music Concentration

Code	Title	Units
Required Courses		
MUS 101	Beginning Voice Class	1

MUS 103	Beginning Piano Class ¹	1
MUS 121	Music Theory I ²	3
MUS 133	Practical Musicianship I	1
MUS 201	Introduction to World Music ³	3
Select one of the following:		3
MUS 350	History and Literature of Commercial Music	
MUS 351	Ancient, Renaissance, and World Music Literature	
MUS 352	Writing 3: Baroque, Classical, and Early Romantic Music Literature ⁴	
MUS 455	Late Romantic and 20th-Century Music Literature ⁵	
Total Units		12

¹ Or 1 unit for each Applied Piano (permission by audition only).

² Meets the General Education Humanities: Fine Arts requirement.

³ Meets the General Education Intercultural Competence requirement.

⁴ Meets the General Education Writing 3 requirement.

⁵ Meets the General Education Humanities: History requirement.

Science Concentration

Code	Title	Units
Required Courses		
BIOL 151	General Biology I ¹	4
BIOL 152	General Biology II	4
CHEM 123	General, Organic, and Biological Chemistry for the Health Sciences ¹	4
Optional Electives		
PHYC 140	Introduction to Astronomy ¹	
PHYC 151	Physics for Life Sciences I	
Total Units		12

¹ Meets the General Education Natural Sciences requirement.

Social Science Concentration

Code	Title	Units
Required Courses		
POLI 150	American Government ^{1,2}	3
HIST 210	World Geography	3
Select one of the following non-Western courses:		3
HIST 320	Modern Africa	
HIST 360	History of the Middle East I: Early and Medieval Islam	
HIST 361	History of the Middle East II: Modern Middle East	
HIST 392	Colonial Latin America	
HIST 393	Ritual and Re-enactment in Modern Latin America	
POLI 390	History and Politics of the Non-Western World	
Select one of the following social science courses:		3
ECON 250	Principles of Macroeconomics ³	
ECON 251	Principles of Microeconomics	
POLI 220	State and Local Government	
POLI 320	Comparative Politics	
SOC 225	Contemporary Social Problems	
SOC 361	Education and Society	
Total Units		12

¹ Meets the General Education Civic Knowledge and Engagement requirement.

² California Education Code Section 44335 requires all candidates for a Teaching Credential to demonstrate knowledge of the United States Constitution by completing a college-level course or a college-level examination in the subject; successful completion of either with a grade of C or higher meets this California Education Code requirement.

³ Meets the General Education Social Sciences requirement.

Spanish Concentration

Code	Title	Units
Required Courses		
SPAN 201	Intermediate Spanish I	3
SPAN 202	Intermediate Spanish II	3
SPAN 301	Spanish Conversation and Community ^{1, 2}	3
Select one of the following:		3
SPAN 332	Literary Masters ³	
SPAN 421	Survey of Spanish Literature	
SPAN 422	Survey of Latin American Literature	
SPAN 431	Spanish Language Poetry and Short Story	
SPAN 460	Writing 3: Survey of the Literature of the Spanish-Speaking World ⁴	
Total Units		12

¹ SPAN 101, SPAN 102, SPAN 201, and SPAN 202 are prerequisites for 300-level SPAN courses.

² Meets the General Education Intercultural Competence requirement.

³ Meets the General Education Humanities: Literature requirement.

⁴ Meets the General Education Writing 3 requirement.

Mild to Moderate Support Needs Education Specialist Credential Requirements

Code	Title	Units
Foundation Courses		
TESP 501	Art of Teaching I: Foundations of Teaching ¹	3
TESP 502	Science of Teaching I: How Students Learn ¹	3
TESP 503	The Soul of Teaching: Tapestry of American Education	3
TESP 504	Schools and Educational Systems	3
Specialization Courses		
SPED 517	Art of Teaching II: Pedagogy and Instructional Design for Education Specialists	3
SPED 518	Science of Teaching II: Effective Assessment Strategies for Learners with Special Needs	3
SPED 525	Methods of Teaching Reading and Writing	3
SPED 526	Specialized Academic Instruction: Reading, Writing, and Math	3
SPED 528	Assessment and IEP Development: Mild to Extensive Support Needs	3
SPED 529	Positive Behavior Supports for Students with Exceptional Needs	3
SPED 550	Clinical Practice I: Mild to Moderate Support Needs	2
SPED 553	Clinical Practice II: Mild to Moderate Support Needs	2
Total Units		34

¹ These courses must be completed prior to beginning clinical practice.

Extensive Support Needs Education Specialist Credential Requirements

Code	Title	Units
Foundation Courses		
TESP 501	Art of Teaching I: Foundations of Teaching ¹	3
TESP 502	Science of Teaching I: How Students Learn ¹	3

SPED 529	Positive Behavior Supports for Students with Exceptional Needs	3
SPED 570	Clinical Practice I: Extensive Support Needs	2
SPED 573	Clinical Practice II: Extensive Support Needs	2
Total Units		34

¹ These courses must be completed prior to beginning clinical practice.

Program Learning Outcomes

Liberal Studies Major

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Analyze and demonstrate proficiency in subject matter required of K--8 teachers by the State of California.
2. Integrate K--8 curriculum concepts and disciplines.
3. Define teaching methods of instruction using best practices with a Christian perspective.
4. Understand aspects of cultural diversity within the context of the classroom.
5. Identify a distinctive Christian perspective compared to a secular perspective as it pertains to current education issues.

Integrated Credential

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Engage and support all students in learning.
2. Create and maintain effective environments for student learning.
3. Understand and organize subject matter for student learning.
4. Plan instruction and design learning experiences for all students.
5. Assess student learning.
6. Develop as a professional educator.

Steps to a Credential

The three major steps to completing a Preliminary Teaching Credential through APU's Division of Teacher Education (DTE) are described as follows. Credential candidates should refer to the DTE Teacher Candidate Handbook for further details.

- Step 1: Admission (p. 823)
- Step 2: Clinical Practice Clearance (p. 824)
- Step 3: Credential Application (p. 825)

Credential Requirements

All candidates must meet the following requirements to be considered for a Multiple Subject or Single Subject Preliminary Teaching Credential or a Mild to Moderate Support Needs or Extensive Support Needs Education Specialist Preliminary Credential:

1. Successful completion of all coursework (note: all candidates must earn a *B-* or better in all coursework. Candidates who earn below a *B-* must retake the course and meet with their academic advisor for a revised course sequence plan before progressing in the program. All admitted candidates must maintain a cumulative GPA of 3.0. Candidates who do not meet the above requirements will be reviewed for dismissal from the program).
2. Completion of each of the following program requirements:
 - U.S. Constitution requirement (course or exam)
 - Verification of subject-matter competency (CSET exam or completion of a state-approved subject-matter program; note: passing examination or subtest scores must be used for certification purposes within 10 years of the individual test date.)
 - Verification of tuberculosis clearance
 - Continuing verification from instructors of positive dispositions characteristic of the teaching profession (emotional stability, strong interpersonal relations, good mental and physical health, and other character standards listed on the application)
 - Receipt of favorable results of Certificate of Clearance (**note: candidates must report any changes in character standings, including unresolved issues with the law and/or the California Commission on Teacher Credentialing (CTC) (<https://www.ctc.ca.gov>), to their credential analyst; failure to do so may result in expulsion from the program**)
3. Successful completion of fieldwork and clinical practice. Traditionally, clinical practice is met through student teaching with a cooperating teacher, but candidates who hold a contracted teaching position may request approval to complete clinical practice in their own classrooms.
4. Prior to applying for a preliminary credential, candidates must:
 - Verify successful completion of CPR for infants, children, and adults.
 - Verify successful completion of all assessments and forms required in the Division of Teacher Education's assessment system (Watermark's™ Student Learning & Licensure).
 - Multiple Subject and Single Subject Credential candidates must submit and pass Instructional Cycle 1 and Instructional Cycle 2 of the California Teaching Performance Assessment (CalTPA) as required by CTC.
 - Mild to Moderate Support Needs and Extensive Support Needs Credential candidates must submit and pass Instructional Cycle 1 and Instructional Cycle 2 of the Education Specialist California Teaching Performance Assessment (CalTPA) as required by the CTC.
 - Multiple Subject and Special Education Credential candidates must show proof of passage of the Reading Instruction Competence Assessment (RICA).
 - All candidates must complete an Individual Development Plan (IDP) that is approved by the program director.

Contact a credential analyst (<https://www.apu.edu/education/resources/credentials/>) for information on applying for a preliminary credential after the above requirements have been completed. Your credential analyst will provide information needed to complete your credential application. Preliminary credentials are valid for five years and are nonrenewable. A Clear Credential is obtained through a CTC-approved induction program with either a California local education agency (e.g., public school district, county office of education) or California institution of higher education.

Step 1: Admission

General Requirements

All educator preparation programs within the Division of Teacher Education require the following:

- A completed graduate or integrated bachelor's/credential application for admission
- A \$45 nonrefundable application fee (not required for students previously admitted to a graduate program at Azusa Pacific University or students applying to the integrated bachelor's/credential program)
- Official transcripts from all institutions leading to, and awarding, the applicant's baccalaureate degree from a regionally accredited college or university and all postbaccalaureate study

- A minimum baccalaureate or master's grade-point average of 3.0 on a 4.0 scale. Provisional admittance may be granted to individuals with a grade-point average between 2.5 and 2.9.
- Two letters of recommendation
- A personal statement or essay
- A valid California Certificate of Clearance (COC) or other appropriate and valid document from CTC
- Proof the California Basic Skills Requirement ([https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-\(cl-667/\)](https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-(cl-667/)) has been satisfied
- Proof the California Subject Matter Requirement (<https://www.ctc.ca.gov/educator-prep/subject-matter-requirements/>) has been satisfied. Candidates seeking admission to a graduate degree program with a teaching credential embedded may submit proof of paid registration for the next appropriate California Subject Examinations for Teachers (CSET) administration.
- A percentage of candidates will also be required to interview with the program director or his/her designee prior to an admission decision.

Note: University graduate or integrated bachelor's/credential admission and program acceptance requirements must be met before an application is complete (see Admission to the University (p. 1113)) (<http://catalog.apu.edu/graduateprofessional/admission-policies/graduate-admission-university/>). Program-specific application requirements are available online (<https://www.apu.edu/graduateprofessionalcenter/admissions/requirements/program/graduate/>).

Departments reserve the right to change the admission process and requirements. Students who are in continuous enrollment status are subject to the requirements in effect at the time of their initial enrollment.

Questions about successful completion of the Basic Skills Requirement or Subject Matter Requirement should be directed to the Office of Credentials (<https://www.apu.edu/education/resources/credentials/>). Candidates are advised by their assigned credential analyst prior to enrollment in the program to support a successful start in the credential program.

International Students

International students have a separate application procedure. Contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Step 2: Clinical Practice Clearance

The following requirements must be met before any clinical practice experiences can take place:

- Applications for clinical practice must be submitted to the Office of Student Placements (<https://www.apu.edu/education/teacher/placements/>) by April 10 for fall term and September 10 for spring term. A candidate's Academic Plan indicates the term for clinical practice.
- In addition to the application for clinical practice, candidates must submit the following to the Office of Student Placements by April 30 for fall term and September 30 for spring term to clear for clinical practice for the advised term:
 - Candidates in the graduate programs must have a posted bachelor's degree from a regionally accredited college or university. For candidates in the Single Subject program, the degree major must be in an area other than professional education. Candidates in the integrated bachelor's/credential program must submit transcripts demonstrating successful completion of at least 110 undergraduate units and an undergraduate GPA of 3.0 or higher.
 - Verification of successful completion of the Basic Skills Requirement.
 - Successful completion (B- or better) of all coursework from Modules 1 through 5 of the Academic Plan, in accordance with program advising.
 - Tuberculosis (TB) clearance, which must be valid for a two-year time period that runs through the end date of the assigned clinical practice term. Negative TB test requirements must be provided to the Office of Student Placements.
 - Valid Certificate of Clearance or other appropriate CTC-issued document throughout clinical practice.
 - Proof of successful completion of U.S. Constitution coursework or exam.
 - Original, passing scores of CSET exams, official verification of completion of a CTC-approved subject-matter program signed by the credential analyst at the California institution of higher education at which the courses were successfully completed, **or** meet one of the CTC-approved options (<https://www.ctc.ca.gov/educator-prep/subject-matter-requirements/>). Note: CSET subtest exams must be used for credential purposes within 10 years of the individual passing date of each subtest or they expire. Candidates in the integrated bachelor's/credential program may submit official verification of completion of four-fifths of a CTC-approved subject-matter program confirmed by a credential analyst.
 - Graduate candidates seeking to use a contracted teaching position, either intern or nonintern, for clinical practice must submit all required documents by December 15 for spring term and August 15 for fall term, including but not limited to a copy of their teaching contract for the appropriate school year and a principal's letter on school letterhead. Templates with the requirements for the principal letter can be obtained from the Office of Student Placements. **All contracted teaching positions must be approved as part of the clinical practice clearance process prior to placement to ensure they meet all placement requirements.** Candidates should contact the Office of Student Placements prior to accepting a contracted teaching position if they intend to use the position for completion of clinical practice. **All candidates seeking intern positions must work with their credential analyst regarding any proposed teaching position.**

Step 3: Credential Application

To be eligible for a credential, candidates must demonstrate the following:

- Successful completion of coursework (competency on each student learning outcome, a grade of *B-* or better on each credential course, earned credit in clinical practice coursework).
- Evaluation of required assignments in the division's assessment tool (Watermark's™ Student Learning & Licensure).
- Proficiency in the Teaching Performance Expectations (TPEs).
- Passage of all state-required examinations, as follows:
 - Passage of the RICA examination is required for candidates who wish to become credentialed for teaching multiple subjects or special education.
 - Passage of CalTPA (Instructional Cycle 1 and Instructional Cycle 2) is required for candidates who wish to become credentialed for teaching multiple subjects or a single subject.
 - Passage of Education Specialist CalTPA (Instructional Cycle 1 and Instructional Cycle 2) for candidates who wish to become credentialed for teaching students with mild to moderate support needs or extensive support needs.
- Completion of all other credential requirements.
- For integrated bachelor's/credential candidates, the bachelor's degree from Azusa Pacific University must be conferred.

It is the candidate's responsibility to submit a credential application through the Office of Credentials (<https://www.apu.edu/education/resources/credentials/>) upon completion of a credential program to receive their California educator credential. This request may be submitted to the credentials office up to one month before completion of all credential requirements.

School of Nursing

School of Nursing Mission Statement

To serve God through excellence in professional nursing education, scholarship, and practice.

Degrees, Certifications, and Credentials Offered

The School of Nursing (<https://www.apu.edu/nursing/>) offers traditional undergraduate and professional programs, as well as various pathways to the Master of Science in Nursing, post-master's certificates, a Doctor of Philosophy in Nursing, and a Doctor of Nursing Practice.

Traditional BSN (p. 879)

The Traditional BSN program is a prelicensure program that leads to a Bachelor of Science in Nursing degree. Students completing the BSN are eligible for licensure as a Registered Nurse in California and for certification as a public health nurse.

RN to BSN (p. 873)

The RN to BSN degree completion program offers the registered nurse an alternative to the traditional method of pursuing a baccalaureate degree in nursing (BSN).

Upper-Division BSN Transfer Program (p. 876)

The Upper-Division BSN program is designed for transfer students with at least 48 units of transferable prerequisite nursing coursework who are interested in pursuing a BSN.

LVN to BSN and LVN to RN (p. 876)

Two programs are offered for the licensed vocational nurse (LVN)—the LVN to BSN Option (p. 876) and LVN to RN 30-Unit Option (p. 876).

Entry-Level Master of Science in Nursing (ELM) (p. 903)

For those who have completed a BA or BS in another field.

1. Total prelicensure units is 69. Specific courses required.
2. Postlicensure units to complete the MSN depend on the specialty chosen by the student.

Master of Public Health (p. 966)

For those who have completed a BA or BS in any field.

1. Total units required is 43 units.
2. Culminating experiences include 135-hour internship and either a capstone project or a thesis.
3. Elective units depend on the elective group chosen by the student.

Master of Science in Nursing (MSN) with Single Specialties (p. 945)

For those who have completed a bachelor's degree in nursing.

- Adult-Gerontology or Pediatric Clinical Nurse Specialist (CNS)
- Adult-Gerontology Primary Care Nurse Practitioner (AGNP) Specialty
- Family Nurse Practitioner (FNP) Specialty
- Pediatric Nurse Practitioner–Primary Care (PNP-PC) Specialty
- Psychiatric Mental Health Nurse Practitioner (PMHNP) Specialty

MSN with Credentials (p. 942)

- Family Nurse Practitioner (FNP) and School Nurses Services Credential (SNSC)
- Pediatric Nurse Practitioner–Primary Care (PNP-PC) and School Nurse Services Credential (SNSC)
- School Nurse Services Credential (SNSC)

MSN in Nursing Education (p. 961)

The MSN in Nursing Education prepares nurses for teaching roles in a variety of healthcare settings and prepares students to complete the Certified Nurse Educator (CNE) examination.

MSN in Healthcare Administration and Leadership (<http://catalog.apu.edu/academics/school-nursing/healthcare-administration-leadership/healthcare-administration-leadership-msn/>)

The MSN in Healthcare Administration and Leadership is designed for BSN-prepared registered nurses who are looking to advance their careers and move into early- to midlevel management and leadership roles in a variety of healthcare settings.

Master of Science in Healthcare Administration (p. 919)

The Master of Science in Healthcare Administration is designed for those with bachelor's degrees in nonclinical fields who are working professionals who want to advance and are interested in management and leadership positions in healthcare settings.

Post-Bachelor's Credential (p. 950)

- School Nurse Services Credential (SNSC) (a nondegree post-bachelor's program)

Post-Master's Nursing Certificates (p. 951)

- Adult-Gerontology Clinical Nurse Specialist (CNS)
- Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP)
- Family Nurse Practitioner (FNP)
- Healthcare Administration and Leadership
- Nursing Education
- Oncology Nurse Practitioner
- Pediatric Clinical Nurse Specialist (CNS)
- Pediatric Nurse Practitioner–Primary Care (PNP-PC)
- Psychiatric Mental Health Nurse Practitioner (PMHNP)

Doctor of Philosophy in Nursing (p. 992)

The PhD in Nursing, with emphasis in either health of the family and the community or international health, is a research-based program designed to prepare graduates for a life of scholarship and teaching. The coursework for the PhD in Nursing consists of 46 units beyond the master's degree, with an additional 9 units for dissertation research.

Doctor of Nursing Practice (DNP) (p. 987)

Based on a strong scientific foundation, evidence-based practice, leadership, and organizational analysis, the DNP program prepares nurses at the highest level of practice for the current, complex healthcare environment. An evidence-based clinical approach emphasizes the prevention, assessment, and treatment of complex health issues. Students may apply for admission to the BSN to DNP or MSN to DNP. This program is available online.

Graduate Status

In the School of Nursing, graduate full-time status is considered to be 6 units per semester or 12 units per 12-month academic year. A student has a maximum of eight years to complete a graduate program, beginning from the date of initial enrollment in the specific degree program.

Accreditation

- All Azusa Pacific University programs are accredited by the WASC Senior College and University Commission (WSCUC). (<https://www.wscuc.org/>)
- All nursing programs at Azusa Pacific University (APU) are accredited by the Commission on Collegiate Nursing Education (<https://www.aacnnursing.org/CCNE/>), 655 K Street NW, Suite 750, Washington, DC 20001, (202) 887-6791.
- School of Nursing prelicensure and advanced practice registered nursing (APRN) programs are approved by the California Board of Registered Nursing (BRN) (<https://www.rn.ca.gov/>). Graduates of prelicensure programs are qualified to apply for registered nursing licensure and public health nursing (PHN) certification. APRN graduates are qualified to apply for nurse practitioner (NP) certification and clinical nurse specialist (CNS) certification depending on the program completed.
- Graduates of the APRN programs are qualified to apply for the appropriate national nurse practitioner (NP) or clinical nurse specialist (CNS) specialization certification.
- APU cannot confirm whether specific programs meet out-of-state requirements for professional licensure or certification. Information about out-of-state requirements and authorizations is provided on the Office of the Provost website (<https://www.apu.edu/provost/accreditation/state-authorizations/>) and the National Council of State Boards of Nursing (<https://www.ncsbn.org/boards.htm>) website.

- Department of (Traditional) Undergraduate Baccalaureate Program (p. 879)

Courses

GNRS 500, Conceptual Foundations of Professional Nursing, 3 Units

This course focuses on the introductory concepts crucial to the socialization of second career students to professional nursing. The history of nursing, the evolution of nursing in the U.S., the art and science of nursing, the legal and professional basis of nursing, the role of nursing in the health care delivery system, and current issues and trends in nursing education, practice and research are emphasized.

GNRS 501, Theoretical Thinking in Nursing, 2 Units

This course examines questions about the nature and construction of theory and how theoretical ideas are developed and used in nursing practice and research. Philosophical ideas underlying theory are examined, and selected theoretical models and theories are explored.

Prerequisite: Completion of undergraduate research course or instructor's consent; admission to ELM or MSN program.

GNRS 503, Cultural Competency in Health Care, 3 Units

This course focuses on transforming graduate nursing students, preparing them for nursing leadership in nursing practice, nursing research, education, and public health policy for the improvement of patient healthcare outcomes in our increasingly diverse society. Students move from cultural sensitivity and awareness to critical reflection and action, challenging their assumptions and broadening their perspectives. The Essentials of Master's Education in Nursing (American Association of Colleges of Nursing, 2011) serves as the foundation for the development of core cultural competencies.

Prerequisite: Graduate standing in the School of Nursing.

GNRS 504, Bioethics and Healthcare Policy, 3 Units

This course will outline the role of the healthcare leader in ensuring human rights are upheld in healthcare systems. This course focuses on bioethical analysis, decision-making and moral policy analysis, and formulation. Through course discussion, group and individual assignments, and oral and written presentations, students will analyze and apply bioethical principles to decision- and policy- making processes in the workplace and at national levels. Healthcare ethics and policy will be considered from a Christian worldview.

Prerequisite: Graduate standing

GNRS 505, Christian Formation for Holistic Care, 3 Units

Students engage in the process of discovering the foundational values of Azusa Pacific University that serve as guiding principles for the distinctive education they will receive. They are made aware of the Christian worldview and its implications for personal holistic development and care. With a focus on developing motivating character and integrated caregivers, the course brings heightened self-awareness, the impact of a Christian worldview on vocation, scriptural awareness especially emphasizing healing themes in the life of Christ, and the importance of spiritual growth on the journey toward formation.

GNRS 506, Spiritual Concept Analysis in Health Care, 3 Units

Scholarly research and analysis of selected concepts in the spiritual care of persons from the Judeo-Christian perspective provide a central focus to the course. Students also examine healthcare research/other healthcare literature for adequacy with respect to the concept they select. Various assignments facilitate greater student awareness of their own spiritual journey and knowledge of faith traditions other than their own. The course is conducted as a tutorial/seminar experience.

Prerequisite: Graduate standing

GNRS 507, Scientific Writing, 3 Units

This course provides opportunities for students to learn how to introduce a topic or issue, articulate a thesis, support and develop a thesis and subordinate claims, work with secondary sources, and organize an argument.

GNRS 508A, Research and Theory in Advanced Practice Nursing, 4 Units

This course prepares nurses to use theory and research evidence in advanced clinical practice. The relationship between theory and research is examined, exploring questions about the nature, construction, and use of each. Selected theoretical models and theories are explored, and students learn how ideas are developed and used in nursing practice and research. Students deepen their understanding of the research process by engaging in a systematic search, critique, and summary of research studies with direct application to nursing practice. Experience in statistical analysis of research data is included.

Prerequisite: Computer literacy, undergraduate research course, undergraduate statistics course, and graduate standing

GNRS 508B, Research and Theory in Healthcare, 4 Units

This course prepares the healthcare administrator to apply theory and research evidence in healthcare environments. The relationship between theory and research is examined, exploring questions about the nature, construction, and use of each. Selected theories are explored, and students learn how ideas are developed and used in practice and research. Students learn the fundamentals of quantitative, qualitative, and mixed methods research and deepen their understanding through systematic search, critique, and summary of research studies with application to healthcare. Students work in groups to develop a research plan addressing a healthcare-derived question. Experience in statistical analysis of research data is included.

Prerequisite: GNRS 613

GNRS 510, Family Theory in Health Care, 2 Units

The major theoretical perspectives for understanding the family as a core unit of analysis are studied. This course fosters the student's recognition of the family's responsibility for health. Factors such as family patterns and care-giving tasks of families experiencing catastrophic or chronic alteration in health care are examined. This class is offered online.

Prerequisite: Graduate standing

GNRS 511, Advanced Pediatric Health Assessment and Health Promotion, 4 Units

This course develops the graduate nurse's assessment skills and focuses on the promotion of health in the pediatric population from the newborn period through adolescence. Emphasis is on adapting and expanding the medically focused history and physical assessment to incorporate the assessment of traditional health practices and identify culturally relevant and age-appropriate health promotion strategies. Outcomes are examined in light of related theoretical concepts. Strategies for health promotion include a focus on developmental and behavioral assessments, emotional health, nutrition, counseling to modify risk factors, and screening tests/prophylaxis for early detection and prevention of disease.

Prerequisite: Undergraduate health assessment and GNRS 610;

Corequisite: Practicum

GNRS 513, Advanced Nursing Practice Role, 2 Units

This course focuses on the concepts of role development and performance competence of the nurse in advanced clinical practice within the context of a reformed health care delivery system. Emphasis is placed on the clinician, educator, clinical program manager, consultant, researcher, and case manager roles of the advanced practice nurse. The leadership aspects of the roles of advanced practice are explored in relation to health care delivery, policy formulation, and legislation. The course explores theories and issues related to the advanced nursing practice role.

Prerequisite: Graduate standing

GNRS 514, Research Proposal Writing, 2 Units

This course focuses on the application of the concepts in GNRS 508A. The goal is the completion of a research proposal that details the problem, the research purpose, questions or hypotheses to be tested, a critique of the literature, the design and methods of the study including protection of human subjects, the plans for analysis, use of the study, and the budget and personnel.

Prerequisite: GNRS 508A

GNRS 516, Integrative Disease and Symptom Management, 3 Units

Using a systems-based approach, this course provides the student with a broad-based, graduate-level overview for understanding disease processes, treatment modalities, assessment and interventional strategies for patients across the life span.

GNRS 517, Fundamentals in Nursing Practice, 2 Units

This is an experiential learning course designed to teach basic nursing skills in a clinical skills or simulation laboratory setting to prepare students to deliver safe and patient-focused nursing care. Utilizing the nursing process, students perform basic skills in assessment, patient care across the continuum, documentation, patient-family teaching, and infection control.

GNRS 518, Supervised Practicum in Health Care, 3 Units

This course prepares students to integrate and apply theory, evidence-based practice, and national guidelines and standards in practicum settings. Students select practicum areas in which, with faculty approval, they will participate in experiences led by preceptors. The purpose of the course is to equip students with current, evidence-based knowledge in a selected practice area.

GNRS 520, Theory and Practice of the Clinical Nurse Specialist in Nursing Care of Adult-Gerontology Patients, 6 Units

Critical concepts in advanced collaborative management of adult-gerontology client populations by Clinical Nurse Specialists are studied. Differential diagnosis, pharmacologic management, cultural sensitivity, adult-gerontology continuum of health and illness (i.e., wellness, health promotion, disease prevention), teaching-learning theory, and evidence-based best practices for clinical decision-making for the Adult and Geriatric population are highlighted. CNS roles, competencies, and professional issues and integrated clinical rotations will be chosen from critical care or medical-surgical adult-gerontology populations. Clinical seminar times allow students to discuss and analyze current professional issues and clinical problems in a collegial atmosphere.

Prerequisite: Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements;

Corequisite: Practicum

GNSRS 521, Clinical Specialization in the Care of Adult-Gerontology Patients, 6 Units

The course prepares the student to apply concepts introduced in GNSRS 520. It focuses on diagnosis and collaborative disease management of acute illness in the adult-gerontology patient by the Clinical Nurse Specialist. The integration of advanced skill development, theory and evidence based practice, disease management, clinical decision making, unit and organization management issues, professional issues and APRN role competencies are the foundation for this course. Practicum and seminars are planned to span the breadth of the students' clinical opportunities.

Prerequisite: Academic Core and Advanced Practice Core courses, GNSRS 520, current RN license, CPR certificate, and meets health screening requirements;

Corequisite: Practicum

GNSRS 522, Disaster Nursing and Emergency Preparedness, 3 Units

This course explores the nature of disasters and prepares nurses to respond to various types of disasters - including natural, environmental, mass casualty, public health emergencies, terrorism, and bioterrorism - by utilizing essential knowledge, skills, values, meanings, and experience in the basic competencies of emergency preparedness and disaster nursing. In accordance with the position of major nursing organizations, emphasis is placed on evidence-based best practices for personal preparedness.

Prerequisite: Comparable course, such as UNRS 312 Nursing Management of Adults, a human growth and development course, a lifespan course OR an RN licensure.

GNSRS 530, Theory and Practice of the Clinical Nurse Specialist in the Care of the Pediatric Patient, 6 Units

Critical concepts in the advanced collaborative management of pediatric client populations by the Clinical Nurse Specialists are studied. Differential diagnosis, pharmacologic management, cultural sensitivity, pediatric continuum of health and illness (i.e., wellness, health promotion/disease prevention), teaching-learning theory, and evidence-based/best practices for clinical decision-making for the Pediatric population are highlighted. CNS roles, competencies, and professional issues are integrated. Clinical rotations will be chosen from critical care or medical-surgical pediatric populations. Clinical seminar times allow students to discuss and analyze current professional issues and clinical problems in a collegial atmosphere.

Prerequisite: Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements;

Corequisite: Practicum

GNSRS 531, Clinical Specialization in the Care of the Pediatric Patient, 6 Units

The course prepares the student to apply concepts introduced in GNSRS 530. It focuses on diagnosis and collaborative disease management of acute illness in the pediatric patient by the Clinical Nurse Specialist. The integration of advanced skill development, theory and evidence based practice disease management, clinical decision making, unit and organization management issues, professional issues and APRN role competencies are the foundation for this course. Practicum and seminars are planned to span the breadth of the students' clinical opportunities.

Prerequisite: Academic Core and Advanced Practice Core courses, GNSRS 530, current RN license, CPR certificate, and meets health screening requirements;

Corequisite: Practicum

GNSRS 532, Advanced Nursing Practice in Pediatrics, 6 Units

This course emphasizes physiological and psychological bases for critical and chronic conditions in children, focusing on an advanced science base for the assessment, diagnosis, and management of children and families to promote wellness. Exploration of traditional versus alternate medicine treatment plans, as well as relevant cultural, spiritual, and health promotion strategies, is incorporated.

Prerequisite: Graduate status and GNSRS 590A;

Corequisite: Practicum

GNSRS 533, Psychiatric Theories across the Life Span, 2 Units

This course presents neurobiologic, neuroendocrine, genomic, behavioral, and psychodynamic theories of psychiatric mental illnesses as they manifest among members of diverse cultural groups across the life span. A theoretical foundation for subsequent coursework in primary psychiatric mental health care is provided for the role of the psychiatric mental health nurse practitioner.

Prerequisite: Graduate standing, Advanced Practice Core

GNSRS 534, Integrated Psychiatric and Health Assessment across the Life Span, 2 Units

This course teaches the role of the psychiatric mental health nurse practitioner in interviewing, assessing, and utilization of other data collection methods to elicit, analyze, and evaluate bio-psychosocial information regarding psychiatric mental health illness as experienced and understood by the clients, across the lifespan. Assessment and integration of the effects of potential and/or existing co-morbid health problems are focused upon. Diagnostic reasoning that is based on the Diagnostic Statistical Manual is foundational in the course. Development of differential diagnoses and disease management, evidence-based practice, and health promotion that includes client and nurse practitioner collaboration is emphasized.

Prerequisite: Advanced Practice Core, GNSRS 533 (May be taken concurrently)

GNRS 535, Psychiatric Interventions and Health Promotion across the Life Span, 6 Units

In this course students learn historical, theoretical, and contemporary evidence-based psychotherapies that promote and support client stabilization, rehabilitation, and recovery. The client as a collaborating decision making consumer and the client-clinician therapeutic alliance are central to this course. Students increase competence in assessment of psychiatric mental health illnesses, differential diagnoses and disease management, implementation of psychotherapy (individual, group, family), medication management, and health promotion interventions, including motivational interviewing. Student competence in developing and facilitating therapeutic groups as a recovery modality are included in the course. The role of the psychiatric mental health nurse practitioner in the integration and coordination of support services that impact mental health and illness is also included. Students practice verbal psychotherapeutic skills that motivate and facilitate client self-management and progression toward recovery.

Prerequisite: Advanced Practice Core, GNRS 533 and GNRS 534; GNRS 539 may be taken concurrently;

Corequisite: Practicum

GNRS 536, Psychiatric Mental Health Care with Adults and Older Adults, 6 Units

In this course students increase their knowledge and competence in the assessment of psychiatric mental health illnesses, differential diagnoses and disease management, implementation of psychotherapy (individual, family, group), evidence-based practice, medication management, health promotion and disease prevention interventions, integration and coordination of support services, with adults and older adults.

Prerequisite: GNRS 533, GNRS 534, GNRS 535, GNRS 539;

Corequisite: Practicum

GNRS 537, Psychiatric Mental Health Care with Children and Adolescents, 6 Units

In this course, students increase competence in the role of the psychiatric mental health nurse practitioner in the assessment of psychiatric mental health illnesses, differential diagnosis and disease management, implementation of psychotherapy (individual, family, group), evidence-based practice, medication management, health promotion and disease prevention interventions, integration and coordination of support services with children, adolescents, and families.

Prerequisite: GNRS 533, GNRS 534, GNRS 535, GNRS 536, GNRS 539;

Corequisite: Practicum

GNRS 538, Psychiatric Mental Health Care with Selected Populations, 5 Units

Students increase knowledge and competence in the assessment of psychiatric and mental health illnesses, differential diagnosis and disease management, implementation of psychotherapy (individual, family, group), medication management, health promotion and disease prevention interventions, and integration and coordination of support services with a selected population. Focus is on integrating and practicing all aspects of the role of the psychiatric mental health nurse practitioner with clients who are experiencing acute and/or chronic mental health problems and psychiatric disorders.

Prerequisite: GNRS 533, GNRS 534, GNRS 535, GNRS 536, GNRS 539;

Corequisite: Practicum

GNRS 539, Psychopharmacology, 2 Units

Students in this course build upon knowledge of advanced practice nursing and provides content essential for the psychiatric mental health nurse practitioner to prescribe appropriate pharmacologic treatment in practice. Mechanisms of action, interactions, side effects, and prescribing guidelines for psychopharmaceuticals commonly utilized across the lifespan are addressed.

Prerequisite: GNRS 533, GNRS 534; GNRS 535 (May be taken concurrently)

GNRS 542, Advanced Concepts and Competencies in Pediatric Primary Health Care, 3 Units

This course offers a comprehensive review and synthesis of core concepts and competencies for the pediatric advanced practice nurse in the primary care setting. This culminating experience for pediatric nurse practitioner students incorporates seminar discussions and clinical practicum placement, and also allows for a discussion of developmental/behavioral issues, management of acute and chronic care illnesses seen in primary care settings, and preventative health care.

Prerequisite: Graduate standing, GNRS 532 (may be taken concurrently with instructor's permission), and GNRS 590A;

Corequisite: Practicum

GNRS 543, Transitions Across the Care Continuum, 4-6 Units

This course focuses on principles and models of care and their implementation in a multidisciplinary practice environment that emphasizes healthcare delivery through integration of services and transition management. Students are introduced to decision making related to allocation of resources and services, development of protocols, and evaluation of management approaches. Evidence-based approaches to the clinical, administrative, educational, and research dimensions of patient care are emphasized. Evaluation of care management activities with the student's selected clinical population is an integral component of the course.

Prerequisite: NP students: completion of Advanced Practice Core; CNS students: completion of Advanced Practice Core and GNRS 520 or GNRS 530; HAL students: completion of MSN Core and GNRS 560.

Corequisite: Practicum

GNRS 544, Clinical Specialization Residency, 2-4 Units

This elective residency program, formed through a partnership between the School of Nursing and selected community healthcare organizations, is an intensive, precepted clinical experience that helps students transition to beginning professional nurses in a specialized setting. It enhances students' skill and practice knowledge in preparation for the RN licensing examination, and increases their ability to perform clinical reasoning with the assigned patient population and evaluate the QSEN competencies of patient-centered care, safety, evidence-based practice, informatics, and teamwork and collaboration.

Prerequisite: ELM students must complete GNRS 573 (may be taken concurrently), but GNRS 573 is not required for nurses in community partnerships who are taking GNRS 544 for continuing education credit.

GNRS 546, Theory and Practice in Health Care Systems in the Community, 6 Units

This specialized course prepares RNs without a bachelor's degree for graduate study in nursing. A multiple theoretical focus that includes concepts from systems, stress, adaptation, developmental, and role theory is emphasized. A beginning practice in the utilization of the nursing process with an emphasis on nursing diagnosis and the nurse's role in assessing, planning, implementing, and evaluating care of clients in a variety of community settings is provided. Collaboration with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals and families at home are essential course components. A review of legal mandates for practice and discussion of ethical dilemmas and issues related to high quality nursing care are included. Specific content varies based on the students' prior education and experience. Clinical placements are arranged to meet the individual student's needs.

Prerequisite: Undergraduate research, pathophysiology, and health assessment;

Corequisite: Practicum

GNRS 547, Nursing Leadership in Acute Care Settings, 6 Units

This is one of two clinical courses provided for the RN who seeks both a bachelor's and master's degree in nursing. The course synthesizes selected information from the generic bachelor's and master's programs for presentation in a condensed format, addressing the development and nature of today's health care systems and associated issues in the United States. Further, content familiarizes the student with several roles and responsibilities of the contemporary nurse, such as leader, consultant, teacher, manager, and client advocate. The course focuses on client needs in acute health care settings and emphasizes the relationship between the health care system and the advocate.

Prerequisite: Undergraduate research, pathophysiology, and health assessment;

Corequisite: Practicum

GNRS 548, Health Promotion Across the Lifespan, 2 Units

The course focuses on health promotion and disease prevention across the lifespan and around the globe. The course includes exploration of population health issues, environmental implications in health and health policy, impact on health promotion and the development of disease.

Prerequisite: Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements

GNRS 550A, Theory and Practice in School Nursing, 6 Units

This combined didactic and clinical course provides theoretical content and field experiences that emphasize the multifaceted role of the school nurse. Students participate in field experiences and classroom learning activities that focus on the assessment and management of children's healthcare needs in various school settings. This course equips students with the necessary tools and skills to successfully function as professional school nurses. At the conclusion of this course, students are able to successfully function as providers of health education as well as providers, planners, and coordinators of health care in school settings.

Prerequisite: GNRS 612 or instructor consent, and admission to School Nurse Services Credential program;

Corequisite: Practicum

GNRS 554, Medical-Surgical Care of the Adult and Geriatric Patient, 5 Units

This course introduces crucial concepts in professional nursing care, such as the nursing process, communication, therapeutic interventions, critical thinking, and critical reasoning. Course material focuses on the application of biological, psychosocial, and spiritual concepts to adult and elderly clients in various healthcare settings with acute and/or chronic illnesses. The nursing process is utilized to provide care to one or two adult clients within the healthcare delivery system. The clinical practicum focuses on the cognitive basics, scientific principles, and manipulative components of psychomotor skills used when providing nursing care.

Prerequisite: Admission to the ELM program, completion of all prerequisite courses for the program.

Corequisite: GNRS 554P

GNRS 555, Medical Surgical Care of the Adult and Geriatric Patient, 7 Units

This course introduces crucial concepts to professional nursing care such as nursing process, communication, therapeutic interventions, and critical thinking and clinical reasoning. The course focuses on the application of biological, psychosocial, and spiritual concepts to hospitalized adult and elderly clients with acute and/or chronic illnesses. Students will be guided in critical thinking and clinical reasoning exercises in the management of hospitalized clients. Nursing process is utilized to provide care to one or two adult clients within the health care delivery system of an acute care setting. The clinical practicum focuses on the cognitive basis, scientific principles, and manipulative component of psychomotor skills used when providing nursing care. Students have an opportunity to practice simulated clinical skills.

Prerequisite: Admission to the ELM program, completion of all prerequisite courses for the program;

Corequisite: Practicum

GNRS 556, Intermediate Medical Surgical Care of the Adult, 7 Units

This course is designed to build on the base of medical-surgical nursing knowledge from GNRS555. The course focuses on comprehensive nursing care to patients with acute need for continuous cardiac monitoring, pulse oximetry monitoring, or ventilator assistance in telemetry units, in restorative care setting, or long-term care setting.

Prerequisite: Admission to the ELM program; successful completion of GNRS 555;

Corequisite: Practicum

GNRS 557, Medical Spanish for Advanced Practice Nurses, 3 Units

This course provides non-Spanish-speaking advanced-practice nursing students with foundational knowledge of Spanish language structure and vocabulary, helping them build appropriate phrasing to facilitate communication in healthcare settings. Cultural issues relevant to health and illness in the Latino community are also addressed.

Prerequisite: Graduate nursing student standing, or instructor's permission

GNRS 558, Intermediate Medical-Surgical Care of the Adult, 6 Units

This course is designed to build on the base of medical-surgical nursing knowledge from prior nursing courses. The course focuses on comprehensive nursing care to patients with acute need for continuous cardiac monitoring, pulse oximetry monitoring, or ventilator assistance in telemetry units, restorative care settings and long-term care settings.

Corequisite: GNRS 558P

GNRS 559, Audiometry for School Nurses, 3 Units

This course provides didactic instruction via eCollege and eight hours of on-site practicum experience that emphasizes the content and clinical expertise necessary to fulfill the requirements of the State of California School Hearing Conservation Program and training for the school audiometrist. The course focuses on the physiologic process of hearing and how to assess for deficits in hearing in children of all ages. At the conclusion of the course, and after having completed successfully all learning objectives, the student is eligible to submit an Application for Registration as a School Audiometrist in the State of California (a \$10 registration fee is required with the application).

GNRS 560, Strategic Leadership in Health Care, 3 Units

This course is designed to develop knowledge, skills and attitudes about leadership across the healthcare continuum. The student will consider the professional role of the healthcare administrator both from a leadership and a management perspective. Areas of concentration will include leadership theory, structure of healthcare institutions, systems thinking and decision-making, performance improvement including quality and safety issues, risk management and effective communication skills. Application of business skills will be integrated. Students will consider the theoretical and research background, current issues and trends, leadership and administrative implications of specific topics.

GNRS 564, Nutrition and Therapeutics, 2 Units

Students in this course explore the functions of nutrients and the consequences of nutrient deficiencies and excesses in the body. Course material introduces a variety of tools for planning and evaluating diets, including a computer diet analysis, and the application of nutrition concepts is interwoven into health care and fitness conditions. Students also study the prevention of chronic disease as it relates to proper nutrition and adequate exercise.

Prerequisite: Admission to the ELM program

GNRS 567, Healthcare Administration and Leadership Supervised Practicum, 3 Units

This course provides the student with the opportunity to experience the role of healthcare administrator. An individualized administration practicum in a specific area of clinical emphasis is chosen by the student and approved and monitored by the faculty and preceptor. Competencies that govern the role of the healthcare administrator are explored in depth. Students focus on the context for enacting the role of administrator in a healthcare delivery system.

Prerequisite: All core and role courses

GNRS 568, Healthcare Finance, 4 Units

This course is an introduction to financial concepts and skills need for healthcare leaders, managers, and executives. The student will develop skills in assessing multiple dimensions of financial performance and methods to improve the financial health of an organization in the context of current patient care system.

GNRS 569, Quality and Safety for Health Care Practice, 3 Units

This course is designed to deepen and advance students' knowledge of, and ability to systematically apply the principles of, patient quality and safety in nursing practice. Based on national standards, the focus is on examining and applying quality and safety tools, including informatics, that can be used to improve patient care delivery across the continuum of health care.

GNRS 570, Parish Nursing/Health Ministries, 2 Units

This course provides an introduction to and overview of health ministry and parish nursing theory and practice. The philosophy of the course is that (a) the parish nursing role is that of a specialist in spiritual aspects of patient care in the congregational context, requiring the integration of graduate level theology/ministry and nursing theory and praxis; and (b) health ministry is an emerging role and trend in pastoral ministry that seeks to bring professional ministry skill to bear upon the integration of health, faith, and spirituality in the parish setting.

GNRS 571, International Health Care, 2-4 Units

This course provides students with experience in nursing care in other countries. Students prepare with coursework in the United States, then travel abroad, where they have experiences in acute and/or chronic care settings, exploring cultural, economic, systems, philosophical, and other aspects of care that influence the provision of health care in other countries. A debriefing period is provided upon return.

GNRS 573, Clinical Residency, 4 Units

The clinical residency is an internship clinical experiential program designed as a collaborative partnership between the School of Nursing and selected community in-patient health care organizations. This residency is an intensive preceptored clinical experience planned to ease the role transition from a student nurse to a beginning professional nurse in an acute-care setting. In addition, it enhances the skill and practice knowledge of the student in preparation for the RN licensing examination.

Prerequisite: Successful completion of all pre-licensure clinical courses

GNRS 575, Nursing Care in Maternal, Newborn, and Women's Health, 4 Units

This course focuses on the theoretical and clinical concepts of the childbearing patient, her infant, and her family. The students study both normal and complicated obstetrics. Selected issues of women's health are explored. The student is introduced to birth preparation, prenatal care, normal neonatal, and postpartum care with concurrent clinical experiences.

Prerequisite: Admission to the ELM program, successful completion of semesters one and two;

Corequisite: Practicum

GNRS 576, Pharmacology, 2 Units

This course is designed for students who have completed organic chemistry, inorganic chemistry, and biochemistry. The content focuses on principles of pharmacology and specifics of the major drug classifications.

Prerequisite: Admission to the ELM program

GNRS 578, Health Assessment, 3 Units

This course provides the nursing student with skills in physical, spiritual, and psychosocial assessment of adult clients. History-taking and physical examination techniques presented in the course help the student develop strong assessment skills upon which further knowledge and practice can be built. Basic concepts related to assessment of geriatric, pediatric, and childbearing patients are included.

Prerequisite: Admission to the ELM program;

Corequisite: Practicum

GNRS 580, Gerontology, 2 Units

This course integrates research and writings about the major trends and developments in the field of gerontology as they apply to the field of nursing. The approach is interdisciplinary - course material includes information from the fields of sociology, psychology, anthropology, biological sciences, medicine, nursing, and psychiatry. Development in adulthood is viewed from multiple perspectives including cognitive, behavioral, biological, sociocultural, and spiritual, and the influences these perspectives have on the successful negotiation of age-related issues are considered. Finally, students examine aspects of human aging in contemporary American society and from a cross-cultural and ethnic perspective.

Prerequisite: Graduate standing in the School of Nursing.

GNRS 581, Primary Health Care of the Older Adult, 5 Units

GNRS 581 focuses on the role of the adult-gerontology primary care nurse practitioner in the management of the older adult including health promotion, assessment, treatment, and maintenance of common primary care health problems. The clinical practicum emphasizes the application of theory and evidence-based research for the delivery of culturally competent assessment and treatment of the older adult within the context of their families and in a variety of outpatient settings.

Prerequisite: Graduate status in the School of Nursing, completion of Advanced Practice Core courses;

Corequisite: Practicum

GNRS 582A, Pathophysiology, 2 Units

This course presents an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiologic disorders are emphasized.

Prerequisite: Admission to the ELM program

GNRS 582B, Pathophysiology, 2 Units

This course continues the presentation an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiologic disorders are emphasized.

Prerequisite: Admission to the ELM program, successful completion of GNRS 582A

GNRS 583, Nursing Care of Children and Young Adults, 4 Units

This theoretical and clinical course focuses on the care of children from birth through adolescence. The effects of acute and chronic illness on growth and development are studied in the acute and community health care setting. Education of the child and family on health promotion, disease prevention, and safety issues are addressed. Ethical issues are discussed regarding the relationship to the child and family, including issues such as child abuse, informed consent, and the impact of diverse cultural and spiritual beliefs on health care decisions in the family.

Prerequisite: Admission to the ELM program, successful completion of semesters one and two;

Corequisite: Practicum

GNRS 584, Mental Health Nursing, 4 Units

This theoretical and clinical course focuses on the dynamics of psychosocial stress within the interpersonal and intrapersonal systems of clients with acute and chronic psychiatric disorders.

Prerequisite: Admission to the ELM program, successful completion of semesters one and two;

Corequisite: Practicum

GNRS 586, Leadership and Management in Professional Practice, 2 Units

This course emphasizes leadership and management theory including systems theory in a number of applications and settings, equipping students with the ability to adjust to various organizations encountered by professional nurses serving in a variety of roles. Core concepts relevant to clinical settings are presented using a systems approach. Emphasis on nursing case management is included.

GNRS 587, Community Health Nursing, 5 Units

This course has two areas of focus within the community setting: the study of principles and practices involved in community health nursing, and the development of skills for teaching a group of clients. The emphasis is on the role of the nurse in assessing, planning, implementing, and evaluating care of clients in a variety of community-based settings, with a focus on care of the gerontological client. Collaboration with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals, families, and aggregates are essential components of this course. A review of legal mandates and regulations, as well as discussion of ethical dilemmas and issues related to community-based care is included.

Prerequisite: Admission to the ELM program, successful completion of semesters one, two, and three;

Corequisite: Practicum

GNRS 588, Advanced Nursing Care of Adults - Leadership, 6 Units

This course involves the application of pathophysiological, psychosocial, and spiritual concepts to adult and geriatric clients experiencing the stress of illness in acute settings. The primary focus of the course is to care for critically ill clients and their families with complex health care needs in a critical-care setting. A second area of focus is on the utilization of leadership and management concepts/skills in providing comprehensive care to groups of clients and families. Emphasis is placed on preparing the student to practice in a beginning leadership role in managing client care. Legal and ethical issues related to acute care are included.

Prerequisite: Admission to the ELM program;

Corequisite: Practicum

GNRS 589, Adolescent Health Care, 2-4 Units

This course focuses on the growth and development of adolescents, including assessment, prevention, and management of common health and psychosocial problems in this population. Emphasis is on age-appropriate and culturally competent provision of primary health care to adolescents in a family system.

Prerequisite: Graduate status in the School of Nursing; 2-unit version of this course requires prior completion of GNRS 610, while the 4-unit version requires prior completion of GNRS 610, GNRS 611, and GNRS 511 or GNRS 612.

GNRS 590A, Primary Health Care of the Young Family, 6 Units

This combined theory and clinical course focuses on management of health care of children (from birth through adolescence) and their families.

Theory and clinical experiences emphasize assessment, prevention, and management of physiological, social, emotional, intellectual, spiritual, and educational needs of the child as an individual and as a family member. The effects of culture on development, parenting, and health care practices are emphasized. The course provides theory and clinical experiences in the management of normal and common pathological conditions to prepare students for advanced nursing practice in the role of nurse practitioner.

Prerequisite: Advanced Practice Core courses;

Corequisite: Practicum

GNRS 590B, Clinical Practicum in Pediatrics, 4 Units

The student develops expanded skills in the comprehensive assessment and management of common childhood illnesses and problems and continues to gain skill in promoting child wellness. Application of theory and research is emphasized in the care of common illnesses throughout the childhood years.

Prerequisite: GNRS 511 or GNRS 612, and GNRS 590A

GNRS 590C, Primary Health Care of the Young Family for the School Nurse Services Credential, 6 Units

Using a system-based approach, this combined didactic and practical course focuses on assessment, nursing interventions, and follow-up for common illness presentations in children, as well as illness-related impact on social, emotional, and educational functioning. The effects of culture on child development, parenting, and healthcare practices is also emphasized.

Prerequisite: GNRS 612;

Corequisite: Practicum

GNRS 590D, Primary Health Care of the Young Family, 3 Units

This theory course focuses on management of health care of children (from birth through adolescence) and their families, with an emphasis on assessment, prevention, and management of physiological, social, emotional, intellectual, spiritual, and educational needs of the child as an individual and as a family member. The effects of culture on development, parenting, and health care practices are emphasized. The course provides theory in the management of normal and common pathological conditions to prepare students for advanced nursing practice in the role of nurse practitioner.

Prerequisite: Advanced Practice Core courses

GNRS 591, Primary Health Care of the Childbearing Family, 4 Units

This course focuses on the assessment and management of the primary health care needs of the reproductive family. Emphasis is placed on health promotion and maintenance, disease prevention, curative, and restorative care. Cross-cultural aspects related to parents, male and female, of the childbearing family are addressed.

Prerequisite: Advanced Practice Core courses;

Corequisite: Practicum

GNRS 592A, Primary Health Care of the Adult and Aging Family, 6 Units

This combined theory and clinical course focuses on the role of the nurse practitioner (NP) in caring for mature adults and aging family members, from young adulthood to elderly adulthood. Emphasis is placed on the management of common primary health problems of these age groups. The delivery of culturally competent primary health care interventions of young, middle-aged, and elderly adults is addressed.

Prerequisite: Advanced Practice Core courses;

Corequisite: Practicum

GNRS 592B, Primary Health Care Clinical Practicum, 2 Units

This course provides the final comprehensive clinical management experience, allowing FNP and AGNP students to apply knowledge gained throughout their course of study. Clinical conferences provide opportunity for discussion of role development issues and clinical case studies. Students engage in the clinical assessment and management of adults of diverse cultural backgrounds with routine and complex health problems in out-patient settings. Under the supervision of qualified preceptors and School of Nursing faculty, the student must complete his/her clinical hours and demonstrate mastery to perform the role of an entry-level nurse practitioner.

Prerequisite: Completion of clinical courses for the FNP or AGNP program track

GNRS 593, Psychosocial Primary Health Care of the Adult and Aging Family, 4 Units

This combined didactic and clinical course focuses on psychosocial primary health care of the mature and aging family. Didactic content and clinical experiences emphasize the advanced practice nursing role in the medical management of chronic illness with concurrent assessment for psychosocial stressors that impact the experience and management of chronic illness. Students learn to tailor patient-centered therapeutic strategies, including presence, multi-faceted functional assessment, motivational interviewing, stress reduction techniques and spiritual support to individual patients.

Prerequisite: Advanced Practice Core courses;

Corequisite: Practicum

GNRS 595, Special Topics in Nursing, 1-6 Units

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development and/or to develop a particular project. If students elect this course more than once during their program, each such course must address a different topic.

Prerequisite: Graduate standing

GNRS 596, Foundations of Healthcare Informatics, 3 Units

This course provides an overview of basic concepts for practice in healthcare-oriented informatics. These core concepts include an introduction to clinical and translational informatics; foundational theory and practical application of clinical decision making and computerized decision support; healthcare systems and their organization; the special issues of administration, security, and operations of electronic records in the healthcare setting; human factors issues; information science in the healthcare domain; standards, terminologies, and the uniqueness of biomedical data; and a special focus on emerging technologies.

GNRS 597, Comprehensive Examination Directed Study, 1 Unit

This course guides the student through the process of demonstrating an integration of theoretical, clinical, and research knowledge. Critical thinking is enhanced through careful consideration of information presented during discussion. The examinations are taken as part of this seminar.

Prerequisite: Completion of all Academic Core and degree specialty courses. Final specialty course may be taken concurrently.

GNRS 598, Thesis, 1 Unit

A student initially enrolls in this option toward the latter part of the program for one unit of credit. The student registers for one unit of thesis credit each semester (two of three semesters per year) until the thesis is completed.

Prerequisite: GPA of 3.5 or above, chair's consent for thesis option, and completion of all Academic Core and Advanced Practice Core courses

GNRS 599, Readings/Independent Study in Nursing, 1-4 Units

A student may elect to pursue special interests for credit at any time during the program under the supervision of a faculty member. University policy states that the student must earn a grade in an independent study course in order to receive credit toward graduation.

Prerequisite: Graduate standing

GNRS 600, Nurse Practitioner Clinical Experience, 2-6 Units

The AGPCNP and NP programs require 765 hours of supervised direct patient care experience. Students in this course function in the role of student nurse practitioners under the direct supervision of approved preceptors, and receive feedback from their preceptors and from their clinical faculty. This course gives students an opportunity to complete the documentation necessary to be awarded clinical units. Students progressively integrate advanced-practice nursing competencies, demonstrate professional nursing behavior, and keep accurate records. Upon completion of 765 hours, students are given access to a clinical portfolio.

Prerequisite: GNRS 612 and faculty permission

GNRS 601, Primary Healthcare I: Adult and Aging, 3 Units

This course integrates knowledge from advanced pathophysiology, advanced pharmacology, and advanced health assessment and apply it to create a diagnostic hypothesis for common acute and chronic primary care health problems in adolescents, adults, and older adults. The course examines a variety of treatment options for each disease presented and for diseases that don't respond to first-line therapy.

Prerequisite: GNRS 612

Corequisite: GNRS 600

GNRS 602, Primary Healthcare II: Population-based Health Interventions, 3 Units

Primary Healthcare II recognizes that individuals with healthcare needs belong to a variety of discrete groups. This course introduces population health principles to be integrated with psychosocial assessment, cultural competency, social determinants of health, and the nurse-client relationship to foster the development of competence to motivate patients in a way that respects their diversity and to assist them to find resources to address social vulnerabilities. Students will employ statistical analysis as well as nursing experience to analyze risk to create a patient education plan.

Prerequisite: GNRS 601

Corequisite: GNRS 600

GNRS 603, Primary Healthcare III: Restorative and Palliative Interventions, 3 Units

This course is designed to integrate disease management and communication techniques to support the physical, emotional, and spiritual transitions of chronic illness. The course examines developing a prognosis, transitioning care, interprofessional care planning, and care of the caregiver. Grounded in spiritual concepts, this course is designed to provide the student with tools to give patients and families unpleasant information that will likely evoke fear or sadness.

Prerequisite: GNRS 602

GNRS 610, Advanced Pathophysiology, 3 Units

This course builds on basic anatomy and physiology and undergraduate study of pathophysiology. It focuses on the development of an advanced understanding of the pathophysiologic mechanisms of human health disorders including those that are genetic. Diagnostic reasoning that facilitates the clustering of signs and symptoms leading to diagnosis is a key process undergirding the course. This course requires the integration of signs and symptoms, clinical testing (such as laboratory and radiologic studies), and pathophysiologic mechanisms with diagnoses. This course introduces epidemiological principles and methods to be applied to population health models.

Prerequisite: Graduate standing and undergraduate pathophysiology

GNRS 611, Advanced Pharmacology, 3 Units

This course builds upon basic knowledge in pharmacology and provides content essential for the advanced practice nurse to render appropriate pharmacological treatment in practice. Mechanisms of action, interactions, side effects, and prescribing guidelines for drugs commonly utilized across the life cycle are addressed. The course introduces the principles of pharmacogenomics and their application to clinical practice. Variations in pharmacological reactions attributed to cultural factors are emphasized. Strategies for fostering individual/family adherence to pharmacological regimens are examined. This course meets the requirements of the California Board of Registered Nursing in the application of a "furnishing number" by the advanced practice nurse in California.

Prerequisite: GNRS 610 (may be taken concurrently)

GNRS 612, Advanced Health Assessment and Diagnostic Reasoning, 4 Units

This course develops the graduate nurse's assessment skills and focus on the promotion of health in individuals across the age range and within family, community, and cultural contexts. Emphasis is on adapting and expanding the medically focused history and physical assessment to incorporate the assessment of traditional and nontraditional therapies and identify culturally relevant and age-appropriate health promotion strategies for common episodic complaints and chronic health conditions. Outcomes are examined in light of theoretical concepts. Strategies for health promotion include a focus on lifestyle, mental health, nutrition, counseling to modify risk factors, and screening tests/prophylaxis for the early detection and prevention of disease.

Prerequisite: Undergraduate health assessment and GNRS 610;

Corequisite: lab

GNRS 613, Graduate Statistics, 3 Units

This course presents the knowledge of descriptive, correlational, and inferential statistics used in research that serves as the basis for evidence-based practice. Students develop the ability to perform descriptive and inferential data analysis techniques, use software applications to aid in statistical calculations and presentation, and interpret findings.

GNRS 616, APRN Intensive II, 1 Unit

This is the second of four APRN Intensive courses that give NP students an interactive experience through out-of-classroom work. Course activities and games will evaluate the student's ability to perform the clinical role of the NP. Students will understand and develop the skills of virtuous leadership and collaboration from a biblical perspective.

Prerequisite: GNRS 615;

Corequisite: GNRS 601

GNRS 617, APRN Intensive III, 1 Unit

This is the third of the APRN intensives that give APRN students an interactive experience with out-of-classroom work that includes team activities, simulation experiences, and problem-solving activities. Topical content includes managing patients with complex co-morbidities, ethical reasoning, and advanced communication skills. Students will be observed performing the professional and clinical skills of the APRN.

Prerequisite: GNRS 616;

Corequisite: GNRS 602

GNRS 618, APRN Intensive IV, 1 Unit

This is the fourth of the APRN intensives that give APRN students an interactive experience with out-of-classroom work that includes team activities, simulation experiences, and problem-solving activities. Topical content practice-based quality improvement, office-based procedures, and certification exam preparation. Students will be observed performing the professional and clinical skills to demonstrate readiness to enter NP practice.

Prerequisite: GNRS 617; Faculty permission.

GNRS 620, Genome Science in Healthcare, 3 Units

This course covers basic genomic concepts and technologies intended for personalizing healthcare. The primary goal is to provide the student with clinically relevant knowledge that can be used in practice and for teaching other healthcare professionals, patients and families. Applications of genome science and technology are analyzed in the context of real world examples taken from a variety of clinical specialty areas to better understand the relation between genomics, health, and illness.

GNRS 622, Genome Science and Ethical Issues, 3 Units

This course examines current applications and implications of genome science and technology to healthcare, public health policy, economics, ethics, federal and state laws and societal issues. The following discussion topics are at the leading edge of healthcare and social debate: DNA biobanking, genetic profiling, and genomic technologies used in genome medicine such as stem cell research, gene therapy, and genetic enhancements. In addition, the course addresses ethics, philosophy, and theology literature to explore thoughtful discussions that cover a wide range of genome applications in healthcare and health science research.

Prerequisite: GNRS 620

GNRS 630A, Oncology Nurse Practitioner Fellowship A, 4 Units

This course is the first in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.

Prerequisite: Enrollment in the oncology nurse practitioner fellowship certificate program.

GNRS 630B, Oncology Nurse Practitioner Fellowship B, 4 Units

This course is the second in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.

Prerequisite: Enrollment in the oncology nurse practitioner fellowship certificate program.

GNRS 630C, Oncology Nurse Practitioner Fellowship C, 4 Units

This course is the third in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.

Prerequisite: Enrollment in the oncology nurse practitioner fellowship certificate program.

GNRS 631, ONP: Cancer Biology and Assessment, 2 Units

This course builds on knowledge of the anatomy and physiology of DNA, RNA, and differentiated and nondifferentiated human cells. Focus is on the pathophysiological mechanisms of human cancer disorders. Diagnostic reasoning that facilitates the clustering of signs and symptoms is a key process undergirding the course. The course also provides the foundation for the integration of diagnostic testing, physical assessment, and understanding of the predictable pathophysiology of cancer in order to stage tumors and predict metastatic risk in individuals.

Prerequisite: Admission to the Oncology Nurse Practitioner Post-Master's Certificate program.

GNRS 632, ONP: Cancer Therapeutics, 2 Units

This course builds on knowledge of the predicted behavior of human cancer. Technology in cancer treatment is evolving rapidly, and this course provides a pathophysiological foundation for understanding cancer protocols. Current cancer protocols, classes and categories of therapeutics, technologies in development, and tumor resistance are discussed, along with the cost benefit, side effects, and availability of the covered therapeutics.

Corequisite: GNRS 631

GNRS 633, ONP: Symptom and Side Effect Burden, 2 Units

Patients with advanced cancer often suffer significant symptomatic burden and the iatrogenic complications of treatment. This course helps students develop a patient-centered approach to evidence-based management of common symptoms of cancer and side effects of treatment.

Prerequisite: GNRS 631 and GNRS 632

GNRS 634, ONP: Survivorship and the Psychosocial Impact of Cancer, 2 Units

Cancer patients and their caregivers face complicated psychological, financial, and spiritual changes, beginning at diagnosis and extending into the posttreatment phases. This course covers the common problems related to those changes, and best-practice strategies and techniques to help patients and families cope with cancer.

GNRS 635, ONP: Team-Based Care and the Role of the Oncology Nurse Practitioner, 2 Units

The clinician role of the oncology nurse practitioner requires familiarity with the incidence, prevalence, and risk assessment competencies for all common cancers. In addition, the oncology nurse practitioner must be prepared for a wide variety of leadership roles. Strategies for care coordination, designing and measuring interdisciplinary team outcomes, mentoring, collaborating with primary care providers, and rapid-cycle quality improvement are examined.

GNRS 636, ONP: Clinical Trials in Oncology Nursing, 2 Units

The advanced-practice oncology nurse practitioner is prepared to provide direct patient care, design a plan for outcome evaluation, and take a leadership role in medical and nursing oncological research.

Prerequisite: GNRS 610, GNRS 611, GNRS 612, and GNRS 613

GNRS 650, History of Professional Nursing: From Origins to Nursing in Transition, 3 Units

Students in this course explore conceptual and methodological issues in historical nursing research, including the use of biographic methods in nursing history and working with primary sources/archival materials/artifacts and material culture. Focus is on the origins of professional nursing up to the period of nursing in transition in the United States. Students examine ethics guidelines and standards for historical research in nursing, and critically analyze the origins of nursing and early nursing contributions to the evolution of modern health systems and interventions. Class discussion and composition facilitate critical thinking about the history of nursing as a scholarly inquiry, focusing on issues and methods of nursing historical research.

GNRS 651, History of Professional Nursing: From Colonial Times to Present Day, 3 Units

Students in this course explore the foundations of professional nursing in the United States in the context of influential historical, global, societal, and scientific events. Students examine issues faced by nurses from colonial times to today, critically analyzing nurses' contributions to the development of modern health systems and interventions. Class discussion and composition facilitate critical thinking about the history of nursing as a scholarly inquiry, since historical perspectives form the basis for analysis of contemporary healthcare issues and projected development of the nursing profession, its practice, and healthcare policy.

GNRS 660, Theories of Teaching and Instruction, 3 Units

This course analyzes selected teaching and learning models that are applicable to nursing education. Strategies for classroom and clinical teaching are examined. Research relative to nursing education is reviewed and critiqued. Design of research methods to determine effectiveness of teaching strategies is incorporated. Course development and student evaluation are emphasized. Selected faculty and nursing education issues are also explored.

GNRS 661, Leadership and Role Development in Nursing Education, 3 Units

This course includes an analysis of educational leadership and the multiple roles of the nurse educator related to teaching, scholarship, service, and practice. Theoretical perspectives and practical approaches supported by research in nursing and higher education literature, as well as the Christian educator's role promoting faith integration, are addressed.

GNRS 662, Assessment, Curriculum, Development, and Outcomes, 3 Units

This course addresses theoretical approaches to educational assessment, the development and implementation of nursing curriculum, and student and program outcomes. Emphasis is given to the importance of incorporating Christian values in the curriculum. The course also includes critical analyses of related topics based upon current research in nursing and higher education literature.

GNRS 663, Clinical Practicum in Nursing Education, 3 Units

This practicum course builds on the academic and clinical preparation of previous courses and prepares students to teach in academic and clinical settings. Under the supervision of a preceptor, this practical classroom experience focuses on: a) writing of learning/teaching objectives, b) selecting teaching strategies and learning activities, c) designing and implementing teaching plans for units of instruction, d) evaluating student learning outcomes, and e) obtaining feedback on teaching performance from faculty mentors/preceptors, fellow students, and self-evaluation and reflection. It is recommended that students take GNRS 660, GNRS 661, and GNRS 662 prior to taking this class. GNRS 664 may be taken concurrently.

GNRS 664, Teaching and Learning Strategies for Nursing Education, 3 Units

This course equips academic nurse educators to develop and evaluate teaching and learning strategies that facilitate learning in different nursing educational settings. Course material includes examining the challenges nursing faculty face in implementing this role, and strategies to successfully navigate those challenges. Also included are two projects to prepare students for the application process of the nurse educator. It is recommended that students take GNRS 660 prior to taking this class.

GNRS 695, Special Topics, 1-4 Units

A subject of current interest is examined in depth. Students analyze and evaluate controversial issues to reach and express a reflective position. This course may be repeated for credit to a maximum of 6 units applied toward the MSN or PhD degree; each course must address a different topic.

GNRS 700, Philosophy of Science, 3 Units

This course equips students with the knowledge and critical analytic skills to comparatively evaluate the philosophical foundations of scientific theories and the influence of Western philosophical schools of thought on the development of nursing science. Course content is organized to engage students in discussion and critical analysis of the epistemological and philosophic foundations of scientific theories and the characteristics of scientific knowledge according to the received view, paradigmatic view, perceived postmodern view, and feminist tradition. Special emphasis is given to the critical debate within nursing about the nature of nursing science.

GNRS 701, Nursing Knowledge Development, 3 Units

Students in this course focus on analyzing and critiquing the theoretical and methodological processes that are utilized in theory building and knowledge development in nursing. Discussion and critique of the different stages of theory development and students' experimentation with conceptualizing and developing their theoretical stance go hand in hand. Patterns of knowing, knowledge development, and criteria for evaluating nursing knowledge are examined in relation to the discipline's domain and the phenomena of concern in nursing.

GNRS 702, Nursing Theory, 3 Units

This course focuses on strategies for theory development such as concept analysis, conceptual mapping, and theoretical modeling as applied to the student's phenomenon of concern. It also provides critique and analysis of the major models and theories used in a variety of nursing settings in relation to existing interdisciplinary theoretical knowledge.

GNRS 703, Spirituality and Health, 3 Units

This course provides an introduction to spirituality, including spiritual experience, as it relates to individual health and illness. Communal spirituality is also considered. Differentiation is made between and among generic religious and Christian spiritualities. While the course covers theoretical aspects of spirituality and their interaction with health and illness, concentration is on the movement from theory to praxis. This lecture/seminar course is oriented toward nursing educators who seek to develop a foundation in spirituality for spiritual integration as well as for its development in nursing practice.

Prerequisite: Admission to DNP or PhD program

GNRS 704, Faith Integration and Nursing Scholarship, 3 Units

This course begins with an exploration of the nature, role, problems, and possibilities of faith integration in higher education and in the nursing curriculum at all levels of higher education. The special circumstances of faith integration and its implications for teaching in secular college settings are explored. This course further provides a critical explication of theological method and content in three domains: biblical hermeneutics, constructive theology, and ministry praxis for education. The focus of the course is on the appropriation of theological method and knowledge for the purposes of integration into nursing education and practice especially (but not exclusively) within the context of a Christian or church-affiliated college.

GNRS 705, Social Ethics and Health Policy, 3 Units

This course seeks to provide a social ethics frame of reference for health care. Medical and biological advances have contributed to a rapidly expanding amount of human control over human and natural processes, including genetic potential and behaviors. This new power raises questions of morality and highlights the need for discussion and legislation regarding the complex issues raised by developments in health care, medical technology, and science. A comprehensive social ethic places decisions about health care within the context of a fuller account of purpose and meaning in life.

Prerequisite: Admission to DNP or PhD program

GNRS 706, Methods of Inquiry, 3 Units

Students in this course explore various methods of inquiry as they focus on the difference between scientific thinking, wisdom, and alternative concepts of knowledge. Existential dilemmas intrinsic to the pursuit of truth, the exploration of the meaning of actions, the process of reason and interpretation, the perception of reality, and empirical generalizations are discussed, and their influence on the definition of research problems and designs is explored. Research designs and methods are introduced as they relate to problem definition and theory, including an overview of the principles of basic and applied experimental research, evaluation research, and the traditions and foundation of qualitative and historical research. Students are required to explore, synthesize, and debate current issues that will affect their research careers.

Prerequisite: Admission to DNP or PhD program

GNRS 707, Quantitative Nursing Research Design I, 3 Units

This course focuses on advanced multiple research designs and data collection approaches. Emphasis is on experimental and quasi-experimental designs, epidemiological methods, survey research, and evaluation and outcomes research, as well as on planning design and sampling. Inferential statistics and advanced statistical analysis methods including ANOVA and various types of multiple regression analysis are incorporated within the course content.

Prerequisite: Admission to DNP or PhD program

GNRS 708, Qualitative Nursing Research Design I, 3 Units

This course focuses on analyzing the epistemological foundations and the assumptions of qualitative research methodologies. It provides an introduction to the major qualitative research methodologies including grounded theory, phenomenology, and ethnography. Each methodology is analyzed as to its appropriateness for the research question. Experience in carrying out a pilot study in the selected methodology is provided.

GNRS 709, Advanced Statistical Analysis II, 3 Units

This course presents advanced methods of quantitative inquiry. The emphasis is on the use of factor analysis, confirmatory factor analysis, path analysis, and structural equation modeling. Assumptions of the techniques are addressed. The course provides the student experience in using statistical packages for entering and analyzing data. Reporting results of the analyses is also incorporated. Making appropriate decisions regarding which of the advanced statistical techniques to use is stressed. Critique of the advanced statistical analyses of published health care research is also emphasized.

Prerequisite: GNRS 707

GNRS 710, Advanced Qualitative Research Methods, 3 Units

This course provides advanced knowledge and training in the use of qualitative research methods including phenomenological interpretation, grounded theory interpretation, ethnographic interpretation, focus groups interpretation, and feminist interpretation. Intensive interpretive and structured approaches to analysis and methods of establishing plausibility, credibility, and adequacy of qualitative data are emphasized.

Prerequisite: GNRS 708

GNRS 711, Advanced Research Methods in the Humanities, 3 Units

This seminar and consultation course introduces PhD students to nonscientific research methodologies as used in the arts, letters, humanities and aspects of the social sciences for the (a) conduct of original dissertation research on one of the disciplines of arts, letters, humanities, or nonscientific aspects of one of the social sciences, (b) conduct humanities-based research to widen and deepen a scientific dissertation topic, or (c) to enlarge the student's methodological repertoire, knowledge, and skill. The course is intended for those whose primary research education and experience has been in scientific methods and disciplines. (Enrollment limited to eight.)

Prerequisite: (a) successful completion of GNRS 701 and GNRS 706, (b) permission of the instructor

GNRS 712, Healthcare Quality Improvement, Program Planning, and Evaluation, 3 Units

This core course bridges the gap between the uptake of new health research discoveries and their translation, adaptation, and implementation in practice. Course content includes the examination, integration, and application of quality improvement, program planning, and evaluation processes, strategies, and tools. The outcome of the course is a well-designed evaluation plan for an evidence-based quality improvement project.

Prerequisite: Admission to DNP or PhD program

GNRS 713, Advanced Statistical Analysis I, 3 Units

This course presents common nonparametric and parametric statistical techniques used in healthcare research. Assumptions of the techniques are addressed. Specifically, the course emphasizes t-tests, ANOVA, ANCOVA, RANCOVA, correlation, odds ratio, regression, and power analysis, and provides the student experience in using SPSS for entering and analyzing data. Reporting results of the analyses is also incorporated. Making appropriate decisions regarding which statistical techniques to use is stressed. Critique of statistical analyses of published healthcare research is also emphasized.

GNRS 715, Psychosocial Issues of Older Adults, 3 Units

This course focuses on the biological and psychosocial processes throughout adulthood and the older years. Theories of aging are examined, as well as social role changes, social stratification, and the development of institutions of the aged. The course explores both normal aging and psychopathology, and the systematic intrinsic psychological or personality changes associated with development and adaptation in later life. Other topics include clarification of the causes and prevention of health maladies in the later years, and the nature and treatment of the most common psychopathologies. The psychodynamics of institutionalization and family care of the very old are also examined.

GNRS 716, Translation of Research to Practice, 3 Units

The goal of this core course is to help prepare Doctor of Nursing Practice (DNP) nursing students to be nurse scholars and to identify strategies within a multidisciplinary model and in intraprofessional relationships that promote the ready translation of research into practice. This course exposes DNP students to evidence-based practice, quality improvement methodologies, concepts and theories, and deepens their knowledge regarding the phenomenon of interest. This prepares them for foundational competencies needed for evidence-based problem identification, PICOT writing, literature search, integrated literature review, evidence appraisal, and synthesis. There are iterative assignments to develop skill and the milestone assignment is a final integrated review and synthesis paper with in-depth knowledge of their phenomenon (vs. topic) of interest.

Prerequisite: Admission to DNP or PhD program

GNRS 717, Health Technology and Informatics, 3 Units

This course presents an overview of the evolution of health care informatics from an interdisciplinary perspective. Students learn health care informatics history, concepts, theories, legal and ethical implications, and applications within the health care industry. This course introduces the student to the information system life cycle, human factor issues in health care informatics, critical issues affecting the development and implementation of information and communication systems and technologies (clinical, administrative, and learning), knowledge management principles, professional practice trends, and emerging ICT (information and communication technology) in health care.

GNRS 718, Organizational Leadership and Strategic Planning, 3 Units

In this core course, students acquire knowledge and skill to effectively manage systems level change, empower others, and influence political processes. Advanced nursing practice leadership occurs in clinical practice with clients and staff, within healthcare institutions, professional organizations, and in healthcare policy making arenas, using knowledge of nursing and other professions to address healthcare needs and direct interprofessional activities and initiatives. To develop the leadership role, students implement strategies for creating organizational change to provide high-quality services and outcomes at reasonable costs and lead the development of a business plan for quality improvement initiatives. Students advocate for change related to financial policies that impact the relationship between economics and quality care delivery. Focus is on organizational process, including the associated management of conflict, change, promotion of safety for clients and providers, and control of risk within a dynamic healthcare environment.

Prerequisite: Admission to DNP or PhD program

GNRS 720, Wellness Promotion and Health Maintenance, 3 Units

This course focuses on the critical appraisal of theories and models of health promotion and on the evaluation of health initiatives developed for national health promotion and maintenance. Relevant risk prevention, control, and health promotion intervention strategies are emphasized. Communicable diseases; health hazards; high-risk health factors; acute and chronic illness across ethnicities, genders, and the life span; and morbidity and mortality of the nation's leading health problems are analyzed. Students' research questions are generated from a synthesis of knowledge regarding a specific phenomenon relevant to the student's individual area of study.

Prerequisite: Admission to DNP or PhD program

GNRS 721, Health Disparities and Vulnerable Populations, 3 Units

This course offers an analysis and evaluation of various topics and issues on health disparities of underserved ethnic or minority vulnerable populations as well as an analysis of research that describes, explains, and examines variables influencing health disparities and intervention strategies to reduce these disparities.

GNSRS 722, Research in Nursing and Health, 3 Units

This course is team taught and reflects the research expertise and program of study of the nursing doctoral faculty. It focuses on analysis of determinants of health and illness across demographic, biological, psychological, familial/cultural, and societal dimensions. Attention is given to theoretical explanations toward promoting development of students' programs of research.

GNSRS 724, Quantitative Nursing Research Design II: Psychometrics, 3 Units

This course introduces students to the methods of survey research. Course material covers practical considerations in the construction of questionnaires, including determining questionnaire content, selection of item types and wording of items, selection of an administration method, piloting questionnaires, and locating existing questionnaires. Discussions about conducting survey research focus on sample selection, analyzing information obtained from questionnaires using SPSS, evaluating questionnaires, sources of error, and how to reduce measurement error in survey research.

Prerequisite: GNSRS 707

GNSRS 725, Research Practicum, 1 Unit

The practicum further develops, mentors, and socializes students into the roles and activities of research scientists and scholars. Emphasis is on mentoring to facilitate student progression in research methodology, culturally appropriate research strategies, data management, and data analysis. Students can choose either a quantitative or qualitative practicum experience.

GNSRS 726, Advanced Scientific Writing, 3 Units

This course provides opportunities for students to learn how to research and introduce a topic in writing, articulate a thesis statement, support and develop a literature review, work with secondary sources, and organize a written paper that can be developed into a dissertation or translational research paper.

GNSRS 727, Genome Science in Clinical Cases and Disease Management, 3 Units

This course focusing on medical family history taking, constructing and analyzing the pedigree, genetic counseling, clinical decision making and clinical case management for a wide variety of inherited and acquired diseases through the lens of emerging genome science. Clinical cases are discussed from a holistic perspective including: genome science, epidemiology, genomic profiling, genetic technologies, personalized medicine, interprofessional collaboration, ethical and legal issues, and health policy.

Prerequisite: GNSRS 620

GNSRS 728, Genome Science Research Methods, 3 Units

This course focuses on genome research methods for understanding and translating genome science to practice and to genome related nursing research. Understanding the research methods fosters a deeper understanding of the strength and the weaknesses of the science and an ability to critique the benefits and the limitations of the science for designing nursing research. The course includes a wide range of research methods that explore genetics or genomics in human populations. A key outcome of this course is to develop a research proposal using genome methods to design nursing research aimed at improving quality of health for individuals, families and populations.

Prerequisite: GNSRS 620, GNSRS 622, GNSRS 727

GNSRS 729, Population Health and Epidemiology, 3 Units

The concept of population health includes aggregate, community, environmental/occupational, and cultural/socioeconomic definitions of health. The implementation of clinical prevention and population health activities is central to achieving the national goal of improving health status and reducing health disparities among different aggregate groups. This course covers the basic elements and methodological concepts used in the epidemiologic study of factors related to health promotion and disease prevention in human populations. It brings together considerations from several fields of investigation, such as epigenetics, epidemiology, psychology, and public health, to study the effects on health and health-related outcomes.

Prerequisite: Admission to DNP or PhD program

GNSRS 730, Comparative Health Care Systems, 3 Units

This course focuses on exploring/analyzing environmental, social, cultural, political and economic determinants of health across the globe. Comparative analysis of international health care systems including governmental, nongovernmental, traditional, and faith-based organizations are emphasized. Epidemiological analysis of morbidity and mortality, analysis of health and illness responses, and health-seeking behavior across the age span and gender/ethnic variables are discussed with the intent to identify areas of research relevant to students' interest. Presented from a Christian perspective, this course investigates research and practice opportunities and responsibilities for advanced practice nurses in global arenas.

GNSRS 732, DNP Clinical Residency, 0 Units

This course provides students enrolled in the Doctor of Nursing Practice (DNP) program with opportunities to develop professional nursing skills at the doctoral level. The focus of the course is to explore the development and scientific underpinnings of components of expert advanced clinical practice. Students select a population of interest for the DNP clinical residency and apply evidence-based practice and research findings in order to develop and improve practice. Over the course of the DNP program, students integrate previous nursing education and practice experiences with the DNP residency and concurrent doctoral coursework to meet the AACN Essentials of Doctoral Education for Advanced Nursing Practice and complete a DNP scholarly project. The course may be repeated to enable the student to obtain a minimum of 1,000 residency hours. Previous hours from graduate clinical courses may apply, so residency hour requirements will vary.

Prerequisite: Admission to DNP program

GNRS 733A, Residency IA, 1 Unit

This is the first in a series of three residency courses designed to enhance students' critical thinking, diagnostic reasoning, interpretation, and management skills for advanced clinical practice. This course broadens and enhances understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice clinical nurse scholarship. Students practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts. The course focuses on exploring the development and scientific underpinnings of components of expert advanced clinical practice, and attention is given to the development of skills necessary to attain that goal. By the end of this course, students select their population of interest for their clinical residency and apply evidence-based findings to this population to identify potential areas of intervention.

Prerequisite: Admission to DNP program

GNRS 733B, Residency IB, 1 Unit

The second of a three-course sequence, this course may be taken concurrently with GNRS 733A and/or GNRS 733C with approval of the DNP director or designee. Grading: pass/fail

GNRS 733C, Residency IC, 1 Unit

The third of a three-course sequence, this course may be taken concurrently with GNRS 733A and GNRS 733B with approval of the DNP director or designee. Grading: pass/fail

GNRS 734A, Residency IIA, 1 Unit

The first of a three-course sequence, this course may be taken concurrently with GNRS 734B and GNRS 734C with approval of the DNP director or designee. Grading: pass/fail

GNRS 734B, Residency IIB, 1 Unit

The second of a three-course sequence, this course may be taken concurrently with GNRS 734A and/or GNRS 734C with approval of the DNP director or designee. Grading: pass/fail

GNRS 734C, Residency IIC, 1 Unit

This is the last of a three-course series of clinical residencies with a focus on transformative and collaborative leadership, including completion of the evidence-based practice project, assessment of project outcomes, and planned dissemination of findings. Students apply relevant clinical and research findings to develop and improve practice. Content emphasizes critical appraisal of skills and interventions necessary to ensure meaningful translation of scientific evidence into practice, including a cost-benefit analysis for implementing a change into clinical practice. The course also emphasizes the professional role of the nurse as a collaborator, leader, and provider of care with nursing colleagues and other members of the interprofessional healthcare team within the context of complex healthcare systems, preparing students to implement an advanced nursing practice role that results in practice and/or policy change at the local, state, and/or national levels.

Prerequisite: Successful completion of GNRS 733A, GNRS 733B, GNRS 733C, GNRS 734A and GNRS 734B

GNRS 735, DNP Scholarly Project Seminar, 3 Units

The DNP program requires a rigorous clinical project focused on translating scientific research to health care in a timely manner so that patients experience the best applications of science and practice. The project is a scholarly experience that implements the principles of evidence-based practice and translation under the guidance of a faculty mentor. In line with the AACN Essentials of 2007, the outcome of the DNP scholarly project is a tangible and deliverable academic product that is derived from the practice immersion experience and reviewed and evaluated by an academic committee. The project also serves as a foundation for future scholarly practice.

GNRS 736, DNP Scholarly Project Seminar: Evaluation and Dissemination, 2 Units

This course focuses on presentation to and approval of a completed DNP Scholarly Project. The DNP program requires a rigorous clinical project focused on translating scientific research to health care to improve the patients experience utilizing the best evidence of science and practice. This scholarly project is a culminating, independent experience which demonstrates the student's synthesis of coursework and lays the foundation for future scholarship.

GNRS 780, Doctoral Seminar I: Elements of a Proposal and IRB Application, 3 Units

This seminar directs the development of either a PhD dissertation or a DNP Scholarly Project proposal draft that details a problem, the research/project purpose, questions or hypotheses to be examined, a synopsis of the relevant literature, the design and methods of the study including its timeline, protection of human subjects, plans for analysis, and the budget. The seminar also includes preparation of IRB applications, and peer review and critique of student proposals.

Prerequisite: Admission to DNP or PhD program

GNRS 781, Doctoral Seminar II: Developing a Grant Proposal, 3 Units

This doctoral seminar provides students with the opportunity to acquire knowledge, skills, and insights in the writing of a grant proposal. Discussion will focus on the value of writing grant proposals, the basic principles in writing a grant proposal, the components of a grant proposal, identification of funding sources, the difference between a research and a program grant proposal, as well as administrative factors in submitting a grant proposal. Students will craft and a grant proposal in response to a Request for Funding Proposal (RFP) that aligns with the guidelines of the funding agency, and additionally, a budget plan with justification, timelines, and a bio-sketch. In addition, students will conduct a peer review of class completed grant proposals.

GNRS 782, Doctoral Seminar III: Writing for Publication, 3 Units

This seminar focuses on various aspects of writing for publication and directs the development of a manuscript suitable for publication from a previously written paper (e.g., a course term paper). This course will help the student get started on writing; identify writing styles for various forms of publication including abstracts, journal articles, papers, and books; and determine appropriate journals to consider for article submission. The student will acquire practice in reviewing and critiquing scholarly writing by others. It will also address the editorial and publication process, as well as ethical aspects of writing for publication.

GNRS 783, Doctoral Seminar IV: Developing Professional Presentations, 3 Units

This seminar course identifies approaches to developing an effective and successful presentation, helping students find their voice and showcase their areas of expertise. Discussions focus on planning as essential to deciding on the content and the order in which the information is presented. Emphasis is on developing a logical sequence, one that flows naturally and is accompanied by audiovisuals that facilitate understanding of the material.

GNRS 784, Dissertation Seminar V, 2-4 Units

This fifth dissertation seminar provides the student a forum to explore with their peers research findings, theoretical and empirical implications, and potential venues for publication of manuscripts. Format and procedures for progression in the dissertation process are also discussed. Placement of the Course: This seminar is not required if dissertation seminar requirement of 12 units has been met by GNRS 780, GNRS 781, GNRS 782, GNRS 783, and student has defended dissertation. Grading: Pass/Fail.

Prerequisite: GNRS 783

GNRS 791, Doctor of Nursing Practice Intensive I, 1 Unit

This is the first of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. This course introduces students to the role of the DNP nurse in a variety of healthcare settings. Students acquire advanced practice and academic skills necessary for selecting a population of interest and applying evidence-based practice to it as part of an evidence-based DNP scholarly project consistent with the DNP role within a healthcare organizational setting.

Admission to the DNP program; corequisite: GNRS 716

GNRS 792, Doctor of Nursing Practice Intensive II, 1 Unit

This is the second of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. This course helps students identify strategies within a multidisciplinary model that promotes evidence-based practice in various clinical, community, and educational settings. Students receive support and direction in collaboration with the sponsoring facility and mentor as they develop a comprehensive, site-specific DNP scholarly project proposal.

GNRS 791; corequisite: GNRS 780

GNRS 793, Doctor of Nursing Practice Intensive III, 1 Unit

This is the third of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. This course equips students with the skills, competencies, and points of view needed for developing the ethical reasoning/decision-making skills necessary for conducting their DNP scholarly projects.

GNRS 792; corequisite: GNRS 712

GNRS 794, Doctor of Nursing Practice Intensive IV, 1 Unit

This is the last of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. As in the other intensive experiences, course content for each student reflects the interests of the student and is designed to meet that student's needs and career goals. This course allows students, with guidance from their mentors and faculty, to complete the DNP scholarly project and finalize the written and oral scholarly reports that disseminate and integrate new knowledge. Each student's final product reflects their ability to employ effective communication and collaboration skills, take a leadership role, integrate core DNP concepts and competencies that influence healthcare quality and safety, and successfully negotiate change in healthcare delivery for individuals, families, populations, or systems across a broad spectrum of health care.

Prerequisite: GNRS 793;

Corequisite: GNRS 736

GNRS 795, Special Topics, 1-4 Units

In this course, a subject of current interest is examined in depth. Students analyze and evaluate controversial issues to reach and express a reflective position. Students may repeat the course for credit to a maximum of six units applied toward the doctoral program; each course must address a different topic.

GNRS 798, Continuous Doctoral Study, 0 Units

This course is for doctoral students working on dissertations or translational research projects. Students must re-enroll each semester until the dissertation or translational research project is completed, defended, submitted to the library, and approved.

GNRS 799, Independent Study, 1-4 Units

Students enroll in this course to pursue independent study investigating subjects and interests that lie beyond regular course offerings. The student explores topics in greater depth than in other courses, and/or initiates an individual project. Readings are pursued in accordance with a study plan, which is developed in consultation with a sponsoring doctoral faculty member and approved by the doctoral department

GSPH 504, Bioethics and Healthcare Policy, 3 Units

This course will outline the role of the healthcare leader in ensuring human rights are upheld in healthcare systems. This course focuses on bioethical analysis, decision-making and moral policy analysis, and formulation. Through course discussion, group and individual assignments, and oral and written presentations, students will analyze and apply bioethical principles to decision- and policy- making processes in the workplace and at national levels. Healthcare ethics and policy will be considered from a Christian worldview.

GSPH 506, Spiritual Concept Analysis in Health Care, 3 Units

This course focuses on scholarly research and analysis of selected concepts in the spiritual care of people from the Judeo-Christian perspective. Students also examine healthcare research/other healthcare literature for adequacy with respect to the concept they select. Various assignments facilitate greater student awareness of their own spiritual journeys and knowledge of faith traditions other than their own. The course is conducted as a tutorial/seminar experience.

GSPH 508C, Research and Theory in Health Care, 3 Units

This course prepares the healthcare practitioner to apply theory and research evidence in healthcare environments. The relationship between theory and research is examined as students consider questions about the nature, construction, and use of each. Selected theories are explored, and students learn how ideas are developed and used in practice and research. Students also learn the fundamentals of quantitative, qualitative, and mixed-methods research and deepen their understanding through systematic search, critique, and summary of research studies with application to health care. Students work in groups to develop a research plan addressing a healthcare-derived question. Experience in statistical analysis of research data is included.

GSPH 510, Social Determinants of Health, 3 Units

A central focus of the public health field is understanding the etiology, occurrence, and distribution of health outcomes (morbidity and mortality). One growing area of importance within the field is examining how health and disease are influenced and maintained by social, economic, and political risk factors - called social determinants of health. This course provides a macro-level overview of concepts, research, and theoretical models of social determinants of health. Through interactive lectures, readings, and assignments, students are exposed to major areas of study linked to social determinants of health, with discussions centered on the following key questions: What social factors are the greatest challenge to health outcomes within local communities? What does it mean to use a social determinants lens when studying health outcomes among diverse multicultural populations? What are health disparities and how might they best be addressed? What behavioral lifestyle factors commonly interplay with social determinants of health?

GSPH 512, Health, Culture, and Diversity, 3 Units

This course covers the issues of health disparities in the United States and the development of culturally competent programs. Students examine what is meant by culture, the ways in which culture and health issues intersect, and how public health efforts can benefit by understanding and working with cultural processes.

GSPH 514, Research Proposal Writing, 2 Units

This course focuses on the application of the concepts in GSPH 508C Research and Theory in Health Care. The goal is the completion of a research proposal that details the problem, the research purpose, questions or hypotheses to be tested, a critique of the literature, the design and methods of the study including protection of human subjects, the plans for analysis, use of the study, and the budget and personnel.

Prerequisite: GSPH 508C

GSPH 515, Health Care Entrepreneurship, 3 Units

The course provides an opportunity to combine the strengths of public health training with new and existing approaches to social innovation and entrepreneurship from a Christian perspective. Students have opportunities to imagine solutions and mobilize resources to advance the public good and strengthen public health service. Course material introduces entrepreneurial concepts and tools to develop skills for use in various business environments.

GSPH 518, Population Health Management, 3 Units

This course covers important topics in the effective management of public health departments and agencies. Students develop knowledge and skills to fulfill roles in public health management as leaders, administrators, fundraisers, and internal and external communicators. Course content includes ways to be an effective coach to maximize the team's performance, the essentials of effective partnerships, how to create and sustain public health initiatives using business skills, how to run meetings, ways to manage electronic correspondence, and effective strategies to keep the public health organization running smoothly.

GSPH 519, Global Health Systems, 3 Units

This course examines international health systems in terms of infrastructure and function. Students examine the benefits and risks of universal healthcare, third party reimbursement systems, and global availability and access to medical services.

GSPH 520, Public Policy, the Health Care System, and Public Health Policy in the United States, 3 Units

This course is designed to provide students with an overview of public policy, health care systems and public health policy process in the United States. Students will gain an understanding of how the healthcare system works and how United States public health care policy has been developed. Review and analysis of current various proposals for healthcare reform will be conducted.

GSPH 521, Poverty and Health Policy, 3 Units

This course examines the nature and extent of poverty, health equity, and policy primarily in the United States. It considers possible causes and consequences, and the antipoverty effects of existing and proposed policies. This course will discuss labor markets, culture, and discrimination in shaping poverty. Also, it will explore how health policies seek to ameliorate poverty and other forms of social disadvantage throughout the life course. Finally, we explore the public health implications regarding poverty, inequality, and policy.

GSPH 522, Cultural Inclusivity in Health Care, 3 Units

In this course, students explore the topics and tools necessary for the application of cultural inclusivity processes in various healthcare settings. Curriculum includes an overview of demographic changes in the United States, cultural inclusivity, diversity related to specific groups, and the paradigm of cultural and linguistic diversity. Attention is also given to the costs, time, and skill sets associated with the process of moving a healthcare organization toward cultural inclusivity.

GSPH 525, Epidemiology, 3 Units

This course covers the application of epidemiological procedures to the understanding of the occurrence and control of conditions such as infections and chronic diseases, mental disorders, community and environmental health hazards, unintentional injuries, and geriatric problems. Other topics include quantitative aspects of epidemiology, including data sources, measures of morbidity and mortality, evaluation of association and causality, study design, and screening for disease.

Prerequisite: Undergraduate statistics and biology courses.

GSPH 526, Public Health Biology, 3 Units

Human health problems comprise a wide range of infectious, degenerative, neoplastic, and genetically based disease factors. In addition to these factors, human disease results from a wide range of environmental and socially caused pathologies. This course presents the basic scientific and biomedical concepts of modern public health problems and explores the mechanisms and models of the major categories of disease. An integrative approach using knowledge of nutrition, exercise, mind-body, and spiritual practices is explored. The biologic principles presented in this course are foundations to developing and implementing public health disease prevention, control, or management programs in the students' future.

GSPH 527, Advanced Biostatistics and Epidemiology, 3 Units

This course focuses on the application of statistical approaches in epidemiologic research, covering data management and selection of the appropriate statistical model. Regression analysis including linear regression, logistic regression, Poisson regression, and Cox regression is reviewed. Content also covers basic concepts in survival analysis including censoring, survival function, and hazard function. Epidemiologic methods for assessing causation, including mediation analysis, propensity score matching, and instrumental variable analysis, are also covered. Students learn to apply different analytic approaches using public databases.

GSPH 532, Infectious Disease Epidemiology, 3 Units

This course covers key methods for practicing infectious disease epidemiology, including study design, interpretation of data, and assessment of validity. Course content covers methods in infectious disease epidemiology, airborne transmission, diarrheal diseases, blood and body fluids as reservoirs of infectious disease, vector-borne/zoonotic diseases, and parasitic diseases. Students learn how to apply content and use problem-solving skills to develop effective prevention strategies.

GSPH 535, Environmental Health, 3 Units

This course examines essential issues in environmental health, including the scientific and historical foundations, regulatory and policy issues, models and tools for assessing community environmental health, and an overview of select issues and implications of the environment on national and global health. Topics explored include select environmental pollutants in the air, water, soil, and food sources; hazardous waste, risk assessment and communication; and issues of environmental justice and vulnerable populations, nationally and globally.

Prerequisite: Undergraduate biology, chemistry, or ecology

GSPH 537, Occupational Health and Safety, 3 Units

This course examines concepts and issues in occupational health and safety, identifying the significance to workers and public health. Students study social influences, historical events of worker injuries, industrial hygiene, and applicable principles of toxicology, worker quality of life, and safety in the workplace.

GSPH 540, Global Health, 3 Units

Students in this course examine global health issues, emerging priorities, and worldwide challenges affecting population health and disease. They also address opportunities in and challenges to international health, holistically examine determinants of human health, and plan, implement, and evaluate programs and potential solutions to promote international prevention interventions and optimal human health worldwide, with a focus on global health equity.

GSPH 543, Public Health Communication, 3 Units

This course provides an overview of the use of communication strategies to inform and influence individual and community health decisions, with a focus on how communication concepts, theories, and methods are used for public health promotion and practice. Health communication theories include models of persuasive communications/mass media effects, social marketing, interpersonal communications, risk perceptions, and diffusion of innovations. Students work in pairs to develop/evaluate a health communication intervention that addresses a current public health issue within a specific target group.

GSPH 546, Principles and Practices of Toxicology, 3 Units

Students in this course examine the principles of toxicology, including dose-response relationships, toxicokinetics, mechanisms and methods of toxicity, select exposures to toxic substances and accompanying toxidromes, the use of antidotes, and relevance to public health.

GSPH 550, Assessment, Program Planning, and Evaluation, 3 Units

Assessment, program planning, and evaluation bridges the gap between conceptual definitions, conceptual frameworks, and practice. Students take the lead in translating evidence-based research findings to evaluation of existing and proposed public health programs in order to assess and address population health needs. Students develop a program and evaluation plan that includes evidence-based and best practices, a logic model, and formative and summative evaluation.

GSPH 551, Theories of Health Behavior, 3 Units

This course helps students develop a knowledge foundation of health behavior theories and skills for developing theoretically based behavior-change programs. Given that a major focus of public health promotion, education, and prevention programs is on "changing health behavior," there is an ongoing quest to understand why people do what they do to (a) improve or maintain their health, and/or (b) worsen their health. Through lectures, readings, and assignments, students critically review and apply a range of health behavior theories that target the intrapersonal, interpersonal, and community levels.

GSPH 555, Infectious Diseases and Public Health, 3 Units

Students in this course examine the role of infectious diseases in regional, national, and global public health. Students study the historical context and surveillance of communicable diseases, as well as emerging issues in the field. Course content also includes the identification and management of infectious diseases, with students using case studies and proposing threats along with opportunities in prevention, education, and health promotion.

GSPH 560, Strategic Leadership in Health Care, 3 Units

This course is designed to develop knowledge, skills and attitudes about leadership across the healthcare continuum. The student will consider the professional role of the healthcare administrator both from a leadership and a management perspective. Areas of concentration will include leadership theory, structure of healthcare institutions, systems thinking and decision-making, performance improvement including quality and safety issues, risk management and effective communication skills. Application of business skills will be integrated. Students will consider the theoretical and research background, current issues and trends, leadership and administrative implications of specific topics.

GSPH 561, Public Health Across the Disaster Cycle, 3 Units

Students in this course evaluate the roles of public health in natural and human-caused disasters, from "simple" to complex humanitarian events. Using case studies, students analyze the functions of public health agencies and practitioners in the context of institutional systems and the disaster cycle (prevention/preparedness, response, recovery, and mitigation). Field trips outside of class hours may be required.

GSPH 566, Politics and Policies in Disaster Health and Emergency Preparedness, 3 Units

Students in this course evaluate existing governmental and institutional policies related to disaster health and emergency management (DHEM) within political systems. Implementation and evaluation of policy are analyzed and applied.

GSPH 568, Health Care Finance, 3 Units

This course is an introduction to financial concepts and skills needed for healthcare leaders, managers, and executives. Students develop skills in assessing multiple dimensions of financial performance and learn methods to improve the financial health of an organization in the context of the current patient care system.

GSPH 571, International Health Care, 2-4 Units

This course provides students with experience in nursing care in other countries. Students prepare with coursework in the United States, then travel abroad, where they have experiences in acute and/or chronic care settings, exploring cultural, economic, systems, philosophical, and other aspects of care that influence the provision of health care in other countries. A debriefing period is provided upon return.

GSPH 581, Disaster Health and Emergency Management Principles and Practices, 3 Units

Students in this course examine the practice of emergency management and the evolving field of disaster health. Content addresses traditional and current perspectives related to understanding disaster cycles and the relationship between disaster research and practice.

GSPH 593, Field Practicum, 3 Units

In this integrative learning experience, students complete hours in the field applying coursework and classroom learning in a real-world setting under the guidance and supervision of faculty and community-based preceptors, preparing them for professional careers in public health.

GSPH 594, Additional Field Practicum Experience, 1-5 Units

This field practicum elective gives students the opportunity to complete additional hours of practicum experience, allowing them to directly apply course content, public health knowledge, and skills acquired from the MPH program, under the guidance and supervision of faculty and community-based preceptors. This experience enriches classroom activity with practical understanding, and give students the chance to demonstrate an integration of coursework into a real-world setting, preparing them for a professional career in public health.

Prerequisite: GSPH 593

GSPH 595, Special Topics in Public Health, 1-6 Units

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development and/or to develop a particular project. If students elect this course more than once during their program, each such course must address a different topic.

Prerequisite: Graduate standing

GSPH 597, Capstone, 1 Unit

This guided-study course provides a summative experience for completion of the Master in Public Health program and guides the student through the process of demonstrating an integration of theoretical, clinical, and research knowledge from course work throughout the program to the solution of a major public health problem in this culminating project. Each graduate candidate will identify a unique health problem in an actual healthcare setting to address, perform a thorough review and synthesis of current literature, select an appropriate theoretical framework, and develop a creative and innovative solution to the problem. Candidates will meet regularly throughout the semester with course faculty to prepare for and discuss their progress and will submit their work for publication or comparable external review format at the end of the semester.

Prerequisite: Completion of all Academic Core and Specialty courses

GSPH 598, Thesis, 1 Unit

This course is the second part of a two-course sequence (after GSPH 514 Research Proposal Writing) that supports student development of a thesis in the Master of Public Health program. The thesis has served as an option to the master's capstone project.

Prerequisite: GSPH 514

GSPH 599, Readings in Public Health, 1-3 Units

A student may elect to pursue special interests for credit at any time during the program under the supervision of a faculty member. This course is an independent study, arranged with a faculty member of the Department of Public Health.

Prerequisite: Graduate standing

GSPH 613, Graduate Statistics, 3 Units

This course presents the knowledge of descriptive, correlational, and inferential statistics used in research that serves as the basis for evidence-based practice. Students develop the ability to perform descriptive and inferential data analysis techniques, use software applications to aid in statistical calculations and presentation, and interpret findings.

Prerequisite: Undergraduate statistics and biology courses.

MHA 560, Strategic Leadership in Health Care, 3 Units

Students in this course develop knowledge, skills, and attitudes about leadership across the healthcare continuum as they consider the professional role of the healthcare administrator from leadership and management perspectives. Areas of emphasis include leadership theory, structure of healthcare institutions, systems thinking and decision making, and performance improvement including quality and safety issues, risk management, and effective communication skills. Application of business skills is integrated, and students consider the theoretical and research background, current issues and trends, and leadership and administrative implications of specific topics.

Prerequisite: Admission to the M.S. in Healthcare Administration program.

MHA 570, Quality Management, 3 Units

The course focuses on the conceptual foundation of healthcare quality, systems thinking, and the principles of healthcare quality management that include measurement, assessment, and improvement. Students use improvement models, apply tools and process techniques to communicate organizational, clinical, and safety outcomes. The integration of evidence for organizational decision-making with quality improvement processes serve as the framework for students to create a data-driven, quality management project plan. Students incorporate practical solutions to craft measurable expectations, realistic timelines, and an organized project management approach for direct application.

Prerequisite: PADM 512

MHA 571, Integrative Theories of Innovation in Health Care, 3 Units

This course helps student identify and develop skills in producing lasting innovations in healthcare settings. Course material builds on past theories of change, such as those by Lewin and Kotter, and includes other theories that support and sustain organizational change. It also features content on Rogers' diffusion of innovation theory, disruptive innovation, and strategies to promote the adoption of innovation.

MHA 574, Global Field Study in Health Care, 3 Units

This course provides a framework for graduate students to engage in field study in various countries around the world. Students participate in organizational assessment visits to healthcare organizations locally and globally to discuss the role of the administrator and how they apply and practice leadership, management, and change principles, concepts, and theories covered in the graduate curriculum. The global competency domains for healthcare leaders - leadership, communication and relationship management, professional and social responsibility, health and the healthcare environment, and business - are explored as part of the healthcare management profession.

MHA 580, Administrative Practicum, 2 Units

This course gives students the opportunity to experience the role of the healthcare administrator. Each student chooses an individualized administration practicum in a specific area of emphasis, approved and monitored by the faculty member and preceptor. Competencies that govern the role of the healthcare administrator are explored in depth, and students focus on the context for enacting the role of an administrator in a healthcare delivery system.

Prerequisite: All Academic Core and Administrative courses; MHA 597 can be taken concurrently.

MHA 586, Healthcare Analytics, Big Data, and Applied Statistics, 3 Units

This course is an introduction to healthcare data science and analysis that builds knowledge of the technical infrastructure, sources, and storage of electronic data. Statistical analysis, data mining, text analytics, and predictive analytics are explored to frame questions and inform decision making. Students utilize different information retrieval methods to answer clinical and operational questions by performing simple data analysis and visualization of healthcare data. Strategies are discussed for how to optimally use data and glean knowledge from within big data to advance healthcare organizations and demonstrate value. Students also explore Christian worldview principles demonstrating ethical data use in health informatics that respects the dignity and uniqueness of others, and the security and privacy of data.

Prerequisite: MHA 596

MHA 595, Special Topics, 3 Units

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development and/or to develop a particular project. If students elect this course more than once during their program, each such course must address a different topic.

MHA 596, Foundations of Healthcare Informatics, 3 Units

This course provides an overview of basic concepts for practice in healthcare-oriented informatics. These core concepts include an introduction to clinical and translational informatics; foundational theory and practical application of clinical decision-making and computerized decision support; healthcare systems and their organization; the special issues of administration, security, and operations of electronic records in the healthcare setting; human factors issues; information science in the healthcare domain; standards, terminologies, and the uniqueness of biomedical data; and a special focus on emerging technologies.

MHA 597, Capstone, 1 Unit

Students integrate prior learning through the formulation of a case report providing strategic direction to a healthcare organization. The completed strategic plan demonstrates integration of theoretical, clinical, and research knowledge from coursework throughout the program, and is applied to a healthcare problem in an actual healthcare setting: Students perform a SWOT analysis, a review and synthesis of current literature, select an appropriate theoretical framework, determine solutions to the problem, and develop an implementation plan. Students also create an electronic professional portfolio to highlight competencies gained throughout the program. Course success is dependent upon the candidate's ability to clearly identify a healthcare problem and develop an evidence-based solution. Participation in writing assignments is required for successful completion of this course. The responsibility for deep exploration of the chosen scenario and preparation for writing the case report rests with each candidate.

Prerequisite: All Academic Core and Administrative courses must be completed; MHA 580 may be taken concurrently.

MHA 599, Readings in Healthcare Administration, 1-3 Units

A student may elect to pursue special interests for credit at any time during the program under the supervision of a faculty member. University policy states that the student must earn a grade in an independent study course in order to receive credit toward graduation.

RNRS 221, Health Assessment, 3 Units

This course provides the nursing student with skills in physical and psychosocial assessment of adult clients. History-taking and physical examination techniques presented in the course help the student develop strong assessment skills upon which further knowledge and practice can be built.

RNRS 272, Professional Concepts in Nursing, 4 Units

This course is designed to provide an introduction to theories, concepts and roles that help define the profession of nursing. Utilization of the nursing process to provide safe care is analyzed. Concepts of informatics, group dynamics, conflict/management, and techniques to analyze and solve problems are examined. Evidence based nursing practice is introduced through instruction in Library/data base searches.

RNRS 298, Communication and Teamwork in Patient and Family Centered Care, 3 Units

This elective course is designed to simulate and enhance clinical experiences for the inexperienced graduate licensed RN entering the RN to BSN Accelerated Degree Program. Thirty-six hours of clinical experience will be completed in a healthcare setting with a preceptor. Concepts related to communication and teamwork are emphasized.

Prerequisite: Admission requirements for admission into the RN-BSN program apply

RNRS 299, Transition to Professional Practice, 3 Units

This is a bridge course designed to be taken by inexperienced licensed RNs who are admitted to the RN to BSN program. Completion of the course provides the new RN experience with effective decision making skills related to clinical judgment and performance in the clinical setting as well as ways to incorporate evidence based interventions in the practice setting. This course includes a clinical/simulation component with participation in an online post conference discussion board.

Prerequisite: RNRS 298

RNRS 307, Theoretical Frameworks in Nursing, 3 Units

The focus of this course is exploration and integration of theoretical models in stress, development and health care adaptation as applied to nursing practice. Through writing and experiential activities the students will express a knowledge of family assessment and analysis of the family unit utilizing a variety of theoretical models.

RNRS 321, Health Assessment, 5 Units

This course develops the nursing student's history taking and assessment skills across the life span. Analysis of health data and identification of risks, including genetics and genomics in specific groups, are emphasized. Culturally sensitive interventions and evidence-based practice are discussed to reduce risk and promote health.

RNRS 327, Nursing Research and Statistics, 4 Units

This course introduces the steps in the nursing research process, with emphasis on principles and methods. Basic statistical concepts and methods of collecting, summarizing, presenting, and interpreting data for professional nurses are addressed. Current issues impacting nursing research are analyzed. Ethical considerations and rights of human subjects are explored.

Prerequisite: The RN-BSN program is designed with a specific course sequence determined by the School of Nursing. A progression schedule is reviewed by the student and advisor after program acceptance. Courses must be taken in the assigned sequence.

RNRS 358, Writing 3: Evidence-Based Practice in Nursing and Healthcare, 3 Units

The focus of this course is to integrate evidence-based clinical practice into the current healthcare systems. The student will review and evaluate the clinical and research literature for application to practice. The process of an integrative literature review and the development of writing skills specific to the discipline of nursing will be conducted. Select research designs frequently used in practice settings will be explored. Quality improvement strategies, methods and issues will be discussed and applied to practice. Meets the General Studies Writing Three requirement. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

Prerequisite: Writing 2, Current enrollment in the RN to BSN Program is required

RNRS 368, Pathophysiology, 5 Units

This course presents an introduction to alterations in health status across the life span and their applications to nursing practice. Major pathophysiologic concepts are explored using a body systems approach. Theories relating to etiology, pathogenesis, and clinical manifestations are used to study selected disease processes. Mechanisms causing alterations in cellular function and environment, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, genetics processes, and neuroendocrine control of the body are included. Concepts from anatomy and physiology courses are considered prerequisite and provide the foundation for exploring human dysfunction.

RNRS 396, Professional Practice: Ethics, Issues, and Spirituality in Health Care, 6 Units

This course focuses on the examination and application of the religious, theological, philosophical, and cultural foundations of ethics in professional nursing practice. Participants develop knowledge and skills in ethical decision making that are theoretically sound, evidence based, holistic, and applicable to current healthcare issues. The course also addresses the expanding roles and responsibilities of professional nurses in meeting the healthcare needs of a dynamic society, with attention to the spiritual formation of nurses. *Meets the General Education Requirement: UP Bible Requirement.*

Prerequisite: The RN-BSN program is designed with a specific course sequence determined by the School of Nursing. A progression schedule is reviewed by the student and advisor after program acceptance. Courses must be taken in the assigned sequence.

RNRS 412, Spiritual Formation and the Profession of Nursing, 3 Units

This course guides students as they examine and articulated the Christian worldview, which can be applied personally and to the broader issues of society. This knowledge allows the students to develop and implement an integrated approach to nursing and the common good, and formulate responses to the worldview aspect of current professional and social issues.

RNRS 448, Leadership in Health Care Settings, 6 Units

This course presents concepts of organizational and systems leadership and management. Today's health care systems related to patient safety are addressed. The content examines inter-professional teamwork and collaboration, shared decision making, and major nursing roles. The quality improvement process is investigated as to its ability to continuously improve the quality & safety of the health care system. The relationship between the health care system's effectiveness and individual performance in securing patient safety and quality outcomes are identified. Integration of EBP with clinical practice and the role of Informatics to communicate, manage knowledge, mitigate error, and support decision making are developed. Health care policy, finance, and regulatory agency/environments are examined. Ninety hours of practicum are required to establish competency in this course.

Prerequisite: Enrollment in the RN to BSN Program

RNRS 449, Theory and Practice in Community Health Settings, 6 Units

This course has two areas of focus within the community setting: the study of principles and practices involved in community health nursing and the development of skills for teaching a group of clients. The emphasis is on the role of the nurse in assessing, planning, implementing, and evaluating care of clients in a variety of community-based settings. Collaborating with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals, families, and aggregates are essential components of this course. A review of legal mandates and regulations, as well as discussion of ethical dilemmas and issues related to community-based care is included. A multiple theoretical focus that includes concepts from systems, stress, adaptation, development, and role theory is emphasized.

RNRS 458, Writing 3: Evidence-Based Practice, Theory, and Clinical Pathways, 5 Units

The focus of this course is exploration and integration of the evidence-based practice (EBP) process, including EBP implementation and critique of clinical pathways within individual organizations, and the role of informatics in health care and its importance in evidence-based practice. Theoretical nursing and nonnursing models are reviewed, with a focus on examining how theoretical principles are reflected in professional practice. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

RNRS 469, Improving Patient Outcomes: Quality, Safety, and Risk Management, 5 Units

The focus of this course is the implementation of quality and safety mechanisms into clinical practice to improve patient outcomes. Utilizing national standards for quality and safety in health care, students examine initiatives necessary to improve patient outcomes. Concepts of informatics, patient-centered care, leadership, inter- and intraprofessional teamwork, collaboration, and communication are addressed.

RNRS 479, Population Health and Public Health Nursing, 4 Units

This course focuses on population-based public health nursing practice. The assessment of systematic differences in outcomes across populations, including the complexity of interactions among health determinants (such as social environment, resource allocation, and biological pathways), provides the foundation for public health nursing practice. Exploration of how these determinants exert their influence over time and throughout the life cycle, with variations in their patterns of occurrence (including health inequities and inequalities), is central to the course. The role of the public health nurse in assessing and understanding health systems and the health status of a population is emphasized.

Corequisite: RNRS 482P

RNRS 480, Community Health and Care Transitions, 4 Units

This course builds on the concepts of population health and public health nursing and describes the interaction of the nurse and the client in the home and in the community. Given an assessment of a community's priority health needs, students use course content to identify change-agent functions to promote and preserve health and to prevent disease and disability. All levels of prevention for the individual, family, and community system are addressed as community health nursing interventions. Course topics include the role of community health nursing in supporting care transitions across varied clinical and community settings, legal and regulatory considerations, and ethical issues related to community health.

Prerequisite: RNRS 479;

Corequisite: RNRS 482P

RNRS 482P, Clinical Practicum, 2 Units

This course is the clinical component to RNRS 479 Population Health and Public Health Nursing and RNRS 480 Community Health and Care Transitions. The focus of this course is on students implementing the systematic assessment of a community health population and creating an intervention that supports health promotion and disease prevention. Students develop a strategy for change, guided by epidemiological evidence and an understanding of the complex determinants of health, for implementation in collaboration with community resources and other health professionals.

Meets the General Education Requirement: Integrative and Applied Learning.

Corequisites: RNRS 479 and RNRS 480

RNRS 495, Special Topics in Nursing, 1-4 Units

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development and/or to develop a particular project. This course may be repeated for credit as the topic varies.

RNRS 497, Ethics and Issues in Health Care, 4 Units

This course focuses on the integration of Christian faith, ethical issues, and professional concerns, which confront nurses in their work life. It also includes consideration of issues and trends in health care and nursing. Integration of such concerns as providers of health care, education of the health care professional, and consumerism with ethical concerns are investigated. This course also contains a comprehensive paper written on a bioethical issue, which meets the senior writing requirement. Each week there is a discussion period around ethical concerns, which correlates to the material presented in class.

RNRS 499, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between and designed by a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

UNRS 105, Foundations in Professional Nursing/Aging, 6 Units

Lecture 3 units; Clinical practicum 3 units (135 hours/semester) This course focuses on the nursing process and introductory concepts crucial to professional nursing care, including interviewing, wellness, health promotion, and illness prevention. The clinical practicum includes application of concepts and acquisition of nursing knowledge and skills needed to provide healthcare to the healthy aging and hospitalized adult and aging client utilizing the nursing process to plan care based on human needs, problems of immobility, and pain.

Special Fee Applies

Prerequisite: Acceptance into the Nursing Program.

Corequisite: UNRS 105P (Practicum)

UNRS 105P, Foundations in Professional Nursing - Practicum, 0 Units

UNRS 105 Clinical Practicum

Corequisite: UNRS 105; Acceptance into the nursing program

UNRS 106, Foundations of Professional Nursing/Aging, 6 Units

This course focuses on the nursing process and introductory concepts crucial to professional nursing care, including interviewing, wellness, health promotion, and illness prevention. The clinical practicum includes application of concepts and acquisition of nursing knowledge and skills needed to provide health care to the healthy aging and hospitalized adults and aging, utilizing the nursing process to plan care based on human needs, problems of immobility, and pain.

Corequisite: UNRS 106P

UNRS 106P, Foundations of Professional Nursing/Aging Practicum, 0 Units

UNRS 106 Clinical Practicum

Corequisite: UNRS 106

UNRS 107, Foundations of Professional Nursing, 4 Units

This course focuses on the nursing process and introductory concepts crucial to professional nursing care, including interviewing, wellness, health promotion, and illness prevention. The clinical practicum includes application of concepts and acquisition of nursing knowledge and skills utilizing the nursing process to plan and provide care based on human needs, problems of immobility, and pain.

Corequisite: UNRS 107P

UNRS 107P, Foundations of Professional Nursing Practicum, 0 Units

This is the Practicum component of the Foundations of Professional Nursing course.

Corequisite: UNRS 107

UNRS 108, Fundamentals in Nursing Practice, 2 Units

This is an experiential learning course designed to teach basic nursing skills in a clinical skills or simulation laboratory setting to prepare students to deliver safe and patient-focused nursing care. Utilizing the nursing process, students perform basic skills in assessment, patient care across the admission-discharge continuum, documentation, patient-family teaching, and infection control.

UNRS 113, Pharmacology, 2 Units

Lecture, 2 units This course is designed for students who have completed organic chemistry, inorganic chemistry, and biochemistry. The content focuses on principles of pharmacology and specifics of the major drug classifications.

Prerequisite: Acceptance into the nursing program

UNRS 120, Fundamentals of Human Nutrition, 3 Units

This lecture course focuses on principles of human nutrition, including nutrient functions, metabolism, and changing needs across the life span. Students also explore nutrient deficiency and toxicity signs and symptoms, along with implications of a poor diet on the development of chronic disease. Various nutrient analysis methods are used.

UNRS 212, Nursing Care of Adults and the Aging, 6 Units

This course involves application of biological, psychosocial, and spiritual concepts to adult and aging clients experiencing the stress of an acute or chronic alteration in physical health within the medical surgical setting. The nursing process is utilized to provide care to one or two clients within the healthcare delivery system of an acute hospital, skilled nursing facility, or transitional care unit, and extending to the community. Lecture: 3 units; clinical practicum: 3 units (135 hours/semester).

Special Fee Applies

Acceptance into the nursing program; corequisite: UNRS 212P.

UNRS 212P, Nursing Care Of Adults/Aging Practicum, 0 Units

UNRS 212 Clinical Practicum

Corequisite: UNRS 212

UNRS 220, Health Assessment, 3 Units

Lecture, 2 units; Laboratory, 1 unit (45 hours): This course provides the nursing student with skills in physical, spiritual, and psychosocial assessment of adult clients. History-taking and physical-examination techniques presented in the course help the student develop strong assessment skills upon which further knowledge and practice can be built. Basic concepts related to assessment of geriatric, pediatric, and childbearing patients are included. RNs take this course in the summer.

Special Fee Applies

Corequisite: UNRS 220L; Must be accepted into the Nursing Program.

UNRS 240, Medical Spanish, 2 Units

This medical Spanish class is designed especially for nursing. Practical Spanish communication in real-life medical situations for beginners is emphasized. Pronunciation, intonation, and structure of Spanish within a framework designed to develop basic listening, speaking, reading and writing skills will be taught. Special cultural presentations supplement language study.

UNRS 260, Nutrition, 2 Units

Students in this lecture course explore the foundations of nutrition in the prevention of chronic disease. Course material covers the pathophysiology of various disease states and appropriate medical nutrition therapy, as well as nursing's role in nutrition assessment with respect to patient weight change, intake adequacy, gastrointestinal symptoms affecting nutrient absorption, and activities of daily living. Students perform dietary recalls, nutrient analyses, and anthropometric assessments, and learn about evidence-based nutrition care for gastrointestinal diseases, cardiovascular diseases, diabetes, metabolic syndrome, energy balance and weight control, bone disease, and renal disease. Through case studies, students learn about alternate feeding methods and issues surrounding drug/nutrient interactions. Students also have opportunities to educate the community through presentations on the prevention of disease through nutrition.

Prerequisite: CHEM 123 or PRCH 123 or department approval if a non-nursing major

UNRS 270, Professional Concepts in Nursing, 3 Units

This course provides an introduction to the theories and concepts of professional nursing. The nursing process is presented and utilized as the basis for planning quality and safe patient care in various healthcare settings. Current issues and trends in nursing are discussed, the role of nursing in the health care delivery system, and concepts of evidence-based practice, informatics, group dynamics, conflict/management, and techniques to analyze and solve problems are examined.

Prerequisite: Acceptance into the nursing program

UNRS 271, Theories and Concepts in Professional Nursing, 2 Units

This course provides an introduction to the theories and concepts of professional nursing. The nursing process is presented and utilized as the basis for planning care as applied to patients. The content also includes discussion of current issues and trends in nursing and compilation of a professional portfolio.

Prerequisite: Acceptance into the nursing program

UNRS 280, Life Cycle Nutrition, 3 Units

This lecture course examines nutrient needs of individuals throughout various life stages: preconception, pregnancy, lactation, infancy, preschool years, middle childhood, pre-adolescence, adolescence, adulthood, and late adulthood. Students learn the changing nutrient requirements through the life cycle and apply this knowledge through special topic presentations and in the development of teaching tools that can be used for public education audiences. This is a service-learning course.

Prerequisite: BIOL 101, CHEM 123, PSYC 290, and UNRS 120

UNRS 281, Introduction to Global Health Care, 1 Unit

This course uses a seminar or online format to introduce students to major aspects of the global healthcare experience, such as developing an understanding of the expectations and responsibilities related to international travel, an appreciation of other cultures, their integration into another culture, their in-country experience, and their re-entry into their home country.

UNRS 282, Transcultural Health Care: Country Specific, 2-4 Units

Students in this course participate in a short-term study-away nursing experience in order to begin understanding theoretically based transcultural healthcare practices. A seminar format is utilized to stimulate discussion regarding health-related issues specific to the geographical area of study and to assist students in the formulation of personal perspectives and individual cultural values that promote high-quality professional nursing practice worldwide. Students participate as members of a healthcare team in a variety of nursing-specific learning opportunities. Lecture, 1 unit; clinical practicum, 1-3 units (45-135 hours/semester).

Special Fee Applies

UNRS 282P, Transcultural Health Care: Country Specific- Practicum, 0 Units

UNRS 282 Clinical Practicum

Prerequisite: UNRS 105, UNRS 113, UNRS 220; Corequisite UNRS 282

UNRS 105, UNRS 113, UNRS 220; Corequisite UNRS 282

UNRS 299, Statistics and Data Management for Nursing and Health Care, 3 Units

This course covers basic statistical concepts and methods of collecting, summarizing, presenting, and interpreting data for professional nurses and students pursuing healthcare professions. Among the topics covered are graphing, measures of central tendency and variability, the normal curve, hypothesis testing, correlation and regression, and topics in probability that can be applied in real-world situations. *Meets the General Education Requirement: Quantitative Literacy (Math).*

Prerequisite: MATH 95 or an appropriate score on the APU mathematics proficiency exam or SAT Math score of 540 or ACT Math score of 23. Admission to the School of Nursing, or Pre-Admitted Nursing status and admission to the Honors College.

UNRS 300, Complementary and Alternative Therapies: Herbs, Supplements, and Nutrition, 3 Units

This course provides an introduction to therapies currently used as complements to Western medicine. Emphasis is on naturopathic medicine and biologically based therapies such as foods, special diets, herbal remedies, and dietary supplements. The course reviews potential risks and interactions between conventional and complementary and alternative therapies. The course examines agencies devoted to informing and protecting consumers and health care practitioners.

Prerequisite: BIOL 101 or BIOL 151, and CHEM 123. Instructor permission required if non-nursing major.

UNRS 306, Writing 2: Theoretical Frameworks in Nursing, 3 Units

Students in this course learn to utilize a variety of genres of scientific writing while exploring, integrating, and applying theoretical models of stress, development, and health care adaptation to nursing practice. Students examine writing samples from various methodological perspectives and practice a variety of writing styles and forms of argument considered persuasive in the sciences. They also develop basic proficiency in the use of APA style. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*

Prerequisite: C- or better in PRWR 110; acceptance into the nursing program.

UNRS 310, Mental Health Nursing, 4 Units

Lecture 2 units, Clinical practicum 2 units (90 hours); This theoretical and clinical course focuses on the dynamics of psychosocial stress within the interpersonal and intrapersonal systems of patients with acute and chronic psychiatric disorders. Short-term evaluation and treatment experiences are offered utilizing milieu, individual, group, and family therapy.

Special Fee Applies

Corequisite: UNRS 310P; Must be accepted into the Nursing Program

UNRS 310P, Mental Health Nursing Practicum, 0 Units

UNRS 310 Clinical Practicum

Prerequisite: Co-Requisite: UNRS 310

UNRS 312, Nursing Management of Adults, 3 Units

Lecture, 1 unit; Clinical practicum, 2 units (90 hours/semester): This course continues the application of biological, psychosocial, and spiritual concepts to adult and aging clients experiencing the stress of an acute or chronic alteration in physical health within the medical surgical setting. Emphasis is on the application of concepts of pathophysiology and pharmacology to the nursing management of acute and chronically ill patients in the medical-surgical setting.

Special Fee Applies

Corequisites: UNRS 312P, UNRS 313 and UNRS 313P; Must be accepted into the Nursing Program.

UNRS 312P, Nursing Management of Adults Practicum, 0 Units

UNRS 312 Clinical Practicum

Corequisites: UNRS 312, UNRS 313 and UNRS 313P

UNRS 313, Restorative Nursing, 4 Units

Lecture 2 units; Clinical practicum 2 units (90 hours/semester); This course focuses on the care of an adult or geriatric client with a chronic health problem. The mental health and spiritual concepts are emphasized. Students are assigned to a rehabilitation or restorative setting.

Special Fee Applies

Corequisites: UNRS 312, UNRS 312P and UNRS 313P; Must be accepted into the Nursing Program

UNRS 313P, Restorative Nursing Practicum, 0 Units

UNRS 313 Clinical Practicum

Corequisites: UNRS 312, UNRS 312P and UNRS 313

UNRS 314, Nursing Management and Restorative Care of Adults, 6 Units

This course builds on prior knowledge of biological, psychosocial, and spiritual concepts to help adult and aging clients experiencing the stress of an acute or chronic alteration in physical health. Emphasis is on the application of concepts of pathophysiology and pharmacology to the nursing management of acute and chronically ill patients in medical-surgical and rehabilitative or restorative settings.

Corequisite: UNRS 314P

UNRS 314P, Nursing Management and Restorative Care of Adults Practicum, 0 Units

UNRS 314 Clinical Practicum

Corequisite: UNRS 314

UNRS 320, Cultural Aspects of Food and Nutrition, 3 Units

Students in this course examine the foodways of people around the world, exploring the health benefits and practices of various cultures, along with how the industrialization of food influences nutrition content and pricing of food. Course material also covers the effects of famine on life expectancy and how one's environment or living situation limits access to food. A food lab is included, giving students an opportunity to prepare, taste, and realize a country's particular etiquette practices when dining. Course requires field trips. This is a service-learning course.

Prerequisite: UNRS 120, SOC 358, GLBL 201; GLBL 260 or COMM 260

UNRS 367, Pathophysiology, 3 Units

Lecture, 3 hours: This course presents an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiologic disorders are emphasized.

Prerequisite: Acceptance into the nursing program

UNRS 382, Community Health Nursing, 3 Units

This course focuses on the study of principles and practices involved in community health nursing, with emphasis on the role of the nurse in assessing, planning, implementing, and evaluating care of clients in a variety of community-based settings. Collaboration with community-based organizations and services that provide health promotion, disease prevention, maintenance during chronic illness, and client education services to individuals, families, and aggregates is an essential component of this course. A review of legal mandates and regulations specific to community-based care, analysis of the healthcare needs within a community, and exploration of issues such as liberty, equality, terrorism, crisis, and disasters are included. Lecture, 1 unit (1 hour/week); clinical practicum, 2 units (90 hours/semester). *Meets the General Education Requirement: Civic Knowledge and Engagement.*

Special Fee Applies

Prerequisite: Acceptance into the Nursing Program;

Corequisite: UNRS 382P

UNRS 382P, Community Health Nursing Practicum, 0 Units

UNRS 382 Clinical Practicum

Corequisite: UNRS 382

UNRS 383, International Health Nursing, 3-5 Units

This course focuses on clinical observation of and participation in international healthcare settings, using a cross-cultural educational experience to give students a global perspective of healthcare issues. Students develop intercultural competence as they engage with people from diverse cultures with compassion and respect, and foster a commitment to global service, scholarship, and boundary-crossing community. Lecture, 1 unit; clinical practicum, 2-4 units. *Meets the General Education Requirement: Intercultural Competence.*

Special Fee Applies

Acceptance into the nursing program; corequisite: UNRS 383P.

UNRS 383P, International Health Nursing Practicum, 0 Units

Lecture 1 Unit - Clinical Practicum 2-4 units: This course focuses on clinical observation and participation in international health care settings. The purpose is to broaden the student's worldview through a cross-cultural educational experience and to provide a global perspective of healthcare issues. In addition, it will provide opportunities to develop intercultural competence and foster a commitment to global service, scholarship, and boundary-crossing community.

Prerequisite: Acceptance into the nursing program

UNRS 384, Urban/Rural Health Nursing, 3-5 Units

This course focuses on clinical observation of and participation in urban/rural healthcare settings, using a cross-cultural educational experience to give students a broader perspective of healthcare issues. Students develop intercultural competence as they engage with people from diverse cultures with compassion and respect, and foster a commitment to service, scholarship, and boundary-crossing community in vulnerable urban/rural populations.

Lecture, 1 unit; clinical practicum, 2-4 units. *Meets the General Education Requirement: Intercultural Competence.*

Acceptance into the nursing program; corequisite: UNRS 384P.

UNRS 384P, Urban Health Nursing Practicum, 0 Units

Lecture 1 Unit - Clinical Practicum 2-4 units: This course focuses on clinical observation and participation in urban health care settings. The purpose is to broaden the student's worldview through a cross-cultural educational experience and to provide a global perspective of healthcare issues. In addition, it will provide opportunities to develop intercultural competence and will foster a commitment to service, scholarship, and boundary-crossing community in vulnerable urban populations.

Prerequisite: Acceptance into the nursing program

UNRS 386, Population and Community Health Nursing, 6 Units

This course focuses on population-based public health and community health nursing practice. The purpose is to broaden the student's worldview through a cross-cultural educational experience and gain a more global perspective of complex health care issues through civic engagement and collaboration with various clinical settings, community-based and global health care organizations that provide health promotion, disease prevention, maintenance, and support care transitions during chronic illness. All levels of prevention for the individual, family, and community systems are addressed through population-based public health and community health nursing assessment, evaluation, and interventions including client education services to individuals, families and aggregates from diverse cultures. *Meets the General Education Requirement: Intercultural Competence, Civic Knowledge and Engagement.*

Special Fee Applies

Corequisites: UNRS 386P

UNRS 386P, Population and Community Health Nursing Practicum, 0 Units

This course focuses on population-based public health and community health nursing practice. The purpose is to broaden the student's worldview through a cross-cultural educational experience and gain a more global perspective of complex health care issues through civic engagement and collaboration with various clinical settings, community-based and global health care organizations that provide health promotion, disease prevention, maintenance, and support care transitions during chronic illness. All levels of prevention for the individual, family, and community systems are addressed through population-based public health and community health nursing assessment, evaluation, and interventions including client education services to individuals, families and aggregates from diverse cultures.

Corequisites: UNRS 386

UNRS 402, Nursing Care in Maternal, Newborn, and Women's Health, 4 Units

Lecture, 2 units; Clinical practicum, 2 units (90 hours/semester): This course focuses on the theoretical and clinical concepts of the childbearing patient, her infant, and her family. The students study both normal and complicated obstetrics. Birth preparation, prenatal care, intrapartal, normal neonatal, and postpartum care with concurrent clinical experiences are introduced.

Special Fee Applies

Corequisite: UNRS 402P; Must be accepted into the Nursing Program.

UNRS 402P, Nursing Care in Maternal, Newborn, and Women's Health Practicum, 0 Units

UNRS 403, Leadership and Management in Professional Practice, 2 Units

Theory, 2 hours. This course emphasizes leadership and management theory in a number of applications and health care settings. It assists the upcoming graduate in adjusting to various organizations encountered by professional nurses serving in a variety of roles. Core concepts relevant to the health care settings are presented with an emphasis on critical thinking, character development and leadership competencies, quality outcomes, and safety goal achievement for optimal patient care.

Prerequisite: Acceptance into the Nursing Program. Note: Per the progression schedule for the Traditional BSN program students, UNRS403 is taken in the same semester as UNRS404/404P and UNRS402/402P.

UNRS 404, Nursing Care of Children and Young Adults, 4 Units

Lecture, 2 units; Clinical practicum, 2 units (90 hours/semester): This theoretical and clinical course focuses on the care of children from birth through adolescence. The effects of acute and chronic illness on growth and development are studied in the acute and community health care setting. Education of the child and family on health promotion, disease prevention, and safety issues are addressed. Ethical issues are discussed regarding the relationship of the child and family, including issues such as child abuse, informed consent, and the impact of diverse cultural and spiritual beliefs on health care decisions in the family.

Special Fee Applies

Corequisites: UNRS404P; Must be accepted into the Nursing Program. Note: Per the progression schedule for the Traditional BSN program students, UNRS403 is taken in the same semester as UNRS404/404P and UNRS402/402P.

UNRS 404P, Nursing Care of Children and Young Adults Practicum, 0 Units

UNRS 411, Advanced Nursing Care of Adults and the Aging, 5 Units

This course involves the application of pathophysiological, psychosocial, and spiritual concepts to adult and geriatric clients experiencing the stress of illness in acute settings. The area of focus is caring for critically ill clients and their families with complex health needs in a critical-care setting. Legal and ethical issues related to acute care are included. Lecture, 2 units; clinical practicum, 3 units (135 hours/semester).

Special Fee Applies

Corequisite: UNRS 411P

UNRS 411P, Advanced Nursing Care of Adults & Aging - Practicum, 0 Units

UNRS 412, Clinical Residency Nursing, 2 Units

This clinical residency is an experiential component designed as a collaborative partnership between the School of Nursing and selected healthcare settings. This residency is planned to ease the role transition from a student nurse to a beginning professional nurse. In addition, it enhances the skill and practice knowledge of the student in preparation for the NCLEX-RN examination. Clinical practicum, 90 hours/semester. *Meets the General Education Requirement: Integrative and Applied Learning.*

Corequisites: UNRS 411 and UNRS 411P

UNRS 414, Advanced Nursing Care of Adults, 6 Units

This course involves the application of pathophysiological, psychosocial and spiritual concepts to adult and geriatric clients experiencing the stress of acute illness. The primary focus is on caring for and managing care of critically ill clients and their families with complex health needs in a critical care setting. Throughout the semester, students prepare for transition to practice as they become more independent and proficient in communicating with and leading the healthcare team. *Meets the General Education Requirement: Integrative and Applied Learning.*

Corequisite: UNRS 414P

UNRS 414P, Advanced Nursing Care of Adults Clinical Practicum, 0 Units

This course is the Clinical Practicum component of the Advanced Nursing Care of Adults course.

Corequisite: UNRS 414

UNRS 425, Nursing Research, 3 Units

Lecture, 3 units: This course introduces the steps in the research process. Emphasis is placed on the principles and methods of the research process, including how this process contributes to the development of nursing knowledge and the improvement of nursing practice. This historical evolution of nursing research is examined and current issues impacting nursing research are analyzed. Ethical considerations and rights of human subjects are explored. Students have the opportunity to evaluate selected nursing studies throughout the semester in small groups with faculty input and guidance.

Prerequisite: UNRS 299; Must be accepted into the Nursing Program.

UNRS 436, Fundamentals of Case Management, 3 Units

Theory, 2 units; Practicum, 1 unit: This is an introductory course for senior-level students covering the principles of case management, roles and responsibilities of the case manager, case management tools, plans and methods, issues (including legal ones), and how case management improves patient and hospital outcomes. It is designed to give an overview of what case management is and how a nurse can utilize these tools and skills to advance clinical practices. It is an elective course.

Special Fee Applies

Prerequisite: Acceptance into the Nursing Program.

Corequisite: UNRS 436P (Practicum)

UNRS 436P, Fund of Case Mgmt Practicum, 0 Units

UNRS 444, Clinical Specialization Elective, 1-2 Units

This is a clinical specialty course involving a collaborative partnership with selected community healthcare organizations, an intensive preceptored experience that eases the role transition from student nurse to beginning professional nurse in a specialized setting. This course also enhances the skill and practice knowledge of students in preparation for the RN licensing examination.

Prerequisite: One of the following: UNRS 310 (for mental health nursing), UNRS 382 (for community health), UNRS 402 (for obstetrics), or UNRS 404 (for pediatrics). If taken for two units, instructor consent is required.

Corequisite: UNRS 411

UNRS 445, Applied Pharmacology, 2 Units

This course enhances students' ability to apply knowledge acquired in the basic pharmacology course by helping them utilize critical thinking skills at a more advanced level. Emphasis is on the application of pharmacokinetics, pharmacodynamics, and pharmacotherapeutics of major drug categories used to manage common patient disorders across the life span in clinical nursing practice.

Prerequisite: Acceptance into the nursing program

UNRS 495, Special Topics in Nursing, 1-4 Units

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development, and/or to develop a particular project. May be repeated for credit as the topic varies.

Prerequisite: Acceptance into the nursing program

UNRS 496, Writing 3: Ethics and Issues in Health Care, 4 Units

This course focuses on the integration of Christian faith, ethical concerns, and issues and trends in health care that nurses encounter in their work life. Students develop their abilities as independent thinkers in order to construct bodies of knowledge, and communicate what they are learning through reading, dialogue, debate, peer critique, presentations, and the development and refinement of written pieces. The capstone project for this course is a comprehensive research paper and formal presentation demonstrating scholarship and readiness to contribute to the nursing profession. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

Special Fee Applies

Prerequisite: Senior standing in the School of Nursing; UNRS 306

UNRS 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between and designed by a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

UNRS 498, Directed Research, 1-4 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.

Prerequisite: Junior or Senior Standing

UNRS 499, Thesis/Project, 1-4 Units

This is a senior-level "capstone" type of independent study/research experience, involving the student in a unique project with a sophisticated level of research, synthesis, analysis, and communication. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying readings, log, instructor discussions, and writing of summary analysis and conclusions. The thesis or project may result in formal thesis, published article, or electronic media. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.

Prerequisite: Upper-division writing intensive course or instructor consent; and junior or senior standing

Faculty

Interim Dean

Renee Pozza (<http://www.apu.edu/faculty/rpozza/>), PhD, RN, CNS, FNP-BC, FAASLD

Associate Deans

Baccalaureate Nursing Programs

The School of Nursing baccalaureate programs are accredited by the Commission on Collegiate Nursing Education (<https://www.aacnnursing.org/> CCNE/) and approved by the California Board of Registered Nursing (<https://www.rn.ca.gov/>). The prelicensure programs enable students to apply to take the California Board of Registered Nursing examination for RN licensure, and graduates are eligible to apply for a California Public Health Nurse (PHN) certificate. The School of Nursing also offers options for the registered nurse (RN) and the licensed vocational nurse (LVN) leading to a Bachelor of Science in Nursing.

General Education Note: Nursing majors are not required to take health education as part of their General Education requirements (p. 1063). (p. 1071)

Program Options

The School of Nursing offers:

1. Traditional Bachelor of Science in Nursing (BSN) (p. 879)
2. Bachelor of Science in Nursing (BSN) Upper-Division Transfer Program (p. 876)
3. Licensed Vocational Nurse (LVN) to Bachelor of Science in Nursing (BSN) (p. 876)
4. Licensed Vocational Nurse (LVN) to Registered Nurse (RN) (p. 876)
5. Registered Nurse (RN) to Bachelor of Science in Nursing (BSN) Degree Completion Program (p. 873)

NOTE: Students are encouraged to consult with their advisor if they have questions regarding coursework needed to meet graduation requirements.

Baccalaureate Nursing Programs At A Glance

<p>Traditional Bachelor of Science in Nursing (BSN)</p> <p>Designed primarily for recent high school graduates who will be admitted as first-year university students.¹</p> <p>Based on a cohort model, students are accepted into the program and progress through the curriculum in sequence with an assigned group of students.</p> <p>All coursework assigned to a specific semester is prerequisite for progression to the next semester.</p>	<p>BSN Upper-Division Transfer Program</p> <p>Designed for transfer students interested in pursuing a baccalaureate degree in nursing.¹</p> <p>Based on a cohort model, students are accepted into the program and progress through the curriculum in sequence with an assigned group of students.</p> <p>All coursework assigned to a specific semester is prerequisite for progression to the next semester.</p>
<p>RN to BSN Degree Completion Program</p> <p>Designed specifically for adult learners who have an RN license or are currently enrolled in an ADN program (Bridge to BSN option) and desire to complete their baccalaureate degree while continuing to work.</p> <p>Based on a field-based modular design, cohort module.</p> <p>Each student cohort has a primary advisor who provides guidance, direction, and mentorship to enrolled students.</p>	<p>LVN to BSN and LVN to RN</p> <p>Two programs are available to the Licensed Vocational Nurse (LVN): the LVN to BSN and LVN to RN (30-unit option).</p> <p>Both programs are available on a space-available basis for clinical and didactic coursework.</p> <p>Licensed Vocational Nurses are evaluated on an individual basis.</p>

¹ Once accepted into an option, students must remain in that option for the duration of the program.

Admission to the Bachelor of Science in Nursing (BSN) Programs

Admission to the university does not guarantee admission into the School of Nursing. Students interested in admission into a School of Nursing BSN program must indicate their desire on their application to the university. Students applying to the traditional BSN program should apply through the Office of Undergraduate Admissions (<https://www.apu.edu/undergraduate-admissions/>); students applying to the BSN Upper-Division Transfer Program (BSN Transfer and LVN options) or the RN to BSN program should apply through the Office of Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>).

Applicants will be reviewed by a School of Nursing Admissions Committee for possible admission into the university as well as one of the BSN programs: the traditional program, the BSN Upper-Division Transfer Program (BSN Transfer and LVN options), or the RN to BSN program.

Determinations will be made and two separate letters will be sent to applicants indicating 1) whether they have been accepted into the university and 2) whether they have been accepted into one of the BSN programs. Once accepted into a program, students must remain in that program for the duration of the nursing program.

Applicants who are not accepted into one of the BSN programs may still be admitted to the university. These applicants may consider coursework in preparation for application to the Entry-Level Master of Science in Nursing (ELM) program (p. 903), designed for students who have completed a baccalaureate degree in another major but are interested in pursuing a career in nursing.

The School of Nursing reserves the right to change the curriculum and degree requirements as deemed necessary. Refer to the School of Nursing Handbook, which includes program-specific guidelines and detailed descriptions of course and program requirements.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Utilize a Christian worldview to integrate beliefs, values, ethics, and service in personal and professional life.
2. Provide nursing care utilizing professional knowledge and core competencies (critical thinking, communication, assessment, and technical skills) derived from a foundation of nursing science, General Education, and religious studies.
3. Demonstrate initiative for continual personal and professional growth and development.
4. Act as a patient educator and advocate to promote optimal health and well-being.
5. Function independently and collaboratively, as a leader and/or member of the healthcare team, to manage and coordinate care.

Courses

RNRS 221, Health Assessment, 3 Units

This course provides the nursing student with skills in physical and psychosocial assessment of adult clients. History-taking and physical examination techniques presented in the course help the student develop strong assessment skills upon which further knowledge and practice can be built.

RNRS 272, Professional Concepts in Nursing, 4 Units

This course is designed to provide an introduction to theories, concepts and roles that help define the profession of nursing. Utilization of the nursing process to provide safe care is analyzed. Concepts of informatics, group dynamics, conflict/management, and techniques to analyze and solve problems are examined. Evidence based nursing practice is introduced through instruction in Library/data base searches.

RNRS 298, Communication and Teamwork in Patient and Family Centered Care, 3 Units

This elective course is designed to simulate and enhance clinical experiences for the inexperienced graduate licensed RN entering the RN to BSN Accelerated Degree Program. Thirty-six hours of clinical experience will be completed in a healthcare setting with a preceptor. Concepts related to communication and teamwork are emphasized.

Prerequisite: Admission requirements for admission into the RN-BSN program apply

RNRS 299, Transition to Professional Practice, 3 Units

This is a bridge course designed to be taken by inexperienced licensed RNs who are admitted to the RN to BSN program. Completion of the course provides the new RN experience with effective decision making skills related to clinical judgment and performance in the clinical setting as well as ways to incorporate evidence based interventions in the practice setting. This course includes a clinical/simulation component with participation in an online post conference discussion board.

Prerequisite: RNRS 298

RNRS 307, Theoretical Frameworks in Nursing, 3 Units

The focus of this course is exploration and integration of theoretical models in stress, development and health care adaptation as applied to nursing practice. Through writing and experiential activities the students will express a knowledge of family assessment and analysis of the family unit utilizing a variety of theoretical models.

RNRS 321, Health Assessment, 5 Units

This course develops the nursing student's history taking and assessment skills across the life span. Analysis of health data and identification of risks, including genetics and genomics in specific groups, are emphasized. Culturally sensitive interventions and evidence-based practice are discussed to reduce risk and promote health.

RNRS 327, Nursing Research and Statistics, 4 Units

This course introduces the steps in the nursing research process, with emphasis on principles and methods. Basic statistical concepts and methods of collecting, summarizing, presenting, and interpreting data for professional nurses are addressed. Current issues impacting nursing research are analyzed. Ethical considerations and rights of human subjects are explored.

Prerequisite: The RN-BSN program is designed with a specific course sequence determined by the School of Nursing. A progression schedule is reviewed by the student and advisor after program acceptance. Courses must be taken in the assigned sequence.

RNRS 358, Writing 3: Evidence-Based Practice in Nursing and Healthcare, 3 Units

The focus of this course is to integrate evidence-based clinical practice into the current healthcare systems. The student will review and evaluate the clinical and research literature for application to practice. The process of an integrative literature review and the development of writing skills specific to the discipline of nursing will be conducted. Select research designs frequently used in practice settings will be explored. Quality improvement strategies, methods and issues will be discussed and applied to practice. Meets the General Studies Writing Three requirement. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

Prerequisite: Writing 2, Current enrollment in the RN to BSN Program is required

RNRS 368, Pathophysiology, 5 Units

This course presents an introduction to alterations in health status across the life span and their applications to nursing practice. Major pathophysiologic concepts are explored using a body systems approach. Theories relating to etiology, pathogenesis, and clinical manifestations are used to study selected disease processes. Mechanisms causing alterations in cellular function and environment, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, genetics processes, and neuroendocrine control of the body are included. Concepts from anatomy and physiology courses are considered prerequisite and provide the foundation for exploring human dysfunction.

RNRS 396, Professional Practice: Ethics, Issues, and Spirituality in Health Care, 6 Units

This course focuses on the examination and application of the religious, theological, philosophical, and cultural foundations of ethics in professional nursing practice. Participants develop knowledge and skills in ethical decision making that are theoretically sound, evidence based, holistic, and applicable to current healthcare issues. The course also addresses the expanding roles and responsibilities of professional nurses in meeting the healthcare needs of a dynamic society, with attention to the spiritual formation of nurses. *Meets the General Education Requirement: UP Bible Requirement.*

Prerequisite: The RN-BSN program is designed with a specific course sequence determined by the School of Nursing. A progression schedule is reviewed by the student and advisor after program acceptance. Courses must be taken in the assigned sequence.

RNRS 412, Spiritual Formation and the Profession of Nursing, 3 Units

This course guides students as they examine and articulated the Christian worldview, which can be applied personally and to the broader issues of society. This knowledge allows the students to develop and implement an integrated approach to nursing and the common good, and formulate responses to the worldview aspect of current professional and social issues.

RNRS 448, Leadership in Health Care Settings, 6 Units

This course presents concepts of organizational and systems leadership and management. Today's health care systems related to patient safety are addressed. The content examines inter-professional teamwork and collaboration, shared decision making, and major nursing roles. The quality improvement process is investigated as to its ability to continuously improve the quality & safety of the health care system. The relationship between the health care system's effectiveness and individual performance in securing patient safety and quality outcomes are identified. Integration of EBP with clinical practice and the role of Informatics to communicate, manage knowledge, mitigate error, and support decision making are developed. Health care policy, finance, and regulatory agency/environments are examined. Ninety hours of practicum are required to establish competency in this course.

Prerequisite: Enrollment in the RN to BSN Program

RNRS 449, Theory and Practice in Community Health Settings, 6 Units

This course has two areas of focus within the community setting: the study of principles and practices involved in community health nursing and the development of skills for teaching a group of clients. The emphasis is on the role of the nurse in assessing, planning, implementing, and evaluating care of clients in a variety of community-based settings. Collaborating with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals, families, and aggregates are essential components of this course. A review of legal mandates and regulations, as well as discussion of ethical dilemmas and issues related to community-based care is included. A multiple theoretical focus that includes concepts from systems, stress, adaptation, development, and role theory is emphasized.

RNRS 458, Writing 3: Evidence-Based Practice, Theory, and Clinical Pathways, 5 Units

The focus of this course is exploration and integration of the evidence-based practice (EBP) process, including EBP implementation and critique of clinical pathways within individual organizations, and the role of informatics in health care and its importance in evidence-based practice. Theoretical nursing and nonnursing models are reviewed, with a focus on examining how theoretical principles are reflected in professional practice. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

RNRS 469, Improving Patient Outcomes: Quality, Safety, and Risk Management, 5 Units

The focus of this course is the implementation of quality and safety mechanisms into clinical practice to improve patient outcomes. Utilizing national standards for quality and safety in health care, students examine initiatives necessary to improve patient outcomes. Concepts of informatics, patient-centered care, leadership, inter- and intraprofessional teamwork, collaboration, and communication are addressed.

RNRS 479, Population Health and Public Health Nursing, 4 Units

This course focuses on population-based public health nursing practice. The assessment of systematic differences in outcomes across populations, including the complexity of interactions among health determinants (such as social environment, resource allocation, and biological pathways), provides the foundation for public health nursing practice. Exploration of how these determinants exert their influence over time and throughout the life cycle, with variations in their patterns of occurrence (including health inequities and inequalities), is central to the course. The role of the public health nurse in assessing and understanding health systems and the health status of a population is emphasized.

Corequisite: RNRS 482P

RNRS 480, Community Health and Care Transitions, 4 Units

This course builds on the concepts of population health and public health nursing and describes the interaction of the nurse and the client in the home and in the community. Given an assessment of a community's priority health needs, students use course content to identify change-agent functions to promote and preserve health and to prevent disease and disability. All levels of prevention for the individual, family, and community system are addressed as community health nursing interventions. Course topics include the role of community health nursing in supporting care transitions across varied clinical and community settings, legal and regulatory considerations, and ethical issues related to community health.

Prerequisite: RNRS 479;

Corequisite: RNRS 482P

RNRS 482P, Clinical Practicum, 2 Units

This course is the clinical component to RNRS 479 Population Health and Public Health Nursing and RNRS 480 Community Health and Care Transitions. The focus of this course is on students implementing the systematic assessment of a community health population and creating an intervention that supports health promotion and disease prevention. Students develop a strategy for change, guided by epidemiological evidence and an understanding of the complex determinants of health, for implementation in collaboration with community resources and other health professionals. *Meets the General Education Requirement: Integrative and Applied Learning.*

Corequisites: RNRS 479 and RNRS 480

RNRS 495, Special Topics in Nursing, 1-4 Units

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development and/or to develop a particular project. This course may be repeated for credit as the topic varies.

RNRS 497, Ethics and Issues in Health Care, 4 Units

This course focuses on the integration of Christian faith, ethical issues, and professional concerns, which confront nurses in their work life. It also includes consideration of issues and trends in health care and nursing. Integration of such concerns as providers of health care, education of the health care professional, and consumerism with ethical concerns are investigated. This course also contains a comprehensive paper written on a bioethical issue, which meets the senior writing requirement. Each week there is a discussion period around ethical concerns, which correlates to the material presented in class.

RNRS 499, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between and designed by a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

UNRS 105, Foundations in Professional Nursing/Aging, 6 Units

Lecture 3 units; Clinical practicum 3 units (135 hours/semester) This course focuses on the nursing process and introductory concepts crucial to professional nursing care, including interviewing, wellness, health promotion, and illness prevention. The clinical practicum includes application of concepts and acquisition of nursing knowledge and skills needed to provide healthcare to the healthy aging and hospitalized adult and aging client utilizing the nursing process to plan care based on human needs, problems of immobility, and pain.

Special Fee Applies

Prerequisite: Acceptance into the Nursing Program.

Corequisite: UNRS 105P (Practicum)

UNRS 105P, Foundations in Professional Nursing - Practicum, 0 Units

UNRS 105 Clinical Practicum

Corequisite: UNRS 105; Acceptance into the nursing program

UNRS 106, Foundations of Professional Nursing/Aging, 6 Units

This course focuses on the nursing process and introductory concepts crucial to professional nursing care, including interviewing, wellness, health promotion, and illness prevention. The clinical practicum includes application of concepts and acquisition of nursing knowledge and skills needed to provide health care to the healthy aging and hospitalized adults and aging, utilizing the nursing process to plan care based on human needs, problems of immobility, and pain.

Corequisite: UNRS 106P

UNRS 106P, Foundations of Professional Nursing/Aging Practicum, 0 Units

UNRS 106 Clinical Practicum

Corequisite: UNRS 106

UNRS 107, Foundations of Professional Nursing, 4 Units

This course focuses on the nursing process and introductory concepts crucial to professional nursing care, including interviewing, wellness, health promotion, and illness prevention. The clinical practicum includes application of concepts and acquisition of nursing knowledge and skills utilizing the nursing process to plan and provide care based on human needs, problems of immobility, and pain.

Corequisite: UNRS 107P

UNRS 107P, Foundations of Professional Nursing Practicum, 0 Units

This is the Practicum component of the Foundations of Professional Nursing course.

Corequisite: UNRS 107

UNRS 108, Fundamentals in Nursing Practice, 2 Units

This is an experiential learning course designed to teach basic nursing skills in a clinical skills or simulation laboratory setting to prepare students to deliver safe and patient-focused nursing care. Utilizing the nursing process, students perform basic skills in assessment, patient care across the admission-discharge continuum, documentation, patient-family teaching, and infection control.

UNRS 113, Pharmacology, 2 Units

Lecture, 2 units This course is designed for students who have completed organic chemistry, inorganic chemistry, and biochemistry. The content focuses on principles of pharmacology and specifics of the major drug classifications.

Prerequisite: Acceptance into the nursing program

UNRS 120, Fundamentals of Human Nutrition, 3 Units

This lecture course focuses on principles of human nutrition, including nutrient functions, metabolism, and changing needs across the life span. Students also explore nutrient deficiency and toxicity signs and symptoms, along with implications of a poor diet on the development of chronic disease. Various nutrient analysis methods are used.

UNRS 212, Nursing Care of Adults and the Aging, 6 Units

This course involves application of biological, psychosocial, and spiritual concepts to adult and aging clients experiencing the stress of an acute or chronic alteration in physical health within the medical surgical setting. The nursing process is utilized to provide care to one or two clients within the healthcare delivery system of an acute hospital, skilled nursing facility, or transitional care unit, and extending to the community. Lecture: 3 units; clinical practicum: 3 units (135 hours/semester).

Special Fee Applies

Acceptance into the nursing program; corequisite: UNRS 212P.

UNRS 212P, Nursing Care Of Adults/Aging Practicum, 0 Units

UNRS 212 Clinical Practicum

Corequisite: UNRS 212

UNRS 220, Health Assessment, 3 Units

Lecture, 2 units; Laboratory, 1 unit (45 hours): This course provides the nursing student with skills in physical, spiritual, and psychosocial assessment of adult clients. History-taking and physical-examination techniques presented in the course help the student develop strong assessment skills upon which further knowledge and practice can be built. Basic concepts related to assessment of geriatric, pediatric, and childbearing patients are included. RNs take this course in the summer.

Special Fee Applies

Corequisite: UNRS 220L; Must be accepted into the Nursing Program.

UNRS 240, Medical Spanish, 2 Units

This medical Spanish class is designed especially for nursing. Practical Spanish communication in real-life medical situations for beginners is emphasized. Pronunciation, intonation, and structure of Spanish within a framework designed to develop basic listening, speaking, reading and writing skills will be taught. Special cultural presentations supplement language study.

UNRS 260, Nutrition, 2 Units

Students in this lecture course explore the foundations of nutrition in the prevention of chronic disease. Course material covers the pathophysiology of various disease states and appropriate medical nutrition therapy, as well as nursing's role in nutrition assessment with respect to patient weight change, intake adequacy, gastrointestinal symptoms affecting nutrient absorption, and activities of daily living. Students perform dietary recalls, nutrient analyses, and anthropometric assessments, and learn about evidence-based nutrition care for gastrointestinal diseases, cardiovascular diseases, diabetes, metabolic syndrome, energy balance and weight control, bone disease, and renal disease. Through case studies, students learn about alternate feeding methods and issues surrounding drug/nutrient interactions. Students also have opportunities to educate the community through presentations on the prevention of disease through nutrition.

Prerequisite: CHEM 123 or PRCH 123 or department approval if a non-nursing major

UNRS 270, Professional Concepts in Nursing, 3 Units

This course provides an introduction to the theories and concepts of professional nursing. The nursing process is presented and utilized as the basis for planning quality and safe patient care in various healthcare settings. Current issues and trends in nursing are discussed, the role of nursing in the health care delivery system, and concepts of evidence-based practice, informatics, group dynamics, conflict/management, and techniques to analyze and solve problems are examined.

Prerequisite: Acceptance into the nursing program

UNRS 271, Theories and Concepts in Professional Nursing, 2 Units

This course provides an introduction to the theories and concepts of professional nursing. The nursing process is presented and utilized as the basis for planning care as applied to patients. The content also includes discussion of current issues and trends in nursing and compilation of a professional portfolio.

Prerequisite: Acceptance into the nursing program

UNRS 280, Life Cycle Nutrition, 3 Units

This lecture course examines nutrient needs of individuals throughout various life stages: preconception, pregnancy, lactation, infancy, preschool years, middle childhood, pre-adolescence, adolescence, adulthood, and late adulthood. Students learn the changing nutrient requirements through the life cycle and apply this knowledge through special topic presentations and in the development of teaching tools that can be used for public education audiences. This is a service-learning course.

Prerequisite: BIOL 101, CHEM 123, PSYC 290, and UNRS 120

UNRS 281, Introduction to Global Health Care, 1 Unit

This course uses a seminar or online format to introduce students to major aspects of the global healthcare experience, such as developing an understanding of the expectations and responsibilities related to international travel, an appreciation of other cultures, their integration into another culture, their in-country experience, and their re-entry into their home country.

UNRS 282, Transcultural Health Care: Country Specific, 2-4 Units

Students in this course participate in a short-term study-away nursing experience in order to begin understanding theoretically based transcultural healthcare practices. A seminar format is utilized to stimulate discussion regarding health-related issues specific to the geographical area of study and to assist students in the formulation of personal perspectives and individual cultural values that promote high-quality professional nursing practice worldwide. Students participate as members of a healthcare team in a variety of nursing-specific learning opportunities. Lecture, 1 unit; clinical practicum, 1-3 units (45-135 hours/semester).

Special Fee Applies

UNRS 282P, Transcultural Health Care: Country Specific- Practicum, 0 Units

UNRS 282 Clinical Practicum

Prerequisite: UNRS 105, UNRS 113, UNRS 220; Corequisite UNRS 282

UNRS 105, UNRS 113, UNRS 220; Corequisite UNRS 282

UNRS 299, Statistics and Data Management for Nursing and Health Care, 3 Units

This course covers basic statistical concepts and methods of collecting, summarizing, presenting, and interpreting data for professional nurses and students pursuing healthcare professions. Among the topics covered are graphing, measures of central tendency and variability, the normal curve, hypothesis testing, correlation and regression, and topics in probability that can be applied in real-world situations. *Meets the General Education Requirement: Quantitative Literacy (Math).*

Prerequisite: MATH 95 or an appropriate score on the APU mathematics proficiency exam or SAT Math score of 540 or ACT Math score of 23.

Admission to the School of Nursing, or Pre-Admitted Nursing status and admission to the Honors College.

UNRS 300, Complementary and Alternative Therapies: Herbs, Supplements, and Nutrition, 3 Units

This course provides an introduction to therapies currently used as complements to Western medicine. Emphasis is on naturopathic medicine and biologically based therapies such as foods, special diets, herbal remedies, and dietary supplements. The course reviews potential risks and interactions between conventional and complementary and alternative therapies. The course examines agencies devoted to informing and protecting consumers and health care practitioners.

Prerequisite: BIOL 101 or BIOL 151, and CHEM 123. Instructor permission required if non-nursing major.

UNRS 306, Writing 2: Theoretical Frameworks in Nursing, 3 Units

Students in this course learn to utilize a variety of genres of scientific writing while exploring, integrating, and applying theoretical models of stress, development, and health care adaptation to nursing practice. Students examine writing samples from various methodological perspectives and practice a variety of writing styles and forms of argument considered persuasive in the sciences. They also develop basic proficiency in the use of APA style.

Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.

Prerequisite: C- or better in PRWR 110; acceptance into the nursing program.

UNRS 310, Mental Health Nursing, 4 Units

Lecture 2 units, Clinical practicum 2 units (90 hours); This theoretical and clinical course focuses on the dynamics of psychosocial stress within the interpersonal and intrapersonal systems of patients with acute and chronic psychiatric disorders. Short-term evaluation and treatment experiences are offered utilizing milieu, individual, group, and family therapy.

Special Fee Applies

Corequisite: UNRS 310P; Must be accepted into the Nursing Program

UNRS 310P, Mental Health Nursing Practicum, 0 Units

UNRS 310 Clinical Practicum

Prerequisite: Co-Requisite: UNRS 310

UNRS 312, Nursing Management of Adults, 3 Units

Lecture, 1 unit; Clinical practicum, 2 units (90 hours/semester); This course continues the application of biological, psychosocial, and spiritual concepts to adult and aging clients experiencing the stress of an acute or chronic alteration in physical health within the medical surgical setting. Emphasis is on the application of concepts of pathophysiology and pharmacology to the nursing management of acute and chronically ill patients in the medical-surgical setting.

Special Fee Applies

Corequisites: UNRS 312P, UNRS 313 and UNRS 313P; Must be accepted into the Nursing Program.

UNRS 312P, Nursing Management of Adults Practicum, 0 Units

UNRS 312 Clinical Practicum

Corequisites: UNRS 312, UNRS 313 and UNRS 313P

UNRS 313, Restorative Nursing, 4 Units

Lecture 2 units; Clinical practicum 2 units (90 hours/semester); This course focuses on the care of an adult or geriatric client with a chronic health problem. The mental health and spiritual concepts are emphasized. Students are assigned to a rehabilitation or restorative setting.

Special Fee Applies

Corequisites: UNRS 312, UNRS 312P and UNRS 313P; Must be accepted into the Nursing Program

UNRS 313P, Restorative Nursing Practicum, 0 Units

UNRS 313 Clinical Practicum

Corequisites: UNRS 312, UNRS 312P and UNRS 313

UNRS 314, Nursing Management and Restorative Care of Adults, 6 Units

This course builds on prior knowledge of biological, psychosocial, and spiritual concepts to help adult and aging clients experiencing the stress of an acute or chronic alteration in physical health. Emphasis is on the application of concepts of pathophysiology and pharmacology to the nursing management of acute and chronically ill patients in medical-surgical and rehabilitative or restorative settings.

Corequisite: UNRS 314P

UNRS 314P, Nursing Management and Restorative Care of Adults Practicum, 0 Units

UNRS 314 Clinical Practicum

Corequisite: UNRS 314

UNRS 320, Cultural Aspects of Food and Nutrition, 3 Units

Students in this course examine the foodways of people around the world, exploring the health benefits and practices of various cultures, along with how the industrialization of food influences nutrition content and pricing of food. Course material also covers the effects of famine on life expectancy and how one's environment or living situation limits access to food. A food lab is included, giving students an opportunity to prepare, taste, and realize a country's particular etiquette practices when dining. Course requires field trips. This is a service-learning course.

Prerequisite: UNRS 120, SOC 358, GLBL 201; GLBL 260 or COMM 260

UNRS 367, Pathophysiology, 3 Units

Lecture, 3 hours: This course presents an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiological disorders are emphasized.

Prerequisite: Acceptance into the nursing program

UNRS 382, Community Health Nursing, 3 Units

This course focuses on the study of principles and practices involved in community health nursing, with emphasis on the role of the nurse in assessing, planning, implementing, and evaluating care of clients in a variety of community-based settings. Collaboration with community-based organizations and services that provide health promotion, disease prevention, maintenance during chronic illness, and client education services to individuals, families, and aggregates is an essential component of this course. A review of legal mandates and regulations specific to community-based care, analysis of the healthcare needs within a community, and exploration of issues such as liberty, equality, terrorism, crisis, and disasters are included. Lecture, 1 unit (1 hour/week); clinical practicum, 2 units (90 hours/semester). *Meets the General Education Requirement: Civic Knowledge and Engagement.*

Special Fee Applies

Prerequisite: Acceptance into the Nursing Program;

Corequisite: UNRS 382P

UNRS 382P, Community Health Nursing Practicum, 0 Units

UNRS 382 Clinical Practicum

Corequisite: UNRS 382

UNRS 383, International Health Nursing, 3-5 Units

This course focuses on clinical observation of and participation in international healthcare settings, using a cross-cultural educational experience to give students a global perspective of healthcare issues. Students develop intercultural competence as they engage with people from diverse cultures with compassion and respect, and foster a commitment to global service, scholarship, and boundary-crossing community. Lecture, 1 unit; clinical practicum, 2-4 units. *Meets the General Education Requirement: Intercultural Competence.*

Special Fee Applies

Acceptance into the nursing program; corequisite: UNRS 383P.

UNRS 383P, International Health Nursing Practicum, 0 Units

Lecture 1 Unit - Clinical Practicum 2-4 units: This course focuses on clinical observation and participation in international health care settings. The purpose is to broaden the student's worldview through a cross-cultural educational experience and to provide a global perspective of healthcare issues. In addition, it will provide opportunities to develop intercultural competence and foster a commitment to global service, scholarship, and boundary-crossing community.

Prerequisite: Acceptance into the nursing program

UNRS 384, Urban/Rural Health Nursing, 3-5 Units

This course focuses on clinical observation of and participation in urban/rural healthcare settings, using a cross-cultural educational experience to give students a broader perspective of healthcare issues. Students develop intercultural competence as they engage with people from diverse cultures with compassion and respect, and foster a commitment to service, scholarship, and boundary-crossing community in vulnerable urban/rural populations.

Lecture, 1 unit; clinical practicum, 2-4 units. *Meets the General Education Requirement: Intercultural Competence.*

Acceptance into the nursing program; corequisite: UNRS 384P.

UNRS 384P, Urban Health Nursing Practicum, 0 Units

Lecture 1 Unit - Clinical Practicum 2-4 units: This course focuses on clinical observation and participation in urban health care settings. The purpose is to broaden the student's worldview through a cross-cultural educational experience and to provide a global perspective of healthcare issues. In addition, it will provide opportunities to develop intercultural competence and will foster a commitment to service, scholarship, and boundary-crossing community in vulnerable urban populations.

Prerequisite: Acceptance into the nursing program

UNRS 386, Population and Community Health Nursing, 6 Units

This course focuses on population-based public health and community health nursing practice. The purpose is to broaden the student's worldview through a cross-cultural educational experience and gain a more global perspective of complex health care issues through civic engagement and collaboration with various clinical settings, community-based and global health care organizations that provide health promotion, disease prevention, maintenance, and support care transitions during chronic illness. All levels of prevention for the individual, family, and community systems are addressed through population-based public health and community health nursing assessment, evaluation, and interventions including client education services to individuals, families and aggregates from diverse cultures. *Meets the General Education Requirement: Intercultural Competence, Civic Knowledge and Engagement.*

Special Fee Applies

Corequisites: UNRS 386P

UNRS 386P, Population and Community Health Nursing Practicum, 0 Units

This course focuses on population-based public health and community health nursing practice. The purpose is to broaden the student's worldview through a cross-cultural educational experience and gain a more global perspective of complex health care issues through civic engagement and collaboration with various clinical settings, community-based and global health care organizations that provide health promotion, disease prevention, maintenance, and support care transitions during chronic illness. All levels of prevention for the individual, family, and community systems are addressed through population-based public health and community health nursing assessment, evaluation, and interventions including client education services to individuals, families and aggregates from diverse cultures.

Corequisites: UNRS 386

UNRS 402, Nursing Care in Maternal, Newborn, and Women's Health, 4 Units

Lecture, 2 units; Clinical practicum, 2 units (90 hours/semester): This course focuses on the theoretical and clinical concepts of the childbearing patient, her infant, and her family. The students study both normal and complicated obstetrics. Birth preparation, prenatal care, intrapartal, normal neonatal, and postpartum care with concurrent clinical experiences are introduced.

Special Fee Applies

Corequisite: UNRS 402P; Must be accepted into the Nursing Program.

UNRS 402P, Nursing Care in Maternal, Newborn, and Women's Health Practicum, 0 Units

UNRS 403, Leadership and Management in Professional Practice, 2 Units

Theory, 2 hours. This course emphasizes leadership and management theory in a number of applications and health care settings. It assists the upcoming graduate in adjusting to various organizations encountered by professional nurses serving in a variety of roles. Core concepts relevant to the health care settings are presented with an emphasis on critical thinking, character development and leadership competencies, quality outcomes, and safety goal achievement for optimal patient care.

Prerequisite: Acceptance into the Nursing Program. Note: Per the progression schedule for the Traditional BSN program students, UNRS403 is taken in the same semester as UNRS404/404P and UNRS402/402P.

UNRS 404, Nursing Care of Children and Young Adults, 4 Units

Lecture, 2 units; Clinical practicum, 2 units (90 hours/semester): This theoretical and clinical course focuses on the care of children from birth through adolescence. The effects of acute and chronic illness on growth and development are studied in the acute and community health care setting. Education of the child and family on health promotion, disease prevention, and safety issues are addressed. Ethical issues are discussed regarding the relationship of the child and family, including issues such as child abuse, informed consent, and the impact of diverse cultural and spiritual beliefs on health care decisions in the family.

Special Fee Applies

Corequisites: UNRS404P; Must be accepted into the Nursing Program. Note: Per the progression schedule for the Traditional BSN program students, UNRS403 is taken in the same semester as UNRS404/404P and UNRS402/402P.

UNRS 404P, Nursing Care of Children and Young Adults Practicum, 0 Units

UNRS 411, Advanced Nursing Care of Adults and the Aging, 5 Units

This course involves the application of pathophysiological, psychosocial, and spiritual concepts to adult and geriatric clients experiencing the stress of illness in acute settings. The area of focus is caring for critically ill clients and their families with complex health needs in a critical-care setting. Legal and ethical issues related to acute care are included. Lecture, 2 units; clinical practicum, 3 units (135 hours/semester).

Special Fee Applies

Corequisite: UNRS 411P

UNRS 411P, Advanced Nursing Care of Adults & Aging - Practicum, 0 Units

UNRS 412, Clinical Residency Nursing, 2 Units

This clinical residency is an experiential component designed as a collaborative partnership between the School of Nursing and selected healthcare settings. This residency is planned to ease the role transition from a student nurse to a beginning professional nurse. In addition, it enhances the skill and practice knowledge of the student in preparation for the NCLEX-RN examination. Clinical practicum, 90 hours/semester. *Meets the General Education Requirement: Integrative and Applied Learning.*

Corequisites: UNRS 411 and UNRS 411P

UNRS 414, Advanced Nursing Care of Adults, 6 Units

This course involves the application of pathophysiological, psychosocial and spiritual concepts to adult and geriatric clients experiencing the stress of acute illness. The primary focus is on caring for and managing care of critically ill clients and their families with complex health needs in a critical care setting. Throughout the semester, students prepare for transition to practice as they become more independent and proficient in communicating with and leading the healthcare team. *Meets the General Education Requirement: Integrative and Applied Learning.*

Corequisite: UNRS 414P

UNRS 414P, Advanced Nursing Care of Adults Clinical Practicum, 0 Units

This course is the Clinical Practicum component of the Advanced Nursing Care of Adults course.

Corequisite: UNRS 414

UNRS 425, Nursing Research, 3 Units

Lecture, 3 units: This course introduces the steps in the research process. Emphasis is placed on the principles and methods of the research process, including how this process contributes to the development of nursing knowledge and the improvement of nursing practice. This historical evolution of nursing research is examined and current issues impacting nursing research are analyzed. Ethical considerations and rights of human subjects are explored. Students have the opportunity to evaluate selected nursing studies throughout the semester in small groups with faculty input and guidance.

Prerequisite: UNRS 299; Must be accepted into the Nursing Program.

UNRS 436, Fundamentals of Case Management, 3 Units

Theory, 2 units; Practicum, 1 unit: This is an introductory course for senior-level students covering the principles of case management, roles and responsibilities of the case manager, case management tools, plans and methods, issues (including legal ones), and how case management improves patient and hospital outcomes. It is designed to give an overview of what case management is and how a nurse can utilize these tools and skills to advance clinical practices. It is an elective course.

Special Fee Applies

Prerequisite: Acceptance into the Nursing Program.

Corequisite: UNRS 436P (Practicum)

UNRS 436P, Fund of Case Mgmt Practicum, 0 Units

UNRS 444, Clinical Specialization Elective, 1-2 Units

This is a clinical specialty course involving a collaborative partnership with selected community healthcare organizations, an intensive preceptored experience that eases the role transition from student nurse to beginning professional nurse in a specialized setting. This course also enhances the skill and practice knowledge of students in preparation for the RN licensing examination.

Prerequisite: One of the following: UNRS 310 (for mental health nursing), UNRS 382 (for community health), UNRS 402 (for obstetrics), or UNRS 404 (for pediatrics). If taken for two units, instructor consent is required.

Corequisite: UNRS 411

UNRS 445, Applied Pharmacology, 2 Units

This course enhances students' ability to apply knowledge acquired in the basic pharmacology course by helping them utilize critical thinking skills at a more advanced level. Emphasis is on the application of pharmacokinetics, pharmacodynamics, and pharmacotherapeutics of major drug categories used to manage common patient disorders across the life span in clinical nursing practice.

Prerequisite: Acceptance into the nursing program

UNRS 495, Special Topics in Nursing, 1-4 Units

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development, and/or to develop a particular project. May be repeated for credit as the topic varies.

Prerequisite: Acceptance into the nursing program

UNRS 496, Writing 3: Ethics and Issues in Health Care, 4 Units

This course focuses on the integration of Christian faith, ethical concerns, and issues and trends in health care that nurses encounter in their work life. Students develop their abilities as independent thinkers in order to construct bodies of knowledge, and communicate what they are learning through reading, dialogue, debate, peer critique, presentations, and the development and refinement of written pieces. The capstone project for this course is a comprehensive research paper and formal presentation demonstrating scholarship and readiness to contribute to the nursing profession. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

Special Fee Applies

Prerequisite: Senior standing in the School of Nursing; UNRS 306

UNRS 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between and designed by a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

UNRS 498, Directed Research, 1-4 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.

Prerequisite: Junior or Senior Standing

UNRS 499, Thesis/Project, 1-4 Units

This is a senior-level "capstone" type of independent study/research experience, involving the student in a unique project with a sophisticated level of research, synthesis, analysis, and communication. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying readings, log, instructor discussions, and writing of summary analysis and conclusions. The thesis or project may result in formal thesis, published article, or electronic media. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.

Prerequisite: Upper-division writing intensive course or instructor consent; and junior or senior standing

Department of RN to BSN

The RN to BSN (p. 874) degree completion program offers an alternative to the traditional method of pursuing a college nursing degree. The program is designed for adult learners who have an RN license or are enrolled in an accredited associate's degree in nursing (ADN) program and desire to complete a Bachelor of Science in Nursing (BSN). The program is a field-based modular design, delivered to cohort groups. Each student has an advisor who provides system guidance, directs special projects, and serves as mentor to individual learners.

Prospective students include registered nurses (RNs) working in hospitals and other areas of health care, as well as students enrolled in accredited ADN programs at community colleges.

The Bridge to BSN (<https://www.apu.edu/nursing/programs/bridge-to-bsn/>) option is designed for ADN students enrolled at a community college who wish to get an early start on coursework for the Bachelor of Science in Nursing (BSN) degree. BSN coursework is offered during summer sessions. After completion of their ADN program, students will complete remaining coursework to obtain their BSN from Azusa Pacific University. Admission requirements for the RN to BSN program must be met and the RN license obtained prior to taking upper-division clinical courses.

The RN to BSN Integrative Enrollment Pathway (p. 875) option is a BSN completion program offered only with select contracted community college ADN programs. Students who are formally admitted into ADN programs may apply for this BSN completion program in which they will start coursework as an APU student in semester one of their ADN program, taking courses concurrently with APU and the community college ADN program. This accelerated program allows students to complete the ADN from their community college *and* complete the BSN degree within two semesters of graduation from the ADN program.

The accelerated RN to BSN program is based on the same philosophy, purposes, graduate characteristics, and conceptual framework as the traditional undergraduate program. However, in recognition of the special needs and skills of the working adult, the curriculum is packaged to accommodate the adult student. The nursing courses are presented in sequence in a modular arrangement of content. Courses are designed to affirm personal and professional strengths. The teaching/learning process is collaborative—the experiences and insights that student contribute are a vital part of class activities.

Students join cohorts and progress through the courses together. Courses are taught sequentially, and the rich diversity of experiences that students contribute results in lively discussions involving shared experiences. Because students often stay with the same group throughout the program, they develop a strong rapport with other group members who act as a support system through the completion of the degree.

Classes are offered in an asynchronous online program.

Students may complete a BSN degree in approximately 15 months. In this accelerated format, a 40-semester-unit curriculum is concentrated into 60 weeks.

Admission Requirements for RN to BSN Students

A minimum of 120 semester units of credit are required for the BSN. To be admitted to the 60-week accelerated RN to BSN program, a student must:

1. Provide a copy of RN license in good standing before starting clinical courses.
2. Graduate from an accredited associate degree program or diploma nursing program.
3. Have a minimum of 70 transferable semester units from an accredited college or university with a minimum GPA of 3.0 (2.7 GPA and above considered for provisional admission; 60-69 transferable semester units considered for provisional admission).
4. Submit official transcripts from all schools attended.
5. Provide two letters of recommendation.

Admission Requirements for Bridge to BSN Students

A minimum of 120 semester units of credit are required for the BSN. To be admitted to the sequential enrollment, a student must:

1. Be currently enrolled in an accredited ADN program.
2. Have a minimum GPA of 3.0 (2.7 GPA and above considered for provisional admission).
3. Submit official transcripts from all schools attended.
4. Provide two letters of recommendation.

The program is not recommended for students who lack proficiency in basic academic skills, especially collegiate-level English communication skills.

International applicants with an F or J visa are not qualified for this program. International applicants with any other type of visa should consult with International Student Compliance (<https://www.apu.edu/international/compliance/>) first at +1-626-812-3055 or issimmigrationsvcs@apu.edu.

Admission Requirements for BSN Integrative Enrollment Pathway Students

Students who apply through the integrative enrollment pathway option must be formally accepted into a contracted community college ADN program. For the application, students need to supply unofficial transcripts, verification of acceptance into their ADN program, a personal statement, and student-information-sharing agreement. Once accepted, a progression schedule is reviewed by the student and the advisors, and courses must be taken in the assigned sequence. Students already enrolled in an ADN program do not qualify for integrative enrollment and should apply for the Bridge to BSN program. Students are required to complete 120 semester units of credit for the BSN, and official transcripts are required from all schools attended.

Programs

RN to BSN Degree Completion Program

40 units

Requirements

The RN to BSN degree completion program (<https://www.apu.edu/nursing/programs/rn-to-bsn/>) (also available online) comprises the following:

Note: A total of 120 units is required to complete the BSN degree.

Code	Title	Units
Prerequisite Courses ¹		
Accelerated RN to BSN Courses		
RNRS 321	Health Assessment	5
RNRS 327	Nursing Research and Statistics	4
RNRS 368	Pathophysiology	5
RNRS 396	Professional Practice: Ethics, Issues, and Spirituality in Health Care ²	6
RNRS 458	Writing 3: Evidence-Based Practice, Theory, and Clinical Pathways ³	5
RNRS 469	Improving Patient Outcomes: Quality, Safety, and Risk Management	5
RNRS 479	Population Health and Public Health Nursing	4
RNRS 480	Community Health and Care Transitions	4
RNRS 482P	Clinical Practicum ⁴	2
Total Units		40

¹ Students need a minimum of 70 units of transfer credits to complete the RN-BSN degree program.

² Meets the General Education Upper-Division Bible requirement.

³ Meets the General Education Writing 3 requirement

⁴ Meets the General Education Integrative and Applied Learning requirement.

BSN Integrative Enrollment Pathway Option

The 40-unit RN to BSN Integrative Enrollment Pathway (p. 875) option allows students to begin RN to BSN program coursework during their first semester of nursing school in an external Associate's Degree in Nursing (ADN) program; this is in contrast to the RN to BSN bachelor's completion program (for students who have graduated from an ADN program) and the Summer Bridge Option (for students enrolled in an ADN program who begin degree completion courses during the summer). Integrative-enrollment students must be formally accepted into an ADN program in order to apply and must maintain a 3.0 GPA during their combined coursework.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Utilize a Christian worldview to integrate beliefs, values, ethics and service in personal and professional life.
2. Provide nursing care utilizing professional knowledge and core competencies (critical thinking, communication, assessment and technical skills) derived from a foundation of nursing science, general education and religious studies.
3. Demonstrate initiative for continual personal and professional growth and development.

4. Act as a patient and family educator and advocate to promote optimal health and well-being.
5. Function independently and collaboratively, both as a leader and/or member of a health care team to manage and coordinate care.

RN to BSN Integrative Enrollment Pathway

The 40-unit RN to BSN Integrative Enrollment Pathway option allows students to begin RN-BSN program coursework during their first semester of nursing school at an external Associate's Degree in Nursing (ADN) program; this is in contrast to the RN-BSN bachelor's completion program (for students who have graduated from an ADN program) and the Summer Bridge Option (for students enrolled in an ADN program who begin degree completion courses during the summer). Integrative Enrollment students need to be enrolled in an ADN program and must maintain a 3.0 GPA during their combined coursework.

Students apply for the integrative enrollment pathway after they have applied and are formally accepted into a contracted community college ADN program. Once a student is formally admitted to their ADN program, the student may then apply to the integrative enrollment pathway program at APU. For the application, students will need to supply unofficial transcripts, verification of acceptance into their ADN program, personal statement, and student information sharing agreement. Once accepted, a progression schedule is reviewed by the student and the advisors, and courses must be taken in the assigned sequence. Students already enrolled in an ADN program do not qualify for integrative enrollment and should apply for the Bridge to BSN program. Official transcripts are required from all schools attended.

Department of Upper-Division BSN Transfer

The School of Nursing offers several professional programs at the baccalaureate level designed for students who bring previous experience and learning and want to advance their nursing career and complete their degree. The BSN Upper-Division Transfer Program provides options for students with at least 48 units of transferable nursing prerequisite courses or Licensed Vocational Nurses (LVNs) to complete coursework that leads to a Bachelor of Science in Nursing.

BSN Upper-Division Transfer Program Options

- The BSN Transfer Option (p. 876) is designed for transfer students interested in pursuing a Bachelor of Science in Nursing (BSN). The program enables students with at least 48 units of transferable nursing prerequisite courses to complete the nursing major in six consecutive semesters (two years, including summers) at APU.
- LVN Options: APU's School of Nursing offers two programs for the licensed vocational nurse (LVN)—the LVN to BSN Option (p. 876) and LVN to RN 30-Unit Option (p. 876). The School of Nursing acknowledges that licensed vocational nurses acquire formal nursing training, continuing education units, and on-the-job experiences (including military experiences) that may be assessed for academic credit. The Council for Adult and Experiential Learning (CAEL) (<https://www.cael.org/>) guidelines and the American Council on Education (ACE) (<https://www.acenet.edu/Pages/default.aspx>) are used to ensure a responsible evaluation. Students are evaluated individually. Open enrollment is available for the fall, spring, and summer semesters.

Upper-Division BSN Transfer and LVN Options

Admission Requirements for the BSN Upper-Division Transfer and LVN-to-BSN Programs

BSN Upper-Division Transfer (<https://www.apu.edu/nursing/programs/bsn-transfer/>) and LVN to BSN (<https://www.apu.edu/nursing/programs/lvn-to-bsn/>) applicants must meet the following admission requirements:

1. Submit an application to Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) indicating interest in becoming a nursing major and pursuing the BSN degree. Include in the application the following information:
 - a. Official college transcripts for all colleges attended
 - b. Two letters of recommendation
 - c. A one-page statement of professional goals in nursing
 - d. A résumé reflecting volunteer and paid work experience within the past three years. Please include leadership positions held within volunteer organizations, community service experience, and/or employment where applicable
 - e. LVN applicants must include a copy of their current LVN license
2. Submit evidence of a minimum of 48 college or university semester units of transferable nursing prerequisite course requirements prior to the semester in which the student is requesting admission. See list of courses below.
3. Submit proof of achieving a minimum cumulative college or university grade-point average of *B* (3.0) or better.
4. Successfully complete Human Anatomy with lab (4 units), Chemistry with lab (4 units), Human Physiology (4 units), and General Microbiology with lab (4 units) with no lower than a *B-* (2.7) grade-point average.
5. Provide a writing sample that demonstrates written communication skills.
6. Candidates are considered for admission into the program once they have completed the prerequisite coursework and progress through the curriculum in a predetermined sequence with an assigned group of students (cohort model). All nursing coursework assigned to a specific semester is prerequisite for progression to the next semester.
7. Eligible candidates may be interviewed by the program director and reviewed by the admissions committee.
8. Candidates accepted into the program will be notified by the admissions representative and assigned to the appropriate semester.
9. An acceptance letter will be mailed to the candidate from the School of Nursing.

Course Requirements and Sequences

All undergraduate nursing programs are designed with a specific course sequence that is determined by the School of Nursing. When each student is accepted into a program, a progression schedule is reviewed by the student and the advisor. Courses must be taken in the assigned sequence. Admission is based on a cohort model.

The Upper-Division BSN Transfer Program is based on a cohort model. Students complete the required 48 units of prerequisite coursework, then begin nursing coursework in the fall, spring, or summer semester and continue in sequence for three consecutive semesters per year.

Prerequisite Coursework

Code	Title	Units
Prerequisite Nursing Requirements		
BIOL 220	General Microbiology	4
BIOL 200	Human Anatomy for Nursing ¹	4
BIOL 210	Human Physiology for Nursing ²	4

UNRS 402 & 402P	Nursing Care in Maternal, Newborn, and Women's Health and Nursing Care in Maternal, Newborn, and Women's Health Practicum	4 (2/2)
UNRS 403	Leadership and Management in Professional Practice	2
UNRS 404 & 404P	Nursing Care of Children and Young Adults and Nursing Care of Children and Young Adults Practicum	4 (2/2)
UNRS 414 & 414P	Advanced Nursing Care of Adults and Advanced Nursing Care of Adults Clinical Practicum	6 (2/4)
UNRS 425	Nursing Research	3
UNRS 445	Applied Pharmacology	2
UNRS 496	Writing 3: Ethics and Issues in Health Care ⁶	4
TOTAL UNITS		72

¹ Numbers in parentheses indicate classroom/clinical or lab units.

² May receive academic credit for this course through competency assessment.

³ Meets the General Education Quantitative Literacy requirement.

⁴ Meets the General Education Writing 2 requirement.

⁵ Meets the General Education Requirements for Civic Knowledge and Engagement and Intercultural Competence.

⁶ Meets the General Education Writing 3 requirement.

LVN to RN 30-unit Option

Students choosing this option are admitted as terminal nondegree students. Upon completion of the requirements of the 30-unit option with a 2.0 GPA or better in all courses, students receive a certificate of completion, which establishes eligibility to take the California Board of Registered Nursing (<https://www.rn.ca.gov/>) examination for RN licensure as a nongraduate. Students should see a School of Nursing academic advisor for requirements. This program operates on a space-available basis for didactic and clinical coursework.

Previous Education Credit

Students may be awarded credit for prior learning/coursework and clinical experience, including military education and experience, through a challenge examination and/or competency testing.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Utilize a Christian worldview to integrate beliefs, values, ethics, and service in personal and professional life.
2. Provide nursing care utilizing professional knowledge and core competencies (critical thinking, communication, and technical skills) derived from a foundation of nursing science, general education, and religious studies.
3. Demonstrate initiative for continual personal and professional growth and development.
4. Act as a patient educator and advocate to promote optimal health and well-being.
5. Function independently and collaboratively, both as a leader and/or a member of the health care team, to manage and coordinate care.

Department of (Traditional) Undergraduate Baccalaureate Program

- BS in Nursing (Traditional) Program (p. 879)
- Minor in International Health Nursing (Traditional BSN) (p. 882)
- Minor in Nutrition (Traditional BSN) (p. 883)

BS in Nursing (Traditional) Program

69-71 units

Applicants interested in the traditional Bachelor of Science in Nursing program must meet the following admission requirements:

1. Submit an application to the Office of Undergraduate Admissions (<https://www.apu.edu/undergraduate-admissions/>) indicating interest in becoming a nursing major and pursuing the BSN. Include in that application the following information:
 - a. Copies of all high school and college transcripts;
 - b. Letters of recommendation as required by the university and the School of Nursing;
 - c. A one-page statement of professional goals in nursing;
 - d. A résumé reflecting volunteer and work experience within the past three years, including leadership positions within volunteer organizations, community service and/or employment where applicable.
2. Complete applicable prerequisite courses with a grade of *B* (3.0) or better, including the following:
 - a. One year of high school chemistry (or CHEM 101).
 - b. One year of high school biology (or BIOL 101).
 - c. Two years of high school math (algebra or geometry) **with** an SAT math score of 540+ or ACT math score of 23+¹ **or** an *A-* or higher in precalculus or *B* or higher in calculus **or** a passing score on the Assessment and Learning in Knowledge Spaces (ALEKS).
3. Submit proof of achieving the minimum high school, college, or university cumulative grade-point average of *B* (3.00).
4. Once a student has received a letter of acceptance into the School of Nursing, proof of the following must be provided prior to the beginning of the first nursing course (UNRS 107):
 - a. Successful completion of anatomy with lab (4 units) and chemistry with lab (4 units), with a minimum *B-* (2.7 grade-point average) and no grade lower than a *C* (2.0) in each course; (Note: A student is allowed only one opportunity to repeat a single failed science course to try to raise his/her grade prior to beginning nursing (UNRS) courses). A *B-* (2.7) average must be obtained in all subsequent science coursework with no grade lower than a *C* (2.0) in each science course or the student will not be allowed to progress in his/her UNRS coursework. If a student is unable to meet the requirements of their conditional admission through the minimum science and overall college grade-point average as stated, the student may be placed on academic probation and will have two subsequent semesters to raise their GPA in order to begin nursing coursework and progress in the nursing program.
 - b. Once admitted into the nursing program, students must: (1) Overall: Maintain a cumulative GPA of 3.0 (84% or *B*) or higher in all course work, and no lower than a 2.0 (73% or *C*) in any course; (2) Science: Maintain a cumulative GPA of 2.7 (80% or *B-*) in all science courses, and no lower than a 2.0 (73% or *C*) in any science course; (3) Nursing (UNRS): Maintain a cumulative GPA of 2.7 (80% or *B-*) or higher in core nursing courses or the student will be placed on academic probation.
 - c. Receive credit or waiver for college algebra.
 - d. WRIT 110 Writing 1: The Art and Craft of Writing.

¹ APU is waiving the SAT/ACT requirements for admission through the 2022-23 academic year.

Transfer Students with Nursing Credit/Previous Education Credit

1. Transfer applicants who have completed college nursing courses in nationally accredited nursing or other health care programs are evaluated individually and may be given credit for courses that meet the requirements.
2. Up to 70 units of community college credit and additional units from a university (per registrar's approval) may be transferred. Applicants may petition to have nursing units transferred from a nationally accredited university, but must receive administrative approval for inclusion in total credits. Students may be awarded credit for prior coursework and clinical experience, including military education and experience, through a challenge examination and/or competency testing.

International Students

International students are required to meet the same academic and admission requirements as other students in addition to the following:

1. International students must complete WRIT 110, one of the four required sciences taken at an accredited U.S. university with a minimum grade of C (2.0), and achieve a cumulative grade-point average of B (3.0) in all college courses completed at Azusa Pacific University after two semesters of full-time enrollment.
2. The admission requirement for international students with English as a second language (ESL) is a minimum TOEFL score of 80 iBT. The School of Nursing specifies that the TOEFL Test of Written English (TWE) and TOEFL Test of Spoken English (TSE) be included in the TOEFL assessment score as these are critical to success in nursing. If the student has taken the IBT (Internet-Based TOEFL), the required score is 85 percent or better.

If there are no TOEFL scores of written and spoken English, the student will be referred to an English training program for successful completion of evaluation and required testing. If deemed necessary, additional ESL courses may be required. (Information about taking the TOEFL examination can be obtained by contacting APU's International Services (<https://www.apu.edu/international/>)).

NOTE: Please check with the Office of Undergraduate Admissions (<https://www.apu.edu/undergraduate-admissions/>) regarding residency requirements prior to application.

Requirements and Sequences for the Traditional BSN Program

All undergraduate nursing programs are designed with a specific course sequence that is determined by the School of Nursing. When each student is accepted into a program, a progression schedule is reviewed by the student and the advisor. Courses must be taken in the assigned sequence.

The Traditional BSN program is based on a cohort model. All coursework assigned to a specific semester is prerequisite for progression to the next semester. Students in the Traditional BSN program begin their nursing coursework either in the fall or spring semesters and continue in sequence for two consecutive semesters per school year. Depending on cohort admission and sequencing of the curriculum, the length of the program may be 4 or 4½ years. The coursework is as follows:

Code	Title	Units
UNRS 107 & 107P	Foundations of Professional Nursing and Foundations of Professional Nursing Practicum ¹	4 (3/1)
UNRS 108	Fundamentals in Nursing Practice	2
UNRS 113	Pharmacology	2
UNRS 212 & 212P	Nursing Care of Adults and the Aging and Nursing Care Of Adults/Aging Practicum	6 (3/3)
UNRS 220	Health Assessment	3 (2/1)
UNRS 260	Nutrition	2
UNRS 299	Statistics and Data Management for Nursing and Health Care ²	3
UNRS 306	Writing 2: Theoretical Frameworks in Nursing ³	3
UNRS 310 & 310P	Mental Health Nursing and Mental Health Nursing Practicum	4 (2/2)
UNRS 314 & 314P	Nursing Management and Restorative Care of Adults and Nursing Management and Restorative Care of Adults Practicum	6 (3/3)
UNRS 367	Pathophysiology	3
UNRS 382 & 382P	Community Health Nursing and Community Health Nursing Practicum ⁴	3 (1/2)
Select one of the following:		3-5
UNRS 383 & 383P	International Health Nursing and International Health Nursing Practicum ^{5, 6}	
UNRS 384 & 384P	Urban/Rural Health Nursing and Urban Health Nursing Practicum ⁵	
UNRS 402 & 402P	Nursing Care in Maternal, Newborn, and Women's Health and Nursing Care in Maternal, Newborn, and Women's Health Practicum	4 (2/2)
UNRS 403	Leadership and Management in Professional Practice	2
UNRS 404 & 404P	Nursing Care of Children and Young Adults and Nursing Care of Children and Young Adults Practicum	4 (2/2)
UNRS 414 & 414P	Advanced Nursing Care of Adults and Advanced Nursing Care of Adults Clinical Practicum ⁷	6 (2/4)
UNRS 425	Nursing Research	3

UNRS 496	Writing 3: Ethics and Issues in Health Care ⁸	4
UNRS 445	Applied Pharmacology	2
TOTAL UNITS		69-71

- ¹ Numbers in parentheses are classroom/clinical or lab units.
² Meets the General Education Quantitative Literacy requirement; may be waived by petition with an AP Stats test score of 3 or greater.
³ Meets the General Education Writing 2 requirement.
⁴ Meets the General Education Civic Knowledge and Engagement requirement.
⁵ Meets the General Education Intercultural Competence requirement.
⁶ Must apply to and be selected by the School of Nursing Global and Community Health Committee (GCHC).
⁷ Meets the General Education Integrative and Applied Learning requirement.
⁸ Meets the General Education Writing 3 requirement.

Additional Nursing Requirements

Code	Title	Units
BIOL 220	General Microbiology	4
BIOL 200	Human Anatomy for Nursing (BIOL 200 is equivalent to BIOL 250) ¹	4
BIOL 210	Human Physiology for Nursing (BIOL 210 is equivalent to BIOL 251) ²	4
CHEM 123	General, Organic, and Biological Chemistry for the Health Sciences (Meets GE requirement of Natural Sciences) ³	4
PSYC 110	General Psychology ⁴	3
PSYC 290	Human Growth and Development ⁴	3
Additional General Education Requirements		
GE 100	First-Year Seminar ⁵	3
COMM 111	Public Communication ⁶	3
PE 1XX	Fitness for Life/Varsity Sport	1
MIN 108	Christian Life, Faith, and Ministry ⁷	3
WRIT 110	Writing 1: The Art and Craft of Writing ⁸	3
UBBL 100	Introduction to Biblical Literature: Exodus/Deuteronomy ⁷	3
UBBL 230	Luke/Acts ⁷	3
PHIL 100	Introduction to Philosophy ⁹	3
3XX/4XX	Bible ¹⁰	3
THEO 3XX	Doctrine Requirement	3
Humanities: History		3
Humanities: Literature		3
Humanities: Fine Arts		3
Foreign Language Proficiency ¹¹		3
Total Units		59

- ¹ BIOL 200 is equivalent to BIOL 250.
² BIOL 210 is equivalent to BIOL 251.
³ Meets the General Education Natural Sciences requirement.
⁴ Meets the General Education Social Sciences requirement.
⁵ Meets the General Education Intellectual and Practical Skills requirement.
⁶ Meets the General Education Oral Communication requirement.
⁷ Meets the General Education Biblical, Theological, and Philosophical Formation requirement.
⁸ Meets the General Education Writing 1 requirement.
⁹ Meets the General Education Philosophy requirement.
¹⁰ May meet the General Education Upper-Division Bible requirement.
¹¹ Foreign Language Proficiency requirement may be met by APU proficiency test, SAT, AP, CLEP, FLATS, or OPIc test score, or completion of an APU language course numbered 102 or higher.

Recommended Nursing Electives for the Traditional Program

Code	Title	Units
UNRS 120	Fundamentals of Human Nutrition	3
UNRS 280	Life Cycle Nutrition	3
UNRS 281	Introduction to Global Health Care (Prerequisite for UNRS 282 and UNRS 383) ¹	1

UNRS 320	Cultural Aspects of Food and Nutrition	3
UNRS 444	Clinical Specialization Elective	1-2
UNRS 445	Applied Pharmacology ²	2
UNRS 495	Special Topics in Nursing	1-4
KIN 360	Nutrition for Exercise and Sport Science	3
SPAN 103	Elementary Spanish I for Healthcare Professionals ³	3
SPAN 104	Elementary Spanish II for Healthcare Professionals ³	3
HIST 235	Cultural History/Travel Study (Country-Specific) ^{1,4}	3
GLBL 425	Integration and Formation Seminar ¹	1
MODL 101	Modern Language I (Introduction to Zulu; South Africa Semester only) ³	3

¹ Required for School of Nursing Study Away Semester.

² Elective course prior to fall 2022.

³ Meets the General Education Foreign Language requirement.

⁴ Meets the General Education Intercultural Competence requirement.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Utilize a Christian worldview to integrate beliefs, values, ethics, and service in personal and professional life.
2. Provide nursing care utilizing professional knowledge and core competencies (critical thinking, communication, assessment, and technical skills) derived from a foundation of nursing science, General Education, and religious studies.
3. Demonstrate initiative for continual personal and professional growth and development.
4. Act as a patient educator and advocate to promote optimal health and well-being.
5. Function independently and collaboratively, as a leader and/or member of the healthcare team, to manage and coordinate care.

Minor in International Health Nursing (Traditional BSN)

19 units

Students interested in expanding their global perspective on health and nursing care may apply to participate in a short-term transcultural health nursing experience, an international health nursing semester, or the international health nursing minor. Accepted students complete additional coursework, and a study plan is developed by the student and advisor. Contact the School of Nursing for the proposed study plan.

Requirements

Code	Title	Units

5. Function independently and collaboratively, both as a leader and/or a member of the health care team, to manage and coordinate care.

Minor in Nutrition (Traditional BSN)

18 units

The minor in nutrition is available to any APU student interested in expanding his or her skills in this specialized area of preventative health. Emphasis within this minor is on the four pillars of a healthful lifestyle: physical activity, good diet, healthy choices, and preventative screening—all crucial for national health. Contact the School of Nursing for the proposed study plan, verification of course offerings, and program availability.

Department of Entry-Level Master of Science in Nursing

The Department of Entry-Level Master of Science in Nursing offers the Entry-Level Master of Science in Nursing (ELM), an accelerated graduate nursing program for students who desire to enter the nursing profession and hold a baccalaureate or higher degree in another discipline. This program meets the California Board of Registered Nursing (BRN) (<https://www.rn.ca.gov/>) requirements for licensure and is available at the San Diego, Inland Empire, and Monrovia campus locations.

Contact the School of Nursing (<https://www.apu.edu/nursing/>) for more information.

- ELM-MSN: School Nurse Services Credential (SNSC) and Family Nurse Practitioner (FNP) (p. 912)
- ELM-MSN: School Nurse Services Credential (SNSC) and Pediatric Nurse Practitioner–Primary Care (PNP-PC) (p. 913)
- ELM-MSN: Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP) (p. 906)
- ELM-MSN: Adult-Gerontology or Pediatric Clinical Nurse Specialist (CNS) (p. 905)
- ELM-MSN: Family Nurse Practitioner (FNP) (p. 907)
- ELM-MSN: Pediatric Nurse Practitioner–Primary Care (PNP-PC) (p. 910)
- ELM-MSN: Psychiatric Mental Health Nurse Practitioner (PMHNP) Specialty (p. 911)
- ELM-MSN: Healthcare Administration and Leadership (p. 908)
- ELM-MSN: Nursing Education (p. 909)
- MSN-ELM with School Nurse Services Credential (SNSC) (p. 914)

Courses

GNRS 500, Conceptual Foundations of Professional Nursing, 3 Units

This course focuses on the introductory concepts crucial to the socialization of second career students to professional nursing. The history of nursing, the evolution of nursing in the U.S., the art and science of nursing, the legal and professional basis of nursing, the role of nursing in the health care delivery system, and current issues and trends in nursing education, practice and research are emphasized.

GNRS 501, Theoretical Thinking in Nursing, 2 Units

This course examines questions about the nature and construction of theory and how theoretical ideas are developed and used in nursing practice and research. Philosophical ideas underlying theory are examined, and selected theoretical models and theories are explored.

Prerequisite: Completion of undergraduate research course or instructor's consent; admission to ELM or MSN program.

GNRS 503, Cultural Competency in Health Care, 3 Units

This course focuses on transforming graduate nursing students, preparing them for nursing leadership in nursing practice, nursing research, education, and public health policy for the improvement of patient healthcare outcomes in our increasingly diverse society. Students move from cultural sensitivity and awareness to critical reflection and action, challenging their assumptions and broadening their perspectives. The Essentials of Master's Education in Nursing (American Association of Colleges of Nursing, 2011) serves as the foundation for the development of core cultural competencies.

Prerequisite: Graduate standing in the School of Nursing.

GNRS 504, Bioethics and Healthcare Policy, 3 Units

This course will outline the role of the healthcare leader in ensuring human rights are upheld in healthcare systems. This course focuses on bioethical analysis, decision-making and moral policy analysis, and formulation. Through course discussion, group and individual assignments, and oral and written presentations, students will analyze and apply bioethical principles to decision- and policy- making processes in the workplace and at national levels. Healthcare ethics and policy will be considered from a Christian worldview.

Prerequisite: Graduate standing

GNRS 505, Christian Formation for Holistic Care, 3 Units

Students engage in the process of discovering the foundational values of Azusa Pacific University that serve as guiding principles for the distinctive education they will receive. They are made aware of the Christian worldview and its implications for personal holistic development and care. With a focus on developing motivating character and integrated caregivers, the course brings heightened self-awareness, the impact of a Christian worldview on vocation, scriptural awareness especially emphasizing healing themes in the life of Christ, and the importance of spiritual growth on the journey toward formation.

GNSRS 506, Spiritual Concept Analysis in Health Care, 3 Units

Scholarly research and analysis of selected concepts in the spiritual care of persons from the Judeo-Christian perspective provide a central focus to the course. Students also examine healthcare research/other healthcare literature for adequacy with respect to the concept they select. Various assignments facilitate greater student awareness of their own spiritual journey and knowledge of faith traditions other than their own. The course is conducted as a tutorial/seminar experience.

Prerequisite: Graduate standing

GNSRS 507, Scientific Writing, 3 Units

This course provides opportunities for students to learn how to introduce a topic or issue, articulate a thesis, support and develop a thesis and subordinate claims, work with secondary sources, and organize an argument.

GNSRS 508A, Research and Theory in Advanced Practice Nursing, 4 Units

This course prepares nurses to use theory and research evidence in advanced clinical practice. The relationship between theory and research is examined, exploring questions about the nature, construction, and use of each. Selected theoretical models and theories are explored, and students learn how ideas are developed and used in nursing practice and research. Students deepen their understanding of the research process by engaging in a systematic search, critique, and summary of research studies with direct application to nursing practice. Experience in statistical analysis of research data is included.

Prerequisite: Computer literacy, undergraduate research course, undergraduate statistics course, and graduate standing

GNSRS 508B, Research and Theory in Healthcare, 4 Units

This course prepares the healthcare administrator to apply theory and research evidence in healthcare environments. The relationship between theory and research is examined, exploring questions about the nature, construction, and use of each. Selected theories are explored, and students learn how ideas are developed and used in practice and research. Students learn the fundamentals of quantitative, qualitative, and mixed methods research and deepen their understanding through systematic search, critique, and summary of research studies with application to healthcare. Students work in groups to develop a research plan addressing a healthcare-derived question. Experience in statistical analysis of research data is included.

Prerequisite: GNSRS 613

GNSRS 510, Family Theory in Health Care, 2 Units

The major theoretical perspectives for understanding the family as a core unit of analysis are studied. This course fosters the student's recognition of the family's responsibility for health. Factors such as family patterns and care-giving tasks of families experiencing catastrophic or chronic alteration in health care are examined. This class is offered online.

Prerequisite: Graduate standing

GNSRS 511, Advanced Pediatric Health Assessment and Health Promotion, 4 Units

This course develops the graduate nurse's assessment skills and focuses on the promotion of health in the pediatric population from the newborn period through adolescence. Emphasis is on adapting and expanding the medically focused history and physical assessment to incorporate the assessment of traditional health practices and identify culturally relevant and age-appropriate health promotion strategies. Outcomes are examined in light of related theoretical concepts. Strategies for health promotion include a focus on developmental and behavioral assessments, emotional health, nutrition, counseling to modify risk factors, and screening tests/prophylaxis for early detection and prevention of disease.

Prerequisite: Undergraduate health assessment and GNSRS 610;

Corequisite: Practicum

GNSRS 513, Advanced Nursing Practice Role, 2 Units

This course focuses on the concepts of role development and performance competence of the nurse in advanced clinical practice within the context of a reformed health care delivery system. Emphasis is placed on the clinician, educator, clinical program manager, consultant, researcher, and case manager roles of the advanced practice nurse. The leadership aspects of the roles of advanced practice are explored in relation to health care delivery, policy formulation, and legislation. The course explores theories and issues related to the advanced nursing practice role.

Prerequisite: Graduate standing

GNSRS 514, Research Proposal Writing, 2 Units

This course focuses on the application of the concepts in GNSRS 508A. The goal is the completion of a research proposal that details the problem, the research purpose, questions or hypotheses to be tested, a critique of the literature, the design and methods of the study including protection of human subjects, the plans for analysis, use of the study, and the budget and personnel.

Prerequisite: GNSRS 508A

GNSRS 516, Integrative Disease and Symptom Management, 3 Units

Using a systems-based approach, this course provides the student with a broad-based, graduate-level overview for understanding disease processes, treatment modalities, assessment and interventional strategies for patients across the life span.

GNSRS 517, Fundamentals in Nursing Practice, 2 Units

This is an experiential learning course designed to teach basic nursing skills in a clinical skills or simulation laboratory setting to prepare students to deliver safe and patient-focused nursing care. Utilizing the nursing process, students perform basic skills in assessment, patient care across the continuum, documentation, patient-family teaching, and infection control.

GNSRS 518, Supervised Practicum in Health Care, 3 Units

This course prepares students to integrate and apply theory, evidence-based practice, and national guidelines and standards in practicum settings. Students select practicum areas in which, with faculty approval, they will participate in experiences led by preceptors. The purpose of the course is to equip students with current, evidence-based knowledge in a selected practice area.

GNSRS 520, Theory and Practice of the Clinical Nurse Specialist in Nursing Care of Adult-Gerontology Patients, 6 Units

Critical concepts in advanced collaborative management of adult-gerontology client populations by Clinical Nurse Specialists are studied. Differential diagnosis, pharmacologic management, cultural sensitivity, adult-gerontology continuum of health and illness (i.e., wellness, health promotion, disease prevention), teaching-learning theory, and evidence-based best practices for clinical decision-making for the Adult and Geriatric population are highlighted. CNS roles, competencies, and professional issues and integrated clinical rotations will be chosen from critical care or medical-surgical adult-gerontology populations. Clinical seminar times allow students to discuss and analyze current professional issues and clinical problems in a collegial atmosphere.

Prerequisite: Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements;

Corequisite: Practicum

GNSRS 521, Clinical Specialization in the Care of Adult-Gerontology Patients, 6 Units

The course prepares the student to apply concepts introduced in GNSRS 520. It focuses on diagnosis and collaborative disease management of acute illness in the adult-gerontology patient by the Clinical Nurse Specialist. The integration of advanced skill development, theory and evidence based practice, disease management, clinical decision making, unit and organization management issues, professional issues and APRN role competencies are the foundation for this course. Practicum and seminars are planned to span the breadth of the students' clinical opportunities.

Prerequisite: Academic Core and Advanced Practice Core courses, GNSRS 520, current RN license, CPR certificate, and meets health screening requirements;

Corequisite: Practicum

GNSRS 522, Disaster Nursing and Emergency Preparedness, 3 Units

This course explores the nature of disasters and prepares nurses to respond to various types of disasters - including natural, environmental, mass casualty, public health emergencies, terrorism, and bioterrorism - by utilizing essential knowledge, skills, values, meanings, and experience in the basic competencies of emergency preparedness and disaster nursing. In accordance with the position of major nursing organizations, emphasis is placed on evidence-based best practices for personal preparedness.

Prerequisite: Comparable course, such as UNRS 312 Nursing Management of Adults, a human growth and development course, a lifespan course OR an RN licensure.

GNSRS 530, Theory and Practice of the Clinical Nurse Specialist in the Care of the Pediatric Patient, 6 Units

Critical concepts in the advanced collaborative management of pediatric client populations by the Clinical Nurse Specialists are studied. Differential diagnosis, pharmacologic management, cultural sensitivity, pediatric continuum of health and illness (i.e., wellness, health promotion/disease prevention), teaching-learning theory, and evidence-based/best practices for clinical decision-making for the Pediatric population are highlighted. CNS roles, competencies, and professional issues are integrated. Clinical rotations will be chosen from critical care or medical-surgical pediatric populations. Clinical seminar times allow students to discuss and analyze current professional issues and clinical problems in a collegial atmosphere.

Prerequisite: Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements;

Corequisite: Practicum

GNSRS 531, Clinical Specialization in the Care of the Pediatric Patient, 6 Units

The course prepares the student to apply concepts introduced in GNSRS 530. It focuses on diagnosis and collaborative disease management of acute illness in the pediatric patient by the Clinical Nurse Specialist. The integration of advanced skill development, theory and evidence based practice disease management, clinical decision making, unit and organization management issues, professional issues and APRN role competencies are the foundation for this course. Practicum and seminars are planned to span the breadth of the students' clinical opportunities.

Prerequisite: Academic Core and Advanced Practice Core courses, GNSRS 530, current RN license, CPR certificate, and meets health screening requirements;

Corequisite: Practicum

GNSRS 532, Advanced Nursing Practice in Pediatrics, 6 Units

This course emphasizes physiological and psychological bases for critical and chronic conditions in children, focusing on an advanced science base for the assessment, diagnosis, and management of children and families to promote wellness. Exploration of traditional versus alternate medicine treatment plans, as well as relevant cultural, spiritual, and health promotion strategies, is incorporated.

Prerequisite: Graduate status and GNSRS 590A;

Corequisite: Practicum

GNRS 533, Psychiatric Theories across the Life Span, 2 Units

This course presents neurobiologic, neuroendocrine, genomic, behavioral, and psychodynamic theories of psychiatric mental illnesses as they manifest among members of diverse cultural groups across the life span. A theoretical foundation for subsequent coursework in primary psychiatric mental health care is provided for the role of the psychiatric mental health nurse practitioner.

Prerequisite: Graduate standing, Advanced Practice Core

GNRS 534, Integrated Psychiatric and Health Assessment across the Life Span, 2 Units

This course teaches the role of the psychiatric mental health nurse practitioner in interviewing, assessing, and utilization of other data collection methods to elicit, analyze, and evaluate bio-psychosocial information regarding psychiatric mental health illness as experienced and understood by the clients, across the lifespan. Assessment and integration of the effects of potential and/or existing co-morbid health problems are focused upon. Diagnostic reasoning that is based on the Diagnostic Statistical Manual is foundational in the course. Development of differential diagnoses and disease management, evidence-based practice, and health promotion that includes client and nurse practitioner collaboration is emphasized.

Prerequisite: Advanced Practice Core, GNRS 533 (May be taken concurrently)

GNRS 535, Psychiatric Interventions and Health Promotion across the Life Span, 6 Units

In this course students learn historical, theoretical, and contemporary evidence-based psychotherapies that promote and support client stabilization, rehabilitation, and recovery. The client as a collaborating decision making consumer and the client-clinician therapeutic alliance are central to this course. Students increase competence in assessment of psychiatric mental health illnesses, differential diagnoses and disease management, implementation of psychotherapy (individual, group, family), medication management, and health promotion interventions, including motivational interviewing. Student competence in developing and facilitating therapeutic groups as a recovery modality are included in the course. The role of the psychiatric mental health nurse practitioner in the integration and coordination of support services that impact mental health and illness is also included. Students practice verbal psychotherapeutic skills that motivate and facilitate client self-management and progression toward recovery.

Prerequisite: Advanced Practice Core, GNRS 533 and GNRS 534; GNRS 539 may be taken concurrently;

Corequisite: Practicum

GNRS 536, Psychiatric Mental Health Care with Adults and Older Adults, 6 Units

In this course students increase their knowledge and competence in the assessment of psychiatric mental health illnesses, differential diagnoses and disease management, implementation of psychotherapy (individual, family, group), evidence-based practice, medication management, health promotion and disease prevention interventions, integration and coordination of support services, with adults and older adults.

Prerequisite: GNRS 533, GNRS 534, GNRS 535, GNRS 539;

Corequisite: Practicum

GNRS 537, Psychiatric Mental Health Care with Children and Adolescents, 6 Units

In this course, students increase competence in the role of the psychiatric mental health nurse practitioner in the assessment of psychiatric mental health illnesses, differential diagnosis and disease management, implementation of psychotherapy (individual, family, group), evidence-based practice, medication management, health promotion and disease prevention interventions, integration and coordination of support services with children, adolescents, and families.

Prerequisite: GNRS 533, GNRS 534, GNRS 535, GNRS 536, GNRS 539;

Corequisite: Practicum

GNRS 538, Psychiatric Mental Health Care with Selected Populations, 5 Units

Students increase knowledge and competence in the assessment of psychiatric and mental health illnesses, differential diagnosis and disease management, implementation of psychotherapy (individual, family, group), medication management, health promotion and disease prevention interventions, and integration and coordination of support services with a selected population. Focus is on integrating and practicing all aspects of the role of the psychiatric mental health nurse practitioner with clients who are experiencing acute and/or chronic mental health problems and psychiatric disorders.

Prerequisite: GNRS 533, GNRS 534, GNRS 535, GNRS 536, GNRS 539;

Corequisite: Practicum

GNRS 539, Psychopharmacology, 2 Units

Students in this course build upon knowledge of advanced practice nursing and provides content essential for the psychiatric mental health nurse practitioner to prescribe appropriate pharmacologic treatment in practice. Mechanisms of action, interactions, side effects, and prescribing guidelines for psychopharmaceuticals commonly utilized across the lifespan are addressed.

Prerequisite: GNRS 533, GNRS 534; GNRS 535 (May be taken concurrently)

GNRS 542, Advanced Concepts and Competencies in Pediatric Primary Health Care, 3 Units

This course offers a comprehensive review and synthesis of core concepts and competencies for the pediatric advanced practice nurse in the primary care setting. This culminating experience for pediatric nurse practitioner students incorporates seminar discussions and clinical practicum placement, and also allows for a discussion of developmental/behavioral issues, management of acute and chronic care illnesses seen in primary care settings, and preventative health care.

Prerequisite: Graduate standing, GNRS 532 (may be taken concurrently with instructor's permission), and GNRS 590A;

Corequisite: Practicum

GNRS 543, Transitions Across the Care Continuum, 4-6 Units

This course focuses on principles and models of care and their implementation in a multidisciplinary practice environment that emphasizes healthcare delivery through integration of services and transition management. Students are introduced to decision making related to allocation of resources and services, development of protocols, and evaluation of management approaches. Evidence-based approaches to the clinical, administrative, educational, and research dimensions of patient care are emphasized. Evaluation of care management activities with the student's selected clinical population is an integral component of the course.

Prerequisite: NP students: completion of Advanced Practice Core; CNS students: completion of Advanced Practice Core and GNRS 520 or GNRS 530; HAL students: completion of MSN Core and GNRS 560.

Corequisite: Practicum

GNRS 544, Clinical Specialization Residency, 2-4 Units

This elective residency program, formed through a partnership between the School of Nursing and selected community healthcare organizations, is an intensive, precepted clinical experience that helps students transition to beginning professional nurses in a specialized setting. It enhances students' skill and practice knowledge in preparation for the RN licensing examination, and increases their ability to perform clinical reasoning with the assigned patient population and evaluate the QSEN competencies of patient-centered care, safety, evidence-based practice, informatics, and teamwork and collaboration.

Prerequisite: ELM students must complete GNRS 573 (may be taken concurrently), but GNRS 573 is not required for nurses in community partnerships who are taking GNRS 544 for continuing education credit.

GNRS 546, Theory and Practice in Health Care Systems in the Community, 6 Units

This specialized course prepares RNs without a bachelor's degree for graduate study in nursing. A multiple theoretical focus that includes concepts from systems, stress, adaptation, developmental, and role theory is emphasized. A beginning practice in the utilization of the nursing process with an emphasis on nursing diagnosis and the nurse's role in assessing, planning, implementing, and evaluating care of clients in a variety of community settings is provided. Collaboration with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals and families at home are essential course components. A review of legal mandates for practice and discussion of ethical dilemmas and issues related to high quality nursing care are included. Specific content varies based on the students' prior education and experience. Clinical placements are arranged to meet the individual student's needs.

Prerequisite: Undergraduate research, pathophysiology, and health assessment;

Corequisite: Practicum

GNRS 547, Nursing Leadership in Acute Care Settings, 6 Units

This is one of two clinical courses provided for the RN who seeks both a bachelor's and master's degree in nursing. The course synthesizes selected information from the generic bachelor's and master's programs for presentation in a condensed format, addressing the development and nature of today's health care systems and associated issues in the United States. Further, content familiarizes the student with several roles and responsibilities of the contemporary nurse, such as leader, consultant, teacher, manager, and client advocate. The course focuses on client needs in acute health care settings and emphasizes the relationship between the health care system and the advocate.

Prerequisite: Undergraduate research, pathophysiology, and health assessment;

Corequisite: Practicum

GNRS 548, Health Promotion Across the Lifespan, 2 Units

The course focuses on health promotion and disease prevention across the lifespan and around the globe. The course includes exploration of population health issues, environmental implications in health and health policy, impact on health promotion and the development of disease.

Prerequisite: Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements

GNRS 550A, Theory and Practice in School Nursing, 6 Units

This combined didactic and clinical course provides theoretical content and field experiences that emphasize the multifaceted role of the school nurse. Students participate in field experiences and classroom learning activities that focus on the assessment and management of children's healthcare needs in various school settings. This course equips students with the necessary tools and skills to successfully function as professional school nurses. At the conclusion of this course, students are able to successfully function as providers of health education as well as providers, planners, and coordinators of health care in school settings.

Prerequisite: GNRS 612 or instructor consent, and admission to School Nurse Services Credential program;

Corequisite: Practicum

GNRS 554, Medical-Surgical Care of the Adult and Geriatric Patient, 5 Units

This course introduces crucial concepts in professional nursing care, such as the nursing process, communication, therapeutic interventions, critical thinking, and critical reasoning. Course material focuses on the application of biological, psychosocial, and spiritual concepts to adult and elderly clients in various healthcare settings with acute and/or chronic illnesses. The nursing process is utilized to provide care to one or two adult clients within the healthcare delivery system. The clinical practicum focuses on the cognitive basics, scientific principles, and manipulative components of psychomotor skills used when providing nursing care.

Prerequisite: Admission to the ELM program, completion of all prerequisite courses for the program.

Corequisite: GNRS 554P

GNRS 555, Medical Surgical Care of the Adult and Geriatric Patient, 7 Units

This course introduces crucial concepts to professional nursing care such as nursing process, communication, therapeutic interventions, and critical thinking and clinical reasoning. The course focuses on the application of biological, psychosocial, and spiritual concepts to hospitalized adult and elderly clients with acute and/or chronic illnesses. Students will be guided in critical thinking and clinical reasoning exercises in the management of hospitalized clients. Nursing process is utilized to provide care to one or two adult clients within the health care delivery system of an acute care setting. The clinical practicum focuses on the cognitive basis, scientific principles, and manipulative component of psychomotor skills used when providing nursing care. Students have an opportunity to practice simulated clinical skills.

Prerequisite: Admission to the ELM program, completion of all prerequisite courses for the program;

Corequisite: Practicum

GNRS 556, Intermediate Medical Surgical Care of the Adult, 7 Units

This course is designed to build on the base of medical-surgical nursing knowledge from GNRS555. The course focuses on comprehensive nursing care to patients with acute need for continuous cardiac monitoring, pulse oximetry monitoring, or ventilator assistance in telemetry units, in restorative care setting, or long-term care setting.

Prerequisite: Admission to the ELM program; successful completion of GNRS 555;

Corequisite: Practicum

GNRS 557, Medical Spanish for Advanced Practice Nurses, 3 Units

This course provides non-Spanish-speaking advanced-practice nursing students with foundational knowledge of Spanish language structure and vocabulary, helping them build appropriate phrasing to facilitate communication in healthcare settings. Cultural issues relevant to health and illness in the Latino community are also addressed.

Prerequisite: Graduate nursing student standing, or instructor's permission

GNRS 558, Intermediate Medical-Surgical Care of the Adult, 6 Units

This course is designed to build on the base of medical-surgical nursing knowledge from prior nursing courses. The course focuses on comprehensive nursing care to patients with acute need for continuous cardiac monitoring, pulse oximetry monitoring, or ventilator assistance in telemetry units, restorative care settings and long-term care settings.

Corequisite: GNRS 558P

GNRS 559, Audiometry for School Nurses, 3 Units

This course provides didactic instruction via eCollege and eight hours of on-site practicum experience that emphasizes the content and clinical expertise necessary to fulfill the requirements of the State of California School Hearing Conservation Program and training for the school audiometrist. The course focuses on the physiologic process of hearing and how to assess for deficits in hearing in children of all ages. At the conclusion of the course, and after having completed successfully all learning objectives, the student is eligible to submit an Application for Registration as a School Audiometrist in the State of California (a \$10 registration fee is required with the application).

GNRS 560, Strategic Leadership in Health Care, 3 Units

This course is designed to develop knowledge, skills and attitudes about leadership across the healthcare continuum. The student will consider the professional role of the healthcare administrator both from a leadership and a management perspective. Areas of concentration will include leadership theory, structure of healthcare institutions, systems thinking and decision-making, performance improvement including quality and safety issues, risk management and effective communication skills. Application of business skills will be integrated. Students will consider the theoretical and research background, current issues and trends, leadership and administrative implications of specific topics.

GNRS 564, Nutrition and Therapeutics, 2 Units

Students in this course explore the functions of nutrients and the consequences of nutrient deficiencies and excesses in the body. Course material introduces a variety of tools for planning and evaluating diets, including a computer diet analysis, and the application of nutrition concepts is interwoven into health care and fitness conditions. Students also study the prevention of chronic disease as it relates to proper nutrition and adequate exercise.

Prerequisite: Admission to the ELM program

GNRS 567, Healthcare Administration and Leadership Supervised Practicum, 3 Units

This course provides the student with the opportunity to experience the role of healthcare administrator. An individualized administration practicum in a specific area of clinical emphasis is chosen by the student and approved and monitored by the faculty and preceptor. Competencies that govern the role of the healthcare administrator are explored in depth. Students focus on the context for enacting the role of administrator in a healthcare delivery system.

Prerequisite: All core and role courses

GNRS 568, Healthcare Finance, 4 Units

This course is an introduction to financial concepts and skills need for healthcare leaders, managers, and executives. The student will develop skills in assessing multiple dimensions of financial performance and methods to improve the financial health of an organization in the context of current patient care system.

GNRS 569, Quality and Safety for Health Care Practice, 3 Units

This course is designed to deepen and advance students' knowledge of, and ability to systematically apply the principles of, patient quality and safety in nursing practice. Based on national standards, the focus is on examining and applying quality and safety tools, including informatics, that can be used to improve patient care delivery across the continuum of health care.

GNRS 570, Parish Nursing/Health Ministries, 2 Units

This course provides an introduction to and overview of health ministry and parish nursing theory and practice. The philosophy of the course is that (a) the parish nursing role is that of a specialist in spiritual aspects of patient care in the congregational context, requiring the integration of graduate level theology/ministry and nursing theory and praxis; and (b) health ministry is an emerging role and trend in pastoral ministry that seeks to bring professional ministry skill to bear upon the integration of health, faith, and spirituality in the parish setting.

GNRS 571, International Health Care, 2-4 Units

This course provides students with experience in nursing care in other countries. Students prepare with coursework in the United States, then travel abroad, where they have experiences in acute and/or chronic care settings, exploring cultural, economic, systems, philosophical, and other aspects of care that influence the provision of health care in other countries. A debriefing period is provided upon return.

GNRS 573, Clinical Residency, 4 Units

The clinical residency is an internship clinical experiential program designed as a collaborative partnership between the School of Nursing and selected community in-patient health care organizations. This residency is an intensive preceptored clinical experience planned to ease the role transition from a student nurse to a beginning professional nurse in an acute-care setting. In addition, it enhances the skill and practice knowledge of the student in preparation for the RN licensing examination.

Prerequisite: Successful completion of all pre-licensure clinical courses

GNRS 575, Nursing Care in Maternal, Newborn, and Women's Health, 4 Units

This course focuses on the theoretical and clinical concepts of the childbearing patient, her infant, and her family. The students study both normal and complicated obstetrics. Selected issues of women's health are explored. The student is introduced to birth preparation, prenatal care, normal neonatal, and postpartum care with concurrent clinical experiences.

Prerequisite: Admission to the ELM program, successful completion of semesters one and two;

Corequisite: Practicum

GNRS 576, Pharmacology, 2 Units

This course is designed for students who have completed organic chemistry, inorganic chemistry, and biochemistry. The content focuses on principles of pharmacology and specifics of the major drug classifications.

Prerequisite: Admission to the ELM program

GNRS 578, Health Assessment, 3 Units

This course provides the nursing student with skills in physical, spiritual, and psychosocial assessment of adult clients. History-taking and physical examination techniques presented in the course help the student develop strong assessment skills upon which further knowledge and practice can be built. Basic concepts related to assessment of geriatric, pediatric, and childbearing patients are included.

Prerequisite: Admission to the ELM program;

Corequisite: Practicum

GNRS 580, Gerontology, 2 Units

This course integrates research and writings about the major trends and developments in the field of gerontology as they apply to the field of nursing. The approach is interdisciplinary - course material includes information from the fields of sociology, psychology, anthropology, biological sciences, medicine, nursing, and psychiatry. Development in adulthood is viewed from multiple perspectives including cognitive, behavioral, biological, sociocultural, and spiritual, and the influences these perspectives have on the successful negotiation of age-related issues are considered. Finally, students examine aspects of human aging in contemporary American society and from a cross-cultural and ethnic perspective.

Prerequisite: Graduate standing in the School of Nursing.

GNRS 581, Primary Health Care of the Older Adult, 5 Units

GNRS 581 focuses on the role of the adult-gerontology primary care nurse practitioner in the management of the older adult including health promotion, assessment, treatment, and maintenance of common primary care health problems. The clinical practicum emphasizes the application of theory and evidence-based research for the delivery of culturally competent assessment and treatment of the older adult within the context of their families and in a variety of outpatient settings.

Prerequisite: Graduate status in the School of Nursing, completion of Advanced Practice Core courses;

Corequisite: Practicum

GNRS 582A, Pathophysiology, 2 Units

This course presents an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiologic disorders are emphasized.

Prerequisite: Admission to the ELM program

GNRS 582B, Pathophysiology, 2 Units

This course continues the presentation an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiologic disorders are emphasized.

Prerequisite: Admission to the ELM program, successful completion of GNRS 582A

GNRS 583, Nursing Care of Children and Young Adults, 4 Units

This theoretical and clinical course focuses on the care of children from birth through adolescence. The effects of acute and chronic illness on growth and development are studied in the acute and community health care setting. Education of the child and family on health promotion, disease prevention, and safety issues are addressed. Ethical issues are discussed regarding the relationship to the child and family, including issues such as child abuse, informed consent, and the impact of diverse cultural and spiritual beliefs on health care decisions in the family.

Prerequisite: Admission to the ELM program, successful completion of semesters one and two;

Corequisite: Practicum

GNRS 584, Mental Health Nursing, 4 Units

This theoretical and clinical course focuses on the dynamics of psychosocial stress within the interpersonal and intrapersonal systems of clients with acute and chronic psychiatric disorders.

Prerequisite: Admission to the ELM program, successful completion of semesters one and two;

Corequisite: Practicum

GNRS 586, Leadership and Management in Professional Practice, 2 Units

This course emphasizes leadership and management theory including systems theory in a number of applications and settings, equipping students with the ability to adjust to various organizations encountered by professional nurses serving in a variety of roles. Core concepts relevant to clinical settings are presented using a systems approach. Emphasis on nursing case management is included.

GNRS 587, Community Health Nursing, 5 Units

This course has two areas of focus within the community setting: the study of principles and practices involved in community health nursing, and the development of skills for teaching a group of clients. The emphasis is on the role of the nurse in assessing, planning, implementing, and evaluating care of clients in a variety of community-based settings, with a focus on care of the gerontological client. Collaboration with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals, families, and aggregates are essential components of this course. A review of legal mandates and regulations, as well as discussion of ethical dilemmas and issues related to community-based care is included.

Prerequisite: Admission to the ELM program, successful completion of semesters one, two, and three;

Corequisite: Practicum

GNRS 588, Advanced Nursing Care of Adults - Leadership, 6 Units

This course involves the application of pathophysiological, psychosocial, and spiritual concepts to adult and geriatric clients experiencing the stress of illness in acute settings. The primary focus of the course is to care for critically ill clients and their families with complex health care needs in a critical-care setting. A second area of focus is on the utilization of leadership and management concepts/skills in providing comprehensive care to groups of clients and families. Emphasis is placed on preparing the student to practice in a beginning leadership role in managing client care. Legal and ethical issues related to acute care are included.

Prerequisite: Admission to the ELM program;

Corequisite: Practicum

GNRS 589, Adolescent Health Care, 2-4 Units

This course focuses on the growth and development of adolescents, including assessment, prevention, and management of common health and psychosocial problems in this population. Emphasis is on age-appropriate and culturally competent provision of primary health care to adolescents in a family system.

Prerequisite: Graduate status in the School of Nursing; 2-unit version of this course requires prior completion of GNRS 610, while the 4-unit version requires prior completion of GNRS 610, GNRS 611, and GNRS 511 or GNRS 612.

GNSRS 590A, Primary Health Care of the Young Family, 6 Units

This combined theory and clinical course focuses on management of health care of children (from birth through adolescence) and their families. Theory and clinical experiences emphasize assessment, prevention, and management of physiological, social, emotional, intellectual, spiritual, and educational needs of the child as an individual and as a family member. The effects of culture on development, parenting, and health care practices are emphasized. The course provides theory and clinical experiences in the management of normal and common pathological conditions to prepare students for advanced nursing practice in the role of nurse practitioner.

Prerequisite: Advanced Practice Core courses;

Corequisite: Practicum

GNSRS 590B, Clinical Practicum in Pediatrics, 4 Units

The student develops expanded skills in the comprehensive assessment and management of common childhood illnesses and problems and continues to gain skill in promoting child wellness. Application of theory and research is emphasized in the care of common illnesses throughout the childhood years.

Prerequisite: GNSRS 511 or GNSRS 612, and GNSRS 590A

GNSRS 590C, Primary Health Care of the Young Family for the School Nurse Services Credential, 6 Units

Using a system-based approach, this combined didactic and practical course focuses on assessment, nursing interventions, and follow-up for common illness presentations in children, as well as illness-related impact on social, emotional, and educational functioning. The effects of culture on child development, parenting, and healthcare practices is also emphasized.

Prerequisite: GNSRS 612;

Corequisite: Practicum

GNSRS 590D, Primary Health Care of the Young Family, 3 Units

This theory course focuses on management of health care of children (from birth through adolescence) and their families, with an emphasis on assessment, prevention, and management of physiological, social, emotional, intellectual, spiritual, and educational needs of the child as an individual and as a family member. The effects of culture on development, parenting, and health care practices are emphasized. The course provides theory in the management of normal and common pathological conditions to prepare students for advanced nursing practice in the role of nurse practitioner.

Prerequisite: Advanced Practice Core courses

GNSRS 591, Primary Health Care of the Childbearing Family, 4 Units

This course focuses on the assessment and management of the primary health care needs of the reproductive family. Emphasis is placed on health promotion and maintenance, disease prevention, curative, and restorative care. Cross-cultural aspects related to parents, male and female, of the childbearing family are addressed.

Prerequisite: Advanced Practice Core courses;

Corequisite: Practicum

GNSRS 592A, Primary Health Care of the Adult and Aging Family, 6 Units

This combined theory and clinical course focuses on the role of the nurse practitioner (NP) in caring for mature adults and aging family members, from young adulthood to elderly adulthood. Emphasis is placed on the management of common primary health problems of these age groups. The delivery of culturally competent primary health care interventions of young, middle-aged, and elderly adults is addressed.

Prerequisite: Advanced Practice Core courses;

Corequisite: Practicum

GNSRS 592B, Primary Health Care Clinical Practicum, 2 Units

This course provides the final comprehensive clinical management experience, allowing FNP and AGNP students to apply knowledge gained throughout their course of study. Clinical conferences provide opportunity for discussion of role development issues and clinical case studies. Students engage in the clinical assessment and management of adults of diverse cultural backgrounds with routine and complex health problems in out-patient settings. Under the supervision of qualified preceptors and School of Nursing faculty, the student must complete his/her clinical hours and demonstrate mastery to perform the role of an entry-level nurse practitioner.

Prerequisite: Completion of clinical courses for the FNP or AGNP program track

GNSRS 593, Psychosocial Primary Health Care of the Adult and Aging Family, 4 Units

This combined didactic and clinical course focuses on psychosocial primary health care of the mature and aging family. Didactic content and clinical experiences emphasize the advanced practice nursing role in the medical management of chronic illness with concurrent assessment for psychosocial stressors that impact the experience and management of chronic illness. Students learn to tailor patient-centered therapeutic strategies, including presence, multi-faceted functional assessment, motivational interviewing, stress reduction techniques and spiritual support to individual patients.

Prerequisite: Advanced Practice Core courses;

Corequisite: Practicum

GNRS 595, Special Topics in Nursing, 1-6 Units

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development and/or to develop a particular project. If students elect this course more than once during their program, each such course must address a different topic.

Prerequisite: Graduate standing

GNRS 596, Foundations of Healthcare Informatics, 3 Units

This course provides an overview of basic concepts for practice in healthcare-oriented informatics. These core concepts include an introduction to clinical and translational informatics; foundational theory and practical application of clinical decision making and computerized decision support; healthcare systems and their organization; the special issues of administration, security, and operations of electronic records in the healthcare setting; human factors issues; information science in the healthcare domain; standards, terminologies, and the uniqueness of biomedical data; and a special focus on emerging technologies.

GNRS 597, Comprehensive Examination Directed Study, 1 Unit

This course guides the student through the process of demonstrating an integration of theoretical, clinical, and research knowledge. Critical thinking is enhanced through careful consideration of information presented during discussion. The examinations are taken as part of this seminar.

Prerequisite: Completion of all Academic Core and degree specialty courses. Final specialty course may be taken concurrently.

GNRS 598, Thesis, 1 Unit

A student initially enrolls in this option toward the latter part of the program for one unit of credit. The student registers for one unit of thesis credit each semester (two of three semesters per year) until the thesis is completed.

Prerequisite: GPA of 3.5 or above, chair's consent for thesis option, and completion of all Academic Core and Advanced Practice Core courses

GNRS 599, Readings/Independent Study in Nursing, 1-4 Units

A student may elect to pursue special interests for credit at any time during the program under the supervision of a faculty member. University policy states that the student must earn a grade in an independent study course in order to receive credit toward graduation.

Prerequisite: Graduate standing

GNRS 600, Nurse Practitioner Clinical Experience, 2-6 Units

The AGPCNP and NP programs require 765 hours of supervised direct patient care experience. Students in this course function in the role of student nurse practitioners under the direct supervision of approved preceptors, and receive feedback from their preceptors and from their clinical faculty. This course gives students an opportunity to complete the documentation necessary to be awarded clinical units. Students progressively integrate advanced practice nursing competencies, demonstrate professional nursing behavior, and keep accurate records. Upon completion of 765 hours, students are given access to a clinical portfolio.

Prerequisite: GNRS 612 and faculty permission

GNRS 601, Primary Healthcare I: Adult and Aging, 3 Units

This course integrates knowledge from advanced pathophysiology, advanced pharmacology, and advanced health assessment and apply it to create a diagnostic hypothesis for common acute and chronic primary care health problems in adolescents, adults, and older adults. The course examines a variety of treatment options for each disease presented and for diseases that don't respond to first-line therapy.

Prerequisite: GNRS 612

Corequisite: GNRS 600

GNRS 602, Primary Healthcare II: Population-based Health Interventions, 3 Units

Primary Healthcare II recognizes that individuals with healthcare needs belong to a variety of discrete groups. This course introduces population health principles to be integrated with psychosocial assessment, cultural competency, social determinants of health, and the nurse-client relationship to foster the development of competence to motivate patients in a way that respects their diversity and to assist them to find resources to address social vulnerabilities. Students will employ statistical analysis as well as nursing experience to analyze risk to create a patient education plan.

Prerequisite: GNRS 601

Corequisite: GNRS 600

GNRS 603, Primary Healthcare III: Restorative and Palliative Interventions, 3 Units

This course is designed to integrate disease management and communication techniques to support the physical, emotional, and spiritual transitions of chronic illness. The course examines developing a prognosis, transitioning care, interprofessional care planning, and care of the caregiver. Grounded in spiritual concepts, this course is designed to provide the student with tools to give patients and families unpleasant information that will likely evoke fear or sadness.

Prerequisite: GNRS 602

GNRS 610, Advanced Pathophysiology, 3 Units

This course builds on basic anatomy and physiology and undergraduate study of pathophysiology. It focuses on the development of an advanced understanding of the pathophysiologic mechanisms of human health disorders including those that are genetic. Diagnostic reasoning that facilitates the clustering of signs and symptoms leading to diagnosis is a key process undergirding the course. This course requires the integration of signs and symptoms, clinical testing (such as laboratory and radiologic studies), and pathophysiologic mechanisms with diagnoses. This course introduces epidemiological principles and methods to be applied to population health models.

Prerequisite: Graduate standing and undergraduate pathophysiology

GNRS 611, Advanced Pharmacology, 3 Units

This course builds upon basic knowledge in pharmacology and provides content essential for the advanced practice nurse to render appropriate pharmacological treatment in practice. Mechanisms of action, interactions, side effects, and prescribing guidelines for drugs commonly utilized across the life cycle are addressed. The course introduces the principles of pharmacogenomics and their application to clinical practice. Variations in pharmacological reactions attributed to cultural factors are emphasized. Strategies for fostering individual/family adherence to pharmacological regimens are examined. This course meets the requirements of the California Board of Registered Nursing in the application of a "furnishing number" by the advanced practice nurse in California.

Prerequisite: GNRS 610 (may be taken concurrently)

GNRS 612, Advanced Health Assessment and Diagnostic Reasoning, 4 Units

This course develops the graduate nurse's assessment skills and focus on the promotion of health in individuals across the age range and within family, community, and cultural contexts. Emphasis is on adapting and expanding the medically focused history and physical assessment to incorporate the assessment of traditional and nontraditional therapies and identify culturally relevant and age-appropriate health promotion strategies for common episodic complaints and chronic health conditions. Outcomes are examined in light of theoretical concepts. Strategies for health promotion include a focus on lifestyle, mental health, nutrition, counseling to modify risk factors, and screening tests/prophylaxis for the early detection and prevention of disease.

Prerequisite: Undergraduate health assessment and GNRS 610;

Corequisite: lab

GNRS 613, Graduate Statistics, 3 Units

This course presents the knowledge of descriptive, correlational, and inferential statistics used in research that serves as the basis for evidence-based practice. Students develop the ability to perform descriptive and inferential data analysis techniques, use software applications to aid in statistical calculations and presentation, and interpret findings.

GNRS 616, APRN Intensive II, 1 Unit

This is the second of four APRN Intensive courses that give NP students an interactive experience through out-of-classroom work. Course activities and games will evaluate the student's ability to perform the clinical role of the NP. Students will understand and develop the skills of virtuous leadership and collaboration from a biblical perspective.

Prerequisite: GNRS 615;

Corequisite: GNRS 601

GNRS 617, APRN Intensive III, 1 Unit

This is the third of the APRN intensives that give APRN students an interactive experience with out-of-classroom work that includes team activities, simulation experiences, and problem-solving activities. Topical content includes managing patients with complex co-morbidities, ethical reasoning, and advanced communication skills. Students will be observed performing the professional and clinical skills of the APRN.

Prerequisite: GNRS 616;

Corequisite: GNRS 602

GNRS 618, APRN Intensive IV, 1 Unit

This is the fourth of the APRN intensives that give APRN students an interactive experience with out-of-classroom work that includes team activities, simulation experiences, and problem-solving activities. Topical content practice-based quality improvement, office-based procedures, and certification exam preparation. Students will be observed performing the professional and clinical skills to demonstrate readiness to enter NP practice.

Prerequisite: GNRS 617; Faculty permission.

GNRS 620, Genome Science in Healthcare, 3 Units

This course covers basic genomic concepts and technologies intended for personalizing healthcare. The primary goal is to provide the student with clinically relevant knowledge that can be used in practice and for teaching other healthcare professionals, patients and families. Applications of genome science and technology are analyzed in the context of real world examples taken from a variety of clinical specialty areas to better understand the relation between genomics, health, and illness.

GNRS 622, Genome Science and Ethical Issues, 3 Units

This course examines current applications and implications of genome science and technology to healthcare, public health policy, economics, ethics, federal and state laws and societal issues. The following discussion topics are at the leading edge of healthcare and social debate: DNA biobanking, genetic profiling, and genomic technologies used in genome medicine such as stem cell research, gene therapy, and genetic enhancements. In addition, the course addresses ethics, philosophy, and theology literature to explore thoughtful discussions that cover a wide range of genome applications in healthcare and health science research.

Prerequisite: GNRS 620

GNRS 630A, Oncology Nurse Practitioner Fellowship A, 4 Units

This course is the first in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.

Prerequisite: Enrollment in the oncology nurse practitioner fellowship certificate program.

GNRS 630B, Oncology Nurse Practitioner Fellowship B, 4 Units

This course is the second in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.

Prerequisite: Enrollment in the oncology nurse practitioner fellowship certificate program.

GNRS 630C, Oncology Nurse Practitioner Fellowship C, 4 Units

This course is the third in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.

Prerequisite: Enrollment in the oncology nurse practitioner fellowship certificate program.

GNRS 631, ONP: Cancer Biology and Assessment, 2 Units

This course builds on knowledge of the anatomy and physiology of DNA, RNA, and differentiated and nondifferentiated human cells. Focus is on the pathophysiological mechanisms of human cancer disorders. Diagnostic reasoning that facilitates the clustering of signs and symptoms is a key process undergirding the course. The course also provides the foundation for the integration of diagnostic testing, physical assessment, and understanding of the predictable pathophysiology of cancer in order to stage tumors and predict metastatic risk in individuals.

Prerequisite: Admission to the Oncology Nurse Practitioner Post-Master's Certificate program.

GNRS 632, ONP: Cancer Therapeutics, 2 Units

This course builds on knowledge of the predicted behavior of human cancer. Technology in cancer treatment is evolving rapidly, and this course provides a pathophysiological foundation for understanding cancer protocols. Current cancer protocols, classes and categories of therapeutics, technologies in development, and tumor resistance are discussed, along with the cost benefit, side effects, and availability of the covered therapeutics.

Corequisite: GNRS 631

GNRS 633, ONP: Symptom and Side Effect Burden, 2 Units

Patients with advanced cancer often suffer significant symptomatic burden and the iatrogenic complications of treatment. This course helps students develop a patient-centered approach to evidence-based management of common symptoms of cancer and side effects of treatment.

Prerequisite: GNRS 631 and GNRS 632

GNRS 634, ONP: Survivorship and the Psychosocial Impact of Cancer, 2 Units

Cancer patients and their caregivers face complicated psychological, financial, and spiritual changes, beginning at diagnosis and extending into the posttreatment phases. This course covers the common problems related to those changes, and best-practice strategies and techniques to help patients and families cope with cancer.

GNRS 635, ONP: Team-Based Care and the Role of the Oncology Nurse Practitioner, 2 Units

The clinician role of the oncology nurse practitioner requires familiarity with the incidence, prevalence, and risk assessment competencies for all common cancers. In addition, the oncology nurse practitioner must be prepared for a wide variety of leadership roles. Strategies for care coordination, designing and measuring interdisciplinary team outcomes, mentoring, collaborating with primary care providers, and rapid-cycle quality improvement are examined.

GNRS 636, ONP: Clinical Trials in Oncology Nursing, 2 Units

The advanced-practice oncology nurse practitioner is prepared to provide direct patient care, design a plan for outcome evaluation, and take a leadership role in medical and nursing oncological research.

Prerequisite: GNRS 610, GNRS 611, GNRS 612, and GNRS 613

GNRS 650, History of Professional Nursing: From Origins to Nursing in Transition, 3 Units

Students in this course explore conceptual and methodological issues in historical nursing research, including the use of biographic methods in nursing history and working with primary sources/archival materials/artifacts and material culture. Focus is on the origins of professional nursing up to the period of nursing in transition in the United States. Students examine ethics guidelines and standards for historical research in nursing, and critically analyze the origins of nursing and early nursing contributions to the evolution of modern health systems and interventions. Class discussion and composition facilitate critical thinking about the history of nursing as a scholarly inquiry, focusing on issues and methods of nursing historical research.

GNRS 651, History of Professional Nursing: From Colonial Times to Present Day, 3 Units

Students in this course explore the foundations of professional nursing in the United States in the context of influential historical, global, societal, and scientific events. Students examine issues faced by nurses from colonial times to today, critically analyzing nurses' contributions to the development of modern health systems and interventions. Class discussion and composition facilitate critical thinking about the history of nursing as a scholarly inquiry, since historical perspectives form the basis for analysis of contemporary healthcare issues and projected development of the nursing profession, its practice, and healthcare policy.

GNRS 660, Theories of Teaching and Instruction, 3 Units

This course analyzes selected teaching and learning models that are applicable to nursing education. Strategies for classroom and clinical teaching are examined. Research relative to nursing education is reviewed and critiqued. Design of research methods to determine effectiveness of teaching strategies is incorporated. Course development and student evaluation are emphasized. Selected faculty and nursing education issues are also explored.

GNRS 661, Leadership and Role Development in Nursing Education, 3 Units

This course includes an analysis of educational leadership and the multiple roles of the nurse educator related to teaching, scholarship, service, and practice. Theoretical perspectives and practical approaches supported by research in nursing and higher education literature, as well as the Christian educator's role promoting faith integration, are addressed.

GNRS 662, Assessment, Curriculum, Development, and Outcomes, 3 Units

This course addresses theoretical approaches to educational assessment, the development and implementation of nursing curriculum, and student and program outcomes. Emphasis is given to the importance of incorporating Christian values in the curriculum. The course also includes critical analyses of related topics based upon current research in nursing and higher education literature.

GNRS 663, Clinical Practicum in Nursing Education, 3 Units

This practicum course builds on the academic and clinical preparation of previous courses and prepares students to teach in academic and clinical settings. Under the supervision of a preceptor, this practical classroom experience focuses on: a) writing of learning/teaching objectives, b) selecting teaching strategies and learning activities, c) designing and implementing teaching plans for units of instruction, d) evaluating student learning outcomes, and e) obtaining feedback on teaching performance from faculty mentors/preceptors, fellow students, and self-evaluation and reflection. It is recommended that students take GNRS 660, GNRS 661, and GNRS 662 prior to taking this class. GNRS 664 may be taken concurrently.

GNRS 664, Teaching and Learning Strategies for Nursing Education, 3 Units

This course equips academic nurse educators to develop and evaluate teaching and learning strategies that facilitate learning in different nursing educational settings. Course material includes examining the challenges nursing faculty face in implementing this role, and strategies to successfully navigate those challenges. Also included are two projects to prepare students for the application process of the nurse educator. It is recommended that students take GNRS 660 prior to taking this class.

GNRS 695, Special Topics, 1-4 Units

A subject of current interest is examined in depth. Students analyze and evaluate controversial issues to reach and express a reflective position. This course may be repeated for credit to a maximum of 6 units applied toward the MSN or PhD degree; each course must address a different topic.

GNRS 700, Philosophy of Science, 3 Units

This course equips students with the knowledge and critical analytic skills to comparatively evaluate the philosophical foundations of scientific theories and the influence of Western philosophical schools of thought on the development of nursing science. Course content is organized to engage students in discussion and critical analysis of the epistemological and philosophic foundations of scientific theories and the characteristics of scientific knowledge according to the received view, paradigmatic view, perceived postmodern view, and feminist tradition. Special emphasis is given to the critical debate within nursing about the nature of nursing science.

GNRS 701, Nursing Knowledge Development, 3 Units

Students in this course focus on analyzing and critiquing the theoretical and methodological processes that are utilized in theory building and knowledge development in nursing. Discussion and critique of the different stages of theory development and students' experimentation with conceptualizing and developing their theoretical stance go hand in hand. Patterns of knowing, knowledge development, and criteria for evaluating nursing knowledge are examined in relation to the discipline's domain and the phenomena of concern in nursing.

GNRS 702, Nursing Theory, 3 Units

This course focuses on strategies for theory development such as concept analysis, conceptual mapping, and theoretical modeling as applied to the student's phenomenon of concern. It also provides critique and analysis of the major models and theories used in a variety of nursing settings in relation to existing interdisciplinary theoretical knowledge.

GNRS 703, Spirituality and Health, 3 Units

This course provides an introduction to spirituality, including spiritual experience, as it relates to individual health and illness. Communal spirituality is also considered. Differentiation is made between and among generic religious and Christian spiritualities. While the course covers theoretical aspects of spirituality and their interaction with health and illness, concentration is on the movement from theory to praxis. This lecture/seminar course is oriented toward nursing educators who seek to develop a foundation in spirituality for spiritual integration as well as for its development in nursing practice.

Prerequisite: Admission to DNP or PhD program

GNRS 704, Faith Integration and Nursing Scholarship, 3 Units

This course begins with an exploration of the nature, role, problems, and possibilities of faith integration in higher education and in the nursing curriculum at all levels of higher education. The special circumstances of faith integration and its implications for teaching in secular college settings are explored. This course further provides a critical explication of theological method and content in three domains: biblical hermeneutics, constructive theology, and ministry praxis for education. The focus of the course is on the appropriation of theological method and knowledge for the purposes of integration into nursing education and practice especially (but not exclusively) within the context of a Christian or church-affiliated college.

GNRS 705, Social Ethics and Health Policy, 3 Units

This course seeks to provide a social ethics frame of reference for health care. Medical and biological advances have contributed to a rapidly expanding amount of human control over human and natural processes, including genetic potential and behaviors. This new power raises questions of morality and highlights the need for discussion and legislation regarding the complex issues raised by developments in health care, medical technology, and science. A comprehensive social ethic places decisions about health care within the context of a fuller account of purpose and meaning in life.

Prerequisite: Admission to DNP or PhD program

GNRS 706, Methods of Inquiry, 3 Units

Students in this course explore various methods of inquiry as they focus on the difference between scientific thinking, wisdom, and alternative concepts of knowledge. Existential dilemmas intrinsic to the pursuit of truth, the exploration of the meaning of actions, the process of reason and interpretation, the perception of reality, and empirical generalizations are discussed, and their influence on the definition of research problems and designs is explored. Research designs and methods are introduced as they relate to problem definition and theory, including an overview of the principles of basic and applied experimental research, evaluation research, and the traditions and foundation of qualitative and historical research. Students are required to explore, synthesize, and debate current issues that will affect their research careers.

Prerequisite: Admission to DNP or PhD program

GNRS 707, Quantitative Nursing Research Design I, 3 Units

This course focuses on advanced multiple research designs and data collection approaches. Emphasis is on experimental and quasi-experimental designs, epidemiological methods, survey research, and evaluation and outcomes research, as well as on planning design and sampling. Inferential statistics and advanced statistical analysis methods including ANOVA and various types of multiple regression analysis are incorporated within the course content.

Prerequisite: Admission to DNP or PhD program

GNRS 708, Qualitative Nursing Research Design I, 3 Units

This course focuses on analyzing the epistemological foundations and the assumptions of qualitative research methodologies. It provides an introduction to the major qualitative research methodologies including grounded theory, phenomenology, and ethnography. Each methodology is analyzed as to its appropriateness for the research question. Experience in carrying out a pilot study in the selected methodology is provided.

GNRS 709, Advanced Statistical Analysis II, 3 Units

This course presents advanced methods of quantitative inquiry. The emphasis is on the use of factor analysis, confirmatory factor analysis, path analysis, and structural equation modeling. Assumptions of the techniques are addressed. The course provides the student experience in using statistical packages for entering and analyzing data. Reporting results of the analyses is also incorporated. Making appropriate decisions regarding which of the advanced statistical techniques to use is stressed. Critique of the advanced statistical analyses of published health care research is also emphasized.

Prerequisite: GNRS 707

GNRS 710, Advanced Qualitative Research Methods, 3 Units

This course provides advanced knowledge and training in the use of qualitative research methods including phenomenological interpretation, grounded theory interpretation, ethnographic interpretation, focus groups interpretation, and feminist interpretation. Intensive interpretive and structured approaches to analysis and methods of establishing plausibility, credibility, and adequacy of qualitative data are emphasized.

Prerequisite: GNRS 708

GNRS 711, Advanced Research Methods in the Humanities, 3 Units

This seminar and consultation course introduces PhD students to nonscientific research methodologies as used in the arts, letters, humanities and aspects of the social sciences for the (a) conduct of original dissertation research on one of the disciplines of arts, letters, humanities, or nonscientific aspects of one of the social sciences, (b) conduct humanities-based research to widen and deepen a scientific dissertation topic, or (c) to enlarge the student's methodological repertoire, knowledge, and skill. The course is intended for those whose primary research education and experience has been in scientific methods and disciplines. (Enrollment limited to eight.)

Prerequisite: (a) successful completion of GNRS 701 and GNRS 706, (b) permission of the instructor

GNRS 712, Healthcare Quality Improvement, Program Planning, and Evaluation, 3 Units

This core course bridges the gap between the uptake of new health research discoveries and their translation, adaptation, and implementation in practice. Course content includes the examination, integration, and application of quality improvement, program planning, and evaluation processes, strategies, and tools. The outcome of the course is a well-designed evaluation plan for an evidence-based quality improvement project.

Prerequisite: Admission to DNP or PhD program

GNRS 713, Advanced Statistical Analysis I, 3 Units

This course presents common nonparametric and parametric statistical techniques used in healthcare research. Assumptions of the techniques are addressed. Specifically, the course emphasizes t-tests, ANOVA, ANCOVA, RANCOVA, correlation, odds ratio, regression, and power analysis, and provides the student experience in using SPSS for entering and analyzing data. Reporting results of the analyses is also incorporated. Making appropriate decisions regarding which statistical techniques to use is stressed. Critique of statistical analyses of published healthcare research is also emphasized.

GNRS 715, Psychosocial Issues of Older Adults, 3 Units

This course focuses on the biological and psychosocial processes throughout adulthood and the older years. Theories of aging are examined, as well as social role changes, social stratification, and the development of institutions of the aged. The course explores both normal aging and psychopathology, and the systematic intrinsic psychological or personality changes associated with development and adaptation in later life. Other topics include clarification of the causes and prevention of health maladies in the later years, and the nature and treatment of the most common psychopathologies. The psychodynamics of institutionalization and family care of the very old are also examined.

GNRS 716, Translation of Research to Practice, 3 Units

The goal of this core course is to help prepare Doctor of Nursing Practice (DNP) nursing students to be nurse scholars and to identify strategies within a multidisciplinary model and in intraprofessional relationships that promote the ready translation of research into practice. This course exposes DNP students to evidence-based practice, quality improvement methodologies, concepts and theories, and deepens their knowledge regarding the phenomenon of interest. This prepares them for foundational competencies needed for evidence-based problem identification, PICOT writing, literature search, integrated literature review, evidence appraisal, and synthesis. There are iterative assignments to develop skill and the milestone assignment is a final integrated review and synthesis paper with in-depth knowledge of their phenomenon (vs. topic) of interest.

Prerequisite: Admission to DNP or PhD program

GNRS 717, Health Technology and Informatics, 3 Units

This course presents an overview of the evolution of health care informatics from an interdisciplinary perspective. Students learn health care informatics history, concepts, theories, legal and ethical implications, and applications within the health care industry. This course introduces the student to the information system life cycle, human factor issues in health care informatics, critical issues affecting the development and implementation of information and communication systems and technologies (clinical, administrative, and learning), knowledge management principles, professional practice trends, and emerging ICT (information and communication technology) in health care.

GNRS 718, Organizational Leadership and Strategic Planning, 3 Units

In this core course, students acquire knowledge and skill to effectively manage systems level change, empower others, and influence political processes. Advanced nursing practice leadership occurs in clinical practice with clients and staff, within healthcare institutions, professional organizations, and in healthcare policy making arenas, using knowledge of nursing and other professions to address healthcare needs and direct interprofessional activities and initiatives. To develop the leadership role, students implement strategies for creating organizational change to provide high-quality services and outcomes at reasonable costs and lead the development of a business plan for quality improvement initiatives. Students advocate for change related to financial policies that impact the relationship between economics and quality care delivery. Focus is on organizational process, including the associated management of conflict, change, promotion of safety for clients and providers, and control of risk within a dynamic healthcare environment.

Prerequisite: Admission to DNP or PhD program

GNRS 720, Wellness Promotion and Health Maintenance, 3 Units

This course focuses on the critical appraisal of theories and models of health promotion and on the evaluation of health initiatives developed for national health promotion and maintenance. Relevant risk prevention, control, and health promotion intervention strategies are emphasized. Communicable diseases; health hazards; high-risk health factors; acute and chronic illness across ethnicities, genders, and the life span; and morbidity and mortality of the nation's leading health problems are analyzed. Students' research questions are generated from a synthesis of knowledge regarding a specific phenomenon relevant to the student's individual area of study.

Prerequisite: Admission to DNP or PhD program

GNRS 721, Health Disparities and Vulnerable Populations, 3 Units

This course offers an analysis and evaluation of various topics and issues on health disparities of underserved ethnic or minority vulnerable populations as well as an analysis of research that describes, explains, and examines variables influencing health disparities and intervention strategies to reduce these disparities.

GNRS 722, Research in Nursing and Health, 3 Units

This course is team taught and reflects the research expertise and program of study of the nursing doctoral faculty. It focuses on analysis of determinants of health and illness across demographic, biological, psychological, familial/cultural, and societal dimensions. Attention is given to theoretical explanations toward promoting development of students' programs of research.

GNRS 724, Quantitative Nursing Research Design II: Psychometrics, 3 Units

This course introduces students to the methods of survey research. Course material covers practical considerations in the construction of questionnaires, including determining questionnaire content, selection of item types and wording of items, selection of an administration method, piloting questionnaires, and locating existing questionnaires. Discussions about conducting survey research focus on sample selection, analyzing information obtained from questionnaires using SPSS, evaluating questionnaires, sources of error, and how to reduce measurement error in survey research.

Prerequisite: GNRS 707

GNRS 725, Research Practicum, 1 Unit

The practicum further develops, mentors, and socializes students into the roles and activities of research scientists and scholars. Emphasis is on mentoring to facilitate student progression in research methodology, culturally appropriate research strategies, data management, and data analysis. Students can choose either a quantitative or qualitative practicum experience.

GNRS 726, Advanced Scientific Writing, 3 Units

This course provides opportunities for students to learn how to research and introduce a topic in writing, articulate a thesis statement, support and develop a literature review, work with secondary sources, and organize a written paper that can be developed into a dissertation or translational research paper.

GNRS 727, Genome Science in Clinical Cases and Disease Management, 3 Units

This course focusing on medical family history taking, constructing and analyzing the pedigree, genetic counseling, clinical decision making and clinical case management for a wide variety of inherited and acquired diseases through the lens of emerging genome science. Clinical cases are discussed from a holistic perspective including: genome science, epidemiology, genomic profiling, genetic technologies, personalized medicine, interprofessional collaboration, ethical and legal issues, and health policy.

Prerequisite: GNRS 620

GNRS 728, Genome Science Research Methods, 3 Units

This course focuses on genome research methods for understanding and translating genome science to practice and to genome related nursing research. Understanding the research methods fosters a deeper understanding of the strength and the weaknesses of the science and an ability to critique the benefits and the limitations of the science for designing nursing research. The course includes a wide range of research methods that explore genetics or genomics in human populations. A key outcome of this course is to develop a research proposal using genome methods to design nursing research aimed at improving quality of health for individuals, families and populations.

Prerequisite: GNRS 620, GNRS 622, GNRS 727

GNRS 729, Population Health and Epidemiology, 3 Units

The concept of population health includes aggregate, community, environmental/occupational, and cultural/socioeconomic definitions of health. The implementation of clinical prevention and population health activities is central to achieving the national goal of improving health status and reducing health disparities among different aggregate groups. This course covers the basic elements and methodological concepts used in the epidemiologic study of factors related to health promotion and disease prevention in human populations. It brings together considerations from several fields of investigation, such as epigenetics, epidemiology, psychology, and public health, to study the effects on health and health-related outcomes.

Prerequisite: Admission to DNP or PhD program

GNRS 730, Comparative Health Care Systems, 3 Units

This course focuses on exploring/analyzing environmental, social, cultural, political and economic determinants of health across the globe. Comparative analysis of international health care systems including governmental, nongovernmental, traditional, and faith-based organizations are emphasized. Epidemiological analysis of morbidity and mortality, analysis of health and illness responses, and health-seeking behavior across the age span and gender/ethnic variables are discussed with the intent to identify areas of research relevant to students' interest. Presented from a Christian perspective, this course investigates research and practice opportunities and responsibilities for advanced practice nurses in global arenas.

GNRS 732, DNP Clinical Residency, 0 Units

This course provides students enrolled in the Doctor of Nursing Practice (DNP) program with opportunities to develop professional nursing skills at the doctoral level. The focus of the course is to explore the development and scientific underpinnings of components of expert advanced clinical practice. Students select a population of interest for the DNP clinical residency and apply evidence-based practice and research findings in order to develop and improve practice. Over the course of the DNP program, students integrate previous nursing education and practice experiences with the DNP residency and concurrent doctoral coursework to meet the AACN Essentials of Doctoral Education for Advanced Nursing Practice and complete a DNP scholarly project. The course may be repeated to enable the student to obtain a minimum of 1,000 residency hours. Previous hours from graduate clinical courses may apply, so residency hour requirements will vary.

Prerequisite: Admission to DNP program

GNRS 733A, Residency IA, 1 Unit

This is the first in a series of three residency courses designed to enhance students' critical thinking, diagnostic reasoning, interpretation, and management skills for advanced clinical practice. This course broadens and enhances understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice clinical nurse scholarship. Students practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts. The course focuses on exploring the development and scientific underpinnings of components of expert advanced clinical practice, and attention is given to the development of skills necessary to attain that goal. By the end of this course, students select their population of interest for their clinical residency and apply evidence-based findings to this population to identify potential areas of intervention.

Prerequisite: Admission to DNP program

GNRS 733B, Residency IB, 1 Unit

The second of a three-course sequence, this course may be taken concurrently with GNRS 733A and/or GNRS 733C with approval of the DNP director or designee. Grading: pass/fail

GNRS 733C, Residency IC, 1 Unit

The third of a three-course sequence, this course may be taken concurrently with GNRS 733A and GNRS 733B with approval of the DNP director or designee. Grading: pass/fail

GNRS 734A, Residency IIA, 1 Unit

The first of a three-course sequence, this course may be taken concurrently with GNRS 734B and GNRS 734C with approval of the DNP director or designee. Grading: pass/fail

GNRS 734B, Residency IIB, 1 Unit

The second of a three-course sequence, this course may be taken concurrently with GNRS 734A and/or GNRS 734C with approval of the DNP director or designee. Grading: pass/fail

GNRS 734C, Residency IIC, 1 Unit

This is the last of a three-course series of clinical residencies with a focus on transformative and collaborative leadership, including completion of the evidence-based practice project, assessment of project outcomes, and planned dissemination of findings. Students apply relevant clinical and research findings to develop and improve practice. Content emphasizes critical appraisal of skills and interventions necessary to ensure meaningful translation of scientific evidence into practice, including a cost-benefit analysis for implementing a change into clinical practice. The course also emphasizes the professional role of the nurse as a collaborator, leader, and provider of care with nursing colleagues and other members of the interprofessional healthcare team within the context of complex healthcare systems, preparing students to implement an advanced nursing practice role that results in practice and/or policy change at the local, state, and/or national levels.

Prerequisite: Successful completion of GNRS 733A, GNRS 733B, GNRS 733C, GNRS 734A and GNRS 734B

GNRS 735, DNP Scholarly Project Seminar, 3 Units

The DNP program requires a rigorous clinical project focused on translating scientific research to health care in a timely manner so that patients experience the best applications of science and practice. The project is a scholarly experience that implements the principles of evidence-based practice and translation under the guidance of a faculty mentor. In line with the AACN Essentials of 2007, the outcome of the DNP scholarly project is a tangible and deliverable academic product that is derived from the practice immersion experience and reviewed and evaluated by an academic committee. The project also serves as a foundation for future scholarly practice.

GNRS 736, DNP Scholarly Project Seminar: Evaluation and Dissemination, 2 Units

This course focuses on presentation to and approval of a completed DNP Scholarly Project. The DNP program requires a rigorous clinical project focused on translating scientific research to health care to improve the patients experience utilizing the best evidence of science and practice. This scholarly project is a culminating, independent experience which demonstrates the student's synthesis of coursework and lays the foundation for future scholarship.

GNRS 780, Doctoral Seminar I: Elements of a Proposal and IRB Application, 3 Units

This seminar directs the development of either a PhD dissertation or a DNP Scholarly Project proposal draft that details a problem, the research/project purpose, questions or hypotheses to be examined, a synopsis of the relevant literature, the design and methods of the study including its timeline, protection of human subjects, plans for analysis, and the budget. The seminar also includes preparation of IRB applications, and peer review and critique of student proposals.

Prerequisite: Admission to DNP or PhD program

GNRS 781, Doctoral Seminar II: Developing a Grant Proposal, 3 Units

This doctoral seminar provides students with the opportunity to acquire knowledge, skills, and insights in the writing of a grant proposal. Discussion will focus on the value of writing grant proposals, the basic principles in writing a grant proposal, the components of a grant proposal, identification of funding sources, the difference between a research and a program grant proposal, as well as administrative factors in submitting a grant proposal. Students will craft and a grant proposal in response to a Request for Funding Proposal (RFP) that aligns with the guidelines of the funding agency, and additionally, a budget plan with justification, timelines, and a bio-sketch. In addition, students will conduct a peer review of class completed grant proposals.

GNRS 782, Doctoral Seminar III: Writing for Publication, 3 Units

This seminar focuses on various aspects of writing for publication and directs the development of a manuscript suitable for publication from a previously written paper (e.g., a course term paper). This course will help the student get started on writing; identify writing styles for various forms of publication including abstracts, journal articles, papers, and books; and determine appropriate journals to consider for article submission. The student will acquire practice in reviewing and critiquing scholarly writing by others. It will also address the editorial and publication process, as well as ethical aspects of writing for publication.

GNRS 783, Doctoral Seminar IV: Developing Professional Presentations, 3 Units

This seminar course identifies approaches to developing an effective and successful presentation, helping students find their voice and showcase their areas of expertise. Discussions focus on planning as essential to deciding on the content and the order in which the information is presented. Emphasis is on developing a logical sequence, one that flows naturally and is accompanied by audiovisuals that facilitate understanding of the material.

GNRS 784, Dissertation Seminar V, 2-4 Units

This fifth dissertation seminar provides the student a forum to explore with their peers research findings, theoretical and empirical implications, and potential venues for publication of manuscripts. Format and procedures for progression in the dissertation process are also discussed. Placement of the Course: This seminar is not required if dissertation seminar requirement of 12 units has been met by GNRS 780, GNRS 781, GNRS 782, GNRS 783, and student has defended dissertation. Grading: Pass/Fail.

Prerequisite: GNRS 783

GNRS 791, Doctor of Nursing Practice Intensive I, 1 Unit

This is the first of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. This course introduces students to the role of the DNP nurse in a variety of healthcare settings. Students acquire advanced practice and academic skills necessary for selecting a population of interest and applying evidence-based practice to it as part of an evidence-based DNP scholarly project consistent with the DNP role within a healthcare organizational setting.

Admission to the DNP program; corequisite: GNRS 716

GNRS 792, Doctor of Nursing Practice Intensive II, 1 Unit

This is the second of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. This course helps students identify strategies within a multidisciplinary model that promotes evidence-based practice in various clinical, community, and educational settings. Students receive support and direction in collaboration with the sponsoring facility and mentor as they develop a comprehensive, site-specific DNP scholarly project proposal.

GNRS 791; corequisite: GNRS 780

GNRS 793, Doctor of Nursing Practice Intensive III, 1 Unit

This is the third of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. This course equips students with the skills, competencies, and points of view needed for developing the ethical reasoning/decision-making skills necessary for conducting their DNP scholarly projects.

GNRS 792; corequisite: GNRS 712

GNRS 794, Doctor of Nursing Practice Intensive IV, 1 Unit

This is the last of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. As in the other intensive experiences, course content for each student reflects the interests of the student and is designed to meet that student's needs and career goals. This course allows students, with guidance from their mentors and faculty, to complete the DNP scholarly project and finalize the written and oral scholarly reports that disseminate and integrate new knowledge. Each student's final product reflects their ability to employ effective communication and collaboration skills, take a leadership role, integrate core DNP concepts and competencies that influence healthcare quality and safety, and successfully negotiate change in healthcare delivery for individuals, families, populations, or systems across a broad spectrum of health care.

Prerequisite: GNRS 793;

Corequisite: GNRS 736

GNRS 795, Special Topics, 1-4 Units

In this course, a subject of current interest is examined in depth. Students analyze and evaluate controversial issues to reach and express a reflective position. Students may repeat the course for credit to a maximum of six units applied toward the doctoral program; each course must address a different topic.

GNRS 798, Continuous Doctoral Study, 0 Units

This course is for doctoral students working on dissertations or translational research projects. Students must re-enroll each semester until the dissertation or translational research project is completed, defended, submitted to the library, and approved.

GNRS 799, Independent Study, 1-4 Units

Students enroll in this course to pursue independent study investigating subjects and interests that lie beyond regular course offerings. The student explores topics in greater depth than in other courses, and/or initiates an individual project. Readings are pursued in accordance with a study plan, which is developed in consultation with a sponsoring doctoral faculty member and approved by the doctoral department

Entry-Level Master of Science in Nursing (ELM)

The Entry-Level Master of Science in Nursing (<https://www.apu.edu/nursing/programs/entry-level-masters-in-nursing/>) is an accelerated graduate nursing program designed for students who desire to enter the nursing profession and hold a baccalaureate or higher degree in other disciplines. During their first four semesters, admitted students complete all preclicensure courses (theoretical and clinical) in an accelerated format, as well as selected graduate nursing courses, followed by a clinical residency, in preparation for the RN licensure examination. Students then continue with courses and preparation leading to a Master of Science in Nursing (MSN).

This program meets the California Board of Registered Nursing (BRN) (<https://www.rn.ca.gov/>) requirements for licensure and is available at APU's regional locations in Monrovia (<https://www.apu.edu/monrovia/>), San Diego (<https://www.apu.edu/sandiego/>), and the Inland Empire (<https://www.apu.edu/inland/>) (San Bernardino).

The ELM program prepares nurses to enter professional nursing and, subsequently, advanced practice roles. Students are prepared to take the NCLEX for RN licensure, to apply for a California PHN certificate, and to be eligible to apply for state certification, and may also apply for national certification by examination in advanced practice specialties upon successful completion of the required postlicensure courses.

Additional Requirements

At the beginning of clinical coursework, graduate students are required to provide documentation concerning certifications, results of background checks, screening tests, and immunizations. Refer to the Student Handbook and specific program manuals or course syllabi for details.

Program Requirements

The four-semester-plus-clinical-residency preclicensure portion of this program is offered in an intensive cohort model format and **must** be taken in full-time study. Courses are offered primarily in a face-to-face format, on a fixed schedule, with required clinical experiences that may be scheduled Monday through Sunday on any shift.

Code	Title	Units
Semester 1		
GNRS 500	Conceptual Foundations of Professional Nursing	3
GNRS 517	Fundamentals in Nursing Practice	2
GNRS 554	Medical-Surgical Care of the Adult and Geriatric Patient ¹	5 (3/2)
GNRS 578	Health Assessment	3 (2/1)
GNRS 582A	Pathophysiology	2
Semester 2		

GNRS 558	Intermediate Medical-Surgical Care of the Adult	6 (3/3)
GNRS 564	Nutrition and Therapeutics (may be taken in semester 1 if spring program start)	2
GNRS 576	Pharmacology (may be taken in semester 1 if spring program start)	2
GNRS 582B	Pathophysiology	2
GNRS 584	Mental Health Nursing	4 (2/2)
Semester 3		
GNRS 504	Bioethics and Healthcare Policy	3
GNRS 505	Christian Formation for Holistic Care	3
GNRS 507	Scientific Writing	3
GNRS 575	Nursing Care in Maternal, Newborn, and Women's Health	4 (2/2)
GNRS 583	Nursing Care of Children and Young Adults	4 (2/2)
Semester 4		
GNRS 508A	Research and Theory in Advanced Practice Nursing	4
GNRS 586	Leadership and Management in Professional Practice	2
GNRS 587	Community Health Nursing	5 (2/3)
GNRS 588	Advanced Nursing Care of Adults - Leadership	6 (3/3)
Clinical Residency/Internship ²		
GNRS 573	Clinical Residency ²	4
Total Units		69

¹ Numbers in parentheses are classroom/clinical units.

² This intensive period of clinical education and continuing preparation for practice takes place in a healthcare agency under the direct supervision of a clinical preceptor and supported by clinical faculty in the graduate program. At the same time, students review prelicensure subject matter in preparation for NCLEX examination (RN licensing exam). Successful completion of the clinical residency is required to complete the prelicensure portion of the program. The BSN is awarded at the completion of the prelicensure portion of the program.

NOTE: Before taking advanced practice clinical courses for completion of the MSN degree, the student must achieve the passing score required by the California BRN on the NCLEX exam.

Postlicensure

In addition to coursework and clinical practicums, postlicensure students are expected to have outside clinical work experience.

To ensure that credit will be given, students should request approval prior to taking coursework at outside institutions. A maximum of 6 units may be transferred in with prior approval.

Students **must** take 7 units of electives during this component of the program. Students' programs are planned individually according to course sequencing for their clinical specialty. As an alternative to full-time study, students may elect to complete master's degree requirements in a part-time format while taking courses each semester. Courses are offered in several modalities and will vary depending on the postlicensure specialty track. These include face-to-face, online asynchronous, and online synchronous options.

Students may elect to write a thesis or take a comprehensive exam to complete the degree. Any student who elects to write a thesis must take GNRS 514.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity, and applying spiritual concepts.
2. Engage in scholarly inquiry and critical thinking, including evaluation and application of evidence-based research.

3. Appraise and apply knowledge to develop, implement, and evaluate interventions that promote health and prevent disease.
4. Demonstrate thoughtful analysis of the legal, political, ethical, and/or financial factors impacting healthcare.
5. Use information systems and technology to communicate, manage knowledge, promote quality, mitigate error and support decision-making.
6. Demonstrate the ability to coordinate and collaborate with other health care team professionals.
7. Engage in clinical reasoning, effective communication, and act as change agents to develop professional identity and practice skill.

ELM-MSN: Adult-Gerontology or Pediatric Clinical Nurse Specialist (CNS)

The Master of Science in Nursing with Adult-Gerontology (<https://www.apu.edu/nursing/programs/adult-cns-certificate/>) or Pediatric Clinical Nurse Specialist (CNS) (<https://www.apu.edu/nursing/programs/pediatric-cns-certificate/>) program allows students to concentrate on one of these two clinical areas of content and practice. Nurses with advanced practice preparation may work in acute, primary, or long-term care settings. Students learn the process of developing and sustaining evidence-based practice in illness management, advancing the practice of other nurses and nursing personnel, and developing organizational or systems modifications to support and improve nursing practice. The traditional CNS roles of expert clinical practice, consultation, clinical leadership, research, and education are shaped toward producing desirable patient outcomes as the CNS works in several spheres of influence. Graduates are eligible to apply to the state of California for certification as clinical nurse specialists, and may apply for national certification through examination by the American Nurses Credentialing Center (ANCC).

Contact the School of Nursing (<https://www.apu.edu/nursing/>) for specific program availability and locations. Prelicensure coursework (p. 903) must be completed prior to beginning advanced practice nursing coursework.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

ELM-MSN: Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP)

This specialty program (<https://www.apu.edu/nursing/programs/gerontology-nurse-practitioner/>) prepares students to be nurse practitioners for patients across the adult years in a primary healthcare setting. Graduates are eligible to apply to the state of California Board of Registered Nursing for certification as a nurse practitioner and may apply for national AGPCNP certification through examination. This advanced clinical practice specialty includes direct patient assessment, diagnosis, management and treatment, client advocacy, client/family education, consultation, and program planning, implementation, evaluation, and research.

Contact the School of Nursing (<https://www.apu.edu/nursing/>) for specific program availability and locations. Prelicensure coursework (p. 903) must be completed prior to beginning advanced practice nursing coursework.

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

ELM-MSN: Family Nurse Practitioner (FNP)

This specialty program (<https://www.apu.edu/nursing/programs/fnp-certificate/>) prepares students to be nurse practitioners for patients across the human lifespan in the primary healthcare setting. Graduates are eligible to apply to the California Board of Registered Nursing for certification as a nurse practitioner, and may apply for national FNP certification through examination. This advanced clinical practice specialty includes direct patient assessment, diagnosis, management, and treatment; client advocacy; and client/family education, consultation, and program planning, implementation, evaluation, and research.

Contact the School of Nursing (<https://www.apu.edu/nursing/>) for specific program availability and locations. Prelicensure coursework (p. 903) must be completed prior to beginning advanced practice nursing coursework.

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

ELM-MSN: Healthcare Administration and Leadership

The entry-level master's option in healthcare administration and leadership (<https://www.apu.edu/nursing/programs/masters-in-healthcare-administration/>) prepares nurses for early to mid-level management and leadership roles in a variety of healthcare settings. Students acquire the knowledge and skills necessary to lead and manage a team of healthcare providers in organizations, functioning in areas such as operations management, project management, and healthcare consulting. The program emphasizes competencies needed for graduates to apply for the American Nurses Credentialing Center (ANCC) and American Organization for Nursing Leadership (AONL) nursing leadership certification exams.

Contact the School of Nursing (<https://www.apu.edu/nursing/>) for specific program availability and locations. Prelicensure coursework (p. 903) must be completed prior to beginning Healthcare Administration and Leadership coursework. Students must have the equivalent of one year of RN clinical experience prior to enrollment in GNRS 567 Healthcare Administration and Leadership Supervised Practicum.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity, and applying spiritual concepts.
2. Engage in scholarly inquiry and critical thinking, including evaluation and application of evidence-based research.
3. Appraise and apply knowledge to develop, implement, and evaluate interventions that promote health and prevent disease.
4. Demonstrate thoughtful analysis of the legal, political, ethical, and/or financial factors impacting health care.
5. Use information systems and other technology to communicate, manage knowledge, promote quality, mitigate error, and support decision making.
6. Demonstrate the ability to coordinate and collaborate with other healthcare team professionals.
7. Engage in clinical reasoning and effective communication, and act as a change agent to develop professional identity and practice skill.

ELM-MSN: Nursing Education

The Entry-Level Master of Science in Nursing (ELM) (p. 903) option in nursing education (<https://www.apu.edu/nursing/programs/masters-in-nursing-education/>) prepares nurses for teaching roles in a variety of settings, including traditional and nontraditional academic settings, online/distance settings, and clinical and community settings, using cutting-edge technology and teaching-learning methods. The program emphasizes competencies needed for students to complete the Certified Nurse Educator (CNE) certification examination, and is aligned with the American Association of Colleges of Nursing's *The Essentials of Master's Education in Nursing* (AACN, 2011) and the National League for Nursing's *Nurse Educator Competencies* (NLN, 2013).

Contact the School of Nursing (<https://www.apu.edu/nursing/>) for specific program availability and locations. Prelicensure coursework (p. 903) must be completed prior to beginning nursing education coursework. Students must have the equivalent of one year of RN clinical experience prior to enrollment in GNRS 663.

Requirements

Code	Title	Units
Academic Core Courses		15

GNRS 662	Assessment, Curriculum, Development, and Outcomes	3
GNRS 661	Leadership and Role Development in Nursing Education	3
GNRS 663	Clinical Practicum in Nursing Education	3
Concluding Course		1
GNRS 597	Comprehensive Examination Directed Study	1
Total Units		37

¹ Units in parentheses are classroom/clinical units.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

ELM-MSN: Pediatric Nurse Practitioner–Primary Care (PNP-PC)

The Entry-Level Master of Science in Nursing (ELM) (p. 903) with a Pediatric Nurse Practitioner-Primary Care (PNP-PC) (<https://www.apu.edu/nursing/programs/pediatric-nurse-practitioner/>) specialty prepares registered nurses to be nurse practitioners with children and their families in primary healthcare settings. This advanced practice specialty includes direct client assessment, diagnosis, management and treatment, client advocacy, client/family education, consultation, and program planning, implementation, evaluation, and research. Graduates are eligible to apply to the state of California Board of Registered Nursing for certification as a nurse practitioner and may apply for national PNP-PC certification through examination.

Contact the School of Nursing (<https://www.apu.edu/nursing/>) for specific program availability and locations. Prelicensure coursework (p. 903) must be completed prior to beginning advanced practice nursing coursework.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

ELM-MSN: Psychiatric Mental Health Nurse Practitioner (PMHNP) Specialty

This specialty master's program (<https://www.apu.edu/nursing/programs/psychiatric-nurse-practitioner/>) prepares students for roles as psychiatric mental health nurse practitioners for clients with psychiatric and mental health problems across the lifespan. Students learn to work respectfully and collaboratively with clients/consumers who are experiencing severe or chronic mental illnesses to determine biopsychosocial healthcare needs within a complex and changing environment. Theory and clinical coursework focuses on assessment; differential diagnosis and disease management; intervention planning; individual, family, and group psychotherapy; health promotion; and disease prevention. Mental-health-related policy, and the application of research and evidence-based practice, informs the psychiatric mental health nurse practitioner.

The inherent equality and worthiness of those who are vulnerable and disenfranchised; the role of spirituality; the value of diversity; and the ability to engender hope, empowerment, self-responsibility, and a meaningful role in life are threaded throughout the program. Graduates are eligible to apply to the California Board of Registered Nursing for certification as a nurse practitioner, and may apply for national PMHNP certification through examination.

Contact the School of Nursing (<https://www.apu.edu/nursing/>) for specific program availability and locations. Prelicensure coursework (p. 903) must be completed prior to beginning advanced practice nursing coursework.

ELM-MSN: School Nurse Services Credential (SNSC) and Family Nurse Practitioner (FNP)

This combined specialty program prepares nurses to be effective practitioners of school health and provide primary care for people of all ages in a variety of other settings. Students develop theoretical and practical expertise in nursing and education applied to basic health services in public schools (K-12). This prepares nurses to establish, maintain, and coordinate a comprehensive school health program. The advanced practice family nurse practitioner specialty includes direct client assessment, diagnosis, management and treatment, client advocacy, client/family education, consultation, program planning, implementation, evaluation, and research.

Graduates are eligible to apply to the state of California for the School Nurse Services Credential, and to apply for certification as a Family Nurse Practitioner. They are also qualified for and may seek national FNP certification by examination through specialty organizations. For details about academic core, advanced practice core, and concluding courses, see the MSN program requirements (p. 923). Students must also take a state-of-California-approved audiometry course to meet the SNSC requirements.

Contact the School of Nursing (<https://www.apu.edu/nursing/>) for specific program availability and locations. Prelicensure coursework (p. 903) must be completed prior to beginning advanced practice nursing coursework.

ELM-MSN: School Nurse Services Credential (SNSC) and Pediatric Nurse Practitioner–Primary Care (PNP-PC)

This combined specialty program prepares nurses to be effective practitioners of school health and provide primary care for children in a variety of settings. Through the program, students develop theoretical and practical expertise in nursing and education applied to basic health services in the public schools (K-12). This enables them to establish, maintain, and coordinate a comprehensive school health program. The advance practice pediatric primary care nurse practitioner specialty includes direct client assessment, diagnosis, management and treatment, client advocacy, and client/family education. Graduates are eligible to apply to the state of California for the school nurse services credential. They are eligible to apply to the California Board of Registered Nursing for certification as a nurse practitioner, and may apply for national PNP certification by examination. Students must take a California-approved audiometry course to meet the SNSC requirements.

Contact the School of Nursing (<https://www.apu.edu/nursing/>) for specific program availability and locations. Prelicensure coursework (p. 903) must be completed prior to beginning advanced practice nursing coursework.

³ Student must also take a California-approved audiometry course to meet the SNSC requirements.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity, and applying spiritual concepts.
2. Engage in scholarly inquiry and critical thinking, including evaluation and application of evidence-based research.
3. Appraise and apply knowledge to develop, implement, and evaluate interventions that promote health and prevent disease.
4. Demonstrate thoughtful analysis of the legal, political, ethical, and/or financial factors impacting health care.
5. Use information systems and technology to communicate, manage knowledge, promote quality, mitigate error, and support decision-making.
6. Demonstrate the ability to coordinate and collaborate with other health care team professionals.
7. Engage in clinical reasoning, effective communication, and act as change agents to develop professional identity and practice skill.

Department of Healthcare Administration

Welcome to the Department of Healthcare Administration.

The Master of Science in Healthcare Administration (p. 919) is for those with bachelor degrees in nonclinical fields who are working professionals that want to advance and are interested in management and leadership positions in healthcare settings. The program provides students with the competencies necessary to develop and implement solutions that address today's unique challenges facing the healthcare industry. Conceptual, analytical, and experiential skills required to manage contemporary healthcare organizations are emphasized with field experience designed to advance preparation for a management role.

Courses are taught by faculty from both the School of Nursing and the School of Business and Management. The program includes topics in contemporary healthcare delivery models, leadership and management, healthcare informatics and technology, healthcare finance and business analysis, decision making and project management, legal and ethical principles in healthcare, and workforce management. Students choose a specialty track in quality and innovation, or financial management in healthcare, or international health. This Christian-value-driven, competency-based Master of Science in Healthcare Administration program provides students with the capacity to lead and manage healthcare organizations both effectively and ethically. The program is offered as an asynchronous online program.

The Master of Science in Nursing (MSN) in Healthcare Administration and Leadership (<http://catalog.apu.edu/academics/school-nursing/healthcare-administration-leadership/healthcare-administration-leadership-msn/>) is for BSN-prepared registered nurses who are looking to advance their careers and move into early- to mid-level management and leadership roles in myriad healthcare settings. The program provides values-based education to develop nursing leaders who are effective collaborators, motivated by a spirit of commitment to the profession, and have a genuine compassion for others. Students acquire the knowledge and skills necessary to lead and manage healthcare teams in organizations, functioning in areas such as operations management, project management, and healthcare consulting.

The program includes graduate nursing core courses focused on a critical analysis of nursing and healthcare research and theory, bioethics, healthcare policy, and the integration of spirituality in health care. Interdisciplinary administration and leadership coursework is offered through the School of Nursing and APU's School of Business and Management. Content includes leadership styles and theories, strategic planning, quality improvement and patient safety, change management, effective communication and conflict resolution skills, staffing challenges and constraints, financial management, and healthcare informatics. Students apply their knowledge and develop competencies in healthcare settings during practicum experiences. Upon completion of this program, students will have had the educational content required to sit for the American Nurses Credentialing Center (<https://www.nursingworld.org/ancc/>) and American Organization for Nursing Leadership (<https://www.aonl.org/>) nurse leadership examinations.

Programs

- Master of Science in Healthcare Administration
- Master of Science in Nursing in Healthcare Administration and Leadership (<http://catalog.apu.edu/academics/school-nursing/healthcare-administration-leadership/healthcare-administration-leadership-msn/>)

Certificate

- Post-Master's Certificate in Healthcare Administration and Leadership (<http://catalog.apu.edu/academics/school-nursing/healthcare-administration-leadership/healthcare-administration-leadership-post-masters-certificate/>)

Courses

MHA 560, Strategic Leadership in Health Care, 3 Units

Students in this course develop knowledge, skills, and attitudes about leadership across the healthcare continuum as they consider the professional role of the healthcare administrator from leadership and management perspectives. Areas of emphasis include leadership theory, structure of healthcare institutions, systems thinking and decision making, and performance improvement including quality and safety issues, risk management, and effective communication skills. Application of business skills is integrated, and students consider the theoretical and research background, current issues and trends, and leadership and administrative implications of specific topics.

Prerequisite: Admission to the M.S. in Healthcare Administration program.

MHA 570, Quality Management, 3 Units

The course focuses on the conceptual foundation of healthcare quality, systems thinking, and the principles of healthcare quality management that include measurement, assessment, and improvement. Students use improvement models, apply tools and process techniques to communicate organizational, clinical, and safety outcomes. The integration of evidence for organizational decision-making with quality improvement processes serve as the framework for students to create a data-driven, quality management project plan. Students incorporate practical solutions to craft measurable expectations, realistic timelines, and an organized project management approach for direct application.

Prerequisite: PADM 512

MHA 571, Integrative Theories of Innovation in Health Care, 3 Units

This course helps student identify and develop skills in producing lasting innovations in healthcare settings. Course material builds on past theories of change, such as those by Lewin and Kotter, and includes other theories that support and sustain organizational change. It also features content on Rogers' diffusion of innovation theory, disruptive innovation, and strategies to promote the adoption of innovation.

MHA 574, Global Field Study in Health Care, 3 Units

This course provides a framework for graduate students to engage in field study in various countries around the world. Students participate in organizational assessment visits to healthcare organizations locally and globally to discuss the role of the administrator and how they apply and practice leadership, management, and change principles, concepts, and theories covered in the graduate curriculum. The global competency domains for healthcare leaders - leadership, communication and relationship management, professional and social responsibility, health and the healthcare environment, and business - are explored as part of the healthcare management profession.

MHA 580, Administrative Practicum, 2 Units

This course gives students the opportunity to experience the role of the healthcare administrator. Each student chooses an individualized administration practicum in a specific area of emphasis, approved and monitored by the faculty member and preceptor. Competencies that govern the role of the healthcare administrator are explored in depth, and students focus on the context for enacting the role of an administrator in a healthcare delivery system.

Prerequisite: All Academic Core and Administrative courses; MHA 597 can be taken concurrently.

MHA 586, Healthcare Analytics, Big Data, and Applied Statistics, 3 Units

This course is an introduction to healthcare data science and analysis that builds knowledge of the technical infrastructure, sources, and storage of electronic data. Statistical analysis, data mining, text analytics, and predictive analytics are explored to frame questions and inform decision making. Students utilize different information retrieval methods to answer clinical and operational questions by performing simple data analysis and visualization of healthcare data. Strategies are discussed for how to optimally use data and glean knowledge from within big data to advance healthcare organizations and demonstrate value. Students also explore Christian worldview principles demonstrating ethical data use in health informatics that respects the dignity and uniqueness of others, and the security and privacy of data.

Prerequisite: MHA 596

MHA 595, Special Topics, 3 Units

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development and/or to develop a particular project. If students elect this course more than once during their program, each such course must address a different topic.

MHA 596, Foundations of Healthcare Informatics, 3 Units

This course provides an overview of basic concepts for practice in healthcare-oriented informatics. These core concepts include an introduction to clinical and translational informatics; foundational theory and practical application of clinical decision-making and computerized decision support; healthcare systems and their organization; the special issues of administration, security, and operations of electronic records in the healthcare setting; human factors issues; information science in the healthcare domain; standards, terminologies, and the uniqueness of biomedical data; and a special focus on emerging technologies.

MHA 597, Capstone, 1 Unit

Students integrate prior learning through the formulation of a case report providing strategic direction to a healthcare organization. The completed strategic plan demonstrates integration of theoretical, clinical, and research knowledge from coursework throughout the program, and is applied to a healthcare problem in an actual healthcare setting: Students perform a SWOT analysis, a review and synthesis of current literature, select an appropriate theoretical framework, determine solutions to the problem, and develop an implementation plan. Students also create an electronic professional portfolio to highlight competencies gained throughout the program. Course success is dependent upon the candidate's ability to clearly identify a healthcare problem and develop an evidence-based solution. Participation in writing assignments is required for successful completion of this course. The responsibility for deep exploration of the chosen scenario and preparation for writing the case report rests with each candidate.

Prerequisite: All Academic Core and Administrative courses must be completed; MHA 580 may be taken concurrently.

MHA 599, Readings in Healthcare Administration, 1-3 Units

A student may elect to pursue special interests for credit at any time during the program under the supervision of a faculty member. University policy states that the student must earn a grade in an independent study course in order to receive credit toward graduation.

FIN 502, Business Finance for Managers, 3 Units

This course provides an introduction to concepts and tools of business finance for managers. Students study financial statements and their interpretation, business performance measures, the management of cash and the short term financial needs of the organization, and how to make good capital budgeting decisions. Students will analyze company performance and make recommendations by applying class content to financial issues.

FIN 536, Entrepreneurial Finance, 3 Units

This course examines the financial decisions of entrepreneurs and venture capital investors based on the stages of a venture development. Topics include financial options for entrepreneurs and investors, preparations for and analysis of a new business' financial statements, and the valuation of the venture.

Prerequisite: FIN 513 (MBA students only; MBM and MSHA students have no prerequisite for this course)

FIN 567, Advanced Financial Analysis, 3 Units

Students explore the practical applications of financial management based on case studies. Major topics include financial statement analysis, financial forecasting, cost of capital estimation, capital budgeting decisions, capital structure decisions, equity financing, and mergers and acquisitions.

Prerequisite: FIN 513 (MBA/Accounting students only), FIN 502 (MSHA students only)

GNRS 504, Bioethics and Healthcare Policy, 3 Units

This course will outline the role of the healthcare leader in ensuring human rights are upheld in healthcare systems. This course focuses on bioethical analysis, decision-making and moral policy analysis, and formulation. Through course discussion, group and individual assignments, and oral and written presentations, students will analyze and apply bioethical principles to decision- and policy- making processes in the workplace and at national levels. Healthcare ethics and policy will be considered from a Christian worldview.

Prerequisite: Graduate standing

GNRS 506, Spiritual Concept Analysis in Health Care, 3 Units

Scholarly research and analysis of selected concepts in the spiritual care of persons from the Judeo-Christian perspective provide a central focus to the course. Students also examine healthcare research/other healthcare literature for adequacy with respect to the concept they select. Various assignments facilitate greater student awareness of their own spiritual journey and knowledge of faith traditions other than their own. The course is conducted as a tutorial/seminar experience.

Prerequisite: Graduate standing

GNRS 508B, Research and Theory in Healthcare, 4 Units

This course prepares the healthcare administrator to apply theory and research evidence in healthcare environments. The relationship between theory and research is examined, exploring questions about the nature, construction, and use of each. Selected theories are explored, and students learn how ideas are developed and used in practice and research. Students learn the fundamentals of quantitative, qualitative, and mixed methods research and deepen their understanding through systematic search, critique, and summary of research studies with application to healthcare. Students work in groups to develop a research plan addressing a healthcare-derived question. Experience in statistical analysis of research data is included.

Prerequisite: GNRS 613

GNRS 543, Transitions Across the Care Continuum, 4-6 Units

This course focuses on principles and models of care and their implementation in a multidisciplinary practice environment that emphasizes healthcare delivery through integration of services and transition management. Students are introduced to decision making related to allocation of resources and services, development of protocols, and evaluation of management approaches. Evidence-based approaches to the clinical, administrative, educational, and research dimensions of patient care are emphasized. Evaluation of care management activities with the student's selected clinical population is an integral component of the course.

Prerequisite: NP students: completion of Advanced Practice Core; CNS students: completion of Advanced Practice Core and GNRS 520 or GNRS 530; HAL students: completion of MSN Core and GNRS 560.

Corequisite: Practicum

GNRS 560, Strategic Leadership in Health Care, 3 Units

This course is designed to develop knowledge, skills and attitudes about leadership across the healthcare continuum. The student will consider the professional role of the healthcare administrator both from a leadership and a management perspective. Areas of concentration will include leadership theory, structure of healthcare institutions, systems thinking and decision-making, performance improvement including quality and safety issues, risk management and effective communication skills. Application of business skills will be integrated. Students will consider the theoretical and research background, current issues and trends, leadership and administrative implications of specific topics.

MGMT 561, Managing Teams and Conflict, 3 Units

This course helps the student understand small-group behavior. It uses experience-based methods, cases, reading material, and simulation, and examines role behavior, group dynamics, conflict control, leadership, and group development. It also addresses motivation and problem solving as essential elements of organizational behavior.

GNRS 567, Healthcare Administration and Leadership Supervised Practicum, 3 Units

This course provides the student with the opportunity to experience the role of healthcare administrator. An individualized administration practicum in a specific area of clinical emphasis is chosen by the student and approved and monitored by the faculty and preceptor. Competencies that govern the role of the healthcare administrator are explored in depth. Students focus on the context for enacting the role of administrator in a healthcare delivery system.

Prerequisite: All core and role courses

GNRS 568, Healthcare Finance, 4 Units

This course is an introduction to financial concepts and skills need for healthcare leaders, managers, and executives. The student will develop skills in assessing multiple dimensions of financial performance and methods to improve the financial health of an organization in the context of current patient care system.

GNRS 597, Comprehensive Examination Directed Study, 1 Unit

This course guides the student through the process of demonstrating an integration of theoretical, clinical, and research knowledge. Critical thinking is enhanced through careful consideration of information presented during discussion. The examinations are taken as part of this seminar.

Prerequisite: Completion of all Academic Core and degree specialty courses. Final specialty course may be taken concurrently.

GNRS 613, Graduate Statistics, 3 Units

This course presents the knowledge of descriptive, correlational, and inferential statistics used in research that serves as the basis for evidence-based practice. Students develop the ability to perform descriptive and inferential data analysis techniques, use software applications to aid in statistical calculations and presentation, and interpret findings.

MGMT 502, Developing Management Skills, 3 Units

This course provides an introduction to management skills necessary for the twenty-first century characterized by chaotic, transformational, and rapid-fire change. Scientific evidence demonstrates how management skills are associated with personal and organizational successes. Although management skills are applicable in most areas of your life, this course will focus on work setting management skills to help students improve their own competency in a managerial role.

MGMT 503, Business Strategy: Theory and Practice, 3 Units

This course provides a review of management as an area of theoretical development as well as a field of practice. It comprises classical management theories and modern approaches to organization and business. Main blocks of the course are functions of management, managerial processes and interaction between organizations and their environment. This course includes elements of organizational behavior. Business cases are used as application of theoretical concepts.

MGMT 516, High-Performance People Management, 3 Units

This course provides students with the social science tools needed to solve organizational problems and influence the actions of individuals, groups, and organizations. It prepares managers to understand how to best organize and motivate the human capital of the firm, manage social networks and alliances, and execute strategic change.

MGMT 517, Managing Human Capital, 3 Units

Students study the establishment of human resource objectives and requirements in an organization. Emphasis is on executive decision making in dealing with formal employee-employer relationships. Collective bargaining, organization of employees, negotiation, and administration of collective bargaining agreements are covered.

Prerequisite: HROD 500 or GNRS 560

MGMT 541, Global Business Management, 3 Units

This course focuses on the environmental and functional differences between U.S. and international business, including exporting, balance payments, strategic planning, organization of multinational firms, international financial planning and cash management, foreign exchange planning, comparative management philosophies, international marketing strategies, incorporation for international operations and external relations of the multinational corporation.

PADM 512, Healthcare Administration, 3 Units

This course covers the foundations of healthcare administration in the United States, introducing students to the structure and function of the healthcare system. Topics include theory and models of healthcare administration, public policy impacts and scarcity, partnerships and achieving equality in healthcare governance at the national, state, and local levels, community environments, and critical issues in health services. Students explore Christian faith-based alternatives for alleviating healthcare burdens, and conduct a community health system analysis.

Prerequisite: Admitted to MPA or M.S. in Healthcare Administration program, Nursing, MBA/MBM Program or permission of MPA director.

MS in Healthcare Administration

Requirements

Code	Title	Units
Academic Core Courses ¹		
GNRS 504	Bioethics and Healthcare Policy	3
GNRS 506	Spiritual Concept Analysis in Health Care	3
MHA 586	Healthcare Analytics, Big Data, and Applied Statistics	3
MHA 570	Quality Management	3
Administrative Courses		

MHA 560	Strategic Leadership in Health Care	3

MHA 574	Global Field Study in Health Care	

Total Units**39**

¹ Students must have successfully completed a college-level statistics course to be admitted to the MSHA program.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Guided by a Christian worldview, demonstrate ethical conduct, integrity, transparency, and accountability for one's actions, valuing diversity, and respecting the dignity and uniqueness of others.
2. Use analytical, quantitative and critical thinking skills to implement actions, foster innovation, and advance healthcare priorities.
3. Apply principles of leadership to promote teamwork and collaborative decision-making among diverse stakeholders.
4. Employ system-level thinking and communication to address healthcare delivery issues, organizational outcomes of quality and safety, efficiency, cost-effectiveness, and health equity.
5. Use information systems, data, and technology to communicate, manage risk, promote quality, and inform decision-making and strategic growth.
6. Exhibit knowledge of financial management, regulatory factors, and ethical principles to meet organizational challenges in healthcare.

7. Exemplify personal and professional accountability, a professional identity and reflective, self-directive learning for ongoing professional development.

MSN in Healthcare Administration and Leadership

The Master of Science in Nursing (MSN) in Healthcare Administration and Leadership (<https://www.apu.edu/nursing/programs/masters-in-healthcare-administration/>) is designed for BSN-prepared registered nurses who are looking to advance their careers and move into early- to midlevel management and leadership roles in a variety of healthcare settings. The program provides values-based education to develop nursing leaders who are effective collaborators, motivated by a spirit of commitment to the profession, and have a genuine compassion for others. Students will acquire the knowledge and skills necessary to lead and manage healthcare teams in organizations, functioning in areas such as operations management, project management, and healthcare consulting.

The program focuses on nursing leadership, advancing understanding of core aspects including nursing and healthcare research and theory, healthcare policy, bioethics, and spirituality. Administration and leadership coursework is interdisciplinary and offered through the School of Nursing and the School of Business and Management. Content includes leadership styles and theories, strategic planning, quality improvement and patient safety, change management, effective communication and conflict resolution skills, staffing challenges and constraints, financial management, and healthcare informatics. Students apply their knowledge and develop competencies in healthcare settings during practicum experiences. Upon completion of this program, students will have had the educational content required to sit for the American Nurses Credentialing Center (<https://www.nursingworld.org/ancc/>) and American Organization for Nursing Leadership (<https://www.aonl.org/>) nurse leadership examinations.

Requirements

¹ Units in parentheses are classroom/clinical units.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity, and applying spiritual concepts.
2. Engage in scholarly inquiry and critical thinking, including evaluation and application of evidence-based research.
3. Appraise and apply knowledge to develop, implement, and evaluate interventions that promote health and prevent disease.
4. Demonstrate thoughtful analysis of the legal, political, ethical, and/or financial factors impacting health care.
5. Use information systems and other technology to communicate, manage knowledge, promote quality, mitigate error, and support decision making.
6. Demonstrate the ability to coordinate and collaborate with other healthcare team professionals.
7. Engage in clinical reasoning and effective communication, and act as a change agent to develop professional identity and practice skill.

Post-Master's Certificate in Healthcare Administration and Leadership

The Post-Master's Certificate in Healthcare Administration and Leadership (<https://www.apu.edu/nursing/programs/nursing-administration-certificate/>) program prepares professionals for administrative positions and leadership opportunities in nursing in a variety of healthcare settings. Coursework focuses on strategic leadership, leading change, managing teams and resources, and the business of healthcare finance and patient care delivery. This program is a way for nurses to advance their career options and builds on skills and knowledge obtained in a Master of Science in Nursing program. **Note: Students must be admitted to the university before registering for this program (see Admission section below).**

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Department of Master of Science in Nursing Advanced Practice

Master of Science in Nursing (MSN)

The Department of Master of Science in Nursing Advanced Practice offers a nationally accredited Master of Science in Nursing (p. 924) program, as well as credential and certificate programs, to prepare students to assume roles as clinical nurse specialists, nurse practitioners, educators, administrators, or school nurses. The combination of theory, research, and professional development also prepares graduates for doctoral study in nursing (p. 969).

The curriculum for these programs reflects the School of Nursing mission and is aligned with professional education standards for nursing. The programs are accredited by the Commission on Collegiate Nursing Education (<https://www.aacnnursing.org/CCNE/>), the California Board of Registered Nursing (<https://www.rn.ca.gov/>), and the California Commission on Teacher Credentialing (<https://www.ctc.ca.gov/>). Graduates are eligible to apply for state certification or a credential in their specialty and may take national certification examinations where these are offered through specialty organizations.

Program Learning Outcomes

Graduates of the Master of Science in Nursing program will be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity, and applying spiritual concepts.
2. Engage in scholarly inquiry and critical thinking, including evaluation and application of evidence-based research.
3. Appraise and apply knowledge to develop, implement, and evaluate interventions that promote health and prevent disease.
4. Demonstrate thoughtful analysis of the legal, political, ethical, and/or financial factors impacting health care.
5. Use information systems and other technology to communicate, manage knowledge, promote quality, mitigate error, and support decision making.
6. Demonstrate the ability to coordinate and collaborate with other healthcare team professionals.
7. Engage in clinical reasoning and effective communication, and act as a change agent to develop professional identity and practice skill.

Transfer of Credits

Following admission, 9 units of approved graduate work completed elsewhere may be applied toward the MSN degree. Advanced Health Assessment may be considered for transfer credit if it was taken postlicensure as a registered nurse and the student was enrolled in an advanced practice nursing program. Advanced Pharmacology may be considered for transfer credit toward GNRS 611 (formerly GNRS 594) if it was taken less than 24 months prior to the APU MSN program admit date.

Additional Requirements

During the admission process, a review of academic transcripts is performed to assess whether the applicant has completed the prerequisite courses listed below. If not, students must complete the prerequisite courses as part of their MSN program before continuing to advanced practice courses (e.g., take undergraduate health assessment before advanced health assessment; take applied statistics and a nursing research course before the advanced practice research course).

Code	Title	Units
Prerequisite Courses for MSN APRN Programs		
MATH 130 or UNRS 299	Introduction to Statistics Statistics and Data Management for Nursing and Health Care	3
UNRS 220	Health Assessment	3
UNRS 367	Pathophysiology	3
UNRS 382	Community Health Nursing	3
UNRS 403	Leadership and Management in Professional Practice	2
UNRS 425	Nursing Research	3
Total Units		17

At the beginning of clinical coursework, including health assessment lab, students are required to provide documentation including RN licensure, CPR certification, TB screening, and immunizations appropriate for the clinical setting.

A student's health status must permit him/her to safely undertake and complete clinical experience required for the degree. As a fully prepared health professional, the student is expected to take responsibility for self-evaluation of her/his health status, including an assessment of the safety and appropriateness of practice in the clinical context, for the student and the patient.

The Joint Commission (<https://www.jointcommission.org/>), contracted facilities, and the School of Nursing require that all graduate students undergo a background check prior to their placement at clinical sites. The cost of the background check is the responsibility of the student. International students will have additional fees based on the cost of a background check in their country.

The MSN program requires that students have ongoing clinical work experience.

Students may select additional elective courses to support their programs of study as directed by faculty.

Programs

- MSN with Single Specialties (p. 945)
- MSN with Credentials (p. 942)
- Post-Bachelor's Credentials (p. 950)
- Post-Master's Certificate Programs (p. 951)

Courses

GNRS 500, Conceptual Foundations of Professional Nursing, 3 Units

This course focuses on the introductory concepts crucial to the socialization of second career students to professional nursing. The history of nursing, the evolution of nursing in the U.S., the art and science of nursing, the legal and professional basis of nursing, the role of nursing in the health care delivery system, and current issues and trends in nursing education, practice and research are emphasized.

GNRS 501, Theoretical Thinking in Nursing, 2 Units

This course examines questions about the nature and construction of theory and how theoretical ideas are developed and used in nursing practice and research. Philosophical ideas underlying theory are examined, and selected theoretical models and theories are explored.

Prerequisite: Completion of undergraduate research course or instructor's consent; admission to ELM or MSN program.

GNRS 503, Cultural Competency in Health Care, 3 Units

This course focuses on transforming graduate nursing students, preparing them for nursing leadership in nursing practice, nursing research, education, and public health policy for the improvement of patient healthcare outcomes in our increasingly diverse society. Students move from cultural sensitivity and awareness to critical reflection and action, challenging their assumptions and broadening their perspectives. The Essentials of Master's Education in Nursing (American Association of Colleges of Nursing, 2011) serves as the foundation for the development of core cultural competencies.

Prerequisite: Graduate standing in the School of Nursing.

GNRS 504, Bioethics and Healthcare Policy, 3 Units

This course will outline the role of the healthcare leader in ensuring human rights are upheld in healthcare systems. This course focuses on bioethical analysis, decision-making and moral policy analysis, and formulation. Through course discussion, group and individual assignments, and oral and written presentations, students will analyze and apply bioethical principles to decision- and policy- making processes in the workplace and at national levels. Healthcare ethics and policy will be considered from a Christian worldview.

Prerequisite: Graduate standing

GNRS 505, Christian Formation for Holistic Care, 3 Units

Students engage in the process of discovering the foundational values of Azusa Pacific University that serve as guiding principles for the distinctive education they will receive. They are made aware of the Christian worldview and its implications for personal holistic development and care. With a focus on developing motivating character and integrated caregivers, the course brings heightened self-awareness, the impact of a Christian worldview on vocation, scriptural awareness especially emphasizing healing themes in the life of Christ, and the importance of spiritual growth on the journey toward formation.

GNRS 506, Spiritual Concept Analysis in Health Care, 3 Units

Scholarly research and analysis of selected concepts in the spiritual care of persons from the Judeo-Christian perspective provide a central focus to the course. Students also examine healthcare research/other healthcare literature for adequacy with respect to the concept they select. Various assignments facilitate greater student awareness of their own spiritual journey and knowledge of faith traditions other than their own. The course is conducted as a tutorial/seminar experience.

Prerequisite: Graduate standing

GNRS 507, Scientific Writing, 3 Units

This course provides opportunities for students to learn how to introduce a topic or issue, articulate a thesis, support and develop a thesis and subordinate claims, work with secondary sources, and organize an argument.

GNRS 508A, Research and Theory in Advanced Practice Nursing, 4 Units

This course prepares nurses to use theory and research evidence in advanced clinical practice. The relationship between theory and research is examined, exploring questions about the nature, construction, and use of each. Selected theoretical models and theories are explored, and students learn how ideas are developed and used in nursing practice and research. Students deepen their understanding of the research process by engaging in a systematic search, critique, and summary of research studies with direct application to nursing practice. Experience in statistical analysis of research data is included.

Prerequisite: Computer literacy, undergraduate research course, undergraduate statistics course, and graduate standing

GNRS 508B, Research and Theory in Healthcare, 4 Units

This course prepares the healthcare administrator to apply theory and research evidence in healthcare environments. The relationship between theory and research is examined, exploring questions about the nature, construction, and use of each. Selected theories are explored, and students learn how ideas are developed and used in practice and research. Students learn the fundamentals of quantitative, qualitative, and mixed methods research and deepen their understanding through systematic search, critique, and summary of research studies with application to healthcare. Students work in groups to develop a research plan addressing a healthcare-derived question. Experience in statistical analysis of research data is included.

Prerequisite: GNRS 613

GNRS 510, Family Theory in Health Care, 2 Units

The major theoretical perspectives for understanding the family as a core unit of analysis are studied. This course fosters the student's recognition of the family's responsibility for health. Factors such as family patterns and care-giving tasks of families experiencing catastrophic or chronic alteration in health care are examined. This class is offered online.

Prerequisite: Graduate standing

GNRS 511, Advanced Pediatric Health Assessment and Health Promotion, 4 Units

This course develops the graduate nurse's assessment skills and focuses on the promotion of health in the pediatric population from the newborn period through adolescence. Emphasis is on adapting and expanding the medically focused history and physical assessment to incorporate the assessment of traditional health practices and identify culturally relevant and age-appropriate health promotion strategies. Outcomes are examined in light of related theoretical concepts. Strategies for health promotion include a focus on developmental and behavioral assessments, emotional health, nutrition, counseling to modify risk factors, and screening tests/prophylaxis for early detection and prevention of disease.

Prerequisite: Undergraduate health assessment and GNRS 610;

Corequisite: Practicum

GNRS 513, Advanced Nursing Practice Role, 2 Units

This course focuses on the concepts of role development and performance competence of the nurse in advanced clinical practice within the context of a reformed health care delivery system. Emphasis is placed on the clinician, educator, clinical program manager, consultant, researcher, and case manager roles of the advanced practice nurse. The leadership aspects of the roles of advanced practice are explored in relation to health care delivery, policy formulation, and legislation. The course explores theories and issues related to the advanced nursing practice role.

Prerequisite: Graduate standing

GNRS 514, Research Proposal Writing, 2 Units

This course focuses on the application of the concepts in GNRS 508A. The goal is the completion of a research proposal that details the problem, the research purpose, questions or hypotheses to be tested, a critique of the literature, the design and methods of the study including protection of human subjects, the plans for analysis, use of the study, and the budget and personnel.

Prerequisite: GNRS 508A

GNRS 516, Integrative Disease and Symptom Management, 3 Units

Using a systems-based approach, this course provides the student with a broad-based, graduate-level overview for understanding disease processes, treatment modalities, assessment and interventional strategies for patients across the life span.

GNRS 517, Fundamentals in Nursing Practice, 2 Units

This is an experiential learning course designed to teach basic nursing skills in a clinical skills or simulation laboratory setting to prepare students to deliver safe and patient-focused nursing care. Utilizing the nursing process, students perform basic skills in assessment, patient care across the continuum, documentation, patient-family teaching, and infection control.

GNRS 518, Supervised Practicum in Health Care, 3 Units

This course prepares students to integrate and apply theory, evidence-based practice, and national guidelines and standards in practicum settings. Students select practicum areas in which, with faculty approval, they will participate in experiences led by preceptors. The purpose of the course is to equip students with current, evidence-based knowledge in a selected practice area.

GNRS 520, Theory and Practice of the Clinical Nurse Specialist in Nursing Care of Adult-Gerontology Patients, 6 Units

Critical concepts in advanced collaborative management of adult-gerontology client populations by Clinical Nurse Specialists are studied. Differential diagnosis, pharmacologic management, cultural sensitivity, adult-gerontology continuum of health and illness (i.e., wellness, health promotion, disease prevention), teaching-learning theory, and evidence-based best practices for clinical decision-making for the Adult and Geriatric population are highlighted. CNS roles, competencies, and professional issues and integrated clinical rotations will be chosen from critical care or medical-surgical adult-gerontology populations. Clinical seminar times allow students to discuss and analyze current professional issues and clinical problems in a collegial atmosphere.

Prerequisite: Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements;

Corequisite: Practicum

GNRS 521, Clinical Specialization in the Care of Adult-Gerontology Patients, 6 Units

The course prepares the student to apply concepts introduced in GNRS 520. It focuses on diagnosis and collaborative disease management of acute illness in the adult-gerontology patient by the Clinical Nurse Specialist. The integration of advanced skill development, theory and evidence based practice, disease management, clinical decision making, unit and organization management issues, professional issues and APRN role competencies are the foundation for this course. Practicum and seminars are planned to span the breadth of the students' clinical opportunities.

Prerequisite: Academic Core and Advanced Practice Core courses, GNRS 520, current RN license, CPR certificate, and meets health screening requirements;

Corequisite: Practicum

GNRS 522, Disaster Nursing and Emergency Preparedness, 3 Units

This course explores the nature of disasters and prepares nurses to respond to various types of disasters - including natural, environmental, mass casualty, public health emergencies, terrorism, and bioterrorism - by utilizing essential knowledge, skills, values, meanings, and experience in the basic competencies of emergency preparedness and disaster nursing. In accordance with the position of major nursing organizations, emphasis is placed on evidence-based best practices for personal preparedness.

Prerequisite: Comparable course, such as UNRS 312 Nursing Management of Adults, a human growth and development course, a lifespan course OR an RN licensure.

GNRS 530, Theory and Practice of the Clinical Nurse Specialist in the Care of the Pediatric Patient, 6 Units

Critical concepts in the advanced collaborative management of pediatric client populations by the Clinical Nurse Specialists are studied. Differential diagnosis, pharmacologic management, cultural sensitivity, pediatric continuum of health and illness (i.e., wellness, health promotion/disease prevention), teaching-learning theory, and evidence-based/best practices for clinical decision-making for the Pediatric population are highlighted. CNS roles, competencies, and professional issues are integrated. Clinical rotations will be chosen from critical care or medical-surgical pediatric populations. Clinical seminar times allow students to discuss and analyze current professional issues and clinical problems in a collegial atmosphere.

Prerequisite: Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements;

Corequisite: Practicum

GNRS 531, Clinical Specialization in the Care of the Pediatric Patient, 6 Units

The course prepares the student to apply concepts introduced in GNRS 530. It focuses on diagnosis and collaborative disease management of acute illness in the pediatric patient by the Clinical Nurse Specialist. The integration of advanced skill development, theory and evidence based practice disease management, clinical decision making, unit and organization management issues, professional issues and APRN role competencies are the foundation for this course. Practicum and seminars are planned to span the breadth of the students' clinical opportunities.

Prerequisite: Academic Core and Advanced Practice Core courses, GNRS 530, current RN license, CPR certificate, and meets health screening requirements;

Corequisite: Practicum

GNRS 532, Advanced Nursing Practice in Pediatrics, 6 Units

This course emphasizes physiological and psychological bases for critical and chronic conditions in children, focusing on an advanced science base for the assessment, diagnosis, and management of children and families to promote wellness. Exploration of traditional versus alternate medicine treatment plans, as well as relevant cultural, spiritual, and health promotion strategies, is incorporated.

Prerequisite: Graduate status and GNRS 590A;

Corequisite: Practicum

GNRS 533, Psychiatric Theories across the Life Span, 2 Units

This course presents neurobiologic, neuroendocrine, genomic, behavioral, and psychodynamic theories of psychiatric mental illnesses as they manifest among members of diverse cultural groups across the life span. A theoretical foundation for subsequent coursework in primary psychiatric mental health care is provided for the role of the psychiatric mental health nurse practitioner.

Prerequisite: Graduate standing, Advanced Practice Core

GNRS 534, Integrated Psychiatric and Health Assessment across the Life Span, 2 Units

This course teaches the role of the psychiatric mental health nurse practitioner in interviewing, assessing, and utilization of other data collection methods to elicit, analyze, and evaluate bio-psychosocial information regarding psychiatric mental health illness as experienced and understood by the clients, across the lifespan. Assessment and integration of the effects of potential and/or existing co-morbid health problems are focused upon. Diagnostic reasoning that is based on the Diagnostic Statistical Manual is foundational in the course. Development of differential diagnoses and disease management, evidence-based practice, and health promotion that includes client and nurse practitioner collaboration is emphasized.

Prerequisite: Advanced Practice Core, GNRS 533 (May be taken concurrently)

GNRS 535, Psychiatric Interventions and Health Promotion across the Life Span, 6 Units

In this course students learn historical, theoretical, and contemporary evidence-based psychotherapies that promote and support client stabilization, rehabilitation, and recovery. The client as a collaborating decision making consumer and the client-clinician therapeutic alliance are central to this course. Students increase competence in assessment of psychiatric mental health illnesses, differential diagnoses and disease management, implementation of psychotherapy (individual, group, family), medication management, and health promotion interventions, including motivational interviewing. Student competence in developing and facilitating therapeutic groups as a recovery modality are included in the course. The role of the psychiatric mental health nurse practitioner in the integration and coordination of support services that impact mental health and illness is also included. Students practice verbal psychotherapeutic skills that motivate and facilitate client self-management and progression toward recovery.

Prerequisite: Advanced Practice Core, GNRS 533 and GNRS 534; GNRS 539 may be taken concurrently;

Corequisite: Practicum

GNRS 536, Psychiatric Mental Health Care with Adults and Older Adults, 6 Units

In this course students increase their knowledge and competence in the assessment of psychiatric mental health illnesses, differential diagnoses and disease management, implementation of psychotherapy (individual, family, group), evidence-based practice, medication management, health promotion and disease prevention interventions, integration and coordination of support services, with adults and older adults.

Prerequisite: GNRS 533, GNRS 534, GNRS 535, GNRS 539;

Corequisite: Practicum

GNRS 537, Psychiatric Mental Health Care with Children and Adolescents, 6 Units

In this course, students increase competence in the role of the psychiatric mental health nurse practitioner in the assessment of psychiatric mental health illnesses, differential diagnosis and disease management, implementation of psychotherapy (individual, family, group), evidence-based practice, medication management, health promotion and disease prevention interventions, integration and coordination of support services with children, adolescents, and families.

Prerequisite: GNRS 533, GNRS 534, GNRS 535, GNRS 536, GNRS 539;

Corequisite: Practicum

GNRS 538, Psychiatric Mental Health Care with Selected Populations, 5 Units

Students increase knowledge and competence in the assessment of psychiatric and mental health illnesses, differential diagnosis and disease management, implementation of psychotherapy (individual, family, group), medication management, health promotion and disease prevention interventions, and integration and coordination of support services with a selected population. Focus is on integrating and practicing all aspects of the role of the psychiatric mental health nurse practitioner with clients who are experiencing acute and/or chronic mental health problems and psychiatric disorders.

Prerequisite: GNRS 533, GNRS 534, GNRS 535, GNRS 536, GNRS 539;

Corequisite: Practicum

GNRS 539, Psychopharmacology, 2 Units

Students in this course build upon knowledge of advanced practice nursing and provides content essential for the psychiatric mental health nurse practitioner to prescribe appropriate pharmacologic treatment in practice. Mechanisms of action, interactions, side effects, and prescribing guidelines for psychopharmaceuticals commonly utilized across the lifespan are addressed.

Prerequisite: GNRS 533, GNRS 534; GNRS 535 (May be taken concurrently)

GNRS 542, Advanced Concepts and Competencies in Pediatric Primary Health Care, 3 Units

This course offers a comprehensive review and synthesis of core concepts and competencies for the pediatric advanced practice nurse in the primary care setting. This culminating experience for pediatric nurse practitioner students incorporates seminar discussions and clinical practicum placement, and also allows for a discussion of developmental/behavioral issues, management of acute and chronic care illnesses seen in primary care settings, and preventative health care.

Prerequisite: Graduate standing, GNRS 532 (may be taken concurrently with instructor's permission), and GNRS 590A;

Corequisite: Practicum

GNRS 543, Transitions Across the Care Continuum, 4-6 Units

This course focuses on principles and models of care and their implementation in a multidisciplinary practice environment that emphasizes healthcare delivery through integration of services and transition management. Students are introduced to decision making related to allocation of resources and services, development of protocols, and evaluation of management approaches. Evidence-based approaches to the clinical, administrative, educational, and research dimensions of patient care are emphasized. Evaluation of care management activities with the student's selected clinical population is an integral component of the course.

Prerequisite: NP students: completion of Advanced Practice Core; CNS students: completion of Advanced Practice Core and GNRS 520 or GNRS 530; HAL students: completion of MSN Core and GNRS 560.

Corequisite: Practicum

GNRS 544, Clinical Specialization Residency, 2-4 Units

This elective residency program, formed through a partnership between the School of Nursing and selected community healthcare organizations, is an intensive, precepted clinical experience that helps students transition to beginning professional nurses in a specialized setting. It enhances students' skill and practice knowledge in preparation for the RN licensing examination, and increases their ability to perform clinical reasoning with the assigned patient population and evaluate the QSEN competencies of patient-centered care, safety, evidence-based practice, informatics, and teamwork and collaboration.

Prerequisite: ELM students must complete GNRS 573 (may be taken concurrently), but GNRS 573 is not required for nurses in community partnerships who are taking GNRS 544 for continuing education credit.

GNRS 546, Theory and Practice in Health Care Systems in the Community, 6 Units

This specialized course prepares RNs without a bachelor's degree for graduate study in nursing. A multiple theoretical focus that includes concepts from systems, stress, adaptation, developmental, and role theory is emphasized. A beginning practice in the utilization of the nursing process with an emphasis on nursing diagnosis and the nurse's role in assessing, planning, implementing, and evaluating care of clients in a variety of community settings is provided. Collaboration with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals and families at home are essential course components. A review of legal mandates for practice and discussion of ethical dilemmas and issues related to high quality nursing care are included. Specific content varies based on the students' prior education and experience. Clinical placements are arranged to meet the individual student's needs.

Prerequisite: Undergraduate research, pathophysiology, and health assessment;

Corequisite: Practicum

GNRS 547, Nursing Leadership in Acute Care Settings, 6 Units

This is one of two clinical courses provided for the RN who seeks both a bachelor's and master's degree in nursing. The course synthesizes selected information from the generic bachelor's and master's programs for presentation in a condensed format, addressing the development and nature of today's health care systems and associated issues in the United States. Further, content familiarizes the student with several roles and responsibilities of the contemporary nurse, such as leader, consultant, teacher, manager, and client advocate. The course focuses on client needs in acute health care settings and emphasizes the relationship between the health care system and the advocate.

Prerequisite: Undergraduate research, pathophysiology, and health assessment;

Corequisite: Practicum

GNRS 548, Health Promotion Across the Lifespan, 2 Units

The course focuses on health promotion and disease prevention across the lifespan and around the globe. The course includes exploration of population health issues, environmental implications in health and health policy, impact on health promotion and the development of disease.

Prerequisite: Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements

GNRS 550A, Theory and Practice in School Nursing, 6 Units

This combined didactic and clinical course provides theoretical content and field experiences that emphasize the multifaceted role of the school nurse. Students participate in field experiences and classroom learning activities that focus on the assessment and management of children's healthcare needs in various school settings. This course equips students with the necessary tools and skills to successfully function as professional school nurses. At the conclusion of this course, students are able to successfully function as providers of health education as well as providers, planners, and coordinators of health care in school settings.

Prerequisite: GNRS 612 or instructor consent, and admission to School Nurse Services Credential program;

Corequisite: Practicum

GNRS 554, Medical-Surgical Care of the Adult and Geriatric Patient, 5 Units

This course introduces crucial concepts in professional nursing care, such as the nursing process, communication, therapeutic interventions, critical thinking, and critical reasoning. Course material focuses on the application of biological, psychosocial, and spiritual concepts to adult and elderly clients in various healthcare settings with acute and/or chronic illnesses. The nursing process is utilized to provide care to one or two adult clients within the healthcare delivery system. The clinical practicum focuses on the cognitive basics, scientific principles, and manipulative components of psychomotor skills used when providing nursing care.

Prerequisite: Admission to the ELM program, completion of all prerequisite courses for the program.

Corequisite: GNRS 554P

GNRS 555, Medical Surgical Care of the Adult and Geriatric Patient, 7 Units

This course introduces crucial concepts to professional nursing care such as nursing process, communication, therapeutic interventions, and critical thinking and clinical reasoning. The course focuses on the application of biological, psychosocial, and spiritual concepts to hospitalized adult and elderly clients with acute and/or chronic illnesses. Students will be guided in critical thinking and clinical reasoning exercises in the management of hospitalized clients. Nursing process is utilized to provide care to one or two adult clients within the health care delivery system of an acute care setting. The clinical practicum focuses on the cognitive basis, scientific principles, and manipulative component of psychomotor skills used when providing nursing care. Students have an opportunity to practice simulated clinical skills.

Prerequisite: Admission to the ELM program, completion of all prerequisite courses for the program;

Corequisite: Practicum

GNRS 556, Intermediate Medical Surgical Care of the Adult, 7 Units

This course is designed to build on the base of medical-surgical nursing knowledge from GNRS555. The course focuses on comprehensive nursing care to patients with acute need for continuous cardiac monitoring, pulse oximetry monitoring, or ventilator assistance in telemetry units, in restorative care setting, or long-term care setting.

Prerequisite: Admission to the ELM program; successful completion of GNRS 555;

Corequisite: Practicum

GNRS 557, Medical Spanish for Advanced Practice Nurses, 3 Units

This course provides non-Spanish-speaking advanced-practice nursing students with foundational knowledge of Spanish language structure and vocabulary, helping them build appropriate phrasing to facilitate communication in healthcare settings. Cultural issues relevant to health and illness in the Latino community are also addressed.

Prerequisite: Graduate nursing student standing, or instructor's permission

GNRS 558, Intermediate Medical-Surgical Care of the Adult, 6 Units

This course is designed to build on the base of medical-surgical nursing knowledge from prior nursing courses. The course focuses on comprehensive nursing care to patients with acute need for continuous cardiac monitoring, pulse oximetry monitoring, or ventilator assistance in telemetry units, restorative care settings and long-term care settings.

Corequisite: GNRS 558P

GNRS 559, Audiometry for School Nurses, 3 Units

This course provides didactic instruction via eCollege and eight hours of on-site practicum experience that emphasizes the content and clinical expertise necessary to fulfill the requirements of the State of California School Hearing Conservation Program and training for the school audiometrist. The course focuses on the physiologic process of hearing and how to assess for deficits in hearing in children of all ages. At the conclusion of the course, and after having completed successfully all learning objectives, the student is eligible to submit an Application for Registration as a School Audiometrist in the State of California (a \$10 registration fee is required with the application).

GNRS 560, Strategic Leadership in Health Care, 3 Units

This course is designed to develop knowledge, skills and attitudes about leadership across the healthcare continuum. The student will consider the professional role of the healthcare administrator both from a leadership and a management perspective. Areas of concentration will include leadership theory, structure of healthcare institutions, systems thinking and decision-making, performance improvement including quality and safety issues, risk management and effective communication skills. Application of business skills will be integrated. Students will consider the theoretical and research background, current issues and trends, leadership and administrative implications of specific topics.

GNRS 564, Nutrition and Therapeutics, 2 Units

Students in this course explore the functions of nutrients and the consequences of nutrient deficiencies and excesses in the body. Course material introduces a variety of tools for planning and evaluating diets, including a computer diet analysis, and the application of nutrition concepts is interwoven into health care and fitness conditions. Students also study the prevention of chronic disease as it relates to proper nutrition and adequate exercise.

Prerequisite: Admission to the ELM program

GNRS 567, Healthcare Administration and Leadership Supervised Practicum, 3 Units

This course provides the student with the opportunity to experience the role of healthcare administrator. An individualized administration practicum in a specific area of clinical emphasis is chosen by the student and approved and monitored by the faculty and preceptor. Competencies that govern the role of the healthcare administrator are explored in depth. Students focus on the context for enacting the role of administrator in a healthcare delivery system.

Prerequisite: All core and role courses

GNRS 568, Healthcare Finance, 4 Units

This course is an introduction to financial concepts and skills need for healthcare leaders, managers, and executives. The student will develop skills in assessing multiple dimensions of financial performance and methods to improve the financial health of an organization in the context of current patient care system.

GNRS 569, Quality and Safety for Health Care Practice, 3 Units

This course is designed to deepen and advance students' knowledge of, and ability to systematically apply the principles of, patient quality and safety in nursing practice. Based on national standards, the focus is on examining and applying quality and safety tools, including informatics, that can be used to improve patient care delivery across the continuum of health care.

GNRS 570, Parish Nursing/Health Ministries, 2 Units

This course provides an introduction to and overview of health ministry and parish nursing theory and practice. The philosophy of the course is that (a) the parish nursing role is that of a specialist in spiritual aspects of patient care in the congregational context, requiring the integration of graduate level theology/ministry and nursing theory and praxis; and (b) health ministry is an emerging role and trend in pastoral ministry that seeks to bring professional ministry skill to bear upon the integration of health, faith, and spirituality in the parish setting.

GNRS 571, International Health Care, 2-4 Units

This course provides students with experience in nursing care in other countries. Students prepare with coursework in the United States, then travel abroad, where they have experiences in acute and/or chronic care settings, exploring cultural, economic, systems, philosophical, and other aspects of care that influence the provision of health care in other countries. A debriefing period is provided upon return.

GNRS 573, Clinical Residency, 4 Units

The clinical residency is an internship clinical experiential program designed as a collaborative partnership between the School of Nursing and selected community in-patient health care organizations. This residency is an intensive preceptored clinical experience planned to ease the role transition from a student nurse to a beginning professional nurse in an acute-care setting. In addition, it enhances the skill and practice knowledge of the student in preparation for the RN licensing examination.

Prerequisite: Successful completion of all pre-licensure clinical courses

GNRS 575, Nursing Care in Maternal, Newborn, and Women's Health, 4 Units

This course focuses on the theoretical and clinical concepts of the childbearing patient, her infant, and her family. The students study both normal and complicated obstetrics. Selected issues of women's health are explored. The student is introduced to birth preparation, prenatal care, normal neonatal, and postpartum care with concurrent clinical experiences.

Prerequisite: Admission to the ELM program, successful completion of semesters one and two;

Corequisite: Practicum

GNRS 576, Pharmacology, 2 Units

This course is designed for students who have completed organic chemistry, inorganic chemistry, and biochemistry. The content focuses on principles of pharmacology and specifics of the major drug classifications.

Prerequisite: Admission to the ELM program

GNRS 578, Health Assessment, 3 Units

This course provides the nursing student with skills in physical, spiritual, and psychosocial assessment of adult clients. History-taking and physical examination techniques presented in the course help the student develop strong assessment skills upon which further knowledge and practice can be built. Basic concepts related to assessment of geriatric, pediatric, and childbearing patients are included.

Prerequisite: Admission to the ELM program;

Corequisite: Practicum

GNRS 580, Gerontology, 2 Units

This course integrates research and writings about the major trends and developments in the field of gerontology as they apply to the field of nursing. The approach is interdisciplinary - course material includes information from the fields of sociology, psychology, anthropology, biological sciences, medicine, nursing, and psychiatry. Development in adulthood is viewed from multiple perspectives including cognitive, behavioral, biological, sociocultural, and spiritual, and the influences these perspectives have on the successful negotiation of age-related issues are considered. Finally, students examine aspects of human aging in contemporary American society and from a cross-cultural and ethnic perspective.

Prerequisite: Graduate standing in the School of Nursing.

GNRS 581, Primary Health Care of the Older Adult, 5 Units

GNRS 581 focuses on the role of the adult-gerontology primary care nurse practitioner in the management of the older adult including health promotion, assessment, treatment, and maintenance of common primary care health problems. The clinical practicum emphasizes the application of theory and evidence-based research for the delivery of culturally competent assessment and treatment of the older adult within the context of their families and in a variety of outpatient settings.

Prerequisite: Graduate status in the School of Nursing, completion of Advanced Practice Core courses;

Corequisite: Practicum

GNRS 582A, Pathophysiology, 2 Units

This course presents an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiologic disorders are emphasized.

Prerequisite: Admission to the ELM program

GNRS 582B, Pathophysiology, 2 Units

This course continues the presentation an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiologic disorders are emphasized.

Prerequisite: Admission to the ELM program, successful completion of GNRS 582A

GNRS 583, Nursing Care of Children and Young Adults, 4 Units

This theoretical and clinical course focuses on the care of children from birth through adolescence. The effects of acute and chronic illness on growth and development are studied in the acute and community health care setting. Education of the child and family on health promotion, disease prevention, and safety issues are addressed. Ethical issues are discussed regarding the relationship to the child and family, including issues such as child abuse, informed consent, and the impact of diverse cultural and spiritual beliefs on health care decisions in the family.

Prerequisite: Admission to the ELM program, successful completion of semesters one and two;

Corequisite: Practicum

GNRS 584, Mental Health Nursing, 4 Units

This theoretical and clinical course focuses on the dynamics of psychosocial stress within the interpersonal and intrapersonal systems of clients with acute and chronic psychiatric disorders.

Prerequisite: Admission to the ELM program, successful completion of semesters one and two;

Corequisite: Practicum

GNRS 586, Leadership and Management in Professional Practice, 2 Units

This course emphasizes leadership and management theory including systems theory in a number of applications and settings, equipping students with the ability to adjust to various organizations encountered by professional nurses serving in a variety of roles. Core concepts relevant to clinical settings are presented using a systems approach. Emphasis on nursing case management is included.

GNRS 587, Community Health Nursing, 5 Units

This course has two areas of focus within the community setting: the study of principles and practices involved in community health nursing, and the development of skills for teaching a group of clients. The emphasis is on the role of the nurse in assessing, planning, implementing, and evaluating care of clients in a variety of community-based settings, with a focus on care of the gerontological client. Collaboration with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals, families, and aggregates are essential components of this course. A review of legal mandates and regulations, as well as discussion of ethical dilemmas and issues related to community-based care is included.

Prerequisite: Admission to the ELM program, successful completion of semesters one, two, and three;

Corequisite: Practicum

GNRS 588, Advanced Nursing Care of Adults - Leadership, 6 Units

This course involves the application of pathophysiological, psychosocial, and spiritual concepts to adult and geriatric clients experiencing the stress of illness in acute settings. The primary focus of the course is to care for critically ill clients and their families with complex health care needs in a critical-care setting. A second area of focus is on the utilization of leadership and management concepts/skills in providing comprehensive care to groups of clients and families. Emphasis is placed on preparing the student to practice in a beginning leadership role in managing client care. Legal and ethical issues related to acute care are included.

Prerequisite: Admission to the ELM program;

Corequisite: Practicum

GNRS 589, Adolescent Health Care, 2-4 Units

This course focuses on the growth and development of adolescents, including assessment, prevention, and management of common health and psychosocial problems in this population. Emphasis is on age-appropriate and culturally competent provision of primary health care to adolescents in a family system.

Prerequisite: Graduate status in the School of Nursing; 2-unit version of this course requires prior completion of GNRS 610, while the 4-unit version requires prior completion of GNRS 610, GNRS 611, and GNRS 511 or GNRS 612.

GNRS 590A, Primary Health Care of the Young Family, 6 Units

This combined theory and clinical course focuses on management of health care of children (from birth through adolescence) and their families.

Theory and clinical experiences emphasize assessment, prevention, and management of physiological, social, emotional, intellectual, spiritual, and educational needs of the child as an individual and as a family member. The effects of culture on development, parenting, and health care practices are emphasized. The course provides theory and clinical experiences in the management of normal and common pathological conditions to prepare students for advanced nursing practice in the role of nurse practitioner.

Prerequisite: Advanced Practice Core courses;

Corequisite: Practicum

GNRS 590B, Clinical Practicum in Pediatrics, 4 Units

The student develops expanded skills in the comprehensive assessment and management of common childhood illnesses and problems and continues to gain skill in promoting child wellness. Application of theory and research is emphasized in the care of common illnesses throughout the childhood years.

Prerequisite: GNRS 511 or GNRS 612, and GNRS 590A

GNRS 590C, Primary Health Care of the Young Family for the School Nurse Services Credential, 6 Units

Using a system-based approach, this combined didactic and practical course focuses on assessment, nursing interventions, and follow-up for common illness presentations in children, as well as illness-related impact on social, emotional, and educational functioning. The effects of culture on child development, parenting, and healthcare practices is also emphasized.

Prerequisite: GNRS 612;

Corequisite: Practicum

GNRS 590D, Primary Health Care of the Young Family, 3 Units

This theory course focuses on management of health care of children (from birth through adolescence) and their families, with an emphasis on assessment, prevention, and management of physiological, social, emotional, intellectual, spiritual, and educational needs of the child as an individual and as a family member. The effects of culture on development, parenting, and health care practices are emphasized. The course provides theory in the management of normal and common pathological conditions to prepare students for advanced nursing practice in the role of nurse practitioner.

Prerequisite: Advanced Practice Core courses

GNRS 591, Primary Health Care of the Childbearing Family, 4 Units

This course focuses on the assessment and management of the primary health care needs of the reproductive family. Emphasis is placed on health promotion and maintenance, disease prevention, curative, and restorative care. Cross-cultural aspects related to parents, male and female, of the childbearing family are addressed.

Prerequisite: Advanced Practice Core courses;

Corequisite: Practicum

GNRS 592A, Primary Health Care of the Adult and Aging Family, 6 Units

This combined theory and clinical course focuses on the role of the nurse practitioner (NP) in caring for mature adults and aging family members, from young adulthood to elderly adulthood. Emphasis is placed on the management of common primary health problems of these age groups. The delivery of culturally competent primary health care interventions of young, middle-aged, and elderly adults is addressed.

Prerequisite: Advanced Practice Core courses;

Corequisite: Practicum

GNRS 592B, Primary Health Care Clinical Practicum, 2 Units

This course provides the final comprehensive clinical management experience, allowing FNP and AGNP students to apply knowledge gained throughout their course of study. Clinical conferences provide opportunity for discussion of role development issues and clinical case studies. Students engage in the clinical assessment and management of adults of diverse cultural backgrounds with routine and complex health problems in out-patient settings. Under the supervision of qualified preceptors and School of Nursing faculty, the student must complete his/her clinical hours and demonstrate mastery to perform the role of an entry-level nurse practitioner.

Prerequisite: Completion of clinical courses for the FNP or AGNP program track

GNRS 593, Psychosocial Primary Health Care of the Adult and Aging Family, 4 Units

This combined didactic and clinical course focuses on psychosocial primary health care of the mature and aging family. Didactic content and clinical experiences emphasize the advanced practice nursing role in the medical management of chronic illness with concurrent assessment for psychosocial stressors that impact the experience and management of chronic illness. Students learn to tailor patient-centered therapeutic strategies, including presence, multi-faceted functional assessment, motivational interviewing, stress reduction techniques and spiritual support to individual patients.

Prerequisite: Advanced Practice Core courses;

Corequisite: Practicum

GNRS 595, Special Topics in Nursing, 1-6 Units

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development and/or to develop a particular project. If students elect this course more than once during their program, each such course must address a different topic.

Prerequisite: Graduate standing

GNRS 596, Foundations of Healthcare Informatics, 3 Units

This course provides an overview of basic concepts for practice in healthcare-oriented informatics. These core concepts include an introduction to clinical and translational informatics; foundational theory and practical application of clinical decision making and computerized decision support; healthcare systems and their organization; the special issues of administration, security, and operations of electronic records in the healthcare setting; human factors issues; information science in the healthcare domain; standards, terminologies, and the uniqueness of biomedical data; and a special focus on emerging technologies.

GNRS 597, Comprehensive Examination Directed Study, 1 Unit

This course guides the student through the process of demonstrating an integration of theoretical, clinical, and research knowledge. Critical thinking is enhanced through careful consideration of information presented during discussion. The examinations are taken as part of this seminar.

Prerequisite: Completion of all Academic Core and degree specialty courses. Final specialty course may be taken concurrently.

GNRS 598, Thesis, 1 Unit

A student initially enrolls in this option toward the latter part of the program for one unit of credit. The student registers for one unit of thesis credit each semester (two of three semesters per year) until the thesis is completed.

Prerequisite: GPA of 3.5 or above, chair's consent for thesis option, and completion of all Academic Core and Advanced Practice Core courses

GNRS 599, Readings/Independent Study in Nursing, 1-4 Units

A student may elect to pursue special interests for credit at any time during the program under the supervision of a faculty member. University policy states that the student must earn a grade in an independent study course in order to receive credit toward graduation.

Prerequisite: Graduate standing

GNRS 600, Nurse Practitioner Clinical Experience, 2-6 Units

The AGPCNP and NP programs require 765 hours of supervised direct patient care experience. Students in this course function in the role of student nurse practitioners under the direct supervision of approved preceptors, and receive feedback from their preceptors and from their clinical faculty. This course gives students an opportunity to complete the documentation necessary to be awarded clinical units. Students progressively integrate advanced-practice nursing competencies, demonstrate professional nursing behavior, and keep accurate records. Upon completion of 765 hours, students are given access to a clinical portfolio.

Prerequisite: GNRS 612 and faculty permission

GNRS 601, Primary Healthcare I: Adult and Aging, 3 Units

This course integrates knowledge from advanced pathophysiology, advanced pharmacology, and advanced health assessment and apply it to create a diagnostic hypothesis for common acute and chronic primary care health problems in adolescents, adults, and older adults. The course examines a variety of treatment options for each disease presented and for diseases that don't respond to first-line therapy.

Prerequisite: GNRS 612

Corequisite: GNRS 600

GNRS 602, Primary Healthcare II: Population-based Health Interventions, 3 Units

Primary Healthcare II recognizes that individuals with healthcare needs belong to a variety of discrete groups. This course introduces population health principles to be integrated with psychosocial assessment, cultural competency, social determinants of health, and the nurse-client relationship to foster the development of competence to motivate patients in a way that respects their diversity and to assist them to find resources to address social vulnerabilities. Students will employ statistical analysis as well as nursing experience to analyze risk to create a patient education plan.

Prerequisite: GNRS 601

Corequisite: GNRS 600

GNRS 603, Primary Healthcare III: Restorative and Palliative Interventions, 3 Units

This course is designed to integrate disease management and communication techniques to support the physical, emotional, and spiritual transitions of chronic illness. The course examines developing a prognosis, transitioning care, interprofessional care planning, and care of the caregiver. Grounded in spiritual concepts, this course is designed to provide the student with tools to give patients and families unpleasant information that will likely evoke fear or sadness.

Prerequisite: GNRS 602

GNRS 610, Advanced Pathophysiology, 3 Units

This course builds on basic anatomy and physiology and undergraduate study of pathophysiology. It focuses on the development of an advanced understanding of the pathophysiologic mechanisms of human health disorders including those that are genetic. Diagnostic reasoning that facilitates the clustering of signs and symptoms leading to diagnosis is a key process undergirding the course. This course requires the integration of signs and symptoms, clinical testing (such as laboratory and radiologic studies), and pathophysiologic mechanisms with diagnoses. This course introduces epidemiological principles and methods to be applied to population health models.

Prerequisite: Graduate standing and undergraduate pathophysiology

GNRS 611, Advanced Pharmacology, 3 Units

This course builds upon basic knowledge in pharmacology and provides content essential for the advanced practice nurse to render appropriate pharmacological treatment in practice. Mechanisms of action, interactions, side effects, and prescribing guidelines for drugs commonly utilized across the life cycle are addressed. The course introduces the principles of pharmacogenomics and their application to clinical practice. Variations in pharmacological reactions attributed to cultural factors are emphasized. Strategies for fostering individual/family adherence to pharmacological regimens are examined. This course meets the requirements of the California Board of Registered Nursing in the application of a "furnishing number" by the advanced practice nurse in California.

Prerequisite: GNRS 610 (may be taken concurrently)

GNSRS 612, Advanced Health Assessment and Diagnostic Reasoning, 4 Units

This course develops the graduate nurse's assessment skills and focus on the promotion of health in individuals across the age range and within family, community, and cultural contexts. Emphasis is on adapting and expanding the medically focused history and physical assessment to incorporate the assessment of traditional and nontraditional therapies and identify culturally relevant and age-appropriate health promotion strategies for common episodic complaints and chronic health conditions. Outcomes are examined in light of theoretical concepts. Strategies for health promotion include a focus on lifestyle, mental health, nutrition, counseling to modify risk factors, and screening tests/prophylaxis for the early detection and prevention of disease.

Prerequisite: Undergraduate health assessment and GNSRS 610;

Corequisite: lab

GNSRS 613, Graduate Statistics, 3 Units

This course presents the knowledge of descriptive, correlational, and inferential statistics used in research that serves as the basis for evidence-based practice. Students develop the ability to perform descriptive and inferential data analysis techniques, use software applications to aid in statistical calculations and presentation, and interpret findings.

GNSRS 616, APRN Intensive II, 1 Unit

This is the second of four APRN Intensive courses that give NP students an interactive experience through out-of-classroom work. Course activities and games will evaluate the student's ability to perform the clinical role of the NP. Students will understand and develop the skills of virtuous leadership and collaboration from a biblical perspective.

Prerequisite: GNSRS 615;

Corequisite: GNSRS 601

GNSRS 617, APRN Intensive III, 1 Unit

This is the third of the APRN intensives that give APRN students an interactive experience with out-of-classroom work that includes team activities, simulation experiences, and problem-solving activities. Topical content includes managing patients with complex co-morbidities, ethical reasoning, and advanced communication skills. Students will be observed performing the professional and clinical skills of the APRN.

Prerequisite: GNSRS 616;

Corequisite: GNSRS 602

GNSRS 618, APRN Intensive IV, 1 Unit

This is the fourth of the APRN intensives that give APRN students an interactive experience with out-of-classroom work that includes team activities, simulation experiences, and problem-solving activities. Topical content practice-based quality improvement, office-based procedures, and certification exam preparation. Students will be observed performing the professional and clinical skills to demonstrate readiness to enter NP practice.

Prerequisite: GNSRS 617; Faculty permission.

GNSRS 620, Genome Science in Healthcare, 3 Units

This course covers basic genomic concepts and technologies intended for personalizing healthcare. The primary goal is to provide the student with clinically relevant knowledge that can be used in practice and for teaching other healthcare professionals, patients and families. Applications of genome science and technology are analyzed in the context of real world examples taken from a variety of clinical specialty areas to better understand the relation between genomics, health, and illness.

GNSRS 622, Genome Science and Ethical Issues, 3 Units

This course examines current applications and implications of genome science and technology to healthcare, public health policy, economics, ethics, federal and state laws and societal issues. The following discussion topics are at the leading edge of healthcare and social debate: DNA biobanking, genetic profiling, and genomic technologies used in genome medicine such as stem cell research, gene therapy, and genetic enhancements. In addition, the course addresses ethics, philosophy, and theology literature to explore thoughtful discussions that cover a wide range of genome applications in healthcare and health science research.

Prerequisite: GNSRS 620

GNSRS 630A, Oncology Nurse Practitioner Fellowship A, 4 Units

This course is the first in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.

Prerequisite: Enrollment in the oncology nurse practitioner fellowship certificate program.

GNRS 630B, Oncology Nurse Practitioner Fellowship B, 4 Units

This course is the second in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.

Prerequisite: Enrollment in the oncology nurse practitioner fellowship certificate program.

GNRS 630C, Oncology Nurse Practitioner Fellowship C, 4 Units

This course is the third in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.

Prerequisite: Enrollment in the oncology nurse practitioner fellowship certificate program.

GNRS 631, ONP: Cancer Biology and Assessment, 2 Units

This course builds on knowledge of the anatomy and physiology of DNA, RNA, and differentiated and nondifferentiated human cells. Focus is on the pathophysiological mechanisms of human cancer disorders. Diagnostic reasoning that facilitates the clustering of signs and symptoms is a key process undergirding the course. The course also provides the foundation for the integration of diagnostic testing, physical assessment, and understanding of the predictable pathophysiology of cancer in order to stage tumors and predict metastatic risk in individuals.

Prerequisite: Admission to the Oncology Nurse Practitioner Post-Master's Certificate program.

GNRS 632, ONP: Cancer Therapeutics, 2 Units

This course builds on knowledge of the predicted behavior of human cancer. Technology in cancer treatment is evolving rapidly, and this course provides a pathophysiological foundation for understanding cancer protocols. Current cancer protocols, classes and categories of therapeutics, technologies in development, and tumor resistance are discussed, along with the cost benefit, side effects, and availability of the covered therapeutics.

Corequisite: GNRS 631

GNRS 633, ONP: Symptom and Side Effect Burden, 2 Units

Patients with advanced cancer often suffer significant symptomatic burden and the iatrogenic complications of treatment. This course helps students develop a patient-centered approach to evidence-based management of common symptoms of cancer and side effects of treatment.

Prerequisite: GNRS 631 and GNRS 632

GNRS 634, ONP: Survivorship and the Psychosocial Impact of Cancer, 2 Units

Cancer patients and their caregivers face complicated psychological, financial, and spiritual changes, beginning at diagnosis and extending into the posttreatment phases. This course covers the common problems related to those changes, and best-practice strategies and techniques to help patients and families cope with cancer.

GNRS 635, ONP: Team-Based Care and the Role of the Oncology Nurse Practitioner, 2 Units

The clinician role of the oncology nurse practitioner requires familiarity with the incidence, prevalence, and risk assessment competencies for all common cancers. In addition, the oncology nurse practitioner must be prepared for a wide variety of leadership roles. Strategies for care coordination, designing and measuring interdisciplinary team outcomes, mentoring, collaborating with primary care providers, and rapid-cycle quality improvement are examined.

GNRS 636, ONP: Clinical Trials in Oncology Nursing, 2 Units

The advanced-practice oncology nurse practitioner is prepared to provide direct patient care, design a plan for outcome evaluation, and take a leadership role in medical and nursing oncological research.

Prerequisite: GNRS 610, GNRS 611, GNRS 612, and GNRS 613

GNRS 650, History of Professional Nursing: From Origins to Nursing in Transition, 3 Units

Students in this course explore conceptual and methodological issues in historical nursing research, including the use of biographic methods in nursing history and working with primary sources/archival materials/artifacts and material culture. Focus is on the origins of professional nursing up to the period of nursing in transition in the United States. Students examine ethics guidelines and standards for historical research in nursing, and critically analyze the origins of nursing and early nursing contributions to the evolution of modern health systems and interventions. Class discussion and composition facilitate critical thinking about the history of nursing as a scholarly inquiry, focusing on issues and methods of nursing historical research.

GNRS 651, History of Professional Nursing: From Colonial Times to Present Day, 3 Units

Students in this course explore the foundations of professional nursing in the United States in the context of influential historical, global, societal, and scientific events. Students examine issues faced by nurses from colonial times to today, critically analyzing nurses' contributions to the development of modern health systems and interventions. Class discussion and composition facilitate critical thinking about the history of nursing as a scholarly inquiry, since historical perspectives form the basis for analysis of contemporary healthcare issues and projected development of the nursing profession, its practice, and healthcare policy.

GNRS 660, Theories of Teaching and Instruction, 3 Units

This course analyzes selected teaching and learning models that are applicable to nursing education. Strategies for classroom and clinical teaching are examined. Research relative to nursing education is reviewed and critiqued. Design of research methods to determine effectiveness of teaching strategies is incorporated. Course development and student evaluation are emphasized. Selected faculty and nursing education issues are also explored.

GNRS 661, Leadership and Role Development in Nursing Education, 3 Units

This course includes an analysis of educational leadership and the multiple roles of the nurse educator related to teaching, scholarship, service, and practice. Theoretical perspectives and practical approaches supported by research in nursing and higher education literature, as well as the Christian educator's role promoting faith integration, are addressed.

GNRS 662, Assessment, Curriculum, Development, and Outcomes, 3 Units

This course addresses theoretical approaches to educational assessment, the development and implementation of nursing curriculum, and student and program outcomes. Emphasis is given to the importance of incorporating Christian values in the curriculum. The course also includes critical analyses of related topics based upon current research in nursing and higher education literature.

GNRS 663, Clinical Practicum in Nursing Education, 3 Units

This practicum course builds on the academic and clinical preparation of previous courses and prepares students to teach in academic and clinical settings. Under the supervision of a preceptor, this practical classroom experience focuses on: a) writing of learning/teaching objectives, b) selecting teaching strategies and learning activities, c) designing and implementing teaching plans for units of instruction, d) evaluating student learning outcomes, and e) obtaining feedback on teaching performance from faculty mentors/preceptors, fellow students, and self-evaluation and reflection. It is recommended that students take GNRS 660, GNRS 661, and GNRS 662 prior to taking this class. GNRS 664 may be taken concurrently.

GNRS 664, Teaching and Learning Strategies for Nursing Education, 3 Units

This course equips academic nurse educators to develop and evaluate teaching and learning strategies that facilitate learning in different nursing educational settings. Course material includes examining the challenges nursing faculty face in implementing this role, and strategies to successfully navigate those challenges. Also included are two projects to prepare students for the application process of the nurse educator. It is recommended that students take GNRS 660 prior to taking this class.

GNRS 695, Special Topics, 1-4 Units

A subject of current interest is examined in depth. Students analyze and evaluate controversial issues to reach and express a reflective position. This course may be repeated for credit to a maximum of 6 units applied toward the MSN or PhD degree; each course must address a different topic.

GNRS 700, Philosophy of Science, 3 Units

This course equips students with the knowledge and critical analytic skills to comparatively evaluate the philosophical foundations of scientific theories and the influence of Western philosophical schools of thought on the development of nursing science. Course content is organized to engage students in discussion and critical analysis of the epistemological and philosophic foundations of scientific theories and the characteristics of scientific knowledge according to the received view, paradigmatic view, perceived postmodern view, and feminist tradition. Special emphasis is given to the critical debate within nursing about the nature of nursing science.

GNRS 701, Nursing Knowledge Development, 3 Units

Students in this course focus on analyzing and critiquing the theoretical and methodological processes that are utilized in theory building and knowledge development in nursing. Discussion and critique of the different stages of theory development and students' experimentation with conceptualizing and developing their theoretical stance go hand in hand. Patterns of knowing, knowledge development, and criteria for evaluating nursing knowledge are examined in relation to the discipline's domain and the phenomena of concern in nursing.

GNRS 702, Nursing Theory, 3 Units

This course focuses on strategies for theory development such as concept analysis, conceptual mapping, and theoretical modeling as applied to the student's phenomenon of concern. It also provides critique and analysis of the major models and theories used in a variety of nursing settings in relation to existing interdisciplinary theoretical knowledge.

GNRS 703, Spirituality and Health, 3 Units

This course provides an introduction to spirituality, including spiritual experience, as it relates to individual health and illness. Communal spirituality is also considered. Differentiation is made between and among generic religious and Christian spiritualities. While the course covers theoretical aspects of spirituality and their interaction with health and illness, concentration is on the movement from theory to praxis. This lecture/seminar course is oriented toward nursing educators who seek to develop a foundation in spirituality for spiritual integration as well as for its development in nursing practice.

Prerequisite: Admission to DNP or PhD program

GNRS 704, Faith Integration and Nursing Scholarship, 3 Units

This course begins with an exploration of the nature, role, problems, and possibilities of faith integration in higher education and in the nursing curriculum at all levels of higher education. The special circumstances of faith integration and its implications for teaching in secular college settings are explored. This course further provides a critical explication of theological method and content in three domains: biblical hermeneutics, constructive theology, and ministry praxis for education. The focus of the course is on the appropriation of theological method and knowledge for the purposes of integration into nursing education and practice especially (but not exclusively) within the context of a Christian or church-affiliated college.

GNRS 705, Social Ethics and Health Policy, 3 Units

This course seeks to provide a social ethics frame of reference for health care. Medical and biological advances have contributed to a rapidly expanding amount of human control over human and natural processes, including genetic potential and behaviors. This new power raises questions of morality and highlights the need for discussion and legislation regarding the complex issues raised by developments in health care, medical technology, and science. A comprehensive social ethic places decisions about health care within the context of a fuller account of purpose and meaning in life.

Prerequisite: Admission to DNP or PhD program

GNRS 706, Methods of Inquiry, 3 Units

Students in this course explore various methods of inquiry as they focus on the difference between scientific thinking, wisdom, and alternative concepts of knowledge. Existential dilemmas intrinsic to the pursuit of truth, the exploration of the meaning of actions, the process of reason and interpretation, the perception of reality, and empirical generalizations are discussed, and their influence on the definition of research problems and designs is explored. Research designs and methods are introduced as they relate to problem definition and theory, including an overview of the principles of basic and applied experimental research, evaluation research, and the traditions and foundation of qualitative and historical research. Students are required to explore, synthesize, and debate current issues that will affect their research careers.

Prerequisite: Admission to DNP or PhD program

GNRS 707, Quantitative Nursing Research Design I, 3 Units

This course focuses on advanced multiple research designs and data collection approaches. Emphasis is on experimental and quasi-experimental designs, epidemiological methods, survey research, and evaluation and outcomes research, as well as on planning design and sampling. Inferential statistics and advanced statistical analysis methods including ANOVA and various types of multiple regression analysis are incorporated within the course content.

Prerequisite: Admission to DNP or PhD program

GNRS 708, Qualitative Nursing Research Design I, 3 Units

This course focuses on analyzing the epistemological foundations and the assumptions of qualitative research methodologies. It provides an introduction to the major qualitative research methodologies including grounded theory, phenomenology, and ethnography. Each methodology is analyzed as to its appropriateness for the research question. Experience in carrying out a pilot study in the selected methodology is provided.

GNRS 709, Advanced Statistical Analysis II, 3 Units

This course presents advanced methods of quantitative inquiry. The emphasis is on the use of factor analysis, confirmatory factor analysis, path analysis, and structural equation modeling. Assumptions of the techniques are addressed. The course provides the student experience in using statistical packages for entering and analyzing data. Reporting results of the analyses is also incorporated. Making appropriate decisions regarding which of the advanced statistical techniques to use is stressed. Critique of the advanced statistical analyses of published health care research is also emphasized.

Prerequisite: GNRS 707

GNRS 710, Advanced Qualitative Research Methods, 3 Units

This course provides advanced knowledge and training in the use of qualitative research methods including phenomenological interpretation, grounded theory interpretation, ethnographic interpretation, focus groups interpretation, and feminist interpretation. Intensive interpretive and structured approaches to analysis and methods of establishing plausibility, credibility, and adequacy of qualitative data are emphasized.

Prerequisite: GNRS 708

GNRS 711, Advanced Research Methods in the Humanities, 3 Units

This seminar and consultation course introduces PhD students to nonscientific research methodologies as used in the arts, letters, humanities and aspects of the social sciences for the (a) conduct of original dissertation research on one of the disciplines of arts, letters, humanities, or nonscientific aspects of one of the social sciences, (b) conduct humanities-based research to widen and deepen a scientific dissertation topic, or (c) to enlarge the student's methodological repertoire, knowledge, and skill. The course is intended for those whose primary research education and experience has been in scientific methods and disciplines. (Enrollment limited to eight.)

Prerequisite: (a) successful completion of GNRS 701 and GNRS 706, (b) permission of the instructor

GNRS 712, Healthcare Quality Improvement, Program Planning, and Evaluation, 3 Units

This core course bridges the gap between the uptake of new health research discoveries and their translation, adaptation, and implementation in practice. Course content includes the examination, integration, and application of quality improvement, program planning, and evaluation processes, strategies, and tools. The outcome of the course is a well-designed evaluation plan for an evidence-based quality improvement project.

Prerequisite: Admission to DNP or PhD program

GNRS 713, Advanced Statistical Analysis I, 3 Units

This course presents common nonparametric and parametric statistical techniques used in healthcare research. Assumptions of the techniques are addressed. Specifically, the course emphasizes t-tests, ANOVA, ANCOVA, RANCOVA, correlation, odds ratio, regression, and power analysis, and provides the student experience in using SPSS for entering and analyzing data. Reporting results of the analyses is also incorporated. Making appropriate decisions regarding which statistical techniques to use is stressed. Critique of statistical analyses of published healthcare research is also emphasized.

GNRS 715, Psychosocial Issues of Older Adults, 3 Units

This course focuses on the biological and psychosocial processes throughout adulthood and the older years. Theories of aging are examined, as well as social role changes, social stratification, and the development of institutions of the aged. The course explores both normal aging and psychopathology, and the systematic intrinsic psychological or personality changes associated with development and adaptation in later life. Other topics include clarification of the causes and prevention of health maladies in the later years, and the nature and treatment of the most common psychopathologies. The psychodynamics of institutionalization and family care of the very old are also examined.

GNRS 716, Translation of Research to Practice, 3 Units

The goal of this core course is to help prepare Doctor of Nursing Practice (DNP) nursing students to be nurse scholars and to identify strategies within a multidisciplinary model and in intraprofessional relationships that promote the ready translation of research into practice. This course exposes DNP students to evidence-based practice, quality improvement methodologies, concepts and theories, and deepens their knowledge regarding the phenomenon of interest. This prepares them for foundational competencies needed for evidence-based problem identification, PICOT writing, literature search, integrated literature review, evidence appraisal, and synthesis. There are iterative assignments to develop skill and the milestone assignment is a final integrated review and synthesis paper with in-depth knowledge of their phenomenon (vs. topic) of interest.

Prerequisite: Admission to DNP or PhD program

GNRS 717, Health Technology and Informatics, 3 Units

This course presents an overview of the evolution of health care informatics from an interdisciplinary perspective. Students learn health care informatics history, concepts, theories, legal and ethical implications, and applications within the health care industry. This course introduces the student to the information system life cycle, human factor issues in health care informatics, critical issues affecting the development and implementation of information and communication systems and technologies (clinical, administrative, and learning), knowledge management principles, professional practice trends, and emerging ICT (information and communication technology) in health care.

GNRS 718, Organizational Leadership and Strategic Planning, 3 Units

In this core course, students acquire knowledge and skill to effectively manage systems level change, empower others, and influence political processes. Advanced nursing practice leadership occurs in clinical practice with clients and staff, within healthcare institutions, professional organizations, and in healthcare policy making arenas, using knowledge of nursing and other professions to address healthcare needs and direct interprofessional activities and initiatives. To develop the leadership role, students implement strategies for creating organizational change to provide high-quality services and outcomes at reasonable costs and lead the development of a business plan for quality improvement initiatives. Students advocate for change related to financial policies that impact the relationship between economics and quality care delivery. Focus is on organizational process, including the associated management of conflict, change, promotion of safety for clients and providers, and control of risk within a dynamic healthcare environment.

Prerequisite: Admission to DNP or PhD program

GNRS 720, Wellness Promotion and Health Maintenance, 3 Units

This course focuses on the critical appraisal of theories and models of health promotion and on the evaluation of health initiatives developed for national health promotion and maintenance. Relevant risk prevention, control, and health promotion intervention strategies are emphasized. Communicable diseases; health hazards; high-risk health factors; acute and chronic illness across ethnicities, genders, and the life span; and morbidity and mortality of the nation's leading health problems are analyzed. Students' research questions are generated from a synthesis of knowledge regarding a specific phenomenon relevant to the student's individual area of study.

Prerequisite: Admission to DNP or PhD program

GNRS 721, Health Disparities and Vulnerable Populations, 3 Units

This course offers an analysis and evaluation of various topics and issues on health disparities of underserved ethnic or minority vulnerable populations as well as an analysis of research that describes, explains, and examines variables influencing health disparities and intervention strategies to reduce these disparities.

GNSRS 722, Research in Nursing and Health, 3 Units

This course is team taught and reflects the research expertise and program of study of the nursing doctoral faculty. It focuses on analysis of determinants of health and illness across demographic, biological, psychological, familial/cultural, and societal dimensions. Attention is given to theoretical explanations toward promoting development of students' programs of research.

GNSRS 724, Quantitative Nursing Research Design II: Psychometrics, 3 Units

This course introduces students to the methods of survey research. Course material covers practical considerations in the construction of questionnaires, including determining questionnaire content, selection of item types and wording of items, selection of an administration method, piloting questionnaires, and locating existing questionnaires. Discussions about conducting survey research focus on sample selection, analyzing information obtained from questionnaires using SPSS, evaluating questionnaires, sources of error, and how to reduce measurement error in survey research.

Prerequisite: GNSRS 707

GNSRS 725, Research Practicum, 1 Unit

The practicum further develops, mentors, and socializes students into the roles and activities of research scientists and scholars. Emphasis is on mentoring to facilitate student progression in research methodology, culturally appropriate research strategies, data management, and data analysis. Students can choose either a quantitative or qualitative practicum experience.

GNSRS 726, Advanced Scientific Writing, 3 Units

This course provides opportunities for students to learn how to research and introduce a topic in writing, articulate a thesis statement, support and develop a literature review, work with secondary sources, and organize a written paper that can be developed into a dissertation or translational research paper.

GNSRS 727, Genome Science in Clinical Cases and Disease Management, 3 Units

This course focusing on medical family history taking, constructing and analyzing the pedigree, genetic counseling, clinical decision making and clinical case management for a wide variety of inherited and acquired diseases through the lens of emerging genome science. Clinical cases are discussed from a holistic perspective including: genome science, epidemiology, genomic profiling, genetic technologies, personalized medicine, interprofessional collaboration, ethical and legal issues, and health policy.

Prerequisite: GNSRS 620

GNSRS 728, Genome Science Research Methods, 3 Units

This course focuses on genome research methods for understanding and translating genome science to practice and to genome related nursing research. Understanding the research methods fosters a deeper understanding of the strength and the weaknesses of the science and an ability to critique the benefits and the limitations of the science for designing nursing research. The course includes a wide range of research methods that explore genetics or genomics in human populations. A key outcome of this course is to develop a research proposal using genome methods to design nursing research aimed at improving quality of health for individuals, families and populations.

Prerequisite: GNSRS 620, GNSRS 622, GNSRS 727

GNSRS 729, Population Health and Epidemiology, 3 Units

The concept of population health includes aggregate, community, environmental/occupational, and cultural/socioeconomic definitions of health. The implementation of clinical prevention and population health activities is central to achieving the national goal of improving health status and reducing health disparities among different aggregate groups. This course covers the basic elements and methodological concepts used in the epidemiologic study of factors related to health promotion and disease prevention in human populations. It brings together considerations from several fields of investigation, such as epigenetics, epidemiology, psychology, and public health, to study the effects on health and health-related outcomes.

Prerequisite: Admission to DNP or PhD program

GNSRS 730, Comparative Health Care Systems, 3 Units

This course focuses on exploring/analyzing environmental, social, cultural, political and economic determinants of health across the globe. Comparative analysis of international health care systems including governmental, nongovernmental, traditional, and faith-based organizations are emphasized. Epidemiological analysis of morbidity and mortality, analysis of health and illness responses, and health-seeking behavior across the age span and gender/ethnic variables are discussed with the intent to identify areas of research relevant to students' interest. Presented from a Christian perspective, this course investigates research and practice opportunities and responsibilities for advanced practice nurses in global arenas.

GNSRS 732, DNP Clinical Residency, 0 Units

This course provides students enrolled in the Doctor of Nursing Practice (DNP) program with opportunities to develop professional nursing skills at the doctoral level. The focus of the course is to explore the development and scientific underpinnings of components of expert advanced clinical practice. Students select a population of interest for the DNP clinical residency and apply evidence-based practice and research findings in order to develop and improve practice. Over the course of the DNP program, students integrate previous nursing education and practice experiences with the DNP residency and concurrent doctoral coursework to meet the AACN Essentials of Doctoral Education for Advanced Nursing Practice and complete a DNP scholarly project. The course may be repeated to enable the student to obtain a minimum of 1,000 residency hours. Previous hours from graduate clinical courses may apply, so residency hour requirements will vary.

Prerequisite: Admission to DNP program

GNRS 733A, Residency IA, 1 Unit

This is the first in a series of three residency courses designed to enhance students' critical thinking, diagnostic reasoning, interpretation, and management skills for advanced clinical practice. This course broadens and enhances understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice clinical nurse scholarship. Students practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts. The course focuses on exploring the development and scientific underpinnings of components of expert advanced clinical practice, and attention is given to the development of skills necessary to attain that goal. By the end of this course, students select their population of interest for their clinical residency and apply evidence-based findings to this population to identify potential areas of intervention.

Prerequisite: Admission to DNP program

GNRS 733B, Residency IB, 1 Unit

The second of a three-course sequence, this course may be taken concurrently with GNRS 733A and/or GNRS 733C with approval of the DNP director or designee. Grading: pass/fail

GNRS 733C, Residency IC, 1 Unit

The third of a three-course sequence, this course may be taken concurrently with GNRS 733A and GNRS 733B with approval of the DNP director or designee. Grading: pass/fail

GNRS 734A, Residency IIA, 1 Unit

The first of a three-course sequence, this course may be taken concurrently with GNRS 734B and GNRS 734C with approval of the DNP director or designee. Grading: pass/fail

GNRS 734B, Residency IIB, 1 Unit

The second of a three-course sequence, this course may be taken concurrently with GNRS 734A and/or GNRS 734C with approval of the DNP director or designee. Grading: pass/fail

GNRS 734C, Residency IIC, 1 Unit

This is the last of a three-course series of clinical residencies with a focus on transformative and collaborative leadership, including completion of the evidence-based practice project, assessment of project outcomes, and planned dissemination of findings. Students apply relevant clinical and research findings to develop and improve practice. Content emphasizes critical appraisal of skills and interventions necessary to ensure meaningful translation of scientific evidence into practice, including a cost-benefit analysis for implementing a change into clinical practice. The course also emphasizes the professional role of the nurse as a collaborator, leader, and provider of care with nursing colleagues and other members of the interprofessional healthcare team within the context of complex healthcare systems, preparing students to implement an advanced nursing practice role that results in practice and/or policy change at the local, state, and/or national levels.

Prerequisite: Successful completion of GNRS 733A, GNRS 733B, GNRS 733C, GNRS 734A and GNRS 734B

GNRS 735, DNP Scholarly Project Seminar, 3 Units

The DNP program requires a rigorous clinical project focused on translating scientific research to health care in a timely manner so that patients experience the best applications of science and practice. The project is a scholarly experience that implements the principles of evidence-based practice and translation under the guidance of a faculty mentor. In line with the AACN Essentials of 2007, the outcome of the DNP scholarly project is a tangible and deliverable academic product that is derived from the practice immersion experience and reviewed and evaluated by an academic committee. The project also serves as a foundation for future scholarly practice.

GNRS 736, DNP Scholarly Project Seminar: Evaluation and Dissemination, 2 Units

This course focuses on presentation to and approval of a completed DNP Scholarly Project. The DNP program requires a rigorous clinical project focused on translating scientific research to health care to improve the patients experience utilizing the best evidence of science and practice. This scholarly project is a culminating, independent experience which demonstrates the student's synthesis of coursework and lays the foundation for future scholarship.

GNRS 780, Doctoral Seminar I: Elements of a Proposal and IRB Application, 3 Units

This seminar directs the development of either a PhD dissertation or a DNP Scholarly Project proposal draft that details a problem, the research/project purpose, questions or hypotheses to be examined, a synopsis of the relevant literature, the design and methods of the study including its timeline, protection of human subjects, plans for analysis, and the budget. The seminar also includes preparation of IRB applications, and peer review and critique of student proposals.

Prerequisite: Admission to DNP or PhD program

GNRS 781, Doctoral Seminar II: Developing a Grant Proposal, 3 Units

This doctoral seminar provides students with the opportunity to acquire knowledge, skills, and insights in the writing of a grant proposal. Discussion will focus on the value of writing grant proposals, the basic principles in writing a grant proposal, the components of a grant proposal, identification of funding sources, the difference between a research and a program grant proposal, as well as administrative factors in submitting a grant proposal. Students will craft and a grant proposal in response to a Request for Funding Proposal (RFP) that aligns with the guidelines of the funding agency, and additionally, a budget plan with justification, timelines, and a bio-sketch. In addition, students will conduct a peer review of class completed grant proposals.

GNRS 782, Doctoral Seminar III: Writing for Publication, 3 Units

This seminar focuses on various aspects of writing for publication and directs the development of a manuscript suitable for publication from a previously written paper (e.g., a course term paper). This course will help the student get started on writing; identify writing styles for various forms of publication including abstracts, journal articles, papers, and books; and determine appropriate journals to consider for article submission. The student will acquire practice in reviewing and critiquing scholarly writing by others. It will also address the editorial and publication process, as well as ethical aspects of writing for publication.

GNRS 783, Doctoral Seminar IV: Developing Professional Presentations, 3 Units

This seminar course identifies approaches to developing an effective and successful presentation, helping students find their voice and showcase their areas of expertise. Discussions focus on planning as essential to deciding on the content and the order in which the information is presented. Emphasis is on developing a logical sequence, one that flows naturally and is accompanied by audiovisuals that facilitate understanding of the material.

GNRS 784, Dissertation Seminar V, 2-4 Units

This fifth dissertation seminar provides the student a forum to explore with their peers research findings, theoretical and empirical implications, and potential venues for publication of manuscripts. Format and procedures for progression in the dissertation process are also discussed. Placement of the Course: This seminar is not required if dissertation seminar requirement of 12 units has been met by GNRS 780, GNRS 781, GNRS 782, GNRS 783, and student has defended dissertation. Grading: Pass/Fail.

Prerequisite: GNRS 783

GNRS 791, Doctor of Nursing Practice Intensive I, 1 Unit

This is the first of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. This course introduces students to the role of the DNP nurse in a variety of healthcare settings. Students acquire advanced practice and academic skills necessary for selecting a population of interest and applying evidence-based practice to it as part of an evidence-based DNP scholarly project consistent with the DNP role within a healthcare organizational setting.

Admission to the DNP program; corequisite: GNRS 716

GNRS 792, Doctor of Nursing Practice Intensive II, 1 Unit

This is the second of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. This course helps students identify strategies within a multidisciplinary model that promotes evidence-based practice in various clinical, community, and educational settings. Students receive support and direction in collaboration with the sponsoring facility and mentor as they develop a comprehensive, site-specific DNP scholarly project proposal.

GNRS 791; corequisite: GNRS 780

GNRS 793, Doctor of Nursing Practice Intensive III, 1 Unit

This is the third of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. This course equips students with the skills, competencies, and points of view needed for developing the ethical reasoning/decision-making skills necessary for conducting their DNP scholarly projects.

GNRS 792; corequisite: GNRS 712

GNRS 794, Doctor of Nursing Practice Intensive IV, 1 Unit

This is the last of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. As in the other intensive experiences, course content for each student reflects the interests of the student and is designed to meet that student's needs and career goals. This course allows students, with guidance from their mentors and faculty, to complete the DNP scholarly project and finalize the written and oral scholarly reports that disseminate and integrate new knowledge. Each student's final product reflects their ability to employ effective communication and collaboration skills, take a leadership role, integrate core DNP concepts and competencies that influence healthcare quality and safety, and successfully negotiate change in healthcare delivery for individuals, families, populations, or systems across a broad spectrum of health care.

Prerequisite: GNRS 793;

Corequisite: GNRS 736

GNRS 795, Special Topics, 1-4 Units

In this course, a subject of current interest is examined in depth. Students analyze and evaluate controversial issues to reach and express a reflective position. Students may repeat the course for credit to a maximum of six units applied toward the doctoral program; each course must address a different topic.

GNRS 798, Continuous Doctoral Study, 0 Units

This course is for doctoral students working on dissertations or translational research projects. Students must re-enroll each semester until the dissertation or translational research project is completed, defended, submitted to the library, and approved.

GNRS 799, Independent Study, 1-4 Units

Students enroll in this course to pursue independent study investigating subjects and interests that lie beyond regular course offerings. The student explores topics in greater depth than in other courses, and/or initiates an individual project. Readings are pursued in accordance with a study plan, which is developed in consultation with a sponsoring doctoral faculty member and approved by the doctoral department

Master of Science in Nursing (MSN) with Credentials

- MSN and Family Nurse Practitioner (FNP) and School Nurse Services Credential (SNSC) (p. 942)
- MSN and Pediatric Nurse Practitioner–Primary Care (PNP-PC) and School Nurse Services Credential (SNSC) (p. 943)
- MSN with School Nurse Services Credential (SNSC) (p. 944)

MSN and Family Nurse Practitioner (FNP) and School Nurse Services Credential (SNSC)

This combined specialty program (<https://www.apu.edu/nursing/programs/msn-snsc-fnp/>) prepares nurses to be effective practitioners of school health and provide primary care for people of all ages in a variety of settings. Through the program, students develop theoretical and practical expertise in nursing and education applied to basic health services in the public schools (K-12). This enables them to establish, maintain, and coordinate a comprehensive school health program. The advanced practice family nurse practitioner specialty includes direct client assessment, diagnosis, management and treatment, client advocacy, and client/family education. Graduates are eligible to apply to the state of California for the School Nurse Services Credential; they are also eligible to apply to the California Board of Registered Nursing for certification as a nurse practitioner, and may apply for national FNP certification through examination.

Students must also take a California-approved audiometry course to meet SNSC requirements.

Requirements

Code	Title	Units
Academic Core Courses		10
GNRS 504	Bioethics and Healthcare Policy	3
GNRS 506	Spiritual Concept Analysis in Health Care	3
GNRS 508A	Research and Theory in Advanced Practice Nursing	4
Advanced Practice Core Courses		14
GNRS 510	Family Theory in Health Care	2
GNRS 513	Advanced Nursing Practice Role	2

Concluding Courses		1-3
Select from the following:		
GNRS 597	Comprehensive Examination Directed Study	1
- or -		
GNRS 598 & GNRS 514	Thesis and Research Proposal Writing	3
Total Units for the MSN: FNP and SNSC ²		56-58

¹ Numbers in parentheses are classroom/clinical hours.

² Students must also take a California-approved audiometry course to meet SNSC requirements.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

MSN and Pediatric Nurse Practitioner– Primary Care (PNP-PC) and School Nurse Services Credential (SNSC)

This combined specialty program (<https://www.apu.edu/nursing/programs/msn-snc-pnp/>) prepares nurses to be effective practitioners of school health and provide primary care for children in a variety of other settings. Through the program, students develop theoretical and practical expertise in nursing and education applied to basic health services in the public schools (K-12). This enables them to establish, maintain, and coordinate a comprehensive school health program. The advanced practice pediatric nurse practitioner-primary care specialty includes direct client assessment, diagnosis, management and treatment, client advocacy, and client/family education. Graduates are eligible to apply to California for the School Nurse Services Credential. They are also eligible to apply to the California Board of Registered Nursing for certification as a nurse practitioner, and may apply for national PNP certification through examination.

Students must also take a California-approved audiometry course to meet SNSC requirements.

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

MSN with School Nurse Services Credential (SNSC)

Learn more about this program. (<https://www.apu.edu/nursing/programs/msn-snsc/>) Students must also take a California-approved audiometry course to meet SNSC requirements.

Requirements

Code	Title	Units
Academic Core Courses		10
GNRS 504	Bioethics and Healthcare Policy	3
GNRS 506	Spiritual Concept Analysis in Health Care	3
GNRS 508A	Research and Theory in Advanced Practice Nursing	4
Advanced Practice Core Courses		11
GNRS 510	Family Theory in Health Care	2
GNRS 511 or GNRS 612	Advanced Pediatric Health Assessment and Health Promotion ¹ Advanced Health Assessment and Diagnostic Reasoning	4 (3/1)
GNRS 513	Advanced Nursing Practice Role	2
GNRS 610	Advanced Pathophysiology	3
Advanced Practice Specialty Courses		17
EDUC 537	Curriculum Development, Revision, and Evaluation Process	3
GNRS 550A	Theory and Practice in School Nursing	6 (3/3)
GNRS 589	Adolescent Health Care	2 (2/0)
GNRS 590C	Primary Health Care of the Young Family for the School Nurse Services Credential	6 (3/3)
Students contemplating a nurse practitioner certificate may substitute GNRS 590A if they have completed GNRS 513 and GNRS 611 in addition to GNRS 610 and GNRS 511 or GNRS 612.		
Specialization Option Courses: No Requirement		
Concluding Courses		1-3
Select from the following:		
GNRS 597	Comprehensive Examination Directed Study	1
- or -		
GNRS 598 & GNRS 514	Thesis and Research Proposal Writing	3
Total Units for the MSN with SNSC ²		39-41

¹ Numbers in parentheses are classroom/clinical units.

² Students must also take a California-approved audiometry course to meet SNSC requirements.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity, and applying spiritual concepts.
2. Engage in scholarly inquiry and critical thinking, including evaluation and application of evidence-based research.
3. Appraise and apply knowledge to develop, implement, and evaluate interventions that promote health and prevent disease.
4. Demonstrate thoughtful analysis of the legal, political, ethical, and/or financial factors impacting health care.
5. Use information systems and technology to communicate, manage knowledge, promote quality, mitigate error and support decision-making.
6. Demonstrate the ability to coordinate and collaborate with other health care team professionals.
7. Engage in clinical reasoning, effective communication, and act as change agents to develop professional identity and practice skill.

Master of Science in Nursing (MSN) with Single Specialties

- Adult-Gerontology or Pediatric Clinical Nurse Specialist (CNS) (p. 945)
- Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP) (p. 947)
- Family Nurse Practitioner (FNP) (p. 948)
- Pediatric Nurse Practitioner–Primary Care (PNP-PC) (p. 948)
- Psychiatric Mental Health Nurse Practitioner (PMHNP) (p. 949)

Adult-Gerontology or Pediatric Clinical Nurse Specialist (CNS)

The Master of Science in Nursing with Adult-Gerontology or Pediatric Clinical Nurse Specialist (CNS) program (<https://www.apu.edu/nursing/programs/msn-cns/>) allows students to concentrate on one of these two clinical areas of content and practice. Nurses with advanced practice preparation may work in acute, primary, or long-term care settings. Students learn the process of developing and sustaining evidence-based practice in illness management, advancing the practice of other nurses and nursing personnel, and developing organizational or systems modifications to support and improve nursing practice. The traditional CNS roles of expert clinical practice, consultation, clinical leadership, research, and education are shaped toward producing desirable patient outcomes as the CNS works in several spheres of influence. Graduates are eligible to apply to the state of California for certification as clinical nurse specialists, and may apply for national certification through examination by the American Nurses Credentialing Center (ANCC) (<https://www.nursingworld.org/ancc/>).

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP)

The Master of Science in Nursing with Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP) program (<https://www.apu.edu/nursing/programs/msn-np/>) prepares students to provide primary care to the young adult, adult, and older adult age spectrum across the continuum of care from wellness to illness, in settings that include community health centers and clinics, private medical practices, long-term care facilities, and patient homes. Graduates are eligible to apply to the state of California Board of Registered Nursing (<https://www.rn.ca.gov/>) for certification as a nurse practitioner and may apply for national AGPCNP certification through examination.

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Family Nurse Practitioner (FNP)

This specialty program (<https://www.apu.edu/nursing/programs/msn-np/>) prepares students to be nurse practitioners for patients across the human lifespan in a primary healthcare setting. This advanced clinical practice specialty includes direct patient assessment, diagnosis, management, and treatment; client advocacy; and client/family education. Graduates are eligible to apply to the California Board of Registered Nursing (<https://www.rn.ca.gov/>) for certification as a nurse practitioner and may apply for national FNP certification through examination.

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Pediatric Nurse Practitioner–Primary Care (PNP-PC)

The Master of Science in Nursing (MSN) with a Pediatric Nurse Practitioner–Primary Care (PNP-PC) specialty (<https://www.apu.edu/nursing/programs/msn-np/>) prepares students to be nurse practitioners with children and families in primary health care settings. This advanced practice specialty

includes direct client assessment, diagnosis, management and treatment, client advocacy, and client/family education. Graduates are eligible to apply to the state of California Board of Registered Nursing (<https://www.rn.ca.gov/>) for certification as a nurse practitioner, and may apply for national PNP-PC certification through examination.

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Psychiatric Mental Health Nurse Practitioner (PMHNP)

This specialty master's program (<https://www.apu.edu/nursing/programs/msn-np/>) prepares students as psychiatric mental health nurse practitioners for clients with psychiatric and mental health problems across the lifespan. Graduates are prepared to work respectfully and collaboratively with clients/consumers who are experiencing severe or chronic mental illnesses to determine biopsychosocial healthcare needs within a complex and changing environment. Theory and clinical coursework focus on assessment; differential diagnosis and disease management; intervention planning; individual, family, and group psychotherapy; health promotion; and disease prevention.

The inherent equality and worthiness of those who are vulnerable and disenfranchised, the role of spirituality, the value of diversity, and the ability to engender hope, empowerment, self-responsibility, and a meaningful role in life are threaded throughout the program. Graduates are

eligible to apply to the California Board of Registered Nursing (<https://www.rn.ca.gov/>) for certification as a nurse practitioner, and may apply for national PMHNP certification through examination.

Post-Bachelor's Credentials

- School Nurse Services Credential (SNSC) (a nondegree post-bachelor's program) (p. 950)

School Nurse Services Credential (SNSC)

This specialty (nondegree) program (<https://www.apu.edu/nursing/programs/school-nurse-services-credential/>) includes core academic courses and those required for the school nurse services credential, preparing registered nurses who have completed a bachelor's degree to be effective practitioners of school health. Students develop theoretical and practical expertise in nursing and education applied to basic health services in the public schools (K-12), learning to establish, maintain, and coordinate a comprehensive school health program. This includes planning health programs, assessing the health of children, providing health care and health referral, and contributing to the formulation and evaluation of health policy. To maximize children's ability to learn in school, candidates for the credential emphasize child health maintenance, illness prevention, restoration of health, and childhood wellness. This program is approved by the California Commission on Teacher Credentialing (CTC) (<https://www.ctc.ca.gov/>).

Admission requirements (<https://www.apu.edu/nursing/programs/school-nurse-services-credential/admission/>) are the same as those for the Master of Science in Nursing program. Students must also take a California-approved audiometry course to meet SNSC requirements.

GNRS 589	Adolescent Health Care	2 (2/0)
GNRS 590C	Primary Health Care of the Young Family for the School Nurse Services Credential	6 (3/3)
Total Units for the SNSC ²		26

¹ Numbers in parentheses are classroom/clinical units.

² Students must also take a California-approved audiometry course to meet SNSC requirements.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity, and applying spiritual concepts.
2. Engage in scholarly inquiry and critical thinking, including evaluation and application of evidence-based research.
3. Appraise and apply knowledge to develop, implement, and evaluate interventions that promote health and prevent disease.
4. Demonstrate thoughtful analysis of the legal, political, ethical, and/or financial factors impacting health care.
5. Use information systems and technology to communicate, manage knowledge, promote quality, mitigate error and support decision-making.
6. Demonstrate the ability to coordinate and collaborate with other health care team professionals.
7. Engage in clinical reasoning, effective communication, and act as change agents to develop professional identity and practice skill.

Post-Master's Certificate Programs

The School of Nursing offers certificate programs to prepare nurses for advanced practice, education, and administrative roles. The curriculum for these programs reflects the School of Nursing mission and philosophy, and professional education standards for nursing. The programs are accredited by the Commission on Collegiate Nursing Education (<https://www.aacnursing.org/CCNE/>) and the California Board of Registered Nursing (<https://www.rn.ca.gov/>). The following are offered:

- Adult-Gerontology Clinical Nurse Specialist (CNS) Certificate (p. 952)
- Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP) Certificate (p. 953)
- Family Nurse Practitioner (FNP) Certificate (p. 954)
- Post-Master's Certificate in Healthcare Administration and Leadership (<http://catalog.apu.edu/academics/school-nursing/healthcare-administration-leadership/healthcare-administration-leadership-post-masters-certificate/>)
- Nursing Education Certificate (p. 956)
- Oncology Nurse Practitioner Certificate (p. 956)

- Pediatric Clinical Nurse Specialist (CNS) Certificate (p. 957)
- Pediatric Nurse Practitioner–Primary Care (PNP-PC) Certificate (p. 958)
- Psychiatric Mental Health Nurse Practitioner (PMHNP) Certificate (p. 959)

Prerequisites

1. Master's degree in nursing
2. Completion of a graduate research course
3. Completion of an undergraduate health assessment course

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Adult-Gerontology Clinical Nurse Specialist (CNS) Certificate

The Adult-Gerontology Clinical Nurse Specialist (CNS) Certificate (<https://www.apu.edu/nursing/programs/adult-cns-certificate/>) program is a nondegree course credit option for nurses with a master's degree in nursing.¹ This program provides theory and clinical experiences to prepare nurses to apply to the state of California Board of Registered Nursing for certification and to apply for national certification as an adult clinical nurse specialist (CNS) by examination. **Note: Students must be admitted to the university before registering for this program (see Admission section below).**

¹ Students may be given transfer credits for previous content completed in a master's degree program.

Requirements

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity, and applying spiritual concepts.
2. Engage in scholarly inquiry and critical thinking, including evaluation and application of evidence-based research.
3. Appraise and apply knowledge to develop, implement, and evaluate interventions that promote health and prevent disease.
4. Demonstrate thoughtful analysis of the legal, political, ethical, and/or financial factors impacting healthcare.
5. Use information systems and technology to communicate, manage knowledge, promote quality, mitigate error and support decision-making.
6. Demonstrate the ability to coordinate and collaborate with other health care team professionals.
7. Engage in clinical reasoning, effective communication, and act as change agents to develop professional identity and practice skill.

Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP) Certificate

The Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP) Certificate (<https://www.apu.edu/nursing/programs/gerontology-nurse-practitioner/>) program is designed as a nondegree course credit option for nurses with a master's degree in nursing.¹ This program prepares students to provide primary care to the young adult, adult, and older adult age spectrum across the continuum of care from wellness to illness, in settings including community health centers and clinics, private medical practices, long-term care facilities, and patient homes. Graduates are eligible to apply to the state of California Board of Registered Nursing for certification as a nurse practitioner, and may apply for the national AGPCNP certification examination.

Note: Students must be admitted to the university before registering for this program (see Admission section below).

¹ Students may be given credits for previous content completed in a master's degree program. Students who hold current California certification as a nurse practitioner or nurse midwife, and students who hold a master's degree in nursing and/or national certification as a clinical nurse specialist (CNS), may challenge or request a waiver of the coursework required for the Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP) program, as appropriate to the student's current specialty. Petitions for challenge or waiver of courses must be initiated upon admission and approved by the MSN chair. Students must show proof of current nurse practitioner, nurse midwife, or clinical nurse specialist certification.

Family Nurse Practitioner (FNP) Certificate

The Family Nurse Practitioner (FNP) Certificate program (<https://www.apu.edu/nursing/programs/fnp-certificate/>) is a nondegree course credit option for nurses with a master's degree in nursing.¹ This program prepares students with primary healthcare skills through didactic education and clinical supervision. Nurses are eligible to apply to the California Board of Registered Nursing for certification as a nurse practitioner, and may apply for national FNP certification through examination. *Students must be admitted into the university before registering for this program.*

¹ Students may be given transfer credits for previous content completed in a master's degree program. Students who hold current California certification as a nurse practitioner or nurse midwife, and students who hold a master's degree in nursing and/or national certification as a clinical nurse specialist (CNS), may challenge or request waiver of the coursework required for the Family Nurse Practitioner program, as appropriate to the student's current specialty. Petitions for challenge or waiver of courses must be initiated upon admission and approved by the MSN chair. Students must show proof of current nurse practitioner, nurse midwife, or clinical nurse specialist certification.

Requirements

Code	Title	Units
Advanced Practice Core Courses		12
GNRS 513	Advanced Nursing Practice Role ¹	2
GNRS 610	Advanced Pathophysiology	3
GNRS 611	Advanced Pharmacology	3
GNRS 612	Advanced Health Assessment and Diagnostic Reasoning ²	4 (3/1)
Advanced Practice Specialty Courses		18
GNRS 590A	Primary Health Care of the Young Family	6 (3/3)
GNRS 591	Primary Health Care of the Childbearing Family	4 (2/2)
GNRS 592A	Primary Health Care of the Adult and Aging Family	6 (3/3)
GNRS 592B	Primary Health Care Clinical Practicum	2 (0/2)
Specialization Option Courses		4
Select from the following:		
GNRS 543	Transitions Across the Care Continuum	4 (2/2)
- or -		
GNRS 593	Psychosocial Primary Health Care of the Adult and Aging Family	4 (2/2)
- or -		
GNRS 589	Adolescent Health Care	4 (2/2)
Total Units		34

¹ This requirement is waived for 1992-96 APU master's graduates, as the content was integrated in the clinical courses.

² Units in parentheses are classroom/clinical units.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity, and applying spiritual concepts.
2. Engage in scholarly inquiry and critical thinking, including evaluation and application of evidence-based research.
3. Appraise and apply knowledge to develop, implement, and evaluate interventions that promote health and prevent disease.
4. Demonstrate thoughtful analysis of the legal, political, ethical, and/or financial factors impacting healthcare.
5. Use information systems and technology to communicate, manage knowledge, promote quality, mitigate error and support decision-making.
6. Demonstrate the ability to coordinate and collaborate with other health care team professionals.
7. Engage in clinical reasoning, effective communication, and act as change agents to develop professional identity and practice skill.

Post-Master's Certificate in Healthcare Administration and Leadership

The Post-Master's Certificate in Healthcare Administration and Leadership (<https://www.apu.edu/nursing/programs/nursing-administration-certificate/>) program prepares professionals for administrative positions and leadership opportunities in nursing in a variety of healthcare settings. Coursework focuses on strategic leadership, leading change, managing teams and resources, and the business of healthcare finance and patient care delivery. This program is a way for nurses to advance their career options and builds on skills and knowledge obtained in a Master of Science in Nursing program. **Note: Students must be admitted to the university before registering for this program (see Admission section below).**

Requirements

Code	Title	Units
Required Courses		
GNRS 560	Strategic Leadership in Health Care	3

7. Engage in clinical reasoning, effective communication, and act as change agents to develop professional identity and practice skill.

Oncology Nurse Practitioner Post-Master's Certificate

The oncology nurse practitioner predoctoral fellowship program (<https://www.apu.edu/nursing/programs/oncology-nurse-practitioner/>) is designed for licensed nurse practitioners interested in providing high-quality care across the illness span to cancer patients and their families. To maximize survivorship and minimize distress, candidates are prepared to address the unique physiologic and psychosocial needs of cancer patients across the illness span in a program that emphasizes screening, surveillance, diagnosing, staging, and team-building. The curriculum is based on Oncology Nursing Society competencies, and students participate in 540 hours of supervised direct patient care experiences in multiple specialty services at a comprehensive cancer care center. Candidates enrolled in Azusa Pacific's Doctor of Nursing Practice program may apply these hours toward the

residency requirement and may petition to apply didactic units toward the specialty courses. Candidates for the certificate meet the eligibility criteria for the Advanced Oncology Certified Nurse Practitioner examination offered by the Oncology Nursing Certification Corporation.

Prerequisites

- Master's degree in nursing that includes advanced pathophysiology, advanced pharmacology, and advanced health assessment.
- Experience in oncology nursing.
- Current California nurse practitioner license.

Pediatric Clinical Nurse Specialist (CNS) Certificate

The Pediatric Clinical Nurse Specialist (CNS) Certificate (<https://www.apu.edu/nursing/programs/pediatric-cns-certificate/>) program is a nondegree course credit option for nurses with a master's degree in nursing.¹ Pediatric clinical nurse specialists influence best-practice care of pediatric populations across the care continuum through direct care and as consultants and educators. This program provides theory and clinical experiences to prepare nurses to apply to the state of California for certification as a CNS. Graduates may also apply for national certification as a pediatric CNS through examination. **Note: Students must be admitted to the university before registering for this program (see Admission section below).**

Pediatric Nurse Practitioner–Primary Care (PNP-PC) Certificate

The Pediatric Nurse Practitioner–Primary Care (PNP-PC) Certificate (<https://www.apu.edu/nursing/programs/pediatric-nurse-practitioner/>) program is a nondegree course credit option for nurses with a master's degree in nursing.¹ This program prepares students with primary healthcare skills through didactic education and clinical supervision. Nurses who complete this program are eligible to apply to the California Board of Registered Nursing for certification as a nurse practitioner, and may apply for national PNP-PC certification through examination. **Note: Students must be admitted to the university before registering for this program (see Admission section below).**

¹ Students may be given transfer credits for previous content completed in a master's degree program. Students who hold current California certification as a nurse practitioner or nurse midwife, and students who hold a master's degree in nursing and/or national certification as a clinical nurse specialist (CNS), may challenge or request waiver of the coursework required for the Pediatric Nurse Practitioner program, as appropriate to the student's current specialty. Petitions for challenge or waiver of courses must be initiated upon admission and approved by the MSN chair. Students must show proof of current nurse practitioner, nurse midwife, or clinical nurse specialist certification.

7. Engage in clinical reasoning, effective communication, and act as change agents to develop professional identity and practice skill.

Department of Nursing Education

The Master of Science in Nursing (MSN) in Nursing Education (p. 961) prepares nurses for teaching roles in a variety of settings, including traditional and nontraditional academic settings, online/distance settings, and clinical and community settings, using cutting-edge technology and teaching-learning methods. The program emphasizes competencies needed for students to complete the Certified Nurse Educator (CNE) certification examination, and is aligned with the American Association of Colleges of Nursing's *The Essentials of Master's Education in Nursing* (AACN, 2011) and the National League for Nursing's *Nurse Educator Competencies* (NLN, 2022).

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Department of Public Health

Master of Public Health (MPH)

The Department of Public Health offers a Master of Public Health (p. 966) program that provides students with competencies required to understand the unique challenges inherent to public health practice and education. The curriculum reflects the School of Nursing mission and emphasizes the conceptual, analytical, and experiential skills required to serve in the public health sector. Throughout the program, an emphasis is placed on the five core areas of public health: biostatistics, epidemiology, environmental health sciences, health policy and management, and social and behavioral sciences. There are also seven cross-cutting areas interwoven into the curriculum: communication, diversity and culture, leadership, professionalism and ethics, program planning and assessment, public health biology, and systems thinking.

Students may choose from various electives that cover different public health areas of interest: biostatistics and epidemiology, social and behavioral science, public health policy, healthcare administration, health promotion and education, international health, environmental health, and disaster health and emergency preparedness. Students should check with the department regarding elective availability, then meet with an advisor to develop a course plan that is consistent with their desired electives.

Transfer of Credits

Following admission, 9 units of approved graduate work completed elsewhere may be applied toward the MPH degree.

Additional Requirements

At the beginning of clinical coursework, including the field practicum, students are required to provide documentation of TB screening and immunizations appropriate for the clinical or field practicum setting.

A student's health status must permit him/her to safely undertake and complete clinical (field practicum) experience required for the degree. As a fully prepared public health practitioner, the student is expected to take responsibility for self-evaluation of her/his health status, including an assessment of the safety and appropriateness of practice in the clinical context.

The Joint Commission (<https://www.jointcommission.org/>), contracted facilities, and the School of Nursing require that all graduate students undergo a background check prior to their placement at clinical and field practicum sites. The cost of the background check is the responsibility of the student. International students have additional fees based on the cost of a background check in their country.

Students may select additional elective courses to support their programs of study as directed by faculty.

Programs

- Master of Public Health (p. 966)

Courses

GSPH 504, Bioethics and Healthcare Policy, 3 Units

This course will outline the role of the healthcare leader in ensuring human rights are upheld in healthcare systems. This course focuses on bioethical analysis, decision-making and moral policy analysis, and formulation. Through course discussion, group and individual assignments, and oral and written presentations, students will analyze and apply bioethical principles to decision- and policy- making processes in the workplace and at national levels. Healthcare ethics and policy will be considered from a Christian worldview.

GSPH 506, Spiritual Concept Analysis in Health Care, 3 Units

This course focuses on scholarly research and analysis of selected concepts in the spiritual care of people from the Judeo-Christian perspective. Students also examine healthcare research/other healthcare literature for adequacy with respect to the concept they select. Various assignments facilitate greater student awareness of their own spiritual journeys and knowledge of faith traditions other than their own. The course is conducted as a tutorial/seminar experience.

GSPH 508C, Research and Theory in Health Care, 3 Units

This course prepares the healthcare practitioner to apply theory and research evidence in healthcare environments. The relationship between theory and research is examined as students consider questions about the nature, construction, and use of each. Selected theories are explored, and students learn how ideas are developed and used in practice and research. Students also learn the fundamentals of quantitative, qualitative, and mixed-methods research and deepen their understanding through systematic search, critique, and summary of research studies with application to health care. Students work in groups to develop a research plan addressing a healthcare-derived question. Experience in statistical analysis of research data is included.

GSPH 510, Social Determinants of Health, 3 Units

A central focus of the public health field is understanding the etiology, occurrence, and distribution of health outcomes (morbidity and mortality). One growing area of importance within the field is examining how health and disease are influenced and maintained by social, economic, and political risk factors - called social determinants of health. This course provides a macro-level overview of concepts, research, and theoretical models of social determinants of health. Through interactive lectures, readings, and assignments, students are exposed to major areas of study linked to social determinants of health, with discussions centered on the following key questions: What social factors are the greatest challenge to health outcomes within local communities? What does it mean to use a social determinants lens when studying health outcomes among diverse multicultural populations? What are health disparities and how might they best be addressed? What behavioral lifestyle factors commonly interplay with social determinants of health?

GSPH 512, Health, Culture, and Diversity, 3 Units

This course covers the issues of health disparities in the United States and the development of culturally competent programs. Students examine what is meant by culture, the ways in which culture and health issues intersect, and how public health efforts can benefit by understanding and working with cultural processes.

GSPH 514, Research Proposal Writing, 2 Units

This course focuses on the application of the concepts in GSPH 508C Research and Theory in Health Care. The goal is the completion of a research proposal that details the problem, the research purpose, questions or hypotheses to be tested, a critique of the literature, the design and methods of the study including protection of human subjects, the plans for analysis, use of the study, and the budget and personnel.

Prerequisite: GSPH 508C

GSPH 515, Health Care Entrepreneurship, 3 Units

The course provides an opportunity to combine the strengths of public health training with new and existing approaches to social innovation and entrepreneurship from a Christian perspective. Students have opportunities to imagine solutions and mobilize resources to advance the public good and strengthen public health service. Course material introduces entrepreneurial concepts and tools to develop skills for use in various business environments.

GSPH 518, Population Health Management, 3 Units

This course covers important topics in the effective management of public health departments and agencies. Students develop knowledge and skills to fulfill roles in public health management as leaders, administrators, fundraisers, and internal and external communicators. Course content includes ways to be an effective coach to maximize the team's performance, the essentials of effective partnerships, how to create and sustain public health initiatives using business skills, how to run meetings, ways to manage electronic correspondence, and effective strategies to keep the public health organization running smoothly.

GSPH 519, Global Health Systems, 3 Units

This course examines international health systems in terms of infrastructure and function. Students examine the benefits and risks of universal healthcare, third party reimbursement systems, and global availability and access to medical services.

GSPH 520, Public Policy, the Health Care System, and Public Health Policy in the United States, 3 Units

This course is designed to provide students with an overview of public policy, health care systems and public health policy process in the United States. Students will gain an understanding of how the healthcare system works and how United States public health care policy has been developed. Review and analysis of current various proposals for healthcare reform will be conducted.

GSPH 521, Poverty and Health Policy, 3 Units

This course examines the nature and extent of poverty, health equity, and policy primarily in the United States. It considers possible causes and consequences, and the antipoverty effects of existing and proposed policies. This course will discuss labor markets, culture, and discrimination in shaping poverty. Also, it will explore how health policies seek to ameliorate poverty and other forms of social disadvantage throughout the life course. Finally, we explore the public health implications regarding poverty, inequality, and policy.

GSPH 522, Cultural Inclusivity in Health Care, 3 Units

In this course, students explore the topics and tools necessary for the application of cultural inclusivity processes in various healthcare settings. Curriculum includes an overview of demographic changes in the United States, cultural inclusivity, diversity related to specific groups, and the paradigm of cultural and linguistic diversity. Attention is also given to the costs, time, and skill sets associated with the process of moving a healthcare organization toward cultural inclusivity.

GSPH 525, Epidemiology, 3 Units

This course covers the application of epidemiological procedures to the understanding of the occurrence and control of conditions such as infections and chronic diseases, mental disorders, community and environmental health hazards, unintentional injuries, and geriatric problems. Other topics include quantitative aspects of epidemiology, including data sources, measures of morbidity and mortality, evaluation of association and causality, study design, and screening for disease.

Prerequisite: Undergraduate statistics and biology courses.

GSPH 526, Public Health Biology, 3 Units

Human health problems comprise a wide range of infectious, degenerative, neoplastic, and genetically based disease factors. In addition to these factors, human disease results from a wide range of environmental and socially caused pathologies. This course presents the basic scientific and biomedical concepts of modern public health problems and explores the mechanisms and models of the major categories of disease. An integrative approach using knowledge of nutrition, exercise, mind-body, and spiritual practices is explored. The biologic principles presented in this course are foundations to developing and implementing public health disease prevention, control, or management programs in the students' future.

GSPH 527, Advanced Biostatistics and Epidemiology, 3 Units

This course focuses on the application of statistical approaches in epidemiologic research, covering data management and selection of the appropriate statistical model. Regression analysis including linear regression, logistic regression, Poisson regression, and Cox regression is reviewed. Content also covers basic concepts in survival analysis including censoring, survival function, and hazard function. Epidemiologic methods for assessing causation, including mediation analysis, propensity score matching, and instrumental variable analysis, are also covered. Students learn to apply different analytic approaches using public databases.

GSPH 532, Infectious Disease Epidemiology, 3 Units

This course covers key methods for practicing infectious disease epidemiology, including study design, interpretation of data, and assessment of validity. Course content covers methods in infectious disease epidemiology, airborne transmission, diarrheal diseases, blood and body fluids as reservoirs of infectious disease, vector-borne/zoonotic diseases, and parasitic diseases. Students learn how to apply content and use problem-solving skills to develop effective prevention strategies.

GSPH 535, Environmental Health, 3 Units

This course examines essential issues in environmental health, including the scientific and historical foundations, regulatory and policy issues, models and tools for assessing community environmental health, and an overview of select issues and implications of the environment on national and global health. Topics explored include select environmental pollutants in the air, water, soil, and food sources; hazardous waste, risk assessment and communication; and issues of environmental justice and vulnerable populations, nationally and globally.

Prerequisite: Undergraduate biology, chemistry, or ecology

GSPH 537, Occupational Health and Safety, 3 Units

This course examines concepts and issues in occupational health and safety, identifying the significance to workers and public health. Students study social influences, historical events of worker injuries, industrial hygiene, and applicable principles of toxicology, worker quality of life, and safety in the workplace.

GSPH 540, Global Health, 3 Units

Students in this course examine global health issues, emerging priorities, and worldwide challenges affecting population health and disease. They also address opportunities in and challenges to international health, holistically examine determinants of human health, and plan, implement, and evaluate programs and potential solutions to promote international prevention interventions and optimal human health worldwide, with a focus on global health equity.

GSPH 543, Public Health Communication, 3 Units

This course provides an overview of the use of communication strategies to inform and influence individual and community health decisions, with a focus on how communication concepts, theories, and methods are used for public health promotion and practice. Health communication theories include models of persuasive communications/mass media effects, social marketing, interpersonal communications, risk perceptions, and diffusion of innovations. Students work in pairs to develop/evaluate a health communication intervention that addresses a current public health issue within a specific target group.

GSPH 546, Principles and Practices of Toxicology, 3 Units

Students in this course examine the principles of toxicology, including dose-response relationships, toxicokinetics, mechanisms and methods of toxicity, select exposures to toxic substances and accompanying toxidromes, the use of antidotes, and relevance to public health.

GSPH 550, Assessment, Program Planning, and Evaluation, 3 Units

Assessment, program planning, and evaluation bridges the gap between conceptual definitions, conceptual frameworks, and practice. Students take the lead in translating evidence-based research findings to evaluation of existing and proposed public health programs in order to assess and address population health needs. Students develop a program and evaluation plan that includes evidence-based and best practices, a logic model, and formative and summative evaluation.

GSPH 551, Theories of Health Behavior, 3 Units

This course helps students develop a knowledge foundation of health behavior theories and skills for developing theoretically based behavior-change programs. Given that a major focus of public health promotion, education, and prevention programs is on "changing health behavior," there is an ongoing quest to understand why people do what they do to (a) improve or maintain their health, and/or (b) worsen their health. Through lectures, readings, and assignments, students critically review and apply a range of health behavior theories that target the intrapersonal, interpersonal, and community levels.

GSPH 555, Infectious Diseases and Public Health, 3 Units

Students in this course examine the role of infectious diseases in regional, national, and global public health. Students study the historical context and surveillance of communicable diseases, as well as emerging issues in the field. Course content also includes the identification and management of infectious diseases, with students using case studies and proposing threats along with opportunities in prevention, education, and health promotion.

GSPH 560, Strategic Leadership in Health Care, 3 Units

This course is designed to develop knowledge, skills and attitudes about leadership across the healthcare continuum. The student will consider the professional role of the healthcare administrator both from a leadership and a management perspective. Areas of concentration will include leadership theory, structure of healthcare institutions, systems thinking and decision-making, performance improvement including quality and safety issues, risk management and effective communication skills. Application of business skills will be integrated. Students will consider the theoretical and research background, current issues and trends, leadership and administrative implications of specific topics.

GSPH 561, Public Health Across the Disaster Cycle, 3 Units

Students in this course evaluate the roles of public health in natural and human-caused disasters, from "simple" to complex humanitarian events. Using case studies, students analyze the functions of public health agencies and practitioners in the context of institutional systems and the disaster cycle (prevention/preparedness, response, recovery, and mitigation). Field trips outside of class hours may be required.

GSPH 566, Politics and Policies in Disaster Health and Emergency Preparedness, 3 Units

Students in this course evaluate existing governmental and institutional policies related to disaster health and emergency management (DHEM) within political systems. Implementation and evaluation of policy are analyzed and applied.

GSPH 568, Health Care Finance, 3 Units

This course is an introduction to financial concepts and skills needed for healthcare leaders, managers, and executives. Students develop skills in assessing multiple dimensions of financial performance and learn methods to improve the financial health of an organization in the context of the current patient care system.

GSPH 571, International Health Care, 2-4 Units

This course provides students with experience in nursing care in other countries. Students prepare with coursework in the United States, then travel abroad, where they have experiences in acute and/or chronic care settings, exploring cultural, economic, systems, philosophical, and other aspects of care that influence the provision of health care in other countries. A debriefing period is provided upon return.

GSPH 581, Disaster Health and Emergency Management Principles and Practices, 3 Units

Students in this course examine the practice of emergency management and the evolving field of disaster health. Content addresses traditional and current perspectives related to understanding disaster cycles and the relationship between disaster research and practice.

GSPH 593, Field Practicum, 3 Units

In this integrative learning experience, students complete hours in the field applying coursework and classroom learning in a real-world setting under the guidance and supervision of faculty and community-based preceptors, preparing them for professional careers in public health.

GSPH 594, Additional Field Practicum Experience, 1-5 Units

This field practicum elective gives students the opportunity to complete additional hours of practicum experience, allowing them to directly apply course content, public health knowledge, and skills acquired from the MPH program, under the guidance and supervision of faculty and community-based preceptors. This experience enriches classroom activity with practical understanding, and give students the chance to demonstrate an integration of coursework into a real-world setting, preparing them for a professional career in public health.

Prerequisite: GSPH 593

GSPH 595, Special Topics in Public Health, 1-6 Units

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development and/or to develop a particular project. If students elect this course more than once during their program, each such course must address a different topic.

Prerequisite: Graduate standing

GSPH 597, Capstone, 1 Unit

This guided-study course provides a summative experience for completion of the Master in Public Health program and guides the student through the process of demonstrating an integration of theoretical, clinical, and research knowledge from course work throughout the program to the solution of a major public health problem in this culminating project. Each graduate candidate will identify a unique health problem in an actual healthcare setting to address, perform a thorough review and synthesis of current literature, select an appropriate theoretical framework, and develop a creative and innovative solution to the problem. Candidates will meet regularly throughout the semester with course faculty to prepare for and discuss their progress and will submit their work for publication or comparable external review format at the end of the semester.

Prerequisite: Completion of all Academic Core and Specialty courses

GSPH 598, Thesis, 1 Unit

This course is the second part of a two-course sequence (after GSPH 514 Research Proposal Writing) that supports student development of a thesis in the Master of Public Health program. The thesis has served as an option to the master's capstone project.

Prerequisite: GSPH 514

GSPH 599, Readings in Public Health, 1-3 Units

A student may elect to pursue special interests for credit at any time during the program under the supervision of a faculty member. This course is an independent study, arranged with a faculty member of the Department of Public Health.

Prerequisite: Graduate standing

GSPH 613, Graduate Statistics, 3 Units

This course presents the knowledge of descriptive, correlational, and inferential statistics used in research that serves as the basis for evidence-based practice. Students develop the ability to perform descriptive and inferential data analysis techniques, use software applications to aid in statistical calculations and presentation, and interpret findings.

Prerequisite: Undergraduate statistics and biology courses.

Faculty

Chair

Marissa Brash (<http://www.apu.edu/faculty/mbrash/>), DrPH, EdD, CPH

Professor

Teresa Dodd-Butera (<http://www.apu.edu/faculty/tbutera/>), PhD, RN, DABAT

Associate Professors

Marissa Brash (<http://www.apu.edu/faculty/mbrash/>), DrPH, EdD, CPH

Sanggon Nam (<http://www.apu.edu/faculty/snam/>), PhD

Assistant Professors

Christina Bivona-Tellez (<http://www.apu.edu/nursing/faculty/cbivonatellez/>), DNP, MPH, RN, NEA-BC

Brianna Pack (<http://www.apu.edu/faculty/bpack/>), MBA

Koy Parada (<http://www.apu.edu/nursing/faculty/kparada/>), MPH, PhD(c)

Master of Public Health (MPH)

APU's Master of Public Health program (<https://www.apu.edu/nursing/programs/mph-degree/>) is accredited by the WASC Senior College and University Commission (WSCUC) (<https://www.wscuc.org/>) and is applying for accreditation from the Council on Education for Public Health (CEPH) (<https://ceph.org/>) accreditation as an MPH program with a health equity specialization. As part of the program, students select 9 units of elective coursework, which allows students to group three electives of their choice to fit their public health interests and/or career goals.

Requirements

Code	Title	Units
Core Courses		
GSPH 613	Graduate Statistics	3
GSPH 504	Bioethics and Healthcare Policy	3
GSPH 560	Strategic Leadership in Health Care	3
GSPH 510	Social Determinants of Health	3
GSPH 525	Epidemiology	3
GSPH 535	Environmental Health	3
GSPH 540	Global Health	3
GSPH 506	Spiritual Concept Analysis in Health Care	3
GSPH 526	Public Health Biology	3
GSPH 508C	Research and Theory in Health Care	3
GSPH 593	Field Practicum	3
GSPH 594	Additional Field Practicum Experience (Optional)	1-5

Choose one of the following: 1-3

GSPH 597	Capstone
- or -	
GSPH 598 & GSPH 514	Thesis and Research Proposal Writing

Elective Group (Choose One) 9

Biostatistics and Epidemiology Electives

GSPH 527	Advanced Biostatistics and Epidemiology
GSPH 532	Infectious Disease Epidemiology
Select one of the following:	
GSPH 546	Principles and Practices of Toxicology
GSPH 555	Infectious Diseases and Public Health
GSPH 571	International Health Care
GNRS 596	Foundations of Healthcare Informatics
PADM 505	Public Sector Research Methods
STAT 551	Data Visualization
STAT 553	Data Mining
STAT 571	Applied Multivariate Analysis

International Health Electives

GSPH 512	Health, Culture, and Diversity
GSPH 519	Global Health Systems
Select one of the following:	
GSPH 522	Cultural Inclusivity in Health Care
GSPH 543	Public Health Communication
GSPH 550	Assessment, Program Planning, and Evaluation
GSPH 571	International Health Care

Social and Behavioral Science Electives

GSPH 522	Cultural Inclusivity in Health Care
GSPH 551	Theories of Health Behavior
Select one of the following:	
GSPH 512	Health, Culture, and Diversity
GSPH 520	Public Policy, the Health Care System, and Public Health Policy in the United States
GSPH 521	Poverty and Health Policy
GSPH 543	Public Health Communication
GSPH 550	Assessment, Program Planning, and Evaluation
GSPH 571	International Health Care
PADM 502	Organizations and Behavior

Public Health Policy Electives

GSPH 520	Public Policy, the Health Care System, and Public Health Policy in the United States
GSPH 521	Poverty and Health Policy
Select one of the following:	
GSPH 566	Politics and Policies in Disaster Health and Emergency Preparedness
GSPH 571	International Health Care
PADM 503	The Policy Process

Healthcare Administration Electives

GSPH 518	Population Health Management
GSPH 568	Health Care Finance
Select one of the following:	
GSPH 515	Health Care Entrepreneurship
GSPH 550	Assessment, Program Planning, and Evaluation
GSPH 571	International Health Care
GSPH 581	Disaster Health and Emergency Management Principles and Practices

MGMT 516	High-Performance People Management
MGMT 517	Managing Human Capital
PADM 506	Ethical Leadership and Management
PADM 512	Healthcare Administration
Health Promotion and Education Electives	
GSPH 543	Public Health Communication
GSPH 550	Assessment, Program Planning, and Evaluation
Select one of the following:	
GSPH 512	Health, Culture, and Diversity
GSPH 522	Cultural Inclusivity in Health Care
GSPH 571	International Health Care
PADM 510	U.S. Healthcare System
Environmental Health Electives	
GSPH 537	Occupational Health and Safety
GSPH 555	Infectious Diseases and Public Health
Select one of the following:	
GSPH 521	Poverty and Health Policy
GSPH 546	Principles and Practices of Toxicology
GSPH 571	International Health Care
PADM 513	Community Health and the Built Environment
Disaster Health and Emergency Preparedness Electives	
GSPH 561	Public Health Across the Disaster Cycle
GSPH 566	Politics and Policies in Disaster Health and Emergency Preparedness
Select one of the following:	
GSPH 571	International Health Care
GSPH 581	Disaster Health and Emergency Management Principles and Practices

Total Units

43-45

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity and integrity, and applying spiritual concepts.
2. Engage in evidence-based methods to understand and address public health issues, using critical reasoning, scholarly inquiry, knowledge of peer-reviewed scientific literature, bioinformatics, and data analysis.
3. Design population-based policies and programs that promote health, prevent disease, and address social equity issues.
4. Apply principles of leadership to promote interprofessional collaboration and decision-making among diverse stakeholders.
5. Utilize systems-level thinking and communication in response to public health issues - analyzing and synthesizing policies and programs that address efficiency, cost-effectiveness, and health equity.

Department of Doctoral Studies

The Department of Doctoral Studies offers two doctoral programs, the Doctor of Philosophy (PhD) in Nursing and the Doctor of Nursing Practice (DNP). Scholarship is fundamental to both programs. The PhD is a research-based program that primarily prepares students to conduct independent research and disseminate their findings. The DNP program is clinically focused and provides graduates with the expertise to assess nursing research evidence, evaluate the impact of nursing research on nursing practice (evidence-based practice), and take a leadership role in making changes in the healthcare environment to enhance the quality of care. The department also offers a Bachelor of Science in Nursing (BSN) to DNP pathway that allows RNs with a BSN to enter directly into the DNP program without first earning an MSN degree.

Programs

- Doctor of Philosophy (PhD) in Nursing (p. 992)
- Bachelor of Science in Nursing (BSN) to Doctor of Nursing Practice (DNP) Pathway (p. 990)
- Doctor of Nursing Practice (DNP) (p. 987)

Courses

GNRS 500, Conceptual Foundations of Professional Nursing, 3 Units

This course focuses on the introductory concepts crucial to the socialization of second career students to professional nursing. The history of nursing, the evolution of nursing in the U.S., the art and science of nursing, the legal and professional basis of nursing, the role of nursing in the health care delivery system, and current issues and trends in nursing education, practice and research are emphasized.

GNRS 501, Theoretical Thinking in Nursing, 2 Units

This course examines questions about the nature and construction of theory and how theoretical ideas are developed and used in nursing practice and research. Philosophical ideas underlying theory are examined, and selected theoretical models and theories are explored.

Prerequisite: Completion of undergraduate research course or instructor's consent; admission to ELM or MSN program.

GNRS 503, Cultural Competency in Health Care, 3 Units

This course focuses on transforming graduate nursing students, preparing them for nursing leadership in nursing practice, nursing research, education, and public health policy for the improvement of patient healthcare outcomes in our increasingly diverse society. Students move from cultural sensitivity and awareness to critical reflection and action, challenging their assumptions and broadening their perspectives. The Essentials of Master's Education in Nursing (American Association of Colleges of Nursing, 2011) serves as the foundation for the development of core cultural competencies.

Prerequisite: Graduate standing in the School of Nursing.

GNRS 504, Bioethics and Healthcare Policy, 3 Units

This course will outline the role of the healthcare leader in ensuring human rights are upheld in healthcare systems. This course focuses on bioethical analysis, decision-making and moral policy analysis, and formulation. Through course discussion, group and individual assignments, and oral and written presentations, students will analyze and apply bioethical principles to decision- and policy- making processes in the workplace and at national levels. Healthcare ethics and policy will be considered from a Christian worldview.

Prerequisite: Graduate standing

GNRS 505, Christian Formation for Holistic Care, 3 Units

Students engage in the process of discovering the foundational values of Azusa Pacific University that serve as guiding principles for the distinctive education they will receive. They are made aware of the Christian worldview and its implications for personal holistic development and care. With a focus on developing motivating character and integrated caregivers, the course brings heightened self-awareness, the impact of a Christian worldview on vocation, scriptural awareness especially emphasizing healing themes in the life of Christ, and the importance of spiritual growth on the journey toward formation.

GNRS 506, Spiritual Concept Analysis in Health Care, 3 Units

Scholarly research and analysis of selected concepts in the spiritual care of persons from the Judeo-Christian perspective provide a central focus to the course. Students also examine healthcare research/other healthcare literature for adequacy with respect to the concept they select. Various assignments facilitate greater student awareness of their own spiritual journey and knowledge of faith traditions other than their own. The course is conducted as a tutorial/seminar experience.

Prerequisite: Graduate standing

GNRS 507, Scientific Writing, 3 Units

This course provides opportunities for students to learn how to introduce a topic or issue, articulate a thesis, support and develop a thesis and subordinate claims, work with secondary sources, and organize an argument.

GNRS 508A, Research and Theory in Advanced Practice Nursing, 4 Units

This course prepares nurses to use theory and research evidence in advanced clinical practice. The relationship between theory and research is examined, exploring questions about the nature, construction, and use of each. Selected theoretical models and theories are explored, and students learn how ideas are developed and used in nursing practice and research. Students deepen their understanding of the research process by engaging in a systematic search, critique, and summary of research studies with direct application to nursing practice. Experience in statistical analysis of research data is included.

Prerequisite: Computer literacy, undergraduate research course, undergraduate statistics course, and graduate standing

GNRS 508B, Research and Theory in Healthcare, 4 Units

This course prepares the healthcare administrator to apply theory and research evidence in healthcare environments. The relationship between theory and research is examined, exploring questions about the nature, construction, and use of each. Selected theories are explored, and students learn how ideas are developed and used in practice and research. Students learn the fundamentals of quantitative, qualitative, and mixed methods research and deepen their understanding through systematic search, critique, and summary of research studies with application to healthcare. Students work in groups to develop a research plan addressing a healthcare-derived question. Experience in statistical analysis of research data is included.

Prerequisite: GNRS 613

GNRS 510, Family Theory in Health Care, 2 Units

The major theoretical perspectives for understanding the family as a core unit of analysis are studied. This course fosters the student's recognition of the family's responsibility for health. Factors such as family patterns and care-giving tasks of families experiencing catastrophic or chronic alteration in health care are examined. This class is offered online.

Prerequisite: Graduate standing

GNRS 511, Advanced Pediatric Health Assessment and Health Promotion, 4 Units

This course develops the graduate nurse's assessment skills and focuses on the promotion of health in the pediatric population from the newborn period through adolescence. Emphasis is on adapting and expanding the medically focused history and physical assessment to incorporate the assessment of traditional health practices and identify culturally relevant and age-appropriate health promotion strategies. Outcomes are examined in light of related theoretical concepts. Strategies for health promotion include a focus on developmental and behavioral assessments, emotional health, nutrition, counseling to modify risk factors, and screening tests/prophylaxis for early detection and prevention of disease.

Prerequisite: Undergraduate health assessment and GNRS 610;

Corequisite: Practicum

GNRS 513, Advanced Nursing Practice Role, 2 Units

This course focuses on the concepts of role development and performance competence of the nurse in advanced clinical practice within the context of a reformed health care delivery system. Emphasis is placed on the clinician, educator, clinical program manager, consultant, researcher, and case manager roles of the advanced practice nurse. The leadership aspects of the roles of advanced practice are explored in relation to health care delivery, policy formulation, and legislation. The course explores theories and issues related to the advanced nursing practice role.

Prerequisite: Graduate standing

GNRS 514, Research Proposal Writing, 2 Units

This course focuses on the application of the concepts in GNRS 508A. The goal is the completion of a research proposal that details the problem, the research purpose, questions or hypotheses to be tested, a critique of the literature, the design and methods of the study including protection of human subjects, the plans for analysis, use of the study, and the budget and personnel.

Prerequisite: GNRS 508A

GNRS 516, Integrative Disease and Symptom Management, 3 Units

Using a systems-based approach, this course provides the student with a broad-based, graduate-level overview for understanding disease processes, treatment modalities, assessment and interventional strategies for patients across the life span.

GNRS 517, Fundamentals in Nursing Practice, 2 Units

This is an experiential learning course designed to teach basic nursing skills in a clinical skills or simulation laboratory setting to prepare students to deliver safe and patient-focused nursing care. Utilizing the nursing process, students perform basic skills in assessment, patient care across the continuum, documentation, patient-family teaching, and infection control.

GNRS 518, Supervised Practicum in Health Care, 3 Units

This course prepares students to integrate and apply theory, evidence-based practice, and national guidelines and standards in practicum settings. Students select practicum areas in which, with faculty approval, they will participate in experiences led by preceptors. The purpose of the course is to equip students with current, evidence-based knowledge in a selected practice area.

GNRS 520, Theory and Practice of the Clinical Nurse Specialist in Nursing Care of Adult-Gerontology Patients, 6 Units

Critical concepts in advanced collaborative management of adult-gerontology client populations by Clinical Nurse Specialists are studied. Differential diagnosis, pharmacologic management, cultural sensitivity, adult-gerontology continuum of health and illness (i.e., wellness, health promotion, disease prevention), teaching-learning theory, and evidence-based best practices for clinical decision-making for the Adult and Geriatric population are highlighted. CNS roles, competencies, and professional issues and integrated clinical rotations will be chosen from critical care or medical-surgical adult-gerontology populations. Clinical seminar times allow students to discuss and analyze current professional issues and clinical problems in a collegial atmosphere.

Prerequisite: Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements;

Corequisite: Practicum

GNRS 521, Clinical Specialization in the Care of Adult-Gerontology Patients, 6 Units

The course prepares the student to apply concepts introduced in GNRS 520. It focuses on diagnosis and collaborative disease management of acute illness in the adult-gerontology patient by the Clinical Nurse Specialist. The integration of advanced skill development, theory and evidence based practice, disease management, clinical decision making, unit and organization management issues, professional issues and APRN role competencies are the foundation for this course. Practicum and seminars are planned to span the breadth of the students' clinical opportunities.

Prerequisite: Academic Core and Advanced Practice Core courses, GNRS 520, current RN license, CPR certificate, and meets health screening requirements;

Corequisite: Practicum

GNRS 522, Disaster Nursing and Emergency Preparedness, 3 Units

This course explores the nature of disasters and prepares nurses to respond to various types of disasters - including natural, environmental, mass casualty, public health emergencies, terrorism, and bioterrorism - by utilizing essential knowledge, skills, values, meanings, and experience in the basic competencies of emergency preparedness and disaster nursing. In accordance with the position of major nursing organizations, emphasis is placed on evidence-based best practices for personal preparedness.

Prerequisite: Comparable course, such as UNRS 312 Nursing Management of Adults, a human growth and development course, a lifespan course OR an RN licensure.

GNRS 530, Theory and Practice of the Clinical Nurse Specialist in the Care of the Pediatric Patient, 6 Units

Critical concepts in the advanced collaborative management of pediatric client populations by the Clinical Nurse Specialists are studied. Differential diagnosis, pharmacologic management, cultural sensitivity, pediatric continuum of health and illness (i.e., wellness, health promotion/disease prevention), teaching-learning theory, and evidence-based/best practices for clinical decision-making for the Pediatric population are highlighted. CNS roles, competencies, and professional issues are integrated. Clinical rotations will be chosen from critical care or medical-surgical pediatric populations. Clinical seminar times allow students to discuss and analyze current professional issues and clinical problems in a collegial atmosphere.

Prerequisite: Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements;

Corequisite: Practicum

GNRS 531, Clinical Specialization in the Care of the Pediatric Patient, 6 Units

The course prepares the student to apply concepts introduced in GNRS 530. It focuses on diagnosis and collaborative disease management of acute illness in the pediatric patient by the Clinical Nurse Specialist. The integration of advanced skill development, theory and evidence based practice disease management, clinical decision making, unit and organization management issues, professional issues and APRN role competencies are the foundation for this course. Practicum and seminars are planned to span the breadth of the students' clinical opportunities.

Prerequisite: Academic Core and Advanced Practice Core courses, GNRS 530, current RN license, CPR certificate, and meets health screening requirements;

Corequisite: Practicum

GNRS 532, Advanced Nursing Practice in Pediatrics, 6 Units

This course emphasizes physiological and psychological bases for critical and chronic conditions in children, focusing on an advanced science base for the assessment, diagnosis, and management of children and families to promote wellness. Exploration of traditional versus alternate medicine treatment plans, as well as relevant cultural, spiritual, and health promotion strategies, is incorporated.

Prerequisite: Graduate status and GNRS 590A;

Corequisite: Practicum

GNRS 533, Psychiatric Theories across the Life Span, 2 Units

This course presents neurobiologic, neuroendocrine, genomic, behavioral, and psychodynamic theories of psychiatric mental illnesses as they manifest among members of diverse cultural groups across the life span. A theoretical foundation for subsequent coursework in primary psychiatric mental health care is provided for the role of the psychiatric mental health nurse practitioner.

Prerequisite: Graduate standing, Advanced Practice Core

GNRS 534, Integrated Psychiatric and Health Assessment across the Life Span, 2 Units

This course teaches the role of the psychiatric mental health nurse practitioner in interviewing, assessing, and utilization of other data collection methods to elicit, analyze, and evaluate bio-psychosocial information regarding psychiatric mental health illness as experienced and understood by the clients, across the lifespan. Assessment and integration of the effects of potential and/or existing co-morbid health problems are focused upon. Diagnostic reasoning that is based on the Diagnostic Statistical Manual is foundational in the course. Development of differential diagnoses and disease management, evidence-based practice, and health promotion that includes client and nurse practitioner collaboration is emphasized.

Prerequisite: Advanced Practice Core, GNRS 533 (May be taken concurrently)

GNRS 535, Psychiatric Interventions and Health Promotion across the Life Span, 6 Units

In this course students learn historical, theoretical, and contemporary evidence-based psychotherapies that promote and support client stabilization, rehabilitation, and recovery. The client as a collaborating decision making consumer and the client-clinician therapeutic alliance are central to this course. Students increase competence in assessment of psychiatric mental health illnesses, differential diagnoses and disease management, implementation of psychotherapy (individual, group, family), medication management, and health promotion interventions, including motivational interviewing. Student competence in developing and facilitating therapeutic groups as a recovery modality are included in the course. The role of the psychiatric mental health nurse practitioner in the integration and coordination of support services that impact mental health and illness is also included. Students practice verbal psychotherapeutic skills that motivate and facilitate client self-management and progression toward recovery.

Prerequisite: Advanced Practice Core, GNRS 533 and GNRS 534; GNRS 539 may be taken concurrently;

Corequisite: Practicum

GNRS 536, Psychiatric Mental Health Care with Adults and Older Adults, 6 Units

In this course students increase their knowledge and competence in the assessment of psychiatric mental health illnesses, differential diagnoses and disease management, implementation of psychotherapy (individual, family, group), evidence-based practice, medication management, health promotion and disease prevention interventions, integration and coordination of support services, with adults and older adults.

Prerequisite: GNRS 533, GNRS 534, GNRS 535, GNRS 539;

Corequisite: Practicum

GNRS 537, Psychiatric Mental Health Care with Children and Adolescents, 6 Units

In this course, students increase competence in the role of the psychiatric mental health nurse practitioner in the assessment of psychiatric mental health illnesses, differential diagnosis and disease management, implementation of psychotherapy (individual, family, group), evidence-based practice, medication management, health promotion and disease prevention interventions, integration and coordination of support services with children, adolescents, and families.

Prerequisite: GNRS 533, GNRS 534, GNRS 535, GNRS 536, GNRS 539;

Corequisite: Practicum

GNRS 538, Psychiatric Mental Health Care with Selected Populations, 5 Units

Students increase knowledge and competence in the assessment of psychiatric and mental health illnesses, differential diagnosis and disease management, implementation of psychotherapy (individual, family, group), medication management, health promotion and disease prevention interventions, and integration and coordination of support services with a selected population. Focus is on integrating and practicing all aspects of the role of the psychiatric mental health nurse practitioner with clients who are experiencing acute and/or chronic mental health problems and psychiatric disorders.

Prerequisite: GNRS 533, GNRS 534, GNRS 535, GNRS 536, GNRS 539;

Corequisite: Practicum

GNRS 539, Psychopharmacology, 2 Units

Students in this course build upon knowledge of advanced practice nursing and provides content essential for the psychiatric mental health nurse practitioner to prescribe appropriate pharmacologic treatment in practice. Mechanisms of action, interactions, side effects, and prescribing guidelines for psychopharmaceuticals commonly utilized across the lifespan are addressed.

Prerequisite: GNRS 533, GNRS 534; GNRS 535 (May be taken concurrently)

GNRS 542, Advanced Concepts and Competencies in Pediatric Primary Health Care, 3 Units

This course offers a comprehensive review and synthesis of core concepts and competencies for the pediatric advanced practice nurse in the primary care setting. This culminating experience for pediatric nurse practitioner students incorporates seminar discussions and clinical practicum placement, and also allows for a discussion of developmental/behavioral issues, management of acute and chronic care illnesses seen in primary care settings, and preventative health care.

Prerequisite: Graduate standing, GNRS 532 (may be taken concurrently with instructor's permission), and GNRS 590A;

Corequisite: Practicum

GNRS 543, Transitions Across the Care Continuum, 4-6 Units

This course focuses on principles and models of care and their implementation in a multidisciplinary practice environment that emphasizes healthcare delivery through integration of services and transition management. Students are introduced to decision making related to allocation of resources and services, development of protocols, and evaluation of management approaches. Evidence-based approaches to the clinical, administrative, educational, and research dimensions of patient care are emphasized. Evaluation of care management activities with the student's selected clinical population is an integral component of the course.

Prerequisite: NP students: completion of Advanced Practice Core; CNS students: completion of Advanced Practice Core and GNRS 520 or GNRS 530; HAL students: completion of MSN Core and GNRS 560.

Corequisite: Practicum

GNRS 544, Clinical Specialization Residency, 2-4 Units

This elective residency program, formed through a partnership between the School of Nursing and selected community healthcare organizations, is an intensive, precepted clinical experience that helps students transition to beginning professional nurses in a specialized setting. It enhances students' skill and practice knowledge in preparation for the RN licensing examination, and increases their ability to perform clinical reasoning with the assigned patient population and evaluate the QSEN competencies of patient-centered care, safety, evidence-based practice, informatics, and teamwork and collaboration.

Prerequisite: ELM students must complete GNRS 573 (may be taken concurrently), but GNRS 573 is not required for nurses in community partnerships who are taking GNRS 544 for continuing education credit.

GNRS 546, Theory and Practice in Health Care Systems in the Community, 6 Units

This specialized course prepares RNs without a bachelor's degree for graduate study in nursing. A multiple theoretical focus that includes concepts from systems, stress, adaptation, developmental, and role theory is emphasized. A beginning practice in the utilization of the nursing process with an emphasis on nursing diagnosis and the nurse's role in assessing, planning, implementing, and evaluating care of clients in a variety of community settings is provided. Collaboration with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals and families at home are essential course components. A review of legal mandates for practice and discussion of ethical dilemmas and issues related to high quality nursing care are included. Specific content varies based on the students' prior education and experience. Clinical placements are arranged to meet the individual student's needs.

Prerequisite: Undergraduate research, pathophysiology, and health assessment;

Corequisite: Practicum

GNRS 547, Nursing Leadership in Acute Care Settings, 6 Units

This is one of two clinical courses provided for the RN who seeks both a bachelor's and master's degree in nursing. The course synthesizes selected information from the generic bachelor's and master's programs for presentation in a condensed format, addressing the development and nature of today's health care systems and associated issues in the United States. Further, content familiarizes the student with several roles and responsibilities of the contemporary nurse, such as leader, consultant, teacher, manager, and client advocate. The course focuses on client needs in acute health care settings and emphasizes the relationship between the health care system and the advocate.

Prerequisite: Undergraduate research, pathophysiology, and health assessment;

Corequisite: Practicum

GNRS 548, Health Promotion Across the Lifespan, 2 Units

The course focuses on health promotion and disease prevention across the lifespan and around the globe. The course includes exploration of population health issues, environmental implications in health and health policy, impact on health promotion and the development of disease.

Prerequisite: Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements

GNRS 550A, Theory and Practice in School Nursing, 6 Units

This combined didactic and clinical course provides theoretical content and field experiences that emphasize the multifaceted role of the school nurse. Students participate in field experiences and classroom learning activities that focus on the assessment and management of children's healthcare needs in various school settings. This course equips students with the necessary tools and skills to successfully function as professional school nurses. At the conclusion of this course, students are able to successfully function as providers of health education as well as providers, planners, and coordinators of health care in school settings.

Prerequisite: GNRS 612 or instructor consent, and admission to School Nurse Services Credential program;

Corequisite: Practicum

GNRS 554, Medical-Surgical Care of the Adult and Geriatric Patient, 5 Units

This course introduces crucial concepts in professional nursing care, such as the nursing process, communication, therapeutic interventions, critical thinking, and critical reasoning. Course material focuses on the application of biological, psychosocial, and spiritual concepts to adult and elderly clients in various healthcare settings with acute and/or chronic illnesses. The nursing process is utilized to provide care to one or two adult clients within the healthcare delivery system. The clinical practicum focuses on the cognitive basics, scientific principles, and manipulative components of psychomotor skills used when providing nursing care.

Prerequisite: Admission to the ELM program, completion of all prerequisite courses for the program.

Corequisite: GNRS 554P

GNRS 555, Medical Surgical Care of the Adult and Geriatric Patient, 7 Units

This course introduces crucial concepts to professional nursing care such as nursing process, communication, therapeutic interventions, and critical thinking and clinical reasoning. The course focuses on the application of biological, psychosocial, and spiritual concepts to hospitalized adult and elderly clients with acute and/or chronic illnesses. Students will be guided in critical thinking and clinical reasoning exercises in the management of hospitalized clients. Nursing process is utilized to provide care to one or two adult clients within the health care delivery system of an acute care setting. The clinical practicum focuses on the cognitive basis, scientific principles, and manipulative component of psychomotor skills used when providing nursing care. Students have an opportunity to practice simulated clinical skills.

Prerequisite: Admission to the ELM program, completion of all prerequisite courses for the program;

Corequisite: Practicum

GNRS 556, Intermediate Medical Surgical Care of the Adult, 7 Units

This course is designed to build on the base of medical-surgical nursing knowledge from GNRS555. The course focuses on comprehensive nursing care to patients with acute need for continuous cardiac monitoring, pulse oximetry monitoring, or ventilator assistance in telemetry units, in restorative care setting, or long-term care setting.

Prerequisite: Admission to the ELM program; successful completion of GNRS 555;

Corequisite: Practicum

GNRS 557, Medical Spanish for Advanced Practice Nurses, 3 Units

This course provides non-Spanish-speaking advanced-practice nursing students with foundational knowledge of Spanish language structure and vocabulary, helping them build appropriate phrasing to facilitate communication in healthcare settings. Cultural issues relevant to health and illness in the Latino community are also addressed.

Prerequisite: Graduate nursing student standing, or instructor's permission

GNRS 558, Intermediate Medical-Surgical Care of the Adult, 6 Units

This course is designed to build on the base of medical-surgical nursing knowledge from prior nursing courses. The course focuses on comprehensive nursing care to patients with acute need for continuous cardiac monitoring, pulse oximetry monitoring, or ventilator assistance in telemetry units, restorative care settings and long-term care settings.

Corequisite: GNRS 558P

GNRS 559, Audiometry for School Nurses, 3 Units

This course provides didactic instruction via eCollege and eight hours of on-site practicum experience that emphasizes the content and clinical expertise necessary to fulfill the requirements of the State of California School Hearing Conservation Program and training for the school audiometrist. The course focuses on the physiologic process of hearing and how to assess for deficits in hearing in children of all ages. At the conclusion of the course, and after having completed successfully all learning objectives, the student is eligible to submit an Application for Registration as a School Audiometrist in the State of California (a \$10 registration fee is required with the application).

GNRS 560, Strategic Leadership in Health Care, 3 Units

This course is designed to develop knowledge, skills and attitudes about leadership across the healthcare continuum. The student will consider the professional role of the healthcare administrator both from a leadership and a management perspective. Areas of concentration will include leadership theory, structure of healthcare institutions, systems thinking and decision-making, performance improvement including quality and safety issues, risk management and effective communication skills. Application of business skills will be integrated. Students will consider the theoretical and research background, current issues and trends, leadership and administrative implications of specific topics.

GNRS 564, Nutrition and Therapeutics, 2 Units

Students in this course explore the functions of nutrients and the consequences of nutrient deficiencies and excesses in the body. Course material introduces a variety of tools for planning and evaluating diets, including a computer diet analysis, and the application of nutrition concepts is interwoven into health care and fitness conditions. Students also study the prevention of chronic disease as it relates to proper nutrition and adequate exercise.

Prerequisite: Admission to the ELM program

GNRS 567, Healthcare Administration and Leadership Supervised Practicum, 3 Units

This course provides the student with the opportunity to experience the role of healthcare administrator. An individualized administration practicum in a specific area of clinical emphasis is chosen by the student and approved and monitored by the faculty and preceptor. Competencies that govern the role of the healthcare administrator are explored in depth. Students focus on the context for enacting the role of administrator in a healthcare delivery system.

Prerequisite: All core and role courses

GNRS 568, Healthcare Finance, 4 Units

This course is an introduction to financial concepts and skills need for healthcare leaders, managers, and executives. The student will develop skills in assessing multiple dimensions of financial performance and methods to improve the financial health of an organization in the context of current patient care system.

GNRS 569, Quality and Safety for Health Care Practice, 3 Units

This course is designed to deepen and advance students' knowledge of, and ability to systematically apply the principles of, patient quality and safety in nursing practice. Based on national standards, the focus is on examining and applying quality and safety tools, including informatics, that can be used to improve patient care delivery across the continuum of health care.

GNRS 570, Parish Nursing/Health Ministries, 2 Units

This course provides an introduction to and overview of health ministry and parish nursing theory and practice. The philosophy of the course is that (a) the parish nursing role is that of a specialist in spiritual aspects of patient care in the congregational context, requiring the integration of graduate level theology/ministry and nursing theory and praxis; and (b) health ministry is an emerging role and trend in pastoral ministry that seeks to bring professional ministry skill to bear upon the integration of health, faith, and spirituality in the parish setting.

GNRS 571, International Health Care, 2-4 Units

This course provides students with experience in nursing care in other countries. Students prepare with coursework in the United States, then travel abroad, where they have experiences in acute and/or chronic care settings, exploring cultural, economic, systems, philosophical, and other aspects of care that influence the provision of health care in other countries. A debriefing period is provided upon return.

GNRS 573, Clinical Residency, 4 Units

The clinical residency is an internship clinical experiential program designed as a collaborative partnership between the School of Nursing and selected community in-patient health care organizations. This residency is an intensive preceptored clinical experience planned to ease the role transition from a student nurse to a beginning professional nurse in an acute-care setting. In addition, it enhances the skill and practice knowledge of the student in preparation for the RN licensing examination.

Prerequisite: Successful completion of all pre-licensure clinical courses

GNRS 575, Nursing Care in Maternal, Newborn, and Women's Health, 4 Units

This course focuses on the theoretical and clinical concepts of the childbearing patient, her infant, and her family. The students study both normal and complicated obstetrics. Selected issues of women's health are explored. The student is introduced to birth preparation, prenatal care, normal neonatal, and postpartum care with concurrent clinical experiences.

Prerequisite: Admission to the ELM program, successful completion of semesters one and two;

Corequisite: Practicum

GNRS 576, Pharmacology, 2 Units

This course is designed for students who have completed organic chemistry, inorganic chemistry, and biochemistry. The content focuses on principles of pharmacology and specifics of the major drug classifications.

Prerequisite: Admission to the ELM program

GNRS 578, Health Assessment, 3 Units

This course provides the nursing student with skills in physical, spiritual, and psychosocial assessment of adult clients. History-taking and physical examination techniques presented in the course help the student develop strong assessment skills upon which further knowledge and practice can be built. Basic concepts related to assessment of geriatric, pediatric, and childbearing patients are included.

Prerequisite: Admission to the ELM program;

Corequisite: Practicum

GNRS 580, Gerontology, 2 Units

This course integrates research and writings about the major trends and developments in the field of gerontology as they apply to the field of nursing. The approach is interdisciplinary - course material includes information from the fields of sociology, psychology, anthropology, biological sciences, medicine, nursing, and psychiatry. Development in adulthood is viewed from multiple perspectives including cognitive, behavioral, biological, sociocultural, and spiritual, and the influences these perspectives have on the successful negotiation of age-related issues are considered. Finally, students examine aspects of human aging in contemporary American society and from a cross-cultural and ethnic perspective.

Prerequisite: Graduate standing in the School of Nursing.

GNRS 581, Primary Health Care of the Older Adult, 5 Units

GNRS 581 focuses on the role of the adult-gerontology primary care nurse practitioner in the management of the older adult including health promotion, assessment, treatment, and maintenance of common primary care health problems. The clinical practicum emphasizes the application of theory and evidence-based research for the delivery of culturally competent assessment and treatment of the older adult within the context of their families and in a variety of outpatient settings.

Prerequisite: Graduate status in the School of Nursing, completion of Advanced Practice Core courses;

Corequisite: Practicum

GNRS 582A, Pathophysiology, 2 Units

This course presents an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiologic disorders are emphasized.

Prerequisite: Admission to the ELM program

GNRS 582B, Pathophysiology, 2 Units

This course continues the presentation an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiologic disorders are emphasized.

Prerequisite: Admission to the ELM program, successful completion of GNRS 582A

GNRS 583, Nursing Care of Children and Young Adults, 4 Units

This theoretical and clinical course focuses on the care of children from birth through adolescence. The effects of acute and chronic illness on growth and development are studied in the acute and community health care setting. Education of the child and family on health promotion, disease prevention, and safety issues are addressed. Ethical issues are discussed regarding the relationship to the child and family, including issues such as child abuse, informed consent, and the impact of diverse cultural and spiritual beliefs on health care decisions in the family.

Prerequisite: Admission to the ELM program, successful completion of semesters one and two;

Corequisite: Practicum

GNRS 584, Mental Health Nursing, 4 Units

This theoretical and clinical course focuses on the dynamics of psychosocial stress within the interpersonal and intrapersonal systems of clients with acute and chronic psychiatric disorders.

Prerequisite: Admission to the ELM program, successful completion of semesters one and two;

Corequisite: Practicum

GNRS 586, Leadership and Management in Professional Practice, 2 Units

This course emphasizes leadership and management theory including systems theory in a number of applications and settings, equipping students with the ability to adjust to various organizations encountered by professional nurses serving in a variety of roles. Core concepts relevant to clinical settings are presented using a systems approach. Emphasis on nursing case management is included.

GNRS 587, Community Health Nursing, 5 Units

This course has two areas of focus within the community setting: the study of principles and practices involved in community health nursing, and the development of skills for teaching a group of clients. The emphasis is on the role of the nurse in assessing, planning, implementing, and evaluating care of clients in a variety of community-based settings, with a focus on care of the gerontological client. Collaboration with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals, families, and aggregates are essential components of this course. A review of legal mandates and regulations, as well as discussion of ethical dilemmas and issues related to community-based care is included.

Prerequisite: Admission to the ELM program, successful completion of semesters one, two, and three;

Corequisite: Practicum

GNRS 588, Advanced Nursing Care of Adults - Leadership, 6 Units

This course involves the application of pathophysiological, psychosocial, and spiritual concepts to adult and geriatric clients experiencing the stress of illness in acute settings. The primary focus of the course is to care for critically ill clients and their families with complex health care needs in a critical-care setting. A second area of focus is on the utilization of leadership and management concepts/skills in providing comprehensive care to groups of clients and families. Emphasis is placed on preparing the student to practice in a beginning leadership role in managing client care. Legal and ethical issues related to acute care are included.

Prerequisite: Admission to the ELM program;

Corequisite: Practicum

GNRS 589, Adolescent Health Care, 2-4 Units

This course focuses on the growth and development of adolescents, including assessment, prevention, and management of common health and psychosocial problems in this population. Emphasis is on age-appropriate and culturally competent provision of primary health care to adolescents in a family system.

Prerequisite: Graduate status in the School of Nursing; 2-unit version of this course requires prior completion of GNRS 610, while the 4-unit version requires prior completion of GNRS 610, GNRS 611, and GNRS 511 or GNRS 612.

GNRS 590A, Primary Health Care of the Young Family, 6 Units

This combined theory and clinical course focuses on management of health care of children (from birth through adolescence) and their families.

Theory and clinical experiences emphasize assessment, prevention, and management of physiological, social, emotional, intellectual, spiritual, and educational needs of the child as an individual and as a family member. The effects of culture on development, parenting, and health care practices are emphasized. The course provides theory and clinical experiences in the management of normal and common pathological conditions to prepare students for advanced nursing practice in the role of nurse practitioner.

Prerequisite: Advanced Practice Core courses;

Corequisite: Practicum

GNRS 590B, Clinical Practicum in Pediatrics, 4 Units

The student develops expanded skills in the comprehensive assessment and management of common childhood illnesses and problems and continues to gain skill in promoting child wellness. Application of theory and research is emphasized in the care of common illnesses throughout the childhood years.

Prerequisite: GNRS 511 or GNRS 612, and GNRS 590A

GNRS 590C, Primary Health Care of the Young Family for the School Nurse Services Credential, 6 Units

Using a system-based approach, this combined didactic and practical course focuses on assessment, nursing interventions, and follow-up for common illness presentations in children, as well as illness-related impact on social, emotional, and educational functioning. The effects of culture on child development, parenting, and healthcare practices is also emphasized.

Prerequisite: GNRS 612;

Corequisite: Practicum

GNRS 590D, Primary Health Care of the Young Family, 3 Units

This theory course focuses on management of health care of children (from birth through adolescence) and their families, with an emphasis on assessment, prevention, and management of physiological, social, emotional, intellectual, spiritual, and educational needs of the child as an individual and as a family member. The effects of culture on development, parenting, and health care practices are emphasized. The course provides theory in the management of normal and common pathological conditions to prepare students for advanced nursing practice in the role of nurse practitioner.

Prerequisite: Advanced Practice Core courses

GNRS 591, Primary Health Care of the Childbearing Family, 4 Units

This course focuses on the assessment and management of the primary health care needs of the reproductive family. Emphasis is placed on health promotion and maintenance, disease prevention, curative, and restorative care. Cross-cultural aspects related to parents, male and female, of the childbearing family are addressed.

Prerequisite: Advanced Practice Core courses;

Corequisite: Practicum

GNRS 592A, Primary Health Care of the Adult and Aging Family, 6 Units

This combined theory and clinical course focuses on the role of the nurse practitioner (NP) in caring for mature adults and aging family members, from young adulthood to elderly adulthood. Emphasis is placed on the management of common primary health problems of these age groups. The delivery of culturally competent primary health care interventions of young, middle-aged, and elderly adults is addressed.

Prerequisite: Advanced Practice Core courses;

Corequisite: Practicum

GNRS 592B, Primary Health Care Clinical Practicum, 2 Units

This course provides the final comprehensive clinical management experience, allowing FNP and AGNP students to apply knowledge gained throughout their course of study. Clinical conferences provide opportunity for discussion of role development issues and clinical case studies. Students engage in the clinical assessment and management of adults of diverse cultural backgrounds with routine and complex health problems in out-patient settings. Under the supervision of qualified preceptors and School of Nursing faculty, the student must complete his/her clinical hours and demonstrate mastery to perform the role of an entry-level nurse practitioner.

Prerequisite: Completion of clinical courses for the FNP or AGNP program track

GNRS 593, Psychosocial Primary Health Care of the Adult and Aging Family, 4 Units

This combined didactic and clinical course focuses on psychosocial primary health care of the mature and aging family. Didactic content and clinical experiences emphasize the advanced practice nursing role in the medical management of chronic illness with concurrent assessment for psychosocial stressors that impact the experience and management of chronic illness. Students learn to tailor patient-centered therapeutic strategies, including presence, multi-faceted functional assessment, motivational interviewing, stress reduction techniques and spiritual support to individual patients.

Prerequisite: Advanced Practice Core courses;

Corequisite: Practicum

GNRS 595, Special Topics in Nursing, 1-6 Units

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development and/or to develop a particular project. If students elect this course more than once during their program, each such course must address a different topic.

Prerequisite: Graduate standing

GNRS 596, Foundations of Healthcare Informatics, 3 Units

This course provides an overview of basic concepts for practice in healthcare-oriented informatics. These core concepts include an introduction to clinical and translational informatics; foundational theory and practical application of clinical decision making and computerized decision support; healthcare systems and their organization; the special issues of administration, security, and operations of electronic records in the healthcare setting; human factors issues; information science in the healthcare domain; standards, terminologies, and the uniqueness of biomedical data; and a special focus on emerging technologies.

GNSRS 597, Comprehensive Examination Directed Study, 1 Unit

This course guides the student through the process of demonstrating an integration of theoretical, clinical, and research knowledge. Critical thinking is enhanced through careful consideration of information presented during discussion. The examinations are taken as part of this seminar.

Prerequisite: Completion of all Academic Core and degree specialty courses. Final specialty course may be taken concurrently.

GNSRS 598, Thesis, 1 Unit

A student initially enrolls in this option toward the latter part of the program for one unit of credit. The student registers for one unit of thesis credit each semester (two of three semesters per year) until the thesis is completed.

Prerequisite: GPA of 3.5 or above, chair's consent for thesis option, and completion of all Academic Core and Advanced Practice Core courses

GNSRS 599, Readings/Independent Study in Nursing, 1-4 Units

A student may elect to pursue special interests for credit at any time during the program under the supervision of a faculty member. University policy states that the student must earn a grade in an independent study course in order to receive credit toward graduation.

Prerequisite: Graduate standing

GNSRS 600, Nurse Practitioner Clinical Experience, 2-6 Units

The AGPCNP and NP programs require 765 hours of supervised direct patient care experience. Students in this course function in the role of student nurse practitioners under the direct supervision of approved preceptors, and receive feedback from their preceptors and from their clinical faculty. This course gives students an opportunity to complete the documentation necessary to be awarded clinical units. Students progressively integrate advanced-practice nursing competencies, demonstrate professional nursing behavior, and keep accurate records. Upon completion of 765 hours, students are given access to a clinical portfolio.

Prerequisite: GNSRS 612 and faculty permission

GNSRS 601, Primary Healthcare I: Adult and Aging, 3 Units

This course integrates knowledge from advanced pathophysiology, advanced pharmacology, and advanced health assessment and apply it to create a diagnostic hypothesis for common acute and chronic primary care health problems in adolescents, adults, and older adults. The course examines a variety of treatment options for each disease presented and for diseases that don't respond to first-line therapy.

Prerequisite: GNSRS 612

Corequisite: GNSRS 600

GNSRS 602, Primary Healthcare II: Population-based Health Interventions, 3 Units

Primary Healthcare II recognizes that individuals with healthcare needs belong to a variety of discrete groups. This course introduces population health principles to be integrated with psychosocial assessment, cultural competency, social determinants of health, and the nurse-client relationship to foster the development of competence to motivate patients in a way that respects their diversity and to assist them to find resources to address social vulnerabilities. Students will employ statistical analysis as well as nursing experience to analyze risk to create a patient education plan.

Prerequisite: GNSRS 601

Corequisite: GNSRS 600

GNSRS 603, Primary Healthcare III: Restorative and Palliative Interventions, 3 Units

This course is designed to integrate disease management and communication techniques to support the physical, emotional, and spiritual transitions of chronic illness. The course examines developing a prognosis, transitioning care, interprofessional care planning, and care of the caregiver. Grounded in spiritual concepts, this course is designed to provide the student with tools to give patients and families unpleasant information that will likely evoke fear or sadness.

Prerequisite: GNSRS 602

GNSRS 610, Advanced Pathophysiology, 3 Units

This course builds on basic anatomy and physiology and undergraduate study of pathophysiology. It focuses on the development of an advanced understanding of the pathophysiologic mechanisms of human health disorders including those that are genetic. Diagnostic reasoning that facilitates the clustering of signs and symptoms leading to diagnosis is a key process undergirding the course. This course requires the integration of signs and symptoms, clinical testing (such as laboratory and radiologic studies), and pathophysiologic mechanisms with diagnoses. This course introduces epidemiological principles and methods to be applied to population health models.

Prerequisite: Graduate standing and undergraduate pathophysiology

GNSRS 611, Advanced Pharmacology, 3 Units

This course builds upon basic knowledge in pharmacology and provides content essential for the advanced practice nurse to render appropriate pharmacological treatment in practice. Mechanisms of action, interactions, side effects, and prescribing guidelines for drugs commonly utilized across the life cycle are addressed. The course introduces the principles of pharmacogenomics and their application to clinical practice. Variations in pharmacological reactions attributed to cultural factors are emphasized. Strategies for fostering individual/family adherence to pharmacological regimens are examined. This course meets the requirements of the California Board of Registered Nursing in the application of a "furnishing number" by the advanced practice nurse in California.

Prerequisite: GNSRS 610 (may be taken concurrently)

GNRS 612, Advanced Health Assessment and Diagnostic Reasoning, 4 Units

This course develops the graduate nurse's assessment skills and focus on the promotion of health in individuals across the age range and within family, community, and cultural contexts. Emphasis is on adapting and expanding the medically focused history and physical assessment to incorporate the assessment of traditional and nontraditional therapies and identify culturally relevant and age-appropriate health promotion strategies for common episodic complaints and chronic health conditions. Outcomes are examined in light of theoretical concepts. Strategies for health promotion include a focus on lifestyle, mental health, nutrition, counseling to modify risk factors, and screening tests/prophylaxis for the early detection and prevention of disease.

Prerequisite: Undergraduate health assessment and GNRS 610;

Corequisite: lab

GNRS 613, Graduate Statistics, 3 Units

This course presents the knowledge of descriptive, correlational, and inferential statistics used in research that serves as the basis for evidence-based practice. Students develop the ability to perform descriptive and inferential data analysis techniques, use software applications to aid in statistical calculations and presentation, and interpret findings.

GNRS 616, APRN Intensive II, 1 Unit

This is the second of four APRN Intensive courses that give NP students an interactive experience through out-of-classroom work. Course activities and games will evaluate the student's ability to perform the clinical role of the NP. Students will understand and develop the skills of virtuous leadership and collaboration from a biblical perspective.

Prerequisite: GNRS 615;

Corequisite: GNRS 601

GNRS 617, APRN Intensive III, 1 Unit

This is the third of the APRN intensives that give APRN students an interactive experience with out-of-classroom work that includes team activities, simulation experiences, and problem-solving activities. Topical content includes managing patients with complex co-morbidities, ethical reasoning, and advanced communication skills. Students will be observed performing the professional and clinical skills of the APRN.

Prerequisite: GNRS 616;

Corequisite: GNRS 602

GNRS 618, APRN Intensive IV, 1 Unit

This is the fourth of the APRN intensives that give APRN students an interactive experience with out-of-classroom work that includes team activities, simulation experiences, and problem-solving activities. Topical content practice-based quality improvement, office-based procedures, and certification exam preparation. Students will be observed performing the professional and clinical skills to demonstrate readiness to enter NP practice.

Prerequisite: GNRS 617; Faculty permission.

GNRS 620, Genome Science in Healthcare, 3 Units

This course covers basic genomic concepts and technologies intended for personalizing healthcare. The primary goal is to provide the student with clinically relevant knowledge that can be used in practice and for teaching other healthcare professionals, patients and families. Applications of genome science and technology are analyzed in the context of real world examples taken from a variety of clinical specialty areas to better understand the relation between genomics, health, and illness.

GNRS 622, Genome Science and Ethical Issues, 3 Units

This course examines current applications and implications of genome science and technology to healthcare, public health policy, economics, ethics, federal and state laws and societal issues. The following discussion topics are at the leading edge of healthcare and social debate: DNA biobanking, genetic profiling, and genomic technologies used in genome medicine such as stem cell research, gene therapy, and genetic enhancements. In addition, the course addresses ethics, philosophy, and theology literature to explore thoughtful discussions that cover a wide range of genome applications in healthcare and health science research.

Prerequisite: GNRS 620

GNRS 630A, Oncology Nurse Practitioner Fellowship A, 4 Units

This course is the first in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.

Prerequisite: Enrollment in the oncology nurse practitioner fellowship certificate program.

GNRS 630B, Oncology Nurse Practitioner Fellowship B, 4 Units

This course is the second in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.

Prerequisite: Enrollment in the oncology nurse practitioner fellowship certificate program.

GNRS 630C, Oncology Nurse Practitioner Fellowship C, 4 Units

This course is the third in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.

Prerequisite: Enrollment in the oncology nurse practitioner fellowship certificate program.

GNRS 631, ONP: Cancer Biology and Assessment, 2 Units

This course builds on knowledge of the anatomy and physiology of DNA, RNA, and differentiated and nondifferentiated human cells. Focus is on the pathophysiologic mechanisms of human cancer disorders. Diagnostic reasoning that facilitates the clustering of signs and symptoms is a key process undergirding the course. The course also provides the foundation for the integration of diagnostic testing, physical assessment, and understanding of the predictable pathophysiology of cancer in order to stage tumors and predict metastatic risk in individuals.

Prerequisite: Admission to the Oncology Nurse Practitioner Post-Master's Certificate program.

GNRS 632, ONP: Cancer Therapeutics, 2 Units

This course builds on knowledge of the predicted behavior of human cancer. Technology in cancer treatment is evolving rapidly, and this course provides a pathophysiological foundation for understanding cancer protocols. Current cancer protocols, classes and categories of therapeutics, technologies in development, and tumor resistance are discussed, along with the cost benefit, side effects, and availability of the covered therapeutics.

Corequisite: GNRS 631

GNRS 633, ONP: Symptom and Side Effect Burden, 2 Units

Patients with advanced cancer often suffer significant symptomatic burden and the iatrogenic complications of treatment. This course helps students develop a patient-centered approach to evidence-based management of common symptoms of cancer and side effects of treatment.

Prerequisite: GNRS 631 and GNRS 632

GNRS 634, ONP: Survivorship and the Psychosocial Impact of Cancer, 2 Units

Cancer patients and their caregivers face complicated psychological, financial, and spiritual changes, beginning at diagnosis and extending into the posttreatment phases. This course covers the common problems related to those changes, and best-practice strategies and techniques to help patients and families cope with cancer.

GNRS 635, ONP: Team-Based Care and the Role of the Oncology Nurse Practitioner, 2 Units

The clinician role of the oncology nurse practitioner requires familiarity with the incidence, prevalence, and risk assessment competencies for all common cancers. In addition, the oncology nurse practitioner must be prepared for a wide variety of leadership roles. Strategies for care coordination, designing and measuring interdisciplinary team outcomes, mentoring, collaborating with primary care providers, and rapid-cycle quality improvement are examined.

GNRS 636, ONP: Clinical Trials in Oncology Nursing, 2 Units

The advanced-practice oncology nurse practitioner is prepared to provide direct patient care, design a plan for outcome evaluation, and take a leadership role in medical and nursing oncological research.

Prerequisite: GNRS 610, GNRS 611, GNRS 612, and GNRS 613

GNRS 650, History of Professional Nursing: From Origins to Nursing in Transition, 3 Units

Students in this course explore conceptual and methodological issues in historical nursing research, including the use of biographic methods in nursing history and working with primary sources/archival materials/artifacts and material culture. Focus is on the origins of professional nursing up to the period of nursing in transition in the United States. Students examine ethics guidelines and standards for historical research in nursing, and critically analyze the origins of nursing and early nursing contributions to the evolution of modern health systems and interventions. Class discussion and composition facilitate critical thinking about the history of nursing as a scholarly inquiry, focusing on issues and methods of nursing historical research.

GNRS 651, History of Professional Nursing: From Colonial Times to Present Day, 3 Units

Students in this course explore the foundations of professional nursing in the United States in the context of influential historical, global, societal, and scientific events. Students examine issues faced by nurses from colonial times to today, critically analyzing nurses' contributions to the development of modern health systems and interventions. Class discussion and composition facilitate critical thinking about the history of nursing as a scholarly inquiry, since historical perspectives form the basis for analysis of contemporary healthcare issues and projected development of the nursing profession, its practice, and healthcare policy.

GNRS 660, Theories of Teaching and Instruction, 3 Units

This course analyzes selected teaching and learning models that are applicable to nursing education. Strategies for classroom and clinical teaching are examined. Research relative to nursing education is reviewed and critiqued. Design of research methods to determine effectiveness of teaching strategies is incorporated. Course development and student evaluation are emphasized. Selected faculty and nursing education issues are also explored.

GNRS 661, Leadership and Role Development in Nursing Education, 3 Units

This course includes an analysis of educational leadership and the multiple roles of the nurse educator related to teaching, scholarship, service, and practice. Theoretical perspectives and practical approaches supported by research in nursing and higher education literature, as well as the Christian educator's role promoting faith integration, are addressed.

GNRS 662, Assessment, Curriculum, Development, and Outcomes, 3 Units

This course addresses theoretical approaches to educational assessment, the development and implementation of nursing curriculum, and student and program outcomes. Emphasis is given to the importance of incorporating Christian values in the curriculum. The course also includes critical analyses of related topics based upon current research in nursing and higher education literature.

GNRS 663, Clinical Practicum in Nursing Education, 3 Units

This practicum course builds on the academic and clinical preparation of previous courses and prepares students to teach in academic and clinical settings. Under the supervision of a preceptor, this practical classroom experience focuses on: a) writing of learning/teaching objectives, b) selecting teaching strategies and learning activities, c) designing and implementing teaching plans for units of instruction, d) evaluating student learning outcomes, and e) obtaining feedback on teaching performance from faculty mentors/preceptors, fellow students, and self-evaluation and reflection. It is recommended that students take GNRS 660, GNRS 661, and GNRS 662 prior to taking this class. GNRS 664 may be taken concurrently.

GNRS 664, Teaching and Learning Strategies for Nursing Education, 3 Units

This course equips academic nurse educators to develop and evaluate teaching and learning strategies that facilitate learning in different nursing educational settings. Course material includes examining the challenges nursing faculty face in implementing this role, and strategies to successfully navigate those challenges. Also included are two projects to prepare students for the application process of the nurse educator. It is recommended that students take GNRS 660 prior to taking this class.

GNRS 695, Special Topics, 1-4 Units

A subject of current interest is examined in depth. Students analyze and evaluate controversial issues to reach and express a reflective position. This course may be repeated for credit to a maximum of 6 units applied toward the MSN or PhD degree; each course must address a different topic.

GNRS 700, Philosophy of Science, 3 Units

This course equips students with the knowledge and critical analytic skills to comparatively evaluate the philosophical foundations of scientific theories and the influence of Western philosophical schools of thought on the development of nursing science. Course content is organized to engage students in discussion and critical analysis of the epistemological and philosophic foundations of scientific theories and the characteristics of scientific knowledge according to the received view, paradigmatic view, perceived postmodern view, and feminist tradition. Special emphasis is given to the critical debate within nursing about the nature of nursing science.

GNRS 701, Nursing Knowledge Development, 3 Units

Students in this course focus on analyzing and critiquing the theoretical and methodological processes that are utilized in theory building and knowledge development in nursing. Discussion and critique of the different stages of theory development and students' experimentation with conceptualizing and developing their theoretical stance go hand in hand. Patterns of knowing, knowledge development, and criteria for evaluating nursing knowledge are examined in relation to the discipline's domain and the phenomena of concern in nursing.

GNRS 702, Nursing Theory, 3 Units

This course focuses on strategies for theory development such as concept analysis, conceptual mapping, and theoretical modeling as applied to the student's phenomenon of concern. It also provides critique and analysis of the major models and theories used in a variety of nursing settings in relation to existing interdisciplinary theoretical knowledge.

GNRS 703, Spirituality and Health, 3 Units

This course provides an introduction to spirituality, including spiritual experience, as it relates to individual health and illness. Communal spirituality is also considered. Differentiation is made between and among generic religious and Christian spiritualities. While the course covers theoretical aspects of spirituality and their interaction with health and illness, concentration is on the movement from theory to praxis. This lecture/seminar course is oriented toward nursing educators who seek to develop a foundation in spirituality for spiritual integration as well as for its development in nursing practice.

Prerequisite: Admission to DNP or PhD program

GNRS 704, Faith Integration and Nursing Scholarship, 3 Units

This course begins with an exploration of the nature, role, problems, and possibilities of faith integration in higher education and in the nursing curriculum at all levels of higher education. The special circumstances of faith integration and its implications for teaching in secular college settings are explored. This course further provides a critical explication of theological method and content in three domains: biblical hermeneutics, constructive theology, and ministry praxis for education. The focus of the course is on the appropriation of theological method and knowledge for the purposes of integration into nursing education and practice especially (but not exclusively) within the context of a Christian or church-affiliated college.

GNRS 705, Social Ethics and Health Policy, 3 Units

This course seeks to provide a social ethics frame of reference for health care. Medical and biological advances have contributed to a rapidly expanding amount of human control over human and natural processes, including genetic potential and behaviors. This new power raises questions of morality and highlights the need for discussion and legislation regarding the complex issues raised by developments in health care, medical technology, and science. A comprehensive social ethic places decisions about health care within the context of a fuller account of purpose and meaning in life.

Prerequisite: Admission to DNP or PhD program

GNRS 706, Methods of Inquiry, 3 Units

Students in this course explore various methods of inquiry as they focus on the difference between scientific thinking, wisdom, and alternative concepts of knowledge. Existential dilemmas intrinsic to the pursuit of truth, the exploration of the meaning of actions, the process of reason and interpretation, the perception of reality, and empirical generalizations are discussed, and their influence on the definition of research problems and designs is explored. Research designs and methods are introduced as they relate to problem definition and theory, including an overview of the principles of basic and applied experimental research, evaluation research, and the traditions and foundation of qualitative and historical research. Students are required to explore, synthesize, and debate current issues that will affect their research careers.

Prerequisite: Admission to DNP or PhD program

GNRS 707, Quantitative Nursing Research Design I, 3 Units

This course focuses on advanced multiple research designs and data collection approaches. Emphasis is on experimental and quasi-experimental designs, epidemiological methods, survey research, and evaluation and outcomes research, as well as on planning design and sampling. Inferential statistics and advanced statistical analysis methods including ANOVA and various types of multiple regression analysis are incorporated within the course content.

Prerequisite: Admission to DNP or PhD program

GNRS 708, Qualitative Nursing Research Design I, 3 Units

This course focuses on analyzing the epistemological foundations and the assumptions of qualitative research methodologies. It provides an introduction to the major qualitative research methodologies including grounded theory, phenomenology, and ethnography. Each methodology is analyzed as to its appropriateness for the research question. Experience in carrying out a pilot study in the selected methodology is provided.

GNRS 709, Advanced Statistical Analysis II, 3 Units

This course presents advanced methods of quantitative inquiry. The emphasis is on the use of factor analysis, confirmatory factor analysis, path analysis, and structural equation modeling. Assumptions of the techniques are addressed. The course provides the student experience in using statistical packages for entering and analyzing data. Reporting results of the analyses is also incorporated. Making appropriate decisions regarding which of the advanced statistical techniques to use is stressed. Critique of the advanced statistical analyses of published health care research is also emphasized.

Prerequisite: GNRS 707

GNRS 710, Advanced Qualitative Research Methods, 3 Units

This course provides advanced knowledge and training in the use of qualitative research methods including phenomenological interpretation, grounded theory interpretation, ethnographic interpretation, focus groups interpretation, and feminist interpretation. Intensive interpretive and structured approaches to analysis and methods of establishing plausibility, credibility, and adequacy of qualitative data are emphasized.

Prerequisite: GNRS 708

GNRS 711, Advanced Research Methods in the Humanities, 3 Units

This seminar and consultation course introduces PhD students to nonscientific research methodologies as used in the arts, letters, humanities and aspects of the social sciences for the (a) conduct of original dissertation research on one of the disciplines of arts, letters, humanities, or nonscientific aspects of one of the social sciences, (b) conduct humanities-based research to widen and deepen a scientific dissertation topic, or (c) to enlarge the student's methodological repertoire, knowledge, and skill. The course is intended for those whose primary research education and experience has been in scientific methods and disciplines. (Enrollment limited to eight.)

Prerequisite: (a) successful completion of GNRS 701 and GNRS 706, (b) permission of the instructor

GNRS 712, Healthcare Quality Improvement, Program Planning, and Evaluation, 3 Units

This core course bridges the gap between the uptake of new health research discoveries and their translation, adaptation, and implementation in practice. Course content includes the examination, integration, and application of quality improvement, program planning, and evaluation processes, strategies, and tools. The outcome of the course is a well-designed evaluation plan for an evidence-based quality improvement project.

Prerequisite: Admission to DNP or PhD program

GNRS 713, Advanced Statistical Analysis I, 3 Units

This course presents common nonparametric and parametric statistical techniques used in healthcare research. Assumptions of the techniques are addressed. Specifically, the course emphasizes t-tests, ANOVA, ANCOVA, RANCOVA, correlation, odds ratio, regression, and power analysis, and provides the student experience in using SPSS for entering and analyzing data. Reporting results of the analyses is also incorporated. Making appropriate decisions regarding which statistical techniques to use is stressed. Critique of statistical analyses of published healthcare research is also emphasized.

GNRS 715, Psychosocial Issues of Older Adults, 3 Units

This course focuses on the biological and psychosocial processes throughout adulthood and the older years. Theories of aging are examined, as well as social role changes, social stratification, and the development of institutions of the aged. The course explores both normal aging and psychopathology, and the systematic intrinsic psychological or personality changes associated with development and adaptation in later life. Other topics include clarification of the causes and prevention of health maladies in the later years, and the nature and treatment of the most common psychopathologies. The psychodynamics of institutionalization and family care of the very old are also examined.

GNRS 716, Translation of Research to Practice, 3 Units

The goal of this core course is to help prepare Doctor of Nursing Practice (DNP) nursing students to be nurse scholars and to identify strategies within a multidisciplinary model and in intraprofessional relationships that promote the ready translation of research into practice. This course exposes DNP students to evidence-based practice, quality improvement methodologies, concepts and theories, and deepens their knowledge regarding the phenomenon of interest. This prepares them for foundational competencies needed for evidence-based problem identification, PICOT writing, literature search, integrated literature review, evidence appraisal, and synthesis. There are iterative assignments to develop skill and the milestone assignment is a final integrated review and synthesis paper with in-depth knowledge of their phenomenon (vs. topic) of interest.

Prerequisite: Admission to DNP or PhD program

GNRS 717, Health Technology and Informatics, 3 Units

This course presents an overview of the evolution of health care informatics from an interdisciplinary perspective. Students learn health care informatics history, concepts, theories, legal and ethical implications, and applications within the health care industry. This course introduces the student to the information system life cycle, human factor issues in health care informatics, critical issues affecting the development and implementation of information and communication systems and technologies (clinical, administrative, and learning), knowledge management principles, professional practice trends, and emerging ICT (information and communication technology) in health care.

GNRS 718, Organizational Leadership and Strategic Planning, 3 Units

In this core course, students acquire knowledge and skill to effectively manage systems level change, empower others, and influence political processes. Advanced nursing practice leadership occurs in clinical practice with clients and staff, within healthcare institutions, professional organizations, and in healthcare policy making arenas, using knowledge of nursing and other professions to address healthcare needs and direct interprofessional activities and initiatives. To develop the leadership role, students implement strategies for creating organizational change to provide high-quality services and outcomes at reasonable costs and lead the development of a business plan for quality improvement initiatives. Students advocate for change related to financial policies that impact the relationship between economics and quality care delivery. Focus is on organizational process, including the associated management of conflict, change, promotion of safety for clients and providers, and control of risk within a dynamic healthcare environment.

Prerequisite: Admission to DNP or PhD program

GNRS 720, Wellness Promotion and Health Maintenance, 3 Units

This course focuses on the critical appraisal of theories and models of health promotion and on the evaluation of health initiatives developed for national health promotion and maintenance. Relevant risk prevention, control, and health promotion intervention strategies are emphasized. Communicable diseases; health hazards; high-risk health factors; acute and chronic illness across ethnicities, genders, and the life span; and morbidity and mortality of the nation's leading health problems are analyzed. Students' research questions are generated from a synthesis of knowledge regarding a specific phenomenon relevant to the student's individual area of study.

Prerequisite: Admission to DNP or PhD program

GNRS 721, Health Disparities and Vulnerable Populations, 3 Units

This course offers an analysis and evaluation of various topics and issues on health disparities of underserved ethnic or minority vulnerable populations as well as an analysis of research that describes, explains, and examines variables influencing health disparities and intervention strategies to reduce these disparities.

GNSRS 722, Research in Nursing and Health, 3 Units

This course is team taught and reflects the research expertise and program of study of the nursing doctoral faculty. It focuses on analysis of determinants of health and illness across demographic, biological, psychological, familial/cultural, and societal dimensions. Attention is given to theoretical explanations toward promoting development of students' programs of research.

GNSRS 724, Quantitative Nursing Research Design II: Psychometrics, 3 Units

This course introduces students to the methods of survey research. Course material covers practical considerations in the construction of questionnaires, including determining questionnaire content, selection of item types and wording of items, selection of an administration method, piloting questionnaires, and locating existing questionnaires. Discussions about conducting survey research focus on sample selection, analyzing information obtained from questionnaires using SPSS, evaluating questionnaires, sources of error, and how to reduce measurement error in survey research.

Prerequisite: GNSRS 707

GNSRS 725, Research Practicum, 1 Unit

The practicum further develops, mentors, and socializes students into the roles and activities of research scientists and scholars. Emphasis is on mentoring to facilitate student progression in research methodology, culturally appropriate research strategies, data management, and data analysis. Students can choose either a quantitative or qualitative practicum experience.

GNSRS 726, Advanced Scientific Writing, 3 Units

This course provides opportunities for students to learn how to research and introduce a topic in writing, articulate a thesis statement, support and develop a literature review, work with secondary sources, and organize a written paper that can be developed into a dissertation or translational research paper.

GNSRS 727, Genome Science in Clinical Cases and Disease Management, 3 Units

This course focusing on medical family history taking, constructing and analyzing the pedigree, genetic counseling, clinical decision making and clinical case management for a wide variety of inherited and acquired diseases through the lens of emerging genome science. Clinical cases are discussed from a holistic perspective including: genome science, epidemiology, genomic profiling, genetic technologies, personalized medicine, interprofessional collaboration, ethical and legal issues, and health policy.

Prerequisite: GNSRS 620

GNSRS 728, Genome Science Research Methods, 3 Units

This course focuses on genome research methods for understanding and translating genome science to practice and to genome related nursing research. Understanding the research methods fosters a deeper understanding of the strength and the weaknesses of the science and an ability to critique the benefits and the limitations of the science for designing nursing research. The course includes a wide range of research methods that explore genetics or genomics in human populations. A key outcome of this course is to develop a research proposal using genome methods to design nursing research aimed at improving quality of health for individuals, families and populations.

Prerequisite: GNSRS 620, GNSRS 622, GNSRS 727

GNSRS 729, Population Health and Epidemiology, 3 Units

The concept of population health includes aggregate, community, environmental/occupational, and cultural/socioeconomic definitions of health. The implementation of clinical prevention and population health activities is central to achieving the national goal of improving health status and reducing health disparities among different aggregate groups. This course covers the basic elements and methodological concepts used in the epidemiologic study of factors related to health promotion and disease prevention in human populations. It brings together considerations from several fields of investigation, such as epigenetics, epidemiology, psychology, and public health, to study the effects on health and health-related outcomes.

Prerequisite: Admission to DNP or PhD program

GNSRS 730, Comparative Health Care Systems, 3 Units

This course focuses on exploring/analyzing environmental, social, cultural, political and economic determinants of health across the globe. Comparative analysis of international health care systems including governmental, nongovernmental, traditional, and faith-based organizations are emphasized. Epidemiological analysis of morbidity and mortality, analysis of health and illness responses, and health-seeking behavior across the age span and gender/ethnic variables are discussed with the intent to identify areas of research relevant to students' interest. Presented from a Christian perspective, this course investigates research and practice opportunities and responsibilities for advanced practice nurses in global arenas.

GNSRS 732, DNP Clinical Residency, 0 Units

This course provides students enrolled in the Doctor of Nursing Practice (DNP) program with opportunities to develop professional nursing skills at the doctoral level. The focus of the course is to explore the development and scientific underpinnings of components of expert advanced clinical practice. Students select a population of interest for the DNP clinical residency and apply evidence-based practice and research findings in order to develop and improve practice. Over the course of the DNP program, students integrate previous nursing education and practice experiences with the DNP residency and concurrent doctoral coursework to meet the AACN Essentials of Doctoral Education for Advanced Nursing Practice and complete a DNP scholarly project. The course may be repeated to enable the student to obtain a minimum of 1,000 residency hours. Previous hours from graduate clinical courses may apply, so residency hour requirements will vary.

Prerequisite: Admission to DNP program

GNRS 733A, Residency IA, 1 Unit

This is the first in a series of three residency courses designed to enhance students' critical thinking, diagnostic reasoning, interpretation, and management skills for advanced clinical practice. This course broadens and enhances understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice clinical nurse scholarship. Students practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts. The course focuses on exploring the development and scientific underpinnings of components of expert advanced clinical practice, and attention is given to the development of skills necessary to attain that goal. By the end of this course, students select their population of interest for their clinical residency and apply evidence-based findings to this population to identify potential areas of intervention.

Prerequisite: Admission to DNP program

GNRS 733B, Residency IB, 1 Unit

The second of a three-course sequence, this course may be taken concurrently with GNRS 733A and/or GNRS 733C with approval of the DNP director or designee. Grading: pass/fail

GNRS 733C, Residency IC, 1 Unit

The third of a three-course sequence, this course may be taken concurrently with GNRS 733A and GNRS 733B with approval of the DNP director or designee. Grading: pass/fail

GNRS 734A, Residency IIA, 1 Unit

The first of a three-course sequence, this course may be taken concurrently with GNRS 734B and GNRS 734C with approval of the DNP director or designee. Grading: pass/fail

GNRS 734B, Residency IIB, 1 Unit

The second of a three-course sequence, this course may be taken concurrently with GNRS 734A and/or GNRS 734C with approval of the DNP director or designee. Grading: pass/fail

GNRS 734C, Residency IIC, 1 Unit

This is the last of a three-course series of clinical residencies with a focus on transformative and collaborative leadership, including completion of the evidence-based practice project, assessment of project outcomes, and planned dissemination of findings. Students apply relevant clinical and research findings to develop and improve practice. Content emphasizes critical appraisal of skills and interventions necessary to ensure meaningful translation of scientific evidence into practice, including a cost-benefit analysis for implementing a change into clinical practice. The course also emphasizes the professional role of the nurse as a collaborator, leader, and provider of care with nursing colleagues and other members of the interprofessional healthcare team within the context of complex healthcare systems, preparing students to implement an advanced nursing practice role that results in practice and/or policy change at the local, state, and/or national levels.

Prerequisite: Successful completion of GNRS 733A, GNRS 733B, GNRS 733C, GNRS 734A and GNRS 734B

GNRS 735, DNP Scholarly Project Seminar, 3 Units

The DNP program requires a rigorous clinical project focused on translating scientific research to health care in a timely manner so that patients experience the best applications of science and practice. The project is a scholarly experience that implements the principles of evidence-based practice and translation under the guidance of a faculty mentor. In line with the AACN Essentials of 2007, the outcome of the DNP scholarly project is a tangible and deliverable academic product that is derived from the practice immersion experience and reviewed and evaluated by an academic committee. The project also serves as a foundation for future scholarly practice.

GNRS 736, DNP Scholarly Project Seminar: Evaluation and Dissemination, 2 Units

This course focuses on presentation to and approval of a completed DNP Scholarly Project. The DNP program requires a rigorous clinical project focused on translating scientific research to health care to improve the patients experience utilizing the best evidence of science and practice. This scholarly project is a culminating, independent experience which demonstrates the student's synthesis of coursework and lays the foundation for future scholarship.

GNRS 780, Doctoral Seminar I: Elements of a Proposal and IRB Application, 3 Units

This seminar directs the development of either a PhD dissertation or a DNP Scholarly Project proposal draft that details a problem, the research/project purpose, questions or hypotheses to be examined, a synopsis of the relevant literature, the design and methods of the study including its timeline, protection of human subjects, plans for analysis, and the budget. The seminar also includes preparation of IRB applications, and peer review and critique of student proposals.

Prerequisite: Admission to DNP or PhD program

GNRS 781, Doctoral Seminar II: Developing a Grant Proposal, 3 Units

This doctoral seminar provides students with the opportunity to acquire knowledge, skills, and insights in the writing of a grant proposal. Discussion will focus on the value of writing grant proposals, the basic principles in writing a grant proposal, the components of a grant proposal, identification of funding sources, the difference between a research and a program grant proposal, as well as administrative factors in submitting a grant proposal. Students will craft and a grant proposal in response to a Request for Funding Proposal (RFP) that aligns with the guidelines of the funding agency, and additionally, a budget plan with justification, timelines, and a bio-sketch. In addition, students will conduct a peer review of class completed grant proposals.

GNRS 782, Doctoral Seminar III: Writing for Publication, 3 Units

This seminar focuses on various aspects of writing for publication and directs the development of a manuscript suitable for publication from a previously written paper (e.g., a course term paper). This course will help the student get started on writing; identify writing styles for various forms of publication including abstracts, journal articles, papers, and books; and determine appropriate journals to consider for article submission. The student will acquire practice in reviewing and critiquing scholarly writing by others. It will also address the editorial and publication process, as well as ethical aspects of writing for publication.

GNRS 783, Doctoral Seminar IV: Developing Professional Presentations, 3 Units

This seminar course identifies approaches to developing an effective and successful presentation, helping students find their voice and showcase their areas of expertise. Discussions focus on planning as essential to deciding on the content and the order in which the information is presented. Emphasis is on developing a logical sequence, one that flows naturally and is accompanied by audiovisuals that facilitate understanding of the material.

GNRS 784, Dissertation Seminar V, 2-4 Units

This fifth dissertation seminar provides the student a forum to explore with their peers research findings, theoretical and empirical implications, and potential venues for publication of manuscripts. Format and procedures for progression in the dissertation process are also discussed. Placement of the Course: This seminar is not required if dissertation seminar requirement of 12 units has been met by GNRS 780, GNRS 781, GNRS 782, GNRS 783, and student has defended dissertation. Grading: Pass/Fail.

Prerequisite: GNRS 783

GNRS 791, Doctor of Nursing Practice Intensive I, 1 Unit

This is the first of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. This course introduces students to the role of the DNP nurse in a variety of healthcare settings. Students acquire advanced practice and academic skills necessary for selecting a population of interest and applying evidence-based practice to it as part of an evidence-based DNP scholarly project consistent with the DNP role within a healthcare organizational setting.

Admission to the DNP program; corequisite: GNRS 716

GNRS 792, Doctor of Nursing Practice Intensive II, 1 Unit

This is the second of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. This course helps students identify strategies within a multidisciplinary model that promotes evidence-based practice in various clinical, community, and educational settings. Students receive support and direction in collaboration with the sponsoring facility and mentor as they develop a comprehensive, site-specific DNP scholarly project proposal.

GNRS 791; corequisite: GNRS 780

GNRS 793, Doctor of Nursing Practice Intensive III, 1 Unit

This is the third of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. This course equips students with the skills, competencies, and points of view needed for developing the ethical reasoning/decision-making skills necessary for conducting their DNP scholarly projects.

GNRS 792; corequisite: GNRS 712

GNRS 794, Doctor of Nursing Practice Intensive IV, 1 Unit

This is the last of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. As in the other intensive experiences, course content for each student reflects the interests of the student and is designed to meet that student's needs and career goals. This course allows students, with guidance from their mentors and faculty, to complete the DNP scholarly project and finalize the written and oral scholarly reports that disseminate and integrate new knowledge. Each student's final product reflects their ability to employ effective communication and collaboration skills, take a leadership role, integrate core DNP concepts and competencies that influence healthcare quality and safety, and successfully negotiate change in healthcare delivery for individuals, families, populations, or systems across a broad spectrum of health care.

Prerequisite: GNRS 793;

Corequisite: GNRS 736

GNRS 795, Special Topics, 1-4 Units

In this course, a subject of current interest is examined in depth. Students analyze and evaluate controversial issues to reach and express a reflective position. Students may repeat the course for credit to a maximum of six units applied toward the doctoral program; each course must address a different topic.

GNRS 798, Continuous Doctoral Study, 0 Units

This course is for doctoral students working on dissertations or translational research projects. Students must re-enroll each semester until the dissertation or translational research project is completed, defended, submitted to the library, and approved.

GNRS 799, Independent Study, 1-4 Units

Students enroll in this course to pursue independent study investigating subjects and interests that lie beyond regular course offerings. The student explores topics in greater depth than in other courses, and/or initiates an individual project. Readings are pursued in accordance with a study plan, which is developed in consultation with a sponsoring doctoral faculty member and approved by the doctoral department

Doctor of Nursing Practice (DNP)

Program Overview

Based on a strong scientific foundation, evidence-based practice, leadership, and organizational analysis, the Doctor of Nursing Practice (DNP) (<https://www.apu.edu/nursing/programs/dnp/>) program is designed to prepare nurses at the highest level of practice for the current, complex healthcare environment. An evidence-based clinical approach emphasizes the prevention, assessment, and treatment of complex health issues. The Doctor of Nursing Practice degree is considered the terminal practice degree for nursing and is accredited by the Commission on Collegiate Nursing Education (<https://www.aacnursing.org/CCNE/>) and the WASC Senior College and University Commission (WSCUC) (<https://www.wscuc.org/>).

Program Details

The Doctor of Nursing Practice program offers doctoral-level studies in a clinically-focused learning environment. The DNP prepares advanced practice nurses to bring the highest level of clinical expertise to patients, nursing students, health care systems, health policy formation, and clinical research. Graduates of the DNP program help contribute to the body of nursing knowledge and the practice of nursing to improve health care globally.

Program Goals

DNP graduates are well-prepared to translate new knowledge from research into cost-effective and culturally competent clinical practice. They can contribute to the development of health policy in the promotion of health, reducing the burden of disability and maintaining the quality of life.

Curriculum

The curriculum provides theoretical and empirical knowledge essential for advanced nursing practice, clinical research, health policy formation, and nursing education.

Core courses include: wellness promotion theory, statistical analysis, social ethics, epidemiology and population health, program evaluation, translational research, informatics, spirituality and health, and organizational leadership. The courses prepare students to implement the use of translational research approaches in health care. Coursework in these areas enables students to identify and formulate a translational research project as the culmination of their program.

The program courses address DNP Essentials¹ to:

- Provide students with the theoretical and scientific foundations of the discipline.
- Enable students to use frameworks for understanding sources of knowledge in nursing, modes of inquiry, and models of scholarship.
- Enable students to critique, articulate, test, apply, evaluate, and implement translational research.
- Enable students to articulate the intersections of the profession with the Christian worldview.
- Empower students with the knowledge base to formulate healthcare policies.
- Allow students to critically examine, evaluate, and effectively translate nursing and other scientific knowledge with the goal of bringing positive changes to healthcare practice and general population health. (DNP Essentials I)
- Empower students to, based on scientific findings, utilize organizational and systems leadership competencies to effectively and ethically engage current and future health, safety, and other quality improvement issues to diverse organizational cultures and populations. (DNP Essentials II)
- Enable students to engage in collaborative leadership for the implementation, evaluation, and generation of evidence-based practice to guide improvements in practice and health outcomes. (DNP Essentials III)
- Enable students to demonstrate proficiency in the analysis and utilization of information systems/technology and patient care technology to improve quality in health care delivery. (DNP Essentials IV)
- Empower students to critically analyze health policy proposals/policies and advocate for equitable and ethical policies within health care. (DNP Essentials V)
- Help students effectively lead in the development and implementation of interprofessional collaboration for the improvement of patient and population health outcomes. (DNP Essentials VI)
- Allow students to employ evidence-based prevention through the analysis of epidemiological, bio-statistical, environmental, and other appropriate data related to individual, aggregate, and population health. (DNP Essentials VII)
- Prepare students to practice a specialization within the larger domain of nursing by demonstrating refined assessment skills and base practice on the application of nursing and other sciences as appropriate to their area. (DNP Essentials VIII)

The DNP program aligns with the American Association of Colleges of Nursing (AACN) (<http://www.aacnursing.org/>) *Essentials of Doctoral Education for Advanced Nursing Practice*.¹ The APU School of Nursing is in the process of fully integrating the newly revised AACN *Essentials: Core Competencies for Professional Nursing Education*² into the curricula.

¹ American Association of Colleges of Nursing. (2006). *The Essentials of Doctoral Education for Advanced Nursing Practice*. AACN.

² American Association of Colleges of Nursing (2021). *The Essentials: Core Competencies for Professional Education*. AACN.

Requirements

Total Units ⁴		39
ELECTIVE OPTIONS: ⁵		3-4
GNRS 650	History of Professional Nursing: From Origins to Nursing in Transition	
GNRS 651	History of Professional Nursing: From Colonial Times to Present Day	
GNRS 704	Faith Integration and Nursing Scholarship	
GNRS 715	Psychosocial Issues of Older Adults	
GNRS 721	Health Disparities and Vulnerable Populations	
GNRS 722	Research in Nursing and Health	
GNRS 730	Comparative Health Care Systems	
GNRS 781	Doctoral Seminar II: Developing a Grant Proposal	
GNRS 782	Doctoral Seminar III: Writing for Publication	
GNRS 783	Doctoral Seminar IV: Developing Professional Presentations	
GNRS 795	Special Topics ⁶	
Oncology Fellowship Courses		
GNRS 633 & GNRS 634	ONP: Symptom and Side Effect Burden and ONP: Survivorship and the Psychosocial Impact of Cancer ⁷	
Oncology Certificate Co-Enrollment Option ⁸		
GNRS 631 & GNRS 633	ONP: Cancer Biology and Assessment and ONP: Symptom and Side Effect Burden ⁹	
GNRS 635 & GNRS 636	ONP: Team-Based Care and the Role of the Oncology Nurse Practitioner and ONP: Clinical Trials in Oncology Nursing ¹⁰	
GNRS 632	ONP: Cancer Therapeutics	
Nurse Faculty Loan Program (NFLP) ¹¹		12
GNRS 660	Theories of Teaching and Instruction ¹¹	
GNRS 661	Leadership and Role Development in Nursing Education ¹¹	
GNRS 662	Assessment, Curriculum, Development, and Outcomes ¹¹	

GNRS 663	Clinical Practicum in Nursing Education ¹¹
GNRS 664	Teaching and Learning Strategies for Nursing Education ¹¹

- ¹ There are four core courses in the DNP course progression. The courses should be taken in the following sequence: GNRS 716 in Semester 1, both GNRS 712 and GNRS 718 in Semester 2, and GNRS 780 in Semester 3.
- ² GNRS 732 may be repeated until the student accrues the minimum number of practice hours (1000 total hours) depending on the student study plan.
- ³ Clinical fee required.
- ⁴ Includes 3 units of electives.
- Does not include GNRS 613 which is a program prerequisite for GNRS 713.
- ⁵ Additional doctoral elective options may be approved by petition. Students choosing to take GNRS 633 and GNRS 634 will need a minimum of 4 units.
- ⁶ Students in the DNP program may enroll in 3 units of GNRS 795 to fulfill their Elective requirement.
- ⁷ Must be taken together in the same semester. These alternatives are primarily intended for students in the Oncology Nurse Practitioner Certificate program and may count as the 3-unit elective in the curriculum.
- ⁸ Students interested in the Oncology Nurse Practitioner Certificate may apply some didactic and clinical units from the DNP program requirements. Please ask admissions representative about this option.
- ⁹ Must be taken together in the same semester. These alternatives are primarily intended for students in the Oncology Nurse Practitioner Certificate program, and count as a substitute for GNRS 729.
- ¹⁰ Must be taken together in the same semester. These alternatives are primarily intended for students in the Oncology Nurse Practitioner Certificate program, and count as a substitute for GNRS 720.
- ¹¹ Content required for students receiving assistance from the Nurse Faculty Loan Program. It is advised that GNRS 662 be taken prior to GNRS 663.

DNP Scholarly Project

The DNP is a practice-focused doctorate that includes integrative practice experiences and an intense practice immersion experience. This is reflected in the clinical residency courses. Each student generates an evidence-based scholarly project as an integral part of their practice experience. There are a number of practice doctorates at the university, so DNP students have opportunities for interprofessional coursework and collaborative projects.

Residency

The DNP program offers clinical and leadership residency. The clinical and leadership residency course is GNRS 732, in which students concentrate on the development of their clinical and leadership roles in advanced practice nursing. The focus of the clinical portion of the residency hours is within an advanced practice specialty area. The focus of the leadership portion of the residency hours is developing students for leadership roles in healthcare organizations. During the leadership residency, students are expected to progress in the conceptualization, implementation, and evaluation of their DNP scholarly project.

Residency Practice Hours

The American Association of Colleges of Nursing (AACN) requires a minimum of 1,000 hours of clinical residency in a DNP program, and Azusa Pacific University's School of Nursing requires 1,000 hours of clinical and leadership experience. Students who have completed an Advanced Practice RN (APRN) program, such as Nurse Practitioner (NP) or Clinical Nurse Specialist (CNS), from an accredited institution may transfer up to 500 clinical hours from the APRN program to the DNP program, and must then complete the other 500 clinical hours. Students who have not completed an APRN program (NP or CNS) are required to complete a total of 1,000 hours of advanced clinical and leadership experience. Non-APRN students who graduate from an accredited institution may also transfer up to 500 clinical hours from their master's program to the DNP program and must then complete the other 500 clinical hours. The DNP program requires that students have ongoing clinical work experience.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Utilize nursing, bioethical, physical, spiritual, psychosocial and organizational sciences in the planning, implementation and evaluation of advanced clinical nursing practice.

2. Provide transformative and collaborative leadership in the organization and management of health care delivery systems for ethnically and culturally diverse populations to improve patient and population outcomes.
3. Critically examine, develop and translate research and other evidence as a basis for developing, implementing, and evaluating advanced clinical nursing practice and health care delivery.
4. Employ current technological and informational advances from health care and other disciplines to promote the highest level of health care delivery.
5. Actively participate in evaluating, formulating and implementing health care policies that address health disparities and health care from a social justice and ethical framework.
6. Integrate faith traditions and Christian values in the development of professional and advanced nursing practice.

BSN to DNP Pathway

The BSN to DNP (<https://www.apu.edu/nursing/programs/bsn-to-dnp/>) pathway allows RNs with a Bachelor of Science in Nursing to enter directly into the DNP program without first earning an MSN degree. This allows for a seamless progression from the completion of a baccalaureate degree to advanced nursing practice. The BSN to DNP pathway includes two specialty tracks: Advanced Practice Registered Nursing (APRN)—Adult Gerontology Primary Care Nurse Practitioner (AGPCNP) or Family Nurse Practitioner (FNP), and Health Systems Leadership. The pathway meets the program learning outcomes for the DNP degree at APU and is aligned with *The Essentials: Core Competencies for Professional Nursing Education* (AACN, 2021)¹.

¹ American Association of Colleges of Nursing (2021). *The Essentials: Core Competencies for Professional Education*. AACN.

APRN-AGPCNP or FNP Options

Code	Title	Units
APRN Core Courses		10
GNRS 610	Advanced Pathophysiology	3
GNRS 611	Advanced Pharmacology	3
GNRS 612	Advanced Health Assessment and Diagnostic Reasoning ¹	4 (3/1)
FNP and AGPCNP Common Core		26
GNRS 600	Nurse Practitioner Clinical Experience ²	2-6
GNRS 601	Primary Healthcare I: Adult and Aging	3
GNRS 602	Primary Healthcare II: Population-based Health Interventions	3
GNRS 603	Primary Healthcare III: Restorative and Palliative Interventions	3
APRN-FNP Specialty Courses ³		2-3
GNRS 590D or GNRS 580	Primary Health Care of the Young Family Gerontology	2-3
APRN Intensives		4
GNRS 615	APRN Intensive I	1

Elective Options ⁶		
GNRS 650	History of Professional Nursing: From Origins to Nursing in Transition	3
GNRS 651	History of Professional Nursing: From Colonial Times to Present Day	3
GNRS 704	Faith Integration and Nursing Scholarship	3
GNRS 715	Psychosocial Issues of Older Adults	3
GNRS 722	Research in Nursing and Health	3
GNRS 730	Comparative Health Care Systems	3
GNRS 781	Doctoral Seminar II: Developing a Grant Proposal	3
GNRS 782	Doctoral Seminar III: Writing for Publication	3
GNRS 783	Doctoral Seminar IV: Developing Professional Presentations	3
GNRS 795	Special Topics	1-4

¹ Units in parentheses are classroom/clinical units.

² Students may enroll in 2-6 clinical units per semester with faculty approval, with a total of 17 units for the program.

³ Students in the FNP track must take GNRS 590D. Students in the AGPCNP track must take GNRS 580.

⁴ Total required DNP clinical hours = 1,000 hours.

⁵ 12 units required if enrolled in Nurse Faculty Loan Program (NFLP).

⁶ Electives may be taken in either pathway option where appropriate.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Utilize nursing, bioethical, physical, spiritual, psychosocial, and organizational sciences in the planning, implementation, and evaluation of advanced clinical nursing practice.
2. Provide transformative and collaborative leadership in the organization and management of health care delivery systems for ethnically and culturally diverse populations to improve patient and population outcomes.
3. Critically examine, develop and translate research and other evidence as a basis for developing, implementing, and evaluating advanced clinical nursing practice and health care delivery.
4. Employ current technological and informational advances from health care and other disciplines to promote the highest level of health care delivery.
5. Actively participate in evaluating, formulating and implementing health care policies that address health disparities and health care from a social justice and ethical framework.
6. Integrate faith traditions and Christian values in the development of professional and advanced nursing practice.

PhD in Nursing

The PhD in Nursing (<https://www.apu.edu/nursing/programs/phd-in-nursing/>) program is designed for nurses who hold a master's degree in nursing or a related field and wish to pursue a doctoral degree in nursing. Graduates of this program, in roles as academicians, contribute to the body of nursing knowledge to improve the health of society and prepare the next generation of nurses.

Program Details

Through scholarly exchange and engagement with faculty, students are socialized to discover, examine critically, preserve, and transmit knowledge. The program prepares scholars with knowledge and expertise to assume independent roles in the development, evaluation, and dissemination of nursing knowledge through systematic inquiry.

Screening of Applicants

Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) and the School of Nursing handle screening of applicants for admission into the nursing PhD program. Screening of applicants' portfolios is conducted by Graduate and Professional Admissions and is evaluated according to the admission criteria. The school reviews completed applications for admission to the doctoral program to discern an applicant's academic qualifications and preparation for advanced graduate study. Upon completion of the screening and review process, the School of Nursing Graduate Recruitment and Admissions Committee forwards a list of qualified/alternate applicants to Graduate and Professional Admissions, which officially notifies applicants of admission decisions.

DNP to PhD Pathway

The DNP to PhD Pathway enables professionals who have a DNP, or transferable doctoral-level units, to further utilize the DNP program's evidence for improving patient and population outcomes, and expand their research skills to further nursing science and clinical practice, as they earn a PhD. The PhD in Nursing program is a 55-unit-plus-dissertation program. The School of Nursing may accept for transfer up to 15 units of coursework completed in an accredited DNP program, thereby requiring the student to complete 40 units of doctoral coursework in residence, and complete the dissertation, to earn the PhD in Nursing degree.

The proposed plan of study can be completed either on a full-time (6 semesters) or part-time basis. Upon application to the PhD program, a transfer evaluation/gap analysis of the DNP coursework will be conducted by the Nursing Doctoral Admission Committee.

Curriculum

The curriculum is designed to provide students with discipline-specific and interdisciplinary, theoretical, and empirical knowledge that is essential for the conduct of original research, and for the advancement of the profession's knowledge for both practice and education.

The core courses in nursing science, theory construction, research methodology, statistical analysis, ethics, and spirituality are designed to prepare students in the process of scientific inquiry, enabling them to articulate, conceptualize, critique, and test theory, and use methods of scientific inquiry in researching questions in their substantive area of interest. Coursework in the substantive area of interest enables students to identify and formulate a research focus and to create and conduct original research toward the development of a program of scientific inquiry. The core courses are offered sequentially and are designed to:

- Provide students with the scientific and theoretical foundations of the discipline.
- Enable students to use frameworks for understanding sources of knowledge in nursing, modes of inquiry, and models of scholarship.
- Enable students to critique, articulate, test, use, and develop theories.
- Enable students to articulate how the nursing profession is informed by the Christian faith.
- Empower students with the knowledge base and ethical framework to promote social change.

The overarching rubric of the curriculum is wellness promotion and health maintenance within specific areas of concentration:

- Health of the Family and the Community
- International Health
- Nursing Historical Research

A subspecialization in nursing education is also available.¹

These areas of concentration and the subspecialization reflect the changing trends in health care and accommodate the diverse research interests of students.

Coursework consists of 46 units with an additional 9 units allocated for dissertation research. The 46 units of required and elective courses include an area of concentration. A total of 46 units are allocated to core courses in nursing science, theory development, research methodologies, and statistical analysis.

Based on the student's area of interest and chosen method of inquiry, a 3-unit core course is required in one of the following research methods:

- Advanced Quantitative Methods
- Advanced Qualitative Research Methods
- Advanced Evaluation Research

A maximum of 9 doctoral-level semester units may be transferred from another regionally accredited university with approval of the program chair.

¹ The Nursing Education Certificate program (p. 956) comprises 21 units consisting of seven required courses.

Requirements

Code	Title	Units
Knowledge/Theory		
GNRS 700	Philosophy of Science	3
GNRS 701	Nursing Knowledge Development	3
GNRS 702	Nursing Theory	3
GNRS 703	Spirituality and Health	3
GNRS 705	Social Ethics and Health Policy	3

Statistical Analysis

GNRS 713	Advanced Statistical Analysis I	3

GNRS 783	Doctoral Seminar IV: Developing Professional Presentations	

Optional Course

GNRS 798	Continuous Doctoral Study	
----------	---------------------------	--

Total Units**55****Study Progression and Graduation Requirements**

Progression in the program requires active enrollment status and maintaining a minimum cumulative 3.0 GPA. Graduation requirements include a minimum cumulative 3.0 GPA and successful completion of the qualifying exam, proposal defense, and dissertation defense. See the Graduate Academic Policies and Procedures (p. 1226) section of this catalog for more information.

Leaves of Absence

Students in good standing and making satisfactory progress toward their degrees who must interrupt their studies for a compelling reason (e.g., illness, study abroad, family conditions, or crises) may petition for a leave of absence for a stated period of time not to exceed two years. Requests for a leave must be in writing and state both the reasons for the leave and the semester in which the student will reenroll. Leaves of absence must be approved by the director of doctoral studies program in nursing and the dean of the School of Nursing in advance of the semester for which the leave is requested.

The petition for return to enrolled status should be filed one full term before the intended date of reenrollment. If the student went on leave with conditions for reenrollment, these must be fulfilled before re-enrollment may occur. If a student is on leave for two years, the Doctoral Admissions Committee, as well as the student's advisor, the doctoral studies director, and the dean will review her/his reenrollment petition. Depending upon

the amount of time elapsed, the student's stage of study in the program, and the student's academic activity during the leave, readmission may be contingent.

Qualifying Examination

The qualifying examination is taken upon the completion of 12-24 units of doctoral work, including:

Code	Title	Units
GNRS 700	Philosophy of Science	3
GNRS 701	Nursing Knowledge Development	3
GNRS 702	Nursing Theory	3
GNRS 706	Methods of Inquiry	3

(The student must petition for exceptions.) The examination is composed of a paper (25-30 pages) and a review by a committee of faculty. The purpose of the paper is to encourage the synthesis of first-year coursework as it relates to the student's current research interest area. The paper incorporates relevant aspects of the philosophical foundations of applicable scientific theories and nursing knowledge, and addresses the philosophical foundations and linkages among relevant conceptual models, theories, and research designs.

Dissertation Proposal Defense

Successful completion of the dissertation proposal signifies competence to pursue independent research with the advice and guidance of the dissertation committee. The dissertation proposal defense allows the student to demonstrate familiarity with the state of the science in a particular area, awareness of currently active topics of investigation in the area, theoretical dimensions and design issues related to potential questions, and recognition of potential practical and ethical challenges arising at the intersection of research questions, population, and instruments.

Dissertation Defense

The dissertation reports the results of original, independent research of substantial but circumscribed scope, undertaken in consultation with the student's dissertation committee. The student presents a prospectus or proposal specifying the question, method, design, data collection instruments or strategy, projected data analysis, plan for access to subjects/participants/data, and projected timeline for data collection, analysis, and dissertation completion.

The dissertation committee serves in an advisory capacity to the student and ensures that the dissertation research and the written dissertation demonstrate the student's competence to conduct independent research in the discipline. Committee members work with the student throughout the process of data collection, analysis, and writing, with primary support provided by the chair/sponsor. When the student has substantially finished the work to the satisfaction of each committee member, the committee meets to hear the student's defense of the overall work and the decisions it entailed, and to discuss the student's plans for publication and post degree program of research.

Students may not participate in commencement or have the degree posted to their transcript until the document has been accepted by the University Libraries (<https://www.apu.edu/library/>). Any exceptions are by petition only.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Develop, test, and use theoretical knowledge to advance nursing science and improve health outcomes.
2. Pursue systematic intellectual inquiry relevant to the discipline of nursing and health care.
3. Use frameworks for understanding sources of knowledge in nursing, modes of inquiry, and models of scholarship.
4. Develop ethical, social, and health policies for the advancement of nursing education, research, and the health of those whom nursing serves.
5. Articulate the intersection of the Christian tradition with the nursing profession.

Mission Statement

Azusa Pacific Seminary, in keeping with its commitment to the centrality of Jesus Christ and the authority of Scripture, prepares men and women for effective, practical ministry in the Church throughout the world by promoting the spiritual, personal, and vocational development of students and by extending theological knowledge through academic inquiry, research, and writing for the glory of God.

Spiritual Life

The faculty of Azusa Pacific Seminary believe that the growth of the student's spiritual life is foundational to effective ministry. Accordingly, the development of spiritual life is integral to every course. In addition, there are opportunities for the seminary community to pray together and share experiences in Jesus Christ. Students and faculty are encouraged to attend university chapels as well as special services and lectures.

Experiential Learning

Azusa Pacific Seminary utilizes an experiential learning model. The Master of Divinity (MDiv), Master of Arts in Pastoral Studies (MAPS), and the Doctor of Ministry (DMin) programs intentionally integrate biblical, theological, and ministerial studies with ministerial practice. Mentored ministry courses form a central component in the MDiv and MAPS programs and facilitate the integration of academic learning and experience in ministry. Students are required to devote at least eight hours per week to some form of supervised ministry for the duration of their master's degree program.

Online Courses

Azusa Pacific Seminary offers several courses online. Maximum enrollment in each online course is 20 students; enrollment is granted on a first-come, first-served basis.

Korean Program

The Korean Program (<https://www.apu.edu/seminary/korean-program/>) offers courses in Korean (directly or translated) for the various graduate degree programs in Azusa Pacific Seminary at the Azusa Campus and the Orange County Regional Campus. This program seeks to make an impact for Christ by equipping Korean pastors and lay leaders to serve as ministers, missionaries, and leaders in the Korean community throughout the world. Blending Korean culture with the principles of God's Word, the program provides academic excellence coupled with practical ministry training. Daniel Newman, PhD, is the director of the Korean Doctor of Ministry program; Linda Pyun, PhD, is the director of the Korean master's degree programs. For more information, call (213) 252-0962 or (626) 815-5439.

Programa Hispano

Azusa Pacific Seminary is committed to equipping leaders for the Hispanic church of the 21st century. With that focus in view, the seminary provides Hispanic students a graduate theological education in a linguistic and cultural dynamic that enhances the richness of the Hispanic worldview in the context of mainstream American culture.

The Master of Arts in Pastoral Studies (48 units) and the Master of Divinity (74 units) programs are offered in a bicultural setting. Classes are taught in Spanish or, on rare occasion, in English with a translator. Hispanic students who understand both languages gain an expanded worldview that will advance their witness in church leadership. Enrique Zone, EdD, associate dean, is director of Programa Hispano (<https://www.apu.edu/seminary/programa-hispano/>). For more information, call (626) 815-5448.

El Centro Teológico Hispano (CTH)

Dedicated to fostering the field of Hispanic church studies, El Centro Teológico Hispano (<https://www.apu.edu/seminary/resources/centrohispano/>) at Azusa Pacific Seminary offers unique courses, guest speakers, and relationship-building opportunities. It also provides a place for pastors and students to meet and discuss current issues, gain diverse training, and tap into multicultural resources that enable Hispanics to adequately minister within their particular contexts. For more information about El Centro Teológico Hispano, contact Enrique Zone, EdD, associate dean, at (626) 815-6000, Ext. 5653, or ezone@apu.edu.

El Centro Teológico Hispano (CTH) Advisory Members

Agustin Barajas, MDiv, Senior Pastor, Eagle Rock Victory Outreach Church; Overseer, Liberia Victory Outreach Church

Aureliano Flores, Pastor Emeritus, Church of the Redeemer, Assembly of God

Friends Center

The Friends Center (<https://www.apu.edu/friendscenter/>) is the seminary education and ministry training program of Evangelical Friends Church Southwest at Azusa Pacific Seminary. The Friends Center's mission is to make an eternal impact for Christ by equipping men and women to serve internationally as ministers, missionaries, and leaders. The program highlights the Evangelical Friends' theological tradition with its emphasis on the primacy of Scripture as the revelation of God's Word. The center provides an excellent academic environment for students seeking a scholarly foundation for ministry. The Friends Center also provides leadership development to Friends churches by overseeing a Certificate of Leadership Ministry through the Friends churches. For more information, call Kent Walkemeyer, DMin, director, at (626) 815-5077.

Library and Information Resources

The James L. Stamps Theological Library (<https://www.apu.edu/library/stamps/>), located in the Duke Academic Complex, houses the university library collections in the areas of biblical studies, theology, philosophy, church history, and ethics. The collection numbers approximately 60,000 volumes and is complemented by collections in the Marshburn Memorial Library and Darling Library, also at the Azusa campus.

The Stamps Library maintains special collections for denominations with historic ties to the university, including the Church of God – Anderson, Free Methodist, Friends, and Salvation Army.

The Stamps Library places a high priority on making available the latest information technology, including more than 100 licensed databases and a variety of CD-ROM databases in the areas of biblical studies and languages, theology, and church history. Access to many of the resources is available through the Internet. Current journal holdings exceed 13,500 titles.

Consortial arrangements allow students to access the rich theological collections of the seminaries in the Southern California Theological Library Association (SCATLA) (<https://www.atla.com/learning-engagement/rg/scatla/>), collections of libraries throughout the Inland Empire (IEALC), and through the Link+ system, which connects the APU libraries with libraries throughout the state of California. Additionally, a contractual arrangement exists with the Claremont School of Theology Library.

The theological librarian serves on the faculties of the APU libraries and Azusa Pacific Seminary, serves as the subject specialist, and oversees collection development for the theological disciplines. Training in the use of the resources is available to classes and by appointment.

Advanced Standing

- MDiv students may petition for up to 18 units of Advanced Standing from upper-division undergraduate work in religion.
- The number of core courses in any department that may be replaced by Advanced Standing is limited to two.
- MAPS students may petition for up to 12 units of Advanced Standing from upper-division undergraduate work in religion.
- Prior to formal admission, the Request for Advanced Standing Petition form should be completed.
- All Advanced Standing examinations are administered in a proctored setting.
- Students must pass examinations for advanced standing within 12 months of their admission date. If the student passes the exam(s), he/she will not be required to pay full tuition for those units.
- A student may repeat Advanced Standing examinations one time without further charge.
- Courses in which a grade of *B-* or lower was earned may not be used for Advanced Standing.
- Students admitted under the exceptional category may not petition for Advanced Standing units.
- Undergraduate work must be from a regionally accredited college or university.

Transfer Units

A student may petition to transfer in up to 48 units for the MDiv, less any Advanced Standing units (e.g., 30 units transfer and 18 units Advanced Standing or any other combination totaling 48 units), and up to 32 units for the MAPS, less any Advanced Standing units, from other regionally or ATS-

accredited graduate degree programs. Units transferred are limited to one half of an earned master's degree. A minimum of 26 units for the MDiv and 16 units for the MAPS must be completed at Azusa Pacific Seminary.

Advancement to Candidacy

In order for students to progress beyond the initial courses of the master's degree program, they must be granted candidacy. Candidacy is granted by faculty approval upon the satisfactory completion of 16 units of coursework with a minimum 2.7 grade-point average and evaluation of each student's personal growth and commitment to the mission and goals of Azusa Pacific Seminary.

Programs

Master's Programs

- Master of Divinity (MDiv) (p. 1014)
- Master of Divinity (MDiv): Biblical Studies (p. 1016)
- Master of Arts in Pastoral Studies (MAPS) (p. 1010)

Doctoral Program

- Doctor of Ministry (DMin) (p. 1007)

Courses

GBBL 500, Elements of Greek Exegesis, 4 Units

Students who are readers of the English Bible are introduced to the syntax of New Testament Greek for a better understanding of the translation process, the principles of exegesis, and the exegetical reference tools available for interpreting the New Testament. This class will support and reinforce practices learned in GBBL 511. Either this course or GBBL 510 New Testament Greek is a prerequisite to New Testament courses (GBBL 512 Gospels Witness to Christ, GINS 542 Gospels and Christology, and GBBL 532 Paul the Pastor and Theologian).

GBBL 501, Torah and Prophets: Exodus-2 Kings, 4 Units

This course follows GBBL 511 and continues the study of the Old Testament as Christian Scripture by examining Exodus through 2 Kings with a focus on the women and men who formed and preserved Israel. The prophets and prophetic books that relate to this period will also be read and interpreted.

Prerequisite: GBBL 511

GBBL 510, New Testament Greek I, 4 Units

This course introduces the basic vocabulary, morphology, and syntax of New Testament Greek for the purpose of learning to read and interpret the New Testament as a foundation for theological study and pastoral practice.

GBBL 511, Biblical Interpretation: Exploring Genesis, 4 Units

Students in this course are introduced to the Old Testament and the inductive method of interpretation through an exploration of the book of Genesis, practicing close readings of the text and paying attention to genre and historical and literary contexts. Course material also helps seminarians participate in the dialogue between science and Scripture, including theological discussions about the origins of the physical universe and humankind.

GBBL 512, The Gospels' Witness to Christ, 4 Units

This course examines the life and teaching of Jesus portrayed in the Gospels, exploring the historical, literary, and theological features of their witness through the inductive method of Bible study, enhanced by the methods of contemporary Gospel criticism.

Prerequisite: GBBL 511

GBBL 520, New Testament Greek II, 4 Units

This course continues the study of the basic vocabulary, morphology, and syntax of New Testament Greek begun in GBBL 510 New Testament Greek I.

Prerequisite: GBBL 510

GBBL 522, The Gospel of Mark, 4 Units

Students study the Gospel of Mark with attention to developing skill in the methods of Gospel criticism and engaging the Gospel's implicit theology and teaching about the Christian life.

Prerequisite: GBBL 511

GBBL 530, Hebrew I, 4 Units

This course introduces the basic vocabulary, morphology, and syntax of biblical Hebrew for the purpose of learning to read basic Hebrew narrative and gaining the tools for interpreting the Old Testament as a foundation for biblical study. It provides pastors and teachers with tools for greater insight into the biblical message of the Old Testament.

GBBL 532, Paul the Pastor and Theologian, 4 Units

Through the examination of the Apostle Paul's letters, students in this course study his pastoral work in the establishment and care of churches and his formative contribution to the theology of the Church.

Prerequisite: GBBL 511

GBBL 540, Hebrew II, 4 Units

This course serves as a continuation of the introduction to the basic vocabulary, morphology, and syntax of biblical Hebrew begun in Hebrew I.

GBBL 541, Exegetical Study of the Greek or Hebrew Text, 4 Units

Students are introduced to the basic principles and practice of Greek or Hebrew exegesis, through a detailed study of selected passages in the Greek text of the New Testament or the Hebrew Scriptures. Attention is given to methodological and bibliographical resources.

GBBL 551, Geographical and Historical Setting of the Bible, 4 Units

This comprehensive course of study emphasizes the geography, history, and archaeology of Israel in biblical times, as well as introducing the post-biblical history of the land, the Holocaust, and the complex social issues facing the modern nation of Israel. The course includes a 10-day travel tour of the lands of the Bible.

GBBL 552, Epistle to the Romans, 4 Units

Students study Paul's letter to the Romans, with attention to developing skill in the methods of biblical exegesis and engaging the theological and ethical implications of Paul's thought.

Prerequisite: GBBL 511

GBBL 561, Psalms as Resource for Ministry, 4 Units

The psalms of ancient Israel provide models of appropriate human response to the breadth of life as lived before God. In a strange but hopeful way, these human songs also become the source of the Divine Word of guidance, salvation, and grace. The course investigates the historical and literary character of the Hebrew psalms as well as ways these compositions can be effectively and appropriately incorporated into a life of ministry.

Prerequisite: GBBL 511

GBBL 562, Biblical Foundations of Worship, 4 Units

This course is a study of the worship of the believing communities of the Bible and early Christianity within the context of the ancient Near East and the Greco-Roman world, with special attention to its historical expressions and theological foundations.

Prerequisite: GBBL 511

GBBL 570, Directed Research, 1-4 Units

This is a course of independent research directed by the instructor.

GBBL 571, Readings in the Hebrew Text of the Pentateuch, 1-4 Units

Selections from the Pentateuch are chosen according to the students' needs and interest. Attention is devoted to improving the ability to read the Hebrew text and knowledge of advanced Hebrew grammar. The course focuses on the documentary hypothesis and traditional-historical criticism.

GBBL 572, Readings in the Greek Text of the Gospels, 1-4 Units

Selected passages from the Greek text of the Gospels are examined, and special attention is given to the tools of source, form, redaction, and narrative criticism.

GBBL 581, Readings in the Hebrew Text of the Prophets, 1-4 Units

Selections from the Hebrew Bible are chosen according to the students' needs and interests. Attention is devoted to improving the ability to read the Hebrew composed in poetry. The role of the prophets in the life of Israel is investigated in terms of their preparation of the people for the coming of God's Kingdom in Christ.

GBBL 582, Readings in the Greek Text of the Epistles, 1-4 Units

Selected passages from the Greek text of the Epistles are examined and special attention is given to rhetorical criticism.

GBBL 590, Thesis, 4 Units

This is a course of independent study in which the student prepares a thesis supervised by the instructor.

GBBL 591, Isaiah, 4 Units

This course comprises a study of the canonical book Isaiah. The life and ministry of Isaiah of Jerusalem are investigated. Then the other sections of Isaiah are studied. The concepts of Isaiah 40-55 receive special emphasis, particularly the view of God, God's Word, the messages of salvation, and the role of the servant. Some attention is given to the major themes of Isaiah 56-66. The role of this canonical book in preparation for the coming of God's Kingdom in Christ receives special attention. His message of hope laid the foundation for the early Christians to understand God's work in Jesus. Thus, of all the books of the Old Testament, Isaiah is the most crucial for understanding the work of God in Christ.

Prerequisite: GBBL 511

GBBL 599, Readings in Biblical Studies, 1-4 Units

This is a course of independent study supervised by the instructor.

GBBL 611, Old Testament Seminar, 4 Units

Topics with current and/or continuing significance for Old Testament studies, critical methods, and advanced research techniques are emphasized.

Prerequisite: GBBL 511

GBBL 612, New Testament Seminar, 4 Units

Topics that have current and/or continuing significance for the study of the New Testament are explored with emphasis on the methods of advanced research.

Prerequisite: GBBL 511

GBBL 621, Jeremiah, 4 Units

The student undertakes a thorough investigation into the message of Jeremiah. This great prophet worked during the years of great turmoil leading up to the exile. A study of his life, confessions, and struggles leads the student into a thorough acquaintance with the events of the Middle East of the 6th century B.C. Also, the material in Jeremiah provides the student with the opportunity to discover the inner life of a prophet who faced tremendous opposition.

Prerequisite: GBBL 511

GBBL 622, The Church of the First Century, 4 Units

Students undertake an investigation of the emergence of the Christian Church in the first century A.D. through an examination of the Acts of the Apostles, using the tools of literary, historical, sociological, and theological analysis.

Prerequisite: GBBL 511

GBBL 631, Early Judaism: The Writings and the Dead Sea Scrolls, 4 Units

This course examines the Dead Sea Scrolls, the biblical books, and extra-biblical resources produced by the Jews of the Persian, Greek, and Roman periods. These sources demonstrate the processes involved in establishing post-exilic Jewish communities, authoritative texts, synagogue and home rituals, social practices, and interpretive discourses, which form a foundation for the early Jesus movement, the New Testament, Christianity, rabbinic Judaism, and the Judaisms of today.

Prerequisite: GBBL 511

GBBL 632, The New Testament World, 4 Units

This course gives students an encounter with Jewish and Greco-Roman primary texts from the Hellenistic Age in order to gain an understanding of the history, religion, and culture that formed the milieu of the New Testament.

GBBL 641, Theological Themes of the Old Testament, 4 Units

This course investigates contemporary approaches to Old Testament theology. These methods are studied and critiqued. Specific theological themes are pursued, including God's self-revelation, God's holiness, justice, wisdom, love, the view of humans, sin and atonement, praise, and lament. Very important is a consideration of the relationship of both testaments for practicing biblical theology.

Prerequisite: GBBL 511

GBBL 651, Scripture and Canon: The Formation of the Bible, 4 Units

This course traces how the Jewish and Christian Scriptures were produced, preserved, transmitted, authorized, and canonized in living communities of faith. It explores how inspiration and revelation—as well as social structures, historical events, and politics—feature in the development and persistence of a sacred canon.

GBBL 652, Geographical and Historical Setting of the Hellenistic World, 4 Units

This course explores geography, history, culture, and archaeology of the Hellenistic world as the setting in which the New Testament was written, and includes a tour of sites in the Aegean region of Greece and Turkey.

GBBL 661, Women in the Bible and Church History, 4 Units

This course is an inductive survey of women's roles in the Bible and biblical discourse regarding women. It also survey's women's contributions to church history and theology. This in-depth examination of women in biblical and interpretive traditions, church history, and theology informs students' understanding of the vocations of women serving God today.

GDMN 704, Research and Design, 4 Units

Students are introduced to the practical application of the doctor of ministry coursework as it relates to their needs and ministerial context. Special attention is given to developing a lifelong appreciation of active discovery. Focus is on tools for study and research, developing a design proposal for the D.Min. project, and the methods of research and writing.

GDMN 710, Christian Spirituality, 4 Units

The spiritual dynamics involved in the transformation of the human personality are studied in the course. Topics covered include biblical, theological, historical, psychological, and sociological understanding of the human condition and how holy habits are formed. Special attention is given to how spiritual formation applies to situations of ministry.

GDMN 720, Theology for Spiritual Formation, 4 Units

Students explore the ways in which the disciplines of theology, the humanities, and the behavioral sciences can be integrated and applied to the task of ministry. Spiritual formation of individuals and communities into the way of Christ, the imitatio Christi, is the focus of the integration process; practical application is made to congregational life.

GDMN 730, Church Renewal, 4 Units

Students consider the dynamics of spiritual renewal through an investigation of renewal movements among the people of God from the pre-exilic prophets in ancient Israel to contemporary movements in the Christian church in the 20th century. The analysis draws on the perspectives of theology, psychology, and sociology, with a focus on the ways in which these movements enhance or inhibit character formation. Attention is given to the application of the dynamics of renewal to contemporary situations.

GDMN 740, Spiritual Leadership, 4 Units

Students uncover the dynamics of leadership in the context of Christian community, using models developed from the humanities and behavioral sciences as well as the theological disciplines to determine the ethnic and cultural variables in leadership practice. Special emphasis is given to the effect of different leadership styles on growth toward Christ-likeness, and application is made to practical pastoral settings.

GDMN 750, Civic Spirituality, 4 Units

Students uncover the dynamics of spiritual formation within the context of urban life and ministry, integrating issues of social justice and personal piety. Particular attention is given to the African-American, Asian-American, Asian, Hispanic-American, and Hispanic experience, and practical application is made to the ministerial context of the individual student.

GDMN 752, Christian Spiritual Formation I, 3 Units

The dynamics of a life in the Kingdom of God are investigated in this first of a four-course sequence on authentic discipleship to Jesus Christ. This is built around the following three themes: 1) spiritual formation into Christ-likeness as God's intention for humans - that it is possible and suited to human nature; 2) living in the Kingdom of Heaven here and now; and 3) application of these understandings from Christ to the realities of the human self and actual existence in our circumstances.

GDMN 754, Christian Spiritual Formation II, 3 Units

Living in the divine conversation and character is investigated in the second of a four-course sequence on authentic discipleship to Jesus Christ. This is built around the following three themes: 1) learning how to hear God; 2) Christian spiritual disciplines - concept and history; and 3) salvation is a life, with special emphasis given to the "Fruit of the Spirit" as the foundation and framework of eternal living.

Prerequisite: GDMN 752

GDMN 756, Christian Spiritual Formation III, 3 Units

The great traditions of Christian faith through Scripture, literature, and praxis are investigated in the third of a four-course sequence on authentic discipleship to Jesus Christ. The course is built around the following three themes: 1) gaining an experiential understanding of the six great traditions of Christian faith; 2) coming to a deeper appreciation of the importance of classical devotional literature; and 3) learning to better experience God in Scripture while developing a deeper appreciation for the Bible's presentation of 15 ways of 'being with' God.

Prerequisite: GDMN 754

GDMN 758, Christian Spiritual Formation IV, 3 Units

Living as an apprentice to Jesus is investigated in the fourth of a four-course sequence on authentic discipleship to Jesus Christ. This is built around the following three themes: 1) being with God in prayer; 2) discipleship as apprenticeship; and 3) spiritual formation in all life's roles.

Prerequisite: GDMN 756

GDMN 760, Christian Spirituality and Modern Technology, 4 Units

Students study the theory and practice of modern technology in the context of Christian ministry, including practical experience with the various aspects of the information superhighway (e.g., computers and peripherals, software, network services, and email). Attention is given to ways in which the technological society enhances or inhibits spiritual formation in individuals and communities.

GDMN 762, Spiritual Practices in the Church, 4 Units

This course covers the biblical, theological, and historical foundation for the classical disciplines of the spiritual life as a means of grace through which the human person exercises relative independent will to bring body, mind, and spirit into a cooperative relationship with God. Special attention is given to prayer as the foundational discipline of engagement, the via positive, and its practice in the prayer life of the individual and in the life of the congregation.

GDMN 764, History and Theology of Worship, 4 Units

This course documents the history and theology of worship with particular attention given to worship as a means for the cure of souls. The rationale and practice of both liturgical and free church worship is considered along with attention to various musical forms. Attention is also given to the application of the insights of this study to the ministerial context of the individual student.

GDMN 768, Urban Immersion, 4 Units

Students analyze the impact of urban changes upon the work of church planting and congregational life through an exposure to urban culture using the university's network of relationships to churches, institutions, and agencies throughout the greater Los Angeles area.

GDMN 772, Contemplative Spirituality, 4 Units

This course explores the scriptural and historical background of contemplative spirituality in order to experience its dimensions and practices today. Special attention is focused on how one's relationship with God, character formation, and mission enrich not only the personal life of the individual but also the Church and its mission.

GDMN 782, Scripture: Its Spirituality and Proclamation, 4 Units

The Christian Scriptures exist as a great variety of manuscript and printed texts. They express a spectrum of content in many different genres, and they have evoked an enormous range of thoughtful responses. Viewed from the perspective of God's community, all of these aspects are manifestations of the work of God's Spirit. In this course students will seek to better understand the spiritual phenomena collectively known as Christian Scripture. Students will explore the relevance of the spiritual dimensions of Scripture to Christian ministry.

GDMN 790, Ministry Project, 4 Units

Students work with their D.Min. project committee in developing a doctoral-level report based on critical reflection concerning a specific problem or issue in the practice of ministry.

GDMN 792, Ministry Project Continuation, 0 Units

Students who do not complete their D.Min. project during the semester they are enrolled in GDMN 790 Ministry Project must enroll for subsequent semesters in this course. Additional fee is required.

GDMN 797, Seminar in Ministry, 4 Units

The course covers topics of pressing concern in Christian ministry, including spiritual formation, pastoral leadership, Church renewal, and practical theology.

GDMN 799, Readings in Doctoral Ministry, 1-4 Units

This is a course of Independent Study supervised by the instructor.

GINS 507, The Bible and Preaching, 4 Units

This course applies the practice of Biblical interpretation to sermon preparation and delivery. As an integrative course, students are supervised in the study of Scripture and the development of effective preaching skills.

Prerequisite: GBBL 511

GINS 526, Ethics and Worship, 4 Units

The liturgical foundations for Christian ethics are covered in this course. The course explores how Christian practices like congregational gathering, prayer, the Lord's Supper, Sabbath, baptism, funerals, marriage, celibacy, fasting, reading of scripture, preaching, and confession form us into a people who can respond to issues such as social justice, poverty, sexuality, violence, and racism.

GINS 542, The Gospels and Christology, 4 Units

This course examines the development of the Gospel traditions and Christological traditions in the early Church, and their significance to Christian beliefs, values, and practices.

Prerequisite: GBBL 511

GINS 599, Readings in Integrative Studies, 1-4 Units

This is a course of Independent Study supervised by the instructor.

GURS 589, Urban Immersion L.A., 1 Unit

Urban Immersion is an experiential and reflective field education encounter that explores a theological perspective amidst the urban realities of Los Angeles. Participants examine the relationship and exchange between social life and faith in urban spaces, and special attention is given to the Kingdom impact on urban migration, marginalization, and adaptation. Students meet at the Los Angeles Regional Site and visit designated locations in the city for their immersion experiences.

GMIN 501, Foundations of Youth Ministry, 4 Units

Students are exposed to selected theologies that provide the underpinnings of various youth ministries. The course includes discussion regarding current adolescent culture and issues and contemporary youth ministry issues. Each student is required to integrate the course content into the various projects assigned, demonstrating a thorough understanding of the course content.

GMIN 502, Discipleship and Evangelism of Youth, 4 Units

This course promotes a biblical theology of discipleship and evangelism and its practical application toward youth ministry. Extensive focus is given to being and making disciples and evangelizing others. Students are required to integrate the course content into the various projects assigned, which shows a depth of understanding of principles taught in the course.

GMIN 503, Multicultural Youth Ministry, 4 Units

This course is a study of contemporary social problems theory with special emphasis on cross-cultural perspectives as found in the urban/multicultural youth environment. Complex issues emerging from multicultural youth perspectives of various ethnicities are explored in the light of contextually relevant church ministry.

GMIN 504, Pastoral Counseling of Youth, 4 Units

This course introduces students to the pastoral counseling field and assists with the development of specific skills and competencies in the counseling process with adolescents and their families. It also builds biblical and theological foundations for pastoral counseling with adolescents and gives students an opportunity to engage in an actual pastoral counseling experience.

GMIN 505, Ministry Life and Leadership, 4 Units

This foundational ministry course equips students for congregational leadership in its many forms. Students analyze approaches to leadership through the lenses of Scripture, theology, the Church, and leadership theory, all while attending to how various cultural contexts shape the ways we engage and apply these ideas. Students are also led into spaces for personal formation, which is essential for Christians to lead well.

GMIN 506, Foundations of Educational Ministries, 4 Units

Students explore the history of Christian education and its influence as a church movement, the philosophy of ministry with emphasis on learning theory, and contemporary trends and their effect on Christian education, formation, and discipleship.

GMIN 508, Servant Leadership and Church Management, 4 Units

This course addresses the pastor's role and calling as leader, particularly the practice of servant leadership and management of staff and volunteers. Consideration of gifting, style, and personal formation will be given in relation to working with boards, teams, and individuals within a church setting. Topics will include vision and implementation, team-building and communication, all within the context of a volunteer based church.

GMIN 509, Urban Sociology and Christian Ministry, 4 Units

This course provides an introduction to sociological and cultural theories of urban areas. In order to understand the pressing cultural and social needs of the city, this course prepares ministry students to approach their urban churches within the broader framework of understanding systemic social pathologies, theories of race and class, and urbanism.

GMIN 510, African American Preaching, 4 Units

Students in this course explore preaching in the African American tradition, with a focus upon biblical interpretation, content development, sermon design, oral presentation, and delivery technique, as well as biblical proclamation as a component of pastoral ministry in the African American Church. Through supervised practice, students discover how they can best engage the listening congregation as preachers of the Word.

GMIN 516, Christian Formation and Discipleship, 4 Units

This course offers a study of foundational principles and models of Christian Formation and Discipleship, with special emphasis on formation into Christlikeness as a primary emphasis for pastoral leadership and teaching. Consideration will be given to the complex dimensions of personal transformation within a community context. Study of the self, the role of grace, spiritual disciplines and the importance of developing a "rule of life" will be key topics.

GMIN 519, Current Issues in Urban Ministry, 4 Units

This course examines the critical issues affecting the quality of life for those living in major urban areas. The course focuses on in-depth examination of the contributions of faith communities to social analysis, public theology, and transformation of community in relation to issues such as homelessness, violence, family dissolution, and gentrification.

GMIN 526, Curriculum and Instruction, 4 Units

Students gain knowledge of recent trends in curricular materials, principles, and methods; the use of the Bible; activities; and objectives of programming in Christian education.

GMIN 528, Contemporary Issues in Ministry, 4 Units

The church and its ministry are studied. The course emphasizes contemporary changes in the church, directions in which the church and ministry are moving, staff relationships, contemporary methods of service, extra-church ministries, and the implications of modern culture on the development of the church's ministry strategy.

GMIN 529, City in Theological Perspective, 4 Units

Students examine theological perceptions of the city, with an emphasis on ministry in and to the polis.

Prerequisite: MINC 346, MINC 487

GMIN 548, Pastoral Counseling and Church Health, 4 Units

The course addresses the pastor's presence, identity, and counseling role and is structured from the perspectives of Christian theology and the behavioral sciences. Consideration is given to such topics as: an integrated view of the care of the soul, family of origin formation, addiction and recovery, family systems theory as applied to the life and health of the local church. The course provides insights, information, and practical applications for effective pastoral health and ministry in today's complex ministry settings.

GMIN 559, Urban Cross-Cultural Ministry, 4 Units

Students learn about particular ethnic groups, with a focus on ministry to each group, the church in changing neighborhoods, and the development of multi-congregational churches.

GMIN 567, Community Retreat, 1 Unit

This course is designed to launch students into their seminary experience through building community with other students and faculty, participating in formational activities, and reflecting on vocation.

GMIN 568, Mentored Ministry: Chaplaincy, 3 Units

This course grants credit to students who complete 400 hours of a Clinical Pastoral Education chaplaincy internship.

GMIN 569, Mentored Ministry, 1 Unit

Mentored ministry is a central piece of the learning experience at Azusa Pacific Seminary, giving students the opportunity to develop as reflective practitioners through experience in a ministry context combined with reflection on how that experience connects with academic studies and personal spiritual formation. Mentored ministry consists of two components: a supervised ministry experience (at least 8 hours per week throughout the course of the term), and regular meetings with a Mentored Ministry Reflection Group, a learning community in which students reflect with each other on ministry situations, join in prayer and other spiritual disciplines, and provide mutual support as they seek to grow together as servants of Christ.

GMIN 570, Directed Research, 1-4 Units

This is a course of independent research directed by the instructor.

GMIN 571, Internship, 3 Units

This course includes a diverse format of classroom experience, field experience and small groups. It further develops a student's ability to blend Christian theology and ministry by utilizing a method of reflecting theologically on the practice of the Christian faith and facilitating the ability to clearly state and defend one's own theology for Christian ministry. Students are required to serve eight hours per week in hands-on field experience.

GMIN 577, Music in the Worshiping Church, 4 Units

This course is a study of congregational song from biblical times to present day, emphasizing the use of corporate song in Christian worship. The course includes a study of the Psalter, hymnody and hymn writers, and a survey of contemporary worship styles including blended, Gen-X, Taize, and multicultural worship.

GMIN 578, Worship Leadership, 4 Units

This course equips the student to become a servant leader. It is a practical class designed to help worship leaders succeed as family members, team players, event coordinators, budget managers, vision casters, congregational guides, and reproducers of other leaders. Discussions are focused on the complex set of challenges that worship leaders typically face.

GMIN 579, Church Music Administration, 4 Units

This course examines the calling and role of the worship leader, care of music participants, and various planning tools. Also included is an introduction to the use of technology and the preparation, direction, rehearsal, arranging and incorporation of various ensembles (praise team, choir, rhythm section, church orchestra) encountered in Church ministries.

GMIN 580, Aesthetics, Arts, and Actions in Corporate Worship, 4 Units

This course helps students develop a philosophy of aesthetics and the arts in corporate worship. An investigation of spirituality in the post-modern world includes suggestions for the inclusion of sacred time, sacred space, drama, dance, sacred action, sign, and symbol in Protestant worship.

GMIN 588, The Missional Church, 4 Units

This course offers an introduction to the missiological insights required to lead the North American church in the post-modern world. These insights reflect the interdisciplinary interaction of theology, anthropology, and missiological strategy for penetrating the culture of the North American 21st century.

GMIN 599, Readings in Ministry, 1-4 Units

This is a course of independent study supervised by the instructor.

GMIN 605, Leadership in Youth Ministry, 4 Units

This course teaches students the roles and responsibilities of Christian leadership in youth ministry. This capstone course includes the meaning of being a Christian leader and organization and administration of youth ministry programs.

GMIN 608, Integrative Ministry Project, 4 Units

This course serves as a capstone for the MAPS degree. It is designed primarily as a practical ministry project with a specialized focus from the student's concentration. This course integrates praxis with disciplines within the degree: biblical studies, theology, and ministry.

GMIN 618, M.Div. Capstone, 4 Units

Students complete a major project that demonstrates skills and knowledge they have attained during seminary in relation to biblical studies, theology, and ministry. The course is taken by students in the last year of their program and includes an oral presentation to a faculty panel.

GMIN 628, Seminar in Ministry, 1-4 Units

The course covers topics that are of pressing concern in ministry, including spirituality, church renewal, and church planting.

GTHE 503, Church History I, 4 Units

The history of Christianity is surveyed from the first century to the Reformation. Consideration is given to major theologians and their works and significant developments in the history of the church. Specifically the course will make use of primary sources to describe the early church, trace theological developments, doctrines and polity. Focus on the varieties of Christian communities of the Early/Medieval period will include the Desert communities of fathers and mothers of the church, women in Late Antiquity, and the medieval church in Italy.

GTHE 505, Christian Ethics, 4 Units

The biblical and theological foundations of historical and contemporary interpretations of Christian ethics are covered, with an analysis of the nature of Christian responsibility in the major areas of social concern.

GTHE 513, Church History II, 4 Units

Major theological movements within the Christian church, from the Reformation to the present, are studied. Consideration is given to major theologians and their works and significant developments in the history of the modern church, including Methodism and the rise of modern science.

GTHE 523, Seminar in Church History, 4 Units

Students explore selected epochs, movements, or issues in the history of the Church. Topics included are the Reformation, the Wesleyan revival, the Great Awakening, and the Church in the urban context.

GTHE 529, The City in Theological Perspective, 4 Units

Students examine theological perceptions of the city, with an emphasis on ministry in and to the polis.

GTHE 534, Interdisciplinary Seminar in Theology, 4 Units

A selected topic in Christian theology, from the perspectives of the Bible, theology, philosophy, sociology, psychology, and communication theory, is studied in a given semester.

GTHE 535, Theology, Work, and Economics, 4 Units

This course will introduce students to the Biblical and historical aspects of work and economics. It will also train students to understand and to create both personal and church budgets.

GTHE 544, The Theology of John Wesley, 4 Units

Highlights of Wesley's life are studied with reference to the development of his theology. Special attention is given to the unique emphases of Wesleyan doctrine.

GTHE 553, Evangelical Friends History: Birth, Growth, and Organization, 4 Units

This course provides a survey of the Friends Church from its origins in the 17th century to the present. The birth, growth, and organization of Quakerism is delineated, along with Quaker distinctives in thought and practice, the role of evangelicalism, reform efforts, church polity, and the ongoing challenges of cultural relativism and relevancy. Special attention is given to the experiences and practices of American Friends in general and of Evangelical Friends in the Southwest in specific.

GTHE 554, Friends Theology, Worship, and Leadership, 4 Units

Students learn about the distinctive theology, worship, and leadership practices of Friends, as compared and contrasted with other Christian groups. The course meets the needs of those in the "recording" process.

GTHE 563, American Church History, 4 Units

This course will present an introduction and study of the major themes, persons and movements within the history of the American church from the Puritan church to the present, and will primarily focus upon Protestant Christianity.

GTHE 564, Contemporary Theology, 4 Units

This course investigates contemporary issues of theology as they emerged within the context of the modern and/or postmodern world. Special emphasis is placed upon the reading of primary texts and upon relating to issues in a way that is responsible to historic Christianity as well as contemporary concerns. Issues include those related to existentialism and such contextualized theologies as liberation, ethnic, and feminist theologies.

GTHE 570, Directed Research, 1-4 Units

This is a course of independent research directed by the instructor.

GTHE 573, History of the Church in Latin America, 4 Units

This course traces the history of the Church in Latin America and its diverse relationships with its religious, economic, political, and cultural surroundings from the Conquest (1492) to the 20th Century.

GTHE 574, Theological Issues in the Hispanic Church, 4 Units

This course examines a variety of theological issues facing the Hispanic church today. It engages the social and cultural contexts in which today's Church serves. It also places these issues in theological context to supply students with practical and applicable strategies for working through these issues in their local communities.

GTHE 584, Christian Theology, 4 Units

This course identifies basic beliefs about God, creation, humanity, Jesus Christ, the Holy Spirit, salvation, and the Church. Specific doctrines of Christian theology are analyzed from the perspective of historical, contextual, and systematic theology, based upon a biblical foundation.

GTHE 590, Thesis, 4 Units

This is a course of independent study in which the student prepares a thesis supervised by the instructor.

GTHE 599, Readings in Church History, Theology, and Ethics, 1-4 Units

This is a course of independent study supervised by the instructor.

GTHE 615, Church and Society, 4 Units

This course deals with the nature and mission of the church and the problems which the church must face in its relationship with society.

GTHE 625, Seminar in Christian Ethics, 4 Units

A selected area in the field of Christian ethics is studied in a given semester. Areas of study include the following: political ethics, social justice, war and peace, economic ethics, the ethics of sex, and medical ethics.

Doctor of Ministry (DMin)

For more information: (626) 815-5447

The Doctor of Ministry (DMin) (<https://www.apu.edu/seminary/programs/dmin/>) is the highest professional degree in the practice of ministry, building on education received through the Master of Divinity and on experience gained in the practice of ministry. Azusa Pacific Seminary's DMin program is available in English, Korean, and Spanish.

Mission Statement

The Doctor of Ministry program focuses on spiritual formation and ministry leadership. Through studies in theology and ministry, students grow personally and spiritually, develop cutting-edge skills and competence in the practice of ministry, and make scholarly contributions to the field of ministry practice.

Admission Requirements

Admission decisions in the Doctor of Ministry program are based initially on three primary criteria: prerequisite theological education, practical ministry leadership experience, and demonstrated academic aptitude for advanced studies at the doctoral level.

Program admission requirements include the following:

1. A completed application for graduate admission (available from the Student Services Center (<https://www.apu.edu/graduateprofessionalcenter/>) or online (<https://www.apu.edu/apply/>)).
2. An MDiv from an ATS-accredited school or its educational equivalent, achieved with a grade-point average of at least 3.0 (on a 4.0 scale) and verified by the submission of an official transcript. (MDiv equivalency is defined as 72 graduate semester hours, or comparable graduate credits in other systems, that represent broad-based work in theology, biblical studies, and the arts of ministry and that include a master's degree and significant ministerial leadership. For more information on equivalency, contact Azusa Pacific Seminary (<https://www.apu.edu/seminary/>)).
3. Transcripts from all institutions leading to, and awarding, the applicant's baccalaureate degree and all postbaccalaureate study.
4. Evidence of active practice in ministry leadership for at least three years after completion of the first theological degree and of current involvement in ministry leadership. This must include a written letter of support for doctoral studies from the applicant's current ministry assignment.
5. A 1,500-word written statement that addresses ministerial and education goals, personal spiritual and leadership journey, and recent theological reading. Contact the office of the Doctor of Ministry program for details on completing this admission requirement.
6. Three letters of reference attesting to the applicant's personal character, academic ability, and ministerial skills. Forms are included with application materials.
7. A current résumé.
8. A personal interview with the program director may be required.
9. Applicants planning to study in English for whom English is a second language must demonstrate language aptitude for advanced studies at the doctoral level by the following minimum international iBT (Internet-based TOEFL) scores:
 - Reading: 25
 - Speaking: 25
 - Writing: 25
 - Listening: 25Students who have completed at least 48 units in an accredited English-speaking program just prior to application may be admitted without the TOEFL.

All materials should be submitted to:

Student Services Center: Admissions

apu.edu/international/enrollment/ (<https://www.apu.edu/international/enrollment/>)

Transfer Credit

Because of the specialized nature of the program, transfer credit must be evaluated by the director of the DMin program. A maximum of 6 semester units of doctoral-level work that have been completed within the past eight years may be allowed as transfer credit.

Full-time Status

Full-time status in the DMin program is 8 units per term. Students who enroll in at least 4 units are considered to be half time.

Advancement to Candidacy

Students will be considered for candidacy for the Doctor of Ministry after successful completion of 16 units of coursework (minimum 3.0 GPA in all coursework with no grade less than *B-*), and a qualifying interview with the DMin director or the DMin committee in which the student satisfactorily demonstrates knowledge and integration of theory and practice in spiritual formation and ministry leadership. Final approval for candidacy is granted by the DMin committee.

Written Project

Students will demonstrate academic and practical learning through completion of a major written project. They will conduct research and develop and write their project in a ministry practice field of interest. Ordinarily the project will be a minimum of 100 pages in length. Complete information on the doctoral project process and standards is available from the office of the DMin director.

Total Units		36

¹ This course is offered at the Apprentice Institute; registration for three credit hours at Azusa Pacific Seminary must be made before starting the course. In order to earn credit, students must be accepted into the APU Doctor of Ministry program before registering for any Apprentice Institute course. Upon satisfactorily completing all course requirements as set forth within the Doctor of Ministry program, student receive 3 units of credit in the spiritual formation emphasis in the Doctor of Ministry degree program.

² Students who do not complete their DMin project during the semester they are enrolled in GDMN 790 must enroll for subsequent semesters in GDMN 792.

Instructional Format

Each course is structured to include several components that incorporate the theoretical, practical, and collegial aspects of the learning experience:

1. **Preliminary reading.** Assigned reading must be completed prior to the classroom experience, fulfilling a requirement of 1,800-2,000 pages of reading for a 3-unit course and 2,400-2,500 pages for a 4-unit course. The reading provides the theoretical basis for the analysis of practical situations in ministry.
2. **Classroom experience (English and Spanish programs).** Classroom experience is in concentrated sessions during two-week residency periods held in the middle of the spring and summer terms. The residency periods involve significant interaction with a faculty instructor in a peer-learning, seminar format. The faculty instructor serves as a facilitator of discussion in a collegial atmosphere, using his or her academic and practical experience to bring in-depth analysis, critical thinking, integration, and application to the topic.
3. **Classroom experience (Korean program).** The Doctor of Ministry Korean program follows APU's academic calendar. Each class meets multiple times during the semester in one-day intensive sessions utilizing lecture and discussion formats. In this way, courses provide opportunity for peer-learning, critical reflection, and application of content over a period of several months.
4. **Grading.** Students must achieve a minimum grade of *B-* in order to receive credit for work in a course. If a student receives a grade of *C+* or lower in a course, the course may be repeated, and the new grade, if higher, will replace the former grade in the computation of the grade-point average.
5. **Course project.** An extensive postclassroom project provides an opportunity to synthesize the reading and the classroom discussions and apply them to a ministerial situation. The results of this reflection are then submitted in the form of a paper with a minimum length of 5,000 words (20 pages).

Time Limit

A maximum of 16 units of coursework may be completed during one calendar year, requiring a minimum of two years for completion of all required coursework. The written doctoral project may be completed in the third year. The minimum time required for completing the program is three years, and the maximum time allowed is eight years from the time of enrollment.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Develop a theology of spirituality by integrating insights from Scripture, theology, and related disciplines in the humanities and behavioral sciences.
2. Evaluate the dynamics of spiritual life in the context of multicultural life and ministry.
3. Synthesize and apply the theories of spiritual formation to personal spiritual growth and the task of ministry through experience-oriented learning strategies, ascertaining how individuals form habits that facilitate spiritual growth.
4. Analyze and critique how the pastor's leadership contributes to spiritual formation in the congregation.
5. Analyze and apply the relationship between personal piety and the promotion of social justice.

MA in Pastoral Studies (MAPS)

For more information: (626) 815-5451

Mission Statement

The Master of Arts in Pastoral Studies (MAPS) (<https://www.apu.edu/seminary/programs/masters-in-pastoral-studies/>) program prepares women and men for a specialized field of church ministry through a program of study comprising 48 units in biblical, theological, and ministerial studies. An important feature of the program is the intentional integration of academic and experiential components.

Exceptions to Admission Requirements

A limited number of applicants who do not have baccalaureate degrees but have extensive ministerial experience may be considered for admission. For a description of the standards governing this exception, contact the Azusa Pacific Seminary associate dean. Students admitted under this exception must obtain a *B* or better in their first 12 units of coursework.

Program of Studies

The Master of Arts in Pastoral Studies requires 48 units of coursework: 28 units of core courses, 12 units in a selected ministry concentration, 3 units of Mentored Ministry, 1 unit for the Community Retreat, and 4 units of a Capstone Project. Most students concentrate in one area of ministry: church leadership and development, urban studies, or youth ministry. Instead of choosing one of these concentrations, some students use their 12 units of general electives to develop their own areas of interest.

Requirements for the MA in Pastoral Studies, Church Leadership and Development Concentration

Today's hurried, fragmented society calls for healthy, effective ministry leaders. This concentration provides students with education in practical ministry, with particular focus on leadership development and spiritual formation, equipping ministers for the broad, multifaceted needs of the contemporary Church. Concentration outcomes build on the Azusa Pacific Seminary core competencies and MAPS program outcomes.

Concentration Outcomes

- Synthesize the vital role of healthy church management for the empowerment of the laity.
- Develop vocational proficiency and leadership ability.
- Apply ministry principles of Christ-like formation for lifelong ministry effectiveness and personal growth.

Requirements for the MA in Pastoral Studies, Urban Studies Concentration

The North American Church is becoming increasingly urbanized. To prepare students for ministry in the city, this concentration engages them with urban social structures, trends, and ministry strategies. Issues of contextualization, social analysis, and cross-cultural communication will be addressed.

Concentration Outcomes

- Evaluate and apply ministry concepts, theories, and methodologies found in the urban setting.
- Develop cultural awareness and sensitivity for ministry in the urban context.
- Analyze the methods of evangelism and discipleship unique to the city.

Requirements for the MA in Pastoral Studies, Youth Ministry Concentration

Youth ministry in the 21st century must be rooted in scriptural principles and able to address the challenges facing youth in today's complex culture. This concentration is desirable for leaders in youth ministry not seeking ordination.

Concentration Outcomes

- To think theologically and biblically about the nature of youth in relationship to church and family.
- To comprehend youth issues that are impacting the home, church, and community.
- To build healthy intergenerational relationships within the church.

Additional Degree Requirements

Supervised Ministry

All students should devote at least eight hours per week, for the duration of the program, to the practice of some form of supervised ministry in an approved church or parachurch field center. In order to graduate, students must maintain at least a 2.7 grade-point average.

Time Limit

The program must be completed within 10 years from the date of admission. APU coursework completed more than 10 years prior to completion of degree requirements is not acceptable toward the degree.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Model a holy life through spiritual disciplines reflecting a Wesleyan heritage of faith and love.
2. Interpret Scripture with reverent criticism, theological insight, and constructive imagination, beginning with the inductive method of Bible study, for the edification of the Church.
3. Think theologically through the Wesleyan quadrilateral (Scripture, Church tradition, reason, and experience) in a manner that is faithful to the past and responsive to the present.
4. Develop competence in the pastoral responsibilities of teaching, leadership, and pastoral care.
5. Analyze various cultural constructs and global issues in order to provide transformational leadership for the church.
6. Develop competency in design, application, and evaluation of a specialized ministry.

Master of Divinity (MDiv)

For more information: (626) 815-6000, Ext. 5451

The Master of Divinity (MDiv) program (<https://www.apu.edu/seminary/programs/mdiv/>) prepares women and men for professional ministry in the Church. Azusa Pacific Seminary faculty bring to the program a unique combination of the highest academic credentials and extensive ministerial experience.

Mission Statement

The Master of Divinity program prepares men and women for vocational ministry in the Church through a course of study comprising 74 units in theological, biblical, and ministerial studies. An important feature of the program is an intentional integration of academic and experiential components—students must engage in some form of supervised ministry during their degree program. An optional biblical studies emphasis serves students preparing for postgraduate work in biblical studies for careers teaching in colleges, universities, or seminaries through additional coursework in biblical languages and biblical studies.

Exceptions to Admission Requirements

A limited number of applicants who do not have baccalaureate degrees but have extensive ministerial experience may be considered for admission. For a description of the standards governing this exception, contact the Azusa Pacific Seminary associate dean. Students admitted under this exception must obtain a *B* or better in their first 12 units of coursework.

Requirements

The Master of Divinity program requires 74 units of coursework comprising 12 units of biblical studies, 12 units of theological studies, 12 units of ministry studies, 12 units in integrative core, 5 units in mentored ministry, 1 unit in intercultural experience, 4 units of a biblical language (which may be waived for students who have completed a year of undergraduate Hebrew or Greek), 12 units of electives, and a 4-unit capstone course.

GBBL 661	Women in the Bible and Church History

Total Units**74**

- ¹ Students who have completed one year of undergraduate Hebrew or Greek with a grade of *B* or better may waive this requirement.
- ² GBBL 511 is a prerequisite to all GBBL courses, GINS 507, and GINS 542.
- ³ Repeated for a total of 4 units.
- ⁴ A second biblical language can also be used to fulfill the biblical studies emphasis.

Time Limit

The Master of Divinity with an emphasis in Biblical Studies program (<https://www.apu.edu/seminary/programs/mdiv/>) must be completed within 10 years from the date of admission. APU coursework completed more than 10 years prior to completion of degree requirements is not acceptable toward the degree.

Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 1092)). **Program-specific application requirements are available online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).**

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Model a holy life through spiritual disciplines reflecting a Wesleyan heritage of faith and love.
2. Interpret Scripture with reverent criticism, theological insight, and constructive imagination, beginning with the inductive method of Bible study, for the edification of the Church.
3. Think theologically through the Wesleyan quadrilateral (Scripture, Church tradition, reason, and experience) in a manner that is faithful to the past and responsive to the present.
4. Develop competency in the pastoral responsibilities of preaching, teaching, leadership, and pastoral care.
5. Analyze various cultural constructs and global issues in order to provide transforming leadership for the Church.

Division of Religion and Philosophy

About the Division

The programs available in the undergraduate division's four departments offer courses of study that encourage the search for truth about God, human existence in relationship to God, and the world as God's creation. Students are guided in this search through an analysis of the Christian Scriptures, historical and contemporary statements of Christian belief, human experience of God and the world, and rational reflections on the nature of reality by great thinkers past and present. The goal of this study is to prepare men and women for service to God, as either lay or professional ministers in His Kingdom. Academic study is therefore balanced with a concern for individual involvement in practical ministry.

The departments offer majors in biblical studies (p. 1026), Christian ministries (p. 1048), philosophy (p. 1037), theology (p. 1058), and youth and family ministries (p. 1049); minors in ancient languages (p. 1029), biblical studies (p. 1030), Christian ministries (p. 1051), cultural engagement (p. 1052), philosophical apologetics (p. 1039), philosophy (p. 1040), practical and professional ethics (p. 1040), religious studies (p. 1031), theology (p. 1061), and youth and family ministries (p. 1053); and Certificates of Distinction in biblical studies (p. 1029), philosophy (p. 1038), and theology (p. 1060).

Each major course of study builds on the General Education program's Biblical, Theological, and Philosophical Formation requirement. Transfer students take the number of units required by the registrar. Courses are selected from the list of core courses for General Education in consultation with a department advisor. All majors in the undergraduate division must maintain a minimum 2.5 cumulative grade-point average in all courses for the major.

In general, correspondence courses are not accepted as fulfillment of religion or philosophy requirements. A student may, however, petition to have 3 correspondence units count toward his/her major or minor upon department approval. The course(s) must match existing courses, and the student may be asked to pass an exam. Double majors require 24 units that are distinctive to one major; 18 units must be upper division.

General Education

Biblical, Theological, and Philosophical Formation

Required Courses for All Majors in the Division of Religion and Philosophy

Code	Title	Units
MIN 108	Christian Life, Faith, and Ministry	3
UBBL 100	Introduction to Biblical Literature: Exodus/Deuteronomy	3
UBBL 230	Luke/Acts	3
UBBL 3XX	Any UBBL General Education Bible course	3
Select one of the following: ¹		3
THEO 200	Theology and the Christian Life ²	
THEO 301	Faith and the Arts	
THEO 352	Church History: Apostolic Era to the Eve of the Reformation	
THEO 354	Church History from the Eve of the Reformation to the Present	
Select one of the following:		3
HUM 224	Core Texts in Philosophy	
PHIL 100	Introduction to Philosophy	
Total Units		18

¹ For the General Education Theology requirement, the School of Theology recommends either THEO 200, THEO 301, THEO 352, or THEO 354. HUM 325 also fulfills the requirement.

² THEO 200 is required of all Christian ministries and youth and family ministries majors.

Major	Sr. Seminar Requirement
Biblical Studies	UBBL 496, THEO 496, or MIN 496
Theology	THEO 496
Philosophy	PHIL 496 or THEO 496
Christian Ministries/Youth and Family Ministries: Church and Pastoral Ministries Practices concentration	MIN 496, THEO 496, or UBBL 496
Christian Ministries/Youth and Family Ministries: Intercultural Christian Ministries concentration	MIN 496, THEO 496, or UBBL 496

Christian Ministries/Youth and Family Ministries: Ministry in Urban and Social Service Contexts concentration

MIN 496, THEO 496, or UBBL 496

Students transferring into the university may waive some of the General Education Biblical, Theological, and Philosophical Formation requirements for the major as follows: sophomore standing, 3 units; junior standing, 9 units; and senior standing, 12 units. The specific courses waived are selected in consultation with a department faculty advisor.

Department of Biblical and Religious Studies

The Department of Biblical and Religious Studies (<https://www.apu.edu/theology/biblical/>) offers undergraduate students a Bachelor of Arts in Biblical Studies (p. 1026) (with concentrations in biblical archaeology and biblical hermeneutics); minors in ancient languages (p. 1029), biblical studies (p. 1030), and religious studies (p. 1031); and courses in biblical and religious studies in support of the General Education program, preparing men and women for ministry, graduate programs, and various public- and private-sector vocations. The emphasis for biblical studies majors is on training them in an informed interpretation of the Christian Scriptures and integrating their understanding of the Bible with their responses to God, neighbor, and self, as well as with just responses to human need.

Programs

Major

- Biblical Studies (BA) (p. 1026)
 - Biblical Archaeology
 - Biblical Hermeneutics

Minors

- Ancient Languages (p. 1029)
- Biblical Studies (p. 1030)
- Religious Studies (p. 1031)

Certificate of Distinction

- Biblical Studies (p. 1029)

Courses

UBBL 100, Introduction to Biblical Literature: Exodus/Deuteronomy, 3 Units

This course introduces Old Testament biblical literature, hermeneutics, and literary critical methodologies with a primary focus on the books of Exodus and Deuteronomy. Students learn to observe the overall structure of these books, their historical settings, and modern approaches to their literary analysis. Students learn to interpret individual texts within each book. Students study how Deuteronomy uses the material of Exodus to communicate God's Word to a new generation. *Meets the General Education Requirement: Exodus/Deuteronomy.*

Prerequisite: MIN 108 (may be taken concurrently)

UBBL 230, Luke/Acts, 3 Units

This course introduces New Testament biblical literature, hermeneutics, and literary critical methodologies with a primary focus on the Gospel of Luke and the Acts of the Apostles. Special attention is given to the texts with regard to their political, cultural, religious, and geographical settings; the literary structures and genres employed; and how these texts are relevant for faithful Christian living. *Meets the General Education Requirement: Luke/Acts.*

Prerequisite: UBBL 100 or department consent

UBBL 235, Luke/Acts through a Latinx Lens, 3 Units

This course introduces New Testament biblical literature, hermeneutics, and literary critical methodologies, with a primary focus on the Gospel of Luke and the Acts of the Apostles, and the primary interpretive lens being that of the Latinx communities in the U.S. Special attention is given to the meaning of the texts with regard to ancient and contemporary political, cultural, religious, and geographical settings; the literary structures and genres employed; and how these texts are relevant for faithful Christian living within a Latinx context. There is also an academic service-learning component. *Meets the General Education Requirement: Luke/Acts.*

Prerequisite: UBBL 100 or department consent

UBBL 310, The Rise of the King: I and II Samuel, 3 Units

Students study I and II Samuel, giving special attention to the text with regard to its purpose, theological message, politics, culture, religions, geographical setting, and literary genre. This course may also include brief surveys of Joshua and Judges as they relate to the rise of the monarchy in Israel. *Meets the General Education Requirement: Upper Division Bible.*

Prerequisite: UBBL 100 and UBBL 230 or HON 240, or instructor consent.

UBBL 311, Old Testament Prophets, 3 Units

This course offers a critical and exegetical study of several selected minor prophets and at least one major prophet (Isaiah, Jeremiah, or Ezekiel). Special consideration is given to their ministry and message in light of the social, political, and religious conditions of their times, as well as the continuing relevance of the prophetic message for our day. *Meets the General Education Requirement: Upper Division Bible.*

Prerequisite: UBBL 100; UBBL 230 or HON 240; or instructor consent.

UBBL 317, Ruth and Esther, 3 Units

This course offers an informed and exegetical study of the books of Ruth and Esther with special consideration to their geographical, political, cultural, religious, and literary dimensions. Additionally, attention is given to the various ways in which Ruth and Esther have been used as resources for contemporary communities of faith. *Meets the General Education Requirement: Upper Division Bible.*

Prerequisite: UBBL 100; UBBL 230 or HON 240

UBBL 320, Psalms and Wisdom, 3 Units

Students undertake an advanced study of poetry and wisdom literature in the Hebrew Bible. Attention is given to the development of the literature as well as an investigation of each book's composition. *Meets the General Education Requirement: Upper Division Bible.*

Prerequisite: UBBL 100; UBBL 230 or HON 240; or instructor consent.

UBBL 330, Life and Teachings of Jesus, 3 Units

The life, ministry, and teachings of Jesus Christ are the focus of this course. Special attention is given to the content of the Synoptic Gospels as well as the social, political, and religious conditions of the time. *Meets the General Education Requirement: Upper Division Bible.*

Prerequisite: UBBL 100; UBBL 230 or HON 240; or instructor consent.

UBBL 331, The Gospel and Letters of John, 3 Units

This course focuses on literary and theological themes in the Gospel and three letters written by the Apostle John. Students gain understanding of why the Gospel and letters of John are important for them. *Meets the General Education Requirement: Upper Division Bible.*

Prerequisite: UBBL 230 or HON 240

UBBL 340, Romans and Galatians, 3 Units

This course provides an analytical, exegetical, and expositional study of the biblical texts of Romans and Galatians. Special attention is given to the nature of Paul's ministry, the theological, social, and practical issues he addressed, and how these texts are relevant for faithful Christian living. *Meets the General Education Requirement: Upper Division Bible.*

Prerequisite: UBBL 100; UBBL 230 or HON 240; or instructor consent.

UBBL 341, Thessalonian and Corinthian Epistles, 3 Units

Paul's letters to the churches at Thessalonica and Corinth are studied, with attention given to the nature of Paul's ministry and the doctrinal and practical issues he addresses. *Meets the General Education Requirement: Upper Division Bible.*

Prerequisite: UBBL 100; UBBL 230 or HON 240; or instructor consent.

UBBL 350, Biblical Lands and Cultures, 3 Units

This comprehensive course of study emphasizes the geography, history, and archaeology of Israel and its neighbors in biblical and postbiblical times. Students will also be introduced to the complex social, political, and religious issues facing the Middle East today. The course will be taught as a semester class on the Azusa campus or in conjunction with a tour of the Bible lands. *Meets the General Education Requirement: Upper Division Bible, Intercultural Competence.*

UBBL 351, Near Eastern Archaeology, 3 Units

The history and material culture of the Levant are surveyed from prehistoric times through the Iron Age, with particular emphasis on the contributions of ancient Israel to the development of culture. Attention is also given to the nature, goals, and methods of scholarly inquiry and interpretation.

Prerequisite: UBBL 100 and UBBL 230 or instructor consent.

UBBL 352, Archaeological Field Excavation, 3 Units

An introduction to the theory and practice of archaeological excavation as carried out in Israel and other parts of the Middle East. The student will be trained in the methods of survey, field excavation, recording, and pottery analysis. The student will also learn how to intelligently assess and explain the results of Near Eastern Archaeology as it relates to the Bible.

Prerequisite: Completion of a 300-level General Education Bible requirement or department consent

UBBL 442, Prison and Pastoral Epistles, 3 Units

This course is a study of Pauline theology as revealed in these two groups of letters. Special attention is given to Pauline Christology and ecclesiology and their practical relevance for the contemporary Church.

Prerequisite: One 300-level New Testament Course: UBBL 330, UBBL 340, UBBL 341, UBBL 343, or department consent

UBBL 450, Old Testament World, 3 Units

This course examines the history, religion, and culture of ancient Israel within the broader context of the Ancient Near East from the beginnings of civilization through Alexander the Great. Special attention is given to the political, cultural, and religious systems of Egypt, Mesopotamia, Anatolia, and the Eastern Mediterranean world, and their contributions to present-day culture.

Prerequisite: Completion of a 300-level Old Testament course, or department approval.

UBBL 451, New Testament World, 3 Units

The social, political, religious, philosophical, ideological, and literary environment of the Greco-Roman world is studied as the cultural context of Second Temple Judaism, early Christianity, and their literature.

Prerequisite: UBBL 230 and one UBBL 300 level course

UBBL 472, Biblical Apocalyptic, 3 Units

Students learn about the rise and development of the apocalyptic literature found in the collections of the Old Testament, Pseudepigrapha, Apocrypha, and New Testament. Special attention is given to Daniel, Matthew 24-25, 1 and 2 Thessalonians, and Revelation and how those texts are relevant for faithful Christian living.

Prerequisite: One 300-level New Testament Course: UBBL 330, UBBL 340, UBBL 341, UBBL 343, or department consent

UBBL 476, Writing 3: Women in the Biblical Tradition, 3 Units

This course enables students to participate in the discourse community of their major by assessing the rhetorical situations they will encounter when they enter their academic field or profession. Students also create documents in at least two genres, implementing the techniques they have developed in Writing 1 & 2. The writing component will complement an introduction to the students to how women are depicted in biblical tradition. It includes careful reading of narratives about women in the Bible, both Old and New Testaments, as well as the reception of and expansion on those narratives in early Church tradition. Furthermore, the student explores the way contemporary readers/hearers encounter these texts in light of their own cultural location and faith perspectives. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

Prerequisite: Completion of GE Writing 2 requirements and 100-, 200-, and 300-level General Education UBBL requirements.

UBBL 481, History of Biblical Interpretation, 3 Units

This is an upper-division humanities course that introduces the student to the rich history of the interpretation of biblical writings. The focus rests on the ways in which the various faith communities, Jewish as well as Christian, received the writings, rendered them comprehensible and relevant to contemporary concerns, and passed them on to subsequent generations. The chronological range covered by this course begins during the biblical period itself and extends to the present day.

Prerequisite: Completion of a 300-level UBBL course.

UBBL 482, Global Biblical Interpretation, 3 Units

This course examines how Christians in the non-Western world have received the Bible and have made it meaningful to their own cultural concerns. Students examine alternate approaches to the science and art of biblical interpretation, approaching non-Western interpretation of the Bible from theoretical, sociological, literary-critical, theological, and practical perspectives. *Meets the General Education Requirement: Intercultural Competence.*

Prerequisite: UBBL 100, UBBL 230, and one 300-level UBBL course or department consent.

UBBL 483, Postcolonial Biblical Interpretation, 3 Units

This course examines the modern history of biblical interpretation, giving special attention to the development of postcolonial biblical criticism, an innovative approach to reading sacred texts that draws from the life experiences of those who have suffered from colonial and imperial oppression. Students examine the various themes of postcolonial theory in order to assess its strengths and consider its blind spots. Students also learn to apply its various principles to the exegesis of biblical texts.

Prerequisite: Completion of a 300-level UBBL course.

UBBL 493, Biblical Studies Capstone Course: Old Testament Theology, 3 Units

This course provides opportunities to develop skills for engaging basic issues concerning theology in the Old Testament as Christian Scripture. Subjects include the relationship between God and the world, knowledge of God, the sovereignty of God, the holiness of God, the justice and mercy of God, and the people of God. Writing assignments are built on exegetical skills cultivated in other UBBL coursework and provide a platform for mastering principled research methods, textual and hermeneutical analysis, and critical evaluation of ancient and modern theological discourse. To meet the biblical studies capstone requirement for majors, this course or UBBL 494 may be taken.

Prerequisite: Senior standing, at least one 300-level Old Testament course, Writing 3, or department consent.

UBBL 494, Biblical Studies Capstone Course: New Testament Theology, 3 Units

Students in this course explore major New Testament themes and how they relate theologically. The course offers a comparative study of New Testament writers (Matthew, Mark, Luke, John, Paul, the author of Hebrews, and others), with focus upon what they disclose about God, Jesus Christ, the Holy Spirit, the Church, sin, salvation, the coming Kingdom, and other subjects. As a capstone course, attention is given to methodology, biblical literacy, informed thinking, and faith integration. To meet the biblical studies capstone requirement for majors, either this course or UBBL 493 may be taken.

Prerequisite: Senior standing, at least one 300-level New Testament course, Writing 3, or department consent.

UBBL 495, Special Topics in Biblical Studies, 3 Units

This course explores topics in Biblical Studies not covered in-depth by regular department offerings.

Prerequisite: One upper-division UBBL course

UBBL 496, Senior Seminar: Biblical Theology and Ethics, 3 Units

This senior seminar examines an important theological and ethical issue facing Christians today. This course explains selected methods and content from the fields of biblical theology and biblical ethics and prepares students to articulate various ways in which the Christian faith can be lived out in the contemporary world. The seminar format includes an oral presentation and a thesis. *Meets the General Education Requirement: Integrative and Applied Learning.*

Prerequisite: Senior standing; Completion of a 100, 200, and 300 level UBBL General Education course; One General Education Theology course; and Writing 3.

UBBL 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed by, a student of upper-division standing and an approved professor. This course may be repeated for credit. An independent study fee is assessed for each enrollment in this class.

UBBL 498, Directed Research, 1-4 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The 1-unit expectation encompasses no less than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.

Prerequisite: Junior or Senior Standing

PRBL 100, Introduction to Biblical Literature: Exodus/Deuteronomy, 3 Units

This course introduces Old Testament biblical literature, hermeneutics, and literary critical methodologies with a primary focus on the books of Exodus and Deuteronomy. Students learn to observe the overall structure of these books, their historical settings, and modern approaches to their literary analysis. Students learn to interpret individual texts within each book. Students study how Deuteronomy uses the material of Exodus to communicate God's Word to a new generation. *Meets the General Education Requirement: Exodus/Deuteronomy.*

PRBL 230, Luke/Acts, 3 Units

This course introduces New Testament biblical literature, hermeneutics, and literary critical methodologies with a primary focus on the Gospel of Luke and Acts of the Apostles. Special attention is given to the text with regard to their political, cultural, religious, and geographical setting; the literary structures and genres employed; and how those texts are relevant for faithful Christian living. *Meets the General Education Requirement: Luke/Acts.*

PRRS 200, World Religions, 3 Units

This course offers a study of global religious traditions in their cultural and historical contexts. Students critically examine various definitions and methodologies of global religious studies from the perspectives of confessing Christians. Traditions examined include Hinduism, Primal Religions, Buddhism, Confucianism, Taoism, Islam, Judaism, and Christianity. *Meets the General Education Requirement: World Religions.*

RELG 200, World Religions, 3 Units

This course covers global religious traditions in their cultural and historical contexts. Students critically examine various definitions and methodologies of global religious traditions from the perspectives of confessing Christians. Traditions examined include Hinduism, primal religions, Buddhism, Confucianism, Taoism, Islam, Judaism, and Christianity. *Meets the General Education Requirement: Intercultural Competence.*

RELG 350, Judaism: A Story of Hope, 3 Units

This course introduces the texts, traditions, and practices of Judaism as they have developed over the centuries. Students are exposed to the literature of classical Judaism, including the Hebrew Bible, the Mishnah, the Midrash, and the Talmud. These texts are read in conjunction with a study of the historical, sociological, and phenomenological environments in which they developed and which mediated them from one generation to the next. Course material includes a study of how Judaism has responded to the changes wrought by modernity and the creation of the state of Israel. *Meets the General Education Requirement: Intercultural Competence.*

RELG 351, Islam: The Way of Submission, 3 Units

This course introduces the texts, traditions, and practices of Islam as they have developed over the centuries. Course material focuses on rituals, ethics, and practices of Islam, along with discussion of Islam's holiest text, the Qur'an, and also includes study of the historical, sociological, and phenomenological environments in which these elements developed and which mediated them from one generation to the next. Students also explore how the various forms of Islam have responded to the changes wrought by the modern world. *Meets the General Education Requirement: Intercultural Competence.*

RELG 352, Hinduism: Karma, Dharma, and Yoga, 3 Units

Students in this course explore the major indigenous religions of South Asia-with particular emphasis on shared concepts such as karma, the practices of yoga, and the attainment of dharma-in order to equip Christians for global Christian praxis and interreligious theological and philosophical dialogue. Course material traces the evolution of Indian religion from its roots in the Vedas and the Upanishads through the development of Jainism, Hinduism, and Sikhism, and concludes with an examination of "inclusivist" and "exclusivist" approaches to religious pluralism in contemporary Indian thought. *Meets the General Education Requirement: Intercultural Competence.*

RELG 353, East Asian Religions and Mindfulness, 3 Units

Students in this course examine East Asian (or Taoist) religions including Mayahana or Ch'an Buddhism, Confucianism, and Taoism-with minor emphasis on Chinese folk religions and Shinto in their Chinese, Korean, and Japanese contexts, and on Vietnamese perspectives-in order to equip Christians for global Christian praxis and interreligious theological and philosophical dialogue. *Meets the General Education Requirement: Intercultural Competence.*

RELG 395, Special Topics in Religious Studies, 3 Units

Students in this course explore selected topics, themes, or historical developments that are significant for the field of religious studies. Repeatable for credit. *Meets the General Education Requirement: Intercultural Competence.*

ALNG 456, Ancient Languages, 1-4 Units

This course is offered according to the needs of the student. It provides opportunity to learn basic grammar and vocabulary in Arabic, Akkadian, Aramaic, Coptic, Latin, Ugaritic, or other ancient languages relevant to the study of biblical history and literature. May be repeated for advanced language study or learning an additional language.

Prerequisite: GRKB 201 and/or HEBB 201 or instructor consent

GRKB 200, Elementary Greek I, 3 Units

The elements of New Testament Greek, with emphasis on the mastery of the basic forms, syntax, and vocabulary, are covered in this two-part beginning course. Classes meet three hours weekly. Two semesters of the same language are required to meet the General Education requirement. *Meets the General Education Requirement: Foreign Language.*

GRKB 201, Elementary Greek II, 3 Units

The elements of New Testament Greek, with emphasis on the mastery of the basic forms, syntax, and vocabulary, are covered in this two-part beginning course. Classes meet three hours weekly. Two semesters of the same language are required to meet the General Education requirement. *Meets the General Education Requirement: Foreign Language.*

Prerequisite: GRKB 200 or instructor consent

GRKB 300, Intermediate Greek I, 3 Units

This course consists of continued study of the forms, syntax, and vocabulary of New Testament Greek with an introduction to exegesis of the Greek New Testament.

Prerequisite: GRKB 201

GRKB 301, Intermediate Greek II, 3 Units

Students undertake reading and exegesis of various passages in the New Testament.

Prerequisite: GRKB 300

GRKB 454, Greek Readings, 1-4 Units

This course requires directed reading in the Greek New Testament. It is offered according to the needs of the student. It can be repeated for credit, thus providing fifth and sixth semesters of Greek.

Prerequisite: GRKB 301, or completion of two years of biblical Greek at another institution or instructor consent

GRKC 200, Elementary Classical Greek I, 4 Units

Lecture 3 Hours; Discussion 1 Hour: Elementary Classical Greek is for students with little or no background in Classical Greek. The elements of classical Greek, with emphasis on the mastery of the basic forms, syntax, and vocabulary, are covered in this two-part beginning course. Two semesters of the same language are required to meet the General Education requirement. No previous knowledge of Classical Greek is assumed. *Meets the General Education Requirement: Foreign Language.*

GRKC 201, Elementary Classical Greek II, 4 Units

Lecture 3 Hours; Discussion 1 Hour: This is the second semester of a two semester, introductory course in Classical Greek language as well as classical Greek culture. The course is designed for students with little or no background in Classical Greek. The elements of Classical Greek, with emphasis upon the mastery of the basic forms, syntax, and vocabulary are covered in this two-part beginning course. Two semesters of the same language are required to meet the General Education requirement. *Meets the General Education Requirement: Foreign Language.*

Prerequisite: GRKC 200

HEBB 200, Elementary Hebrew I, 3 Units

The basic grammar and syntax of Hebrew are taught. The course aims to provide a reading knowledge of biblical Hebrew prose and an acquaintance with basic conversational, modern Hebrew. Classes meet three hours weekly. Two semesters of the same language are required to meet the General Education requirement. *Meets the General Education Requirement: Foreign Language.*

HEBB 201, Elementary Hebrew II, 3 Units

The basic grammar and syntax of Hebrew are taught. Using selected readings from the Hebrew Bible, the course provides a reading knowledge of biblical Hebrew prose and an acquaintance with basic conversational, modern Hebrew. Classes meet three hours weekly. Two semesters of the same language are required to meet the General Education requirement. *Meets the General Education Requirement: Foreign Language.*

Prerequisite: HEBB 200 or instructor consent

HEBB 300, Intermediate Hebrew I, 3 Units

This course consists of continued study of the morphology, syntax, and vocabulary of biblical Hebrew with opportunities for reading and exegesis of various genres of the Hebrew Bible. This course counts toward a minor in Ancient Languages.

Prerequisite: HEBB 201

HEBB 301, Intermediate Hebrew II, 3 Units

This course consists of reading and exegesis of the Hebrew Bible with a particular emphasis on Hebrew in relation to other Semitic languages. Readings of nonbiblical Hebrew and Aramaic material expose students to the development of Hebrew throughout history. This course counts toward a minor in Ancient Languages.

Prerequisite: HEBB 300

HEBB 455, Hebrew Readings, 3 Units

This course consists of directed reading in the Hebrew Bible and is offered according to the needs of the student. It can be repeated for credit, thus providing fifth and sixth semesters of Hebrew. This course counts toward a minor in Ancient Languages.

Prerequisite: HEBB 301 or completion of two years of biblical Hebrew at another institution or instructor consent

LTN 200, Elementary Latin I, 4 Units

Lecture 3 Hours; Discussion 1 Hour: Elementary Latin is for students with little or no background in Classical Latin. The elements of classical Latin, with emphasis on the mastery of the basic forms, syntax, and vocabulary are covered in this two-part beginning course. Two semesters of the same language are required to meet the General Education requirement. No previous knowledge of Latin is assumed. *Meets the General Education Requirement: Foreign Language.*

LTN 201, Elementary Latin II, 4 Units

Lecture 3 Hours; Discussion 1 Hour: As the sequel of Elementary Latin I, Elementary Latin II is accessible to students who have taken Elementary Latin I. The elements of classical Latin, with emphasis upon the mastery of the basic verb systems (the five declensions and four conjugations), forms, syntax, vocabulary, and techniques in reading and translating simple Latin prose are covered in this two-part beginning course. Two semesters of the same language are required to meet the General Education requirement. *Meets the General Education Requirement: Foreign Language.*

Prerequisite: LTN 200

BA in Biblical Studies

42 units

The biblical studies major (<https://www.apu.edu/theology/programs/biblical-studies-major/>) combines a broad background in philosophy, Christian theology, and ministry with a solid foundation in the Bible. Graduates are furnished with a biblical basis for Christian ministry and evangelism and are prepared for graduate study in the Bible and Christian theology.

Career Opportunities

This major provides students with tools for continued education at a seminary or university. Graduates have also assumed positions in churches and Christian organizations where knowledge and understanding of the Scriptures are essential.

Requirements

Core requirements for the biblical studies major may double-count with course requirements for the biblical hermeneutics and/or biblical archaeology concentration. A minimum 2.5 cumulative GPA is required in all courses for the major.

THEO/UBBL Double Major Guidelines

Should a student choose to double major in theology and biblical studies, he/she must take 3 additional upper-division courses in **a single discipline** of either THEO or UBBL (THEO 4XX or UBBL 3XX/4XX) to meet the guidelines for double majors (p. 1190).

NOTE: Major courses cannot be double-counted for the major and the minor. Also, only one correspondence course may be counted toward the major or minor and only with permission from the department.

Code	Title	Units
Required Courses		
UBBL 230	Luke/Acts ¹	3
UBBL 476	Writing 3: Women in the Biblical Tradition ²	3
UBBL 496	Senior Seminar: Biblical Theology and Ethics ³	3

UBBL 494	Biblical Studies Capstone Course: New Testament Theology (If not taken above)	
UBBL 497	Readings	
UBBL 498	Directed Research	
Students may substitute one of the ancient languages or biblical studies electives above with one of the following religious studies courses		
RELG 350	Judaism: A Story of Hope ⁴	
RELG 351	Islam: The Way of Submission ⁴	
RELG 352	Hinduism: Karma, Dharma, and Yoga ⁴	
RELG 353	East Asian Religions and Mindfulness ⁴	

Total Units**42**

¹ Meets the General Education Luke/Acts requirement.

² Meets the General Education Writing 3 requirement.

³ Meets the General Education Integrative and Applied Learning requirement.

⁴ Meets the General Education Intercultural Competence requirement.

⁵ Meets the General Education Intercultural Competence **or** Upper Division Bible requirement.

⁶ Meets the General Education Theology requirement.

⁷ Meets the General Education Philosophy requirement.

⁸ Meets the General Education Upper Division Bible requirement.

Optional Concentrations

Biblical Hermeneutics

This concentration equips students to understand and engage in the perspectival nature of all biblical interpretation, helping them better prepare for ministry and/or graduate schools that recognize the importance of diversity.

Code	Title	Units
Core 1 Requirements		9
UBBL 482	Global Biblical Interpretation ¹	
UBBL 481	History of Biblical Interpretation	
UBBL 483	Postcolonial Biblical Interpretation	
Core 2 Requirements (Choose One)		3
UBBL 476	Writing 3: Women in the Biblical Tradition ²	
THEO 428	Global Christianity ³	
THEO 480	Theology from the Margins ¹	
MINC 420	Suffering: Theological and Practical Perspectives on Disabilities	
Total Units		12

¹ Meets the General Education Intercultural Competence requirement.

² Meets the General Education Writing 3 requirement.

³ Meets the General Education Writing 3 **or** Intercultural Competence requirement.

Biblical Archaeology

The biblical archaeology concentration develops analytical, reflective, and expressive skills in the study of the Bible in its historical, geographical, and cultural contexts. Participants are trained in the use of interdisciplinary methods to perform a thoughtful examination of the history of the Bible in light of Scripture, reason, and tradition. Students who complete the biblical archaeology concentration are well equipped for graduate study in Bible, biblical archaeology, ancient Near Eastern history, history of Israelite religion, and biblical history.

Students must take four courses to fulfill the requirements of the concentration, though it should be emphasized that these courses are not limited to students in the concentration. Two courses (6 units) are offered on the Azusa campus, while the latter two (6 units) are completed in Israel. The Israel component allows students to complete 6 of the required 12 units in one summer.

Code	Title	Units
Core Requirements		9
UBBL 350	Biblical Lands and Cultures ^{1, 2}	
UBBL 351	Near Eastern Archaeology ³	
UBBL 352	Archaeological Field Excavation ^{1, 3}	
Elective Course (Choose One)		3
UBBL 450	Old Testament World	
UBBL 451	New Testament World	
Total Units		12

¹ Completed in Israel (4 weeks).

² Meets the General Education Upper-Division Bible **or** Intercultural Competence requirement.

³ Does **not** meet the General Education Upper-Division Bible requirement.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Explain current methodological approaches used to study the Christian Scriptures.
2. Explain how history and culture influence the interpretation of the Christian Scriptures.
3. Write an acceptable Biblical Studies research paper or prepare an equivalent project.

4. Articulate how scripture, tradition, experience, and reason shape our Christian worldview.
5. Articulate biblically responsible perspectives on gender, race, and ethnic and cultural diversity.

Certificate of Distinction in Biblical Studies

Requirements

24-25 units

Students who maintain a GPA of at least 3.5 in their major can earn a Certificate of Distinction in Biblical Studies by completing 24-25 units of upper-division work in biblical studies and biblical languages.

Code	Title	Units
Upper-division Ancient Languages course		3-4
UBBL 476	Writing 3: Women in the Biblical Tradition ¹	3
UBBL 493 or UBBL 494	Biblical Studies Capstone Course: Old Testament Theology Biblical Studies Capstone Course: New Testament Theology	3
Choose any five UBBL 4XX courses		15
Total Units		24-25

¹ Meets the General Education Writing 3 requirement.

Minor in Ancient Languages

Requirements

18 units

The ancient languages minor consists of 6 units of elementary language instruction plus any combination of 12 additional units in Greek (Koine or classical), Hebrew, Latin, or other ancient languages. Students may earn a minor in ancient languages with a concentration in either Greek or Hebrew, provided at least 12 units are in the same respective language.

Code	Title	Units
Select 6 units from the following:		6
GRKC 200	Elementary Classical Greek I	
GRKC 201	Elementary Classical Greek II	
GRKB 200	Elementary Greek I	
GRKB 201	Elementary Greek II	
HEBB 200	Elementary Hebrew I	
HEBB 201	Elementary Hebrew II	
LTN 200	Elementary Latin I	
LTN 201	Elementary Latin II	
Select 12 units from the following:		12
GRKB 300	Intermediate Greek I	
GRKB 301	Intermediate Greek II	
GRKB 454	Greek Readings ¹	
HEBB 300	Intermediate Hebrew I	
HEBB 301	Intermediate Hebrew II	
HEBB 455	Hebrew Readings ¹	
ALNG 456	Ancient Languages	
Total Units		18

¹ Course may be repeated to earn enough units for a concentration in either Greek or Hebrew.

Minor in Biblical Studies

Requirements

18 units

The minor consists of UBBL 230, 12 upper-division units in biblical studies (includes the 300-level UBBL General Education requirement), and either UBBL 100 or any additional upper-division biblical studies course. Students may also include upper-division Greek or Hebrew.

Code	Title	Units
UBBL 230	Luke/Acts ¹	3
UBBL 100	Introduction to Biblical Literature: Exodus/Deuteronomy (or any additional upper-division Bible course) ¹	3
Select 12 units from the following:		12
UBBL 310	The Rise of the King: I and II Samuel ²	
UBBL 311	Old Testament Prophets ²	
UBBL 317	Ruth and Esther ²	
UBBL 320	Psalms and Wisdom ²

Minor in Religious Studies

18 units

We are participants in a global community. From our next-door neighbors to our coworkers, our community partners to our global interactions, we are becoming involved with people from all over the world as never before. Religious studies minors leave APU with a greater ability to engage the world from a place of sincere Christian faith, awareness, and praxis.

Mission Statement

The religious studies minor offers courses in global religious studies, employing a dialogical perspective that invites conversation between Christians and people from non-Christian religious traditions. This program prepares undergraduate students for responsible understanding of, and engagement with, people of a variety of global religious traditions in order to be faithful, well-informed, and culturally sensitive participants in intercultural and interreligious dialogue.

Students must achieve a 2.5 cumulative GPA for all courses required for this minor.

Code	Title	Units
RELG 200	World Religions ¹	3
Select 15 units from the following:		15
RELG 350	Judaism: A Story of Hope ¹	
RELG 351	Islam: The Way of Submission ¹

PSYC 440	Psychology of Religion	
SOC 360	Sociology of Religion	

Traditional prerequisites must be met for each course. Students may take a maximum of 6 units from each upper-division subject area (RELG, THEO, UBBL, MIN/MINC/MINY).

Total Units

18

¹ Meets the General Education Intercultural Competence requirement.

Department of Philosophy

Mission Statement

The Department of Philosophy (<https://www.apu.edu/theology/philosophy/>) equips and mentors students to become intellectual leaders in important debates about compelling philosophical issues that shape contemporary culture.

Education Goals

Our degree programs aim to achieve this mission by developing a community of scholars who are:

Intellectually Skilled: Excellent in critical reading, analytic reasoning, and persuasive argumentative writing.

Historically Informed: Cognizant of the classical philosophical theories and principles that have shaped contemporary debates about God, human nature, and the Good Life.

Pragmatically Oriented: Able to use this combination of intellectual skills and theoretical knowledge to influence contemporary cultural practices concerning religion, science, ethics, civil service, public policy, and the arts.

Distinctive Features

These education goals embody four characteristics of APU's Wesleyan Christian heritage:

Classical Christian Orientation: We draw upon the greatest aspects of the classical Christian philosophical traditions—Orthodox, Roman Catholic, and Protestant.

Sanctity of Mind: We believe that all people are called to love God with their minds by cultivating intellectual virtues so they can better understand God, human nature, and all of God's Creation.

Sanctity of Heart: We believe that all people are called to love God with their hearts by cultivating moral virtues so they can be better lovers of God and of their neighbors and better stewards of God's Creation.

Community-Oriented Service: We believe that all people are called to manifest their love of God and neighbor by putting these intellectual and moral virtues into practice, serving their ecclesial and civil communities.

Career Opportunities

By achieving these distinctive education goals, students set themselves up for success in graduate studies and/or careers in philosophy, theology, health care ethics, law, civil service, public policy, education, or ministry.

Extracurricular Activities

The Department of Philosophy offers a number of excellent extracurricular activities that complement its core curriculum. These activities provide students with opportunities not simply to *learn about* but to *begin participating in* important debates about compelling issues that shape contemporary culture.

Philosophy Club

The Philosophy Club meets every other week to discuss compelling philosophical issues in a diverse, friendly, and accessible environment. For more information about the club, contact the department.

Sophia Forum

Made possible by the generosity of an anonymous donor, the Sophia Forum promotes Christian philosophy at APU with an annual two-day series of lectures and small-group discussions led by a renowned Christian philosopher.

Past Sophia Forums have featured speakers from Oxford, Yale, Notre Dame, Saint Louis University, Fordham, and the University of Oklahoma.

Ethics Bowl

Sponsored by the Association for Practical and Professional Ethics, the Ethics Bowl is a series of regional and national debates focusing on cases "covering a wide range of disciplines, including but not limited to, business, engineering, journalism, law, medicine, and social work." The purpose of the debates is to challenge students to "demonstrate their ability to (1) understand the facts of the case, (2) articulate the ethical principles involved in the case, (3) present an effective argument on how the case should be resolved, and (4) respond effectively to challenges put forth by the opposing team as well as the panel of expert judges."

APU began participating in the Ethics Bowl in 2010 and has been quite successful, consistently performing well at the California regional competition and, more recently, at the national competition.

Academic Conferences

The Department of Philosophy draws groups of scholars to campus for academic conferences at which they present their latest research on developments within their fields of expertise.

Past conferences hosted by the department include The Society of Christian Philosophers Pacific Regional Conference and the C.S. Lewis Conference.

Colloquia

The department also invites individual philosophers to campus to lecture and to meet with students to discuss contemporary research in the field.

Courses

PHIL 100, Introduction to Philosophy, 3 Units

This course helps students understand the world better by studying significant interpretations of self, the world, and God-the major concerns of philosophy that have been offered by thinkers past and present. *Meets the General Education Requirement: Philosophy.*

PHIL 100H, Introduction to Philosophy - Honors, 3 Units

This course helps students understand the world better by studying significant interpretations of self, the world, and God that have been offered by thinkers, past and present - the major concerns of philosophy. *Meets the General Education Requirement: Philosophy.*

Prerequisite: To enroll in the course, must be a student admitted to the Honors Program and be considered a member in "active" status.

PHIL 210, Introduction to Critical Thinking, 3 Units

Students study principles of deductive and non-deductive logic. Principles are used to evaluate arguments in a variety of contexts, including the popular media and the professional practices of philosophy, theology, science or law. Students are also expected to assess and improve the logical rigor and clarity of their own reasoning.

PHIL 252, Classical Chinese Ethics, 3 Units

This course provides an introduction to (1) key texts written by a variety of classical Chinese philosophers-e.g., Konzi (Confucius), Mozi, Mengzi (Mencius), Laozi (Lao Tzu), Zhuangzi, and Xunxi-and (2) to their fundamental ethical teachings-e.g., the nature of the dao, the nature of being human, the role of ritual in the moral life, whether virtue requires partiality to one's family and one's culture, and so forth. More importantly, it teaches students to analyze, to evaluate, and to apply the insights of these texts and teachings to their own lives. Through academic study and thoughtful cultural engagement, it offers a life-enriching, cross-cultural encounter with the classical systems of Chinese ethics that shaped eastern Asian cultures and continue to influence eastern Asian immigrant communities around the world. NOTE: This is a lower-division companion course to PHIL 452. *Meets the General Education Requirement: Intercultural Competence.*

PHIL 301, Practical Ethics, 3 Units

In this course, students both (1) learn the fundamental theories and principles that influence contemporary ethical discourse, and (2) develop the ability to apply these theories and principles to contemporary moral problems. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

PHIL 303, Reasons for Faith: Exploring the Rationality of the Existence of God and Christianity, 3 Units

This course equips students to understand and communicate the rich intellectual foundations of a Judeo-Christian worldview. First, students learn various approaches to apologetics, the strengths and weaknesses of those approaches, and a survey of the epistemology of religious belief more broadly. Second, they apply these apologetic approaches with an aim to showcase the rich intellectual foundation for (a) the existence of a perfect Being and (b) the revelation of God through Christ. Third, students study common atheological arguments, ranging from the problem of evil to the problem of hell. Through the course, students learn how to (i) package ideas in clear, organized form, (ii) effectively relate their ideas to their audience, and (iii) think critically and analytically about big, enduring questions relevant to all human beings.

Prerequisite: PHIL 100 or HUM 224 or PHIL 305

PHIL 305, Critical Thinking and Civil Discourse, 3 Units

This course prepares students for effective civic engagement, politically and professionally, teaching them how to apply essential principles of critical thinking in a way that fosters intellectual virtues. These skills and virtues are applied in a variety of contexts including public policy, popular media, and professional practices such as philosophy, theology, science, business, and law. Consequently, the course helps prepare students to successfully complete graduate school placement exams (e.g., GRE, LSAT, MCAT, GMAT). PHIL 100 is not required as a prerequisite, but is strongly encouraged.

Meets the General Education Requirement: Civic Knowledge and Engagement.

PHIL 310, Formal Logic, 3 Units

This course defines logic as the skill of assessing arguments. The course assists students to recognize arguments in both academic and nonacademic forms, increasing confidence in their ability to form a structure of techniques and values to be used as a basis for critiquing others' arguments and creating their own.

PHIL 315, History of Ancient Philosophy, 3 Units

Students explore the development of philosophy from its early beginnings in Greece to the early thought of Augustine. Special attention is given to the Socratic, Platonic, and Aristotelian contributions to the field.

Prerequisite: PHIL 100 or HUM 224

PHIL 316, Medieval Philosophy, 3 Units

This course helps students understand the importance of the medieval era and its contributions to the historical development of philosophy. Thinkers considered in this class include the late Augustine, Averroes, Avicenna, Maimonides, Anselm, Bonaventure, Aquinas, Duns Scotus, and Ockham. Topics considered include the relationship of theology to philosophy, the divine attributes, ontology, and ethics.

PHIL 320, History of Early Modern Philosophy, 3 Units

This course covers the development of philosophy from the Renaissance through the 18th century.

Prerequisite: PHIL 100 or HUM 224

PHIL 325, History of 19th and 20th Century Philosophy, 3 Units

This course offers a study of the significant philosophical movements and figures from late modernity to the turn of the 21st century.

Prerequisite: PHIL 100 or HUM 224

PHIL 330, Ethics, 3 Units

The basic principles of ethical conduct are examined as applied to personal and social problems. The chief theories of the "good life" are investigated, with special attention given to the principles underlying a consistent ethical outlook on life.

Prerequisite: PHIL 100 or HUM 224

PHIL 340, Writing 3: Concepts of Human Nature, 3 Units

This course explores the significant questions concerning human nature. Special emphasis is placed on philosophical, theological, psychological, and sociological theories of the uniqueness of human activity. Extended attention and instruction will be given to various genres of philosophical writing.

Meets the General Education Requirement: Writing 3: Writing in the Disciplines.

Prerequisite: Writing 2; PHIL 100 or HUM 224

PHIL 360, Social and Political Debates, 3 Units

The aim of this course is to prepare students to use ethical principles to argue for justice in the formation of public policies. With this end in mind, students both (1) examine the fundamental principles of social and political philosophy and (2) deliberate about how to employ these principles in contemporary social and political debates. Finally, they put their deliberations into practice by competing in the California Regional Ethics Bowl

PHIL 362, Business, Virtue, and the Good Life, 3 Units

This course provides students with a moral framework for being wise and just business professionals. Students begin by learning the most prominent ethical theories and principles. They then develop the ability to analyze, to evaluate, and to apply these theories and principles in a way that helps them to lead good and virtuous lives—lives that properly balance often competing moral obligations to one's business associates, to one's fellow citizens, and to one's friends and family members.

Prerequisite: Recommended: PHIL 301 or PHIL 330

PHIL 364, Bioethics, 3 Units

In this course, students both (1) learn the most prominent theories and principles used in contemporary bioethics, and (2) develop the ability to analyze, to evaluate, and to apply these theories and principles in the context of contemporary medical practice.

Prerequisite: PHIL 100 or HUM 224; Recommended: PHIL 300 or PHIL 330

PHIL 366, Environmental Ethics, 3 Units

In this course, students will investigate, craft a proposal for, and practice living according to an environmental philosophy as a way of life based on a virtue approach. Additionally, students will research the arguments for and against various environmentally ethical dilemmas in the modern world, aiming to analyze and respond to these arguments and drawing reasonable and actionable conclusions.

Prerequisite: PHIL 100 or HUM 224; Recommended: PHIL 300 or PHIL 330

PHIL 410, Philosophy of Religion, 3 Units

Religious experience is studied from the standpoint of philosophy. An examination is made of the contributions of philosophy to religion and religion to philosophy.

Prerequisite: PHIL 100 or HUM 224

PHIL 415, Philosophical Theology, 3 Units

The purpose of this course is to analyze rational arguments concerning the divine nature. In it, students apply the laws of logic and principles of sound reasoning to empirical evidence (including claims about the direct experience of God) and introspective intuition concerning the concept of God, enabling us to understand the logical limits of that concept.

Prerequisite: PHIL 100 or HUM 224

PHIL 430, Philosophy of Science, 3 Units

The course explores the nature of scientific method and knowledge and the character of scientific explanations. Ways in which ethics and religion interrelate with the sciences are also covered.

Prerequisite: One Lab Science and PHIL 100

PHIL 440, Epistemology, 3 Units

This course exposes advancing philosophy students to the major problems in the theory of knowledge. While some historical background is covered, the principle focus is on the contours of the contemporary debates about such issues as skepticism, epistemic justification, foundationalism, coherentism, internalism, and externalism. Some application is made specifically to the epistemology of religious belief.

Prerequisite: PHIL 100 or HUM 224

PHIL 445, Metaphysics, 3 Units

This course is an introduction to metaphysics that gives the student a broad perspective into contemporary issues of interest concerning what exists and its nature. This involves classroom discussion of readings from the introductory text and primary source material.

Prerequisite: PHIL 100 or HUM 224

PHIL 450, Special Topics in Ethics, 3 Units

In this course, students utilize their foundational knowledge of ethical theories and principles to analyze contemporary debates concerning recent work in meta-ethics, normative ethics, moral epistemology, or moral psychology.

Prerequisite: PHIL 100 and PHIL 330 or instructor consent

PHIL 451, Race, Sex and Science, 3 Units

This course examines concepts of race and sex in relation to the history of modern western science. Students analyze readings in feminist philosophy, critical race theory and postcolonial studies, which argue that the sciences often presume and perpetuate Eurocentric, androcentric bias. Through this analysis, students cultivate the virtues of epistemic justice and intellectual humility required for intercultural competence and a Christlike character.

Meets the General Education Requirement: Intercultural Competence.

Prerequisite: 3xx PHIL or 3xx BIOL course or instructor consent

PHIL 452, Classical Chinese Ethics, 3 Units

This course provides an introduction both (1) to key texts written by a variety of classical Chinese philosophers - e.g., Konzi (Confucius), Mozi, Mengzi (Mencius), Laozi (Lao Tzu), Zhuangzi, and Xunzi - and (2) to their fundamental ethical teachings - e.g., the nature of the dao, the nature of being human, the role of ritual in the moral life, whether virtue requires partiality to one's family and one's culture, and so forth. More importantly, it teaches students to analyze, to evaluate, and to apply the insights of these texts and teachings to their own lives. Through both academic study and thoughtful cultural engagement, it offers a life-enriching, cross-cultural encounter with the classical systems of Chinese ethics that shaped eastern Asian cultures and continue to influence eastern Asian immigrant communities around the world. *Meets the General Education Requirement: Intercultural Competence.*

Prerequisite: PHIL 301 or PHIL 330

PHIL 495, Seminar in Philosophy, 3 Units

Students are assisted in relating philosophical insights to current moral, political, religious, and social issues. Each seminar offers an area of emphasis for study, such as values or the future. It may be taken more than once as topics change.

Prerequisite: PHIL 100 or HUM 224

PHIL 496, Senior Seminar, 3 Units

In this course, students apply their knowledge of the Bible, Christian tradition, and philosophy to contemporary social challenges that confront a Christian worldview. They use this knowledge to analyze, evaluate, and respond to such challenges wisely and insightfully. *Meets the General Education Requirement: Integrative and Applied Learning.*

Prerequisite: Senior standing, completion of the majority of the units required for Biblical, Theological and Philosophical Formation, and Writing 3.

PHIL 496H, Senior Seminar - Honors, 3 Units

PHIL 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between and designed by a student of upper-division standing and a full-time professor. May be repeated for credit. An independent study fee is assessed for each enrollment in this class.

PHIL 497H, Readings - Honors, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed by, a student of upper-division standing and a full-time professor. May be repeated for credit. An independent study fee is assessed for each enrollment in this class.

Prerequisite: To enroll in the course, must be a student admitted to the Honors Program and be considered a member in "active" status.

PHIL 498, Directed Research, 1-4 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The 1-unit expectation encompasses no less than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.

Prerequisite: Junior or Senior Standing

PRPH 100, Introduction to Philosophy, 3 Units

This course helps students understand the world better by studying significant interpretations of self, the world, and God- the major concerns of philosophy that have been offered by thinkers, past and present. *Meets the General Education Requirement: Philosophy.*

WRIT 201, Writing 2: Philosophy of Math, Logic, and Language, 3 Units

Why is mathematics so effective in describing the physical universe? What happens when ordinary reasoning and languages are translated into more abstract mathematical and logical symbolism? Is anything lost in translation? This course introduces students to these and other questions on the nature of mathematics, logic, and language. Students evaluate the arguments, writing styles, rhetorical strategies, and types of evidence employed by the mathematicians, scientists, and philosophers addressing these questions. By critically thinking about formal logical and mathematical discourse, students become better writers in and about that discourse. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*

Prerequisite: GE 100, HON 101, or C- or better in WRIT 110; PHIL 310 or MATH 280 or instructor's consent.

WRIT 202, Writing 2: Philosophical Writing in C. S. Lewis, 3 Units

C. S. Lewis was one of the most influential public Christian intellectuals of the 20th century. One of the reasons for this is that he wrote clearly and persuasively about the perennial questions of philosophy but for the common person. In this course, we will study and practice the art of writing well on philosophical matters for a broad audience. Students will critically assess the writing styles, questions, and arguments of philosophical writing for a general audience and will contrast what it takes to do such writing well with related forms of writing such as philosophical writing for a specialist audience and philosophical writing in fictional form. We will do so by analyzing, emulating, and critiquing the work of C. S. Lewis from the standpoint of philosophy. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*

Prerequisite: GE 100, HON 101 or C- or Better in WRIT 110

Mission

The Department of Philosophy (<https://www.apu.edu/theology/philosophy/>) equips and mentors students to become intellectual leaders in important debates about compelling philosophical issues that shape contemporary culture.

Goals

The philosophy major (<https://www.apu.edu/theology/programs/philosophy-major/>) achieves this mission by developing a community of scholars who are:

- **Intellectually Skilled:** Excellent in critical reading, analytic reasoning, and persuasive argumentative writing.
- **Historically Informed:** Cognizant of the classical philosophical theories and principles that have shaped contemporary debates about God, human nature, and the Good Life.
- **Pragmatically Oriented:** Able to use this combination of intellectual skills and theoretical knowledge to influence contemporary cultural practices concerning religion, science, ethics, civil service, public policy, and the arts.

Distinctive Features

APU's philosophy major embodies four distinctive characteristics of the university's Wesleyan Christian heritage:

- **Classical Christian Orientation:** We draw upon the greatest aspects of the classical Christian philosophical traditions—Orthodox, Roman Catholic, and Protestant.
- **Sanctity of Mind:** We believe that all people are called to love God with their minds by cultivating intellectual virtues so they can better understand God, human nature, and all of God's Creation.
- **Sanctity of Heart:** We believe that all people are called to love God with their hearts by cultivating moral virtues so they can be better lovers of God and of their neighbors and better stewards of God's Creation.
- **Community-Oriented Service:** We believe that all people are called to manifest their love of God and neighbor by putting these intellectual and moral virtues into practice, serving their ecclesial and civil communities.

Career Opportunities

The major in philosophy prepares students for excellence in a variety of careers, such as:

- Professor
- Lawyer
- Bioethicist
- Public Policy Analyst
- Corporate Compliance Manager

- Pastor/Theologian
- K-12 Teacher

Requirements

The philosophy major is completed by taking PHIL 100 or HUM 224 and at least 30 units of upper-division work in philosophy from the list below. Each course is 3 units. Courses below cannot be counted for any other major in the Division of Religion and Philosophy. A minimum 2.5 cumulative GPA is required in all major courses.

Code	Title	Units
Required Courses		
PHIL 100	Introduction to Philosophy ^{1, 2}	3
PHIL 310	Formal Logic	3
PHIL 315	History of Ancient Philosophy ²	3
PHIL 320	History of Early Modern Philosophy ²	3
PHIL 330	Ethics	3
PHIL 340	Writing 3: Concepts of Human Nature ³	3
Select one of the following:		3
PHIL 440	Epistemology	
PHIL 445	Metaphysics	
Electives		
Select 12 units consisting of any upper-division PHIL courses not being used to satisfy the Required Courses above. At least 6 of these units must be at the 400 level. ⁴		12
Total Units		33

¹ Meets the General Education Philosophy requirement.

² HUM 224 may be taken in exchange for PHIL 100. HUM 324 may be taken in exchange for PHIL 315 or PHIL 320.

³ Meets the General Education Writing 3 requirement.

⁴ PHIL 301 and PHIL 303 do not count for this elective requirement.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Formulate philosophical questions with precision and clarity.
2. Articulate the structure of a philosopher's position or philosophical text and assess its strengths and weaknesses.
3. Identify and critique key figures and themes in the history of philosophy and the perspectives of those marginalized by this history.
4. Critically analyze societal problems and proposed resolutions from a Christian perspective.
5. Demonstrate continual intellectual growth through personal research and scholarship.
6. Manifest skills enabling them to be strong candidates for a graduate program in philosophy.

Certificate of Distinction in Philosophy

33 units

The Certificate of Distinction in Philosophy recognizes that a student has achieved a superior mastery of courses that provide a strong basis for graduate study in philosophy and demonstrate the student's ability to think critically within a specialized area of philosophy.

Requirements

To receive the Certificate of Distinction in Philosophy, students must complete 33 units from the list below with a grade-point average of 3.5 or better.

Code	Title	Units
Requirements:		
PHIL 100	Introduction to Philosophy ^{1, 2}	3
PHIL 310	Formal Logic	3
PHIL 315	History of Ancient Philosophy ²	3

PHIL 320	History of Early Modern Philosophy ²	3
PHIL 330	Ethics	3
PHIL 340	Writing 3: Concepts of Human Nature ³	3
Select one of the following:		3
PHIL 440	Epistemology	
PHIL 445	Metaphysics	
Select 12 units of any upper-division PHIL courses not being used to satisfy the requirements above. At least 6 of these units must be at the 400 level. ⁴		12
Total Units		33

¹ Meets the General Education Philosophy requirement.

² HUM 224 may be taken in exchange for PHIL 100; HUM 324 may be taken in exchange for PHIL 315 or PHIL 320.

³ Meets the General Education Writing 3 requirement.

⁴ PHIL 301 and PHIL 303 do not count for this elective requirement. PHIL 360 covers various topics and may be repeated for a total of 6 units within the 12 units of electives. PHIL 451 and PHIL 452 meet the General Education Intercultural Competence requirement.

Minor in Philosophical Apologetics

- Cultural Engagement (p. 1052)
- Youth and Family Ministries (p. 1053)

Courses

MIN 108, Christian Life, Faith, and Ministry, 3 Units

The theological, educational, and social bases for ministry and service are examined. An analysis of the church's responsibility and methods for carrying out the ministry mandate of Jesus is emphasized. *Meets the General Education Requirement: Christian Life, Faith, Ministry.*

MIN 206, Introduction to Practical Theology, 3 Units

This course introduces students to practical theology methods for integrating Christian faith with the attitudes and activities of contemporary society. Students examine contemporary practices in various aspects of life and learn how to develop uniquely Christian positions and actions using various approaches associated with practical theology. Special emphasis is given to training students in processes that equip them to discern Christian responses and initiatives in the midst of a rapidly changing global environment.

MIN 300, Writing 3: Culture and Ministry, 3 Units

This course helps students understand the interplay between cultural awareness and effective ministry. Cultural forces are constantly shifting so emphasis is placed on ethnographic principles and practices as valuable to a minister in order to effectively engage people in various contexts. It will also invest considerable time inside and outside the classroom into enhancing students' written communication as an invaluable tool for expressing their ideas clearly and in a convincing fashion in contemporary cultural contexts. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

Prerequisite: MINC 200 or MINY 203, Writing 2 requirement, Junior Standing & GPA 2.5

MIN 301, Adolescent Development in Family Ministry, 3 Units

This course equips students to integrate practical theology and adolescent developmental theory to empower church communities in cultivating ministry to adolescents and their families toward lifelong flourishing and faith commitment. Emphasis is placed on gaining an understanding of current research in adolescent developmental psychology while considering its implications in contemporary family ministry models.

Prerequisite: MINC 200 or MINY 203; WRIT 200 or MIN 206; and completed General Education Humanities: Social Sciences requirement, junior or senior standing, or department consent.

MIN 336, Family Development and Ministry, 3 Units

This course equips students to design and apply practical theology methods and programs that empower the family. Specific focus is placed upon the family in its cultural setting, and the development needs of various family members at particular stages of life.

Prerequisite: WRIT 200 or MIN 206 and PSYC 290 or completed Humanities: Social Science General Education requirement.

MIN 350, Mentoring and Small Groups, 3 Units

The theology and practice of mentoring and small group involvement is studied in the context of relational discipleship and spiritual formation. Topics for study include leadership, group formation, group dynamics, small group models and purpose, program development, the range of mentoring possibilities, communication models, and models for spiritual transformation.

Prerequisite: MINC 200 or MINY 203 and WRIT 200 or MIN 206

MIN 401, Christian Ministry Internship I, 3 Units

This course develops a student's ability to blend Christian theology and Christian practice by integrating classroom learning, hands-on practice, spiritual formation, mentoring, and critical reflection on the practice of the Christian faith. Course work covers: biblical and theological foundations of Christian practice, the context in which the Christian faith is to be practiced, and the dynamic relationship between the two. Students are required to serve an average minimum of 6 hours per week in hands-on field experience. Students must also participate in small groups for reflection, mentoring, and spiritual formation.

Prerequisite: WRIT 200 or MIN 206, MIN 300, THEO 200, two General Education UBBL courses, and GPA 2.5.

MIN 402, Christian Ministry Internship II, 3 Units

This course is a continuation of the first semester and has a similar format in terms of classroom experience, field experience, and small groups. It further develops a student's ability to blend Christian theology and ministry by utilizing a method of reflecting theologically on the practice of Christian faith and facilitating the ability to clearly state and defend one's own theology for Christian ministry. Students are required to serve an average minimum of 8 hours per week in hands-on field experience.

Prerequisite: MIN 401

MIN 417, The Art of Leadership, 3 Units

This course teaches students to critically integrate Christian theology with best leadership practices in church ministry and non-profit ministry environments. The course equips students to create actions and practices that have a positive, transformative Christian impact in the lives of those we serve and those who serve with us. Students will learn to develop these actions and practices in their internships.

Prerequisite: GPA 2.5, WRIT 200 or MIN 206, THEO 200, two General Education UBBL courses.

Corequisite: MIN 401

MIN 495, Topics in Ministry, 3 Units

This course engages in a focused and intensive study of particular topics of direct relevance and urgency in the practice of Christian ministry and youth ministry. Topics vary from semester to semester, and this course may be taken more than once as topics change.

MIN 496, Senior Seminar: Church and Society, 3 Units

Students use practical theology methods learned in class to create an integrated Christian response to a contemporary social issue. It considers the ethical, spiritual, and community causes and impacts of social issues and teaches students to develop informed Christian responses to them. This course is taught in a seminar format that includes major papers developed over the course of the semester, leading class discussions, and a presentation. *Meets the General Education Requirement: Integrative and Applied Learning.*

Prerequisite: Senior standing, Writing 3, and completion of the majority of the units required from the Biblical, Theological, and Philosophical Formation category in General Education.

MINC 105, Introduction to Global Vision, 1 Unit

Students are exposed to opportunities for Christian service abroad while gaining an overview of the present progress of the Great Commission. Does not count toward the Christian ministries major.

MINC 110, Introduction to Intercultural Christian Ministries, 3 Units

Students are exposed to intercultural Christian service opportunities while gaining an overview of the present progress of the Great Commission. Requires participation in spring or summer short-term mission experience through the Institute of Outreach Ministries or an APU sponsoring office with final grade 'In Progress' until deadline for service requirement reflection is reached. This course serves as a prerequisite for the Intercultural Christian ministries concentration. Students must complete all course requirements by the first day of the fall semester.

MINC 200, Introduction to Contemporary Christian Ministries, 3 Units

This course exposes students to various ministry contexts and vocations while they begin to form a philosophy and theology of ministry. Emphasis is on the theological, philosophical, and practical viability of current ministry models while identifying unique emphases relevant to particular contexts. Students engage in an assessment of their own gifts, personality traits, and ministry calling in light of exposure to ministry options.

Prerequisite: MIN 108 (may be taken concurrently)

MINC 253, Evangelism and Discipleship, 3 Units

Students in this course develop a biblically informed approach to evangelism and discipleship as a central purpose of the Church. Students explore this purpose in light of Jesus' mission statement, "Go and make disciples of all nations" (Matt. 28:19). This course carefully examines the necessary building blocks for producing an evangelistic, disciple-making Church community, with a significant focus on understanding the process of individual and corporate spiritual formation.

Prerequisite: 2.5 GPA, MINC 200 or MINY 203, and WRIT 200 or MIN 206.

MINC 318, Theology and Practice of Ministry, 3 Units

The life and work of the Christian pastor is studied with attention to the broad range of duties, rituals, and responsibilities for which the contemporary Christian pastor is expected to have competency. Topics for study include administration of sacraments, church finance, staff administration, worship, church boards, pastoral visitation, and evangelism.

Prerequisite: MINC 200 or MINY 203 and WRIT 200 or MIN 206

MINC 326, Effective Teaching in Christian Education, 3 Units

Students study the principles and procedures involved in effective classroom teaching: philosophies of teaching, methods, the teaching-learning process, motivation, guidance, integration, and evaluation.

Prerequisite: MINC 200 or MINY 203 and WRIT 200 or MIN 206

MINC 330, Intercultural Ministries, 3 Units

The course provides an understanding of the challenges and opportunities associated with intercultural ministry in and beyond the local church. Biblical, eschatological, missiological, socio-cultural and practical issues are explored with the goal of providing conceptual tools for analyzing, adapting, and creating practical ways to respectfully reach, embrace and engage those from diverse cultural contexts as members of the body of Christ. *Meets the General Education Requirement: Intercultural Competence.*

Prerequisite: MINC 200 or MINY 203 and WRIT 200 or MIN 206

MINC 346, Ministry to the City, 4 Units

This course provides the student with a broad introduction to the unique challenges and opportunities for Christian ministry in an urban context with special attention to some of the most effective methods and tools for doing urban ministry. Students are encouraged to reflect on their own lifestyles and future ministry choices in light of the needs of the city and the response of the gospel in meeting human need. Exposure to city life and church-based organizations working for the shalom of the city provide a dynamic context for the various learning activities in this course.

Prerequisite: MINC 200 or MINY 203 and WRIT 200 or MIN 206

MINC 370, Introduction to Pastoral Care and Counseling, 3 Units

Pastoral counseling as a specialized ministry within the field of pastoral care will be explored didactically and practically in the preparation of persons who plan to do pastoral counseling and pastoral psychology. This course will engage in interdisciplinary examination of the physiological, cultural, theological, and biblical understanding of care and counseling. A survey of counseling theory from an integrative perspective, with attention to particular ministry issues will be incorporated into a practical format in a community setting.

Prerequisite: MINC 200 or MINY 203, WRIT 200 or MIN 206, and completed Humanities: Social Science General Education requirement.

MINC 405, Christian Mission in the 21st Century, 3 Units

This course is an introduction to the biblical, historical, and theological foundations of missions in a contemporary world setting, both globally and locally. The call, context, and preparation for missionary service are examined.

Prerequisite: MINC 200 or MINY 203 and WRIT 200 or MIN 206 (not required for non-youth ministry/Christian ministries majors).

MINC 406, History and Philosophy of Christian Education, 3 Units

The history of educational theory, with emphasis on objective and philosophical problems and biblical bases, is covered in this course.

Prerequisite: WRIT 200 or MIN 206

MINC 408, Principles of Preaching, 3 Units

This course offers a study of classical homiletics and a variety of sermonic methodologies. Sound hermeneutical principles in exegesis of Scripture and the worship setting of the sermon with emphasis on the delivery of effective expository sermons in the contemporary world are covered.

Prerequisite: WRIT 200 or MIN 206, MINC 200 or MINY 203, UBBL 3xx/4xx.

MINC 416, Communicating the Gospel, 3 Units

This course assists the student in following Jesus' model of a people "filled with grace and truth" (John 1:14). Special attention is given to writing, speaking, teaching, interpersonal communication, body language, problem solving, and other critical tasks necessary to being a Christian and carrying out the Great Commission.

Prerequisite: WRIT 200 or MIN 206, MINC 200 or MINY 203, UBBL 3xx/4xx.

MINC 420, Suffering: Theological and Practical Perspectives on Disabilities, 3 Units

This course examines theological perspectives to understand the role of suffering in the human experience. Focusing on persons with disabilities, students explore their personal values, gain understanding of bio-psycho-social-spiritual components of disability, access available resources, and develop strategies to help churches/agencies develop inclusive programs.

Prerequisite: 3 units of UBBL and Junior standing

MINC 430, Race, Reconciliation, and Ministry, 3 Units

This course prepares students to engage people in ministry in a contemporary culture that is increasingly multiethnic. To equip students to be more culturally intelligent, course material guides them in an exploration of the historical and contemporary relationships between race, theology, and ecclesiology in Western culture, with the intent of developing a commitment to reconciliation grounded in their theological convictions. *Meets the General Education Requirement: Intercultural Competence.*

Prerequisite: WRIT 3

MINC 446, Children's Educational Ministries, 3 Units

Childhood development, the needs of children in contemporary society, and biblical and theological perspectives on children are examined, with an emphasis on discerning the church's role in nurturing spiritual formation in the faith community.

Prerequisite: MINC 200 or MINY 203, WRIT 200 or MIN 206, and PSYC 290; completed Humanities: Social Science General Education requirement.

MINC 456, Ministry Organization and Administration, 3 Units

This course examines the process of ordering the ministry of the church or parachurch community for the greatest effectiveness. This order is to be understood theologically as a means of creating the most ideal context possible for the Holy Spirit to minister to and through people. All aspects of strategic planning, church organization, and administration are addressed.

Prerequisite: MINC 200 or MINY 203 and WRIT 200 or MIN 206

MINC 466, Adult Development and Spiritual Formation, 3 Units

The course examines the process and contexts by which adults mature engaging biblical and theological foundations for adult development and spiritual formation that takes adult characteristics, needs, life-cycle, and learning patterns into consideration.

Prerequisite: WRIT 200 or MIN 206, MIN 300 and MIN 301 or department consent

MINC 467, Spiritual Transformation, 3 Units

The course examines the process and contexts by which persons mature, engaging biblical and theological foundations for spiritual transformation that takes developmental characteristics, needs, life cycles, and learning patterns into consideration. The course emphasizes community and individuals.

Prerequisite: MIN 300, MIN 301, or department consent

MINC 486, Urban Ministry Practicum, 6 Units

The practicum is intended to provide students with a broad understanding of urban life and ministry. The practicum develops a student's ability to interface theory and practice, theology and ministry, by integrating classroom learning, hands-on practice, spiritual formation, mentoring, and critical reflection on the practice of the Christian faith in an urban setting. During the practicum, the student is required to live, work, worship, and study in the city.

Prerequisite: WRIT 200 or MIN 206, MINC 346 or MINC 487.

MINC 487, Exegeting the City, 3 Units

This course explores the development of a "hermeneutic" for understanding the built environment as a means to engage the city and enhance ministry opportunities. Discussion centers on physical, sensory indicators of community needs and resources. The goal is to more adequately contextualize Christian urban ministry. Topics include community mapping, needs assessment, resource identification, measurement of change, and strategic ministry development. Course work is taught at a graduate level, but undergraduates are welcome.

Prerequisite: MINC 200 or MINY 203 and WRIT 200 or MIN 206

MINC 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed by, a student of upper-division standing and a full-time professor. May be repeated for credit. An independent study fee is assessed for each enrollment in this class.

Prerequisite: WRIT 200 or MIN 206

MINC 498, Directed Research, 1-4 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The one-unit expectation encompasses no less than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than one unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class. May be repeated for credit.

Prerequisite: Junior or Senior Standing

MNCE 310, Practical Theology and Contemporary Issues, 3 Units

Students in this course learn to apply specific methodologies associated with the discipline of practical theology to reflect on and respond in appropriate ways to a contemporary issue, informed by significant theological reflection and cross-disciplinary insight. The specific topic addressed varies each semester based on issues arising in contemporary culture that require careful theological reflection.

Prerequisite: WRIT 200 or MIN 206, THEO 200, PHIL 301, and junior standing or department consent

MNCE 415, Practical Theology and Vocational Engagement, 3 Units

This capstone course for the cultural engagement minor enhances a student's ability to identify and skillfully utilize principles characteristic of the discipline of practical theology to develop a theologically informed perspective regarding issues related to their chosen major or perceived vocational aspirations. Students engage in a cross-disciplinary research project in order to demonstrate their ability to relate methodologies and perspectives associated with practical theology to a specific issue or experience they will encounter in the context of their professional lives.

Prerequisite: VOC 200, MNCE 310, and senior standing.

MINY 172, Foundations of Youth Outreach and Discipleship I, 1 Unit

This course provides an introduction to YoungLife, as well as a theological and practical foundation for students interested in Young Life leadership. Students investigate the theology of the incarnation and evangelism, and begin to develop a personal theology of ministry. Site visits to local schools and YoungLife clubs, coupled with relevant readings, will expand students' understanding of the complexities of current adolescent culture.

MINY 174, Foundations of Youth Outreach and Discipleship II, 2 Units

Building upon MINY 172, this course further equips YoungLife leaders by challenging students to engage various theological topics, promoting their own understanding and spiritual formation. Students will develop the ability to articulate their own faith, as well as the theological foundations informing it. Following the YoungLife format, students will construct and deliver several club talks. Practical issues such as time management, logistics, legal issues, and dealing with difficult adolescent/family issues will be addressed.

Prerequisite: MINY 172

MINY 203, Introduction to Contemporary Youth and Family Ministries, 3 Units

This course exposes students to conceptualizations of local church youth and family ministries in a variety of forms, in an effort to engage students in the process of beginning the formation of their own philosophy and theology of youth and family ministries. Emphasis is on the theological, philosophical, and practical viability of current ministry models, while identifying unique strategies relevant to particular contexts. Students take part in an assessment of their own gifts, personality traits, and ministry calling in light of exposure to ministry options.

Prerequisite: MIN 108 (may be taken concurrently)

MINY 226, Studying and Teaching the Bible, 3 Units

This course helps students develop skills in biblical exegesis and teaching biblical principles to youth. Emphasis is placed upon evaluating students' ability to teach the Bible in settings both inside and outside the classroom.

Prerequisite: MIN 108, UBBL 100 or UBBL 230, or department consent

MINY 305, Integration of Faith and Sports, 3 Units
